AAS/N0625: Introduction to Airport Operations

Description

This Unit provides a foundational understanding of airport operations, infrastructure, and the roles of various stakeholders. It covers key aspects such as terminal layout, regulatory compliance, and passenger services. This unit equips learners with essential knowledge for entry-level roles in airport operations and management

Scope

The scope covers the following :

- Understanding Airport Operations and Infrastructure
- Role of Stakeholders and Compliance
- Customer Service and Technology

Elements and Performance Criteria

Understanding Airport Operations and Infrastructure ,Role of Stakeholders and Compliance, Customer Service and Technology.

To be competent, the user/individual on the job must be able to:

- PC1.** PC1. Understand the roles of runways, taxiways, aprons, terminals, and cargo facilities in airport operations.
- PC2.** PC2. Distinguish between airside and landside operations and their respective functionalities.
- PC3.** • PC3. Understand the responsibilities of airlines, ground handlers, airport operators, and regulatory authorities in airport
• management.
- PC4.** PC4. Follow safety guidelines and security measures as per regulatory standards like ICAO and DGCA.
- PC5.** PC5. Address passenger inquiries, resolve complaints, and ensure service excellence while maintaining professionalism
- PC6.** PC6. Demonstrate knowledge of key regulatory guidelines governing airport operations and compliance requirements
- PC7.** • PC7. Explain the role of self-service kiosks, baggage handling systems, and automated security screening in enhancing
• efficiency
- PC8.** PC8. Ensure smooth coordination between stakeholders to optimize operations and passenger satisfaction.
- PC9.** • PC9. Respond appropriately to emergency scenarios, including evacuation procedures and crisis management Update flight
• information and recording systems.
- PC10.** PC10. Support sustainable practices and compliance with environmental regulations in airport operations.

Knowledge and Understanding (KU)

Qualification Pack

The individual on the job needs to know and understand:

- KU1.** Understanding the structure and layout of terminals, runways, taxiways, aprons, and other facilities.
- KU2.** Knowledge of the functions and activities within airside (restricted zones) and landside (public areas) of an airport
- KU3.** Familiarity with the roles of airlines, airport operators, ground handlers, regulators, and service providers
- KU4.** Awareness of aviation regulatory bodies like ICAO and DGCA and their standards for safety, security, and environment Airside Driving
- KU5.** Aviation Vocabulary, Codes, Terminologies
- KU6.** Principles of airport communications and dispatch.
- KU7.** Gate management software systems

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Fill any forms related to documentation
- GS2.** Prepare required reports for management as required
- GS3.** Communicate clearly with supervisors, passengers, and peers
- GS4.** Identify trends/common causes for errors and suggest possible solutions to the supervisor / management
- GS5.** Concentrate on task at hand and complete it without errors
- GS6.** Check compliance for escalation
- GS7.** Monitor efficient functioning of all activities
- GS8.** Prioritize and execute tasks in within the scheduled time limits
- GS9.** Understand types of faults occurring and how to deal with it
- GS10.** Communicate effectively both orally and in writing.
- GS11.** Keep routine records. File/maintain records and reports ensuring completeness and accuracy.
- GS12.** Operate a personal computer/tablet and compatible standard office software.
- GS13.** Analyse situations carefully and apply effective remedy.
- GS14.** Work under deadlines and coordinate several concurrent assignments

AAS/N0626: Perform Daily Operations and ensure readiness

Description

This unit describes the actions to be performed with reference to performance of daily operations in the terminal and airside and ensure readiness of operational personnel and equipment accordance with organisational and regulatory procedures

Scope

The scope covers the following :

- Performance of Daily Operations
- Ensure Operational Readiness

Elements and Performance Criteria

Performance of Daily Operations

To be competent, the user/individual on the job must be able to:

- PC1.** Oversee and coordinate the effective flow of passengers into, out of and throughout the terminal building and landside facilities.
- PC2.** Coordinate with AOCC and obtain latest updates on flight arrivals, departures, gate changes
- PC3.** Appraise the passenger with the latest information on flight arrivals, departures, gate changes
- PC4.**
 - Organize all information relating to the following facilities at the airport for dissemination to the passenger namely
 - Airport operator offices
 - Airline offices
 - VIP lounges
 - International Departure/Arrival terminal & gates
 - Domestic Departure/Arrival terminal & gates
 - Remote gates
 - Duty Free /Retail shops, prayer rooms & baby care
 - Airline lounges & restaurants
 - Fast food joints, promotional areas, internet café, book stalls & smokers' room
 - Buggy services & inter terminal transfers
- PC5.** Monitor and report deficiencies if any in the FIDS/signages to the IT/appropriate team
- PC6.** Monitor the queue flow and inform supervisor for any additional resource requirement
- PC7.** Proactively guide senior citizens and ladies with infants, passengers with reduced mobility in the respective queues
- PC8.** Coordinate special movements in the terminal and concourses for VIPs, dignitaries, and special events.
- PC9.** Manage the retrieval of tubs from the arrival so that it can be circulated back to departures
- PC10.** Report discrepancies relating to the damage/pilferage of the tubs to the facilities Manager
- PC11.** Prepare electronic/manual logbook entries of daily events, maintain databases, and prepare reports as needed.

Qualification Pack

PC12. Monitor and Record flight turnarounds

PC13. Update flight information and recording systems.

PC14. Monitor and inspect ground transportation services within the Airport and at entry/exit points.

Ensure Readiness

To be competent, the user/individual on the job must be able to:

PC15. Obtain from the relevant stakeholder's information on the availability of check-in counters

PC16. Obtain from the AOCC the availability of parking Bays (contact & non-contact bays)

PC17. Obtain from the AOCC the availability of baggage belts in the arrival hall

PC18. Report the absence of/reduced availability of airline/GHA staff during flight disruptions to the respective airline

PC19. Observe for any shortages of trollies in the departure and arrival areas and inform trolley supervisor to address shortage if any

PC20. Monitor and report the non-availability of baggage tubs at the check-in counters/security areas

PC21. • Inform the engineering and maintenance personnel, in case of un-serviceability of facilities such as:

- CUTE system failure
- Baggage Handling System failure
- Check-In counters
- Contact gates and aerobridges
- Arrival carousel
- BIDS
- FIDS
- Baggage Make-up Area
- Remote gates
- VVIP lounge
- VDGS

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. Aviation / Airport regulatory frame works (i.e. ICAO, IATA, DGCA, etc.)

KU2. ICAO Annex 14 - Aerodromes

KU3. Terminal & Airside operations and landscape

KU4. Baggage Handling Systems

KU5. Airport operations SOP

KU6. Technology Systems at the Airport including CUTE/CUSS/FIDS

KU7. Airport facilities- operational and customer related

KU8. Airside Driving

KU9. Aviation Vocabulary, Codes, Terminologies

KU10. Principles of airport communications and dispatch.

KU11. Gate management software systems

Qualification Pack

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Prioritize and complete daily tasks efficiently to maintain smooth terminal operations.
- GS2.** Stay alert to the terminal environment, anticipating and reacting to potential issues quickly.
- GS3.** Deliver prompt, courteous support to passengers and handle inquiries or concerns professionally.
- GS4.** Respond effectively to emergencies, delays, or unexpected disruptions in operations.
- GS5.** Coordinate clearly with airlines, security, ground staff, and passengers via verbal and written communication.
- GS6.** Work closely with cross-functional teams to ensure seamless daily operations.
- GS7.** Monitor schedules, signage, flight information, and service standards with precision.
- GS8.** Resolve operational challenges promptly, minimizing impact on passenger experience.
- GS9.** Adjust to changes in schedules, weather conditions, and passenger flow without disruption.
- GS10.** Use airport management systems (e.g. FIDS, BRS, RMS) and communication tools confidently.
- GS11.** Ensure daily operations comply with aviation regulations and safety protocols.
- GS12.** Handle disputes calmly and professionally, ensuring issues are de-escalated quickly.
- GS13.** Keep records, logs, and reports accurate and well-structured.
- GS14.** Conduct pre-shift inspections and readiness assessments to prevent operational delays.
- GS15.** Juggle multiple tasks under pressure while maintaining high performance and accuracy.

AAS/N0627: Incidents, Accidents, Security, and Emergency Handling & Reporting

Description

This unit describes the actions to be performed with reference to reporting of Incidents, Accidents, Security Breaches, Emergencies & Safety Violations as well as their handling in accordance with organisational and regulatory procedures.

Scope

The scope covers the following :

- Incidents, Accidents, Security, Emergency, Safety Reporting & Handling

Elements and Performance Criteria

Incidents, Accidents, Security & Emergency Handling & Reporting

To be competent, the user/individual on the job must be able to:

- PC1.** Assist the terminal operations supervisor by overseeing and resolving operational problems, emergencies, and other unusual situations in the terminal, airport facilities to ensure the safety of travellers
- PC2.** Report to the respective security team on unidentified baggage in the passenger terminal building
- PC3.** Report to the respective security team on altercation/violence observed in the passenger terminal building
- PC4.** Report to the respective security team on receipt of any bomb threat calls
- PC5.** Report to the respective security team on issues pertaining to diplomatic mail
- PC6.** Report to the respective security team on suspicious items found in the level-4 screening of baggage
- PC7.** Coordinate the investigation/response to security violations in accordance with the airport's security plan.
- PC8.** Report to the safety team & supervisor on fuel spillage from the aircraft during refuelling/defueling
- PC9.** Report to the safety team & supervisor on fuel spillage from ground service equipment
- PC10.** Report to the safety team & supervisor on incidents involving collision between ground service equipment and aircraft
- PC11.** Report to the safety team & supervisor on damage to aerobridge due to collision with incoming aircraft
- PC12.** Report to the safety team & supervisor on any vehicle violations on the apron in terms of over speeding etc.
- PC13.** Report to the safety team & supervisor on any other incidents/accidents that would have a bearing on operational flow
- PC14.** Record & report any suspicious calls received where allocation has been done for manning telephone lines in accordance with established procedure

Qualification Pack

- PC15.** Respond to medical, public safety, security, and a variety of other problematic emergency situations in the terminal and concourse areas.
- PC16.** Respond to all aircraft emergencies, incidents, and accidents.
- PC17.** Prepare and distribute accident and incident reports.
- PC18.** Function as the liaison to the incident commander until relieved.
- PC19.** Assist the incident commander by coordinating responding services.
- PC20.** Assemble at desks designated for meeters and greeters in the event of an accident with appropriate information/forms as per established protocol
- PC21.** Participate in emergency mock drills as mandated by the airport management
- PC22.** Prepare operational reports assigned by supervisor / manager

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Understanding of standard emergency response plans (e.g., fire, medical, bomb threat, evacuation).
- KU2.** Knowledge of how to identify, differentiate, and categorize various types of incidents and accidents.
- KU3.** Familiarity with types of security threats (e.g., suspicious packages, unauthorized access, terrorism risks) and how to respond appropriately
- KU4.** Ability to use correct formats and systems for logging and reporting incidents, including details required for investigations.
- KU5.** Clear Understanding of one's role and the chain of command during emergencies or crisis situation
- KU6.** Awareness of local and international regulations (e.g. ICAO, DGCA, IATA, OSHA) related to incident reporting and safety compliance.
- KU7.** Familiarity with alarms, fire extinguishers, first aid kits, communication systems, and emergency exits.
- KU8.** Knowledge of what to do after an incident, including reporting, debriefing, investigation participation, and corrective actions.
- KU9.** Understanding the importance of maintaining confidentiality and handling sensitive information appropriately during and after incidents.
- KU10.** Awareness of how to collaborate with internal departments and external agencies (e.g., police, fire, ambulance) during and after emergencies

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Ability to stay alert and recognize early signs of unusual or unsafe situations.
- GS2.** Act swiftly and appropriately during emergencies, following protocols and prioritizing safety.
- GS3.** Stay calm under pressure and coordinate actions during high-stress situations.
- GS4.** Identify potential hazards and assess their impact to take preventive measures

Qualification Pack

- GS5.** Clearly communicate during incidents with team members, security, and emergency responders.
- GS6.** Make quick, sound decisions to minimize harm and ensure control during critical events.
- GS7.** Accurately document incidents, write reports, and ensure timely communication with the concerned authorities.
- GS8.** Understand and follow SOPs, security regulations, and emergency procedures
- GS9.** Work effectively with police, fire, medical teams, and other response units.
- GS10.** Handle aggressive or panicked individuals professionally to prevent escalation.
- GS11.** Basic knowledge of first aid procedures to assist until professional help arrives.
- GS12.** Use CCTV, emergency alert systems, and communication tools effectively during incidents.
- GS13.** Handle sensitive situations with integrity and respect for privacy and protocol.
- GS14.** Participate in debriefings and contribute to improving future response strategies.
- GS15.** Ensure all handling and reporting processes align with legal and organizational guidelines.

AAS/N0628: Complaint Resolution and Handling Stakeholders

Description

This unit describes the actions that need to be performed to handle Customer Complaints & their resolution. Additionally, they also need to understand the handling of all stakeholders at the airport in accordance with organisational procedures and regulations

Scope

The scope covers the following :

- Complaint Resolution
- Handling Stakeholders

Elements and Performance Criteria

Complaint Resolution

To be competent, the user/individual on the job must be able to:

- PC1.** Deal with Passengers courteously and professionally at all times
- PC2.** Monitor problems involving passenger flow through the terminal
- PC3.** Monitor issues that have a bearing on passenger experience such as escalators, baggage screening operations, airline ticket counters, curbside and baggage claim areas and baggage transportation in the terminal and concourses.
- PC4.** Record the complaints received in the appropriate logbooks or systems
- PC5.** Investigate complaints where necessary
- PC6.** Highlight the complaint for resolution to the respective stakeholder
- PC7.** Record the closure of complaint if resolved in the appropriate logbook or systems
- PC8.** Escalate the complaints to the next level where resolution not possible
- PC9.** Participate in any Feedback Surveys as conducted by the Airport to gauge customer experience
- PC10.** Participate in any technology led innovation that is being trialled to enhance customer experience
- PC11.** Monitor and ensure Airport KPIs as assigned are met

Handling Stakeholders

To be competent, the user/individual on the job must be able to:

- PC12.** Liaise with Air Traffic Control, Fire Fighting Services to maintain operational flows
- PC13.** Liaise with customer airlines/GHA to ensure smooth operations
- PC14.** Coordinate with regulatory bodies like CISF, DGCA, BCAS, IB, state protocol, custom and immigration to ensure smooth operational flows
- PC15.** Coordinate with Internal departments like civil, electrical, security, PR to ensure airport facilities do not cause any hindrance to operations and customers alike
- PC16.** Coordinate and inspect airport or tenant contractors for compliance.

Qualification Pack

- PC17.** • Monitor breaches or deviation from accepted SLA of contractors/vendors/concessionaires
•

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Understanding the fundamentals of delivering positive, empathetic, and solution-focused service.
- KU2.** Awareness of typical passenger/stakeholder concerns (e.g., delays, lost baggage, service quality) and how to address them.
- KU3.** Knowledge of de-escalation strategies, active listening, and how to handle difficult interactions calmly and professionally.
- KU4.** Understanding organizational guidelines on complaint handling, compensation, and customer rights
- KU5.** Awareness of who the key stakeholders are (passengers, airline staff, ground handlers, vendors) and their roles/interests.
- KU6.** Understanding how to maintain clear, polite, and respectful communication with all stakeholders, even under stress.
- KU7.** knowledge of how complaints are recorded, tracked, and escalated within the system.
- KU8.** Understanding the importance of respecting diverse backgrounds and emotional responses during complaint handling.
- KU9.** Awareness of passenger rights, privacy laws, and ethical standards in handling complaints and feedback
- KU10.** Knowing how and when to involve other departments, vendors, or supervisors in resolving issues effectively.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** paying full attention to concerns without interrupting, ensuring the person feels heard and understood.
- GS2.** Showing genuine care and understanding of the customers or stakeholders Experience
- GS3.** Explaining solutions, policies, and outcomes clearly, using respectful and professional language.
- GS4.** Identifying root causes and offering practical, fair, and timely resolutions.
- GS5.** Staying calm and composed, especially when dealing with frustrated or upset individuals.
- GS6.** Handling disagreements diplomatically and working toward win-win outcomes.
- GS7.** Making sound judgments under pressure while considering both company policies and customer satisfaction.
- GS8.** Managing your own emotions and responding appropriately to others' emotional states.
- GS9.** Balancing and aligning the needs and expectations of various internal and external parties.
- GS10.** Ensuring issues are fully resolved and that proper follow-up is communicated to the complainant or stakeholder.

AAS/N0629: Digital and AI initiatives at Airport

Description

Digital and AI initiatives at airports focus on enhancing passenger experience, operational efficiency, and security through advanced technologies. These include AI-powered facial recognition for seamless check-ins, predictive analytics for flight and baggage handling, and smart infrastructure for real-time decision-making.

Scope

The scope covers the following :

- AI Enabled Robots
- Contactless service at the airport
- Digi Yatra

Elements and Performance Criteria

AI Enabled Robots

To be competent, the user/individual on the job must be able to:

- PC1.** Oversee the effective flow of passengers into, out of and throughout the terminal building through AI Robot facilities
- PC2.** Monitor and report deficiencies if any in the Robot
- PC3.** Plan and coordinate the activities of AI Robots
- PC4.** Keeping a check on Robot functioning
- PC5.** Act for escalations of problems faced in or by the robots
- PC6.** Check on the performance of Robot (how many passengers is a robot able to handle in a day, what is the idle time for the robot)
- PC7.** Find the areas of requirement for robots to be installed where it can increase passenger flow by guiding the passengers

Contactless service at the airport

To be competent, the user/individual on the job must be able to:

- PC8.** Knowledge of implementing the service at various locations at airport
- PC9.** Error handling if any issues in the process or execution of service
- PC10.** Follow all official rules and regulations to implement the process
- PC11.** Check the usage of the service by the passenger
- PC12.** Check its deployment and functionality at various locations
- PC13.** Prepare reports on the usage and implementation of the service and submit to top management
- PC14.** Ensure awareness about the passenger handling using the service

Digi Yatra

To be competent, the user/individual on the job must be able to:

- PC15.** Manage passenger flow with the inclusion of Digi Yatra

Qualification Pack

- PC16.** Monitor and report deficiencies if any in the Digi Yatra
- PC17.** Follow appropriate procedure using guidelines
- PC18.** Monitor the usage by the passengers
- PC19.** Check its deployment and functionality at various locations
- PC20.** Prepare reports on performance and submit to top management
- PC21.** Check if the official rules and regulations are followed

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Knowledge of how AI robots assist with passenger flow, navigation, and interaction at the airport.
- KU2.** Ability to track and assess robot efficiency, including metrics like idle time and passengers handled per day.
- KU3.** Knowledge of how to identify deficiencies in AI robots and report issues promptly for resolution.
- KU4.** Awareness of the steps to take when robots face issues that require attention beyond regular troubleshooting.
- KU5.** Knowledge of where to deploy robots in the terminal to ensure maximum efficiency and smooth passenger flow.
- KU6.** Understanding how to deploy and manage contactless services(Eg. Mobile check in, Biometrics) across the airport
- KU7.** Ability to troubleshoot and resolve issues in real-time to minimize disruptions to passenger experience.
- KU8.** Knowledge of legal, privacy, and airport-specific regulations that apply to AI systems and contactless services.
- KU9.** ability to track and analyze how passengers are using contactless services to gauge effectiveness and adoption.
- KU10.** Ensuring all deployed systems (robots and contactless services) are working correctly across airport locations.
- KU11.** Ability to compile and submit detailed reports on the performance, usage, and challenges of AI robots and contactless services.
- KU12.** Knowledge of strategies to educate passengers on how to use contactless services and robots for an enhanced experience.
- KU13.** Familiarity with the biometric-based passenger processing system (Digi Yatra) and its integration within the airport infrastructure.
- KU14.** Knowledge of data protection laws and security protocols to ensure passenger privacy and secure handling of biometric data.

Generic Skills (GS)

User/individual on the job needs to know how to:

Qualification Pack

- GS1.** Ability to troubleshoot issues and find solutions quickly, especially with malfunctioning robots or contactless services.
- GS2.** Monitoring systems closely to ensure they are functioning correctly. Identify deficiencies or areas for improvement
- GS3.** Understanding and working with technology such as AI robots, biometric systems, and contactless services.
- GS4.** Analyzing performance metrics, passenger flow data, and system usage to assess effectiveness and identify areas of improvement.
- GS5.** Planning, coordinating, and overseeing the deployment and maintenance of robots and technology systems across the airport.
- GS6.** Clear and effective communication for reporting issues, providing updates, and collaborating with teams for troubleshooting and escalation.
- GS7.** Making informed decisions on the placement of robots, deployment of technology, and management of passenger flow.
- GS8.** Ensuring that all technology systems enhance the passenger experience by providing efficient and smooth service.
- GS9.** Working effectively with other departments and staff to ensure the seamless operation of technology systems.
- GS10.** Adjusting plans and actions based on changing circumstances, whether it's robot malfunction or shifts in passenger traffic patterns
- GS11.** Efficiently managing the deployment of robots and technology systems to minimize downtime and optimize passenger handling.
- GS12.** Ensuring that all processes, from contactless services to biometric systems, adhere to legal, security, and privacy regulations.
- GS13.** Ability to generate detailed reports on system performance, passenger usage, and other relevant metrics for management review.
- GS14.** Ability to train airport staff and passengers on how to use robots and contactless services effectively.
- GS15.** Evaluating the performance of technology systems and making adjustments or recommendations for improvements based on data and feedback.

AAS/N0502: Follow safety and security procedures

Description

This unit is about following awareness of safety and security procedures as defined by organisational policies and regulatory guidelines

Elements and Performance Criteria

Comprehending the safety and security procedures for conduct of operations

To be competent, the user/individual on the job must be able to:

- PC1.** comply with the organisations safety and security policies and procedures
- PC2.** comply with the regulatory guidelines on safe conduct of operations and maintenance of conditions to thwart any acts of unlawful interference
- PC3.** report any identified breaches of safety, and security policies and procedures to the designated person
- PC4.** coordinate with other resources at the workplace (within and outside the organisation) to achieve safe and secure environment
- PC5.** identify and mitigate any safety and security hazards like illness, accidents, fires or acts of unlawful interference if it falls within the limits of individuals authority
- PC6.** report any hazards outside the individuals authority to the relevant person in line with organisational procedures and regulatory guidelines
- PC7.** follow organisations emergency procedures for accidents, fires or acts of unlawful interference
- PC8.** identify and recommend opportunities for improving health, safety, and security to the designated person
- PC9.** complete all health and safety records are updates and procedures well defined

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** hazard identification and risk management as defined within the organisational policy and procedures
- KU2.** regulatory requirements and organisations procedures for maintenance of safety and security standards and individuals role and responsibilities in relation to this
- KU3.** how and when to report hazards
- KU4.** the limits of responsibility for dealing with hazards
- KU5.** the organisations emergency procedures for different emergency situations and the importance of following these
- KU6.** importance of maintaining high standards of safety and security
- KU7.** implications that any non-compliance with safety and security may have on individuals and the organisation
- KU8.** different types of breaches of safety and security and how and when to report these
- KU9.** evacuation procedures for workers and passengers

Qualification Pack

- KU10.** how to summon medical assistance and the emergency services, where necessary
KU11. how to use the health, safety and accident reporting procedures and the importance of these
KU12. regulatory guidelines on dealing with safety and security emergencies

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** complete accurately a well written report in English language detailing the situations of emergency with attention to detail
GS2. read instructions/guidelines/procedures/rules
GS3. listen to and orally communicate information with all concerned
GS4. make decisions on a suitable course of action or response if permitted by the authority matrix
GS5. monitor efficient functioning of all activities
GS6. plan and organize work to achieve targets and deadlines
GS7. communicate with passengers and other stakeholders in a courteous manner
GS8. maintain cordial work relationship
GS9. identify trends/common causes for errors and suggest possible solutions to the supervisor / management
GS10. identify and correct errors
GS11. analyse best possible solutions (cost, time, effort, etc.) suited for operations
GS12. concentrate on task at hand and complete it without error
GS13. apply balanced judgments to different situations

Qualification Pack

DGT/VSQ/N0102: Employability Skills (60 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Career Development & Goal Setting
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

- PC1.** identify employability skills required for jobs in various industries
- PC2.** identify and explore learning and employability portals

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

- PC3.** recognize the significance of constitutional values, including civic rights and duties, citizenship, responsibility towards society etc. and personal values and ethics such as honesty, integrity, caring and respecting others, etc.
- PC4.** follow environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

- PC5.** recognize the significance of 21st Century Skills for employment
- PC6.** practice the 21st Century Skills such as Self-Awareness, Behaviour Skills, time management, critical and adaptive thinking, problem-solving, creative thinking, social and cultural awareness, emotional awareness, learning to learn for continuous learning etc. in personal and professional life

Basic English Skills

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC7.** use basic English for everyday conversation in different contexts, in person and over the telephone
- PC8.** read and understand routine information, notes, instructions, mails, letters etc. written in English
- PC9.** write short messages, notes, letters, e-mails etc. in English

Career Development & Goal Setting

To be competent, the user/individual on the job must be able to:

- PC10.** understand the difference between job and career
- PC11.** prepare a career development plan with short- and long-term goals, based on aptitude

Communication Skills

To be competent, the user/individual on the job must be able to:

- PC12.** follow verbal and non-verbal communication etiquette and active listening techniques in various settings
- PC13.** work collaboratively with others in a team

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

- PC14.** communicate and behave appropriately with all genders and PwD
- PC15.** escalate any issues related to sexual harassment at workplace according to POSH Act

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

- PC16.** select financial institutions, products and services as per requirement
- PC17.** carry out offline and online financial transactions, safely and securely
- PC18.** identify common components of salary and compute income, expenses, taxes, investments etc
- PC19.** identify relevant rights and laws and use legal aids to fight against legal exploitation

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

- PC20.** operate digital devices and carry out basic internet operations securely and safely
- PC21.** use e- mail and social media platforms and virtual collaboration tools to work effectively
- PC22.** use basic features of word processor, spreadsheets, and presentations

Entrepreneurship

To be competent, the user/individual on the job must be able to:

- PC23.** identify different types of Entrepreneurship and Enterprises and assess opportunities for potential business through research
- PC24.** develop a business plan and a work model, considering the 4Ps of Marketing Product, Price, Place and Promotion
- PC25.** identify sources of funding, anticipate, and mitigate any financial/ legal hurdles for the potential business opportunity

Customer Service

To be competent, the user/individual on the job must be able to:

- PC26.** identify different types of customers
- PC27.** identify and respond to customer requests and needs in a professional manner.

Qualification Pack

PC28. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC29. create a professional Curriculum vitae (Résumé)

PC30. search for suitable jobs using reliable offline and online sources such as Employment exchange, recruitment agencies, newspapers etc. and job portals, respectively

PC31. apply to identified job openings using offline /online methods as per requirement

PC32. answer questions politely, with clarity and confidence, during recruitment and selection

PC33. identify apprenticeship opportunities and register for it as per guidelines and requirements

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills and different learning and employability related portals

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use English language for effective verbal (face to face and telephonic) and written communication in formal and informal set up

KU6. importance of career development and setting long- and short-term goals

KU7. about effective communication

KU8. POSH Act

KU9. Gender sensitivity and inclusivity

KU10. different types of financial institutes, products, and services

KU11. how to compute income and expenditure

KU12. importance of maintaining safety and security in offline and online financial transactions

KU13. different legal rights and laws

KU14. different types of digital devices and the procedure to operate them safely and securely

KU15. how to create and operate an e- mail account and use applications such as word processors, spreadsheets etc.

KU16. how to identify business opportunities

KU17. types and needs of customers

KU18. how to apply for a job and prepare for an interview

KU19. apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. read and write different types of documents/instructions/correspondence

GS2. communicate effectively using appropriate language in formal and informal settings

Qualification Pack

- GS3.** behave politely and appropriately with all
- GS4.** how to work in a virtual mode
- GS5.** perform calculations efficiently
- GS6.** solve problems effectively
- GS7.** pay attention to details
- GS8.** manage time efficiently
- GS9.** maintain hygiene and sanitization to avoid infection

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down the proportion of marks for Theory and Skills Practical for each PC.
2. The assessment for the theory part will be based on the knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for the theory part for each candidate at each examination/training centre (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training centre based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score a minimum of 70% of % aggregate marks to successfully clear the assessment.

Qualification Pack

7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Minimum Aggregate Passing % at QP Level : 70

(**Please note:** Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.

Qualification Pack

Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.
Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
Sector	Sector is a Conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests
Sub - Sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform a similar/ related set of functions in an industry.

Qualification Pack

Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organization
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack	QP comprises the set of NOS,
