ASP/ITS/Q0301: Business Analyst

Brief Job Description

This comprehensive, application-oriented program is designed to equip learners with the critical knowledge and technical skills required to drive data-driven decision-making in modern businesses. The course blends statistical foundations, data management, machine learning, and storytelling into one integrated learning journey. Through core modules in R, Python, Excel, and modern business tools, students master techniques in data wrangling, visualization, statistical inference, predictive modelling, and cloud-based big data analytics. Learners are also introduced to emerging technologies like Generative AI for business insights and explore real-time analytics using cloud and big data platforms.

Personal Attributes

The course will help in bridging the gap between IT and the business using data analytics to assess processes, determine requirements and deliver data-driven recommendations and reports to executives and stakeholders.

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [ASP/ITS/N0301: Fundamentals of Business Analytics](#)
2. [ASP/ITS/N0306: Advanced Business Analytics and Applications](#)
3. [ASP/ITS/N0304: Analytics in Action: Sector Insights and Capstone Delivery](#)
4. [DGT/VSQ/N0102: Employability Skills \(60 Hours\)](#)

Electives(*mandatory to select at least one*):

Elective 1: Banking and Finance

The Banking and Finance elective in Business Analytics trains learners to apply data analytics for financial decision-making, risk assessment, fraud detection, and performance analysis in banks and financial institutions.

1. [ASP/ITS/N0307: Banking and Finance](#)

Elective 2: Supply Chain and Logistics

This elective teaches how to use data analytics to improve supply chain efficiency, optimize inventory, forecast demand, and streamline logistics operations for better business performance.

Qualification Pack

1. [ASP/ITS/N0308: Supply Chain and Logistics](#)

Elective 3: Pharma

This elective focuses on using data analytics in the pharmaceutical sector to improve drug development, clinical research, sales forecasting, and supply chain efficiency. It equips learners to make data-driven decisions in pharma operations and strategy.

1. [ASP/ITS/N0309: Pharma](#)

Elective 4: Marketing

This elective focuses on applying data analytics to marketing decisions. Learners gain skills in analyzing consumer behavior, market trends, and campaign performance using data-driven tools. It covers customer segmentation, digital marketing metrics, and predictive analytics to improve marketing strategies and ROI.

1. [ASP/ITS/N0310: Business Analytics Elective Marketing](#)

ASP/ITS/N0301: Fundamentals of Business Analytics

Description

This NOS covers the foundational skills and knowledge required to understand, interpret, and apply basic concepts of business analytics. It enables learners to use data-driven insights to support decision-making, performance tracking, and strategic planning in a business environment. The standard focuses on analytical thinking, data literacy, and the practical use of analytical tools and techniques to derive meaningful business insights.

Scope

The scope covers the following :

- This NOS defines the scope of skills and knowledge required to understand the core principles, functions, and environment of modern businesses. It covers the fundamental concepts that form the foundation for any business professional, including organizational structures, management functions, business operations, marketing, finance, and ethical practices.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Demonstrates understanding of data science foundations
- PC2.** Applies data thinking to solve business problems
- PC3.** Uses Excel functions for data analysis and modeling
- PC4.** Creates interactive dashboards for business insights
- PC5.** Visualizes and communicates data insights effectively
- PC6.** Understands relational database concepts and structures
- PC7.** Executes SQL queries for data extraction and analysis
- PC8.** Uses R for data manipulation and exploratory analysis
- PC9.** Builds data visualizations and interprets results in R
- PC10.** Implements basic analytics workflows in R

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Curiosity and Problem-Solving
- GS2.** Critical Thinking
- GS3.** Communication Skills
- GS4.** Programming
- GS5.** Mathematics and Statistics

ASP/ITS/N0306: Advanced Business Analytics and Applications

Description

This NOS covers the competencies required to apply advanced business analytics techniques and software tools to drive strategic decision-making, performance improvement, and innovation across business functions. It focuses on leveraging data-driven insights using predictive, prescriptive, and cognitive analytics to optimize operations, marketing, sales, and customer engagement.

Scope

The scope covers the following :

- This NOS covers the skills, knowledge, and performance criteria required for professionals to apply advanced analytical techniques and data-driven applications to solve complex business problems and enhance decision-making.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Applies statistical concepts for business decision-making
- PC2.** Demonstrates proficiency in Python for data analysis
- PC3.** Builds and evaluates machine learning models using business tools
- PC4.** Understands and applies GenAI in business analytics contexts
- PC5.** Utilizes big data tools and cloud platforms for scalable analytics
- PC6.** Manages project workflows and stakeholder communication
- PC7.** Designs and delivers compelling business presentations
- PC8.** Collaborates effectively across business and tech
- PC9.** Applies cross-functional analytics to solve sector-specific problems
- PC10.** Synthesizes knowledge through end-to-end capstone execution

ASP/ITS/N0304: Analytics in Action: Sector Insights and Capstone Delivery

Description

This NOS covers applying analytical skills to sector-specific data, generating actionable insights, and delivering a capstone project. It emphasizes interpreting data, identifying trends, making informed decisions, and effectively communicating findings in real-world business contexts.

Scope

The scope covers the following :

- This NOS is designed to equip learners with the ability to apply analytical tools, frameworks, and methodologies to real-world business and sector-specific scenarios. It emphasizes hands-on application of data analytics, sector insight generation, and the execution of a capstone project to demonstrate end-to-end problem-solving and decision-making abilities.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Demonstrates domain-specific understanding of business challenges
- PC2.** Applies appropriate analytical tools and techniques to sectoral datasets
- PC3.** Interprets and derives actionable insights from sector-specific data
- PC4.** Builds and visualizes relevant KPIs through dashboards or reports
- PC5.** Designs and executes a complete analytics workflow in the capstone project
- PC6.** Employs storytelling to present insights effectively
- PC7.** Collaborates effectively within a project team setting
- PC8.** Adheres to data ethics and governance in applied work
- PC9.** Evaluates model performance and aligns outcomes to business goals
- PC10.** Delivers a comprehensive, well-documented capstone project aligned with business objectives

DGT/VSQ/N0102: Employability Skills (60 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Career Development & Goal Setting
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

- PC1.** identify employability skills required for jobs in various industries
- PC2.** identify and explore learning and employability portals

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

- PC3.** recognize the significance of constitutional values, including civic rights and duties, citizenship, responsibility towards society etc. and personal values and ethics such as honesty, integrity, caring and respecting others, etc.
- PC4.** follow environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

- PC5.** recognize the significance of 21st Century Skills for employment
- PC6.** practice the 21st Century Skills such as Self-Awareness, Behaviour Skills, time management, critical and adaptive thinking, problem-solving, creative thinking, social and cultural awareness, emotional awareness, learning to learn for continuous learning etc. in personal and professional life

Basic English Skills

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC7.** use basic English for everyday conversation in different contexts, in person and over the telephone
- PC8.** read and understand routine information, notes, instructions, mails, letters etc. written in English
- PC9.** write short messages, notes, letters, e-mails etc. in English

Career Development & Goal Setting

To be competent, the user/individual on the job must be able to:

- PC10.** understand the difference between job and career
- PC11.** prepare a career development plan with short- and long-term goals, based on aptitude

Communication Skills

To be competent, the user/individual on the job must be able to:

- PC12.** follow verbal and non-verbal communication etiquette and active listening techniques in various settings
- PC13.** work collaboratively with others in a team

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

- PC14.** communicate and behave appropriately with all genders and PwD
- PC15.** escalate any issues related to sexual harassment at workplace according to POSH Act

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

- PC16.** select financial institutions, products and services as per requirement
- PC17.** carry out offline and online financial transactions, safely and securely
- PC18.** identify common components of salary and compute income, expenses, taxes, investments etc
- PC19.** identify relevant rights and laws and use legal aids to fight against legal exploitation

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

- PC20.** operate digital devices and carry out basic internet operations securely and safely
- PC21.** use e- mail and social media platforms and virtual collaboration tools to work effectively
- PC22.** use basic features of word processor, spreadsheets, and presentations

Entrepreneurship

To be competent, the user/individual on the job must be able to:

- PC23.** identify different types of Entrepreneurship and Enterprises and assess opportunities for potential business through research
- PC24.** develop a business plan and a work model, considering the 4Ps of Marketing Product, Price, Place and Promotion
- PC25.** identify sources of funding, anticipate, and mitigate any financial/ legal hurdles for the potential business opportunity

Customer Service

To be competent, the user/individual on the job must be able to:

- PC26.** identify different types of customers
- PC27.** identify and respond to customer requests and needs in a professional manner.

Qualification Pack

PC28. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC29. create a professional Curriculum vitae (Résumé)

PC30. search for suitable jobs using reliable offline and online sources such as Employment exchange, recruitment agencies, newspapers etc. and job portals, respectively

PC31. apply to identified job openings using offline /online methods as per requirement

PC32. answer questions politely, with clarity and confidence, during recruitment and selection

PC33. identify apprenticeship opportunities and register for it as per guidelines and requirements

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills and different learning and employability related portals

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use English language for effective verbal (face to face and telephonic) and written communication in formal and informal set up

KU6. importance of career development and setting long- and short-term goals

KU7. about effective communication

KU8. POSH Act

KU9. Gender sensitivity and inclusivity

KU10. different types of financial institutes, products, and services

KU11. how to compute income and expenditure

KU12. importance of maintaining safety and security in offline and online financial transactions

KU13. different legal rights and laws

KU14. different types of digital devices and the procedure to operate them safely and securely

KU15. how to create and operate an e- mail account and use applications such as word processors, spreadsheets etc.

KU16. how to identify business opportunities

KU17. types and needs of customers

KU18. how to apply for a job and prepare for an interview

KU19. apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. read and write different types of documents/instructions/correspondence

GS2. communicate effectively using appropriate language in formal and informal settings

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

This section includes the processes involved in identifying, gathering, and interpreting information to evaluate the Candidate on the required competencies of the program.

1. Assessment System Overview:

Batches assigned to the assessment agencies for conducting the assessment on SIP or email

Assessment agencies send the assessment confirmation to VTP/TC looping SSC

Assessment agency deploys the ToA certified Assessor for executing the assessment

SSC monitors the assessment process & records

2. Testing Environment:

Check the Assessment location, date and time

If the batch size is more than 30, then there should be 2 Assessors.

Qualification Pack

Check that the allotted time to the candidates to complete Theory & Practical Assessment is correct.

3. Assessment Quality Assurance levels/Framework:

Question bank is created by the Subject Matter Experts (SME) are verified by the other SME

Questions are mapped to the specified assessment criteria

Assessor must be ToA certified & trainer must be ToT Certified

4. Types of evidence or evidence-gathering protocol:

Time-stamped & geotagged reporting of the assessor from assessment location

Centre photographs with signboards and scheme specific branding

5. Method of verification or validation:

Surprise visit to the assessment location

6. Method for assessment documentation, archiving, and access

Hard copies of the documents are stored

Minimum Aggregate Passing % at QP Level : 50

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
