AGR/Q5003: Inland Capture Fisherman cum Primary Processor

Brief Job Description

An Inland Capture fisherman cum Primary Processor is responsible for capturing different species of fish in inland water bodies such as rivers and lakes, and carrying out primary fish processing. The individual is also responsible for using and maintaining the fishing craft and gear along with other equipment used in inland capture fisheries. The person may also prepare fish-based products.

Personal Attributes

The individual must have the stamina to work for long durations with the ability to swim. The person must have attention to detail and the ability to coordinate with others to achieve the work objectives. The individual must also know how to read and write.

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [AGR/N5006: Prepare for carrying out inland capture fisheries operation](#)
2. [AGR/N5007: Carry out capture operation, primary processing and marketing of fish](#)
3. [AGR/N5103: Follow the safety and hygiene practices in capture fisheries operations](#)
4. [DGT/VSQ/N0102: Employability Skills \(60 Hours\)](#)

Qualification Pack

AGR/N5006: Prepare for carrying out inland capture fisheries operation

Description

This OS unit is about preparing for and planning the inland capture fisheries operation including the selection of fishing craft and gear and preparing them.

Scope

The scope covers the following :

- Prepare for the capture operation
- Plan the capture operation

Elements and Performance Criteria

Prepare for the capture operation

To be competent, the user/individual on the job must be able to:

- PC1.** select the appropriate fish species to be captured according to their commercial value and market demand
- PC2.** select the appropriate fishing method based on the region, target species and their seasonal availability
- PC3.** select the active or passive fishing gear, hook size, traps, mesh size and type of bait according to the target fish species and its size
- PC4.** select biodegradable fishing gears to reduce environmental impact, wherever possible
- PC5.** select motorised or non-motorised fishing craft according to the quantity of fish to be caught
- PC6.** carry out routine checks and maintenance of the fishing craft to ensure it is fit for use
- PC7.** prepare the fishing gear such as nets, pots, traps for use
- PC8.** adjust the nets according to the fishing method and species to be captured
- PC9.** estimate the relevant operation costs
- PC10.** arrange the anchor, satellite phone, longline gear materials, live baits, navigation and fish finding equipment, relevant Personal Protective Equipment (PPE), first aid kit, etc.
- PC11.** stock food, water and fuel on the boat in adequate quantity to last the capture operation
- PC12.** arrange for safe storage of fish in the boat after being captured until return to the shore

Plan the capture operation

To be competent, the user/individual on the job must be able to:

- PC13.** check the weather conditions and forecast to select an appropriate period of conducive weather for the fishing operation
- PC14.** use drone based surveillance data of fishing ground for identifying potential breeding zones, wherever possible.
- PC15.** select the fishing grounds according to the shoaling behaviour of the target fish species and plan the route for the capture operation accordingly
- PC16.** ensure the required fishing permits and licenses are obtained for the fishing operation in compliance with the applicable regulations

Qualification Pack

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** various inland fishing methods and techniques
- KU2.** the process of selecting an appropriate fishing method based on the region, target species and their seasonal availability
- KU3.** difference between active and passive fishing gears and their benefits
- KU4.** the process of selecting active or passive fishing gear, hook size, traps, mesh size and type of bait according to the target fish species and its size
- KU5.** importance of biodegradable fishing gears to reduce environmental impact
- KU6.** different types of fishing crafts used for different types of inland waters
- KU7.** the process of selecting motorised or non-motorised fishing craft according to the quantity of fish to be caught
- KU8.** the routine checks and maintenance to be carried out on the fishing craft
- KU9.** the process of preparing the fishing gear for use, such as nets, pots, traps etc.
- KU10.** how to adjust the nets according to the fishing method and species to be captured
- KU11.** various equipment and accessories required for the capture operation, such as the anchor, satellite phone, longline gear materials, live baits, navigation and fish finding equipment, relevant Personal Protective Equipment (PPE), first aid kit, etc.
- KU12.** the relevant arrangement required on the fishing craft for the safe storage of fish after being captured
- KU13.** usage of drone based sampling and surveillance data for identifying potential breeding zones
- KU14.** the importance of checking the weather conditions and forecast to select an appropriate period of conducive weather for the fishing operation
- KU15.** the process of selecting the fishing grounds according to the shoaling behaviour of the target fish species and planning the route
- KU16.** the process of applying for and securing the required fishing permits and licenses for inland capture fisheries operations

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** write work-related notes
- GS2.** read the health and safety instructions
- GS3.** listen attentively to understand the information being shared
- GS4.** communicate politely and professionally
- GS5.** plan and prioritise tasks for effective time management
- GS6.** take quick decisions to deal with any emergencies/ accidents and disruptions to work
- GS7.** co-ordinate with the co-workers to achieve the work objectives
- GS8.** evaluate all possible solutions to a problem to select the best one

AGR/N5007: Carry out capture operation, primary processing and marketing of fish

Description

This OS unit is about capturing the fish taking necessary safety measures. It also covers the primary processing and marketing of fish.

Scope

The scope covers the following :

- Capture the fish
- Take the appropriate safety measures
- Carry out primary processing
- Market the fish
- Optimise resource utilisation and manage waste

Elements and Performance Criteria

Capture the fish

To be competent, the user/individual on the job must be able to:

- PC1.** steer the fishing craft to the identified fishing ground
- PC2.** detect the presence of fish using the fish finding equipment, ensuring an adequate quantity for the capture operation
- PC3.** anchor the fishing craft safely at the location
- PC4.** set up the fishing gear at the identified location to capture the fish
- PC5.** capture fish following the selected fishing method
- PC6.** ensure no negative impact on the natural habitats during capture operation
- PC7.** follow the applicable regulatory guidelines with respect to the fishing of endangered and protected fish species
- PC8.** haul the catch in the fishing craft ensuring minimum damage to the catch
- PC9.** assess the catch for inland fishery resources
- PC10.** store the captured fish under the recommended temperature and hygienic conditions in the craft
- PC11.** clean the fishing gear and relevant equipment used in the capture operation

Take the appropriate safety measures

To be competent, the user/individual on the job must be able to:

- PC12.** follow the appropriate precautionary measures to avoid collision with other fishing crafts
- PC13.** use the appropriate safety equipment and follow relevant cautionary measures while fishing in isolation and deep waters

Carry out primary processing

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC14.** sort and grade the captured fish on relevant parameters such as commercially viable species, non-edible species, weight, appearance, odour, market demand, etc.
- PC15.** discard the unsuitable fish in an environment-friendly manner
- PC16.** de-scale the fish and remove the bones
- PC17.** carry out gutting, dressing and cleaning of fish
- PC18.** slice the fish into smaller pieces as per the requirement or consumer preferences
- PC19.** store the fish in iceboxes or refrigerator to keep it fresh until sale

Market the fish

To be competent, the user/individual on the job must be able to:

- PC20.** identify and negotiate with the potential buyers to secure a profitable price for the fish
- PC21.** arrange an appropriate mode of transport to transport fish to the buyer in hygienic and stress-free conditions
- PC22.** process the payments using the client-preferred e-payment method
- PC23.** maintain the record of sales and payments manually and/ or electronically using the physical registers and/ or the relevant computer application
- PC24.** calculate the benefit-cost (B: C) ratio

Optimise resource utilisation and manage waste

To be competent, the user/individual on the job must be able to:

- PC25.** optimise the usage of water and other resources in various tasks and processes
- PC26.** reduce, reuse, and recycle whenever possible
- PC27.** use reusable grocery bags instead of disposable plastic or paper bags
- PC28.** buy in bulk and avoid over-packaged products
- PC29.** collect plastics, ghost gear, and other debris that gathers in the nets during fishing activities
- PC30.** recycle the recyclable waste appropriately and dispose the non-recyclable waste in an environment-friendly manner

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** how to operate motorised and non-motorised fishing crafts
- KU2.** how to detect the fish using the fish finding equipment
- KU3.** the process of anchoring the fishing craft safely and setting up the fishing gear
- KU4.** how to capture fish following different active or passive fishing methods
- KU5.** the importance of ensuring no negative impact on natural habitats and ecological systems during fishing operations
- KU6.** the process of hauling and storing the catch in the fishing craft ensuring the recommended temperature and hygienic conditions
- KU7.** fish diversity and catch assessment for inland fishery resources
- KU8.** how to clean the fishing gear and relevant equipment used in the capture operation
- KU9.** the appropriate precautionary measures to be taken to avoid collision with other fishing crafts

Qualification Pack

- KU10.** the use of appropriate safety equipment and applicable precautionary measures to be taken while fishing in isolation and in deep waters
- KU11.** applicable parameters to sort and grade the captured fish, such as weight, appearance, odour, market demand, etc.
- KU12.** the process of de-scaling, gutting, dressing and cleaning the fish
- KU13.** appropriate temperature to store the processed fish
- KU14.** the process of marketing the fish
- KU15.** the use of various e-payment methods
- KU16.** applicable documentation requirements and the use of physical registers and relevant computer application for maintaining records
- KU17.** how to calculate the benefit-cost (B: C) ratio
- KU18.** benefits of resource optimisation
- KU19.** ways to avoid litter in water resources
- KU20.** segregation of waste into appropriate categories
- KU21.** how to recycle and dispose different types of waste

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** maintain work-related notes and records
- GS2.** read the relevant literature to get the latest updates about the field of work
- GS3.** communicate politely and professionally
- GS4.** listen attentively to understand the information/ instructions being shared
- GS5.** plan and schedule tasks for efficient use of time
- GS6.** co-ordinate with the co-workers to achieve the work objectives
- GS7.** take quick decisions to deal with any emergencies/ accidents
- GS8.** evaluate all possible solutions to a problem to select the best one

AGR/N5103: Follow the safety and hygiene practices in capture fisheries operations

Description

This OS unit is about following safety, hygiene and sanitation practices for capture fisheries and fishing assistance.

Scope

The scope covers the following :

- Follow onboard safe working practices
- Follow safety guidelines in water bodies
- Follow the fish capturing and handling guidelines

Elements and Performance Criteria

Follow onboard safe working practices

To be competent, the user/individual on the job must be able to:

- PC1.** use all fishing machinery and equipment safely following the manufacturer's instructions
- PC2.** carry out regular testing and maintenance of the life-saving, Light Sound & Signals (LS&S) and firefighting equipment
- PC3.** use the life-saving equipment in case of rough weather/ emergencies

Follow safety guidelines in water bodies

To be competent, the user/individual on the job must be able to:

- PC4.** use the trim & stability booklet of fishing vessel properly
- PC5.** use the relevant equipment to detect ships/ boats in the vicinity and take appropriate measures to avoid collisions
- PC6.** detect underwater dangers along the fishing route and take appropriate measures to mitigate them

Follow the fish capturing and handling guidelines

To be competent, the user/individual on the job must be able to:

- PC7.** follow the applicable laws related to fishing methods, use of different types of fishing gear, conservation of banned species, disposal of dead/ damaged fish, etc.
- PC8.** identify poisonous organisms caught with the fish and dispose them safely
- PC9.** handle and clean the fish ensuring minimum damage to it
- PC10.** store the fish under the recommended temperature and in hygienic conditions to maintain its freshness

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** safe use of various fishing machineries and equipment

Qualification Pack

- KU2.** regular testing and maintenance of the life-saving and firefighting equipment
- KU3.** how to use different types of life-saving equipment
- KU4.** relevant regulations to be followed in the marine waters such as Coastal Regulation Zone (CRZ) guidelines
- KU5.** the process of using the relevant equipment to detect ships/ boats in the vicinity and the appropriate measures to be followed to avoid collisions
- KU6.** the process of detecting underwater dangers along the fishing route and appropriate measures to be taken to mitigate them
- KU7.** applicable laws related to fishing methods, use of different types of fishing gear, conservation of banned species, disposal of dead/ damaged fish, etc.
- KU8.** the process of identifying poisonous creatures caught with the fish and their safe disposal
- KU9.** the process of handling and cleaning the fish safely
- KU10.** the temperature and hygiene requirement for storing the fish to maintain its freshness

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** write work-related records
- GS2.** communicate clearly and politely
- GS3.** read the relevant literature to get information about the latest developments in the field of work
- GS4.** plan and prioritise tasks to ensure timely completion
- GS5.** take quick decisions to deal with workplace emergencies/ accidents
- GS6.** listen attentively to understand the information/ instructions being shared by the speaker
- GS7.** identify possible disruptions to work and take appropriate preventive measures
- GS8.** co-ordinate with co-workers to achieve work objectives
- GS9.** evaluate all possible solutions to a problem to select the best one

DGT/VSQ/N0102: Employability Skills (60 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Career Development & Goal Setting
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

- PC1.** identify employability skills required for jobs in various industries
- PC2.** identify and explore learning and employability portals

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

- PC3.** recognize the significance of constitutional values, including civic rights and duties, citizenship, responsibility towards society etc. and personal values and ethics such as honesty, integrity, caring and respecting others, etc.
- PC4.** follow environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

- PC5.** recognize the significance of 21st Century Skills for employment
- PC6.** practice the 21st Century Skills such as Self-Awareness, Behaviour Skills, time management, critical and adaptive thinking, problem-solving, creative thinking, social and cultural awareness, emotional awareness, learning to learn for continuous learning etc. in personal and professional life

Basic English Skills

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC7.** use basic English for everyday conversation in different contexts, in person and over the telephone
- PC8.** read and understand routine information, notes, instructions, mails, letters etc. written in English
- PC9.** write short messages, notes, letters, e-mails etc. in English

Career Development & Goal Setting

To be competent, the user/individual on the job must be able to:

- PC10.** understand the difference between job and career
- PC11.** prepare a career development plan with short- and long-term goals, based on aptitude

Communication Skills

To be competent, the user/individual on the job must be able to:

- PC12.** follow verbal and non-verbal communication etiquette and active listening techniques in various settings
- PC13.** work collaboratively with others in a team

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

- PC14.** communicate and behave appropriately with all genders and PwD
- PC15.** escalate any issues related to sexual harassment at workplace according to POSH Act

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

- PC16.** select financial institutions, products and services as per requirement
- PC17.** carry out offline and online financial transactions, safely and securely
- PC18.** identify common components of salary and compute income, expenses, taxes, investments etc
- PC19.** identify relevant rights and laws and use legal aids to fight against legal exploitation

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

- PC20.** operate digital devices and carry out basic internet operations securely and safely
- PC21.** use e- mail and social media platforms and virtual collaboration tools to work effectively
- PC22.** use basic features of word processor, spreadsheets, and presentations

Entrepreneurship

To be competent, the user/individual on the job must be able to:

- PC23.** identify different types of Entrepreneurship and Enterprises and assess opportunities for potential business through research
- PC24.** develop a business plan and a work model, considering the 4Ps of Marketing Product, Price, Place and Promotion
- PC25.** identify sources of funding, anticipate, and mitigate any financial/ legal hurdles for the potential business opportunity

Customer Service

To be competent, the user/individual on the job must be able to:

- PC26.** identify different types of customers
- PC27.** identify and respond to customer requests and needs in a professional manner.

Qualification Pack

PC28. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC29. create a professional Curriculum vitae (Résumé)

PC30. search for suitable jobs using reliable offline and online sources such as Employment exchange, recruitment agencies, newspapers etc. and job portals, respectively

PC31. apply to identified job openings using offline /online methods as per requirement

PC32. answer questions politely, with clarity and confidence, during recruitment and selection

PC33. identify apprenticeship opportunities and register for it as per guidelines and requirements

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills and different learning and employability related portals

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use English language for effective verbal (face to face and telephonic) and written communication in formal and informal set up

KU6. importance of career development and setting long- and short-term goals

KU7. about effective communication

KU8. POSH Act

KU9. Gender sensitivity and inclusivity

KU10. different types of financial institutes, products, and services

KU11. how to compute income and expenditure

KU12. importance of maintaining safety and security in offline and online financial transactions

KU13. different legal rights and laws

KU14. different types of digital devices and the procedure to operate them safely and securely

KU15. how to create and operate an e- mail account and use applications such as word processors, spreadsheets etc.

KU16. how to identify business opportunities

KU17. types and needs of customers

KU18. how to apply for a job and prepare for an interview

KU19. apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. read and write different types of documents/instructions/correspondence

GS2. communicate effectively using appropriate language in formal and informal settings

Qualification Pack

- GS3.** behave politely and appropriately with all
- GS4.** how to work in a virtual mode
- GS5.** perform calculations efficiently
- GS6.** solve problems effectively
- GS7.** pay attention to details
- GS8.** manage time efficiently
- GS9.** maintain hygiene and sanitization to avoid infection

Qualification Pack

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council.
2. Each Performance Criteria (PC) (PC) will be assigned marks proportional to its importance in NOS.
3. SSC will also lay down the proportion of marks for Theory and Skills Practical for each PC.
4. The assessment for the theory part will be based on the knowledge bank of questions created by the SSC.
5. Individual assessment agencies will create unique question papers for the theory part for each candidate at each examination/training center (as per assessment criteria below).
6. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
7. In case of successfully passing only a certain number of NOSs, the trainee is eligible to take a subsequent assessment on the balance NOS to pass the Qualification Pack.
8. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack

Qualification Pack

Minimum Aggregate Passing % at QP Level : 50

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Assessment Weightage

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
