AGR/Q5002: Fishing Boat Driver (Small Mechanized vessel)

Brief Job Description

A Fishing Boat Driver (Small Mechanized Vessel) is responsible for steering the small mechanised boat in the sea. The individual follows the planned route to navigate between the harbour and identified fishing location. The person also prepares the boat for fishing operation and carries out its minor repair and maintenance.

Personal Attributes

The person must be physically fit to work for long durations and should be comfortable in marine navigation for long multi day fishing onboard fishing vessels. The individual must know how to read, write and swim and possess problem-solving skills. The person must have a mechanical aptitude with the ability to work under challenging conditions of sea.

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [AGR/N5004: Prepare for the fishing operation](#)
2. [AGR/N5005: Steer the boat during the fishing operation](#)
3. [AGR/N5103: Follow the safety and hygiene practices in capture fisheries operations](#)
4. [DGT/VSQ/N0102: Employability Skills \(60 Hours\)](#)

AGR/N5004: Prepare for the fishing operation

Description

This OS unit is about checking various equipment and accessories on the boat to ensure their fitness for use in the sea. It also covers checking the weather conditions before the fishing operation.

Scope

The scope covers the following :

- Check various equipment and accessories
- Check the safety and fire-fighting equipment
- Check weather forecasts and sea conditions

Elements and Performance Criteria

Check various equipment and accessories

To be competent, the user/individual on the job must be able to:

- PC1.** Use various equipment such as the GPS receiver, echo sounder, marine VHF radio, foghorn, gyro-compass, navigational chart etc. for the correct functioning
- PC2.** check the steering gear to ensure its free movement
- PC3.** test the engine and gear box order telegraph to ensure they work as expected
- PC4.** test the communication equipment on the boat to ensure effective communication from the wheelhouse to the machinery space
- PC5.** check the navigation lights for faults and damage and repair or replace them, as required
- PC6.** ensure the navigation lights are of marine standards
- PC7.** ensure main engine and gear box to be trouble free for multiday fishing
- PC8.** ensure the availability of spare navigation lights on the boat for replacement during the fishing operation
- PC9.** ensure all mandatory signals display correctly on the fishing boat as per the coastal navigation rules, including both day and night time signals
- PC10.** test the searchlights to ensure their correct functioning
- PC11.** check the mast and ropes used to hoist signals for wear and tear or damage
- PC12.** check the anchor and anchor ropes/ chains for wear and tear or damage and repair or replace them, if required

Check the safety and fire-fighting equipment

To be competent, the user/individual on the job must be able to:

- PC13.** check the safety equipment such as Life Saving Appliances (LSA), Fire Fighting Equipment (FFA) and Light, Sound & Signals (L S & S) to ensure they are usable and without damage
- PC14.** ensure the availability of adequate safety equipment according to the crew on the boat
- PC15.** assist the deckhand in testing the fire extinguishers and ensuring there are no obstructions in accessing them during an emergency
- PC16.** test the fire hoses to ensure they have no leakages

Qualification Pack

Check weather forecasts and sea conditions

To be competent, the user/individual on the job must be able to:

- PC17.** check the weather forecasts and warnings of storms or depressions from reliable sources before going into the sea
- PC18.** check the conditions in the sea to ensure conducive weather

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** basic seamanship and rope work
- KU2.** how to test various equipment such as the GPS receiver, echo sounder, marine VHF radio, foghorn, gyro-compass, engine order telegraph, Very High Frequency (VHF) radio etc.
- KU3.** the importance of ensuring effective communication between the wheelhouse and machinery space
- KU4.** how to check the navigation lights for faults and damage, and repair or replace them
- KU5.** the recommended specifications of the navigation lights to ensure their visibility from a distance
- KU6.** mandatory signals to be displayed on the fishing boat as per the coastal navigation rules
- KU7.** how to test the searchlights to ensure their correct functioning
- KU8.** the importance of ensuring the anchor and anchor ropes/ chains are in usable condition
- KU9.** the importance of checking that safety equipment such as LSA, FFA and L S & S are usable and available in an adequate number
- KU10.** how to test fire extinguishers and the importance of ensuring there are no obstructions in accessing them during an emergency
- KU11.** the importance of checking weather forecasts and sea conditions before going into the sea

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** write work-related notes
- GS2.** read the relevant literature to get the latest updates about the field of work
- GS3.** communicate politely and professionally
- GS4.** listen attentively to understand the information/ instructions being shared
- GS5.** plan and schedule tasks for efficient use of time
- GS6.** co-ordinate with the co-workers to achieve the work objectives
- GS7.** take quick decisions to deal with any emergencies/ accidents and disruptions to work
- GS8.** evaluate all possible solutions to a problem to select the best one

AGR/N5005: Steer the boat during the fishing operation

Description

This OS unit is about steering and manoeuvring the boat during the fishing operation.

Scope

The scope covers the following :

- Navigate the boat
- Follow the safety protocols while navigating, anchoring and harbouring
- Optimise resource utilisation

Elements and Performance Criteria

Navigate the boat

To be competent, the user/individual on the job must be able to:

- PC1.** determine the shortest and safest route to the identified fishing location using Global Positioning System (GPS) tracker
- PC2.** follow the recommended practices to prevent the fishing gear from getting tangled with the propeller, avoiding underwater dangers
- PC3.** manoeuvre the boat in a manner to ensure the safety of crew while using the fishing gear and hauling fish into the boat
- PC4.** monitor the ocean currents and wind direction and navigate accordingly
- PC5.** ensure the wheelhouse is manned by trained personnel at all times

Follow the safety protocols while navigating, anchoring and harbouring

To be competent, the user/individual on the job must be able to:

- PC6.** steer the boat safely at the recommended speed, avoiding accidents and maintain stability of the boat
- PC7.** follow the recommended safety practices while navigating in low-visibility waters
- PC8.** use the relevant equipment to detect the presence of other boats, vessels and dredgers in the vicinity and alert them, maintaining the recommended distance
- PC9.** follow the recommended emergency procedures during the rough weather to manoeuvre the boat
- PC10.** navigate according to the instructions of the lighthouse
- PC11.** navigate to an appropriate spot to anchor the boat, ensuring anchor rope/ chain is adequately long to reach the bottom of the water body
- PC12.** anchor the boat safely at the identified spot and display the appropriate signals to indicate the stationary position of the boat
- PC13.** communicate with the emergency services using the marine Very High Frequency (VHF) radio, AIS and co-ordinate with them for rescue operations
- PC14.** navigate in the sea following the applicable navigation guidelines, such as displaying appropriate lights and signals

Qualification Pack

PC15. determine the direction of movement of other boats and ships and if they are anchored according to the navigation lights and signals displayed by them

PC16. ensure there are no risks to the boats and vessels in the harbour and enter the harbour safely following the established procedure

Optimise resource utilisation and manage waste

To be competent, the user/individual on the job must be able to:

PC17. optimise the usage of water and other resources in various tasks and processes

PC18. reduce, reuse, and recycle whenever possible

PC19. use reusable grocery bags instead of disposable plastic or paper bags

PC20. buy in bulk and avoid over-packaged products

PC21. collect plastics, ghost gear, and other debris that gathers in the nets during fishing activities

PC22. recycle the recyclable waste appropriately and dispose the non-recyclable waste in an environment-friendly manner

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. updates on the rules and regulations of MMD regarding marine fishing

KU2. different types of lights and signals displayed during navigation to ensure safety

KU3. how to interpret the readings displayed on various wheelhouse equipment

KU4. how to send the distress signal/emergency message as per the established maritime protocols using marine VHF radio

KU5. coastal navigation rules concerning the International Borderline (IBL)

KU6. how to use the relevant equipment onboard the boat such as GPS tracker, VHF radio, fish finder or echo sounder, etc.

KU7. use of relevant safety equipment on the boat

KU8. recommended practices to be followed to prevent the fishing gear from getting tangled with the propeller

KU9. how to manoeuvre the boat safely to ensure the safety of crew while using the fishing gear and hauling fish into the boat

KU10. the importance of monitoring the ocean currents and wind direction and navigating accordingly

KU11. the process of anchoring the boat safely and the appropriate signals to be displayed to indicate the stationary position of the boat

KU12. the importance of ensuring the wheelhouse is always manned by a trained personnel

KU13. the importance of steering the boat safely at the recommended speed, avoiding a sudden change of direction

KU14. recommended safety practices to be followed while navigating in low-visibility waters

KU15. how to use the relevant equipment to detect the presence of other boats, vessels and dredgers in the vicinity and alert them

KU16. recommended emergency procedures to be followed during the rough weather to manoeuvre the boat

Qualification Pack

- KU17.** the importance of navigating according to the instructions of the lighthouse
- KU18.** how to communicate with the emergency services using the marine Very High Frequency (VHF) radio and co-ordinate with them for rescue operations
- KU19.** appropriate lights and signals to be displayed while navigating in the sea, according to the navigation guidelines
- KU20.** how to determine the direction of movement of other boats and ships based on the navigation lights and signals displayed by them
- KU21.** the process of harbouring safely while ensuring no risks to the boats and vessels in the harbour
- KU22.** how to communicate with other boats and vessels in the waters and understand their signals
- KU23.** the benefits of resource optimisation
- KU24.** segregation of waste in different categories
- KU25.** how to recycle and dispose different types of waste

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** write work-related notes
- GS2.** read the health and safety instructions
- GS3.** listen attentively to understand the information being shared
- GS4.** communicate politely and professionally
- GS5.** plan and prioritise tasks for effective time management
- GS6.** take quick decisions to deal with any emergencies/ accidents and disruptions to work
- GS7.** co-ordinate with the co-workers to achieve the work objectives

AGR/N5103: Follow the safety and hygiene practices in capture fisheries operations

Description

This OS unit is about following safety, hygiene and sanitation practices for capture fisheries and fishing assistance.

Scope

The scope covers the following :

- Follow onboard safe working practices
- Follow safety guidelines in water bodies
- Follow the fish capturing and handling guidelines

Elements and Performance Criteria

Follow onboard safe working practices

To be competent, the user/individual on the job must be able to:

- PC1.** use all fishing machinery and equipment safely following the manufacturer's instructions
- PC2.** carry out regular testing and maintenance of the life-saving, Light Sound & Signals (LS&S) and firefighting equipment
- PC3.** use the life-saving equipment in case of rough weather/ emergencies

Follow safety guidelines in water bodies

To be competent, the user/individual on the job must be able to:

- PC4.** use the trim & stability booklet of fishing vessel properly
- PC5.** use the relevant equipment to detect ships/ boats in the vicinity and take appropriate measures to avoid collisions
- PC6.** detect underwater dangers along the fishing route and take appropriate measures to mitigate them

Follow the fish capturing and handling guidelines

To be competent, the user/individual on the job must be able to:

- PC7.** follow the applicable laws related to fishing methods, use of different types of fishing gear, conservation of banned species, disposal of dead/ damaged fish, etc.
- PC8.** identify poisonous organisms caught with the fish and dispose them safely
- PC9.** handle and clean the fish ensuring minimum damage to it
- PC10.** store the fish under the recommended temperature and in hygienic conditions to maintain its freshness

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** safe use of various fishing machineries and equipment

Qualification Pack

- KU2.** regular testing and maintenance of the life-saving and firefighting equipment
- KU3.** how to use different types of life-saving equipment
- KU4.** relevant regulations to be followed in the marine waters such as Coastal Regulation Zone (CRZ) guidelines
- KU5.** the process of using the relevant equipment to detect ships/ boats in the vicinity and the appropriate measures to be followed to avoid collisions
- KU6.** the process of detecting underwater dangers along the fishing route and appropriate measures to be taken to mitigate them
- KU7.** applicable laws related to fishing methods, use of different types of fishing gear, conservation of banned species, disposal of dead/ damaged fish, etc.
- KU8.** the process of identifying poisonous creatures caught with the fish and their safe disposal
- KU9.** the process of handling and cleaning the fish safely
- KU10.** the temperature and hygiene requirement for storing the fish to maintain its freshness

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** write work-related records
- GS2.** communicate clearly and politely
- GS3.** read the relevant literature to get information about the latest developments in the field of work
- GS4.** plan and prioritise tasks to ensure timely completion
- GS5.** take quick decisions to deal with workplace emergencies/ accidents
- GS6.** listen attentively to understand the information/ instructions being shared by the speaker
- GS7.** identify possible disruptions to work and take appropriate preventive measures
- GS8.** co-ordinate with co-workers to achieve work objectives
- GS9.** evaluate all possible solutions to a problem to select the best one

DGT/VSQ/N0102: Employability Skills (60 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Career Development & Goal Setting
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

- PC1.** identify employability skills required for jobs in various industries
- PC2.** identify and explore learning and employability portals

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

- PC3.** recognize the significance of constitutional values, including civic rights and duties, citizenship, responsibility towards society etc. and personal values and ethics such as honesty, integrity, caring and respecting others, etc.
- PC4.** follow environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

- PC5.** recognize the significance of 21st Century Skills for employment
- PC6.** practice the 21st Century Skills such as Self-Awareness, Behaviour Skills, time management, critical and adaptive thinking, problem-solving, creative thinking, social and cultural awareness, emotional awareness, learning to learn for continuous learning etc. in personal and professional life

Basic English Skills

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC7.** use basic English for everyday conversation in different contexts, in person and over the telephone
- PC8.** read and understand routine information, notes, instructions, mails, letters etc. written in English
- PC9.** write short messages, notes, letters, e-mails etc. in English

Career Development & Goal Setting

To be competent, the user/individual on the job must be able to:

- PC10.** understand the difference between job and career
- PC11.** prepare a career development plan with short- and long-term goals, based on aptitude

Communication Skills

To be competent, the user/individual on the job must be able to:

- PC12.** follow verbal and non-verbal communication etiquette and active listening techniques in various settings
- PC13.** work collaboratively with others in a team

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

- PC14.** communicate and behave appropriately with all genders and PwD
- PC15.** escalate any issues related to sexual harassment at workplace according to POSH Act

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

- PC16.** select financial institutions, products and services as per requirement
- PC17.** carry out offline and online financial transactions, safely and securely
- PC18.** identify common components of salary and compute income, expenses, taxes, investments etc
- PC19.** identify relevant rights and laws and use legal aids to fight against legal exploitation

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

- PC20.** operate digital devices and carry out basic internet operations securely and safely
- PC21.** use e-mail and social media platforms and virtual collaboration tools to work effectively
- PC22.** use basic features of word processor, spreadsheets, and presentations

Entrepreneurship

To be competent, the user/individual on the job must be able to:

- PC23.** identify different types of Entrepreneurship and Enterprises and assess opportunities for potential business through research
- PC24.** develop a business plan and a work model, considering the 4Ps of Marketing Product, Price, Place and Promotion
- PC25.** identify sources of funding, anticipate, and mitigate any financial/ legal hurdles for the potential business opportunity

Customer Service

To be competent, the user/individual on the job must be able to:

- PC26.** identify different types of customers
- PC27.** identify and respond to customer requests and needs in a professional manner.

Qualification Pack

PC28. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC29. create a professional Curriculum vitae (Résumé)

PC30. search for suitable jobs using reliable offline and online sources such as Employment exchange, recruitment agencies, newspapers etc. and job portals, respectively

PC31. apply to identified job openings using offline /online methods as per requirement

PC32. answer questions politely, with clarity and confidence, during recruitment and selection

PC33. identify apprenticeship opportunities and register for it as per guidelines and requirements

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills and different learning and employability related portals

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use English language for effective verbal (face to face and telephonic) and written communication in formal and informal set up

KU6. importance of career development and setting long- and short-term goals

KU7. about effective communication

KU8. POSH Act

KU9. Gender sensitivity and inclusivity

KU10. different types of financial institutes, products, and services

KU11. how to compute income and expenditure

KU12. importance of maintaining safety and security in offline and online financial transactions

KU13. different legal rights and laws

KU14. different types of digital devices and the procedure to operate them safely and securely

KU15. how to create and operate an e- mail account and use applications such as word processors, spreadsheets etc.

KU16. how to identify business opportunities

KU17. types and needs of customers

KU18. how to apply for a job and prepare for an interview

KU19. apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. read and write different types of documents/instructions/correspondence

GS2. communicate effectively using appropriate language in formal and informal settings

Qualification Pack

- GS3.** behave politely and appropriately with all
- GS4.** how to work in a virtual mode
- GS5.** perform calculations efficiently
- GS6.** solve problems effectively
- GS7.** pay attention to details
- GS8.** manage time efficiently
- GS9.** maintain hygiene and sanitization to avoid infection

Qualification Pack

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council.
Each Performance Criteria (PC) (PC) will be assigned marks proportional to its importance in NOS.
SSC will also lay down proportion of marks for Theory and Skills Practical for each PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
4. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
5. In case of successfully passing only certain number of NOSs, the trainee is eligible to take

Qualification Pack

subsequent assessment on the balance NOS's to pass the Qualification Pack.

6. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
