G&J/Q2301: Junior Jewellery Designer

Brief Job Description

The individual at work draws generic jewellery designs using basic stationery and measuring tools. They create different 2D designs as well as views of jewellery using computer graphics software and also prepare the design-specification sheet, which provides all the dimensions as well as other necessary details required for creating three-dimensional (3D) computer-aided design model and manufacturing of jewellery.

Personal Attributes

The job requires the individual to have good hand-eye coordination, visualization and attention to details.

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [G&J/N2301: Draw jewellery Designs](#)
2. [G&J/N9901: Respect and maintain IPR](#)
3. [G&J/N9949: Follow material and energy conservation practices at workplace](#)
4. [G&J/N9902: Maintain health and safety at workplace](#)
5. [DGT/VSQ/N0102: Employability Skills \(60 Hours\)](#)

Options(Not mandatory):

Option : Graphics Designer

Making jewellery designs and drawings using graphics software

1. [G&J/N2309: Create jewellery design using computer graphics](#)

Qualification Pack

G&J/N2301: Draw jewellery Designs

Description

This OS unit is about drawing generic jewellery designs and creating a design specification sheet.

Scope

The scope covers the following :

- Drawing generic jewellery designs
- Achieving quality standards
- Achieving Productivity

Elements and Performance Criteria

Drawing generic jewellery designs

To be competent, the user/individual on the job must be able to:

- PC1.** collate various design parameters in terms of concept, size, shape, measurement, gemstone placement, weight, material, basic costing calculation or any specific customer requirement, etc. from the design brief given by the senior designer, jewellery merchandiser, product development manager or customer
- PC2.** report any issues related to design concept clarity, measurement, and practicality to senior designer
- PC3.** determine various design aspects like trend, aesthetics, composition, dimensions, ergonomic, technology, manufacturing process, linking and locking or closing mechanism, etc. through self-research or in consultation with the senior designer
- PC4.** draw generic jewellery designs or sketches using various form generation methodologies, decorative elements like filigree, miligrain, etc. and design manipulation techniques like repetition, rotation, overlapping, compression, etc., using standard designing tools and stationery
- PC5.** draw technical drawings of the jewellery in different views like orthographic view, isometric views, etc. along with diamonds and or gemstones of different number, shape, size in different basic stone setting style
- PC6.** render jewellery designs using dry media for realistic depiction of the metals, gemstones, surface finish and texture using various light, shadow and gradation techniques
- PC7.** prepare design specification sheet for the information about measurements of jewellery product like bangle diameter, bracelet length, etc., about diamonds and gemstones in terms of number, size etc., about precious metals like weight, Karat etc.,
- PC8.** maintain sketches, drawings and records of other related information in files shared by internal team or customer

Achieving quality standards

To be competent, the user/individual on the job must be able to:

- PC9.** check each design for the final look and various design parameters before final submission
- PC10.** rework as per the senior designer's feedback whenever required, based on inputs from marketing, merchandising, product development and production department

Qualification Pack

Achieving Productivity

To be competent, the user/individual on the job must be able to:

- PC11.** ensure timely delivery of jewellery designs or drawings to enable the commencement of computer-aided designing (CAD) process
- PC12.** create jewellery design or drawings as per target given
- PC13.** update the senior designer on work completion status

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** company's policies on acceptable limits of quality, delivery standards, safety practices and hazards, security and performance measurements
- KU2.** importance of non-disclosure of "confidential information" provided by the company either orally or in writing marked as confidential
- KU3.** work flow involved in jewellery manufacturing process of the company
- KU4.** importance of the individual's role in the workflow
- KU5.** reporting structure
- KU6.** basics of internet usage
- KU7.** various basic graphic designing softwares like CorelDraw, Photoshop, etc.
- KU8.** different types of jewellery products like rings, bracelets, pendants etc.
- KU9.** various physical properties like hardness, malleability, shrinkage factor of different fineness of precious metals like gold, silver, platinum etc.,
- KU10.** various types of diamonds and gemstones in terms of shape, size, cut, colour etc.
- KU11.** basic measuring system and units
- KU12.** various measuring tools like scale, vernier calliper and gauges like ring or bangle sizer etc.
- KU13.** various views, shapes or forms of day to day, geometric and organic objects
- KU14.** manufacturing drawing practices as per the company standards
- KU15.** different rendering tools and techniques used in Jewellery
- KU16.** various types of decorative techniques like filigree, miligrain, cameo, etc.
- KU17.** basic calculations in terms of calculating the final weight of the jewellery, count of the number of diamonds or gemstones, etc.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** write accurate design details in the design specification sheet e.g. ring size, the weight of diamonds and gemstones, karat of gold/silver, etc.
- GS2.** read notes, designs, and instructions shared by different internal teams
- GS3.** read company rules and compliance documents required to complete the work
- GS4.** read design, concept and software-related books

Qualification Pack

- GS5.** select the correct drawing tools and stationery for making necessary changes in the design for practicality and maintaining aesthetics of the jewellery design
- GS6.** share technical information clearly using appropriate language
- GS7.** visualize designs

G&J/N9901: Respect and maintain IPR

Description

This OS unit is about maintaining the company's confidentiality

Scope

The scope covers the following :

- Protecting company's Intellectual Property Rights (IPR)
- Maintain IPR of other companies

Elements and Performance Criteria

Protecting company's Intellectual Property Rights (IPR)

To be competent, the user/individual on the job must be able to:

- PC1.** identify the company's design patents, trademarks and copyrights for different products or product line
- PC2.** report any infringement observed in the company to concerned authorities or senior management

Maintain IPR of other companies

To be competent, the user/individual on the job must be able to:

- PC3.** interpret copyright clauses in the material published on the internet or any other printed material during the research
- PC4.** consult supervisor or senior management when in doubt about using publicly available information
- PC5.** report IPR violations observed in the market, to concerned authorities or company heads

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** company's policies on IPR and plagiarism
- KU2.** reporting structure
- KU3.** company's unique product range
- KU4.** various patents, trademarks, copyrights used in Jewellery industry
- KU5.** company's customer profile
- KU6.** industrial and political espionages

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate any observed case of IPR violations, effectively and timely

Qualification Pack

GS2. analyze references or information from various sources

G&J/N9949: Follow material and energy conservation practices at workplace

Description

This OS unit is about adopting sustainable practices and optimizing use of resources, especially material, energy and waste, in day-to-day operations at work.

Scope

The scope covers the following :

- Material conservation practices at workplace
- Energy/electricity conservation practices at workplace

Elements and Performance Criteria

Material conservation practices at workplace

To be competent, the user/individual on the job must be able to:

- PC1.** identify ways to optimize usage of material including water in various activities and processes
- PC2.** check for spills/leakages in various activities and processes
- PC3.** plug spills/leakages and escalate the issue to appropriate authority if unable to rectify
- PC4.** carry out routine cleaning of tools, machines and equipment

Energy/electricity conservation practices at workplace

To be competent, the user/individual on the job must be able to:

- PC5.** identify ways to optimize usage of electricity/energy in various activities and processes
- PC6.** check if the equipment/machine is functioning normally before starting work and rectify the issues wherever required
- PC7.** report malfunctioning (fumes/sparks/emission/vibration/noise) of the equipment/machine and delay in maintenance of equipment
- PC8.** check electrical equipment and appliances are properly connected and turned off when not in use

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** company's policies on material and energy conservation practices
- KU2.** potential hazards and risks involved in the work
- KU3.** layout of the workstation and electrical and thermal equipment used as required
- KU4.** ways of efficient material management including water
- KU5.** basics of electricity and prevalent energy efficient devices
- KU6.** common practices of conserving electricity

Qualification Pack

- KU7.** safety precautions (electric and mechanical isolation) before starting any maintenance activity on machine/equipment.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read Standard Operating Procedure(SOP) documents
- GS2.** communicate effectively about material and energy conservation practices to others
- GS3.** make timely communication for the decisions to be taken at work
- GS4.** complete tasks efficiently and accurately within stipulated time
- GS5.** critically analyze the processes carried out by self and colleagues in the department related to material and energy conservation
- GS6.** record observations on effect of material and energy conservation at workplace.
- GS7.** work with supervisors/team members to carry out related tasks

Qualification Pack

G&J/N9902: Maintain health and safety at workplace

Description

This OS unit is about being aware of, communicating and taking steps towards minimizing potential hazards and maintaining health and safety at workplace.

Scope

The scope covers the following :

- Health, hygiene and safety in work area
- Fire safety
- Emergencies, rescue and first aid procedures
- Waste management

Elements and Performance Criteria

Health, hygiene and safety in work area

To be competent, the user/individual on the job must be able to:

- PC1.** follow regular cleaning and disinfection practices at work place using appropriate techniques and materials
- PC2.** follow hand hygiene practices at work place using appropriate techniques and materials
- PC3.** follow alternative ways of conducting meeting and organizing event to ensure safety
- PC4.** follow contactless attendance system
- PC5.** report regarding the contagious illness of self or people in close contact
- PC6.** use appropriate protective clothing/ equipment for specific tasks
- PC7.** identify hazardous activities and the possible causes of risks or accidents in the workplace
- PC8.** follow safe working practices while dealing with hazards to ensure safety of self and others
- PC9.** maintain appropriate working postures to minimize occupational health related issues

Fire safety

To be competent, the user/individual on the job must be able to:

- PC10.** use appropriate type of fire extinguisher
- PC11.** apply appropriate rescue techniques during fire hazard
- PC12.** ensure good housekeeping in order to prevent fire hazards

Emergencies, rescue and first aid procedures

To be competent, the user/individual on the job must be able to:

- PC13.** provide appropriate first aid procedure to victims wherever required eg.in case of bleeding, burns, choking, electric shock etc.
- PC14.** respond promptly and appropriately to an accident or medical emergency.
- PC15.** follow emergency procedures such as raising alarm, safe evacuation etc.

Waste management

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC16.** identify recyclable, non-recyclable and hazardous waste
- PC17.** collect the segregated waste - at designated space
- PC18.** dispose non-recyclable waste appropriately and deposit recyclable and reusable material at identified location

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** company's policies on safety, hazards and personnel management
- KU2.** signages that refer to health and safety in work place
- KU3.** the reporting structure
- KU4.** health and safety hazards commonly present in the work place and related precautions
- KU5.** preventative and remedial actions to be taken in case of exposure to toxic material
- KU6.** methods of accident prevention
- KU7.** how different chemicals react and the related hazards
- KU8.** how to use machines and tools without causing any accident
- KU9.** importance of using protective clothing/ equipment while working
- KU10.** precautionary activities to prevent the fire accident
- KU11.** various causes of fire
- KU12.** techniques of using different fire extinguishers
- KU13.** different materials used for extinguishing fire
- KU14.** rescue techniques applied during a fire hazard
- KU15.** various types of safety signs and their meaning
- KU16.** appropriate basic first aid treatment relevant to different condition e.g. bleeding, minor burns, eye injuries etc.,
- KU17.** casualty lifting in case of an accident
- KU18.** usage of different colors of dustbins.
- KU19.** categorization of waste into dry, wet, recyclable, non-recyclable and items of single-use plastics.
- KU20.** waste management and methods of waste disposal.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read and comprehend labels, charts, signages
- GS2.** read and comprehend manuals of operations
- GS3.** communicate effectively, the risk of not following safety measures
- GS4.** respond to emergencies/accidents, by taking an appropriate and timely decision
- GS5.** organize work schedule, work area, tools, equipment and material to minimize health and safety risk

Qualification Pack

- GS6.** ensure appropriate action in case of any emergencies, accidents or fire at the work location
- GS7.** analyze untoward incidents from the past and follow correct procedures in handling machines, tools or hazardous chemicals
- GS8.** critically analyze the processes carried out by self and colleagues in the department to spot potential hazards and safety issues
- GS9.** record data on waste disposal at workplace.
- GS10.** complete statutory documents relevant to safety and hygiene.

DGT/VSQ/N0102: Employability Skills (60 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Career Development & Goal Setting
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

- PC1.** identify employability skills required for jobs in various industries
- PC2.** identify and explore learning and employability portals

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

- PC3.** recognize the significance of constitutional values, including civic rights and duties, citizenship, responsibility towards society etc. and personal values and ethics such as honesty, integrity, caring and respecting others, etc.
- PC4.** follow environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

- PC5.** recognize the significance of 21st Century Skills for employment
- PC6.** practice the 21st Century Skills such as Self-Awareness, Behaviour Skills, time management, critical and adaptive thinking, problem-solving, creative thinking, social and cultural awareness, emotional awareness, learning to learn for continuous learning etc. in personal and professional life

Basic English Skills

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC7.** use basic English for everyday conversation in different contexts, in person and over the telephone
- PC8.** read and understand routine information, notes, instructions, mails, letters etc. written in English
- PC9.** write short messages, notes, letters, e-mails etc. in English

Career Development & Goal Setting

To be competent, the user/individual on the job must be able to:

- PC10.** understand the difference between job and career
- PC11.** prepare a career development plan with short- and long-term goals, based on aptitude

Communication Skills

To be competent, the user/individual on the job must be able to:

- PC12.** follow verbal and non-verbal communication etiquette and active listening techniques in various settings
- PC13.** work collaboratively with others in a team

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

- PC14.** communicate and behave appropriately with all genders and PwD
- PC15.** escalate any issues related to sexual harassment at workplace according to POSH Act

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

- PC16.** select financial institutions, products and services as per requirement
- PC17.** carry out offline and online financial transactions, safely and securely
- PC18.** identify common components of salary and compute income, expenses, taxes, investments etc
- PC19.** identify relevant rights and laws and use legal aids to fight against legal exploitation

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

- PC20.** operate digital devices and carry out basic internet operations securely and safely
- PC21.** use e- mail and social media platforms and virtual collaboration tools to work effectively
- PC22.** use basic features of word processor, spreadsheets, and presentations

Entrepreneurship

To be competent, the user/individual on the job must be able to:

- PC23.** identify different types of Entrepreneurship and Enterprises and assess opportunities for potential business through research
- PC24.** develop a business plan and a work model, considering the 4Ps of Marketing Product, Price, Place and Promotion
- PC25.** identify sources of funding, anticipate, and mitigate any financial/ legal hurdles for the potential business opportunity

Customer Service

To be competent, the user/individual on the job must be able to:

- PC26.** identify different types of customers
- PC27.** identify and respond to customer requests and needs in a professional manner.

Qualification Pack

PC28. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC29. create a professional Curriculum vitae (Résumé)

PC30. search for suitable jobs using reliable offline and online sources such as Employment exchange, recruitment agencies, newspapers etc. and job portals, respectively

PC31. apply to identified job openings using offline /online methods as per requirement

PC32. answer questions politely, with clarity and confidence, during recruitment and selection

PC33. identify apprenticeship opportunities and register for it as per guidelines and requirements

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills and different learning and employability related portals

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use English language for effective verbal (face to face and telephonic) and written communication in formal and informal set up

KU6. importance of career development and setting long- and short-term goals

KU7. about effective communication

KU8. POSH Act

KU9. Gender sensitivity and inclusivity

KU10. different types of financial institutes, products, and services

KU11. how to compute income and expenditure

KU12. importance of maintaining safety and security in offline and online financial transactions

KU13. different legal rights and laws

KU14. different types of digital devices and the procedure to operate them safely and securely

KU15. how to create and operate an e- mail account and use applications such as word processors, spreadsheets etc.

KU16. how to identify business opportunities

KU17. types and needs of customers

KU18. how to apply for a job and prepare for an interview

KU19. apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. read and write different types of documents/instructions/correspondence

GS2. communicate effectively using appropriate language in formal and informal settings

Qualification Pack

- GS3.** behave politely and appropriately with all
- GS4.** how to work in a virtual mode
- GS5.** perform calculations efficiently
- GS6.** solve problems effectively
- GS7.** pay attention to details
- GS8.** manage time efficiently
- GS9.** maintain hygiene and sanitization to avoid infection

Qualification Pack

Assessment Criteria

Assessment Criteria for Outcomes	Theory Marks	Practical Marks	Project Marks	Viva Marks
<i>Introduction to Employability Skills</i>	1	1	-	-
PC1. identify employability skills required for jobs in various industries	-	-	-	-
PC2. identify and explore learning and employability portals	-	-	-	-
<i>Constitutional values – Citizenship</i>	1	1	-	-
PC3. recognize the significance of constitutional values, including civic rights and duties, citizenship, responsibility towards society etc. and personal values and ethics such as honesty, integrity, caring and respecting others, etc.	-	-	-	-
PC4. follow environmentally sustainable practices	-	-	-	-
<i>Becoming a Professional in the 21st Century</i>	2	4	-	-
PC5. recognize the significance of 21st Century Skills for employment	-	-	-	-
PC6. practice the 21st Century Skills such as Self-Awareness, Behaviour Skills, time management, critical and adaptive thinking, problem-solving, creative thinking, social and cultural awareness, emotional awareness, learning to learn for continuous learning etc. in personal and professional life	-	-	-	-
<i>Basic English Skills</i>	2	3	-	-
PC7. use basic English for everyday conversation in different contexts, in person and over the telephone	-	-	-	-
PC8. read and understand routine information, notes, instructions, mails, letters etc. written in English	-	-	-	-
PC9. write short messages, notes, letters, e-mails etc. in English	-	-	-	-
<i>Career Development & Goal Setting</i>	1	2	-	-

Qualification Pack

Assessment Criteria for Outcomes	Theory Marks	Practical Marks	Project Marks	Viva Marks
PC10. understand the difference between job and career	-	-	-	-
PC11. prepare a career development plan with short- and long-term goals, based on aptitude	-	-	-	-
<i>Communication Skills</i>	2	2	-	-
PC12. follow verbal and non-verbal communication etiquette and active listening techniques in various settings	-	-	-	-
PC13. work collaboratively with others in a team	-	-	-	-
<i>Diversity & Inclusion</i>	1	2	-	-
PC14. communicate and behave appropriately with all genders and PwD	-	-	-	-
PC15. escalate any issues related to sexual harassment at workplace according to POSH Act	-	-	-	-
<i>Financial and Legal Literacy</i>	2	3	-	-
PC16. select financial institutions, products and services as per requirement	-	-	-	-
PC17. carry out offline and online financial transactions, safely and securely	-	-	-	-
PC18. identify common components of salary and compute income, expenses, taxes, investments etc	-	-	-	-
PC19. identify relevant rights and laws and use legal aids to fight against legal exploitation	-	-	-	-
<i>Essential Digital Skills</i>	3	4	-	-
PC20. operate digital devices and carry out basic internet operations securely and safely	-	-	-	-
PC21. use e- mail and social media platforms and virtual collaboration tools to work effectively	-	-	-	-
PC22. use basic features of word processor, spreadsheets, and presentations	-	-	-	-

Qualification Pack

Assessment Criteria for Outcomes	Theory Marks	Practical Marks	Project Marks	Viva Marks
<i>Entrepreneurship</i>	2	3	-	-
PC23. identify different types of Entrepreneurship and Enterprises and assess opportunities for potential business through research	-	-	-	-
PC24. develop a business plan and a work model, considering the 4Ps of Marketing Product, Price, Place and Promotion	-	-	-	-
PC25. identify sources of funding, anticipate, and mitigate any financial/ legal hurdles for the potential business opportunity	-	-	-	-
<i>Customer Service</i>	1	2	-	-
PC26. identify different types of customers	-	-	-	-
PC27. identify and respond to customer requests and needs in a professional manner.	-	-	-	-
PC28. follow appropriate hygiene and grooming standards	-	-	-	-
<i>Getting ready for apprenticeship & Jobs</i>	2	3	-	-
PC29. create a professional Curriculum vitae (Résumé)	-	-	-	-
PC30. search for suitable jobs using reliable offline and online sources such as Employment exchange, recruitment agencies, newspapers etc. and job portals, respectively	-	-	-	-
PC31. apply to identified job openings using offline /online methods as per requirement	-	-	-	-
PC32. answer questions politely, with clarity and confidence, during recruitment and selection	-	-	-	-
PC33. identify apprenticeship opportunities and register for it as per guidelines and requirements	-	-	-	-

G&J/N2309: Create jewellery design using computer graphics

Description

This OS unit is about creating two-dimensional (2D) jewellery designs using computer graphics.

Scope

The scope covers the following :

- Creating 2D jewellery designs using graphics software
- Achieving quality standards
- Achieving Productivity

Elements and Performance Criteria

Creating 2D jewellery designs using graphics software

To be competent, the user/individual on the job must be able to:

- PC1.** create design layouts, element library using computer graphics software
- PC2.** draw various jewellery designs using design manipulation and rendering effects in computer graphics software
- PC3.** draw various views of jewellery in different projection methods in computer graphics software
- PC4.** maintain drawings and records of other related information in files shared by internal team or customer

Achieving quality standards

To be competent, the user/individual on the job must be able to:

- PC5.** check each design for the final look and various design parameters before final submission
- PC6.** rework as per the senior designer's feedback whenever required, based on inputs from marketing, merchandising, product development and production department

Achieving Productivity

To be competent, the user/individual on the job must be able to:

- PC7.** ensure timely delivery of jewellery designs or drawings to enable the commencement of computer-aided designing (CAD) process
- PC8.** create jewellery design or drawings as per target given
- PC9.** update the senior designer on work completion status

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** company's policies on acceptable limits of quality, delivery standards, safety practices and hazards, security and performance measurements
- KU2.** importance of non-disclosure of "confidential information" provided by the company either orally or in writing marked as confidential
- KU3.** work flow involved in jewellery manufacturing process of the company

Qualification Pack

- KU4.** importance of the individual's role in the workflow
- KU5.** reporting structure
- KU6.** basics of internet usage
- KU7.** various basic computer graphic designing softwares like CorelDraw, Photoshop, etc.
- KU8.** different types of jewellery products like rings, bracelets, pendants etc.
- KU9.** various physical properties like hardness, malleability, shrinkage factor of different fineness of precious metals like gold, silver, platinum etc.,
- KU10.** various types of diamonds and gemstones in terms of shape, size, cut, colour etc.
- KU11.** basic measuring system and units
- KU12.** various measuring tools like scale, vernier calliper and gauges like ring or bangle sizer etc.
- KU13.** various views, shapes or forms of day to day, geometric and organic objects
- KU14.** manufacturing drawing practices as per the company standards
- KU15.** different rendering tools and techniques used in Jewellery
- KU16.** various types of decorative techniques like filigree, miligrain, cameo, etc.
- KU17.** basic calculations in terms of calculating the final weight of the jewellery, count of the number of diamonds or gemstones, etc.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** write accurate design details in the design specification sheet e.g. ring size, the weight of diamonds and gemstones, karat of gold/silver, etc.
- GS2.** read notes, designs, and instructions shared by different internal teams
- GS3.** read company rules and compliance documents required to complete the work
- GS4.** read design, concept and software-related books
- GS5.** select the correct drawing tools and stationery for making necessary changes in the design for practicality and maintaining aesthetics of the jewellery design
- GS6.** share technical information clearly using appropriate language
- GS7.** visualize designs

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Individual assessment agencies will create theory question papers for candidates at every examination/training centre. (As per assessment criteria below).
4. Individual assessment agencies will create practical tests for skill evaluation for candidates at every examination/training centre. (As per assessment criteria below).

Qualification Pack

5. To pass the Qualification Pack, every candidate should score a minimum 70% to successfully clear the assessment.

6. In case of successfully passing only certain number of NOSs, the candidate is eligible to take subsequent assessment on the balance NOSs to pass the Qualification Pack.

Minimum Aggregate Passing % at QP Level : 50

(**Please note:** Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Assessment Weightage

Compulsory NOS

National Occupational Standards	Theory Marks	Practical Marks	Project Marks	Viva Marks	Total Marks	Weightage
G&J/N2301.Draw jewellery Designs	27	63	-	-	90	60
G&J/N9901.Respect and maintain IPR	6	6	-	-	12	10
G&J/N9949.Follow material and energy conservation practices at workplace	4	8	-	-	12	10
G&J/N9902.Maintain health and safety at workplace	18	32	-	-	50	10

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
