AAS/N0502: Follow safety and security procedures

Description

This unit is about following awareness of safety and security procedures as defined by organisational policies and regulatory guidelines

Elements and Performance Criteria

Comprehending the safety and security procedures for conduct of operations

To be competent, the user/individual on the job must be able to:

- PC1.** comply with the organisations safety and security policies and procedures
- PC2.** comply with the regulatory guidelines on safe conduct of operations and maintenance of conditions to thwart any acts of unlawful interference
- PC3.** report any identified breaches of safety, and security policies and procedures to the designated person
- PC4.** coordinate with other resources at the workplace (within and outside the organisation) to achieve safe and secure environment
- PC5.** identify and mitigate any safety and security hazards like illness, accidents, fires or acts of unlawful interference if it falls within the limits of individuals authority
- PC6.** report any hazards outside the individuals authority to the relevant person in line with organisational procedures and regulatory guidelines
- PC7.** follow organisations emergency procedures for accidents, fires or acts of unlawful interference
- PC8.** identify and recommend opportunities for improving health, safety, and security to the designated person
- PC9.** complete all health and safety records are updates and procedures well defined

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** hazard identification and risk management as defined within the organisational policy and procedures
- KU2.** regulatory requirements and organisations procedures for maintenance of safety and security standards and individuals role and responsibilities in relation to this
- KU3.** how and when to report hazards
- KU4.** the limits of responsibility for dealing with hazards
- KU5.** the organisations emergency procedures for different emergency situations and the importance of following these
- KU6.** importance of maintaining high standards of safety and security
- KU7.** implications that any non-compliance with safety and security may have on individuals and the organisation
- KU8.** different types of breaches of safety and security and how and when to report these
- KU9.** evacuation procedures for workers and passengers

Qualification Pack

- KU10.** how to summon medical assistance and the emergency services, where necessary
KU11. how to use the health, safety and accident reporting procedures and the importance of these
KU12. regulatory guidelines on dealing with safety and security emergencies

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** complete accurately a well written report in English language detailing the situations of emergency with attention to detail
GS2. read instructions/guidelines/procedures/rules
GS3. listen to and orally communicate information with all concerned
GS4. make decisions on a suitable course of action or response if permitted by the authority matrix
GS5. monitor efficient functioning of all activities
GS6. plan and organize work to achieve targets and deadlines
GS7. communicate with passengers and other stakeholders in a courteous manner
GS8. maintain cordial work relationship
GS9. identify trends/common causes for errors and suggest possible solutions to the supervisor / management
GS10. identify and correct errors
GS11. analyse best possible solutions (cost, time, effort, etc.) suited for operations
GS12. concentrate on task at hand and complete it without error
GS13. apply balanced judgments to different situations

AAS/N0609: Perform Pre-flight tasks of cabin crew

Description

This unit is about performing pre-flight tasks of Cabin Crew

Elements and Performance Criteria

Pre-flight briefing

To be competent, the user/individual on the job must be able to:

- PC1.** participate in pre-flight briefings and gather the required information with regards to his/ her own individual working position on the flight
- PC2.** collect and gather information about the flight, schedule of the flight, details of total passengers on board, details of infants, and if there are passengers with any special requirements, such as diabetic passengers or passengers in wheelchairs
- PC3.** carry out pre-flight duties, including checking the safety equipment and security checks, ensuring the aircraft is clean and tidy and that the information in the seat pockets is up to date and that all meals, drinks and stock are on board
- PC4.** carry out any other tasks assigned to by the senior/captain or mandated as per organisation policies or regulatory policies

Receive and welcoming passenger

To be competent, the user/individual on the job must be able to:

- PC5.** greet the incoming passengers in a courteous manner
- PC6.** assist the passengers by directing them to their assigned seats
- PC7.** assist the passengers with storing their hand baggages in the appropriate location
- PC8.** assist the passengers with their requirements if any
- PC9.** make necessary announcements/briefing as required by organisational policy and regulatory policies

Pre-departure check

To be competent, the user/individual on the job must be able to:

- PC12.** perform visual check of the aircraft cabin and the aircraft toilets and galleys
- PC13.** appropriately communicate with the ground staff and provide confirmation of aircraft cabin ready for departure
- PC14.** perform aircraft door closing and arming of the aircraft door as per procedures in the aircraft/organisation manual and regulatory procedures
- PC15.** make necessary announcements
- PC16.** communicate to captain aircraft cabin secure for flight
- PC10.** do a headcount of passengers after boarding is complete and confirm the same with the passenger manifest
- PC11.** provide emergency exit row briefing to passengers sitting on the emergency exist rows

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

Qualification Pack

- KU1.** policies and procedures that govern the acceptable passenger activities on board the aircraft during flight
- KU2.** legal procedures to be followed against passengers which threaten the safety of flight
- KU3.** how and when to report medical emergencies on board
- KU4.** the communication hierarchy laid down the organisation
- KU5.** the organisations emergency procedures for different emergency situations and the importance of following these
- KU6.** the importance of maintaining high standards of safety and security
- KU7.** implications that any non-compliance with safety and security may have on individuals and the organization
- KU8.** different types of emergency equipment(s) available on the aircraft type being operated
- KU9.** basic first aid and the use the emergency equipment(s)
- KU10.** basic WHO regulations and the risks of infectious diseases across the regions where the airline operates
- KU11.** how to use the health, safety and accident reporting procedures and their importance
- KU12.** regulatory guidelines on dealing with safety and security emergencies

AAS/N0610: Passenger handling during flight operations

Description

This unit is about passenger handling functions of cabin crew during flight operations

Elements and Performance Criteria

Passenger handling during flight operations

To be competent, the user/individual on the job must be able to:

- PC1.** identify and manage passengers who are, or become, intoxicated with alcohol or are under the influence of drugs or are aggressive
- PC2.** manage passengers to expedite an aircraft evacuation
- PC3.** brief the passengers on regulations covering the safe stowage of cabin baggage (including cabin service items) and the risk of it becoming a hazard to occupants of the cabin or otherwise obstructing or damaging safety equipment or aircraft exits
- PC4.** ensure that correct seat allocation be maintained especially the seating of disabled passengers, and the necessity of seating able-bodied passengers adjacent to unsupervised exits;
- PC5.** brief the passengers during turbulence in flight
- PC6.** serve food and beverage in a courteous manner to the passengers as per organisation service procedures and ensure all service standards set forth the organisation are adhered to
- PC7.** perform financial transactions using cash, card or any other acceptable form of payment as detailed by organisation policy and procedures
- PC8.** assist passengers with their requirements in flight

Handling passenger during medical emergency

To be competent, the user/individual on the job must be able to:

- PC9.** provide assistance to passengers in case of oxygen requirements and hypoxia
- PC10.** provide basic first aid in cases of (descriptive): asthma choking heart attack stress reactions and allergic reactions shock stroke epilepsy diabetes air sickness hyperventilation gastro-Intestinal disturbance emergency Childbirth contact of infectious diseases
- PC11.** provide aid in survival techniques for passengers enduring (descriptive): unconsciousness burns wounds fractures and soft tissue injuries
- PC12.** dispose off clinical waste in a safe manner
- PC13.** use the appropriate aircraft equipment including first aid kits, emergency medical kits, first aid oxygen and emergency

Handling passenger during fire emergency on board the aircraft

To be competent, the user/individual on the job must be able to:

- PC14.** identify the source of fire or smoke
- PC15.** communicate clearly to the reporting senior about the nature of emergency and any further details about the source of the fire or smoke
- PC16.** classify the type of fire and ascertain the required fire extinguishing agent for the fire
- PC17.** appropriately manage passengers and ensure that the passengers do not panic due to fire and smoke in the cabin

Qualification Pack

- PC18.** perform clearly the functions and steps advised by the senior crew/captain of the flight during the emergency
- PC19.** alert the passengers on the emergency exists to follow the commands and open the emergency exists when instructed
- PC20.** direct the passengers safely to the emergency exists and away from the aircraft on landing
Handling passenger during emergency landing on water

To be competent, the user/individual on the job must be able to:

- PC21.** direct passengers and assist passengers in donning the personal floatation equipment
- PC22.** alert the passengers on the emergency exists to follow the commands and open the emergency exists when instructed
- PC23.** direct the passengers safely to the emergency exists and onto the life raft(s)
- PC24.** assist passengers who are unable to swim

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** policies and procedures that govern the acceptable passenger activities on board the aircraft during flight
- KU2.** legal procedures to be followed against passengers which threaten the safety of flight
- KU3.** how and when to report medical emergencies on board
- KU4.** the communication hierarchy laid down the organisation
- KU5.** the organisations emergency procedures for different emergency situations and the importance of following these

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score the Recommended Pass % aggregate for the QP.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
