ASP/MES/Q0401: Assistant Offset Printing Operator

Brief Job Description

Individuals will be able to operate single colour or multicolour offset machine and do necessary settings related with paper, ink and other chemicals. Taking prints to require number of copies with satisfying all parameter as customer requirements. Printing operator also responsible for the maintenance and cleaning of cylinders and inking rollers.

Personal Attributes

Attention to detail, Manual dexterity, Willingness to learn, Safety awareness

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [DGT/VSQ/N0101: Employability Skills \(30 Hours\)](#)
2. [ASP/MES/N0407: On The Job Training](#)
3. [ASP/MES/N0406: Maintenance & Safety](#)
4. [ASP/MES/N0405: Consumables](#)
5. [ASP/MES/N0404: Materials](#)

DGT/VSQ/N0101: Employability Skills (30 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

PC1. understand the significance of employability skills in meeting the job requirements

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

PC2. identify constitutional values, civic rights, duties, personal values and ethics and environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

PC3. explain 21st Century Skills such as Self-Awareness, Behavior Skills, Positive attitude, self-motivation, problem-solving, creative thinking, time management, social and cultural awareness, emotional awareness, continuous learning mindset etc.

Basic English Skills

To be competent, the user/individual on the job must be able to:

PC4. speak with others using some basic English phrases or sentences

Communication Skills

To be competent, the user/individual on the job must be able to:

PC5. follow good manners while communicating with others

PC6. work with others in a team

Qualification Pack

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

PC7. communicate and behave appropriately with all genders and PwD

PC8. report any issues related to sexual harassment

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

PC9. use various financial products and services safely and securely

PC10. calculate income, expenses, savings etc.

PC11. approach the concerned authorities for any exploitation as per legal rights and laws

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

PC12. operate digital devices and use its features and applications securely and safely

PC13. use internet and social media platforms securely and safely

Entrepreneurship

To be competent, the user/individual on the job must be able to:

PC14. identify and assess opportunities for potential business

PC15. identify sources for arranging money and associated financial and legal challenges

Customer Service

To be competent, the user/individual on the job must be able to:

PC16. identify different types of customers

PC17. identify customer needs and address them appropriately

PC18. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC19. create a basic biodata

PC20. search for suitable jobs and apply

PC21. identify and register apprenticeship opportunities as per requirement

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use basic spoken English language

KU6. Do and dont of effective communication

KU7. inclusivity and its importance

KU8. different types of disabilities and appropriate communication and behaviour towards PwD

KU9. different types of financial products and services

Qualification Pack

- KU10.** how to compute income and expenses
- KU11.** importance of maintaining safety and security in financial transactions
- KU12.** different legal rights and laws
- KU13.** how to operate digital devices and applications safely and securely
- KU14.** ways to identify business opportunities
- KU15.** types of customers and their needs
- KU16.** how to apply for a job and prepare for an interview
- KU17.** apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate effectively using appropriate language
- GS2.** behave politely and appropriately with all
- GS3.** perform basic calculations
- GS4.** solve problems effectively
- GS5.** be careful and attentive at work
- GS6.** use time effectively
- GS7.** maintain hygiene and sanitisation to avoid infection

ASP/MES/N0407: On The Job Training

Description

This section is designed to provide hands-on experience through on-the-job training (OJT) in offset printing and related processes. Trainees will gain practical exposure to operating offset machines, maintaining equipment, troubleshooting issues, and following safety protocols in real-time printing environments. This practical training helps bridge the gap between theoretical knowledge and practical application, preparing learners for industry requirements.

Scope

The scope covers the following :

- The OJT will enable learners to apply theoretical concepts in real-world settings, develop hands-on skills in machine operation and maintenance, and practice safety measures effectively. Trainees will work under the guidance of experienced professionals to gain confidence and competence in offset printing tasks, including material handling, quality control, and routine maintenance activities.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

PC1. Internship

ASP/MES/N0406: Maintenance & Safety

Description

This section focuses on the maintenance and safety aspects of offset printing operations. It covers essential troubleshooting techniques, maintenance practices, waste management strategies, and safety protocols to ensure smooth and safe functioning of printing machinery. Emphasis is given to identifying common issues, implementing preventive maintenance, and adopting safety measures to minimize risks and enhance operational efficiency.

Scope

The scope covers the following :

- Learners will gain comprehensive knowledge of maintenance practices, waste management, and safety protocols essential for offset printing operations. They will develop skills to troubleshoot technical issues, perform regular maintenance to extend machine lifespan, and adhere to safety guidelines to prevent accidents and maintain a safe working environment.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

PC1. Be capable of conducting troubleshooting for any of the problems identified

PC2. Manage the waste management and maintenance sections in a press

ASP/MES/N0405: Consumables

Description

This section covers the essential consumables used in offset printing, including water, additives, offset chemistry, and important spares, accessories, and equipment associated with offset presses. It provides learners with knowledge of how consumables impact the quality and efficiency of the printing process. Understanding the role of consumables and their proper management is crucial to maintaining consistent print quality and minimizing production issues.

Scope

The scope covers the following :

- The section aims to equip learners with practical knowledge of consumables essential for offset printing. It covers the types and properties of water, additives, and offset chemicals, along with the maintenance and handling of crucial spares and accessories. By mastering these concepts, learners will be able to optimize print operations, troubleshoot common issues, and enhance the quality and durability of print outputs.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

PC1. Familiarise with the various consumables in offset printing

PC2. Become skilled in using water and additives in offset printing methods

PC3. Gain knowledge about the application of chemistry in offset printing

ASP/MES/N0404: Materials

Description

This section focuses on the essential materials used in print media, covering paper, ink, blankets, and plates. It provides a detailed understanding of the characteristics, properties, and applications of each material in the printing process. Learners will explore how the selection and quality of these materials influence print quality and efficiency. By gaining practical knowledge of print media materials, learners will be better prepared to make informed decisions for different printing applications.

Scope

The scope covers the following :

- The section aims to provide learners with a thorough understanding of the fundamental materials used in the printing industry. It covers the properties and characteristics of paper, ink, blankets, and plates, highlighting their significance in achieving high-quality print outputs. By mastering this knowledge, learners will be able to select appropriate materials for various printing processes and maintain consistency and quality in print production.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

PC1. Knowledge of paper based printing

PC2. Properties and behaviour of Ink and problems related with ink and remedies

PC3. Properties and behaviour of blanket

PC4. Properties and behaviour of Plate

ASP/MES/N0403: Colour & Quality

Description

This NOS provides an in-depth understanding of color theory, color printing techniques, and quality management in the printing industry. It covers the fundamentals of human and computer vision, exploring how colors are perceived and represented digitally. Students will learn about the principles of color theory and its practical applications in color printing. Additionally, the NOS includes methods of color measurement and the significance of maintaining international quality standards and certifications. By mastering these concepts, learners will be equipped to ensure high-quality print outputs while adhering to global quality benchmarks.

Scope

The scope covers the following :

- This section aims to equip learners with a comprehensive understanding of color management and quality control in the printing industry. It covers essential concepts of human and computer vision, color theory, and practical applications in color printing processes. Learners will gain insights into accurate color measurement techniques and the implementation of international quality standards and certifications. Upon completion, learners will be able to apply color management principles effectively to ensure consistency, accuracy, and high-quality print outputs across various printing applications.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Human Vision Vs. Computer Vision, Visual process, Fundamentals of colour perception. Colour, Colour Management
- PC2.** RGB Vs CMYK, LAB values, Importance of Colour, Consistency
- PC3.** Process of four colour Printing using Cyan, Magenta, Yellow and Black and more colours.
- PC4.** Density Vs Colour, Colour measurements, Equipment & tools for density, colour measurements

ASP/MES/N0402: Offset and Digital Printing Machine

Description

This module covers both offset and digital printing techniques, focusing on essential functional units and modern advancements. It includes feeding, sheet forwarding, inking, dampening, printing, ink drying, and delivery units in offset printing, along with pre-make ready, makeready, and post-makeready operations. The module also introduces digital printing techniques, applications, and advanced control systems like CPC and CIP3/4 for improved precision and efficiency.

Scope

The scope covers the following :

- This module equips learners with a thorough understanding of both offset and digital printing techniques, making them proficient in operating and managing modern printing machines. It covers essential functional units, advanced control systems, and modern printing applications, enabling learners to adapt to evolving industry demands. The knowledge gained from this module is crucial for careers in printing technology, production management, and quality control within the printing and packaging industries.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Knowledge of Print industry, print products and departments in Printing
- PC2.** Knowledge on various Printing methods and possibilities.
- PC3.** Knowledge in the history, evolution and principles of Offset Printing
- PC4.** Acquire the basic skill in operating Offset press
- PC5.** Knowledge and functions about sheetfed and web presses
- PC6.** Awareness on the future trends and developments in Print industry

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

This section includes the processes involved in identifying, gathering, and interpreting information to evaluate the Candidate on the required competencies of the program.

Mention the detailed assessment strategy in the provided template.

1. Assessment System Overview:

- Batches assigned to the assessment agencies for conducting the assessment on SIP or email - Email, Through SIP for TP Managed Courses
- Assessment agencies send the assessment confirmation to VTP/TC looping SSC - NA
- Assessment agency deploys the ToA certified Assessor for executing the assessment - Yes.
- SSC monitor the assessment process & records - Yes.

2. Testing Environment:

- Check the Assessment location, date and time - Yes.

Qualification Pack

- If the batch size is more than 30, then there should be 2 Assessors- Yes.
- Check that the allotted time to the candidates to complete Theory& Practical Assessment is correct -Yes.

3. Assessment Quality Assurance levels/Framework:

- Question bank is created by the Subject Matter Experts(SME) are verified by the other SME - The Question Bank is prepared by content development team with the support of the SMEs.
- Questions are mapped to the specified assessment criteria - Yes.
- Assessor must be ToA certified & trainer must be ToT Certified - Yes.

4. Types of evidence or evidence-gathering protocol:

- Time-stamped & geotagged reporting of the assessor from assessment location - NA
- Centre photographs with signboards and scheme specific branding - Yes.

5. Method of verification or validation:

- Surprise visit to the assessment location - Yes

6. Method for assessment documentation, archiving, and access

- Hard copies of the documents are stored - Yes, the documents will be in the custody of respective district offices.

On the Job:

- Each module (which coversthe job profile of Automotive Service Assistant Technician) will be assessed separately - NA

- The candidate must score 60% in each module to successfully complete the OJT - NA

- Tools of Assessment that will be used for assessing whether the candidate is having desired skills and etiquette of dealing with customers, understanding needs & requirements, assessing the

customer and perform Soft Skills effectively: Videos of Trainees during OJT

- Assessment of each Module will ensure that the candidate is able to: Effective engagement with the customers, Understand the working of various tools and equipment.

Minimum Aggregate Passing % at QP Level : 50

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
