Qualification Pack

GNU/ASC/Q0601: Lead Technician - Mechatronics

Brief Job Description

A Diploma in Mechatronics Engineering is a specialized educational program that focuses on providing students with practical skills and theoretical knowledge related to various aspects of industrial automation processes and technologies.

Personal Attributes

Lead Technician - Mechatronics

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [GNU/ASC/N0601: HYDRAULIC & PNEUMATIC DEVICES](#)
2. [GNU/ASC/N0602: PROGRAMMABLE LOGIC CONTROLLER](#)
3. [GNU/ASC/N0603: QUALITY MANAGEMENT](#)
4. [GNU/ASC/N0604: EMPLOYABILITY SKILLS-3](#)
5. [GNU/ASC/N0605: ARDUINO PROGRAMING](#)
6. [GNU/ASC/N0606: MICROCONTROLLER PROGRAMMING](#)
7. [GNU/ASC/N0607: ROBOTICS](#)
8. [GNU/ASC/N0608: MACHINING SKILLS- CNC MILLING](#)
9. [GNU/ASC/N0609: MACHINING SKILLS - CNC TURNING](#)
10. [GNU/ASC/N0610: CAD \(3D\)](#)

Qualification Pack (QP) Parameters

Sector	Automotive
Sub-Sector	Mechatronics, Manufacturing
Occupation	Lead Technician Mechatronics, Assembly Lead Technician

Qualification Pack

Country	India
NSQF Level	4.5
Credits	40
Aligned to NCO/ISCO/ISIC Code	NCO-2015/3114.0100
Minimum Educational Qualification & Experience	Previous relevant Qualification of NSQF Level (Technician Mechatronics, Level-4)
Minimum Level of Education for Training in School	
Pre-Requisite License or Training	NA
Minimum Job Entry Age	17 Years
Last Reviewed On	NA
Next Review Date	27/08/2027
NSQF Approval Date	27/08/2024
Version	1.0
Reference code on NQR	QG-4.5-AU-02964-2024-V1-GU
NQR Version	1.0

Qualification Pack

GNU/ASC/N0601: HYDRAULIC & PNEUMATIC DEVICES

Description

Develop a comprehensive understanding of fluid power systems and their applications. Distinguish between hydraulic and pneumatic systems, and their uses in different contexts. Gain knowledge of the laws governing fluid flow and their practical implications. Understand the selection, maintenance, and troubleshooting of hydraulic and pneumatic components. Apply theoretical knowledge to practical scenarios in fluid power technology.

Scope

The scope covers the following :

- Lead Technician Mechatronics

Elements and Performance Criteria

Lead Technician Mechatronics

To be competent, the user/individual on the job must be able to:

PC1. Lead Technician Mechatronics

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. Lead Technician Mechatronics

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. Lead Technician Mechatronics

Qualification Pack

Assessment Criteria

Assessment Criteria for Outcomes	Theory Marks	Practical Marks	Project Marks	Viva Marks
<i>Lead Technician Mechatronics</i>	50	25	-	25
PC1. Lead Technician Mechatronics	-	-	-	-
NOS Total	50	25	-	25

Qualification Pack

National Occupational Standards (NOS) Parameters

NOS Code	GNU/ASC/N0601

Qualification Pack

GNU/ASC/N0602: PROGRAMMABLE LOGIC CONTROLLER

Description

Understand the fundamentals and history of Programmable Logic Controllers (PLCs). Gain knowledge of the various parts and types of PLCs and their applications. Learn about different types of PLC memory and Boolean logic rules. Explore the function, working, and applications of various sensors and switches. Develop practical skills in programming PLCs using ladder diagrams and different functions.

Scope

The scope covers the following :

- Lead Technician Mechatronics

Elements and Performance Criteria

Lead Technician Mechatronics

To be competent, the user/individual on the job must be able to:

PC1. Lead Technician Mechatronics

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. Lead Technician Mechatronics

Qualification Pack

GNU/ASC/N0603: QUALITY MANAGEMENT

Description

Quality management is a systematic approach to ensuring that products, services, and processes consistently meet or exceed customer expectations and organizational standards. The terminal outcomes of quality management reflect the goals and objectives of implementing effective quality control and assurance practices within an organization. Consistent Product Quality: Achieving a high level of consistency in product quality, where products meet defined specifications and standards in every production run. Customer Satisfaction: Ensuring that customers are consistently satisfied with the quality of products and services, leading to positive feedback, repeat business, and brand loyalty. Defect Reduction: Minimizing defects and non-conformities in products and processes through continuous improvement efforts, leading to improved efficiency and reduced waste.

Scope

The scope covers the following :

- Lead Technician Mechatronics

Elements and Performance Criteria

Lead Technician Mechatronics

To be competent, the user/individual on the job must be able to:

PC1. Lead Technician Mechatronics

Knowledge and Understanding (KU)

GNU/ASC/N0608: MACHINING SKILLS- CNC MILLING

Description

Terminal outcomes of Machining Skills - CNC Milling encompass the overall knowledge, skills, and competencies that students are expected to achieve by the end of the course. These outcomes reflect a comprehensive understanding of CNC milling processes, programming, and practical application. CNC Mill Setup and Operation Demonstrate proficiency in setting up and operating CNC milling machines, including loading tools, work piece clamping, and machine calibration. Tool Selection and Programming: Gain comprehensive knowledge of tool selection, cutting parameters, and CNC programming techniques for various milling operations.

Scope

The scope covers the following :

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Assessment System Overview:

- Batches assigned to the assessment agencies for conducting the assessment on SDMS/SIP or email
- Assessment agencies send the assessment confirmation to VTP/TC looping SSC
- Assessment agency deploys the ToA certified Assessor for executing the assessment
- SSC monitors the assessment process & records

2. Testing Environment:

- Confirm that the centre is available at the same address as mentioned on SDMS or SIP
- Check the duration of the training.
- Check the Assessment Start and End time to be as 10 a.m. and 5 p.m.

Qualification Pack

- If the batch size is more than 30, then there should be 2 Assessors.
- Check that the allotted time to the candidates to complete Theory & Practical Assessment is correct.
- Check the mode of assessment—Online (TAB/Computer) or Offline (OMR/PP).
- Confirm the number of TABs on the ground is correct to execute the Assessment smoothly.
- Check the availability of the Lab Equipment for the particular Job Role.

3. Assessment Quality Assurance levels / Framework:

- Question papers created by the Subject Matter Experts (SME)
- Question papers created by the SME verified by the other subject Matter Experts
- Questions are mapped with Semester-wise Curriculum.
- Question papers are prepared considering that level 1 to 3 are for the unskilled & semi-skilled individuals, and level 4 and above are for the skilled, supervisor & higher management
- Assessor must be ToA certified & trainer must be ToT Certified
- Assessment agency must follow the assessment guidelines to conduct the assessment

4. Types of evidence or evidence-gathering protocol:

- Time-stamped & geotagged reporting of the assessor from assessment location
- Centre photographs with signboards and scheme specific branding
- Biometric or manual attendance sheet (stamped by TP) of the trainees during the training period
- Time-stamped & geotagged assessment (Theory + Viva + Practical) photographs & videos

5. Method of verification or validation:

- Surprise visit to the assessment location
- Random audit of the batch
- Random audit of any candidate

6. Method for assessment documentation, archiving, and access

Qualification Pack

- Hard copies of the documents are stored
- Soft copies of the documents & photographs of the assessment are uploaded / accessed from Cloud Storage
- Soft copies of the documents & photographs of the assessment are stored in the Hard Drives

Minimum Aggregate Passing % at QP Level : 40

(**Please note:** Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
