Qualification Pack

HAR/ITS/Q1201: Certificate Course in Web Designing and Multimedia

Brief Job Description

The course helps students to learn and develop skills in designing multimedia web sites using various multimedia and web designing tools such as HTML, CSS, Photoshop etc.

Personal Attributes

Creative, detail-oriented, and eager to learn new design trends and technologies and also have good communication, time management, and teamwork skills

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [HAR/ITS/N0907: IT Foundation and Digital Tools \(1\)](#)
2. [HAR/ITS/N1202: Introduction to Multimedia and Web Designing tools](#)
3. [HAR/ITS/N0906: OJT/Project & Viva](#)
4. [DGT/VSQ/N0101: Employability Skills \(30 Hours\)](#)

Qualification Pack

HAR/ITS/N0907: IT Foundation and Digital Tools (1)

Description

The NOS provides basic knowledge and skills to operate computer and prepares you to perform basic office jobs.

Scope

The scope covers the following :

- The NOS builds essential skills in Word, Excel, PowerPoint, and Internet usage, preparing students for basic office tasks and serving as a foundation for advanced computer applications.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Understand the meaning, characteristics, history, generations, and classification of computers.
- PC2.** Identify and explain the main components, input/output devices, and the working of a computer system.
- PC3.** Differentiate between data and information, and perform basic number conversions.
- PC4.** Demonstrate understanding of operating systems, including the settings and functions of Windows..
- PC5.** Diagnose and resolve common peripheral malfunctions and connectivity issues.
- PC6.** Create and edit documents using word processing tools with proper formatting and layout.
- PC7.** Apply formulas and functions in spreadsheets and use spreadsheet tools effectively.
- PC8.** Design and present information visually using digital presentation software.
- PC9.** Develop correct typing posture and accuracy with improved speed.
- PC10.** Utilize networking and internet skills to communicate online, manage email accounts, ensure cybersecurity, and understand cloud storage

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Demonstrates understanding of the evolution, characteristics, and classification of computers, including their historical development and technological generations.
- KU2.** Identifies and explains the main hardware components, input/output devices, and the overall functional process of a computer system.
- KU3.** Explains the purpose, functions, and configuration of operating systems, particularly Windows, in managing computer resources and settings.
- KU4.** Understands methods for diagnosing and resolving common hardware, peripheral, and connectivity issues within a computer system.

Qualification Pack

- KU5.** Demonstrates knowledge of digital productivity tools, including word processors, spreadsheets, and presentation software, for creating and managing professional documents and visual materials.
- KU6.** Distinguishes between data and information and applies basic number system conversions relevant to computing.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** set goals for career development.
- GS2.** efficiently plan daily data entry tasks to meet deadlines.
- GS3.** Identify and resolve data inconsistencies or system errors.
- GS4.** Ensure accuracy and confidentiality of customer data.

HAR/ITS/N1202: Introduction to Multimedia and Web Designing tools

Description

The NOS helps students to learn and develop skills in designing multimedia web sites using various multimedia and web designing tools such as HTML, CSS, Javascript etc.

Scope

The scope covers the following :

- Develop skills in designing and developing multimedia websites using modern web technologies and tools, enabling students to create interactive and user-friendly web solutions.

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

- PC1.** Understand the concept of multimedia and its key elements.
- PC2.** Know the tools and technologies used in multimedia and web design
- PC3.** perform image editing and design tasks using Adobe Photoshop, including working with layers, tools, effects, and exporting images as per required standards.
- PC4.** Develop the ability to create structured web pages using HTML
- PC5.** enhance their design and layout using CSS, including responsive design techniques like viewport, grid, and media queries.
- PC6.** build interactive and dynamic web applications using JavaScript and jQuery,
- PC7.** create modern, mobile-friendly websites using frameworks like Bootstrap for faster and efficient development.
- PC8.** Understand and use WordPress, to build, manage, and customize websites using themes, plugins, widgets, and content tools.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Fundamental concepts of multimedia and web design, including design principles, user experience, and digital content structure.
- KU2.** Technical aspects of web development using HTML, CSS, JavaScript, and tools like Adobe Photoshop.
- KU3.** Concepts of responsive web design, frameworks like Bootstrap, and use of libraries such as jQuery.
- KU4.** Working and management of Content Management Systems, especially WordPress, including themes, plugins, and content publishing
- KU5.** Organizational requirements, workflow processes, data management practices, and adherence to project guidelines and timelines.

Qualification Pack

KU6. Importance of collaboration, communication, and maintaining quality standards in a professional web development environment.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Communicate effectively with team members, clients, and stakeholders to explain ideas and gather requirements.
- GS2.** Use critical thinking to evaluate design choices, tools, and technologies for optimal results.
- GS3.** Plan and organize tasks efficiently to meet deadlines and manage multiple web design/development activities.
- GS4.** Maintain a customer-centric approach by understanding user needs and delivering user-friendly and responsive designs.
- GS5.** Work collaboratively in a team environment while maintaining professionalism, adaptability, and a positive work attitude.

HAR/ITS/N0906: OJT/Project & Viva

Description

The NOS enabling students to apply their acquired skills and knowledge in real work or job-oriented environments.

Scope

The scope covers the following :

- Provides practical exposure, enhance skills, and prepare students for real work environments by bridging the gap between theory and practice

Elements and Performance Criteria

To be competent, the user/individual on the job must be able to:

PC1. Demonstrates application of theoretical knowledge in practical tasks

PC2. Adapts to workplace requirements and follows instructions

PC3. Demonstrates clear understanding of concepts during viva

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. Workplace practices and professional standards

KU2. Basic problem-solving techniques

KU3. Communication skills in a work environment

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. Work collaboratively as part of a team

GS2. Follow instructions and organizational procedures

GS3. Manage time and meet deadline

DGT/VSQ/N0101: Employability Skills (30 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

PC1. understand the significance of employability skills in meeting the job requirements

Constitutional values - Citizenship

To be competent, the user/individual on the job must be able to:

PC2. identify constitutional values, civic rights, duties, personal values and ethics and environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

PC3. explain 21st Century Skills such as Self-Awareness, Behavior Skills, Positive attitude, self-motivation, problem-solving, creative thinking, time management, social and cultural awareness, emotional awareness, continuous learning mindset etc.

Basic English Skills

To be competent, the user/individual on the job must be able to:

PC4. speak with others using some basic English phrases or sentences

Communication Skills

To be competent, the user/individual on the job must be able to:

PC5. follow good manners while communicating with others

PC6. work with others in a team

Qualification Pack

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

PC7. communicate and behave appropriately with all genders and PwD

PC8. report any issues related to sexual harassment

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

PC9. use various financial products and services safely and securely

PC10. calculate income, expenses, savings etc.

PC11. approach the concerned authorities for any exploitation as per legal rights and laws

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

PC12. operate digital devices and use its features and applications securely and safely

PC13. use internet and social media platforms securely and safely

Entrepreneurship

To be competent, the user/individual on the job must be able to:

PC14. identify and assess opportunities for potential business

PC15. identify sources for arranging money and associated financial and legal challenges

Customer Service

To be competent, the user/individual on the job must be able to:

PC16. identify different types of customers

PC17. identify customer needs and address them appropriately

PC18. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC19. create a basic biodata

PC20. search for suitable jobs and apply

PC21. identify and register apprenticeship opportunities as per requirement

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use basic spoken English language

KU6. Do and dont of effective communication

KU7. inclusivity and its importance

KU8. different types of disabilities and appropriate communication and behaviour towards PwD

KU9. different types of financial products and services

Qualification Pack

- KU10.** how to compute income and expenses
- KU11.** importance of maintaining safety and security in financial transactions
- KU12.** different legal rights and laws
- KU13.** how to operate digital devices and applications safely and securely
- KU14.** ways to identify business opportunities
- KU15.** types of customers and their needs
- KU16.** how to apply for a job and prepare for an interview
- KU17.** apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate effectively using appropriate language
- GS2.** behave politely and appropriately with all
- GS3.** perform basic calculations
- GS4.** solve problems effectively
- GS5.** be careful and attentive at work
- GS6.** use time effectively
- GS7.** maintain hygiene and sanitisation to avoid infection

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
