ASP/CON/Q0101: Marine Structural Fitter and Fabricator

Brief Job Description

The Marine Structural Fitter and Fabricator course equips learners with skills to assemble, install, and repair marine structures using tools and techniques like cutting, welding, and shaping materials. It covers blueprint reading, safety protocols, quality control, and industry standards, preparing candidates for roles in shipbuilding, repair, and offshore platforms.

Personal Attributes

A ****Marine Structural Fitter & Fabricator**** needs technical skills, physical strength, attention to detail, and safety awareness to ensure precise fabrication and compliance with standards. Effective teamwork, adaptability to new technologies, and a strong work ethic are essential for success in this challenging and dynamic role.

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [ASP/CON/N0101: Introduction to Marine Industry and Professional Skills](#)
2. [ASP/CON/N0102: Safety and Procedure](#)
3. [ASP/CON/N0103: Tools and Machineries for fitter and testing](#)
4. [ASP/CON/N0104: Joining Operations](#)
5. [ASP/CON/N0105: Ship Building Materials and process](#)
6. [ASP/CON/N0106: Basic awareness to Software](#)
7. [ASP/CON/N0107: Structural Fitting and Machinery Outfit](#)
8. [DGT/VSQ/N0101: Employability Skills \(30 Hours\)](#)

Qualification Pack

ASP/CON/N0101: Introduction to Marine Industry and Professional Skills

Description

Comprehensive Understanding on Marine Industry and Professional Skills

Scope

The scope covers the following :

- Recognize about importance of Marine Structural fitter job role.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.**
- Recognize about importance of Marine Structural fitter job role.
 - Proficiency in identifying basics of ship design, structural drawings.
 - To be familiar with marine terminologies.
 - Familiarize general ship building process.
 - Understand Class rules, regulatory mechanisms.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Interpret blueprints and technical drawings to accurately assemble marine structures. They must be proficient in cutting, shaping, and welding materials, ensuring precision and adherence to safety standards.

Qualification Pack

ASP/CON/N0102: Safety and Procedure

Description

To provide candidate knowledge about process flow to follow for a safe working environment

Scope

The scope covers the following :

- Recognize and comply Safe Working Practice, and illustrate Survival Technique following safety precautions.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.**
- Recognize and comply Safe Working Practice
 - Illustrate Survival Technique following safety precautions.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** To provide candidate knowledge about process flow to follow for a safe working environment
KU2. To provide candidate knowledge about Personal safety, Occupational safety, Safety Procedure
KU3. To introduce rescue techniques, Fire estinguish, First aid, etc

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.**
- Precautions to be observed in hazardous situations like toxic, flammable, electrical shock and material handling. Hazard identification and avoidance,
 - safety signs for Danger, Warning, caution & personal safety message.
- GS2.**
- Personal Safety:-Basic injury prevention, Basic first aid.
 - Introduction to machinery safety including fire fighting equipment and their uses etc.
- GS3.**
- Importance of safety in industry- Terms related to safety- accident-accident proneness-frequency rate-incidence rate-safety performance index-unsafe acts-causes of accidents-mechanical, environment and personal factors.
 - Accident prevention techniques- Govt norms and rules regarding industrial safety

ASP/CON/N0103: Tools and Machineries for fitter and testing

Description

To provide knowledge on Hand tools like Cutting tools, Measuring tools, Precision tools, Marking tools, assembling and dismantling tools

Scope

The scope covers the following :

- Plan and organize the work to make job as per specification by applying different types of basic fitting operations and checking dimensions

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** • Work organization to make job as per specification applying different types of basic fitting operation and Check dimensions accuracy. (Basic fitting operation – marking, Hacksawing, Chiseling, Filing, Drilling, Taping, Turning and Grinding, Milling, Lifting, etc.) Route optimization and planning using software tools.
- Understand the use of measuring tools/precision tools.
 - Turning operations like plain turning, step turning, facing taper turning (Internal and External) threading, hole turning
- PC2.** Making ducts cabins and panels. Gas cutting, gauging , edge preparation by using oxy-acetylene flame

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** To provide knowledge on Hand tools like Cutting tools, Measuring tools, Precision tools, Marking tools, assembling and dismantling tools.
- KU2.** To provide knowledge on Grinding Machine, Drill Machines, Power Saw, lathe etc. To provide Skills on workshop Machineries to do turning operations.
- KU3.** To provide Skills on Sheet metal works
- KU4.** To provide knowledge and Skills on Pipe joints, cutting, threading, fitting, bending
- KU5.** To provide Basic knowledge and Skills on fit up checking and Non destructive Testing

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Plan and organize the work to make job as per specification applying different types of basic fitting operation and Check dimensions. accuracy. (Basic fitting operation like marking, Hacksawing, Chiseling, Filing, Drilling, Taping, Turning and Grinding, Milling, Lifting)
- GS2.** Understand the use of measuring tools/precision tools.

Qualification Pack

- GS3.** To practice turning operations like plain turning, step turning, facing taper turning (Internal and External) threading, hole turning, Boring etc.
- GS4.** To practice operations in sheet metal to required shape and size by bending, seaming, forming, rivetting, wiring.
- GS5.** To practice various operations such as shearing, bending, beading, channeling, circle cutting. Making ducts, cabins and panels. Gas cutting, gauging, edge preparation by using oxy-acetylene flame

ASP/CON/N0104: Joining Operations

Description

To provide knowledge and skill on different types of joints in sheet metals and pipes .

Scope

The scope covers the following :

- To provide knowledge and skill on sheet metal and pipe joining process.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** • Demonstrate different joining operations observing standard procedure.
• Practice on sheet metal seams. □ Perform brazing operations on sheet metal.
• Perform Cutting operations like Gas cutting, Mechanical cutting, Plasma cutting, Jigsaw cutting, etc.
• Perform CO2 Welding, Metal Arc welding, Gas welding, TIG welding & MIG welding and spot welding/TACK welding, FCA Welding on sheet metal plates.
- PC2.** • Make sheet metal articles according to drawing or sample following safety precaution.
• Plan & work in different sheet metals such as tin, copper, brass.
• Undertake Aluminum frame works. □ Make ducts, cabins & panels.
• Perform Pipe welding operations like edge preparation, cutting, fit up, bending, welding, checking etc.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** To provide knowledge and skill on different types of joints and sheet metal seams
KU2. To provide knowledge and skill on fastening techniques like rivetting and screwing
KU3. To provide knowledge and skill on different types of cutting, welding processes in plates
KU4. To provide knowledge and skill on Brazing process in sheet metal.
KU5. To provide knowledge and skill on pipe joining process

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** exercise skill on different types of joints and sheet metal seams
GS2. Perform fastening techniques like rivetting and screwing
GS3. Perform different types of cutting, welding processes in plates
GS4. Perform Brazing process in sheet metal.
GS5. Perform pipe joining process

ASP/CON/N0105: Ship Building Materials and process

Description

This NOS provides comprehensive training in the selection, processing, and fabrication of materials used in marine and structural engineering. Learners will gain knowledge of different material types, including metals, polymers, ceramics, and composites, along with their physical and mechanical properties. The course covers the structural components of shipbuilding, including hulls, decks, bulkheads, and beams, with a focus on material selection, design principles, and fabrication techniques.

Scope

The scope covers the following :

- Covers material selection, structural assembly, surface quality, marking, cutting, forming, and fabrication in marine structural fitting.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.**
- Understand the properties of different materials used for ship structure building.
 - Understand the structural members of ship building.
 - Understand the defects and quality of the plate surface.
 - Understand the preservation methods of marine structure.
 - Understand marking of plates and profiles. (Manual marking of plates using sketches, Manual marking of profiles using stiffener list and sketches)
- PC2.**
- Understand cutting of plates and profiles. (Plate cutting using machine/ manual method, Profile cutting using machine, Marine Structural Fitter & Fabricator manual method, Gases used for cutting – LPG, Acetylene, Oxygen, CNG, Plasma etc.)
 - Understand forming of plates and profiles. (Forming of plates and profiles using mechanical press, Types of bending – Cold ben

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Materials used for ship building and their grades
- KU2.** Different kinds of structural members used for ship building.
- KU3.** Different kind of defects on surface of the plate and quality of surface
- KU4.** Blasting, Priming and their standards.
- KU5.** Marking of plates and profiles using stiffener list and sketches
- KU6.** Plate and profile cutting using machine/ manual methods.
- KU7.** Forming of plates and profiles using mechanical press and cold and spot heating pressing methods
- KU8.**
- a) Production drawings
 - b) Fit-up Technique
 - c) Welding process in ship building

Qualification Pack

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Recognize different kinds of defects on surface of the plate and quality of surface
- GS2.** Understand Blasting, Priming and their standards.
- GS3.** Identify marking of plates and profiles using stiffener list and sketches
- GS4.** Perform plate, profile cutting using machine/ manual methods.
- GS5.** understand forming of plates and profiles using mechanical press and cold and spot heating pressing methods
- GS6.** Familiarize production drawings, fit-up Technique and welding process in ship building

ASP/CON/N0106: Basic awareness to Software

Description

To provide knowledge on different software used for designing

Scope

The scope covers the following :

- To provide skills on basic designing in different software.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.**
- Understand Software used for ship designing and learn basics of designing.
 - Understand DWG reading and Nesting.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Different software used for designing
KU2. Basic designing in different software.
KU3. DWG reading and Nesting operations

Generic Skills (GS)

User/individual on the job needs to know how to:

ASP/CON/N0107: Structural Fitting and Machinery Outfit

Description

Involves installing tank components, conducting air and hydro testing, and applying safety protocols to verify leak-proof, pressure-resistant systems.

Scope

The scope covers the following :

- Covers tank outfitting, pressure testing, and quality assurance to ensure structural integrity, safety, and compliance in marine applications.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.**
- Understand different structural fitting acts.
 - Understand installation of different systems in ship building,
 - Understand and doing different hull symbols and ship symbols..
 - Understand the role of Structural fitter in VLCC

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Machinery outfit
KU2. Structural outfitting
KU3. Ship marking.
KU4. Outfit service, Air and Hydro testing.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Perform machinery outfit
GS2. Perform structural outfitting
GS3. Perform ship marking.
GS4. Perform outfit service, Air and Hydro testing.

DGT/VSQ/N0101: Employability Skills (30 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

PC1. understand the significance of employability skills in meeting the job requirements

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

PC2. identify constitutional values, civic rights, duties, personal values and ethics and environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

PC3. explain 21st Century Skills such as Self-Awareness, Behavior Skills, Positive attitude, self-motivation, problem-solving, creative thinking, time management, social and cultural awareness, emotional awareness, continuous learning mindset etc.

Basic English Skills

To be competent, the user/individual on the job must be able to:

PC4. speak with others using some basic English phrases or sentences

Communication Skills

To be competent, the user/individual on the job must be able to:

PC5. follow good manners while communicating with others

PC6. work with others in a team

Qualification Pack

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

PC7. communicate and behave appropriately with all genders and PwD

PC8. report any issues related to sexual harassment

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

PC9. use various financial products and services safely and securely

PC10. calculate income, expenses, savings etc.

PC11. approach the concerned authorities for any exploitation as per legal rights and laws

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

PC12. operate digital devices and use its features and applications securely and safely

PC13. use internet and social media platforms securely and safely

Entrepreneurship

To be competent, the user/individual on the job must be able to:

PC14. identify and assess opportunities for potential business

PC15. identify sources for arranging money and associated financial and legal challenges

Customer Service

To be competent, the user/individual on the job must be able to:

PC16. identify different types of customers

PC17. identify customer needs and address them appropriately

PC18. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC19. create a basic biodata

PC20. search for suitable jobs and apply

PC21. identify and register apprenticeship opportunities as per requirement

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use basic spoken English language

KU6. Do and dont of effective communication

KU7. inclusivity and its importance

KU8. different types of disabilities and appropriate communication and behaviour towards PwD

KU9. different types of financial products and services

Qualification Pack

- KU10.** how to compute income and expenses
- KU11.** importance of maintaining safety and security in financial transactions
- KU12.** different legal rights and laws
- KU13.** how to operate digital devices and applications safely and securely
- KU14.** ways to identify business opportunities
- KU15.** types of customers and their needs
- KU16.** how to apply for a job and prepare for an interview
- KU17.** apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate effectively using appropriate language
- GS2.** behave politely and appropriately with all
- GS3.** perform basic calculations
- GS4.** solve problems effectively
- GS5.** be careful and attentive at work
- GS6.** use time effectively
- GS7.** maintain hygiene and sanitisation to avoid infection

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

Assessment Components & Weightage

ASAP Kerala employs a structured assessment framework that includes Attendance, Assignments, Internal Assessments, and Final Assessments. Assessments align with the National Skills Qualifications Framework (NSQF) and follow a Continuous and Comprehensive Evaluation (CCE) approach.

Assessment Type Max Marks

Assignment 1 35

Internal Assessment 1 50

Assignment 2 35

Internal Assessment 2 50

Final Assessment 100

Qualification Pack

Attendance 30

Total 300

Attendance Criteria

Attendance is crucial, as skill-based sessions involve interactive learning. Students with less than 70% attendance are ineligible for final assessment and certification.

Attendance % Marks

Above 90% 10

86-90% 9

80-85% 8

70-80% 7

Below 70% 0

Internal/Continuous Assessments & Assignments

Assignments (35 marks each): Two assignments, after 25% and 75% of syllabus completion. Evaluated and recorded by trainers.

Internal Assessments (50 marks each): Conducted after 50% and 100% of syllabus completion. Questions include 60% objective and 40% descriptive formats.

Final/End Assessment

Conducted by the Assessment Division of ASAP Kerala, covering:

Practical/Skill Test (at OJT/Skill Development Centers)

Project Presentation & Viva Voce

MCQ & Descriptive Written Exam

Qualification Pack

Assessment Governance & Quality Assurance

Assessment Division of ASAP Kerala oversees the process.

Question Bank prepared by Subject Matter Experts; 20% of questions refreshed annually.

Assessments held at ASAP Skill Parks, Accredited Centers, Colleges, or AI-Proctored Platforms.

ID Verification & AI-based Face Recognition for authentication.

Final Score & Certification issued post evaluation by expert assessors.

Final Score & Grading

Score (%) Grade Description

90-100 A+ Excellent

80-89 A Very Good

70-79 B Good

60-69 C Above Average

50-59 P Pass

Below 50 F Fail

Minimum Aggregate Passing % at QP Level : 50

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
