AAS/N4303: Coordinate warehouse activities at the airport

Description

This NOS describes the knowledge, understanding and skills required of an individual to supervise and coordinate warehouse activities at the airport

Scope

The scope covers the following :

- Supervise and coordinate cargo loading, unloading, and handling activities as per SOPs and airline standards.
- Ensure accurate documentation, inspection, and record-keeping of all cargo movement.
- Communicate and collaborate effectively with team members and supervisors for smooth operations.
- Monitor compliance with safety regulations and promptly address any irregularities.

Elements and Performance Criteria

Coordinate warehouse activities

To be competent, the user/individual on the job must be able to:

- PC1.** coordinate the activities of ground crew in the loading, unloading, securing, and staging of aircraft cargo
- PC2.** observe, receive and otherwise obtain information from all relevant resources
- PC3.** analyse information and evaluate results to choose the best solutions and solve problems
- PC4.** communicate and provide information to supervisor, co-workers and subordinates
- PC5.** organise, plan and prioritize work
- PC6.** coordinate the work and activities of others and getting members of a group to work together to accomplish tasks
- PC7.** develop constructive and cooperative working relationship with others
- PC8.** perform cargo build up and break down as told by supervisors and also ensure that processes are in compliance with the company cargo SOP and airlines standards well
- PC9.** identify and act upon any irregularities which occur during either import or export
- PC10.** gather relevant new information relating to the current job at hand
- PC11.** determine whether events or processes comply with laws, regulations or standards
- PC12.** encourage and build mutual trust, respect and corporation among team members
- PC13.** check import & export documentation to determine cargo contents
- PC14.** retrieve stored items and trace lost shipments as necessary
- PC15.** inspect and count items received and check them against documents, recording shortages and rejecting damages goods
- PC16.** notify consignees or customers of the arrival freight and arrange for delivery
- PC17.** keep records of all goods shipped, received and stored
- PC18.** coordinate and supervise activities of workers engaged in loading and unloading

Qualification Pack

PC19. directly participate in cargo handling in order to ensure completeness of load and even distribution of weight

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** procedures and policies of the organisation relevant to his/her work
- KU2.** fill forms related to transportation of cargo and mail by air
- KU3.** policies and procedures for handling sensitive cargo
- KU4.** appropriate reporting processes
- KU5.** procedure for accepting cargo and the requisite documents for different types of cargo example dangerous goods
- KU6.** how to identify hidden dangerous goods
- KU7.** information contained on cargo airway bills
- KU8.** approved airport codes
- KU9.** types of loading devices like ULDs, pallets, trolleys
- KU10.** how to use the loading equipment in safe manner and the complementary safe manual handling procedures
- KU11.** the consequences of inappropriate handling of cargo
- KU12.** protection available for loads in different weather conditions
- KU13.** appropriate reporting processes as per regulatory guidelines

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** fill any forms related to cargo warehousing
- GS2.** keep records of all goods shipped, received and stored
- GS3.** read the schedule and plan for cargo movement
- GS4.** read and understand the instructions and conditions during cargo movement
- GS5.** read and interpret guidelines with regards to dangerous goods by air
- GS6.** share best practices with peers and juniors
- GS7.** communicate clearly with supervisor and peers
- GS8.** regularly communicate with all employees in the chain of activities to ensure activities are running smoothly
- GS9.** share best practices with peers and juniors
- GS10.** decide if the cargo and mail are for acceptance and transportation by air
- GS11.** monitor smooth functioning of all activities
- GS12.** prioritise and execute tasks in within the schedule time limits
- GS13.** communicate with customers with etiquettes and share all relevant information
- GS14.** identify trends/ common causes for errors and suggest possible solutions to the supervisor/ management

Qualification Pack

GS15. identify and correct errors

GS16. analyse on best possible solution (cost, time, effort, etc) suited for customer requirement

GS17. concentrate on task at hand and complete it without errors

Qualification Pack

AAS/N0502: Follow safety and security procedures

Description

This unit is about following awareness of safety and security procedures as defined by organisational policies and regulatory guidelines

Elements and Performance Criteria

Comprehending the safety and security procedures for conduct of operations

To be competent, the user/individual on the job must be able to:

- PC1.** comply with the organisations safety and security policies and procedures
- PC2.** comply with the regulatory guidelines on safe conduct of operations and maintenance of conditions to thwart any acts of unlawful interference
- PC3.** report any identified breaches of safety, and security policies and procedures to the designated person
- PC4.** coordinate with other resources at the workplace (within and outside the organisation) to achieve safe and secure environment
- PC5.** identify and mitigate any safety and security hazards like illness, accidents, fires or acts of unlawful interference if it falls within the limits of individuals authority
- PC6.** report any hazards outside the individuals authority to the relevant person in line with organisational procedures and regulatory guidelines
- PC7.** follow organisations emergency procedures for accidents, fires or acts of unlawful interference
- PC8.** identify and recommend opportunities for improving health, safety, and security to the designated person
- PC9.** complete all health and safety records are updates and procedures well defined

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** hazard identification and risk management as defined within the organisational policy and procedures
- KU2.** regulatory requirements and organisations procedures for maintenance of safety and security standards and individuals role and responsibilities in relation to this
- KU3.** how and when to report hazards
- KU4.** the limits of responsibility for dealing with hazards
- KU5.** the organisations emergency procedures for different emergency situations and the importance of following these
- KU6.** importance of maintaining high standards of safety and security
- KU7.** implications that any non-compliance with safety and security may have on individuals and the organisation
- KU8.** different types of breaches of safety and security and how and when to report these
- KU9.** evacuation procedures for workers and passengers

Qualification Pack

- KU10.** how to summon medical assistance and the emergency services, where necessary
KU11. how to use the health, safety and accident reporting procedures and the importance of these
KU12. regulatory guidelines on dealing with safety and security emergencies

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** complete accurately a well written report in English language detailing the situations of emergency with attention to detail
GS2. read instructions/guidelines/procedures/rules
GS3. listen to and orally communicate information with all concerned
GS4. make decisions on a suitable course of action or response if permitted by the authority matrix
GS5. monitor efficient functioning of all activities
GS6. plan and organize work to achieve targets and deadlines
GS7. communicate with passengers and other stakeholders in a courteous manner
GS8. maintain cordial work relationship
GS9. identify trends/common causes for errors and suggest possible solutions to the supervisor / management
GS10. identify and correct errors
GS11. analyse best possible solutions (cost, time, effort, etc.) suited for operations
GS12. concentrate on task at hand and complete it without error
GS13. apply balanced judgments to different situations

AAS/N4304: To perform shipping and receiving workflow management

Description

This unit oversees the efficient handling of all incoming and outgoing cargo, including passenger baggage, freight shipments, and mail. This complex process ensures that shipments are safely handled, correctly routed, and delivered.

Scope

The scope covers the following :

- Inbound Cargo and Baggage Management
- Cargo Sorting and Storage
- Processing and Labelling
- Outbound Cargo and Baggage Handling
- Tracking and Reporting

Elements and Performance Criteria

Process and Document Cargo/Baggage Efficiently

To be competent, the user/individual on the job must be able to:

- PC1.** Process more of incoming cargo/baggage within the allocated time frame.
- PC2.** Maintain accuracy in completing cargo and baggage documentation.
- PC3.** Ensure accurate tracking of cargo and baggage through barcode/RFID systems.
- PC4.** Optimize warehouse space utilization to prevent congestion and enhance accessibility.
- PC5.** Prevent any security breaches, unauthorized access, or incorrect screenings.
- PC6.** Ensure compliance with security and regulatory checks, including customs and safety screenings.
- PC7.** Ensure all items are correctly sorted based on their destination, priority, and urgency.
- PC8.** Minimize damage during loading/unloading, aiming for 0% incidents of mishandling or damage.
- PC9.** Ensure timely communication with stakeholders
- PC10.** Maintain fast response times and clear communication in case of delays or issues.
- PC11.** Ensure positive customer satisfaction in handling complaints and providing updates.
- PC12.** Track and address all returned items or unclaimed baggage in a timely manner.
- PC13.** Maintain a zero-accident rate in warehouse and cargo handling operations.
- PC14.** Ensure adherence to safety protocols and guidelines for all staff involved in operations.
- PC15.** Minimize delays in receiving cargo/baggage, ensuring quick and efficient unloading.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

Qualification Pack

- KU1.** Understand the overall airport layout, including cargo terminals, baggage claims areas, warehouses, and transportation routes.
- KU2.** Familiarity with the flow of goods and baggage through the airport, including interaction with customs, airlines, and ground handlers.
- KU3.** procedures for receiving, sorting, storing, and dispatching cargo and baggage.
- KU4.** Familiarity with cargo handling equipment (e.g., forklifts, pallet jacks) and safety practices.
- KU5.** security regulations, including TSA and international security protocols, and customs clearance processes.
- KU6.** Awareness of airport safety procedures, emergency protocols, and handling of restricted items.
- KU7.** documentation requirements for cargo and baggage .
- KU8.** customs clearance processes and how to manage documentation for international shipments.
- KU9.** Familiarity with automated systems for cargo sorting, handling, and reporting.
- KU10.** how to manage stock levels and avoid overstocking or understocking in a dynamic airport environment.
- KU11.** Ability to conduct regular inventory audits and resolve discrepancies.
- KU12.** effective communication strategies for interacting with passengers, airlines, freight forwarders, and other stakeholders.
- KU13.** handle unexpected challenges such as delays, misrouted baggage, or discrepancies in cargo.
- KU14.** Decision-making skills to prioritize shipments or baggage based on urgency, importance, and deadlines.
- KU15.** how to coordinate between different stakeholders, including customs, security, airlines, and ground handling teams.
- KU16.** Understanding of international shipping regulations, tariffs, and the handling of cross-border cargo.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** clearly communicate with various stakeholders.
- GS2.** Active listening skills to understand and address concerns or issues promptly.
- GS3.** organize cargo, baggage, and inventory efficiently to maximize space and minimize retrieval time.
- GS4.** maintaining a structured work environment, ensuring that systems and procedures are followed consistently.
- GS5.** carefully inspect cargo and baggage for damage, labeling errors, or misrouted items.
- GS6.** quickly identify and resolve issues such as misrouted cargo, delayed baggage, or discrepancies in inventory.
- GS7.** Decision-making ability to address problems effectively without disrupting workflow.
- GS8.** work under time pressure, ensuring that cargo/baggage is processed and dispatched on time.
- GS9.** Flexibility to switch between tasks while maintaining accuracy and focus.

Qualification Pack

- GS10.** lead and supervise warehouse staff, ensuring they follow safety procedures and work efficiently.
- GS11.** Motivating team members to maintain high performance and productivity during busy periods
- GS12.** Conflict resolution skills for managing team issues or disagreements.
- GS13.** adapt to new technologies and software systems used in airport logistics.

AAS/N4305: Management of Hazardous Materials and Chemicals

Description

This unit involves a systematic and highly regulated process to ensure the safe handling, storage, transportation, and disposal of substances that pose potential risks to health, safety, and the environment

Scope

The scope covers the following :

- Identification and classification of Hazardous Materials
- Regulatory Compliance and Safety Standards
- Safe Handling and Transportation procedures
- Emergency Response and incident Management
- Water Disposal and Environmental Impact

Elements and Performance Criteria

Classification and Documentation of Hazardous Materials

To be competent, the user/individual on the job must be able to:

- PC1.** Ensure that all hazardous materials are properly labelled, categorized, and classified according to international standards
- PC2.** Confirm that hazardous materials are accompanied by the correct documentation
- PC3.** Verify that hazardous substances are clearly marked with appropriate danger symbols and warning labels.
- PC4.** Adhere to guidelines for hazardous materials transportation, storage, and disposal
- PC5.** Implement safe handling practices for different types of hazardous materials
- PC6.** Ensure segregation of incompatible materials to prevent chemical reactions or hazards during storage
- PC7.** Maintain accurate records of inventory levels of hazardous materials and ensure they are updated regularly.
- PC8.** Ensure that all personnel are familiar with the use of PPE (Personal Protective Equipment) and emergency response equipment specific to hazardous materials.
- PC9.** Conduct regular drills and simulations to test the emergency response plan and ensure readiness for hazardous material incidents.
- PC10.** Implement procedures to minimize exposure and risk during the movement of hazardous materials, such as using dedicated routes and vehicles for transport
- PC11.** Regularly monitor hazardous material storage areas, handling operations
- PC12.** Ensure that audits are conducted periodically to assess compliance with safety regulations
- PC13.** Ensure that hazardous waste is handled and disposed of according to legal and environmental standards.
- PC14.** Provide stakeholders with the necessary documentation and information about hazardous materials to ensure safe handling and compliance with regulations.

Qualification Pack

- PC15.** Ensure effective communication with airlines, cargo operators, freight forwarders, security personnel, and customs regarding hazardous material shipments

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** How to identify hidden dangerous goods
- KU2.** Labelling requirements like hazard symbols
- KU3.** Understanding of national and international regulations, including IATA Dangerous Goods Regulations (DGR), ICAO regulations, EPA guidelines, OSHA standards, and local environmental laws.
- KU4.** Familiarity with the use of Personal Protective Equipment (PPE), including gloves, goggles, respirators, and other safety gear for different materials.
- KU5.** Awareness of compatibility issues between various chemicals
- KU6.** Storage requirements for various hazardous materials (e.g., temperature control, ventilation, fire suppression systems)
- KU7.** segregate hazardous materials based on their chemical compatibility to prevent dangerous reactions
- KU8.** Understanding of quantity limits, storage area requirements, and the need for hazardous materials zone within the airport.
- KU9.** coordinate with emergency services
- KU10.** Knowledge of airline and freight forwarding procedures for handling hazardous goods during check-in loading, and unloading
- KU11.** reporting obligations regarding hazardous material incidents and compliance with regulatory bodies.
- KU12.** sustainability practices and the environmental impact of hazardous materials
- KU13.** hazard analysis and risk mitigation strategies
- KU14.** coordinate with internal and external parties to ensure smooth and compliant handling of hazardous goods

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Read and interpret guidelines with regards to dangerous goods by air
- GS2.** Ability to operate emergency response tools and equipment
- GS3.** Meeting strict deadlines for documentation submission, reporting, and compliance with safety audits or regulatory inspections.
- GS4.** Vigilance when inspecting storage areas for proper containment, labelling, and segregation of incompatible materials.
- GS5.** Ability to report incidents or violations promptly to the appropriate authorities.
- GS6.** Oral communication skills for conducting training sessions and explaining hazardous material procedures to staff

Qualification Pack

- GS7.** Developing contingency plans for unforeseen circumstances or hazardous material-related incidents
- GS8.** schedule and oversee inspections and audits of hazardous materials handling areas and storage
- GS9.** Track and maintain records of hazardous materials shipments, handling procedures, and safety protocols.
- GS10.** Skill in collaborating with external agencies such as local fire departments, customs, or regulatory bodies in managing hazardous materials
- GS11.** Skill in choosing the appropriate course of action for mitigating risks related to hazardous materials and chemicals.
- GS12.** Ability to lead and guide a team
- GS13.** technical specifications of storage, transport, and containment equipment used for hazardous material

DGT/VSQ/N0101: Employability Skills (30 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

PC1. understand the significance of employability skills in meeting the job requirements

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

PC2. identify constitutional values, civic rights, duties, personal values and ethics and environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

PC3. explain 21st Century Skills such as Self-Awareness, Behavior Skills, Positive attitude, self-motivation, problem-solving, creative thinking, time management, social and cultural awareness, emotional awareness, continuous learning mindset etc.

Basic English Skills

To be competent, the user/individual on the job must be able to:

PC4. speak with others using some basic English phrases or sentences

Communication Skills

To be competent, the user/individual on the job must be able to:

PC5. follow good manners while communicating with others

PC6. work with others in a team

Qualification Pack

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

PC7. communicate and behave appropriately with all genders and PwD

PC8. report any issues related to sexual harassment

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

PC9. use various financial products and services safely and securely

PC10. calculate income, expenses, savings etc.

PC11. approach the concerned authorities for any exploitation as per legal rights and laws

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

PC12. operate digital devices and use its features and applications securely and safely

PC13. use internet and social media platforms securely and safely

Entrepreneurship

To be competent, the user/individual on the job must be able to:

PC14. identify and assess opportunities for potential business

PC15. identify sources for arranging money and associated financial and legal challenges

Customer Service

To be competent, the user/individual on the job must be able to:

PC16. identify different types of customers

PC17. identify customer needs and address them appropriately

PC18. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC19. create a basic biodata

PC20. search for suitable jobs and apply

PC21. identify and register apprenticeship opportunities as per requirement

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use basic spoken English language

KU6. Do and dont of effective communication

KU7. inclusivity and its importance

KU8. different types of disabilities and appropriate communication and behaviour towards PwD

KU9. different types of financial products and services

Qualification Pack

- KU10.** how to compute income and expenses

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score the Recommended Pass % aggregate for the QP.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 60

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Assessment Weightage

Compulsory NOS

National Occupational Standards	Theory Marks	Practical Marks	Project Marks	Viva Marks	Total Marks	Weightage
AAS/N4303.Coordinate warehouse activities at the airport	38	62	-	-	100	40

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
