CUTM/AGR/Q0101: Seed Production Supervisor

Brief Job Description

To acquaint an individual with conventional and modern breeding methods and its viable application in varietal development, to impart comprehensive knowledge to get seed production in vegetable and cereal crops with adequate practical training, to apprise with the legislative provisions and processes as well as the mechanisms of quality control and seed certification.

Personal Attributes

A Seed Production Supervisor should be detail-oriented, methodical, and knowledgeable in agronomy and crop science. They must possess strong organizational and observation skills, along with the ability to manage field teams and maintain quality standards. Adaptability, record-keeping accuracy, and communication skills are essential for ensuring efficient seed production and certification.

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [CUTM/AGR/N0101: Identification of Seed production method, set-up storage and monitor for Vegetable types](#)
2. [CUTM/AGR/N0102: Identification of Seed production method, set-up storage and monitor for Cereal Crops](#)
3. [CUTM/AGR/N0103: Identification of Seed production method, set-up storage and monitor for Fruit types](#)
4. [CUTM/AGR/N0104: Seed Certification and Seed Quality Testing](#)
5. [CUTM/VSQ/N7801: Ensure organizational health, safety, and security](#)
6. [DGT/VSQ/N0102: Employability Skills \(60 Hours\)](#)

Qualification Pack

CUTM/AGR/N0101: Identification of Seed production method, set-up storage and monitor for Vegetable types

Description

This NOS outlines the process of identifying appropriate seed production methods for various vegetable crops, establishing seed plots, and monitoring crop growth and seed development. It includes post-harvest activities such as seed extraction, cleaning, grading, drying, and storage, ensuring the production of high-quality, viable, and disease-free vegetable seeds.

Scope

The scope covers the following :

- The scope covers seed production planning, isolation, pest control, harvesting, drying, cleaning, grading, and storage of vegetable seeds. It also includes monitoring germination and ensuring adherence to seed quality standards for various vegetable crops.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Floral biology in self- and cross-pollinated species.
- PC2.** Emasculation and hybridization techniques in different crops like Paddy, Tomato, Brinjal etc.
- PC3.** Selection methods in segregating populations and evaluation of breeding material.
- PC4.** Growing different genotypes of a crop using appropriate experimental design.
- PC5.** Harvesting of F1 seeds and check the hybrid (F1) fidelity using molecular markers.
- PC6.** DNA isolation, DNA purity and quantification tests.
- PC7.** DNA finger printing using PCR-based DNA markers.
- PC8.** Gel electrophoresis and scoring and data analysis for tagging and phylogenetic relationship.
- PC9.** Estimation of heterosis, inbreeding depression and heritability.
- PC10.** Learning techniques in hybrid seed production using male-sterility in field crops.
- PC11.** Male sterile line creation in crop plants, problems in creation of CGMS system, ways of overcoming them.
- PC12.** Use of standard MAS procedures- screening crops for resistant to different biotic and abiotic stress traits.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Different seed production techniques for vegetable crops (open-pollinated, hybrid, etc.).
- KU2.** Climatic and soil requirements for vegetable seed production.
- KU3.** Isolation distance and pollination control practices.
- KU4.** Standards for genetic and physical purity in vegetables.

Qualification Pack

- KU5.** Pest and disease management during seed growth stages.
- KU6.** Harvesting, drying, and threshing protocols for vegetables.
- KU7.** Grading, cleaning, and processing of vegetable seeds.
- KU8.** Safe storage practices specific to vegetable seed types.
- KU9.** Monitoring techniques for germination and viability.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Identify appropriate seed production methods for different vegetables.
- GS2.** Supervise field operations for seed crop cultivation.
- GS3.** Ensure compliance with isolation and purity standards.
- GS4.** Monitor plant growth, flowering, and seed formation stages.
- GS5.** Collect and record seed production data accurately.
- GS6.** Implement pest and disease control measures.
- GS7.** Supervise post-harvest handling, drying, and seed processing.
- GS8.** Maintain hygiene in seed storage areas.
- GS9.** Train farm workers on best practices.

Qualification Pack

CUTM/AGR/N0102: Identification of Seed production method, set-up storage and monitor for Cereal Crops

Description

This NOS focuses on identifying appropriate seed production techniques for cereal crops and managing their field-to-storage lifecycle. It includes monitoring purity, crop health, harvesting, processing, and storage to ensure high-quality cereal seed production.

Scope

The scope covers the following :

- Includes field-level planning and execution of seed production for cereals, post-harvest seed processing, and storage. Emphasis is placed on maintaining seed purity, documenting inspections, and ensuring storage conditions support long-term viability and certification compliance.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Selection of suitable areas/locations and seed/planting material for quality seed production.
- PC2.** Determination of planting ratios and practice on seed production of varieties for hybrid seed production of cereals and vegetables.
- PC3.** Study of floral biology of vegetable crops like Tomato, Brinjal and Okra.
- PC4.** Seed extraction methods and their effect on quality of vegetables.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Seed production techniques for cereals like wheat, rice, and maize.
- KU2.** Land preparation and sowing methods for cereals.
- KU3.** Genetic and physical purity standards for cereal seeds.
- KU4.** Foundation and certified seed production processes.
- KU5.** Crop monitoring during vegetative and reproductive stages.
- KU6.** Pest and disease management in cereal seed production.
- KU7.** Maturity indicators and harvesting methods.
- KU8.** Post-harvest processing techniques for cereal seeds.
- KU9.** Seed storage conditions (temperature, moisture).

Generic Skills (GS)

User/individual on the job needs to know how to:

Qualification Pack

- GS1.** Select and manage cereal seed production plots.
- GS2.** Monitor isolation distances and field inspections.
- GS3.** Supervise pre- and post-harvest operations.
- GS4.** Coordinate with quality testing labs or inspectors.
- GS5.** Maintain stock records and germination status.
- GS6.** Identify and eliminate off-types or diseased plants.
- GS7.** Plan resource and labor allocation.
- GS8.** Monitor environmental conditions for seed preservation.
- GS9.** Address operational issues and field challenges.

CUTM/AGR/N0103: Identification of Seed production method, set-up storage and monitor for Fruit types

Description

This NOS covers the techniques and processes involved in seed production of fruit crops, including seed extraction, post-harvest processing, quality control, and safe storage. It enables the production of viable, healthy, and true-to-type fruit seeds for propagation.

Scope

The scope covers the following :

- This NOS includes identification of fruit-specific seed production methods, setting up extraction and drying processes, and ensuring seed health during storage. It includes handling post-harvest challenges and monitoring quality to meet industry or certification standards.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Selection of suitable areas/locations and seed/planting material for quality seed production.
- PC2.** Determination of planting ratios and practice on seed production of varieties for hybrid Fruits.
- PC3.** Study of floral biology of fruit crops like Mango, Gua, and Avagoda.
- PC4.** Seed extraction methods and their effect on quality of Fruits.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Reproductive biology and pollination of fruit crops.
- KU2.** Seed extraction techniques for fleshy and dry fruits.
- KU3.** Isolation distance and plant spacing norms.
- KU4.** Climatic requirements and seasonality.
- KU5.** Harvesting indicators for different fruit seeds.
- KU6.** Extraction, fermentation, and drying procedures.
- KU7.** Pest, disease, and physiological disorder management.
- KU8.** Packaging and labeling of fruit seeds.
- KU9.** Seed treatment and storage techniques.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Select suitable fruit varieties for seed production.

Qualification Pack

- GS2.** Apply extraction and cleaning methods specific to fruit types.
- GS3.** Supervise safe fermentation and drying of extracted seeds.
- GS4.** Manage quality through visual and lab testing.
- GS5.** Ensure compliance with fruit seed storage protocols.
- GS6.** Train workers on harvesting and extraction.
- GS7.** Maintain accurate production and testing records.
- GS8.** Conduct regular seed quality checks.

CUTM/AGR/N0104: Seed Certification and Seed Quality Testing

Description

This NOS details the certification process and seed quality testing required for legal and marketable seed distribution. It ensures the seed meets the prescribed quality standards through systematic inspection, sampling, and documentation procedures.

Scope

The scope covers the following :

- Includes managing certification requirements from field to lab, ensuring seeds undergo proper testing and quality checks, and maintaining documentation for traceability and regulatory compliance. The role supports both seed producers and certification authorities in ensuring market-ready seeds.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Identification of weed and other crop seeds as per specific crops.
- PC2.** Field inspection at different stages of a crop.
- PC3.** Inspection and sampling at harvesting/threshing.
- PC4.** Inspection and sampling at processing and after processing.
- PC5.** Specifications for tags and labels to be used for certification purpose.
- PC6.** Varietal Identification through Grow Out Test.
- PC7.** Varietal Identification through Electrophoresis.
- PC8.** Molecular test for pre- and post-harvest quality control.
- PC9.** Biochemical test for pre- and post-harvest quality control.
- PC10.** Learn the seed sampling methods.
- PC11.** Physical Purity test.
- PC12.** Moisture test
- PC13.** Germination and Vigour test
- PC14.** Viability test
- PC15.** Control measures for stored grain disease and pest.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Seed certification stages (field inspection to final tagging).
- KU2.** Eligibility criteria and seed class definitions.
- KU3.** Testing protocols (germination, purity, moisture, seed health).
- KU4.** Field inspection procedures and documentation.

Qualification Pack

- KU5.** Seed sampling techniques and lab protocols.
- KU6.** Tagging, labeling, and bagging as per standards.
- KU7.** Importance of traceability and seed lot identification.
- KU8.** Certification agency roles and responsibilities.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Prepare documentation for seed certification.
- GS2.** Coordinate with inspectors and testing labs.
- GS3.** Follow SOPs for sampling and testing.
- GS4.** Record and report test results accurately.
- GS5.** Identify non-conforming lots and initiate corrective actions.
- GS6.** Ensure correct tagging and labeling of approved lots.
- GS7.** Assist in inspections and compliance checks.
- GS8.** Ensure packaging, labeling, and sealing as per certification norms.

Qualification Pack

CUTM/VSQ/N7801: Ensure organizational health, safety, and security

Description

This NOS focuses on maintaining workplace safety, health, and security by identifying hazards, following safety procedures, using personal protective equipment (PPE), and responding to emergencies. It ensures compliance with health and safety regulations, proper waste disposal, and adherence to security protocols to create a safe and productive work environment.

Scope

The scope covers the following :

- This NOS covers workplace hazard identification, adherence to safety regulations, proper use of personal protective equipment (PPE), emergency response, fire safety, first aid, and waste management. It also includes implementing security measures, ensuring workplace hygiene, and promoting a safety-conscious culture to prevent accidents and maintain a secure working environment.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** identify different kinds of possible hazards at the workplace hazards: environmental, personal, ergonomic and chemical.
- PC2.** recognize other possible security issues existing in the workplace.
- PC3.** plan safety techniques for self and others.
- PC4.** recognize different measures to curb the hazards.
- PC5.** implement programs for health, safety and security of the people at the workplace.
- PC6.** communicate the safety plans to everyone at the workplace.
- PC7.** attach disciplinary rules with the implementation at the workplace.
- PC8.** comply with regulatory health and safety guidelines applicable to the workplace.
- PC9.** use and maintain protective equipment as per requirement in a production house.
- PC10.** ensure organizational activities in line with approved guidelines and procedures.
- PC11.** undertake and advise healthy lifestyle for self and others.
- PC12.** follow environment management system related procedures.
- PC13.** ensure safe handling and disposal of waste and debris.
- PC14.** minimize health and safety risks to self and others due to own actions.
- PC15.** monitor the workplace and work processes for potential risks and threats to self and others.
- PC16.** carry out periodic check to keep work area free from hazards and obstructions.
- PC17.** ensure participation of self and others in mock drills/ evacuation procedures organized at the workplace.
- PC18.** organize first aid, firefighting and emergency training sessions for others.
- PC19.** instruct and guide others to take action in the event of fire, emergencies or accidents.

Qualification Pack

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** safety guidelines, workplace policies, and compliance with national and industry safety standards.
- KU2.** common hazards such as electrical risks, fire, chemical exposure, and physical injuries.
- KU3.** different types of PPE (gloves, helmets, safety shoes, goggles) and their correct usage.
- KU4.** the proper handling, operation, and maintenance of workplace tools to prevent accidents.
- KU5.** Awareness of first aid procedures, fire evacuation plans, and emergency contact protocols.
- KU6.** fire hazards, fire extinguisher types, and safe fire-handling procedures in case of an incident.
- KU7.** the importance of keeping the workplace clean, organized, and free of potential hazards.
- KU8.** proper lifting posture, use of lifting tools, and avoiding strain-related injuries.
- KU9.** workplace security protocols, restricted areas, and unauthorized access prevention.
- KU10.** safe disposal methods for hazardous and non-hazardous materials to ensure environmental compliance.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** report safety concerns, follow instructions, and communicate hazards to supervisors and colleagues.
- GS2.** Identify workplace safety issues and taking appropriate actions to prevent accidents.
- GS3.** Handle safety-related measurements like voltage limits, weight capacity, and fire extinguisher ratings.
- GS4.** Ensure timely completion of tasks while following safety protocols and risk management procedures.
- GS5.** Work effectively with colleagues to maintain a safe and secure work environment.
- GS6.** Identify risks such as electrical shocks, fire, slippery surfaces, and chemical exposure in a workplace.
- GS7.** Ensure the safe use of machines, hand tools, and electrical equipment to prevent accidents.
- GS8.** Follow safety protocols, emergency procedures, and workplace safety policies.
- GS9.** do basic first aid techniques, fire safety procedures, and responding to workplace accidents.
- GS10.** Ensure proper disposal of hazardous and non-hazardous waste in compliance with environmental standards.

DGT/VSQ/N0102: Employability Skills (60 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Career Development & Goal Setting
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

- PC1.** identify employability skills required for jobs in various industries
- PC2.** identify and explore learning and employability portals

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

- PC3.** recognize the significance of constitutional values, including civic rights and duties, citizenship, responsibility towards society etc. and personal values and ethics such as honesty, integrity, caring and respecting others, etc.
- PC4.** follow environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

- PC5.** recognize the significance of 21st Century Skills for employment
- PC6.** practice the 21st Century Skills such as Self-Awareness, Behaviour Skills, time management, critical and adaptive thinking, problem-solving, creative thinking, social and cultural awareness, emotional awareness, learning to learn for continuous learning etc. in personal and professional life

Basic English Skills

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC7.** use basic English for everyday conversation in different contexts, in person and over the telephone
- PC8.** read and understand routine information, notes, instructions, mails, letters etc. written in English
- PC9.** write short messages, notes, letters, e-mails etc. in English

Career Development & Goal Setting

To be competent, the user/individual on the job must be able to:

- PC10.** understand the difference between job and career
- PC11.** prepare a career development plan with short- and long-term goals, based on aptitude

Communication Skills

To be competent, the user/individual on the job must be able to:

- PC12.** follow verbal and non-verbal communication etiquette and active listening techniques in various settings
- PC13.** work collaboratively with others in a team

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

- PC14.** communicate and behave appropriately with all genders and PwD
- PC15.** escalate any issues related to sexual harassment at workplace according to POSH Act

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

- PC16.** select financial institutions, products and services as per requirement
- PC17.** carry out offline and online financial transactions, safely and securely
- PC18.** identify common components of salary and compute income, expenses, taxes, investments etc
- PC19.** identify relevant rights and laws and use legal aids to fight against legal exploitation

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

- PC20.** operate digital devices and carry out basic internet operations securely and safely
- PC21.** use e- mail and social media platforms and virtual collaboration tools to work effectively
- PC22.** use basic features of word processor, spreadsheets, and presentations

Entrepreneurship

To be competent, the user/individual on the job must be able to:

- PC23.** identify different types of Entrepreneurship and Enterprises and assess opportunities for potential business through research
- PC24.** develop a business plan and a work model, considering the 4Ps of Marketing Product, Price, Place and Promotion
- PC25.** identify sources of funding, anticipate, and mitigate any financial/ legal hurdles for the potential business opportunity

Customer Service

To be competent, the user/individual on the job must be able to:

- PC26.** identify different types of customers
- PC27.** identify and respond to customer requests and needs in a professional manner.

Qualification Pack

PC28. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC29. create a professional Curriculum vitae (Résumé)

PC30. search for suitable jobs using reliable offline and online sources such as Employment exchange, recruitment agencies, newspapers etc. and job portals, respectively

PC31. apply to identified job openings using offline /online methods as per requirement

PC32. answer questions politely, with clarity and confidence, during recruitment and selection

PC33. identify apprenticeship opportunities and register for it as per guidelines and requirements

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills and different learning and employability related portals

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use English language for effective verbal (face to face and telephonic) and written communication in formal and informal set up

KU6. importance of career development and setting long- and short-term goals

KU7. about effective communication

KU8. POSH Act

KU9. Gender sensitivity and inclusivity

KU10. different types of financial institutes, products, and services

KU11. how to compute income and expenditure

KU12. importance of maintaining safety and security in offline and online financial transactions

KU13. different legal rights and laws

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Assessment Strategy

- Batches would be assigned to Assessment Agencies as per the sectors for conducting assessment on CUTM portal/SIDH portal or by email.
- Assessment agencies will have to give a confirmation regarding the assigned batches and share the particular Question set to AB.
- Assessment agency deploys the ToA certified Assessor for conducting the assessment from the pool of verified assessor by AB.
- AB will monitor the assessment process and keep the records online or offline (wherever needed)

2. Testing Environment:

Qualification Pack

- Check the Assessment location, date and time
- Maximum batch size will be of 30.
- Assessor will Check that the allotted time to the candidates to complete Theory & Practical Assessment is correct.
- Assessor will ensure all the equipment's and required materials are available at the testing centre.

3. Assessment Quality Assurance:

- Question bank is created by the Subject Matter Experts (SME) of Assessment Agencies verified by AB.
- Questions are mapped to the specified assessment criteria
- Assessor must be ToA certified & trainer must be ToT Certified
- Surprise visit would be done time to time.

4. Assessment Evidence collection:

- Geo tagged photographs of assessment sessions would be captured by the Assessor.
- Video call verification will be done by Centurion University during assessment and keep the recorded videos.

5. Minimum passing criteria

- 70% overall to pass.
- Minimum 70% in each NOS

6. Reassessment: Candidates failing the assessment will be given one opportunity for reassessment after additional training.

7. Assessor Details: ToA Certified Assessor with relevant experience

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Qualification Pack

Minimum Passing % at NOS Level: 70

(Please note: A Trainee must score the minimum percentage for each NOS separately as well as on the QP as a whole.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
