AAS/Q0613: Airport Terminal Operations Manager

Brief Job Description

The Airport Terminal Operations Manager is responsible for overall management of Airport Operational functions and to provide Safety and Security oversight. S/he is also responsible for managing contingencies and enhance customer experience through process improvements. In the course of performance of these functions, they are also expected to manage people and stakeholders both internal and external.

Personal Attributes

The Airport Terminal Operations Manager should possess advanced communication skills, both verbal and written, along with a core focus on customer orientation. S/he should possess good interpersonal skills and should be able to manage diversity in the team, resolve conflicts as well make sound decisions under pressure situations. S/he should be a good listener and display a penchant for innovation and technology solutions. She/he should possess the leadership skills to develop people and build succession pipelines through effective delegation of duties.

AAS/N0625: Introduction to Airport Operations

Description

This Unit provides a foundational understanding of airport operations, infrastructure, and the roles of various stakeholders. It covers key aspects such as terminal layout, regulatory compliance, and passenger services. This unit equips learners with essential knowledge for entry-level roles in airport operations and management

Scope

The scope covers the following :

- Understanding Airport Operations and Infrastructure
- Role of Stakeholders and Compliance
- Customer Service and Technology

Elements and Performance Criteria

Understanding Airport Operations and Infrastructure ,Role of Stakeholders and Compliance, Customer Service and Technology.

To be competent, the user/individual on the job must be able to:

- PC1.** PC1. Understand the roles of runways, taxiways, aprons, terminals, and cargo facilities in airport operations.
- PC2.** PC2. Distinguish between airside and landside operations and their respective functionalities.
- PC3.** • PC3. Understand the responsibilities of airlines, ground handlers, airport operators, and regulatory authorities in airport
• management.
- PC4.** PC4. Follow safety guidelines and security measures as per regulatory standards like ICAO and DGCA.
- PC5.** PC5. Address passenger inquiries, resolve complaints, and ensure service excellence while maintaining professionalism
- PC6.** PC6. Demonstrate knowledge of key regulatory guidelines governing airport operations and compliance requirements
- PC7.** • PC7. Explain the role of self-service kiosks, baggage handling systems, and automated security screening in enhancing
• efficiency
- PC8.** PC8. Ensure smooth coordination between stakeholders to optimize operations and passenger satisfaction.
- PC9.** • PC9. Respond appropriately to emergency scenarios, including evacuation procedures and crisis management Update flight
• information and recording systems.
- PC10.** PC10. Support sustainable practices and compliance with environmental regulations in airport operations.

Knowledge and Understanding (KU)

Qualification Pack

The individual on the job needs to know and understand:

- KU1.** Understanding the structure and layout of terminals, runways, taxiways, aprons, and other facilities.
- KU2.** Knowledge of the functions and activities within airside (restricted zones) and landside (public areas) of an airport
- KU3.** Familiarity with the roles of airlines, airport operators, ground handlers, regulators, and service providers
- KU4.** Awareness of aviation regulatory bodies like ICAO and DGCA and their standards for safety, security, and environment Airside Driving
- KU5.** Aviation Vocabulary, Codes, Terminologies
- KU6.** Principles of airport communications and dispatch.
- KU7.** Gate management software systems

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Fill any forms related to documentation
- GS2.** Prepare required reports for management as required
- GS3.** Communicate clearly with supervisors, passengers, and peers
- GS4.** Identify trends/common causes for errors and suggest possible solutions to the supervisor / management
- GS5.** Concentrate on task at hand and complete it without errors
- GS6.** Check compliance for escalation
- GS7.** Monitor efficient functioning of all activities
- GS8.** Prioritize and execute tasks in within the scheduled time limits
- GS9.** Understand types of faults occurring and how to deal with it
- GS10.** Communicate effectively both orally and in writing.
- GS11.** Keep routine records. File/maintain records and reports ensuring completeness and accuracy.
- GS12.** Operate a personal computer/tablet and compatible standard office software.
- GS13.** Analyse situations carefully and apply effective remedy.
- GS14.** Work under deadlines and coordinate several concurrent assignments

AAS/N0630: Manage operational performance and provide safety and security oversight

Description

This unit describes the actions to be performed regarding the management of operations and provide oversight of the security & safety functions by organizational and regulatory procedures.

Scope

The scope covers the following :

- Manage operational performance
- Provide safety and security oversight

Elements and Performance Criteria

Manage operational performance

To be competent, the user/individual on the job must be able to:

- PC1.** Manage & review operational performance that would include passenger facilitation, enforcement of airside standards & practices daily
- PC2.** Manage daily operations, such as terminal management, landside/parking management including ground transportation, parking bay allocation, baggage handling system support, line management, airline support in terminal operations, flight inspection services coordination, gate assignments and common use resource allocation
- PC3.** Manage, direct, decision making and assist with around the clock response oversight of the 24-hour integrated operations centre as related to terminal and landside operations
- PC4.** Manage the flow of VIP, CIP & maintain protocol as established
- PC5.** Monitor the update of airport flight information systems including arrival carousel allocation
- PC6.** Participate in the bid process along with the procurement team in providing inputs where the process is being established for terminal & airside requirements
- PC7.** Coordinate closely with the engineering teams when there is a proposed construction activity to ensure operational stability is maintained at all time
- PC8.** Monitor the administration of public announcements
- PC9.** Monitoring the resolution of fault logging and reporting by maintenance teams
- PC10.** Control access of vendors, contractors through the issuance of permits & airport passes

Provide safety & security oversight

To be competent, the user/individual on the job must be able to:

- PC11.** Participate, develop, and implement the Safety Management System (SMS) for the safe operations on the airport's movement area on the airfield
- PC12.** Develop, implement & review the airfield driver's training and mandatory training programmes
- PC13.** Participate in creation, update & implementation of security protocols in collaboration with security bodies to ensure compliance with international and national regulations
- PC14.** Develop & implement airport safety regulations in coordination with safety specialists

Qualification Pack

- PC15.** Design processes for identifying and reporting unsafe conditions and follow up actions
- PC16.** Design & review plans to mitigate landside and terminal safety hazards and/or discrepancies
- PC17.** Review & devise safety strategies to arrest any increase in incidents and accidents from acceptable levels
- PC18.** Design, develop & review standard operating procedures and ensure compliance. SOP (Standard Operating Procedures) should cover all aspects of airport operations
- PC19.** Monitor weather conditions and prepare/respond with appropriate aviation safety measures
- PC20.** Perform airfield, hangar, and landside inspections consistent with DGCA requirements
- PC21.** Monitor and report aircraft and aviation activities and operations with daily checks of the runway, apron, and taxiways for damage
- PC22.** Monitor and operate the security access system
- PC23.** Monitor the logging and recording of all security incident
- PC24.** Review whether all security access system alarms are responded to promptly and take corrective action as appropriate

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** ICAO Annex 14 - Aerodromes.
- KU2.** ICAO Annex 17 - Security.
- KU3.** ICAO Annex 18 - Safe Transport of Dangerous Goods by Air
- KU4.** ICAO Annex 19 - Safety Management.
- KU5.** DGCA Civil Aviation Regulations (CAR).
- KU6.** Airport Collaborative Decision Making (A-CDM).
- KU7.** Interconnected airport functions including aircraft operations, airside activities and landside maintenance.
- KU8.** Management-operations, airside activities and landside maintenance.
- KU9.** Passenger information systems
- KU10.** Airside driving & vehicle serviceability requirements.
- KU11.** Management of wildlife within and around the airports to prevent wildlife strikes.
- KU12.** Safety and security policies, their development and implementation
- KU13.** Baggage security screening operations to facilitate detection and prohibition of explosives and security threats.
- KU14.** Human factors management to help identify and mitigate risks of aviation incidents and/or accidents caused by human factors
- KU15.** Behavioural analysis and predictive screening.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Generate forms related to documentation of safety and security incidents.

Qualification Pack

- GS2.** Generate required reports for management as required.
- GS3.** Communicate with supervisors, passengers, and peers in the chain of activities to ensure activities are running smoothly.
- GS4.** Identify errors & initiate mitigation measures.
- GS5.** Ensure completion of tasks with minimum errors.
- GS6.** Take control, accept responsibility, and operate calmly in high-pressure situations.
- GS7.** Demonstrate initiative, self-motivation and a desire to achieve success.
- GS8.** Manage organizational time, tasks, and priorities.
- GS9.** Articulate and discuss ideas and persuade others to achieve common outcomes.
- GS10.** Make decisions in a complex setting to achieve intended goals using a structured process and multiple sources of available information.
- GS11.** Deepen insights into the planning, allocation, and deployment of resources to anticipate needs.

AAS/N0631: Manage contingencies and emergencies, Enhance customer experience through process improvements

Description

This unit describes the actions to be performed to manage contingencies and emergencies. It also describes the steps to be taken to enhance customer experience by effecting process improvements under organizational and regulatory requirements/procedures.

Scope

The scope covers the following :

- Contingency Management
- Enhance customer experience through process improvements

Elements and Performance Criteria

Manage contingencies & emergencies

To be competent, the user/individual on the job must be able to:

- PC1.** Act as the first point of contact for any airport emergencies, which may require activation of the airport's emergency or business continuity plans
- PC2.** Coordinate emergency response efforts
- PC3.** Assist the senior management in interagency coordination and notification of emergency events
- PC4.** Develop & implement jointly with the emergency response teams the airport's emergency plans to the regulatory bodies as mandated under law
- PC5.** Review jointly the airlines emergency plans to ensure they comply with the airport's emergency plan and takes necessary action to rectify non-compliance
- PC6.** Identify risk through a structured 'assessment framework'
- PC7.** Develop and implement the 'risk mitigation framework'
- PC8.** Develop drills and exercises along with the ERT and conduct briefing & debriefing with stakeholders on course corrections and learning
- PC9.** Respond to incidents and first-aid on the airport and complete all relevant paperwork thoroughly and on time

Enhance customer experience through process improvements

To be competent, the user/individual on the job must be able to:

- PC10.** Plan deploy & critically review resource allocation both in landside & airside to ensure their effective utilization
- PC11.** Evaluate, revise and/or develop department policies and procedures
- PC12.** Lead development and update of Standard Operations Procedures (sop) and checklists
- PC13.** Drive process audits to identify areas of improvement
- PC14.** Participate in technology improvement initiatives with Information Technology teams by establishing valid use cases for improvement in process and enhancing customer experience

Qualification Pack

- PC15.** Identify industry benchmarks and innovations for potential implementation in enhancing customer experience
- PC16.** Provide high-quality customer service to passengers and other airport users
- PC17.** Document and resolve customer-related complaints and issues
- PC18.** Evaluates airport operations to improve customer service, productivity, and efficiency; review, recommend & enforce corrective actions to bring ASQ scores up to or above the established/desired levels
- PC19.** Oversee and coordinate terminal maintenance in collaboration with facilities and maintenance team to ensure the terminal is maintained, secure and always safe in accordance with the standards, legislation, and company policy

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Understand emergency response protocols and contingency plans for various incidents (e.g., medical emergencies, security threats, system failures, weather disruptions).
- KU2.** Familiarity with incident command systems and coordination procedures involving stakeholders like airlines, police, fire, and medical teams
- KU3.** Knowledge of airport operational risk assessments, business continuity planning, and crisis communication strategies.
- KU4.** Understand roles and responsibilities during contingencies, including activation of Emergency Operations Centers (EOC) and coordination with regulatory bodies.
- KU5.** Comprehend passenger flow and behavior during normal and disrupted conditions to ensure safety and minimize confusion.
- KU6.** Understand how disruptions impact airline operations, baggage handling, passenger experience, and terminal throughput.
- KU7.** Apply process mapping and improvement tools (e.g., Lean, Six Sigma) to identify inefficiencies and enhance passenger touchpoints.
- KU8.** Know how to use operational data and feedback (e.g., queue times, delay reports, complaints) to drive service improvement initiatives.
- KU9.** Monitor service delivery performance and customer experience metrics to identify trends and areas for enhancement.
- KU10.** Understand how technology and automation (e.g., e-gates, self-bag drops, wayfinding apps) can improve customer flow and satisfaction.
- KU11.** Ability to coordinate and communicate clearly during emergencies, both internally and externally, including with passengers
- KU12.** Recognize the importance of empathy and emotional intelligence when managing customer-facing situations during disruptions.
- KU13.** Knowledge of airport safety management systems (SMS) and how to report, investigate, and learn from incidents.
- KU14.** Understand regulatory reporting and compliance requirements related to safety, emergency response, and service delivery.
- KU15.** Comprehend how collaborative planning with stakeholders (e.g., airlines, retailers, cleaning, security) can prevent and mitigate service failures.

Qualification Pack

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Staying calm under pressure and taking decisive action during emergencies.
- GS2.** Assessing problems quickly, identifying causes, and evaluating options under time constraints.
- GS3.** Leading teams confidently during routine operations and critical incidents.
- GS4.** Conveying clear, calm, and accurate information to staff, stakeholders, and passengers-especially during disruptions.
- GS5.** Making fast, informed decisions using judgment and available data, particularly in time-sensitive situations.
- GS6.** Identifying inefficiencies, analyzing systems, and implementing solutions that enhance workflows and passenger experience.
- GS7.** Staying alert to environmental, operational, and behavioral cues that may indicate emerging issues.
- GS8.** Working closely with cross-functional teams (security, airlines, customer service, emergency services).
- GS9.** Understanding passenger needs, frustrations, and expectations during normal and irregular operations.
- GS10.** Maintaining professionalism and clarity in high-pressure or emotionally charged situations.
- GS11.** Thinking outside the box to improve terminal processes or handle unexpected challenges.
- GS12.** Noticing early warning signs or process gaps that could affect safety or service.
- GS13.** Using relevant airport systems and tools (e.g., RMS, FIDS, incident reporting tools) confidently.
- GS14.** Managing resources, teams, and priorities efficiently during both routine and emergency scenarios.
- GS15.** Regularly seeking feedback and using lessons learned from incidents or customer complaints to make positive changes.

AAS/N0632: Manage Internal & External stakeholders and administration

Description

This unit describes the actions which need to be performed to manage internal stakeholders (employees) & external stakeholders along with administrative functions in accordance with organizational procedures, requirements, and regulations

Scope

The scope covers the following :

- Manage internal & external stakeholders & administration

Elements and Performance Criteria

Manage internal & external stakeholders and administration

To be competent, the user/individual on the job must be able to:

- PC1.** Plan manpower & resource needs for the terminal and airside in close collaboration with HR, commercial, project teams based on the introduction of new routes, new terminal, and existing terminal expansion
- PC2.** Drive the process of new hire, induction, formal training structure & deployment with HR, L&D, duty managers
- PC3.** Plan and develop training for department personnel
- PC4.** Monitor an individual's skill levels and determine training needs
- PC5.** Ensure that all members of the team are aware of, understand, support, and comply with all applicable laws, policies and procedures relating to:
- PC6.** Discuss & set goals for employees in collaboration with HR & duty managers
- PC7.** Review the half-yearly/yearly appraisals post initial appraisal by duty managers & HR
- PC8.** Coach, mentor frontline employees & duty managers to help improve performance through structured PIP
- PC9.** Constitute and monitor the functioning of any committee's that may be set up to look into employee misconduct/insubordination/sexual harassment or any other action that is in contravention of the organizational policy
- PC10.** Participate as a representative of the airport in various forums established for discussion and facilitation of industry affairs
- PC11.** Liaise with airlines, security agencies, immigration & customs through weekly/monthly review meetings to identify improvements/shortfalls and update on new regulations
- PC12.** Plan & design with police, crash rescue and airline official's safety and security standards and coordinate with governmental agencies outside the airport ecosystem to ensure their activities do not interfere with safe and efficient airport operations
- PC13.** Coordinate with all stakeholders on any initiatives that will drive airport design and construction improvements
- PC14.** Interpret and enforce applicable regulations in consultation with government and regulatory agencies to ensure better coordination and flow of information

Qualification Pack

- PC15.** Monitor & review the contractual obligations, KPI & regulatory compliances of concessionaires, operational contractors (screening, cleaning, BHS & security equipment contractor)
- PC16.** Manage effectively all consultant contracts for any service/s provided
- PC17.** Assist in the preparation of annual budgets, capital projects & applicable financial reports
- PC18.** Coordinate with auditors on all financial issues associated with the airport and manage potential conflicts with lessees

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Identify and map key internal and external stakeholders, including airlines, security, ground handling, retail partners, regulatory bodies, and emergency services.
- KU2.** Understand stakeholder roles, needs, and levels of influence in airport terminal operations to ensure coordinated service delivery.
- KU3.** Apply effective communication strategies suited to different stakeholder types, ensuring timely and accurate information flow.
- KU4.** Develop and maintain strong working relationships across departments and partner organizations to support smooth terminal operations.
- KU5.** Interpret and comply with aviation regulations and airport policies, including those from ICAO, IATA, TSA/CAA, and local authorities.
- KU6.** Manage administrative processes such as incident reporting, daily briefings, shift handovers, and documentation with accuracy and consistency.
- KU7.** Monitor and enforce Service Level Agreements (SLAs) with vendors and service partners, ensuring standards are met or exceeded.
- KU8.** Handle stakeholder conflicts or service issues diplomatically, using negotiation and conflict resolution techniques.
- KU9.** Support and coordinate emergency response efforts, ensuring all stakeholders understand their roles during crises or disruptions.
- KU10.** Utilize airport systems (AODB, FIDS, RMS) to access real-time operational data and enhance decision-making.
- KU11.** Balance operational goals with commercial and customer service objectives, understanding the interdependence of all stakeholders.
- KU12.** Lead stakeholder meetings and briefings, fostering collaboration, feedback, and problem-solving.
- KU13.** Evaluate stakeholder performance and provide constructive feedback to drive continuous improvement.
- KU14.** Ensure administrative compliance for audits, inspections, and reports, maintaining accuracy and readiness.
- KU15.** Promote a culture of accountability and service excellence, aligning all partners with terminal performance targets.

Generic Skills (GS)

Qualification Pack

User/individual on the job needs to know how to:

- GS1.** Clear, concise, and confident communication across all levels, both verbal and written.
- GS2.** Ability to build positive relationships, trust, and rapport with diverse stakeholders.
- GS3.** Quickly identifying issues, analyzing root causes, and implementing effective solutions.
- GS4.** Making timely, data-driven decisions, even under pressure or in rapidly changing situations.
- GS5.** Persuading and influencing others to reach agreements and align on goals without direct authority.
- GS6.** Managing disagreements calmly and professionally to achieve productive outcomes.
- GS7.** Working effectively in cross-functional teams and encouraging a collaborative environment.
- GS8.** Prioritizing tasks and managing time efficiently in a 24/7 operational setting.
- GS9.** Managing documents, schedules, meetings, and processes systematically and efficiently.
- GS10.** Ensuring administrative accuracy and compliance with safety, legal, and operational standards.
- GS11.** Inspiring and guiding teams or partners toward common goals, especially during high-pressure scenarios.
- GS12.** Adjusting quickly to changes in operations, regulations, or stakeholder needs.
- GS13.** Understanding the importance of the passenger experience and delivering service excellence.
- GS14.** Recognizing and managing your own emotions and those of others to foster effective working relationships.
- GS15.** Confident use of airport tech platforms, MS Office, and digital communication tools.

Qualification Pack

Assessment Criteria

Assessment Criteria for Outcomes	Theory Marks	Practical Marks	Project Marks	Viva Marks
<i>Manage internal & external stakeholders and administration</i>	34	66	-	-
PC1. Plan manpower & resource needs for the terminal and airside in close collaboration with HR, commercial, project teams based on the introduction of new routes, new terminal, and existing terminal expansion	2	4	-	-
PC2. Drive the process of new hire, induction, formal training structure & deployment with HR, L&D, duty managers	2	4	-	-
PC3. Plan and develop training for department personnel	2	4	-	-
PC4. Monitor an individual's skill levels and determine training needs	2	4	-	-
PC5. Ensure that all members of the team are aware of, understand, support, and comply with all applicable laws, policies and procedures relating to:	2	4	-	-
PC6. Discuss & set goals for employees in collaboration with HR & duty managers	2	4	-	-
PC7. Review the half-yearly/yearly appraisals post initial appraisal by duty managers & HR	2	4	-	-
PC8. Coach, mentor frontline employees & duty managers to help improve performance through structured PIP	2	4	-	-
PC9. Constitute and monitor the functioning of any committee's that may be set up to look into employee misconduct/insubordination/sexual harassment or any other action that is in contravention of the organizational policy	2	4	-	-
PC10. Participate as a representative of the airport in various forums established for discussion and facilitation of industry affairs	2	4	-	-

Qualification Pack

Assessment Criteria for Outcomes	Theory Marks	Practical Marks	Project Marks	Viva Marks
PC11. Liaise with airlines, security agencies, immigration & customs through weekly/monthly review meetings to identify improvements/shortfalls and update on new regulations	2	4	-	-
PC12. Plan & design with police, crash rescue and airline official's safety and security standards and coordinate with governmental agencies outside the airport ecosystem to ensure their activities do not interfere with safe and efficient airport operations	2	4	-	-
PC13. Coordinate with all stakeholders on any initiatives that will drive airport design and construction improvements	2	3	-	-
PC14. Interpret and enforce applicable regulations in consultation with government and regulatory agencies to ensure better coordination and flow of information	2	3	-	-
PC15. Monitor & review the contractual obligations, KPI & regulatory compliances of concessionaires, operational contractors (screening, cleaning, BHS & security equipment contractor)	2	3	-	-
PC16. Manage effectively all consultant contracts for any service/s provided	2	3	-	-
PC17. Assist in the preparation of annual budgets, capital projects & applicable financial reports	1	3	-	-
PC18. Coordinate with auditors on all financial issues associated with the airport and manage potential conflicts with lessees	1	3	-	-

AAS/N0502: Follow safety and security procedures

Description

This unit is about following awareness of safety and security procedures as defined by organisational policies and regulatory guidelines

Elements and Performance Criteria

Comprehending the safety and security procedures for conduct of operations

To be competent, the user/individual on the job must be able to:

- PC1.** comply with the organisations safety and security policies and procedures
- PC2.** comply with the regulatory guidelines on safe conduct of operations and maintenance of conditions to thwart any acts of unlawful interference
- PC3.** report any identified breaches of safety, and security policies and procedures to the designated person
- PC4.** coordinate with other resources at the workplace (within and outside the organisation) to achieve safe and secure environment
- PC5.** identify and mitigate any safety and security hazards like illness, accidents, fires or acts of unlawful interference if it falls within the limits of individuals authority
- PC6.** report any hazards outside the individuals authority to the relevant person in line with organisational procedures and regulatory guidelines
- PC7.** follow organisations emergency procedures for accidents, fires or acts of unlawful interference
- PC8.** identify and recommend opportunities for improving health, safety, and security to the designated person
- PC9.** complete all health and safety records are updates and procedures well defined

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** hazard identification and risk management as defined within the organisational policy and procedures
- KU2.** regulatory requirements and organisations procedures for maintenance of safety and security standards and individuals role and responsibilities in relation to this
- KU3.** how and when to report hazards
- KU4.** the limits of responsibility for dealing with hazards
- KU5.** the organisations emergency procedures for different emergency situations and the importance of following these
- KU6.** importance of maintaining high standards of safety and security
- KU7.** implications that any non-compliance with safety and security may have on individuals and the organisation
- KU8.** different types of breaches of safety and security and how and when to report these
- KU9.** evacuation procedures for workers and passengers

Qualification Pack

- KU10.** how to summon medical assistance and the emergency services, where necessary
KU11. how to use the health, safety and accident reporting procedures and the importance of these
KU12. regulatory guidelines on dealing with safety and security emergencies

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** complete accurately a well written report in English language detailing the situations of emergency with attention to detail
GS2. read instructions/guidelines/procedures/rules
GS3. listen to and orally communicate information with all concerned
GS4. make decisions on a suitable course of action or response if permitted by the authority matrix
GS5. monitor efficient functioning of all activities
GS6. plan and organize work to achieve targets and deadlines
GS7. communicate with passengers and other stakeholders in a courteous manner
GS8. maintain cordial work relationship
GS9. identify trends/common causes for errors and suggest possible solutions to the supervisor / management
GS10. identify and correct errors
GS11. analyse best possible solutions (cost, time, effort, etc.) suited for operations
GS12. concentrate on task at hand and complete it without error
GS13. apply balanced judgments to different situations

Qualification Pack

AAS/N0629: Digital and AI initiatives at Airport

Description

Digital and AI initiatives at airports focus on enhancing passenger experience, operational efficiency, and security through advanced technologies. These include AI-powered facial recognition for seamless check-ins, predictive analytics for flight and baggage handling, and smart infrastructure for real-time decision-making.

Scope

The scope covers the following :

- AI Enabled Robots
- Contactless service at the airport
- Digi Yatra

Elements and Performance Criteria

AI Enabled Robots

To be competent, the user/individual on the job must be able to:

- PC1.** Oversee the effective flow of passengers into, out of and throughout the terminal building through AI Robot facilities
- PC2.** Monitor and report deficiencies if any in the Robot
- PC3.** Plan and coordinate the activities of AI Robots
- PC4.** Keeping a check on Robot functioning
- PC5.** Act for escalations of problems faced in or by the robots
- PC6.** Check on the performance of Robot (how many passengers is a robot able to handle in a day, what is the idle time for the robot)
- PC7.** Find the areas of requirement for robots to be installed where it can increase passenger flow by guiding the passengers

Contactless service at the airport

To be competent, the user/individual on the job must be able to:

- PC8.** Knowledge of implementing the service at various locations at airport
- PC9.** Error handling if any issues in the process or execution of service
- PC10.** Follow all official rules and regulations to implement the process
- PC11.** Check the usage of the service by the passenger
- PC12.** Check its deployment and functionality at various locations
- PC13.** Prepare reports on the usage and implementation of the service and submit to top management
- PC14.** Ensure awareness about the passenger handling using the service

Digi Yatra

To be competent, the user/individual on the job must be able to:

- PC15.** Manage passenger flow with the inclusion of Digi Yatra

Qualification Pack

- PC16.** Monitor and report deficiencies if any in the Digi Yatra
- PC17.** Follow appropriate procedure using guidelines
- PC18.** Monitor the usage by the passengers
- PC19.** Check its deployment and functionality at various locations
- PC20.** Prepare reports on performance and submit to top management
- PC21.** Check if the official rules and regulations are followed

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Knowledge of how AI robots assist with passenger flow, navigation, and interaction at the airport.
- KU2.** Ability to track and assess robot efficiency, including metrics like idle time and passengers handled per day.
- KU3.** Knowledge of how to identify deficiencies in AI robots and report issues promptly for resolution.
- KU4.** Awareness of the steps to take when robots face issues that require attention beyond regular troubleshooting.
- KU5.** Knowledge of where to deploy robots in the terminal to ensure maximum efficiency and smooth passenger flow.
- KU6.** Understanding how to deploy and manage contactless services(Eg. Mobile check in, Biometrics) across the airport
- KU7.** Ability to troubleshoot and resolve issues in real-time to minimize disruptions to passenger experience.
- KU8.** Knowledge of legal, privacy, and airport-specific regulations that apply to AI systems and contactless services.
- KU9.** ability to track and analyze how passengers are using contactless services to gauge effectiveness and adoption.
- KU10.** Ensuring all deployed systems (robots and contactless services) are working correctly across airport locations.
- KU11.** Ability to compile and submit detailed reports on the performance, usage, and challenges of AI robots and contactless services.
- KU12.** Knowledge of strategies to educate passengers on how to use contactless services and robots for an enhanced experience.
- KU13.** Familiarity with the biometric-based passenger processing system (Digi Yatra) and its integration within the airport infrastructure.
- KU14.** Knowledge of data protection laws and security protocols to ensure passenger privacy and secure handling of biometric data.

Generic Skills (GS)

User/individual on the job needs to know how to:

Qualification Pack

- GS1.** Ability to troubleshoot issues and find solutions quickly, especially with malfunctioning robots or contactless services.
- GS2.** Monitoring systems closely to ensure they are functioning correctly. Identify deficiencies or areas for improvement
- GS3.** Understanding and working with technology such as AI robots, biometric systems, and contactless services.
- GS4.** Analyzing performance metrics, passenger flow data, and system usage to assess effectiveness and identify areas of improvement.
- GS5.** Planning, coordinating, and overseeing the deployment and maintenance of robots and technology systems across the airport.
- GS6.** Clear and effective communication for reporting issues, providing updates, and collaborating with teams for troubleshooting and escalation.
- GS7.** Making informed decisions on the placement of robots, deployment of technology, and management of passenger flow.
- GS8.** Ensuring that all technology systems enhance the passenger experience by providing efficient and smooth service.
- GS9.** Working effectively with other departments and staff to ensure the seamless operation of technology systems.
- GS10.** Adjusting plans and actions based on changing circumstances, whether it's robot malfunction or shifts in passenger traffic patterns
- GS11.** Efficiently managing the deployment of robots and technology systems to minimize downtime and optimize passenger handling.
- GS12.** Ensuring that all processes, from contactless services to biometric systems, adhere to legal, security, and privacy regulations.
- GS13.** Ability to generate detailed reports on system performance, passenger usage, and other relevant metrics for management review.
- GS14.** Ability to train airport staff and passengers on how to use robots and contactless services effectively.
- GS15.** Evaluating the performance of technology systems and making adjustments or recommendations for improvements based on data and feedback.

DGT/VSQ/N0103: Employability Skills (90 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Career Development & Goal Setting
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

- PC1.** understand the significance of employability skills in meeting the current job market requirement and future of work
- PC2.** identify and explore learning and employability relevant portals
- PC3.** research about the different industries, job market trends, latest skills required and the available opportunities

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

- PC4.** recognize the significance of constitutional values, including civic rights and duties, citizenship, responsibility towards society etc. and personal values and ethics such as honesty, integrity, caring and respecting others, etc.
- PC5.** follow environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

- PC6.** recognize the significance of 21st Century Skills for employment

Qualification Pack

- PC7.** practice the 21st Century Skills such as Self-Awareness, Behaviour Skills, time management, critical and adaptive thinking, problem-solving, creative thinking, social and cultural awareness, emotional awareness, learning to learn for continuous learning etc. in personal and professional life
- PC8.** adopt a continuous learning mindset for personal and professional development

Basic English Skills

To be competent, the user/individual on the job must be able to:

- PC9.** use basic English for everyday conversation in different contexts, in person and over the telephone
- PC10.** read and understand routine information, notes, instructions, mails, letters etc. written in English
- PC11.** write short messages, notes, letters, e-mails etc. in English

Career Development & Goal Setting

To be competent, the user/individual on the job must be able to:

- PC12.** identify career goals based on the skills, interests, knowledge, and personal attributes
- PC13.** prepare a career development plan with short- and long-term goals

Communication Skills

To be competent, the user/individual on the job must be able to:

- PC14.** follow verbal and non-verbal communication etiquette while communicating in professional and public settings
- PC15.** use active listening techniques for effective communication
- PC16.** communicate in writing using appropriate style and format based on formal or informal requirements
- PC17.** work collaboratively with others in a team

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

- PC18.** communicate and behave appropriately with all genders and PwD
- PC19.** escalate any issues related to sexual harassment at workplace according to POSH Act

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

- PC20.** identify and select reliable institutions for various financial products and services such as bank account, debit and credit cards, loans, insurance etc.
- PC21.** carry out offline and online financial transactions, safely and securely, using various methods and check the entries in the passbook
- PC22.** identify common components of salary and compute income, expenses, taxes, investments etc
- PC23.** identify relevant rights and laws and use legal aids to fight against legal exploitation

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

- PC24.** operate digital devices and use their features and applications securely and safely
- PC25.** carry out basic internet operations by connecting to the internet safely and securely, using the mobile data or other available networks through Bluetooth, Wi-Fi, etc.
- PC26.** display responsible online behaviour while using various social media platforms

Qualification Pack

- PC27.** create a personal email account, send and process received messages as per requirement
- PC28.** carry out basic procedures in documents, spreadsheets and presentations using respective and appropriate applications
- PC29.** utilize virtual collaboration tools to work effectively

Entrepreneurship

To be competent, the user/individual on the job must be able to:

- PC30.** identify different types of Entrepreneurship and Enterprises and assess opportunities for potential business through research
- PC31.** develop a business plan and a work model, considering the 4Ps of Marketing Product, Price, Place and Promotion
- PC32.** identify sources of funding, anticipate, and mitigate any financial/ legal hurdles for the potential business opportunity

Customer Service

To be competent, the user/individual on the job must be able to:

- PC33.** identify different types of customers and ways to communicate with them
- PC34.** identify and respond to customer requests and needs in a professional manner
- PC35.** use appropriate tools to collect customer feedback
- PC36.** follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

- PC37.** create a professional Curriculum vitae (Résumé)
- PC38.** search for suitable jobs using reliable offline and online sources such as Employment exchange, recruitment agencies, newspapers etc. and job portals, respectively
- PC39.** apply to identified job openings using offline /online methods as per requirement
- PC40.** answer questions politely, with clarity and confidence, during recruitment and selection
- PC41.** identify apprenticeship opportunities and register for it as per guidelines and requirements

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** need for employability skills and different learning and employability related portals
- KU2.** various constitutional and personal values
- KU3.** different environmentally sustainable practices and their importance
- KU4.** Twenty first (21st) century skills and their importance
- KU5.** how to use English language for effective verbal (face to face and telephonic) and written communication in formal and informal set up
- KU6.** importance of career development and setting long- and short-term goals
- KU7.** about effective communication
- KU8.** POSH Act
- KU9.** Gender sensitivity and inclusivity
- KU10.** different types of financial institutes, products, and services

Qualification Pack

- KU11.** components of salary and how to compute income and expenditure
- KU12.** importance of maintaining safety and security in offline and online financial transactions
- KU13.** different legal rights and laws
- KU14.** different types of digital devices and the procedure to operate them safely and securely
- KU15.** how to create and operate an e- mail account
- KU16.** use applications such as word processors, spreadsheets etc.
- KU17.** how to identify business opportunities
- KU18.** types and needs of customers
- KU19.** how to apply for a job and prepare for an interview
- KU20.** apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read and write different types of documents/instructions/correspondence in English and other languages
- GS2.** communicate effectively using appropriate language in formal and informal settings
- GS3.** behave politely and appropriately with all to maintain effective work relationship
- GS4.** how to work in a virtual mode, using various technological platforms
- GS5.** perform calculations efficiently
- GS6.** solve problems effectively
- GS7.** pay attention to details
- GS8.** manage time efficiently
- GS9.** maintain hygiene and sanitization to avoid infection

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down the proportion of marks for Theory and Skills Practical for each PC.
2. The assessment for the theory part will be based on the knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for the theory part for each candidate at each examination/training centre (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training centre based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score a minimum of 70% of % aggregate marks to successfully clear the assessment.

Qualification Pack

7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.

Qualification Pack

Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.
Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
