Qualification Pack

G&J/N6401: Sort gemstone roughs and mark for cutting

Description

This OS unit is about sorting and separating gemstones to achieve the best yield, cut and shape as per customers requirement and companys stone loss policy

Scope

The scope covers the following :

- This unit/task covers the following:
- Assorting gemstones and managing stone account
- Achieving productivity

Elements and Performance Criteria

Assorting gemstones and managing stone account

To be competent, the user/individual on the job must be able to:

- PC1.** match the stone type, weight and number as mentioned on the bag received
- PC2.** check customers order or managers processing requirement
- PC3.** sort the gemstones by colour, clarity, size, shape required
- PC4.** mark the assorted gemstones for cut as per customers requirement or the best yield possible
- PC5.** identify and mark inclusions to be removed
- PC6.** describe the marking and final outcome as desired by the customer to rough cutter
- PC7.** check calibration of roughs
- PC8.** count the assorted stones and put them in bags
- PC9.** label the bags and handover to assorting manager
- PC10.** deliver any damaged stones and maintain record
- PC11.** compare and identify the stone type, weight and number of stones received against those before returning
- PC12.** mark the roughs for cutting, to achieve maximum yield or as instructed matching customers requirement
- PC13.** mark the roughs for cutting, to achieve maximum yield or as instructed matching customers requirement
- PC14.** read and describe job at hand to rough cutter with accuracy
- PC15.** instruct about precautions to be taken to deliver the job at hand as planned
- PC16.** anticipate and alert about any disruptions

Achieving productivity

To be competent, the user/individual on the job must be able to:

- PC17.** deliver the number of assortments of roughs against target given
- PC18.** maintain stone loss as per companys prescribed limit
- PC19.** complete work as per customers satisfaction

Qualification Pack

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** company's policies on: acceptable limits of stone loss, incentives, delivery standards, safety and hazards, integrity and personnel management
- KU2.** non-disclosure of confidential information provided by the company either orally or in writing marked as confidential
- KU3.** liability arising out of loss, theft or inadvertent disclosure of confidential information
- KU4.** work flow involved in gemstone processing of company
- KU5.** importance of the individual's role in the workflow
- KU6.** reporting structure
- KU7.** the issuing and returning procedures followed by the company for rough gemstones
- KU8.** gemmology and properties of different types of stones
- KU9.** grading standards of gemstone roughs
- KU10.** calibration of gemstones
- KU11.** different types of stones such as precious, semi-precious, synthetic
- KU12.** market value of stone to understand the rationale for different acceptable levels of stone loss
- KU13.** origin of the stone, i.e., which mine, particularly, precious stones to read the softness/hardness as developed from precedence of use
- KU14.** different types of shapes and facets possible for different gemstones and the number of steps in shaping
- KU15.** processes of marking, cutting, doping, shaping, faceting and polishing of gemstones
- KU16.** the cutting saw works
- KU17.** different types of tools and machines used for sawing and what precautions are required in operating them in terms of desired outcome and safety
- KU18.** how to work in a safe environment, i.e., without injuries
- KU19.** accounting of stones and documentation
- KU20.** market trends and customer requirements

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** document work flow, quality standards and outcomes as per company policy
- GS2.** report stone losses via documentation as per company policy
- GS3.** read about different types of gemstones and their properties
- GS4.** read height, weight, dimensions of the stones as given on job sheets
- GS5.** read company rules and compliance documents required to complete the work
- GS6.** receive instruction from assorting manager about deliverables and work flow
- GS7.** interact with rough cutter and operations manager to discuss the plan

Qualification Pack

- GS8.** discuss with co-workers in other relevant department, about any practical difficulties that may arise in cutting the rough
- GS9.** give feedback to rough cutter or other department on handling of particular stone or order
- GS10.** give appropriate instructions and feedback to different levels of rough cutters
- GS11.** train on stone loss, productivity and correct steps to follow on the job
- GS12.** decide on marking the assorted gemstones for cut as per customers requirement or the best yield possible
- GS13.** create plans that are practical to execute in subsequent processes
- GS14.** sort gemstones based on plan or design on paper so that the worker can cut the stone for required shape
- GS15.** adhere to specification, as required by the customer
- GS16.** minimise stone loss below the prescribed limits
- GS17.** improve work processes for greater productivity
- GS18.** spot process disruption and reasons for delay

Qualification Pack

G&J/N9901: Coordinate with others

Description

This OS unit is about communicating with colleagues, seniors and outside parties in order to achieve the deliverables as per schedule

Elements and Performance Criteria

Interacting with supervisor

To be competent, the user/individual on the job must be able to:

- PC1.** coordinate for receiving work instructions and raw materials from reporting supervisor
- PC2.** communicate to the reporting supervisor about process flow improvements, product defects received from previous process, repairs and maintenance of tools and machinery as required
- PC3.** communicate to reporting supervisor about operation details and hazards
- PC4.** interact with supervisor regarding compliance of company policy and rules

Interacting with colleagues within and outside the department

To be competent, the user/individual on the job must be able to:

- PC5.** coordinate with colleagues to share work, as per the workload in order to achieve team goals
- PC6.** communicate and discuss work flow related difficulties in order to find solutions with mutual agreement
- PC7.** coordinate and receive feedback from quality control department
- PC8.** resolve conflicts by communicating with colleagues and other departments
- PC9.** communicate and discuss work coordinate with colleagues regarding multitasking in other departments with requirements

Interacting with outside parties

To be competent, the user/individual on the job must be able to:

- PC10.** adhere to nondisclosure policy of the company in all outside coordination

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** companys policies on: preferred language of communication, reporting and escalation policy, quality delivery standards and personnel management
- KU2.** companys policies on non-disclosure of confidential information provided by the company either orally or in writing marked as confidential
- KU3.** liability arising out of loss, theft or inadvertent disclosure of confidential information
- KU4.** reporting structure
- KU5.** various categories of people that one is required to communicate and coordinate within the organization
- KU6.** importance of effective communication in the workplace like expressing and addressing grievances appropriately and effectively
- KU7.** importance of teamwork in organization and individual success

Qualification Pack

- KU8.** various components of effective communication
- KU9.** barriers to effective communication
- KU10.** common reasons for interpersonal conflict
- KU11.** what constitutes disciplined behavior for a working professional

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** write instructions, remarks, job sheets, basic information, technical details etc. in preferred local language of communication and english
- GS2.** read preferred language of communication as prescribed by the company
- GS3.** read job sheets and interpret technical details mentioned in the job sheet
- GS4.** discuss task lists, schedules, and work-loads with co-workers
- GS5.** be a good listener
- GS6.** be effective in communicating the issues faced, to the supervisor
- GS7.** avoid using jargon, slang or acronyms when communicating
- GS8.** how to spot and communicate potential areas of disruptions in the work process and report the same
- GS9.** how to report supervisor or deal with a colleague individually, depending on the type of concern
- GS10.** how to plan work for maximum productivity
- GS11.** how to plan and organize the schedule for maintenance of tools and machines
- GS12.** how to convey accurate information to relevant internal as well as external customers
- GS13.** how to handle critical situations caused due to communication issues at workplace and solve problems without blaming others
- GS14.** how to analyse the work processes by interacting with others and adopting best practices
- GS15.** how to use prior experience to observe and reflect for development of ideas
- GS16.** how to think through the problem, evaluate the possible solution(s) and suggest an optimum /best possible solution(s)
- GS17.** how to deal with clients lacking the technical background to solve the problem on their own
- GS18.** how to spot process disruptions, delays and report and communicate with solutions
- GS19.** how to identify immediate or temporary solutions to resolve delays
- GS20.** how to apply, analyze and evaluate the information gathered from observation, experience, reasoning, or communication, as a guide to thought and action

G&J/N9902: Maintain health and safety at workplace

Description

This OS unit is about being aware of, communicating and taking steps towards minimizing potential hazards and dangers of accidents on the job and maintaining health and safety at workplace.

Elements and Performance Criteria

Health and safety in work area

To be competent, the user/individual on the job must be able to:

- PC1.** identify and use appropriate protective clothing/equipment for specific tasks and work
- PC2.** identify hazardous job activities in his/her job and communicate the possible causes of risks or accidents in the workplace
- PC3.** carry out safe working practices while dealing with hazards to ensure safety of self and others
- PC4.** identify and avoid doing any tasks or activities in a wrong posture
- PC5.** practice appropriate working postures to minimise occupational health related issues

Fire safety

To be competent, the user/individual on the job must be able to:

- PC6.** use the appropriate fire extinguishers on different types of fire
- PC7.** demonstrate rescue techniques applied during fire hazard
- PC8.** demonstrate good housekeeping in order to prevent fire hazards
- PC9.** demonstrate the correct use of any fire extinguisher

Emergencies, rescue and first aid procedures

To be competent, the user/individual on the job must be able to:

- PC10.** administer appropriate first aid procedure to victims wherever required eg.in case of bleeding, burns, choking, electric shock etc.
- PC11.** respond promptly and appropriately to an accident or medical emergency
- PC12.** participate in emergency procedures such as raising alarm, safe evacuation, correct means of escape, correct assembly point etc.,

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** companys policies on: safety and hazards and personnel management
- KU2.** names and location of documents that refer to health and safety in work place
- KU3.** reporting structure
- KU4.** meaning of hazards and risks
- KU5.** health and safety hazards commonly present in the work place and related precautions
- KU6.** various dangers associated with use of electrical equipment
- KU7.** preventative and remedial actions to be taken in case of exposure to toxic material

Qualification Pack

- KU8.** methods of accident prevention
- KU9.** how different chemicals react and the related hazards
- KU10.** how to use machines and tools without causing any accident
- KU11.** importance of using protective clothing/ equipment while working
- KU12.** precautionary activities to prevent the fire accident
- KU13.** various causes of fire
- KU14.** techniques of using different fire extinguishers
- KU15.** different materials used for extinguishing fire
- KU16.** rescue techniques applied during a fire hazard
- KU17.** various types of safety signs and their meaning
- KU18.** appropriate basic first aid treatment relevant to different condition e.g. bleeding, minor burns, eye injuries etc.,
- KU19.** casualty lifting in case of an accident caused to a person

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read and comprehend basic content to read labels, charts, signages
- GS2.** read and comprehend basic english to read manuals of operations
- GS3.** communicate effectively the risk of not following safety measures
- GS4.** respond to emergencies/accidents, by taking an appropriate and timely decision
- GS5.** organize work schedule, work area, tools, equipment and material to minimize health and safety risk
- GS6.** ensure appropriate action in case of any emergencies, accidents or fire at the work location
- GS7.** analyze untoward incidents from the past and implement correct use of machines, tools or hazardous chemicals
- GS8.** critically analyze the processes carried out by self and colleagues in the department to spot potential hazards and safety issues

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score the Recommended Pass % aggregate for the QP.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to

Qualification Pack

successfully clear the Qualification Pack assessment.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
