AGR/N7906: Develop and implement appropriate quality standards

Description

This OS unit is about developing the quality standards and manual to be followed by the organization and coordinating quality audits.

Scope

The scope covers the following :

- Develop the quality standards
- Develop the quality manual for the organization
- Create awareness regarding quality standards
- Coordinate quality audits

Elements and Performance Criteria

Develop the quality standards

To be competent, the user/individual on the job must be able to:

- PC1.** conduct benchmark studies to set the quality standards for the relevant agricultural commodities
- PC2.** develop quality standards through liaison with the relevant experts
- PC3.** ensure the quality standards conform to the applicable regulations

Develop the quality manual for the organization

To be competent, the user/individual on the job must be able to:

- PC4.** develop a quality manual to be followed in the organization, document the applicable quality standards
- PC5.** coordinate with the relevant experts and authorities for the validation of the quality manual
- PC6.** determine the scope of making improvements to the quality manual and implement the relevant changes in the manual

Create awareness regarding quality standards

To be competent, the user/individual on the job must be able to:

- PC7.** create awareness among the relevant personnel in the organization regarding the commodity quality standards
- PC8.** ensure awareness concerning the applicable regulations in the organization and the importance of adhering to them
- PC9.** ensure access to the quality manual for all the relevant personnel in the organization
- PC10.** advise stakeholders on storage conditions, handling practices, and quality improvement measures

Coordinate the quality audits

To be competent, the user/individual on the job must be able to:

- PC11.** arrange periodic audits in the warehouse through coordination with the relevant personnel and authorities

Qualification Pack

- PC12.** support the auditors in the auditing process, ensuring that all checks are conducted appropriately
- PC13.** identify and documents the areas of quality lapses
- PC14.** ensure that all the necessary paperwork is completed and submitted to the relevant stakeholders

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the importance and process of developing quality standards and manual
- KU2.** the importance of making the personnel in the organization aware of the applicable quality standards and adhering to them
- KU3.** the importance of ensuring easy access to the quality manual for all the relevant personnel in the organization
- KU4.** the importance of coordinating with the relevant experts and authorities for the development and validation of quality standards and manual
- KU5.** the importance of arranging periodic quality audits in the warehouse and other relevant areas in the organization
- KU6.** the auditing process in an agricultural commodity organization
- KU7.** the importance of identifying and documenting the areas of quality lapses
- KU8.** the necessary paperwork to be completed concerning quality audits
- KU9.** the agricultural supply chain, its components and applicable quality requirements
- KU10.** the appropriate frequency for conducting quality audits

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** maintain work-related notes and documents
- GS2.** read the relevant literature to learn about the latest developments in the field of work
- GS3.** communicate politely and professionally
- GS4.** listen attentively to understand the information being shared
- GS5.** plan and prioritize tasks to ensure their timely completion
- GS6.** utilize time and relevant resources effectively
- GS7.** coordinate with the co-workers to achieve the work and organizational objectives
- GS8.** identify appropriate solutions to work-related problems after evaluating all the possible solutions
- GS9.** take quick decisions to deal with workplace emergencies
- GS10.** apply domain knowledge and experience to improve work efficiency

AGR/N7905: Inspect commodities transported to the warehouse

Description

This OS unit is about inspecting the commodities that arrive at the warehouse and ensuring adherence to the applicable quality standards.

Scope

The scope covers the following :

- Conduct quality checks on the commodities
- Sort out the unsuitable commodities
- Prepare the quality reports and communicate to the stakeholders

Elements and Performance Criteria

Conduct quality checks on the commodities

To be competent, the user/individual on the job must be able to:

- PC1.** collect representative samples of the relevant commodities to conduct quality checks
- PC2.** follow standardized sampling procedures to ensure unbiased and accurate representation
- PC3.** label, record, and prepare samples for laboratory testing
- PC4.** maintain sample integrity to avoid contamination or deterioration
- PC5.** conduct the relevant quality checks on the commodity samples both physical quality assessment and lab testing and determine the quality based on applicable parameters
- PC6.** dispose of waste samples as per environmental and laboratory protocols
- PC7.** grade commodities as per FSSAI, AGMARK, BIS, or Warehousing Development and Regulatory Authority (WDRA) norms
- PC8.** check that the relevant quality processes are followed by the supplier in the handling and transportation of commodities, e.g. using a refrigerated vehicle for perishable commodities during transit
- PC9.** examine the quality of commodities during unloading at the warehouse to ensure no quality-related issues with the commodities

Sort out the unsuitable commodities

To be competent, the user/individual on the job must be able to:

- PC10.** identify the unsuitable commodities and ensure their removal from the stock
- PC11.** coordinate with the concerned supplier(s) to resolve the quality-related issues identified with the commodities
- PC12.** carry out appropriate documentation concerning the commodity quality inspection and the relevant action taken

Prepare and deliberate upon the quality reports

To be competent, the user/individual on the job must be able to:

- PC13.** maintain detailed records of sampling, test results, and grading decisions

Qualification Pack

- PC14.** prepare the quality information reports in the prescribed format and deliberate upon them with the relevant stakeholders
- PC15.** determine the appropriate course of action to improve the quality of commodities in coordination with the stakeholders
- PC16.** prepare and issue quality certificates or test reports for trade, storage, or export documentation
- PC17.** ensure compliance with national and international quality standards

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** sampling procedures, commodity types, and handling protocols
- KU2.** the applicable procedure for conducting commodity quality checks
- KU3.** the appropriate process to be followed to resolve quality-related issues identified with the commodities
- KU4.** basic chemistry, testing procedures, safety norms, sample preparation
- KU5.** contaminant standards, permissible limits, sample extraction techniques
- KU6.** AGMARK / WDRA / FSSAI grading systems and interpretation of test results
- KU7.** commodity standards (FSSAI, AGMARK, WDRA) and classification norms
- KU8.** the applicable quality parameters to be checked in agricultural commodities
- KU9.** the appropriate measures to be taken to preserve the quality of agricultural commodities during their handling and transportation
- KU10.** the appropriate documentation to be conducted concerning the quality checks conducted on agricultural commodities, such as the quality information reports
- KU11.** the importance of deliberating upon the quality information reports with the relevant stakeholders and deciding the appropriate course of action to improve the quality of relevant commodities

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** maintain work-related notes and documents
- GS2.** read the relevant literature to learn about the latest developments in the field of work
- GS3.** communicate politely and professionally
- GS4.** listen attentively to understand the information being shared

AGR/N7904: Maintain records concerning commodity management

Description

This OS unit is about documenting and maintaining records concerning commodity management.

Scope

The scope covers the following :

- Maintain the records
- Store the records safely

Elements and Performance Criteria

Maintain the records

To be competent, the user/individual on the job must be able to:

- PC1.** maintain detailed records of quality assessment trends, patterns, factors impacting commodity prices and other relevant observations
- PC2.** evaluate the records to ensure they are up-to-date, complete and accurate
- PC3.** use the appropriate computer software (quality management systems or warehouse management software) to maintain electronic records
- PC4.** ensure to maintain the appropriate organizational records in compliance with the applicable regulations
- PC5.** conduct a regular review of the records as per the organizational policies
- PC6.** prepare summary reports for clients, traders, or supervisors

Store the records safely

To be competent, the user/individual on the job must be able to:

- PC7.** store the records safely with appropriate access controls to prevent unauthorized access
- PC8.** maintain the electronic backup of the critical records to protect against accidental damage or loss of physical documents

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the appropriate procedures for documentation and record keeping
- KU2.** the relevant details to be recorded on market trends and patterns
- KU3.** the appropriate impact analysis method
- KU4.** the use of relevant Quality Management system/ warehouse management computer software for effective management of information/data
- KU5.** the use of relevant computer software for the statistical analysis of data
- KU6.** the applicable reporting requirements
- KU7.** different methods of safely storing organizational records and documents

Qualification Pack

- KU8.** the importance of creating data backup and ensuring data access by the authorized personnel only

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate politely and professionally
- GS2.** read the relevant literature to get the latest updates about the field of work
- GS3.** maintain work-related notes and records

DGT/VSQ/N0103: Employability Skills (90 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Career Development & Goal Setting
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

- PC1.** understand the significance of employability skills in meeting the current job market requirement and future of work
- PC2.** identify and explore learning and employability relevant portals
- PC3.** research about the different industries, job market trends, latest skills required and the available opportunities

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

- PC4.** recognize the significance of constitutional values, including civic rights and duties, citizenship, responsibility towards society etc. and personal values and ethics such as honesty, integrity, caring and respecting others, etc.
- PC5.** follow environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

- PC6.** recognize the significance of 21st Century Skills for employment

Qualification Pack

- PC7.** practice the 21st Century Skills such as Self-Awareness, Behaviour Skills, time management, critical and adaptive thinking, problem-solving, creative thinking, social and cultural awareness, emotional awareness, learning to learn for continuous learning etc. in personal and professional life
- PC8.** adopt a continuous learning mindset for personal and professional development

Basic English Skills

To be competent, the user/individual on the job must be able to:

- PC9.** use basic English for everyday conversation in different contexts, in person and over the telephone
- PC10.** read and understand routine information, notes, instructions, mails, letters etc. written in English
- PC11.** write short messages, notes, letters, e-mails etc. in English

Career Development & Goal Setting

To be competent, the user/individual on the job must be able to:

- PC12.** identify career goals based on the skills, interests, knowledge, and personal attributes
- PC13.** prepare a career development plan with short- and long-term goals

Communication Skills

To be competent, the user/individual on the job must be able to:

- PC14.** follow verbal and non-verbal communication etiquette while communicating in professional and public settings
- PC15.** use active listening techniques for effective communication
- PC16.** communicate in writing using appropriate style and format based on formal or informal requirements
- PC17.** work collaboratively with others in a team

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

- PC18.** communicate and behave appropriately with all genders and PwD
- PC19.** escalate any issues related to sexual harassment at workplace according to POSH Act

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

- PC20.** identify and select reliable institutions for various financial products and services such as bank account, debit and credit cards, loans, insurance etc.
- PC21.** carry out offline and online financial transactions, safely and securely, using various methods and check the entries in the passbook
- PC22.** identify common components of salary and compute income, expenses, taxes, investments etc
- PC23.** identify relevant rights and laws and use legal aids to fight against legal exploitation

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

- PC24.** operate digital devices and use their features and applications securely and safely
- PC25.** carry out basic internet operations by connecting to the internet safely and securely, using the mobile data or other available networks through Bluetooth, Wi-Fi, etc.
- PC26.** display responsible online behaviour while using various social media platforms

Qualification Pack

- PC27.** create a personal email account, send and process received messages as per requirement
- PC28.** carry out basic procedures in documents, spreadsheets and presentations using respective and appropriate applications
- PC29.** utilize virtual collaboration tools to work effectively

Entrepreneurship

To be competent, the user/individual on the job must be able to:

- PC30.** identify different types of Entrepreneurship and Enterprises and assess opportunities for potential business through research
- PC31.** develop a business plan and a work model, considering the 4Ps of Marketing Product, Price, Place and Promotion
- PC32.** identify sources of funding, anticipate, and mitigate any financial/ legal hurdles for the potential business opportunity

Customer Service

To be competent, the user/individual on the job must be able to:

- PC33.** identify different types of customers and ways to communicate with them
- PC34.** identify and respond to customer requests and needs in a professional manner
- PC35.** use appropriate tools to collect customer feedback
- PC36.** follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

- PC37.** create a professional Curriculum vitae (Résumé)
- PC38.** search for suitable jobs using reliable offline and online sources such as Employment exchange, recruitment agencies, newspapers etc. and job portals, respectively
- PC39.** apply to identified job openings using offline /online methods as per requirement
- PC40.** answer questions politely, with clarity and confidence, during recruitment and selection
- PC41.** identify apprenticeship opportunities and register for it as per guidelines and requirements

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
4. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
5. In case of successfully passing only certain number of NOSs, the trainee is eligible to take subsequent assessment on the balance NOS's to pass the Qualification Pack.
6. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack

Minimum Aggregate Passing % at QP Level : 70

Qualification Pack

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Assessment Weightage

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
