Qualification Pack

HAR/ITS/Q0501: Hardware Peripheral and Installation Assistant

Brief Job Description

The Qualification provide comprehensive introduction to the IT basics, computer & peripheral installation, troubleshooting and maintenance including system maintenance and backup.

Personal Attributes

The person should have strong analytical and problem-solving skills to diagnose and fix hardware issues effectively. Good communication skills and patience are also essential for assisting users and troubleshooting issues effectively.

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [HAR/ITS/N0501: Fundamentals of Computer & Internet](#)
2. [HAR/ITS/N0502: Introduction to MS-Office](#)
3. [HAR/ITS/N0503: Basic Electronics \(45 hrs\)](#)
4. [HAR/ITS/N0506: Computer Hardware & Peripheral \(45 hrs\)](#)
5. [HAR/ITS/N0505: Operating System \(30 hrs\)](#)
6. [DGT/VSQ/N0102: Employability Skills \(60 Hours\)](#)

HAR/ITS/N0501: Fundamentals of Computer & Internet

Description

Provides comprehensive introduction to essential computing concepts and internet skills.

Scope

The scope covers the following :

- Learners acquire with basic computer operations, essential software, and internet usage, including browsing, email, and online safety. It aims to build digital literacy for personal and professional applications.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Define computer, its components and applications
- PC2.** Define and differentiate between types of memories
- PC3.** Explain the use of internet for various purpose like searching, downloading, uploading, email etc.
- PC4.** Recognize the various security and privacy issues on internet and safety measures
- PC5.** Explain various e-Governance and digital financial services provided through internet

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Objective of the organization and Scope of work assigned.
- KU2.** Basics of computers ,its component and troubleshooting
- KU3.** The working in Windows environment and using essential softwares
- KU4.** Internet browsing and searching techniques
- KU5.** To apply digital tools effectively and responsibly in organizational and personal settings.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Perform basic computer operations and software tools.
- GS2.** To read and interpret technical instructions effectively.
- GS3.** Write and manage professional communications via email in a clear and effective manner.
- GS4.** Ensuring accuracy in tasks like data entry or troubleshooting.
- GS5.** Clear and effective exchange of ideas or instruction with team members

HAR/ITS/N0502: Introduction to MS-Office

Description

Provides foundational skills in the applications of Word, Excel, and PowerPoint.

Scope

The scope covers the following :

- Prepares students to effectively utilize MS-Office tools for document creation, data analysis, and professional presentations.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Explain the various features and tools used in MS-office
- PC2.** Create, edit, format, save and open document.
- PC3.** Insert and work with tables, graphics and charts
- PC4.** Create and manage data in spreadsheet
- PC5.** Define and apply basic formulas & functions in Excel
- PC6.** Create effective presentation by inserting objects and applying animations in slides.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** The objective and goals of Organization and scope of work assigned.
- KU2.** The use of Word, Excel, and PowerPoint for document creation, data analysis, and presentations.
- KU3.** Document formatting, Accurate data analysis, and visually appealing presentations as part of workplace tasks.
- KU4.** Saving, sharing, and organizing MS Office files

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Analyze issues and find effective solutions
- GS2.** Efficiently prioritizing tasks to meet deadlines and handle multiple projects
- GS3.** Organize data and information within documents, spreadsheets, and presentations systematically for efficient access and usage.
- GS4.** Present information in a clear, user-friendly format, considering end-users needs while preparing reports or presentations.
- GS5.** Using digital tools for teamwork and file-sharing

HAR/ITS/N0503: Basic Electronics (45 hrs)

Description

Provides foundational knowledge and skills to perform basic tasks involving electronic circuits and components of computer

Scope

The scope covers the following :

- Prepare learners to pursue careers in electronics repair and manufacturing of computer devices.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Define current, voltage & Resistance and explain the relationship between them
- PC2.** Describe the functions of resistors, capacitors, and inductors in an electronic circuit
- PC3.** Identify and describe various active and passive components.
- PC4.** Describe Integrated Circuits(IC) and Semiconductor memory
- PC5.** Explain various types of power supplies used in electronics
- PC6.** Define various Number system and perform conversions between decimal and other number systems, and vice versa.
- PC7.** Draw and explain various logic gates and combinational logic circuits such as half-adder and half-subtractor with their truth tables.
- PC8.** Define and differentiate between encoders and decoders, Multiplexers and De-multiplexers. Explain with diagrams and truth tables for each.
- PC9.** Draw and explain various types of Flip Flops, Latches, Register and Counters.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** The objective and goals of organization and scope of work assigned
- KU2.** The basic principles of electricity, including current, voltage, and resistance.
- KU3.** The working principles of active and passive electronic components.
- KU4.** The use of tools like multimeters, oscilloscopes, and soldering irons for designing, testing, and troubleshooting analog and digital circuits.
- KU5.** Workplace safety practices, precautions and equipment handling.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Ability to convey technical concepts clearly and effectively, both orally and in writing

Qualification Pack

- GS2.** Analyze and diagnose issues in electronic circuits using logical reasoning and systematic methods.
- GS3.** Stay updated with the latest advancements in electronics technology.
- GS4.** Work effectively in teams to assemble, test, and troubleshoot electronic systems.

HAR/ITS/N0506: Computer Hardware & Peripheral (45 hrs)

Description

Equips learners with the skills required for computer hardware maintenance, assembly, and troubleshooting.

Scope

The scope covers the following :

- Provides essential knowledge and practical skills in assembling, disassembling, and troubleshooting computer systems and peripherals and prepares learners for careers in IT support, hardware maintenance, and system management.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Define and explain the functions of various internal and external computer components.
- PC2.** Define process for Assembling and Disassembling the computer.
- PC3.** Recognize and describe the use of different internal ports, cables, and connectors used for system integration and communication.
- PC4.** Explain the use of Modem, Digital Camera, Pen drives, SCSI interface device, Web Camera, CCTV Camera, Projector
- PC5.** Describe various types of monitors and their differences in terms of display technology and application.
- PC6.** Describe the different types of printers and scanners, and explain their functions in the computer ecosystem.
- PC7.** Identify and troubleshoot common hardware and software issues

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** The objective & goals of organization and scope of work assigned.
- KU2.** The components of a computer system and how they interact with each other to form a functional unit.
- KU3.** The assembly and disassembly processes, including the installation of components and internal wiring and configuring a computer system.
- KU4.** How to diagnose and resolve hardware-related issues, including malfunctioning devices, slow performance, and connectivity problems.
- KU5.** The role and importance of computer hardware in different organizational environments,
- KU6.** How to apply workplace safety standards during the assembly, disassembly, and troubleshooting of computer hardware.

Qualification Pack

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Make informed decisions when selecting hardware components or troubleshooting system issues, ensuring solutions that are both efficient and cost-effective.
- GS2.** Effectively use tools and equipment for assembling, disassembling, and troubleshooting computers .
- GS3.** Apply logical thinking and systematic troubleshooting to resolve technical issues.
- GS4.** Understand client needs and deliver solutions that meet performance, cost, and reliability requirements, ensuring customer satisfaction.
- GS5.** Prioritize tasks effectively, especially during troubleshooting scenarios, to meet deadlines.

HAR/ITS/N0505: Operating System (30 hrs)

Description

Provides essential knowledge of operating system concepts, installation, and maintenance.

Scope

The scope covers the following :

- Provides knowledge and skills in installing, configuring, and troubleshooting operating systems and virus protection techniques, ensuring system security and maintenance in professional environments.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Explain the role of an operating system and its types
- PC2.** Define and differentiate System files(FAT and NTFS) and explain the relation between System File and operating System
- PC3.** Install and set operating systems with essential system settings and required application softwares.
- PC4.** Effectively troubleshoot operating system issues, including system crashes, software malfunctions, and security threats, by using appropriate tools
- PC5.** Convert FAT Partition to NTFS
- PC6.** Explain Computer viruses and its types (Malware, Trojan, Worm, Spyware, Adware).
- PC7.** Identify common signs of virus infections, such as window popups, self-executing programs, unexpected logouts, and device crashes.
- PC8.** Apply virus protection measures, including the use of antivirus software, updating the operating system, and using privacy settings in browsers.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** The objective & goals of Organization and scope of work assigned.
- KU2.** Fundamental concepts of operating systems, its functions and system files
- KU3.** The principles of virus protection, types of virus and their impact on system security.
- KU4.** The practical skills in installing and configuring operating systems, application software, and system files on different platforms
- KU5.** how to troubleshoot and resolve common operating system issues, from installation errors to system crashes.
- KU6.** The role of operating systems in the day-to-day functioning of an organization's IT infrastructure, from personal computers to server environments.

Qualification Pack

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Plan and organize tasks for installing, configuring, and maintaining operating systems, ensuring that processes are completed efficiently and within set timelines.
- GS2.** Identifying and resolving OS-related issues effectively.
- GS3.** Effectively present technical information and discuss system security measures in team meetings or with clients.
- GS4.** Deliver user-friendly solutions for system configuration, software installation, and troubleshooting, ensuring that end users or clients experience minimal disruption to their workflow.
- GS5.** Follow organizational policies for OS installation, software updates, and virus protection.

DGT/VSQ/N0102: Employability Skills (60 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Career Development & Goal Setting
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

- PC1.** identify employability skills required for jobs in various industries
- PC2.** identify and explore learning and employability portals

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

- PC3.** recognize the significance of constitutional values, including civic rights and duties, citizenship, responsibility towards society etc. and personal values and ethics such as honesty, integrity, caring and respecting others, etc.
- PC4.** follow environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

- PC5.** recognize the significance of 21st Century Skills for employment
- PC6.** practice the 21st Century Skills such as Self-Awareness, Behaviour Skills, time management, critical and adaptive thinking, problem-solving, creative thinking, social and cultural awareness, emotional awareness, learning to learn for continuous learning etc. in personal and professional life

Basic English Skills

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC7.** use basic English for everyday conversation in different contexts, in person and over the telephone
- PC8.** read and understand routine information, notes, instructions, mails, letters etc. written in English
- PC9.** write short messages, notes, letters, e-mails etc. in English

Career Development & Goal Setting

To be competent, the user/individual on the job must be able to:

- PC10.** understand the difference between job and career
- PC11.** prepare a career development plan with short- and long-term goals, based on aptitude

Communication Skills

To be competent, the user/individual on the job must be able to:

- PC12.** follow verbal and non-verbal communication etiquette and active listening techniques in various settings
- PC13.** work collaboratively with others in a team

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

- PC14.** communicate and behave appropriately with all genders and PwD
- PC15.** escalate any issues related to sexual harassment at workplace according to POSH Act

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

- PC16.** select financial institutions, products and services as per requirement
- PC17.** carry out offline and online financial transactions, safely and securely
- PC18.** identify common components of salary and compute income, expenses, taxes, investments etc
- PC19.** identify relevant rights and laws and use legal aids to fight against legal exploitation

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

- PC20.** operate digital devices and carry out basic internet operations securely and safely
- PC21.** use e- mail and social media platforms and virtual collaboration tools to work effectively
- PC22.** use basic features of word processor, spreadsheets, and presentations

Entrepreneurship

To be competent, the user/individual on the job must be able to:

- PC23.** identify different types of Entrepreneurship and Enterprises and assess opportunities for potential business through research
- PC24.** develop a business plan and a work model, considering the 4Ps of Marketing Product, Price, Place and Promotion
- PC25.** identify sources of funding, anticipate, and mitigate any financial/ legal hurdles for the potential business opportunity

Customer Service

To be competent, the user/individual on the job must be able to:

- PC26.** identify different types of customers
- PC27.** identify and respond to customer requests and needs in a professional manner.

Qualification Pack

PC28. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC29. create a professional Curriculum vitae (Résumé)

PC30. search for suitable jobs using reliable offline and online sources such as Employment exchange, recruitment agencies, newspapers etc. and job portals, respectively

PC31. apply to identified job openings using offline /online methods as per requirement

PC32. answer questions politely, with clarity and confidence, during recruitment and selection

PC33. identify apprenticeship opportunities and register for it as per guidelines and requirements

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills and different learning and employability related portals

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use English language for effective verbal (face to face and telephonic) and written communication in formal and informal set up

KU6. importance of career development and setting long- and short-term goals

KU7. about effective communication

KU8. POSH Act

KU9. Gender sensitivity and inclusivity

KU10. different types of financial institutes, products, and services

KU11. how to compute income and expenditure

KU12. importance of maintaining safety and security in offline and online financial transactions

KU13. different legal rights and laws

KU14. different types of digital devices and the procedure to operate them safely and securely

KU15. how to create and operate an e- mail account and use applications such as word processors, spreadsheets etc.

KU16. how to identify business opportunities

KU17. types and needs of customers

KU18. how to apply for a job and prepare for an interview

KU19. apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. read and write different types of documents/instructions/correspondence

GS2. communicate effectively using appropriate language in formal and informal settings

Qualification Pack

- GS3.** behave politely and appropriately with all
- GS4.** how to work in a virtual mode
- GS5.** perform calculations efficiently
- GS6.** solve problems effectively
- GS7.** pay attention to details
- GS8.** manage time efficiently
- GS9.** maintain hygiene and sanitization to avoid infection

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
