AGR/Q1115: Assistant Tractor Operator

Brief Job Description

An Assistant Tractor Operator assists in operating a tractor for various farm operations, uses additional machinery and implements according to the task, and performs basic repair and maintenance to keep the tractor operational.

Personal Attributes

The individual must be able to work independently and possess problem-solving skills. The person must be physically fit to work in outdoor settings for long hours with an ability to work as per instructions.

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [AGR/N1147: Operate a tractor for farm operations](#)
2. [AGR/N1148: Perform basic repair and maintenance of tractor](#)
3. [DGT/VSQ/N0101: Employability Skills \(30 Hours\)](#)

AGR/N1147: Operate a tractor for farm operations

Description

This OS is about performing pre-start checks, preparing and operating a tractor for various farm operations.

Scope

The scope covers the following :

- Perform pre-start checks and maintenance
- Make the necessary adjustments
- Operate the tractor to carry out farm operations
- Optimise resource utilisation

Elements and Performance Criteria

Perform pre-start checks and maintenance

To be competent, the user/individual on the job must be able to:

- PC1.** inspect the tractor for any signs of cracks/ damages
- PC2.** check the engine oil, hydraulic oil, transmission oil, steering box oil, coolant and fuel levels
- PC3.** inspect for any kind of fluid and oil leakage
- PC4.** examine the tyres for prescribed air pressure and any cuts or breaks in the tread or sidewalls
- PC5.** check the tie rod ends, steering spindles, front axle pivot pins, clutch linkages, throttle linkage hand, foot linkage and all hinges for adequate lubrication
- PC6.** ensure the battery has clean connections, is firmly placed and sufficiently charged for the field operations
- PC7.** check the fan's drive belt for the recommended level of tension
- PC8.** test the tractor head and tail lights for functioning as expected
- PC9.** check nuts, bolts and other parts for the prescribed torque and locking
- PC10.** test all gauges and controls for correct functioning
- PC11.** check the wheel toe-in using a wheel toe gauge to ensure it is as recommended
- PC12.** carry out repair and maintenance for any issues identified during checks
- PC13.** maintain the record of pre-start checks and maintenance

Make the necessary adjustments

To be competent, the user/individual on the job must be able to:

- PC14.** adjust brake and clutch free play as per the requirement
- PC15.** adjust wheel toe alignment as per the operator's manual
- PC16.** adjust the tractor's 3-point linkage

Operate the tractor to carry out farm operations

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC17.** select the appropriate tractor implements according to the task and field conditions and attach them to the tractor to utilise its Power Take-Off (PTO)
- PC18.** operate PC and DC levers as per the need and in combination for mixed control / blending
- PC19.** use ballasting and isolator valve as per the requirements
- PC20.** engage differential lock to regulate the movement of wheels
- PC21.** select appropriate gear and engine speed according to the field conditions
- PC22.** ensure appropriate field conditions for operating the tractor
- PC23.** perform primary and secondary tillage
- PC24.** level the farmland using tractor
- PC25.** perform intercultural operations
- PC26.** carry out fertilizer side-dressing of crop
- PC27.** haul the harvested crop using the tractor
- PC28.** operate tractor with or without trailer according to the task
- PC29.** maintain the prescribed Power Take-Off (PTO) speed

Optimise resource utilisation

To be competent, the user/individual on the job must be able to:

- PC30.** select the appropriate tractor implements according to the task and field conditions and attach them to the tractor to utilise its Power Take-Off (PTO)
- PC31.** optimise usage of material including water in various tasks/ activities/ processes
- PC32.** optimise usage of water/ electricity/energy in various tasks/ activities/ processes
- PC33.** plug spills/ leakages and escalate to the appropriate authority if unable to rectify

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** relevant record-keeping requirements in the job role
- KU2.** various tractor components and their use, such as fuel shut knob, hazard switch, hand throttle, clutch pedal, hydraulic position control lever, hydraulic draft control lever, gear-shaft lever, PTO clutch lever, range shaft lever, etc.
- KU3.** different implements used with a tractor for various farm operations
- KU4.** various pre-start checks before operating the tractor
- KU5.** correct method of attaching and detaching implements
- KU6.** appropriate field conditions for operating a tractor
- KU7.** various adjustments required in a tractor for various farm operations
- KU8.** preparation of the tractor and implements for various farm operations
- KU9.** appropriate gear, speed and Revolution Per Minute (RPM) of a tractor engine for farm operations
- KU10.** importance of following environmental and ecological best practice to minimise the impact on the environment
- KU11.** benefits of resource optimisation
- KU12.** advantages and use of the tractor's Power take-off (TOP)

Qualification Pack

KU13. process to measure wheel alignment using a wheel toe gauge

KU14. correct way of matching the implement hitch with tractor drawbar

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. write work-related notes and observations

GS2. read the relevant literature to get latest updates about the field of work

GS3. listen attentively to understand the instructions being given

GS4. communicate clearly and politely

GS5. co-ordinate with co-workers to achieve work objectives

GS6. identify problems that may arise in carrying out tasks and take preventive action

GS7. plan and schedule tasks for effective time-management

GS8. take quick decisions to deal with workplace emergencies/ accidents

AGR/N1148: Perform basic repair and maintenance of tractor

Description

This OS is about performing various types of repair and maintenance activities to keep a tractor in optimal working condition.

Scope

The scope covers the following :

- Prepare to carry out repair and maintenance
- Carry out repair and maintenance
- Perform waste management

Elements and Performance Criteria

Prepare to carry out repair and maintenance

To be competent, the user/individual on the job must be able to:

- PC1.** identify the repair and maintenance needs of the tractor such as broken nut/bolts, damaged hoses etc.
- PC2.** organise manufacturer-approved spare parts, tools and equipment to carry out repair and maintenance
- PC3.** follow the instructions given in the operator's manual to carry out repair and maintenance

Carry out repair and maintenance

To be competent, the user/individual on the job must be able to:

- PC4.** check the engine temperature and oil pressure for the prescribed levels
- PC5.** check headlights, brake lights, plough lamp, horns and hour meter for correct functioning
- PC6.** clean or replace the air cleaner filter/ diesel filter/ transmission filter/ hydraulic filter/ power steering filter/ fuel filter as per the maintenance schedule
- PC7.** refill the engine, transmission, hydraulic, air cleaner and steering oil of the correct grade if these are below the recommended level
- PC8.** apply the recommended grade of grease/ lubricant on clutch shaft, clutch release bearing, clutch pedal, brake pedal, king pin, tie rod, drag link, pivot pin, bell crank, levelling rod, front-wheel etc. using a grease nipple
- PC9.** refill distilled water in the battery to maintain the electrolyte level
- PC10.** remove carbon from the smoke-tube
- PC11.** replace the worn-out/ damaged electrical fuses
- PC12.** adjust the brakes and clutch free play as per the requirement
- PC13.** apply new seals to fix any leakages
- PC14.** install new fan belt and tyres if these are worn-out/ damaged
- PC15.** maintain the record of repair and maintenance

Perform waste management

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC16.** segregate waste into different categories
- PC17.** dispose non-recyclable waste appropriately
- PC18.** deposit recyclable and reusable material at the identified location

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** record-keeping requirements in the job role
- KU2.** appropriate repair and maintenance tools and equipment and their correct handling
- KU3.** the importance of using manufacturer-approved tools, equipment and spare parts
- KU4.** how to detect common faults in a tractor
- KU5.** maintenance procedure of various tractor parts such as clutch shaft, bearings, brake control, fan bearing, front-wheel, tie-rod, dynamo and starter, headlights, brake lights and horn, etc.
- KU6.** the correct process to clean or replace air cleaner filter/ diesel filter/ transmission filter/ hydraulic filter/ power steering filter/ fuel filter and electrical fuses in the tractor
- KU7.** the recommended grade of grease/ lubricant for various tractor parts and the correct way of using a grease nipple
- KU8.** recommended engine temperature, oil pressure and fan belt tension
- KU9.** appropriate electrolyte level to be maintained in the tractor's battery
- KU10.** the correct way of refilling battery with distilled water
- KU11.** recommended free play for tractor brakes and clutch
- KU12.** recommended maintenance schedule for a tractor

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** prepare work-related notes and records
- GS2.** read relevant literature to get updated information about the field of work
- GS3.** communicate clearly and politely
- GS4.** take appropriate decisions in the interest of business and clients
- GS5.** identify problems that may arise during operations and take preventive action
- GS6.** resolve problems through consultation and co-ordination with co-workers
- GS7.** plan and schedule various activities for the best utilisation of time and resources
- GS8.** apply domain knowledge and experience to improve the quality of work

Qualification Pack

DGT/VSQ/N0101: Employability Skills (30 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

PC1. understand the significance of employability skills in meeting the job requirements

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

PC2. identify constitutional values, civic rights, duties, personal values and ethics and environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

PC3. explain 21st Century Skills such as Self-Awareness, Behavior Skills, Positive attitude, self-motivation, problem-solving, creative thinking, time management, social and cultural awareness, emotional awareness, continuous learning mindset etc.

Basic English Skills

To be competent, the user/individual on the job must be able to:

PC4. speak with others using some basic English phrases or sentences

Communication Skills

To be competent, the user/individual on the job must be able to:

PC5. follow good manners while communicating with others

PC6. work with others in a team

Qualification Pack

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

PC7. communicate and behave appropriately with all genders and PwD

PC8. report any issues related to sexual harassment

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

PC9. use various financial products and services safely and securely

PC10. calculate income, expenses, savings etc.

PC11. approach the concerned authorities for any exploitation as per legal rights and laws

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

PC12. operate digital devices and use its features and applications securely and safely

PC13. use internet and social media platforms securely and safely

Entrepreneurship

To be competent, the user/individual on the job must be able to:

PC14. identify and assess opportunities for potential business

PC15. identify sources for arranging money and associated financial and legal challenges

Customer Service

To be competent, the user/individual on the job must be able to:

PC16. identify different types of customers

PC17. identify customer needs and address them appropriately

PC18. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC19. create a basic biodata

PC20. search for suitable jobs and apply

PC21. identify and register apprenticeship opportunities as per requirement

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use basic spoken English language

KU6. Do and dont of effective communication

KU7. inclusivity and its importance

KU8. different types of disabilities and appropriate communication and behaviour towards PwD

KU9. different types of financial products and services

Qualification Pack

- KU10.** how to compute income and expenses
- KU11.** importance of maintaining safety and security in financial transactions
- KU12.** different legal rights and laws
- KU13.** how to operate digital devices and applications safely and securely
- KU14.** ways to identify business opportunities
- KU15.** types of customers and their needs
- KU16.** how to apply for a job and prepare for an interview
- KU17.** apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate effectively using appropriate language
- GS2.** behave politely and appropriately with all
- GS3.** perform basic calculations
- GS4.** solve problems effectively
- GS5.** be careful and attentive at work
- GS6.** use time effectively
- GS7.** maintain hygiene and sanitisation to avoid infection

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
4. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
5. In case of successfully passing only certain number of NOSs, the trainee is eligible to take subsequent assessment on the balance NOS's to pass the Qualification Pack.
6. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack

Minimum Aggregate Passing % at QP Level : 50

Qualification Pack

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
