G&J/Q1701: Wax Setter

Brief Job Description

The individual works with various hand tools to set diamonds and / or gemstones in the wax piece or wax model as per design. They are responsible for delivering levelled, damage-free and securely-set wax pieces.

Personal Attributes

The job requires the individual to have attention to detail, good eyesight, steady grip and ability to work in a process driven setup. The individual is expected to have a high level of integrity.

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [G&J/N1701: Set diamond and stones in the wax models](#)
2. [G&J/N9902: Maintain health and safety at workplace](#)
3. [G&J/N9949: Follow material and energy conservation practices at workplace](#)
4. [DGT/VSQ/N0101: Employability Skills \(30 Hours\)](#)

Qualification Pack

G&J/N1701: Set diamond and stones in the wax models

Description

This OS unit is about setting diamonds and gemstones in the wax pieces or models by using various hand tools.

Scope

The scope covers the following :

- This unit/task covers the following
- Verifying the raw materials
- Prepare each wax piece before stone setting
- Setting the diamonds and / or gemstones in the wax piece
- Achieving productivity
- Achieving quality standards

Elements and Performance Criteria

Verifying the raw materials

To be competent, the user/individual on the job must be able to:

- PC1.** identify the required raw materials like diamonds and / or gemstones of required cut, shape, quantity and weights etc., specified on the job sheet or skeletal diagram
- PC2.** match the size of diamonds and / or gemstones received against the requirement

Prepare each wax piece before stone setting

To be competent, the user/individual on the job must be able to:

- PC3.** check all wax pieces for signs of defects, which might get reflected in the metal jewellery piece during casting
- PC4.** segregate the defective pieces for rejection or repair in consultation with the supervisor
- PC5.** prepare the wax piece by cleaning the excess wax, making precut in prongs or channels for secure setting of stones

Setting the diamonds and/ or gemstones in the wax piece

To be competent, the user/individual on the job must be able to:

- PC6.** select tools, materials and equipment in accordance with the type of stone setting technique, shape or size of stone to be set etc.
- PC7.** set the stones i.e. diamond or gemstone of different sizes in various styles like prong, channel, bead, flush, bezel, pave, micro-pave, invisible etc., as mentioned in the skeletal diagram, using appropriate tools
- PC8.** use the appropriate soldering or locking technique to secure the diamonds and / or gemstones in the wax pieces
- PC9.** inspect the stone set wax piece for various quality defects like uneven stone level, gap between stones, prong-overlapping etc.
- PC10.** repair the observed defects and finish the piece

Achieving productivity

Qualification Pack

To be competent, the user/individual on the job must be able to:

- PC11.** organize the work station, machine and tools
- PC12.** ensure timely delivery of stone set wax pieces to enable the commencement of wax tree-making process
- PC13.** set number of stones per day against the target given
- PC14.** update the supervisor on the work completion status at the end of shift

Achieving quality standards

To be competent, the user/individual on the job must be able to:

- PC15.** handle diamonds and gemstones with care to avoid their loss during setting
- PC16.** inspect the stone set wax piece thoroughly before sending for quality check
- PC17.** rework as per quality control authorities' feedback on the defective stone set wax pieces
- PC18.** deliver zero defect stone set wax pieces for the next level of processing

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** company's policies on acceptable limits of quality, delivery standards, safety practices and hazard, security and performance measurements
- KU2.** importance of non-disclosure of "confidential information" provided by the company either orally or in writing marked as confidential
- KU3.** liability arising out of loss, theft, or inadvertent disclosure of confidential information
- KU4.** work flow involved in jewellery manufacturing process of the company
- KU5.** importance of the individual's role in the workflow
- KU6.** the reporting structure
- KU7.** different types of basic and advance stone setting techniques for diamond and gemstones such as pave, micro- pave, channel, invisible, etc.
- KU8.** how to solder or melt prong accurately in order to fix the stones securely without damaging the stone
- KU9.** use of different types of tools used for cleaning and setting wax piece like 10X loupe, 5X optivisor, burrs etc.,
- KU10.** maintenance of tools for cleaning and setting wax piece
- KU11.** types of wax and their properties
- KU12.** mismatch of stone colour, size & weight with respect to job sheet or skeletal diagram

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** fill the requisition slip for tools and materials required
- GS2.** read job sheets
- GS3.** read company rules and compliance documents
- GS4.** read and understand nondisclosure policies of the company

Qualification Pack

- GS5.** read accurately the dimensions while measuring ring size or prong height using appropriate gauge
- GS6.** share work load as required
- GS7.** follow supervisor's instructions
- GS8.** report to the supervisor about mismatch and shortage in diamonds
- GS9.** decide on the proper size of the diamonds before carrying out setting
- GS10.** organize required toolkit at the work bench for better time management
- GS11.** improvise upon the efficiency, based on past work experience and guidance from supervisor

G&J/N9902: Maintain health and safety at workplace

Description

This OS unit is about being aware of, communicating and taking steps towards minimizing potential hazards and dangers of accidents on the job and maintaining health and safety at workplace.

Scope

The scope covers the following :

- This unit/task covers the following:
- Health and safety in work area
- Fire safety
- Emergencies, rescue and first aid procedures

Elements and Performance Criteria

Health and safety in work area

To be competent, the user/individual on the job must be able to:

- PC1.** identify and use appropriate protective clothing/equipment for specific tasks and work
- PC2.** identify hazardous job activities in his/her job and communicate the possible causes of risks or accidents in the workplace
- PC3.** carry out safe working practices while dealing with hazards to ensure safety of self and others
- PC4.** identify and avoid doing any tasks or activities in a wrong posture
- PC5.** practice appropriate working postures to minimise occupational health related issues

Fire safety

To be competent, the user/individual on the job must be able to:

- PC6.** use the appropriate fire extinguishers on different types of fire
- PC7.** demonstrate rescue techniques applied during fire hazard
- PC8.** demonstrate good housekeeping in order to prevent fire hazards
- PC9.** demonstrate the correct use of any fire extinguisher

Emergencies, rescue and first aid procedures

To be competent, the user/individual on the job must be able to:

- PC10.** administer appropriate first aid procedure to victims wherever required eg.in case of bleeding, burns, choking, electric shock etc.
- PC11.** respond promptly and appropriately to an accident or medical emergency
- PC12.** participate in emergency procedures such as raising alarm, safe evacuation, correct means of escape, correct assembly point etc.,

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

Qualification Pack

- KU1.** company's policies on: safety and hazards and personnel management
- KU2.** names and location of documents that refer to health and safety in work place
- KU3.** reporting structure
- KU4.** meaning of hazards and risks
- KU5.** health and safety hazards commonly present in the work place and related precautions
- KU6.** various dangers associated with use of electrical equipment
- KU7.** preventative and remedial actions to be taken in case of exposure to toxic material
- KU8.** methods of accident prevention
- KU9.** how different chemicals react and the related hazards
- KU10.** how to use machines and tools without causing any accident
- KU11.** importance of using protective clothing/ equipment while working
- KU12.** precautionary activities to prevent the fire accident
- KU13.** various causes of fire
- KU14.** techniques of using different fire extinguishers
- KU15.** different materials used for extinguishing fire
- KU16.** rescue techniques applied during a fire hazard
- KU17.** various types of safety signs and their meaning
- KU18.** appropriate basic first aid treatment relevant to different condition e.g. bleeding, minor burns, eye injuries etc.,
- KU19.** casualty lifting in case of an accident caused to a person

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read and comprehend basic content to read labels, charts, signages
- GS2.** read and comprehend basic english to read manuals of operations
- GS3.** communicate effectively the risk of not following safety measures
- GS4.** respond to emergencies/accidents, by taking an appropriate and timely decision
- GS5.** organize work schedule, work area, tools, equipment and material to minimize health and safety risk
- GS6.** ensure appropriate action in case of any emergencies, accidents or fire at the work location
- GS7.** analyze untoward incidents from the past and implement correct use of machines, tools or hazardous chemicals
- GS8.** critically analyze the processes carried out by self and colleagues in the department to spot potential hazards and safety issues

G&J/N9949: Follow material and energy conservation practices at workplace

Description

This OS unit is about adopting sustainable practices and optimizing use of resources, especially material, energy and waste, in day-to-day operations at work.

Scope

The scope covers the following :

- Material conservation practices at workplace
- Energy/electricity conservation practices at workplace

Elements and Performance Criteria

Material conservation practices at workplace

To be competent, the user/individual on the job must be able to:

- PC1.** identify ways to optimize usage of material including water in various activities and processes
- PC2.** check for spills/leakages in various activities and processes
- PC3.** plug spills/leakages and escalate the issue to appropriate authority if unable to rectify
- PC4.** carry out routine cleaning of tools, machines and equipment

Energy/electricity conservation practices at workplace

To be competent, the user/individual on the job must be able to:

- PC5.** identify ways to optimize usage of electricity/energy in various activities and processes
- PC6.** check if the equipment/machine is functioning normally before starting work and rectify the issues wherever required
- PC7.** report malfunctioning (fumes/sparks/emission/vibration/noise) of the equipment/machine and delay in maintenance of equipment
- PC8.** check electrical equipment and appliances are properly connected and turned off when not in use

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** company's policies on material and energy conservation practices
- KU2.** potential hazards and risks involved in the work
- KU3.** layout of the workstation and electrical and thermal equipment used as required
- KU4.** ways of efficient material management including water
- KU5.** basics of electricity and prevalent energy efficient devices
- KU6.** common practices of conserving electricity

Qualification Pack

- KU7.** safety precautions (electric and mechanical isolation) before starting any maintenance activity on machine/equipment.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read Standard Operating Procedure(SOP) documents
- GS2.** communicate effectively about material and energy conservation practices to others
- GS3.** make timely communication for the decisions to be taken at work
- GS4.** complete tasks efficiently and accurately within stipulated time
- GS5.** critically analyze the processes carried out by self and colleagues in the department related to material and energy conservation
- GS6.** record observations on effect of material and energy conservation at workplace.
- GS7.** work with supervisors/team members to carry out related tasks

DGT/VSQ/N0101: Employability Skills (30 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

PC1. understand the significance of employability skills in meeting the job requirements

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

PC2. identify constitutional values, civic rights, duties, personal values and ethics and environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

PC3. explain 21st Century Skills such as Self-Awareness, Behavior Skills, Positive attitude, self-motivation, problem-solving, creative thinking, time management, social and cultural awareness, emotional awareness, continuous learning mindset etc.

Basic English Skills

To be competent, the user/individual on the job must be able to:

PC4. speak with others using some basic English phrases or sentences

Communication Skills

To be competent, the user/individual on the job must be able to:

PC5. follow good manners while communicating with others

PC6. work with others in a team

Qualification Pack

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

PC7. communicate and behave appropriately with all genders and PwD

PC8. report any issues related to sexual harassment

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

PC9. use various financial products and services safely and securely

PC10. calculate income, expenses, savings etc.

PC11. approach the concerned authorities for any exploitation as per legal rights and laws

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

PC12. operate digital devices and use its features and applications securely and safely

PC13. use internet and social media platforms securely and safely

Entrepreneurship

To be competent, the user/individual on the job must be able to:

PC14. identify and assess opportunities for potential business

PC15. identify sources for arranging money and associated financial and legal challenges

Customer Service

To be competent, the user/individual on the job must be able to:

PC16. identify different types of customers

PC17. identify customer needs and address them appropriately

PC18. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC19. create a basic biodata

PC20. search for suitable jobs and apply

PC21. identify and register apprenticeship opportunities as per requirement

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use basic spoken English language

KU6. Do and dont of effective communication

KU7. inclusivity and its importance

KU8. different types of disabilities and appropriate communication and behaviour towards PwD

KU9. different types of financial products and services

Qualification Pack

- KU10.** how to compute income and expenses
- KU11.** importance of maintaining safety and security in financial transactions
- KU12.** different legal rights and laws
- KU13.** how to operate digital devices and applications safely and securely
- KU14.** ways to identify business opportunities
- KU15.** types of customers and their needs
- KU16.** how to apply for a job and prepare for an interview
- KU17.** apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate effectively using appropriate language
- GS2.** behave politely and appropriately with all
- GS3.** perform basic calculations
- GS4.** solve problems effectively
- GS5.** be careful and attentive at work
- GS6.** use time effectively
- GS7.** maintain hygiene and sanitisation to avoid infection

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score the Recommended Pass % aggregate for the QP.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 50

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
