ASC/Q9707: Forklift Operator/Driver

Brief Job Description

The individual is responsible for ensuring the fitness of the forklift for use, driving the forklift, handling delivery, stocking, and shifting of the goods, maintaining safe and healthy working practices and communicating effectively with colleagues, customers, and others.

Personal Attributes

The job requires the individual to be polite and remain calm and composed at all times. The incumbent should be able to drive for long and/or awkward hours under tough road conditions.

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [ASC/N9809: Organize work and resources \(Road Transportation\)](#)
2. [DGT/VSQ/N0101: Employability Skills \(30 Hours\)](#)
3. [ASC/N9704: Drive responsibly and ensure road worthiness of vehicle](#)
4. [ASC/N9712: Ensure fitness of forklift for use](#)
5. [ASC/N9713: Handle delivery, stocking and shifting of the goods](#)
6. [ASC/N9606: Ensure roadworthiness of Electric Vehicle \(EV\)](#)

ASC/N9809: Organize work and resources (Road Transportation)

Description

This NOS unit is about maintaining working environment safe and secure, maintaining health and hygiene and practicing optimizing use of resources as per organizational standards.

Scope

The scope covers the following :

- Maintain safe and secure working environment
- Maintain health and hygiene
- Material/energy conservation practices

Elements and Performance Criteria

Maintain safe and secure working environment

To be competent, the user/individual on the job must be able to:

- PC1.** organize work as per the organization's health, safety and security policies and procedures
- PC2.** identify the risks and hazards associated while driving and their causes and preventions
- PC3.** check and ensure the functioning of vehicle before commencing work
- PC4.** identify and report vehicle maintenance and repair requirements/risks as per SOP, if any
- PC5.** take corrective measures and follow standard first-aid procedures in case of an accident
- PC6.** ensure safety of all passengers and immediately report any breaches to the appropriate authority

Maintain health and hygiene

To be competent, the user/individual on the job must be able to:

- PC7.** ensure vehicle and equipment are regularly cleaned and sanitized
- PC8.** wash hands with soap and use alcohol-based sanitizer regularly
- PC9.** avoid contact with ill people and self-isolate in a similar situation
- PC10.** wear and dispose of PPEs regularly and appropriately
- PC11.** report hygiene and sanitation issues to appropriate authority, if any
- PC12.** follow processes specified for disposal of hazardous waste

Material/energy conservation practices

To be competent, the user/individual on the job must be able to:

- PC13.** identify ways to optimize usage of fuel (Petrol/diesel/CNG) in the vehicle
- PC14.** use resources in a responsible manner
- PC15.** check for spills/leakages in the vehicle with caution
- PC16.** plug spills/leakages of fuel (Petrol/diesel/CNG), oil/coolant or water from the vehicle and escalate to appropriate authority if unable to rectify
- PC17.** report malfunctioning (fumes/sparks/emission/vibration/noise) and lapse in maintenance of the vehicle

Qualification Pack

PC18. ensure the various equipment of the vehicle is properly connected

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** organisations procedures for health, safety and security, individual role and responsibilities in this context
- KU2.** organizations emergency procedures for different emergency situations and the importance of following the same
- KU3.** how and when to report hazards, as well as the limits of responsibility for dealing with hazards
- KU4.** potential hazards, risks and threats based on the nature of work
- KU5.** efficient utilization of material and water
- KU6.** common sources of pollution and ways to minimize it
- KU7.** categorisation of waste into dry, wet, recyclable, non-recyclable and items of single-use plastics
- KU8.** usage of different colours of dustbins
- KU9.** significance of greening
- KU10.** organisation's policies to maintain personal health and hygiene at the workplace
- KU11.** helpline number related to the women safety
- KU12.** standard first-aid procedures
- KU13.** appropriate action to be taken in case of accidents, agitations, road block, etc.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read safety instructions/guidelines
- GS2.** modify work practices to improve them
- GS3.** ask for clarifications from superior about the job requirement
- GS4.** work with supervisors/team members to carry out work related tasks
- GS5.** complete tasks efficiently and accurately within the stipulated time
- GS6.** inform/report to concerned person in case of any problem
- GS7.** make timely decisions for efficient utilization of resources
- GS8.** write in at least one language and complete written work with attention to detail
- GS9.** be punctual, utilize time and manage workload efficiently

DGT/VSQ/N0101: Employability Skills (30 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

PC1. understand the significance of employability skills in meeting the job requirements

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

PC2. identify constitutional values, civic rights, duties, personal values and ethics and environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

PC3. explain 21st Century Skills such as Self-Awareness, Behavior Skills, Positive attitude, self-motivation, problem-solving, creative thinking, time management, social and cultural awareness, emotional awareness, continuous learning mindset etc.

Basic English Skills

To be competent, the user/individual on the job must be able to:

PC4. speak with others using some basic English phrases or sentences

Communication Skills

To be competent, the user/individual on the job must be able to:

PC5. follow good manners while communicating with others

PC6. work with others in a team

Qualification Pack

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

PC7. communicate and behave appropriately with all genders and PwD

PC8. report any issues related to sexual harassment

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

PC9. use various financial products and services safely and securely

PC10. calculate income, expenses, savings etc.

PC11. approach the concerned authorities for any exploitation as per legal rights and laws

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

PC12. operate digital devices and use its features and applications securely and safely

PC13. use internet and social media platforms securely and safely

Entrepreneurship

To be competent, the user/individual on the job must be able to:

PC14. identify and assess opportunities for potential business

PC15. identify sources for arranging money and associated financial and legal challenges

Customer Service

To be competent, the user/individual on the job must be able to:

PC16. identify different types of customers

PC17. identify customer needs and address them appropriately

PC18. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC19. create a basic biodata

PC20. search for suitable jobs and apply

PC21. identify and register apprenticeship opportunities as per requirement

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use basic spoken English language

KU6. Do and dont of effective communication

KU7. inclusivity and its importance

KU8. different types of disabilities and appropriate communication and behaviour towards PwD

KU9. different types of financial products and services

Qualification Pack

- KU10.** how to compute income and expenses
- KU11.** importance of maintaining safety and security in financial transactions
- KU12.** different legal rights and laws
- KU13.** how to operate digital devices and applications safely and securely
- KU14.** ways to identify business opportunities
- KU15.** types of customers and their needs
- KU16.** how to apply for a job and prepare for an interview
- KU17.** apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate effectively using appropriate language
- GS2.** behave politely and appropriately with all
- GS3.** perform basic calculations
- GS4.** solve problems effectively
- GS5.** be careful and attentive at work
- GS6.** use time effectively
- GS7.** maintain hygiene and sanitisation to avoid infection

ASC/N9704: Drive responsibly and ensure road worthiness of vehicle

Description

This OS unit is about examining the vehicle, conforming to standard driving practices, following traffic rules and regulations and managing vehicle faults while driving on the route to reach safely and on time.

Scope

The scope covers the following :

- Examine the vehicle before the trip
- Drive the LMV conforming to the standard driving practices
- Follow traffic rules and regulation
- Manage vehicle faults

Elements and Performance Criteria

Examine the vehicle before the trip

To be competent, the user/individual on the job must be able to:

- PC1.** inspect and conform the vehicle's condition as per health and safety guidelines before starting the trip
- PC2.** ensure the vehicle meets the legal and compliance requirements like pollution test, load limit, etc.
- PC3.** perform routine maintenance checks on the vehicle for tyre pressure, fuel (Petrol/diesel/CNG) level, working of headlights and brakes, CNG cylinder valves etc.
- PC4.** check vehicle service record for any history of technical defects or immediate need for servicing like oil/filter change, etc.
- PC5.** prepare a to-do list for repair requirement, if any
- PC6.** record all deviations observed while carrying out checks
- PC7.** report actual or potential defects/deviations to the senior driver/owner/service supervisor
- PC8.** determine roadworthiness of the vehicle and use another vehicle if the current vehicle is found unfit
- PC9.** confirm all gauges and warning lights are functioning properly before moving the vehicle

Drive the LMV conforming to the standard driving practices

To be competent, the user/individual on the job must be able to:

- PC10.** perform pre-driving activities like shoulder checking, adjusting IRVM/ ORVM and releasing of handbrakes, etc.
- PC11.** insert or press the ignition key/button to start the vehicle
- PC12.** coordinate gear changes, if any, with appropriate use of clutch/acceleration and steering control
- PC13.** maneuver the vehicle safely and responsibly while regulating the speed in all weather and road conditions by coordinating the operation of all controls
- PC14.** use the accelerator, steering control and brakes correctly for safe driving, stopping and parking the vehicle

Qualification Pack

PC15. ensure maximum fuel (Petrol/diesel/CNG) efficiency while driving

Follow traffic rules and regulation

To be competent, the user/individual on the job must be able to:

PC16. follow guidelines on the road while driving like avoiding excessive honking, driving on high beam, loud music, etc.

PC17. maintain a safe distance from other vehicles

PC18. ensure the vehicle is within the prescribed speed limits at all times and avoid road hog

PC19. ensure proper parking at appropriate spots

PC20. adhere to local and state specific driving laws and traffic regulations, including overloading

PC21. turn off ignition at red lights or after parking the vehicle to enhance fuel efficiency

Manage vehicle faults

To be competent, the user/individual on the job must be able to:

PC22. monitor and respond correctly to gauges, warning lights, CNG leakage etc. while driving

PC23. ensure to stop the vehicle at a safe place in case of any malfunction and turn off the ignition

PC24. carry out a quick diagnostic check

PC25. carry out minor adjustments or temporary repairs like replacement/top-up of oil, change of tyres/wipers, etc. if possible

PC26. report the exact nature of the problem to the supervisor to get appropriate help from the command office

PC27. take the vehicle to the service point for corrective action in case of major defect or accident

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. organization's policies on roadworthiness requirements, basic compliance to technical standards and safety requirements

KU2. quality norms and standards prescribed in the Quality Manual by the organization

KU3. standard check list to examine the vehicle before the trip

KU4. different sections and rules of Motor Vehicle Act, 1988

KU5. CMVR guidelines issued by MoRTH (Ministry of Road Transport & Highways)

KU6. guidelines issued by State Road Transport Authorities like RTOs

KU7. escalation procedure followed in the organization

KU8. basic functionalities of the technical equipment of the vehicle

KU9. safe and fuel-efficient driving techniques

KU10. basic troubleshooting techniques of the vehicle

KU11. latest traffic regulations

KU12. organizational procedure to take the vehicle to the service/repair point for corrective action like parts replacements

Generic Skills (GS)

User/individual on the job needs to know how to:

Qualification Pack

- GS1.** read safety instructions/guidelines/procedures
- GS2.** communicate effectively with the passengers, supervisors and colleagues
- GS3.** comply with all rules and regulations
- GS4.** write in English/any one language
- GS5.** make timely decisions for efficient utilization of resources
- GS6.** complete tasks efficiently and accurately within stipulated time

ASC/N9712: Ensure fitness of forklift for use

Description

This OS unit is about performing pre-drive inspection and operational checks on the forklift as per operational standards.

Scope

The scope covers the following :

- Conduct pre-drive inspection and checks
- Perform basic operational check before the start of work

Elements and Performance Criteria

Conduct pre-drive inspection and checks

To be competent, the user/individual on the job must be able to:

- PC1.** check the forklift for engine oil level, fuel level, radiator water level (LPG, gas and diesel forklifts)
- PC2.** inspect the battery area visually for spillage and corrosion on terminals/battery tray and ensure the battery plug connections are not loose, terminals are greased, and voltage and vent caps are not clogged (battery operated FLT's)
- PC3.** check all the cables for exposed wires
- PC4.** monitor the electrolyte levels in cells and hold-downs or brackets to keep the battery securely in a place
- PC5.** make sure guards, chains, or hydraulic hose reels are not damaged and bolts/ nuts are intact
- PC6.** check wheels and tyres for wear, damage, and air pressure (in case of pneumatic tyres)
- PC7.** ensure forks are not bent, no cracks are present, positioning latches are in good working condition, and carriage teeth are not broken, chipped, or worn
- PC8.** make sure the overhead cage is in good condition and does not have any cracks, bend, etc.
- PC9.** ensure the horn is working and loud enough to be heard in the working environment and other warning devices are operational
- PC10.** check headlights and warning lights for proper functioning

Perform basic operational check before the start of work

To be competent, the user/individual on the job must be able to:

- PC11.** ensure that the pedal of the foot break holds and the unit stops smoothly
- PC12.** make sure the parking brake holds against slight acceleration
- PC13.** confirm that the seat brake holds when operator rises from the seat
- PC14.** make sure the clutch and gearshift shift smoothly with no jumping or jerking
- PC15.** check dash control panel for proper functioning of all lights and gauges
- PC16.** examine the emergency switch for proper functioning (if available),
- PC17.** make sure the steering and lift and tilt mechanism works smoothly examine cylinders and hoses should for leakage

Qualification Pack

- PC18.** examine cylinders and hoses for any leakage
- PC19.** ensure the mast tilts forward and backward correctly and also extends
- PC20.** make sure forklift preventive maintenance schedules are followed as per standard guidelines

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** organization's policies on roadworthiness requirements, basic compliance to technical standards and safety requirements
- KU2.** quality norms and standards prescribed in the Quality Manual by the organization
- KU3.** standard check list to examine the vehicle before the trip

Qualification Pack

ASC/N9713: Handle delivery, stocking and shifting of the goods

Description

This OS unit is about driving the forklift, lifting and moving the material to the desired location and parking the forklift as per the standards

Scope

The scope covers the following :

- Start the forklift
- Lift the material
- Move the material on forklift
- Park the forklift after daily operations
- Park the forklift for long durations

Elements and Performance Criteria

Start the forklift

To be competent, the user/individual on the job must be able to:

- PC1.** fasten the seatbelt and wear other PPE like hard hat as per OSHA (Occupation Safety and Health Act)
- PC2.** check the parking brake for engagement
- PC3.** confirm that the transmission control lever is in a neutral position, safety locks are on (if fitted) and all attachment controls are in the neutral position
- PC4.** make sure that the throttle control or accelerator pedal is pushed past any constriction that may be fitted and is in the low idle position
- PC5.** start the engine as per specified instructions
- PC6.** cool down the starter or pre-heat the vehicle as required, if engine fails to start within approximately 10 seconds
- PC7.** check all gauges for correct operation
- PC8.** allow the engine and components to warm up to operating temperature (for approximately 5 minutes) before the operation
- PC9.** check all attachment controls for their correct operation, unusual noises and any vibrations after starting the forklift
- PC10.** ensure that the area is clear and it is safe to move the forklift

Lift the material

To be competent, the user/individual on the job must be able to:

- PC11.** drive the forklift near the storage location where the material is kept
- PC12.** lower the forks while keeping the mast in upright condition if load is kept on ground or take it to the level of load
- PC13.** align the fork before inserting it into the pallet
- PC14.** insert the fork all the way under the material

Qualification Pack

PC15. adjust the fork as wide as possible to fit the load and to provide a more even distribution of weight

PC16. ensure the load is within specified limits of forklift

PC17. make sure that the material on pallets is stable, neat, cross-tied and evenly distributed

Move the material on forklift

To be competent, the user/individual on the job must be able to:

PC18. tilt loads backward or as specified for load

PC19. travel with forks as low as possible from the floor and tilted back

PC20. match speed of driving with load and workplace conditions

PC21. drive to the designated location through the specified aisles/bin/location as per safety norms

PC22. make sure not to meet with any obstacles as in the unladen condition the FLT balance in rear might be heavy

PC23. rest the pallet on ground/bin base and slowly start removing forks out of the pallet as per instructions

PC24. ensure the safe and efficient transport of delicate or hazardous items such as fragile goods, chemicals, or equipment that require precise handling to avoid damage, contamination, or accidents

PC25. ensure that the material is not damaged while unloading

Park the forklift after daily operations

To be competent, the user/individual on the job must be able to:

PC26. park the forklift in the parking area with the forks and attachments (if any) touching the ground after unloading the material

PC27. place all attachment control levers in the neutral or hold position

PC28. tighten all lift chains as they may jump clear of the top carrier rollers

PC29. place the transmission and forward-reverse levers into the neutral position and apply safety locks and brakes

PC30. turn off the fuel isolating valve, in case of an LPG powered forklift

PC31. switch off the ignition

PC32. decrease the inner pressure by operating the lift & tilting lever several times

PC33. take out the key & hand it over to concerned person as per the organizational policy

Park the forklift for long durations

To be competent, the user/individual on the job must be able to:

PC34. park the forklift in the shade or location specified for long duration parking

PC35. take out the plug to prevent discharge of batteries (both electric or other fuel)

PC36. apply anti-rust on exposed parts like piston rod

PC37. add oil/grease to all the lubrication points, as required

PC38. operate forklift once in a week with forks lifted till its maximum height

PC39. check battery once a month if it is parked for months

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

Qualification Pack

- KU1.** organization's policies on roadworthiness requirements, basic compliance to technical standards and safety requirements
- KU2.** standard check list to examine the vehicle before the trip
- KU3.** OSHA and other safety standards
- KU4.** CMVR guidelines issued by MoRTH (Ministry of Road Transport & Highways)
- KU5.** quality norms and standards prescribed in the Quality Manual by the organization
- KU6.** different sections and rules of Motor Vehicle Act, 1988
- KU7.** guidelines issued by State Road Transport Authorities like RTOs
- KU8.** escalation procedure followed in the organization
- KU9.** safe and fuel-efficient driving techniques
- KU10.** basic troubleshooting techniques of the vehicle
- KU11.** latest traffic regulations
- KU12.** organizational procedure to take the vehicle to the service/repair point for corrective action like parts replacements
- KU13.** safety practices for handling of sensitive and hazardous materials
- KU14.** escalation procedure followed in the organization

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read safety instructions/guidelines/procedures
- GS2.** communicate effectively with the passengers, supervisors and colleagues
- GS3.** comply with all rules and regulations
- GS4.** write in English/any one language
- GS5.** make timely decisions for efficient utilization of resources
- GS6.** complete tasks efficiently and accurately within stipulated time

Qualification Pack

ASC/N9606: Ensure roadworthiness of Electric Vehicle (EV)

Description

This NOS unit is about ensuring the roadworthiness of Electric vehicles before the trip and follow the relevant guidelines.

Scope

The scope covers the following :

- Ensure roadworthiness of Electric Vehicle
- Follow CMVR and State guidelines

Elements and Performance Criteria

Ensure roadworthiness of Electric Vehicle

To be competent, the user/individual on the job must be able to:

- PC1.** identify the basics of driving an Electric Vehicle as against an Internal Combustion (IC) Engine
- PC2.** ensure the availability of tools required for the basic maintenance of the EV as mentioned in the Work Instructions/SOPs
- PC3.** ensure optimum charging in Electric Vehicle
- PC4.** apply the OEM's Standard Operating Procedures (SOP) to identify the basic electrical/electronic faults
- PC5.** identify maximum level of vehicle battery charging and different charging sockets
- PC6.** identify dashboard's signs, signals, sensors, switches, gauges, Human Machine Interface (HMI) & Electronic Instrument Cluster (EIC)
- PC7.** complete required statutory documents relevant to safety
- PC8.** inform to concerned person in case of any problem

CMVR and state guidelines

To be competent, the user/individual on the job must be able to:

- PC9.** follow CMVR (Central Motor Vehicle Rules) guidelines issued by MoRTH (Ministry of Road Transport & Highways)
- PC10.** follow guidelines issued by RTOs and safety guidelines for EV issued by relevant authorities

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** basic functionalities and driving techniques of the Electric Vehicle
- KU2.** CMVR guidelines issued by MoRTH
- KU3.** guidelines issued by RTOs and safety guidelines for EV issued by relevant authorities
- KU4.** quality norms and standards prescribed in the Instructional Manual or SOP

Qualification Pack

- KU5.** types of charging connector and time required for a full charge using either fast or slow chargers
- KU6.** various type of batteries used in the EV and their maintenance procedures
- KU7.** different functions related to battery
- KU8.** usage of lights, ignition, electronic and air-conditioning systems etc. at various stages of battery
- KU9.** related electronic systems including active and passive safety systems specific to EV
- KU10.** different type of tools used to diagnose technical faults
- KU11.** standard symbols and singages used in the EV

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read safety instructions/guidelines
- GS2.** complete tasks efficiently and accurately within stipulated time
- GS3.** make timely decisions for efficient utilization of resources
- GS4.** write in English/any one language

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down the proportion of marks for Theory and Skills Practical for each PC.
2. The assessment for the theory part will be based on the knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for the theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.
7. Assessment conducted only after permanent driving license.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Assessment Weightage

Compulsory NOS

National Occupational Standards	Theory Marks	Practical Marks	Project Marks	Viva Marks	Total Marks	Weightage
ASC/N9809.Organize work and resources (Road Transportation)	50	30	-	20	100	10

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
