## Qualification Pack

### AGR/N4407: Prepare and maintain work area for hatchery operations

#### Description

This OS unit is about preparing and maintaining the work area for hatchery operations, ensuring proper safety and hygiene.

#### Scope

The scope covers the following :

- Prepare and maintain safe and hygienic work area for hatchery operations

#### Elements and Performance Criteria

##### *Prepare and maintain safe and hygienic work area for hatchery operations*

To be competent, the user/individual on the job must be able to:

- PC1.** clean the work area using approved sanitizers and keep it free from dust, waste, flies and pests
- PC2.** prepare and maintain equipment, tools and materials required for carrying out hatchery operations
- PC3.** replenish materials and supplies, as and when required
- PC4.** optimize usage of material including water/electricity in various tasks/activities/processes
- PC5.** maintain tools and equipment according to established workplace procedures
- PC6.** store equipment safely and securely in the assigned location
- PC7.** dispose off waste materials as per the defined SOP and industry requirements

#### Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** organization's hatchery management practices
- KU2.** organization's hatchery welfare regulations
- KU3.** materials and equipment used for managing operations in a hatchery
- KU4.** environmentally sound methods for managing bird waste
- KU5.** effective health and safety methods and systems for workers
- KU6.** benefits of resource optimization

#### Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** note the information communicated by the supervisor
- GS2.** read equipment manuals and process documents to understand the equipments operation and maintenance

## Qualification Pack

- GS3.** discuss task lists, schedules, activities and possible solution of hatchery operation related issues with the supervisor
- GS4.** maintain effective work relationship with other workers and supervisor
- GS5.** maintain effective working relationships with stakeholders at workplace
- GS6.** plan and prioritize work based on instructions received from the supervisor
- GS7.** identify problems that may arise in carrying out tasks and take preventative action
- GS8.** analyze the information gathered from one's observations and experiences

## Qualification Pack

### Assessment Criteria

| Assessment Criteria for Outcomes                                                                              | Theory Marks | Practical Marks | Project Marks | Viva Marks |

### AGR/N4408: Maintain proper working conditions within the setter room

#### Description

This OS is about maintaining proper working conditions within the setter room.

#### Scope

The scope covers the following :

- Place the equipment within the setter room
- Maintain conducive environmental conditions
- Troubleshoot and maintain equipment

#### Elements and Performance Criteria

##### *Place the equipment within the setter room*

To be competent, the user/individual on the job must be able to:

- PC1.** ensure that the size of the setter room is large enough to accommodate all the equipment
- PC2.** maintain a minimum of 3 ft. space between the adjacent sides of the setters and from wall to sides or back of the setters
- PC3.** maintain a minimum of 10 ft. space between the setters when kept in a face to face arrangement

##### *Maintain conducive environmental conditions*

To be competent, the user/individual on the job must be able to:

- PC4.** ensure to maintain the recommended optimum temperature and humidity level for the chicken eggs in the setter room for the first 18 days
- PC5.** ensure to maintain the recommended oxygen level of the air in the setter
- PC6.** turn the eggs in the setter at regular intervals (manually/automatically), to achieve adequate hatchability
- PC7.** respond promptly to alarms or system alerts indicating deviations from desired environmental conditions
- PC8.** ensure proper airflow and ventilation within the incubators to prevent overheating or other environmental hazards

##### *Troubleshoot and maintain the equipment*

To be competent, the user/individual on the job must be able to:

- PC9.** perform regular maintenance checks on incubators, hatchers, and ventilation systems to ensure they are in optimal working condition
- PC10.** troubleshoot and repair minor mechanical or electrical issues with incubators and other hatchery equipment to prevent disruptions in the hatching process
- PC11.** coordinate with maintenance personnel for more complex repairs and replacements when necessary

#### Knowledge and Understanding (KU)

## Qualification Pack

The individual on the job needs to know and understand:

- KU1.** organization's methods for maintaining environmentally sound conditions within the setter room
- KU2.** own job role and responsibilities and sources for information pertaining to work
- KU3.** method of proper placement of equipment within the setter room
- KU4.** Troubleshooting and maintenance of the hatchery equipment
- KU5.** recommended temperature, humidity and oxygen level for the setter room
- KU6.** hygiene standards, disinfectants and cleaning techniques of equipment and materials
- KU7.** best practices for achieving adequate hatchability
- KU8.** who to approach for support in order to obtain work-related information, clarifications and support
- KU9.** impact of not following the health, hygiene, safety and quality standards on consumers and the business

## Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** note the information communicated by the supervisor
- GS2.** read equipment manuals and process documents to understand the equipment operation and maintenance
- GS3.** discuss task lists, schedules, activities and possible solution of hatchery operation related issues for problem solving with the supervisor
- GS4.** maintain effective work relationship with other workers
- GS5.** plan and prioritize work based on instructions received from the supervisor
- GS6.** identify problems that may arise in carrying out tasks and take preventative action

## Qualification Pack

### Assessment Criteria

| Assessment Criteria for Outcomes                                                                                                                                       | Theory Marks | Practical Marks | Project Marks | Viva Marks |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------|-----------------|---------------|------------|

### AGR/N4409: Maintain records related to setting operations

#### Description

This OS unit is about documentation and record keeping related to setting operations and other hatchery related data.

#### Scope

The scope covers the following :

- Maintain records of chickens in the hatchery
- Maintain records of costs incurred

#### Elements and Performance Criteria

##### *Maintain records of chickens in the hatchery*

To be competent, the user/individual on the job must be able to:

- PC1.** keep detailed records of incubation parameters, including temperature, humidity, and egg-turning intervals, for each batch of eggs
- PC2.** record hatchability rates, chick mortality, and egg fertility statistics
- PC3.** prepare the documents with details of the eggs set in the incubators and setters, chicks hatched per batch and other processes
- PC4.** maintain records of equipment used in the setter room, deviation in physical conditions of the room, etc
- PC5.** report operational issues, equipment malfunctions, and anomalies in hatchability rates to the hatchery supervisor or management

##### *Maintain records of costs incurred*

To be competent, the user/individual on the job must be able to:

- PC6.** identify the cost items to be recorded
- PC7.** maintain record of all expenses such as egg production, egg cost per chick hatched, egg cost per chick sold, total cost of hatching and selling one chick

#### Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** documentation system followed by the organization
- KU2.** job responsibilities/duties and standard operating procedures
- KU3.** details to be recorded in the record book/register
- KU4.** methods to record and maintain the observations (if any) related to hatchery operations
- KU5.** methods to track back the record from finished product to raw material
- KU6.** different costs incurred in a hatchery
- KU7.** method of reporting to the supervisor

## Qualification Pack

### Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** note the information communicated by the supervisor
- GS2.** note down observations related to the hatchery operations
- GS3.** note down the data for ERP or as required by the organization in prescribed format
- GS4.** discuss task lists, schedules, activities and possible solution of hatchery operation related issues for problem solving with the supervisor
- GS5.** effectively communicate with the team members
- GS6.** handle issues in case the supervisor is not available
- GS7.** plan and prioritize the work based on the instructions received from the supervisor

## Qualification Pack

### Assessment Criteria

| Assessment Criteria for Outcomes                                                                                                                                      | Theory Marks | Practical Marks | Project Marks | Viva Marks |

### AGR/N4410: Maintain safety, hygiene and sanitation of hatchery

#### Description

This OS unit is about maintaining safety and hygiene of birds and workers in the hatchery.

#### Scope

The scope covers the following :

- Maintain proper hatchery sanitation
- Follow proper hatchery waste disposal and compliance with bio-security protocols

#### Elements and Performance Criteria

##### *Maintain proper hatchery sanitation*

To be competent, the user/individual on the job must be able to:

- PC1.** ensure fumigation of eggs after collection
- PC2.** carry out sorting of dirty and cracked eggs as soon as possible and dispose them immediately
- PC3.** ensure that setting and hatching trays are thoroughly washed and disinfected after every batch
- PC4.** ensure that the incubator and hatcher rooms are thoroughly washed and disinfected after every batch
- PC5.** disinfect the instruments and equipment used for the sexing operation, before and after use
- PC6.** ensure that chicks are transported out of the hatchery in new containers of the disposable type

##### *Follow proper hatchery waste disposal and compliance with bio-security protocols*

To be competent, the user/individual on the job must be able to:

- PC7.** segregate waste into different categories
- PC8.** deposit recyclable and reusable material at identified location
- PC9.** dispose waste such as infertile eggs, non-hatched eggs, membranes, eggshells, etc. as per organizational guidelines
- PC10.** dispose waste by burning in specially constructed facilities (incinerators) or by burying them deep enough
- PC11.** follow bio-security protocols in accordance with workplace standards

#### Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** organization standards and procedures followed in the case of any health emergency or accident
- KU2.** safety checklists followed by the organization
- KU3.** possible physical, chemical and biological hazards and methods of prevention

## Qualification Pack

- KU4.** personal hygiene requirements
- KU5.** different types of sanitizers used for storage area and equipment and the procedure to use
- KU6.** bio-security measures applicable at the hatchery unit
- KU7.** safe waste disposal methods

## Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** note the information communicated by the supervisor
- GS2.** read equipment manuals and process documents to understand the equipment operation and maintenance
- GS3.** discuss task lists, schedules , activities and possible solutions for problem with the supervisor
- GS4.** maintain effective working relationships with other workers and seniors
- GS5.** plan and prioritize work based on instructions received from the supervisor
- GS6.** identify problems that may arise in carrying out tasks and take preventative action
- GS7.** analyze the information gathered from one's observations and experiences

### DGT/VSQ/N0101: Employability Skills (30 Hours)

#### Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

#### Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

#### Elements and Performance Criteria

##### *Introduction to Employability Skills*

To be competent, the user/individual on the job must be able to:

**PC1.** understand the significance of employability skills in meeting the job requirements

##### *Constitutional values – Citizenship*

To be competent, the user/individual on the job must be able to:

**PC2.** identify constitutional values, civic rights, duties, personal values and ethics and environmentally sustainable practices

##### *Becoming a Professional in the 21st Century*

To be competent, the user/individual on the job must be able to:

**PC3.** explain 21st Century Skills such as Self-Awareness, Behavior Skills, Positive attitude, self-motivation, problem-solving, creative thinking, time management, social and cultural awareness, emotional awareness, continuous learning mindset etc.

##### *Basic English Skills*

To be competent, the user/individual on the job must be able to:

**PC4.** speak with others using some basic English phrases or sentences

##### *Communication Skills*

To be competent, the user/individual on the job must be able to:

**PC5.** follow good manners while communicating with others

**PC6.** work with others in a team

## Qualification Pack

### *Diversity & Inclusion*

To be competent, the user/individual on the job must be able to:

**PC7.** communicate and behave appropriately with all genders and PwD

**PC8.** report any issues related to sexual harassment

### *Financial and Legal Literacy*

To be competent, the user/individual on the job must be able to:

**PC9.** use various financial products and services safely and securely

**PC10.** calculate income, expenses, savings etc.

**PC11.** approach the concerned authorities for any exploitation as per legal rights and laws

### *Essential Digital Skills*

To be competent, the user/individual on the job must be able to:

**PC12.** operate digital devices and use its features and applications securely and safely

**PC13.** use internet and social media platforms securely and safely

### *Entrepreneurship*

To be competent, the user/individual on the job must be able to:

**PC14.** identify and assess opportunities for potential business

**PC15.** identify sources for arranging money and associated financial and legal challenges

### *Customer Service*

To be competent, the user/individual on the job must be able to:

**PC16.** identify different types of customers

**PC17.** identify customer needs and address them appropriately

**PC18.** follow appropriate hygiene and grooming standards

### *Getting ready for apprenticeship & Jobs*

To be competent, the user/individual on the job must be able to:

**PC19.** create a basic biodata

**PC20.** search for suitable jobs and apply

**PC21.** identify and register apprenticeship opportunities as per requirement

## Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

**KU1.** need for employability skills

**KU2.** various constitutional and personal values

**KU3.** different environmentally sustainable practices and their importance

**KU4.** Twenty first (21st) century skills and their importance

**KU5.** how to use basic spoken English language

**KU6.** Do and dont of effective communication

**KU7.** inclusivity and its importance

**KU8.** different types of disabilities and appropriate communication and behaviour towards PwD

**KU9.** different types of financial products and services

## Qualification Pack

- KU10.** how to compute income and expenses
- KU11.** importance of maintaining safety and security in financial transactions
- KU12.** different legal rights and laws
- KU13.** how to operate digital devices and applications safely and securely
- KU14.** ways to identify business opportunities
- KU15.** types of customers and their needs
- KU16.** how to apply for a job and prepare for an interview
- KU17.** apprenticeship scheme and the process of registering on apprenticeship portal

## Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate effectively using appropriate language
- GS2.** behave politely and appropriately with all
- GS3.** perform basic calculations
- GS4.** solve problems effectively
- GS5.** be careful and attentive at work
- GS6.** use time effectively
- GS7.** maintain hygiene and sanitisation to avoid infection

## Assessment Guidelines and Assessment Weightage

### Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down the proportion of marks for Theory and Skills Practical for each PC.
2. The assessment for the theory part will be based on the knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/optional set of NOS.
4. Individual assessment agencies will create unique question papers for the theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score a minimum of 50% of % aggregate marks to successfully clear the assessment.

## Qualification Pack

7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

### Minimum Aggregate Passing % at QP Level : 50

**(Please note:** Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

|----------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Sector</b>                                | Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.                                                                      |
| <b>Sub-sector</b>                            | Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.                                                                                                                                                                                     |
| <b>Occupation</b>                            | Occupation is a set of job roles, which perform similar/ related set of functions in an industry.                                                                                                                                                                                                |
| <b>Job role</b>                              | Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.                                                                                                                                                                                |
| <b>Occupational Standards (OS)</b>           | OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts. |
| <b>Performance Criteria (PC)</b>             | Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.                                                                                                                                                                    |
| <b>National Occupational Standards (NOS)</b> | NOS are occupational standards which apply uniquely in the Indian context.                                                                                                                                                                                                                       |
| <b>Qualifications Pack (QP)</b>              | QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.                                                                                                                       |
| <b>Unit Code</b>                             | Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'                                                                                                                                                                                                        |
| <b>Unit Title</b>                            | Unit title gives a clear overall statement about what the incumbent should be able to do.                                                                                                                                                                                                        |
| <b>Description</b>                           | Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.                                                                                                                   |
| <b>Scope</b>                                 | Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.                                                                                            |

## Qualification Pack

|                                         |                                                                                                                                                                                                                                                                                                                                                                        |
|-----------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Knowledge and Understanding (KU)</b> | Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.                                                                                                                                               |
| <b>Organisational Context</b>           | Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.                                                                                                                                                                       |
| <b>Technical Knowledge</b>              | Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.                                                                                                                                                                                                                                                               |
| <b>Core Skills/ Generic Skills (GS)</b> | Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles. |
| <b>Electives</b>                        | Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.                                                                            |
| <b>Options</b>                          | Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.                                                                                                                                                          |
