AGR/Q5001: Marine Capture Fisherman cum Primary Processor

Brief Job Description

A Marine Fisher cum Primary Processor is responsible for capturing a variety of marine fish. The individual uses and maintains the relevant equipment and boat/vessel during the operations. The person is also responsible for maintaining the quality of the captured fish and marketing it.

Personal Attributes

The individual must have the stamina to work for long durations, along with good eyesight and attention to detail. The person must be able to work in coordination with others to achieve the work objectives, and know how to read, write and swim.

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [AGR/N5001: Prepare for the fishing operation](#)
2. [AGR/N5002: Capture the marine fish and maintain the vessel](#)
3. [AGR/N5003: Carry out the post-fishing activities](#)
4. [AGR/N5103: Follow the safety and hygiene practices in capture fisheries operations](#)
5. [DGT/VSQ/N0102: Employability Skills \(60 Hours\)](#)

AGR/N5001: Prepare for the fishing operation

Description

This OS unit is about preparing for the fishing operation that includes the selection of the fish species, fish capture method, fishing vessel and fishing equipment. It also covers preparing the fishing equipment and vessel.

Scope

The scope covers the following :

- Select the fish species, fish capture method and equipment
- Prepare the fishing equipment
- Select and prepare the fishing vessel
- Check the weather and obtain the necessary permit

Elements and Performance Criteria

Select the fish species, fish capture method and equipment

To be competent, the user/individual on the job must be able to:

- PC1.** select the fish species to be captured depending on the region, climate, profitability, fish's shoaling behaviour and seasonal availability
- PC2.** select an appropriate fish capture method and active or passive fishing gear depending on the species to be captured and the duration of the trip
- PC3.** select the appropriate trap net and mesh size according to the species and size of the fish to be captured
- PC4.** determine the hook size and type of bait to be used according to the fish species to be captured
- PC5.** select the fishing equipment such as rod, reel, line, hooks, pots, traps, lines and dredges according to the selected fish capture method

Prepare the fishing equipment

To be competent, the user/individual on the job must be able to:

- PC6.** adjust the fishing net according to the selected fishing method and the species to be captured
- PC7.** ensure the bait, tongs, rakes, hoes, shovels and wire trap can withstand the rough sea conditions and tougher fishes

Select and prepare the fishing vessel

To be competent, the user/individual on the job must be able to:

- PC8.** select an appropriate mechanised or non-mechanised fishing vessel according to the quantity of fish to be captured
- PC9.** ensure the selected vessel is able to withstand the rough conditions in the sea
- PC10.** arrange the appropriate type of fuel for the mechanised boat in the recommended quantity
- PC11.** check drinking water and appropriate consumables are available on the fishing vessel in the required quantity

Qualification Pack

PC12. ensure the fishing vessel has appropriate arrangements for storing and preserving the fish to be captured during the fishing operation until return to the shore

PC13. arrange the necessary tools, equipment and materials for minor repair and maintenance activities during the fishing operation

Check the weather and obtain the necessary permit

To be competent, the user/individual on the job must be able to:

PC14. check the weather forecast and sea conditions to ensure it is suitable for the fishing operation

PC15. ensure the necessary permit for the capture operation is secured from the relevant authority

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. the criteria for selecting the fish species to be captured, such as the region, climate, profitability, fish shoaling behaviour and seasonal availability

KU2. species with legal protection, size regulation, season/area protection in the area of operation

KU3. the process of selecting an appropriate fish capture method and active or passive fishing gear depending on the species to be captured and duration of the trip

KU4. the process of selecting the appropriate trap net and mesh size according to the species and size of the fish to be captured

KU5. the process of determining the hook size and type of bait according to the fish species to be captured

KU6. various fishing equipment to be used for capturing fish such as rod, reel, line, hooks, pots, traps, lines and dredges

KU7. the process of adjusting the fishing net according to the selected fishing method and the species to be captured

KU8. the importance of ensuring the selected vessel and equipment are able to withstand the rough sea conditions

KU9. the criteria for selecting an appropriate mechanised or non-mechanised fishing vessel for fish capture operation

KU10. the importance of ensuring adequate stock of drinking water, appropriate consumables and fuel on the vessel

KU11. applicable arrangements required for hygienic storage of captured fish on the fishing vessel

KU12. use of the relevant tools and equipment for minor repair and maintenance activities on the vessel during the fishing operation

KU13. applicable permit requirements and the relevant authority to be contacted for the purpose

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. write work-related records

GS2. communicate clearly and politely

Qualification Pack

- GS3.** read the relevant literature to get information about the latest developments in the field of work
- GS4.** plan and prioritise tasks to ensure timely completion
- GS5.** take quick decisions to deal with workplace emergencies/ accidents
- GS6.** listen attentively to understand the information/ instructions being shared by the speaker
- GS7.** identify possible disruptions to work and take appropriate preventive measures
- GS8.** co-ordinate with co-workers to achieve work objectives
- GS9.** evaluate all possible solutions to a problem to select the best one

AGR/N5002: Capture the marine fish and maintain the vessel

Description

This OS unit is about capturing marine fish using various fishing tools and equipment, and maintaining the fishing vessel.

Scope

The scope covers the following :

- Capture the fish
- Adopt sustainable fishing practices
- Maintain the quality standards
- Maintain the vessel

Elements and Performance Criteria

Capture the fish

To be competent, the user/individual on the job must be able to:

- PC1.** operate the selected fishing vessel to reach the selected fishing ground
- PC2.** locate fish shoals using the fish finding equipment
- PC3.** anchor the fishing vessel safely at the identified location
- PC4.** set up the fishing gear in the water according to the selected fishing method
- PC5.** use the fishing gear appropriately to capture the fish
- PC6.** extract the catch from the nets or the line hooks
- PC7.** use dip nets to prevent the escape of small fish

Adopt sustainable fishing practices

To be competent, the user/individual on the job must be able to:

- PC8.** adhere to catch limits and quotas set by regulatory bodies in terms of number, size, and species of fish caught
- PC9.** release bycatch (such as berried females, juvenile fish, marine mammals, sea turtles and other entangled species) safely
- PC10.** use sustainable fishing gear and nets
- PC11.** use proper measuring devices like calipers or fish rulers to measure fish correctly and ensure compliance with Minimum Landing Size (MLS) and prevent violations
- PC12.** monitor and record catches accurately to comply with regulations and avoid overfishing
- PC13.** practice rotational fishing or temporarily halt fishing in specific areas during breeding season to replenish marine life
- PC14.** minimize environmental impact by using more efficient engines or renewable energy sources on vessels

Maintain the quality standards

To be competent, the user/individual on the job must be able to:

Qualification Pack

PC15. follow the recommended practices to protect the captured fish from damage while hauling it into the vessel and extract it from the nets

PC16. follow the recommended hygiene standards to protect the captured fish from contamination and maintain their quality

Maintain the vessel

To be competent, the user/individual on the job must be able to:

PC17. carry out minor repair and maintenance of the vessel's engine, fishing gear, and other onboard equipment

PC18. co-ordinate with an expert for any complex repair and maintenance needs

PC19. clean the deck and fishing gear appropriately using clean water and recommended cleaning material

PC20. maintain the record of repair and maintenance activities

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. how to operate mechanised/ non-mechanised fishing vessel

KU2. how to locate fish shoals using the appropriate fish finding equipment

KU3. how to anchor the fishing vessel

KU4. the process of setting up and using the fishing gear to capture fish

KU5. use of dip nets to prevent the escape of small fish

KU6. sustainable fishing practices

KU7. sustainable fishing gears and net

KU8. methods of minimizing environmental impact during fishing

KU9. the importance of MLS regulations and the role they play in preserving fish populations and marine biodiversity

KU10. the specific MLS for each species is and the penalties for violating the regulations

KU11. data collection and recording methods

KU12. recommended practices to be followed to protect the captured fish from damage while hauling it into the vessel and extracting it from the nets

KU13. recommended hygiene standards to be followed to protect the captured fish from contamination, and maintain their quality

KU14. the process of carrying out minor repair and maintenance of the vessel engine, fishing gear, and other onboard equipment

KU15. applicable documentation requirements

Generic Skills (GS)

User/individual on the job needs to know how to:

AGR/N5003: Carry out the post-fishing activities

Description

This unit is about carrying out post-fishing activities that include hygienic handling of fish and processing it for marketing.

Scope

The scope covers the following :

- Handle and process the fish

Elements and Performance Criteria

Handle and process the fish

To be competent, the user/individual on the job must be able to:

- PC1.** remove the catch from the fishing equipment, ensuring to protect it from damage
- PC2.** sort and grade the catch on the basis of appropriate parameters
- PC3.** follow the applicable hygiene standards such as Good Manufacturing Practices (GMP) and Sanitation Standard Operating Procedures (SSOP) while handling the fish
- PC4.** perform organoleptic analysis of the catch
- PC5.** wash the fish to remove any contaminants and dry it, as required
- PC6.** store the fish under the recommended temperature using ice or the appropriate air-conditioning equipment, ensuring its quality is preserved
- PC7.** process the fish as per the buyer's requirements
- PC8.** follow the Hazard Analysis and Critical Control Point (HACCP) method to identify and manage the food safety-related risks while handling and processing the fish
- PC9.** arrange an appropriate mode of transport for hygienic shipping of fish to the processing plant or retail buyers
- PC10.** maintain the relevant records regarding the processing of fish

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the process of removing the catch from the fishing equipment, protecting it from damage
- KU2.** applicable parameters for sorting and grading the captured fish
- KU3.** applicable hygiene standards to be followed while handling the fish such as Good Manufacturing Practices (GMP) and Sanitation Standard Operating Procedures (SSOP)
- KU4.** the process of carrying out organoleptic analysis of fish
- KU5.** the process of washing and drying the fish
- KU6.** the recommended temperature to store the fish to preserve its quality

Qualification Pack

AGR/N5103: Follow the safety and hygiene practices in capture fisheries operations

Description

This OS unit is about following safety, hygiene and sanitation practices for capture fisheries and fishing assistance.

Scope

The scope covers the following :

- Follow onboard safe working practices
- Follow safety guidelines in water bodies
- Follow the fish capturing and handling guidelines

Elements and Performance Criteria

Follow onboard safe working practices

To be competent, the user/individual on the job must be able to:

- PC1.** use all fishing machinery and equipment safely following the manufacturer's instructions
- PC2.** carry out regular testing and maintenance of the life-saving, Light Sound & Signals (LS&S) and firefighting equipment
- PC3.** use the life-saving equipment in case of rough weather/ emergencies

Follow safety guidelines in water bodies

To be competent, the user/individual on the job must be able to:

- PC4.** use the trim & stability booklet of fishing vessel properly
- PC5.** use the relevant equipment to detect ships/ boats in the vicinity and take appropriate measures to avoid collisions
- PC6.** detect underwater dangers along the fishing route and take appropriate measures to mitigate them

Follow the fish capturing and handling guidelines

To be competent, the user/individual on the job must be able to:

- PC7.** follow the applicable laws related to fishing methods, use of different types of fishing gear, conservation of banned species, disposal of dead/ damaged fish, etc.
- PC8.** identify poisonous organisms caught with the fish and dispose them safely
- PC9.** handle and clean the fish ensuring minimum damage to it
- PC10.** store the fish under the recommended temperature and in hygienic conditions to maintain its freshness

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** safe use of various fishing machineries and equipment

Qualification Pack

- KU2.** regular testing and maintenance of the life-saving and firefighting equipment
- KU3.** how to use different types of life-saving equipment
- KU4.** relevant regulations to be followed in the marine waters such as Coastal Regulation Zone (CRZ) guidelines
- KU5.** the process of using the relevant equipment to detect ships/ boats in the vicinity and the appropriate measures to be followed to avoid collisions
- KU6.** the process of detecting underwater dangers along the fishing route and appropriate measures to be taken to mitigate them
- KU7.** applicable laws related to fishing methods, use of different types of fishing gear, conservation of banned species, disposal of dead/ damaged fish, etc.
- KU8.** the process of identifying poisonous creatures caught with the fish and their safe disposal
- KU9.** the process of handling and cleaning the fish safely
- KU10.** the temperature and hygiene requirement for storing the fish to maintain its freshness

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** write work-related records
- GS2.** communicate clearly and politely
- GS3.** read the relevant literature to get information about the latest developments in the field of work
- GS4.** plan and prioritise tasks to ensure timely completion
- GS5.** take quick decisions to deal with workplace emergencies/ accidents
- GS6.** listen attentively to understand the information/ instructions being shared by the speaker
- GS7.** identify possible disruptions to work and take appropriate preventive measures
- GS8.** co-ordinate with co-workers to achieve work objectives
- GS9.** evaluate all possible solutions to a problem to select the best one

DGT/VSQ/N0102: Employability Skills (60 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Career Development & Goal Setting
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

- PC1.** identify employability skills required for jobs in various industries
- PC2.** identify and explore learning and employability portals

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

- PC3.** recognize the significance of constitutional values, including civic rights and duties, citizenship, responsibility towards society etc. and personal values and ethics such as honesty, integrity, caring and respecting others, etc.
- PC4.** follow environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

- PC5.** recognize the significance of 21st Century Skills for employment
- PC6.** practice the 21st Century Skills such as Self-Awareness, Behaviour Skills, time management, critical and adaptive thinking, problem-solving, creative thinking, social and cultural awareness, emotional awareness, learning to learn for continuous learning etc. in personal and professional life

Basic English Skills

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC7.** use basic English for everyday conversation in different contexts, in person and over the telephone
- PC8.** read and understand routine information, notes, instructions, mails, letters etc. written in English
- PC9.** write short messages, notes, letters, e-mails etc. in English

Career Development & Goal Setting

To be competent, the user/individual on the job must be able to:

- PC10.** understand the difference between job and career
- PC11.** prepare a career development plan with short- and long-term goals, based on aptitude

Communication Skills

To be competent, the user/individual on the job must be able to:

- PC12.** follow verbal and non-verbal communication etiquette and active listening techniques in various settings
- PC13.** work collaboratively with others in a team

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

- PC14.** communicate and behave appropriately with all genders and PwD
- PC15.** escalate any issues related to sexual harassment at workplace according to POSH Act

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

- PC16.** select financial institutions, products and services as per requirement
- PC17.** carry out offline and online financial transactions, safely and securely
- PC18.** identify common components of salary and compute income, expenses, taxes, investments etc
- PC19.** identify relevant rights and laws and use legal aids to fight against legal exploitation

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

- PC20.** operate digital devices and carry out basic internet operations securely and safely
- PC21.** use e- mail and social media platforms and virtual collaboration tools to work effectively
- PC22.** use basic features of word processor, spreadsheets, and presentations

Entrepreneurship

To be competent, the user/individual on the job must be able to:

- PC23.** identify different types of Entrepreneurship and Enterprises and assess opportunities for potential business through research
- PC24.** develop a business plan and a work model, considering the 4Ps of Marketing Product, Price, Place and Promotion
- PC25.** identify sources of funding, anticipate, and mitigate any financial/ legal hurdles for the potential business opportunity

Customer Service

To be competent, the user/individual on the job must be able to:

- PC26.** identify different types of customers
- PC27.** identify and respond to customer requests and needs in a professional manner.

Qualification Pack

PC28. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC29. create a professional Curriculum vitae (Résumé)

PC30. search for suitable jobs using reliable offline and online sources such as Employment exchange, recruitment agencies, newspapers etc. and job portals, respectively

PC31. apply to identified job openings using offline /online methods as per requirement

PC32. answer questions politely, with clarity and confidence, during recruitment and selection

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
4. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
5. In case of successfully passing only certain number of NOSs, the trainee is eligible to take subsequent assessment on the balance NOS's to pass the Qualification Pack.
6. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack

Minimum Aggregate Passing % at QP Level : 50

Qualification Pack

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Assessment Weightage

Compulsory NOS

National Occupational Standards	Theory Marks	Practical Marks	Project Marks	Viva Marks	Total Marks	Weightage

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
