Qualification Pack

G&J/N7001: Pack gemstones, tag and label for dispatch

Description

This OS unit is about packing the polished and /or faceted gemstones for dispatch

Scope

This unit/task covers the following:-Packing and dispatching

Elements and Performance Criteria

Packing and dispatching

To be competent, the user/individual on the job must be able to:

- PC1.** make accurate assessment of gemstones matching with plan or order
- PC2.** make accurate and complete entry of details on tag and label as per company policy
- PC3.** pack jewellery as per company policy and securely
- PC4.** deliver in time to dispatch
- PC5.** enter dispatch details accurately

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** companys policies on: delivery standards, integrity and IPR, and personnel management
- KU2.** work flow involved in gemstone processing of company
- KU3.** importance of the individuals role in the workflow
- KU4.** reporting structure
- KU5.** different types of stones such as precious, semi-precious, synthetic
- KU6.** computer operations
- KU7.** exports and local destinations of the companys products
- KU8.** general product QC parameters
- KU9.** plan details and job sheet or order form information
- KU10.** Types of gemstones processed by the company

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** to read plan requirements
- GS2.** to read order form
- GS3.** to enter data on computer
- GS4.** to communicate effectively with customer, seniors and colleagues

Qualification Pack

- GS5.** to use software for generating tags, labels and barcode
- GS6.** to use MS Office tools for writing and recording
- GS7.** to import photograph in data bank and match
- GS8.** to inform superior about any mismatch of plan with processed gemstones
- GS9.** to assess value of the stones, destination and pack without damage to destination

G&J/N9920: Maintain IPR of company

Description

This OS unit is about protecting company's Intellectual Property Rights

Scope

This unit/task covers the following: Protect company's Intellectual Property Rights (IPR)

- to prevent leak of new designs/ plans to competitors by reporting on time
- to be aware of any of company's product, process or design patents
- to report IPR violations observed in the market, to supervisor or company heads

Elements and Performance Criteria

Reducing stone loss and maintaining IPR

To be competent, the user/individual on the job must be able to:

- PC1.** be aware of patents and IPR
- PC2.** not be involved in IPR violations

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** company's policies on: integrity, IPR and personnel management
- KU2.** work flow involved in gemstone processing of company
- KU3.** importance of the individual's role in the organisation
- KU4.** reporting structure
- KU5.** patents and IPR laws
- KU6.** how IPR protection is important for competitiveness of a company
- KU7.** market trends

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** effectively communicate any observed IPR violations or order leaks
- GS2.** when and how to report potential sources of violations
- GS3.** learn from past mistakes and report IPR violations on time
- GS4.** spot signs of violations and alert authorities in time

G&J/N9921: Coordinate with colleagues and seniors

Description

This OS unit is about communicating with colleagues and seniors in order to achieve smooth and hazard-free work flow

Scope

This unit/task covers the following: Interact with supervisor to:

- receive work instructions and raw materials from reporting supervisor
- communicate to reporting supervisor about process-flow improvements, product defects received from previous process, repairs and maintenance of tools and machinery as required
- communicate any potential hazards or expected process disruptions
- handover completed work to supervisor Interact with colleagues within and outside the department to:
 - work as a team with colleagues and share work as per their or own work load and skills
 - work with colleagues of other departments
 - communicate and discuss work flow related difficulties in order to find solutions with mutual agreement
- receive feedback from QC and rework in order to complete work on time

Elements and Performance Criteria

Interaction with supervisor

To be competent, the user/individual on the job must be able to:

PC1. understand the work output requirements

PC2. comply with company policy and rule

PC3. deliver quality work on time as required by reporting any anticipated reasons for delays

Interactions with colleagues and other departments

To be competent, the user/individual on the job must be able to:

PC4. put team over individual goals

PC5. resolve conflicts and multi-task

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. company's policies on personnel management

KU2. work flow involved in gemstone processing of company

KU3. importance of the individual's role in the workflow

KU4. reporting structure

KU5. communicate effectively

KU6. build team coordination

Qualification Pack

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** importance of sharing work load as required
- GS2.** significance of delivering product to next work process on time
- GS3.** potential areas of disruptions to work process and report the same
- GS4.** when to report to supervisor and when to deal with a colleague individually, depending on the type of concern
- GS5.** improve work processes
- GS6.** spot process disruptions and delays

G&J/N9924: Maintain safety at work

Description

This OS unit is about being aware of, communicating and taking steps towards minimizing potential hazards and dangers of accidents on the job and maintaining a clean work environment

Scope

This unit/task covers the following: Understand potential sources of accidents

- to avoid accidents related to use of potentially dangerous chemicals, sharp tools, hazards from machines such as laser sawyer, heating lamps, rotating scaife and lap Use safety gear to avoid accidents
- wear safety gear such as goggles, mask, gloves, ear plugs Keep the work environment clean and organized
- keep the work station, machine, tools clean
- keep all the tools in an organised manner
- not litter or spit on work premises Communicate to reporting supervisor about:
- process flow improvements that can reduce anticipated or repetitive hazards
- mishandling of tools, machines or hazardous materials
- electrical problems that could result in accident

Elements and Performance Criteria

Communicating potential accident points

To be competent, the user/individual on the job must be able to:

PC1. spot and report potential hazards on time

PC2. follow company policy and rules regarding use of hazardous materials

PC3. deliver quality work on time as required by reporting any anticipated reasons for delays

Using safety gear

To be competent, the user/individual on the job must be able to:

PC4. use or wear safety gear as per the rules of the company

Cleanliness and hygiene

To be competent, the user/individual on the job must be able to:

PC5. clean the work station

PC6. organise tools and equipment in use

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. companys policies on: stone collection, safety and hazards and personnel management

KU2. work flow involved in gemstone processing of company

KU3. importance of the individuals role in the workflow

Qualification Pack

KU4. reporting structure

KU5. how different chemicals react and the danger involved

KU6. how to use machines and tools without suffering bodily harm

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. effectively communicate the danger

GS2. keep all the tools in an organised manner so as to find them quickly

GS3. keep the work environment clean

GS4. report potential sources of danger

GS5. follow prescribed procedure in the event of an accident

GS6. avoid an accident by wearing appropriate safety gear

GS7. learn from past mistakes regarding use of hazardous machines or chemicals

GS8. spot dangers

GS9. organise tools so as the work process is smooth

GS10. report potential sources of danger

GS11. follow prescribed procedure in the event of an accident

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score the Recommended Pass % aggregate for the QP.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 50

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
