## Qualification Pack

### AGR/Q1116: Assistant Technician (Harvest & Post-harvest Machine)

#### Brief Job Description

An Assistant Technician (Harvest & Post-harvest Machine) is responsible for assisting in carrying out service and maintenance of farm machineries such as reaper, thresher, chaff cutter, sugarcane crusher, etc.

#### Personal Attributes

The individual in this role must have a mechanical aptitude and problem-solving skills. The person must have good reading, writing, and communication skills along with the ability to co-ordinate with others.

#### Applicable National Occupational Standards (NOS)

##### Compulsory NOS:

1. [AGR/N1149: Perform repair and maintenance of harvesting and post-harvest machineries](#)
2. [AGR/N9903: Maintain health and safety at the workplace](#)
3. [DGT/VSQ/N0101: Employability Skills \(30 Hours\)](#)

## Qualification Pack

### AGR/N1149: Perform repair and maintenance of harvesting and post-harvest machineries

#### Description

This OS unit is about carrying out repair and maintenance of harvesting, threshing and post-harvesting machineries.

#### Scope

The scope covers the following :

- Carry out repair and maintenance of reaper
- Carry out repair and maintenance of thresher
- Carry out repair and maintenance of post-harvesting machineries

#### Elements and Performance Criteria

##### *Carry out repair and maintenance of reaper*

To be competent, the user/individual on the job must be able to:

- PC1.** examine crop-row divider and cutter bar for any wear and tear or damage
- PC2.** check the reel belt for the required level of tension
- PC3.** inspect drive pulley key and the belt for a secure connection
- PC4.** check the v-belt for the required level of tension
- PC5.** check all the nuts, bolts and reaper components are secured firmly
- PC6.** examine the conveyor belt, v-belt, cutter bar, knife, star wheels, pressure springs and lugs for any damages
- PC7.** clean the reaper guards
- PC8.** apply lubricant on the greasing points as per the maintenance schedule
- PC9.** apply paint on the machine body as per the requirement
- PC10.** adjust height of the reel to ensure correct gathering of crop
- PC11.** adjust the belt tension and blades for the optimum cut length
- PC12.** adjust the twine tension using spring loaded screw-bolt
- PC13.** adjust the tension in trigger spring to get the required bundle size
- PC14.** test the feeding mechanism for correct functioning

##### *Carry out repair and maintenance of thresher*

To be competent, the user/individual on the job must be able to:

- PC15.** examine the sieve and conclave for the correct size
- PC16.** inspect the thresher belt for the prescribed level of tension
- PC17.** examine all nuts and bolts for tightness
- PC18.** remove residue of grain and chaff from the thresher
- PC19.** smoothen rough grooves on the pulley surface using a fine file
- PC20.** adjust the base angle of feeding chute for the optimum feed rate

## Qualification Pack

- PC21.** apply lubricant on all the moving parts to control wear and tear
- PC22.** adjust concave gap and clearance as per the operator's manual
- PC23.** adjust the reel height and idler pulley
- PC24.** smoothen the face of pliers using emery paper
- PC25.** tighten all the pegs on the threshing cylinder
- PC26.** refill engine oil and fuel to maintain the recommended levels
- PC27.** set cylinder-concave clearance and sieve slope as per the operator's manual
- PC28.** set the recommended speed of blower/aspirator, sieves, and threshing cylinder
- PC29.** test the threshing cylinder for correct direction of rotation and any interference by rotating it manually
- PC30.** set the recommended speed of blower/aspirator, sieves, and threshing cylinder

### *Carry out repair and maintenance of post-harvesting machineries*

To be competent, the user/individual on the job must be able to:

- PC31.** dismantle the post-harvesting machineries such as cleaner/ grader, drying equipment, rice/ flour/ spice mill, oil expelling machines, chaff cutters etc.
- PC32.** clean the components of post-harvest machineries
- PC33.** inspect the sieves and hoppers for correct oscillation and any wear and tear/ damage
- PC34.** examine the drying chamber, heating system and air distribution system of the dryer for wear and tear and correct functioning
- PC35.** inspect the relevant components of mills and oil expelling machines for wear and tear and correct functioning
- PC36.** inspect the feeding chute, drive mechanism, blade sharpness and gear condition for wear and tear and correct functioning
- PC37.** replace all worn-out or damaged components as per the service manual
- PC38.** adjust the cleaner feed rate, air flow rate, frequency and amplitude of oscillations to recommended settings
- PC39.** adjust the correct air temperature and grain flow rate in the dryer
- PC40.** apply correct settings in the mills for optimum results such as adjustments to plating space, Revolutions Per Minute (RPM), screen size, spacing between rubber rolls, etc
- PC41.** apply the recommended adjustments to feeding roller gap, cutting gap in chaff cutters
- PC42.** adjust the hydraulic press for correct feed rate, operating pressure, moisture and temperature of oilseeds

## Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** relevant health and safety standards and practices
- KU2.** various components of reapers and power threshers such as cutter bar, reel/ star wheel, windrower, threshing drum, sieves, blowers/ aspirators, etc.
- KU3.** various types of attachments used with post-harvest equipment
- KU4.** relevant adjustments to operate post-harvest equipment
- KU5.** common defects with reapers, threshers and post-harvest equipment

## Qualification Pack

- KU6.** service and maintenance procedures for harvesting and post-harvest machineries
- KU7.** use of tools and equipment used in service and maintenance activities
- KU8.** correct process to replace components in different types of reapers, threshers and postharvest equipment
- KU9.** importance of carrying out regular maintenance and repair
- KU10.** Dangerous Machines (Regulation) Act, 1983

## Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** write work-related notes
- GS2.** read the relevant guides, manuals, policies and schemes
- GS3.** communicate clearly and politely
- GS4.** listen attentively to understand the client requirements and instructions
- GS5.** identify possible disruptions to work and take preventive measures
- GS6.** plan efficient use of tools, equipment and resources
- GS7.** plan and prioritise tasks to achieve work-efficiency
- GS8.** apply domain knowledge and information to identify relevant improvements in work processes

## Qualification Pack

### Assessment Criteria

| Assessment Criteria for Outcomes                                                                                         | Theory Marks | Practical Marks | Project Marks | Viva Marks |

### AGR/N9903: Maintain health and safety at the workplace

#### Description

This OS is about maintaining health and safety of self and other co-workers at the workplace

#### Scope

The scope covers the following :

- Maintain personal hygiene
- Maintain clean and safe workplace
- Administer appropriate emergency procedures

#### Elements and Performance Criteria

##### *Maintain personal hygiene*

To be competent, the user/individual on the job must be able to:

- PC1.** wash hands, legs and face with soap/alcohol based sanitizer at reasonable intervals
- PC2.** wash the worn clothes with soap and sun dry before use next time
- PC3.** ensure the face is covered with mask or three layers of cloth-piece
- PC4.** follow the workplace sanitization norms including distancing from sick people

##### *Maintain clean and safe workplace*

To be competent, the user/individual on the job must be able to:

- PC5.** carry out basic safety checks before operation of all tools, implements, and machinery and report identified hazards to the supervisor
- PC6.** wear appropriate Personal Protective Equipment (PPE) while performing work in accordance with the workplace policy
- PC7.** follow the instructions mentioned on the labels of chemicals/pesticides/fumigants etc to avoid hazards
- PC8.** assess risks prior to performing manual handling jobs, and work according to currently recommended safe practices
- PC9.** sanitize equipment, tools and machinery before and after use
- PC10.** use equipment and materials safely and correctly and return the same to designated storage after use
- PC11.** dispose waste safely and correctly in the designated area
- PC12.** recognize risks to bystanders and take required action to reduce the risks
- PC13.** work in a manner which minimizes environmental damage, ensuring all procedures and instructions for controlling risks are followed
- PC14.** report any accidents, incidents or problems without delay to an appropriate person and take necessary immediate action to reduce further danger
- PC15.** follow government / workplace advisories incase of outbreak of any disease/disaster

##### *Administer appropriate emergency procedures*

To be competent, the user/individual on the job must be able to:

## Qualification Pack

- PC16.** follow procedures for dealing with accidents, fires and emergencies, including communicating location and directions to the location of emergency, as per the workplace requirements
- PC17.** use emergency equipment in accordance with manufacturer's specifications and workplace requirements
- PC18.** provide treatment appropriate to the patient's injuries in accordance with recognized first aid techniques
- PC19.** recover (if practical), clean, inspect/test, refurbish, replace and store the first aid equipment as appropriate
- PC20.** report details of first aid administered in accordance with workplace procedures

## Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** relevant legislation, standards, policies, and procedures at work
- KU2.** relevant health and safety requirements applicable to the work environment
- KU3.** own job role and responsibilities and sources of information pertaining to work
- KU4.** who to approach for support in order to obtain work related information, clarifications and support
- KU5.** importance of following health, hygiene, safety and quality standards and the impact of not following the standards on consumers and the business
- KU6.** personal hygiene and fitness requirement
- KU7.** importance of sanitization of the workplace
- KU8.** types of Personal Protective Equipment (PPE) required at the workplace and their importance
- KU9.** the correct and safe way to use materials and equipment required for the work
- KU10.** the importance of good housekeeping at the workplace
- KU11.** safe waste disposal methods
- KU12.** methods for minimizing environmental damage during work
- KU13.** the risks to health and safety including contagious diseases and the measures to be taken to control those risks in the area of work
- KU14.** workplace procedures and requirements for the prevention and treatment of workplace injuries/illnesses.
- KU15.** basic emergency first aid procedure
- KU16.** local emergency services
- KU17.** why accidents, incidents and problems should be reported and the appropriate actions to be taken

## Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** record the data as per the requirement
- GS2.** report problems to the appropriate personnel in a timely manner

## Qualification Pack

- GS3.** read instruction manual for hand tool and equipments
- GS4.** communicate clearly and effectively with co-workers, and other stakeholders
- GS5.** comprehend information shared by senior people and experts
- GS6.** make decisions pertaining to personal hygiene and safety
- GS7.** schedule daily activities and draw up priorities
- GS8.** manage relationships with co-workers, manager and other stakeholders
- GS9.** assess situation and identify appropriate control measures

## Qualification Pack

### Assessment Criteria

## Assessment Guidelines and Assessment Weightage

### Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
4. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
5. In case of successfully passing only certain number of NOSs, the trainee is eligible to take subsequent assessment on the balance NOS's to pass the Qualification Pack.
6. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

**Minimum Aggregate Passing % at QP Level : 50**

## Qualification Pack

**(Please note:** Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

## Assessment Weightage

Compulsory NOS

|                                              |                                                                                                                                                                                                                                                                                                  |
|----------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Sector</b>                                | Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.                                                                      |
| <b>Sub-sector</b>                            | Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.                                                                                                                                                                                     |
| <b>Occupation</b>                            | Occupation is a set of job roles, which perform similar/ related set of functions in an industry.                                                                                                                                                                                                |
| <b>Job role</b>                              | Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.                                                                                                                                                                                |
| <b>Occupational Standards (OS)</b>           | OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts. |
| <b>Performance Criteria (PC)</b>             | Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.                                                                                                                                                                    |
| <b>National Occupational Standards (NOS)</b> | NOS are occupational standards which apply uniquely in the Indian context.                                                                                                                                                                                                                       |
| <b>Qualifications Pack (QP)</b>              | QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.                                                                                                                       |
| <b>Unit Code</b>                             | Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'                                                                                                                                                                                                        |
| <b>Unit Title</b>                            | Unit title gives a clear overall statement about what the incumbent should be able to do.                                                                                                                                                                                                        |
| <b>Description</b>                           | Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.                                                                                                                   |
| <b>Scope</b>                                 | Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.                                                                                            |

## Qualification Pack

|                                         |                                                                                                                                                                                                                                                                                                                                                                        |
|-----------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Knowledge and Understanding (KU)</b> | Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.                                                                                                                                               |
| <b>Organisational Context</b>           | Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.                                                                                                                                                                       |
| <b>Technical Knowledge</b>              | Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.                                                                                                                                                                                                                                                               |
| <b>Core Skills/ Generic Skills (GS)</b> | Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles. |
| <b>Electives</b>                        | Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.                                                                            |
| <b>Options</b>                          | Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.                                                                                                                                                          |
