CUTM/AGR/Q0201: Post-harvest Commodity Test and Storage Supervisor

Brief Job Description

The Individual is responsible to plan post-harvest of different commodities, plan for Testing methods for product Certification, Monitor Pests and diseases in storage and their management, Grain deterioration and their management, Safe storage of fruits and vegetables, Hands-on practice on safe storage techniques.

Personal Attributes

A Post-Harvest Commodity Test and Storage Supervisor should be analytical, detail-oriented, and responsible. They must possess strong knowledge of post-harvest handling, storage systems, and disease prevention. Effective communication, decision-making skills, and the ability to implement quality standards are essential for ensuring the safety and longevity of agricultural produce.

Qualification Pack

CUTM/AGR/N0206: Suggest suitable post-harvest technology

Description

This NOS covers identifying and implementing appropriate post-harvest technologies to maintain the quality of agricultural commodities. It includes understanding maturity indices, selecting chemical and physical treatment methods, ensuring proper storage conditions, and using modern preservation techniques to minimize losses and enhance market value.

Scope

The scope covers the following :

- The scope of this NOS includes evaluating commodity ripeness, applying post-harvest treatments, and ensuring proper storage. It covers grading, sorting, packaging, and the application of preservation techniques such as controlled atmosphere storage, chemical treatment, and eco-friendly methods to extend shelf life and maintain quality.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Understand the composition and physiology of Fruits, Vegetables, Seeds and Grains.
- PC2.** Understand the maturity indices and factors related to ripening and quality of horticulture produce.
- PC3.** Clearly understand the application of chemicals used to control spoilage.
- PC4.** Understand detailed information on export-oriented quality grading of fruits and vegetables.
- PC5.** Knowledge on hurdle technologies and minimal processing.
- PC6.** Know post-harvest waste utilization and ecofriendly packaging techniques.
- PC7.** Know about application of waxing, absorbers and scrubbers.
- PC8.** Understand the working and factors related to Cellar storage, Cold storage, MAP, CAS and Hypobaric storage system.
- PC9.** Design and construct Zero Energy Cooling Chamber (ZECC) and knowledge of its working principle.
- PC10.** Understand the relation of data loggers (Time, temperature, relative humidity)
- PC11.** Know about different types of packaging materials and methods. Modern packaging systems.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the composition and physiology of fruits, vegetables, seeds, and grains.
- KU2.** maturity indices and factors affecting ripening and quality.
- KU3.** chemical treatments used to control spoilage and extend shelf life.
- KU4.** post-harvest biochemistry and its role in commodity preservation.

Qualification Pack

- KU5.** export-oriented quality grading standards for horticultural produce.
- KU6.** eco-friendly packaging methods and post-harvest waste utilization.
- KU7.** different post-harvest storage techniques such as cold storage and hypobaric storage.
- KU8.** modern packaging materials and techniques for commodity safety.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read and interpret post-harvest technology guidelines and research reports.
- GS2.** coordinate with farmers, suppliers, and storage facility managers.
- GS3.** address spoilage and pest-related issues in stored commodities.
- GS4.** select appropriate post-harvest treatments.
- GS5.** Plan and organize post-harvest processing activities to minimize losses.
- GS6.** Critically think to assess storage conditions and modify them for better efficiency.
- GS7.** use Analytical skills to evaluate test results and ensure compliance with quality standards.
- GS8.** do customer-centric approach in ensuring product quality meets consumer expectations.
- GS9.** work with teamwork and leadership skills to supervise workers in post-harvest operations.

CUTM/AGR/N0207: Suggest suitable storage methods

Description

This NOS covers selecting appropriate storage methods for different commodities, ensuring safe storage conditions, and minimizing losses. It involves applying modern and traditional storage techniques, controlling pests and moisture, and maintaining compliance with quality standards.

Scope

The scope covers the following :

- The scope includes evaluating commodity-specific storage requirements, implementing fumigation techniques, controlling environmental factors such as temperature and humidity, and ensuring safe handling practices. It also covers record-keeping, inventory management, and application of modern storage technologies.

Elements and Performance Criteria

Suggest suitable storage methods

To be competent, the user/individual on the job must be able to:

- PC1.** Suggest suitable storage methods for Vegetables.
- PC2.** Suggest suitable storage methods for Cereals.
- PC3.** Suggest suitable storage methods for Fruits.

Understanding the different seed borne pathogens associated with seeds

To be competent, the user/individual on the job must be able to:

- PC4.** Important seed-borne fungi, viruses, bacteria and nematode in storage condition.
- PC5.** Important micro-organisms infect seed in storage conditions and toxins produced by them.

Knowledge on various detection methods of seed borne pathogens and management

To be competent, the user/individual on the job must be able to:

- PC6.** Detection, Mechanism of transmission, and management of seedborne pathogen (special focus on stored seed pathogen)
- PC7.** Understand Chemical treatment procedure and Equipment used for seed treatment.
- PC8.** Management of seed-borne disease in an organic manner.
- PC9.** Quarantine
- PC10.** Seed certification standards.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** different storage methods for vegetables, cereals, and fruits.
- KU2.** storage conditions required for different commodity types.
- KU3.** pest infestation risks and preventive measures in storage.

Qualification Pack

- KU4.** fumigation and controlled storage techniques.
- KU5.** microbial contamination risks in storage.
- KU6.** humidity and temperature control measures in storage facilities.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read and interpret storage guidelines and safety protocols.
- GS2.** coordinate with warehouse staff and suppliers.
- GS3.** Take decision-making in selecting the most suitable storage methods for different commodities.
- GS4.** Plan and organize storage activities efficiently.
- GS5.** Use analytical skills to assess storage conditions and suggest improvements.

CUTM/AGR/N0208: Management of diseases affecting seed.

Description

This NOS covers the identification, prevention, and management of diseases affecting stored seeds. It includes seed treatment methods, quarantine measures, integrated disease management, and ensuring compliance with seed health regulations. The focus is on maintaining seed viability, quality, and safety for long-term storage and distribution.

Scope

The scope covers the following :

- The scope includes monitoring seed-borne diseases, applying biological and chemical treatments, implementing sanitation practices, and ensuring compliance with phytosanitary regulations. It also covers seed health testing, record-keeping, and integrating disease-resistant seed varieties to enhance storage quality and reduce post-harvest losses.

Elements and Performance Criteria

Understanding the different insect-pests and non-insect-pests associated with stored commodities

To be competent, the user/individual on the job must be able to:

PC1. Important stored grain pests (Various internal and External Feeders), Management Practices.

PC2. Non-Insect pests and Their management practices.

Knowledge on various detection methods of Hidden infestation

To be competent, the user/individual on the job must be able to:

PC3. Detection, Mechanism of Chitosan Tests.

PC4. Ninhydrin Tests for pests' infestation detection.

PC5. Preparation of Baits for various species of rodents.

PC6. Quarantine

PC7. Safe storage structures for the long-term storage of Seeds.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. common seed-borne diseases and their impact on seed quality.

KU2. factors contributing to seed infections, such as humidity, temperature, and storage conditions.

KU3. biological, chemical, and physical seed treatment methods.

KU4. quarantine regulations and phytosanitary measures for disease prevention.

KU5. seed certification standards and legal compliance for seed storage and distribution.

Generic Skills (GS)

User/individual on the job needs to know how to:

Qualification Pack

- GS1.** coordinate with farmers, suppliers, and seed storage facility staff.
- GS2.** read and interpret disease management protocols and seed health regulations.
- GS3.** evaluate different disease management techniques and their effectiveness.
- GS4.** Use Analytical skills to assess seed health test results and take corrective actions.
- GS5.** adopt modern seed treatment technologies and disease control methods.

CUTM/VSQ/N7804: Ensure organizational health, safety and security for self and others

Description

This NOS focuses on maintaining personal hygiene, workplace safety, and environmental responsibility. It outlines procedures for disease prevention, safe equipment handling, waste disposal, and emergency response. The standard ensures that individuals follow preventive measures and safety protocols to create a clean, hazard-free, and health-conscious work environment.

Scope

The scope covers the following :

- The scope covers adherence to sanitation and hygiene norms, safe use of tools and chemicals, proper waste management, first aid administration, and compliance with government and workplace advisories. It aims to prepare individuals to work safely under routine and emergency situations, reducing risks to themselves, coworkers, and the environment.

Elements and Performance Criteria

Maintain personal hygiene

To be competent, the user/individual on the job must be able to:

- PC1.** wash hands, legs and face with soap/alcohol based sanitizer at reasonable intervals
- PC2.** wash the worn clothes with soap and sundry before use next time
- PC3.** ensure the face is covered with mask or three layers of cloth-piece
- PC4.** follow the workplace sanitization norms including distancing from sick people

Maintain clean and safe workplace

To be competent, the user/individual on the job must be able to:

- PC5.** carry out basic safety checks before operation of all tools, implements, and machinery and report identified hazards to the supervisor
- PC6.** follow the instructions mentioned on the labels of chemicals/pesticides/fumigants etc to avoid hazards
- PC7.** sanitize equipment, tools and machinery before and after use
- PC8.** dispose waste safely and correctly in the designated area
- PC9.** work in a manner which minimizes environmental damage, ensuring all procedures and instructions for controlling risks are followed
- PC10.** follow government / workplace advisories in case of outbreak of any disease/disaster

Administer appropriate emergency procedures

To be competent, the user/individual on the job must be able to:

- PC11.** follow procedures for dealing with accidents, fires and emergencies, including communicating location and directions to the location of emergency, as per the workplace requirements

Qualification Pack

- PC12.** provide treatment appropriate to the patient's injuries in accordance with recognized first aid techniques
- PC13.** report details of first aid administered in accordance with workplace procedures

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Importance of personal hygiene in preventing infection and illness.
- KU2.** Use and effectiveness of masks and sanitizers.
- KU3.** Workplace safety norms, including sanitization and distancing practices.
- KU4.** Basic safety checks and hazard identification protocols.
- KU5.** Safe handling and usage instructions of chemicals and pesticides.
- KU6.** Procedures for cleaning and sanitizing tools and machinery.
- KU7.** Waste disposal methods and designated disposal areas.
- KU8.** Environmental safety practices and risk mitigation.
- KU9.** Government and workplace advisories related to health emergencies.
- KU10.** First aid techniques and workplace protocols for injury reporting.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Ability to follow hygiene and sanitization routines consistently.
- GS2.** Situational awareness to identify unsafe practices or potential hazards.
- GS3.** Communication skills to report hazards and emergencies accurately.
- GS4.** Decision-making during accidents or outbreaks.
- GS5.** Capability to use PPE and follow safety signs/instructions.
- GS6.** Time management in emergency response or first aid delivery.
- GS7.** Teamwork while maintaining workplace health and safety norms.
- GS8.** Basic technical skill to perform equipment safety checks.
- GS9.** Problem-solving in waste management and chemical handling.
- GS10.** Record-keeping for first aid and incident reporting.

DGT/VSQ/N0102: Employability Skills (60 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Career Development & Goal Setting
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

- PC1.** identify employability skills required for jobs in various industries
- PC2.** identify and explore learning and employability portals

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

- PC3.** recognize the significance of constitutional values, including civic rights and duties, citizenship, responsibility towards society etc. and personal values and ethics such as honesty, integrity, caring and respecting others, etc.
- PC4.** follow environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

- PC5.** recognize the significance of 21st Century Skills for employment
- PC6.** practice the 21st Century Skills such as Self-Awareness, Behaviour Skills, time management, critical and adaptive thinking, problem-solving, creative thinking, social and cultural awareness, emotional awareness, learning to learn for continuous learning etc. in personal and professional life

Basic English Skills

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC7.** use basic English for everyday conversation in different contexts, in person and over the telephone
- PC8.** read and understand routine information, notes, instructions, mails, letters etc. written in English
- PC9.** write short messages, notes, letters, e-mails etc. in English

Career Development & Goal Setting

To be competent, the user/individual on the job must be able to:

- PC10.** understand the difference between job and career
- PC11.** prepare a career development plan with short- and long-term goals, based on aptitude

Communication Skills

To be competent, the user/individual on the job must be able to:

- PC12.** follow verbal and non-verbal communication etiquette and active listening techniques in various settings
- PC13.** work collaboratively with others in a team

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

- PC14.** communicate and behave appropriately with all genders and PwD
- PC15.** escalate any issues related to sexual harassment at workplace according to POSH Act

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

- PC16.** select financial institutions, products and services as per requirement
- PC17.** carry out offline and online financial transactions, safely and securely
- PC18.** identify common components of salary and compute income, expenses, taxes, investments etc
- PC19.** identify relevant rights and laws and use legal aids to fight against legal exploitation

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

- PC20.** operate digital devices and carry out basic internet operations securely and safely
- PC21.** use e- mail and social media platforms and virtual collaboration tools to work effectively
- PC22.** use basic features of word processor, spreadsheets, and presentations

Entrepreneurship

To be competent, the user/individual on the job must be able to:

- PC23.** identify different types of Entrepreneurship and Enterprises and assess opportunities for potential business through research
- PC24.** develop a business plan and a work model, considering the 4Ps of Marketing Product, Price, Place and Promotion
- PC25.** identify sources of funding, anticipate, and mitigate any financial/ legal hurdles for the potential business opportunity

Customer Service

To be competent, the user/individual on the job must be able to:

- PC26.** identify different types of customers
- PC27.** identify and respond to customer requests and needs in a professional manner.

Qualification Pack

PC28. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC29. create a professional Curriculum vitae (Résumé)

PC30. search for suitable jobs using reliable offline and online sources such as Employment exchange, recruitment agencies, newspapers etc. and job portals, respectively

PC31. apply to identified job openings using offline /online methods as per requirement

PC32. answer questions politely, with clarity and confidence, during recruitment and selection

PC33. identify apprenticeship opportunities and register for it as per guidelines and requirements

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills and different learning and employability related portals

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use English language for effective verbal (face to face and telephonic) and written communication in formal and informal set up

KU6. importance of career development and setting long- and short-term goals

KU7. about effective communication

KU8. POSH Act

KU9. Gender sensitivity and inclusivity

KU10. different types of financial institutes, products, and services

KU11. how to compute income and expenditure

KU12. importance of maintaining safety and security in offline and online financial transactions

KU13. different legal rights and laws

KU14. different types of digital devices and the procedure to operate them safely and securely

KU15. how to create and operate an e- mail account and use applications such as word processors, spreadsheets etc.

KU16. how to identify business opportunities

KU17. types and needs of customers

KU18. how to apply for a job and prepare for an interview

KU19. apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. read and write different types of documents/instructions/correspondence

GS2. communicate effectively using appropriate language in formal and informal settings

Qualification Pack

- GS3.** behave politely and appropriately with all
- GS4.** how to work in a virtual mode
- GS5.** perform calculations efficiently
- GS6.** solve problems effectively
- GS7.** pay attention to details
- GS8.** manage time efficiently
- GS9.** maintain hygiene and sanitization to avoid infection

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Assessment System Overview:

- Batches assigned to the assessment agencies for conducting the assessment on SIDH or email
- Assessment agencies send the assessment confirmation to TP looping AB/AA to accept in SIDH
- Assessment agency deploys the ToA certified Assessor for executing the assessment
- AB monitors the assessment process & records

2. Testing Environment:

- Check the Assessment location, date and time
- If the batch size is more than 30, then there should be 2 Assessors.
- Check that the allotted time to the candidates to complete Theory & Practical Assessment is correct.

Qualification Pack

3. Assessment Quality Assurance levels/Framework:

- Question bank is created by the Subject Matter Experts (SME) are verified by the AB
- Questions are mapped to the specified assessment criteria.
- Assessor must be ToA certified & trainer must be ToT Certified

4. Types of evidence or evidence-gathering protocol:

- Time-stamped & geotagged reporting of the assessor from assessment location.
- Centre photographs with signboards and scheme specific branding
- Video Call verification/online proctoring will be done during the assessment from AB.

5. Method of verification or validation:

- Surprise visit to the assessment location

6. Minimum Percentage Required

- 70% overall to pass.
- Minimum 70% in each NOS

7. Reassessment: Candidates failing the assessment will be given one opportunity for reassessment after additional training.

8. Assessor Details: ToA Certified Assessor with relevant experience.

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Minimum Passing % at NOS Level: 70

(Please note: A Trainee must score the minimum percentage for each NOS separately as well as on the QP as a

Qualification Pack

whole.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
