CII/BSC/N0305: Prepare MIS/reports and maintain data integrity

Description

Individuals in this role will be liable to prepare Management Information System (MIS) reports and ensure the maintenance of data integrity within the banking sales department. This role requires a keen eye for detail, strong analytical skills, and a commitment to delivering accurate and timely reports.

Scope

The scope covers the following :

- The scope covers all the Elements and Performance Criteria

Elements and Performance Criteria

Identify the need of Banking solution

To be competent, the user/individual on the job must be able to:

- PC1.**
 - Establish clear data management policies and procedures that outline how customer-related information should be collected, stored, and updated. Ensure compliance with data protection regulations, such as GDPR or CCPA, as applicable.
- PC2.**
 - Implement a Customer Relationship Management (CRM) system to centralize customer data.
 - A CRM system helps automate record-keeping, tracks interactions, and allows for easy access to customer information by authorized personnel.
- PC3.**
 - Ensure that CRM system captures comprehensive customer data, including contact information, purchase history, service requests, communication history, and any other relevant details specific to the financial institutions.
- PC4.**
 - Implement a process for regularly updating customer records. This may include scheduled reviews of customer accounts, verifying contact information, and updating purchase or service history.
- PC5.**
 - Develop, generate, and distribute regular MIS reports as per the specified schedule and customize reports to meet the diverse informational needs of different stakeholders within the banking sales team.
- PC6.**
 - Use the CRM system to segment customer data based on various criteria, such as industry, location, purchasing behavior, or engagement level. This segmentation allows for targeted communication and marketing efforts.
- PC7.**
 - Create standardized reports for management that provide insights into customer relations, such as customer satisfaction levels, sales trends, service request patterns, and account growth. These reports should be generated on a regular interval.
- PC8.**
 - Present data in a visual and understandable format using charts, graphs, and dashboards.
 - Visualization tools can help management quickly grasp key insights.
- PC9.**
 - Offer actionable insights and recommendations based on the findings. Suggest strategies for improving customer relations or capitalizing on opportunities in the banking industry.
- PC10.**
 - Maintain strict data security measures to protect customer information and ensure compliance with data protection regulations. Regularly update security protocols as needed.
- PC11.**
 - Collect relevant data from various sources within the department and analyze data to identify trends, patterns, and areas for improvement in sales performance.

Confederation of Indian Industry

Qualification Pack

- PC12.** Implement and enforce data quality standards to ensure accuracy and consistency across all reports. Regularly conduct data audits to identify and rectify discrepancies.
- PC13.**
- Collaborate with other departments to gather necessary data inputs and insights for comprehensive reporting. Generate ad hoc reports as requested by management to support strategic decision-making.
- PC14.**
- Provide input on system enhancements or modifications to improve data capture and reporting capabilities.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** About instrumentation and banking/financial organizations
- KU2.** Review case studies across identified business organization
- KU3.** The available financial solution in banking industry
- KU4.** About the business profile of the client / user organization
- KU5.** KYC and take in capacity.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Organisational way of functions
- GS2.** Analyse the clients production value chain
- GS3.** Analyse available technology in use by client organisation
- GS4.** Measure available solution / platform readily available including case studies
- GS5.** Demonstrate value addition with available solution
- GS6.** Listen attentively to understand the information being shared

CII/BSC/N0302: Identify clients requirement

Description

A Banking Sales Executive will be able to explain complex technical information to customers to build trust, take informed financial decisions, and closing sales target. As a Sales Executive in the banking industry, identifying and understanding client requirements is crucial for providing tailored solutions and building strong, long-term relationships.

Scope

The scope covers the following :

- Discuss with client business partner/user

Elements and Performance Criteria

Identify the need of Banking solution

To be competent, the user/individual on the job must be able to:

- PC1.**
 - Analyze client's business processes, challenges, and goals. This will help in tailor conversation to their specific needs and pain points.
- PC2.**
 - Highlight areas in their current processes where manual tasks, inefficiencies, errors, and delays occur. These pain points will serve as the foundation for explaining how financial solution address these needs.
- PC3.**
 - Articulate the benefits of available financial services that are relevant to client's business.
- PC4.**
 - Practice active listening to fully understand the client's needs, concerns, and financial goals. Pay attention to verbal and non-verbal cues to gather comprehensive information.
- PC5.**
 - Establish a positive and friendly relationship with the client. Building rapport creates a comfortable environment, encouraging clients to openly share their requirements.
- PC6.**
 - Use open-ended questions to encourage clients to provide detailed information about their financial situation, objectives, and challenges. This allows you to gather more insights and tailor your offerings accordingly.
- PC7.**
 - Probe to understand the client's short-term and long-term financial goals. This could include saving for a home, retirement planning, education funds, or other investment objectives.

Confederation of Indian Industry

Qualification Pack

- PC8.**
 - Evaluate the client's risk tolerance by discussing
 - their comfort level with investment volatility. This
 - information helps in recommending suitable
 - financial products and services.
- PC9.**
 - Request information about the client's current
 - financial situation, including income, expenses,
 - existing investments, and liabilities. This holistic
 - view helps in providing relevant recommendations.
- PC10.**
 - Clearly explain the range of banking products and
 - services available. Ensure the client understands
 - the features, benefits, and potential implications of
 - each product.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** About financial services and need of usual clients
- KU2.** Review case studies across identified business organization
- KU3.** The available solutions like credit card, debit card, overdraft etc
- KU4.** About the solution available in other competitive banks
- KU5.** Business value and target capacity in Industry

CII/BSC/N0301: Analyze about the financial services and role of the sales executive

Description

Individuals in this job will be able to analyse the need of banking solution(s) and to offer tailored solutions that align with a customer's specific requirements. He/she will thoroughly analyze the service needs of the customers in the banking industry and provide solutions. He/she will have to work in dynamic and competitive environment with diverse range of services focused to customer centric solutions.

Scope

The scope covers the following :

- Identify and analyse the need of financial solution

Elements and Performance Criteria

Identify the need of Banking solution

To be competent, the user/individual on the job must be able to:

- PC1.** Analyze the financial solution provided by the bank and process thereon.
- PC2.** Analyze the key requirements related to the solution and customer strength.
- PC3.** Identify the potential client / organizations where financial solution is applicable and priorities them.
- PC4.** Conduct a comprehensive needs assessment with the customer. Engage in open and active communication to understand their unique challenges, pain points, and objectives. Ask questions about their current solution availing, compare the available solution and any issues they want to address.
- PC5.** Gain a deep understanding of the customer's existing processes and workflows. Identify areas where financial services can bring improvements, such as credit/overdraft limit etc.
- PC6.** Develop expertise in the customer's specific solution within the financial services. Different bank may have distinct client requirements, compliance standards, and best practices.
- PC7.** Stay updated with the latest financial solution and regulations and trends in banking, including Account opening, interest rate, card services, loan services, online banking services etc.
- PC8.** Be prepared to offer customized banking solutions. Recognize that one solution does not fit all in the client, and customers often require tailored systems that integrate seamlessly with their existing need.
- PC9.** Assess whether the proposed financial solution can scale to accommodate future growth and changing requirements. Flexibility in applicable banking systems is essential to adapt to evolving technical needs.
- PC10.** Acquiring new customers for the bank involves identifying potential clients, understanding their financial needs, and offering suitable banking products and services.
- PC11.** Be aware of competitors and their offerings in the financial services. Highlight the unique technical advantages of the solutions and demonstrate how they outperform alternatives.

Confederation of Indian Industry

Qualification Pack

- PC12.** Define customer profile based on location, company size, pain points, and solution requirements.
- PC13.** Utilize market research, industry reports, and trends to identify sectors that are actively adopting banking solutions.
- PC14.** Analyze the existing user data to identify patterns that can guide your targeting efforts, Determine the pain points and challenges that potential client are facing in their financial operations.
- PC15.** Align available financial solutions with these pain points to demonstrate value to the organization.
- PC16.** Develop compelling presentations that showcase available financial solutions and their benefits, also tailor these presentations to address the unique challenges of each similar potential client.
- PC17.** Approach potential clients with a consultative mindset, aiming to understand their needs and challenges before presenting your solutions. Recommend the right financial solution and strategies based on their specific requirements.
- PC18.** Regulatory compliances (RBI Guideline) needs to analyse and demonstrate

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Confederation of Indian Industry

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
