## Qualification Pack

### HCS/Q0402: Ceramics and Terracotta Toy Maker

#### Brief Job Description

Ceramics and Terracotta Toy Maker crafts unique, handcrafted toys from high-quality clay, blending traditional techniques with imaginative designs to create durable and charming playthings for children. Each piece is meticulously shaped and fired, ensuring safety and longevity while celebrating the art of pottery.

#### Personal Attributes

Creative and detail-oriented, the ceramics and terracotta toy maker is passionate about craftsmanship and dedicated to producing high-quality, imaginative toys. Their friendly and approachable nature fosters a positive connection with customers and the community.

#### Applicable National Occupational Standards (NOS)

##### Compulsory NOS:

1. [HCS/N0402: Carry out the process of making ceramic toy](#)
2. [HCS/N0403: Carry out the operation process required to make terracotta toys](#)
3. [HCS/N0410: Entrepreneurship Skills for Ceramics and Terracotta Toy Maker](#)
4. [HCS/N9901: Coordinate with colleagues and work as a team](#)
5. [HCS/N9913: Maintain health, safety and security at workplace](#)
6. [HCS/N9903: Maintain Personal Hygiene](#)
7. [DGT/VSQ/N0102: Employability Skills \(60 Hours\)](#)

## Qualification Pack

### HCS/N0402: Carry out the process of making ceramic toy

#### Description

This OS unit is about mixing various raw materials, mold making shaping, baking and coloring toys to make a final ceramic toy product.

#### Scope

The scope covers the following :

- Prepare materials for Ceramic toy making
- Shape and mold Ceramic toys
- Decorate and finish Ceramic toys
- Fire the Ceramic toys
- Conduct Quality checks and Packaging

#### Elements and Performance Criteria

##### *Prepare materials for Ceramic toy making*

To be competent, the user/individual on the job must be able to:

- PC1.** Identify and select appropriate raw materials, such as clay, glazes, and pigments, for ceramic toy making.
- PC2.** Check the quality of raw materials to ensure they are free from impurities and meet required standards.
- PC3.** Measure and mix the clay and other additives in the correct proportions to achieve the desired consistency.
- PC4.** Knead and condition the clay to remove air bubbles and improve workability.
- PC5.** Organize and prepare tools, molds, and work surfaces for the ceramic toy-making process.

##### *Shape and mold Ceramic toys*

To be competent, the user/individual on the job must be able to:

- PC6.** Select the appropriate shaping technique, such as hand molding, slip casting, or wheel throwing, based on the toy design.
- PC7.** Use molds or hand tools to shape the toy, ensuring accurate dimensions and design details.
- PC8.** Smooth and refine the surface of the toy using appropriate tools to achieve a clean finish.
- PC9.** Leave the shaped toys to dry under controlled conditions to prevent cracks or warping.

##### *Decorate and finish Ceramic toys*

To be competent, the user/individual on the job must be able to:

- PC10.** Apply decorative elements, such as carving, engraving, or painting, to enhance the aesthetic appeal of the toy.
- PC11.** Use glazes or underglazes to add color, texture, or patterns to the toy's surface.
- PC12.** Ensure even application of decorative elements to maintain uniformity.
- PC13.** Inspect the toy for any imperfections and make necessary corrections before firing.

##### *Fire the Ceramic toys*

## Qualification Pack

To be competent, the user/individual on the job must be able to:

- PC14.** Preheat the kiln and set the appropriate temperature for firing the ceramic toys.
- PC15.** Load the toys into the kiln carefully, ensuring proper spacing to avoid damage during firing.
- PC16.** Monitor the firing process and adjust settings as required to achieve the desired hardness and finish.

### *Conduct Quality Checks and Packaging*

To be competent, the user/individual on the job must be able to:

- PC17.** Inspect the fired toys for defects, such as cracks, uneven surfaces, or glaze imperfections.
- PC18.** Test the durability and safety of the toys, ensuring they meet quality and safety standards.
- PC19.** Package the ceramic toys using appropriate materials to prevent damage during storage or transportation.
- PC20.** Label the packaged toys with details such as product name, batch number, and handling instructions.

## Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** personnel management, relevant legislation, standards, policies, and procedures followed in the company
- KU2.** organisational structure
- KU3.** the key product lines of the company
- KU4.** appropriate master model making, mould making, sculpting techniques
- KU5.** basic calculation methods required for calculating raw materials
- KU6.** the appropriate safety measures while handling the raw materials
- KU7.** handle the use of sharp tools and equipment
- KU8.** ensuring that there is no mal handling/accidents due to improper handling of the raw materials
- KU9.** handling the equipment like blender, chisel appropriately
- KU10.** the recommended storage of the prepared mixture and toy
- KU11.** risk and impact of not following defined procedures/work instructions
- KU12.** the hierarchy for reporting identified problems
- KU13.** implications of delays in the process

## Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** write down master model making, mold making, sculpting, burning, coloring techniques
- GS2.** read and interpret symbols and readings
- GS3.** read about various mould related information
- GS4.** read and understand manuals, health and safety instructions, memos, reports and job cards
- GS5.** read about operating the blender and sculpting tools

## Qualification Pack

- GS6.** interact with employees to work efficiently
- GS7.** make decisions pertaining to the concerned area of workplace
- GS8.** communicate the gaps in process, if any to supervisor
- GS9.** take the right raw materials according to the end product
- GS10.** detect problems in day to day tasks
- GS11.** maintain the working schedule appropriately in order to achieve the daily targets
- GS12.** interpret the customer preference, demand, etc. and accordingly make job sheet
- GS13.** follow instructions and work on areas of improvement identified

## Qualification Pack

### Assessment Criteria

| Assessment Criteria for Outcomes                                                                                                      | Theory Marks | Practical Marks | Project Marks | Viva Marks |

## Qualification Pack

### HCS/N0403: Carry out the operation process required to make terracotta toys

#### Description

This OS unit is about mixing various raw materials, shaping and baking terracotta toys to make a final terracotta toy product.

#### Scope

The scope covers the following :

- Prepare required raw materials for toy making
- Perform the standard process of terracotta toy making
- Perform baking process of toys as per standard procedures
- Check toy quality and productivity standards

#### Elements and Performance Criteria

##### *Prepare required raw materials to make terracotta toy*

To be competent, the user/individual on the job must be able to:

- PC1.** Arrange raw materials and tools at workplace like ball clay, mud clay, black clay, chisel, fine pen etc. for making terracotta toy.
- PC2.** Prepare collected clay by breaking down solid pieces of mud and blend it with water by using appropriate tools like, blender, hammer, etc.
- PC3.** Sieve the blended mixture using sieve of fine mesh to remove tiny stone pieces.
- PC4.** Air dry sieved mixture for two days to make it of right consistency.

##### *Perform the standard process of terracotta toy making*

To be competent, the user/individual on the job must be able to:

- PC5.** Place a lump of clay mixture on the turning wheel to make terracotta toy.
- PC6.** Provide shape like doll, animal or any desirable shape to the clay mixture on the turning wheel.
- PC7.** Cut off the clay from the turning wheel using string of thread and keep it for drying.
- PC8.** Provide shape and details to the toy by using tools like chisel, knife, pointed tool, etc.

##### *Perform the standard process of baking terracotta toy*

To be competent, the user/individual on the job must be able to:

- PC9.** Place the prepared toy in open air for sun drying for 2 days.
- PC10.** Preheat the kiln at appropriate temperature using wood as fuel to burn the toys to give them strength.
- PC11.** Place the toys in preheated kiln to be burnt for three hours.

##### *Check toy quality and productivity standards*

To be competent, the user/individual on the job must be able to:

- PC12.** Inspect the quality standard parameters to ensure mixture of clay is created as per standard procedures.

## Qualification Pack

**PC13.** Ensure parts of toy are attached properly and toy is sun dried and burnt appropriately.

### Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** personnel management, relevant legislation, standards, policies, and procedures followed in the company
- KU2.** organisational structure
- KU3.** the locations where materials are typically stored
- KU4.** the key product lines of the company
- KU5.** appropriate turning wheel operating, toy making, sculpting, and burning techniques
- KU6.** basic calculation methods required for calculating raw materials
- KU7.** the appropriate safety measures while handling the raw materials
- KU8.** handle the use of sharp tools and equipment
- KU9.** ensuring that there is no mal handling/accidents due to improper handling of the raw materials
- KU10.** handling the equipment like blender, chisel, turning wheel appropriately
- KU11.** the recommended storage of the prepared mixture and toy
- KU12.** risk and impact of not following defined procedures/work instructions
- KU13.** implications of delays in the process

### Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** write down toy-making sculpting, and burning techniques
- GS2.** read and interpret symbols and readings
- GS3.** read about various material and design-related information
- GS4.** read and understand manuals, health and safety instructions, memos, reports and job cards
- GS5.** read about operating the turning wheel blender and sculpting tools, kiln
- GS6.** interact with employees to work efficiently
- GS7.** make decisions pertaining to the concerned area of workplace
- GS8.** communicate the gaps in process, if any to supervisor
- GS9.** take the right raw materials according to the end product
- GS10.** detect problems in day to day tasks
- GS11.** maintain the working schedule appropriately in order to achieve the daily targets
- GS12.** interpret the customer preference, demand, etc. and accordingly make job sheet
- GS13.** follow instructions and work on areas of improvement identified

## Qualification Pack

### Assessment Criteria

| Assessment Criteria for Outcomes                                                                                                                       | Theory Marks | Practical Marks | Project Marks | Viva Marks |

## Qualification Pack

# HCS/N0410: Entrepreneurship Skills for Ceramics and Terracotta Toy Maker

## Description

This unit focuses on equipping the ceramics and terracotta toy maker with essential entrepreneurial skills needed to successfully operate a small to medium-scale business.

## Scope

The scope covers the following :

- Understanding the Ceramics and Terracotta Toy Making Industry
- Business Planning and Financial Management
- Marketing and Branding Strategies
- Production Process and Quality Control
- Sales and Distribution Strategies

## Elements and Performance Criteria

### *Understanding the Ceramics and Terracotta Toy Making Industry*

To be competent, the user/individual on the job must be able to:

- PC1.** Identify the key trends and growth opportunities in the ceramics and terracotta toy-making industry.
- PC2.** Understand the market demand for ceramics and terracotta toys in various segments such as traditional and artistic.
- PC3.** Challenges and competition in the industry and propose strategies to overcome them.

### *Business Planning and Financial Management*

To be competent, the user/individual on the job must be able to:

- PC4.** Develop a comprehensive business plan outlining the vision, mission, and goals for the ceramics and terracotta toy business.
- PC5.** Prepare a financial plan, including cost estimation, pricing strategies, and budgeting.
- PC6.** Identify funding sources and prepare for investment pitching.

### *Marketing and Branding Strategies*

To be competent, the user/individual on the job must be able to:

- PC7.** Develop a marketing strategy that highlights the unique features and benefits of ceramics and terracotta toys.
- PC8.** Identify target markets and customer segments for ceramics and terracotta toys.
- PC9.** Create branding elements, including logos, packaging, and promotional content to build the brand identity.
- PC10.** Promote the products effectively through both traditional and digital marketing channels.

### *Production Process and Quality Control*

To be competent, the user/individual on the job must be able to:

## Qualification Pack

- PC11.** Understand the process of creating ceramics and terracotta toys, from raw material selection to finished product.
- PC12.** Develop quality control measures to ensure that each product meets required standards.
- PC13.** Maintain the balance between craftsmanship and mass production for efficient production.
- PC14.** Ensure that the production process adheres to environmental and safety standards.

### *Sales and Distribution Strategies*

To be competent, the user/individual on the job must be able to:

- PC15.** Develop an effective sales strategy for ceramics and terracotta toys, including identifying key sales channels.
- PC16.** Build relationships with distributors, retailers, and online platforms for product sales.
- PC17.** Implement pricing strategies that are competitive yet sustainable.
- PC18.** Track sales performance and adjust strategies to optimize revenue and customer reach.

## Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Understand the historical evolution of ceramics and terracotta toys in the market.
- KU2.** Know the current market demand and trends influencing the ceramics and terracotta toy-making industry.
- KU3.** Identify key players and competitors in the industry.
- KU4.** Understand the regulatory and quality standards governing ceramics and terracotta toy production.
- KU5.** Know how to prepare a solid business plan with a focus on long-term and short-term goals.
- KU6.** Understand basic financial management tools and techniques like pricing, budgeting, and cost control.
- KU7.** Familiarize with sources of funding such as loans, grants, or investor pitching.
- KU8.** Understand the principles of branding and marketing, particularly for artisanal products.
- KU9.** Understand the use of digital marketing tools (social media, websites, etc.) for product promotion.
- KU10.** Knowledge of materials used in ceramics and terracotta toy making, such as clay types, glazes, and firing processes.
- KU11.** Understand quality control methods, such as testing durability and finishing.
- KU12.** Understand the legal and environmental requirements for the production of ceramics and terracotta toys.
- KU13.** Understand the different distribution channels available for ceramics and terracotta toys (e.g., retail stores, online platforms).
- KU14.** Know how to implement effective pricing strategies based on cost, demand, and competition.

## Generic Skills (GS)

User/individual on the job needs to know how to:

## Qualification Pack

- GS1.** Researching industry trends and competition.
- GS2.** Strategic planning and decision-making.
- GS3.** Strategic business planning and goal setting.
- GS4.** Financial analysis and budgeting.
- GS5.** Effective communication of business ideas to potential investors or stakeholders.
- GS6.** Financial forecasting and management.
- GS7.** Business plan preparation and evaluation.
- GS8.** Fundraising and pitching skills.
- GS9.** Market segmentation and targeting.
- GS10.** Creative thinking for branding and marketing strategies.
- GS11.** Brand development and marketing strategy.
- GS12.** Time and resource management in production processes.
- GS13.** Time and resource management in production processes.
- GS14.** Ability to monitor and maintain production quality.
- GS15.** Production management and process optimization.
- GS16.** Quality assurance and control.
- GS17.** Adherence to environmental regulations and safety standards.
- GS18.** Ability to analyze sales data and adapt strategies for better results.
- GS19.** Sales management and customer relationship building.
- GS20.** Pricing and revenue optimization.

### HCS/N9901: Coordinate with colleagues and work as a team

#### Description

This NOS describes the communication and coordination skills and knowledge to work with colleagues and supervisor to achieve a smooth and hazard-free workflow.

#### Scope

The scope covers the following :

- interact with supervisor or superior
- work as a team by coordinating with colleagues within and outside the department and include inputs on PwD & Gender Sensitisation
- report and Document

#### Elements and Performance Criteria

##### *Interact with supervisor or superior*

To be competent, the user/individual on the job must be able to:

- PC1.** comply with health, safety gender, and PwD (People with disability) related instructions applicable to the workplace
- PC2.** actively participate in mock drills/ evacuation procedures; group discussions, training sensitization programs for gender, and PwD awareness organized at the workplace.
- PC3.** receive job orders and instructions from reporting supervisor and receive feedback on work standards.
- PC4.** understand the work output requirements, targets, performance indicators and incentives.
- PC5.** deliver quality work on time and report any anticipated reasons for delays and handover completed work to supervisor
- PC6.** report on any grievances, production defects and any potential hazards.

##### *Work as a team by coordinating with colleagues within and outside the department and include inputs on PwD & Gender Sensitisation*

To be competent, the user/individual on the job must be able to:

- PC7.** communicate maintenance and repair schedule proactively to the supervisor
- PC8.** interact and clarify doubts on design, usage of materials & tools, quality & standards compliance, etc.

##### *Report and Document*

To be competent, the user/individual on the job must be able to:

- PC9.** report in time for shortage or need of raw materials
- PC10.** communicate with colleagues from within and other departments, clearly and effectively on all aspects to carry out the work among the team
- PC11.** maintain the etiquette, use polite language, demonstrate responsible and disciplined behavior towards colleagues.
- PC12.** put team over individual goals and multi-task or share work where necessary supporting the colleagues.

## Qualification Pack

**PC13.** document all the details accurately relating to ones role as required.

### Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** knowledge about the importance of gender equality being followed in the organization and policies for reporting any harassment or inappropriate behavior
- KU2.** knowledge about how to accommodate employees with disabilities etiquette to adhere to and proper language and terminology
- KU3.** knowledge about how to communicate, offer help, respecting space, parking etc. for people with disabilities or special needs
- KU4.** knowledge about promoting a safe, accessible and healthy workplace for disabled employees
- KU5.** company's policies on preferred language of communication, incentives, quality standards, personnel management, reporting and escalation matrix policy.
- KU6.** company's standard operating procedure (sop) and the risk and impact of not following them.
- KU7.** procedures for working with colleagues, his/her role and responsibilities in relation to this
- KU8.** organizational hierarchy and the line of reporting structure and work target and review mechanism
- KU9.** procedures to report employment related issues and to deal with conflicts
- KU10.** importance of the individuals role in the organizational workflow and details of the individual responsibilities
- KU11.** tools and equipment handling procedure and common potential hazards in the work place and the procedures to deal with them
- KU12.** effective communication with various categories of people and the different departments in the organization
- KU13.** to document the job activity as required like the check sheets, history sheets, etc
- KU14.** expressing and addressing grievances appropriately, deal with difficult work relationships and manage the internal conflicts effectively

### Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** create a positive and inclusive workplace atmosphere without any kind of bias/discrimination towards any employee
- GS2.** actively take part in any discussion/workshop organized for gender sensitization training
- GS3.** read and comprehend written instructions related to gender equality issues in the organization
- GS4.** identify and report any harassment or inappropriate behavior towards any employee
- GS5.** create a positive and inclusive workplace atmosphere without any kind of bias/discrimination towards any employee with disability or special needs
- GS6.** actively take part in any discussion/workshop organized for disability sensitization training.

## Qualification Pack

- GS7.** read and comprehend written instructions related to equality issues in the organization related to disabled persons
- GS8.** read job sheets, design sheet and information displayed at the workplace
- GS9.** read and understand manuals, health and safety instructions, memos etc
- GS10.** fill up documentation to ones role
- GS11.** communicate effectively with supervisor
- GS12.** contribute to quality of team work and achieve smooth workflow
- GS13.** improve work processes by interacting with others and adopting best practices

### HCS/N9913: Maintain health, safety and security at workplace

#### Description

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required to comply with health, safety and security requirements at the workplace and covers procedures to prevent, control and minimise risk to self and others.

#### Elements and Performance Criteria

##### *Comply with health, safety and security requirements at work*

To be competent, the user/individual on the job must be able to:

- PC1.** Comply with health and safety related instructions applicable to the workplace.
- PC2.** Use and maintain personal protective equipment as per protocol.
- PC3.** Carry out own activities in line with approved guidelines and procedures.
- PC4.** Maintain a healthy lifestyle and guard against dependency on intoxicants.
- PC5.** Follow environment management system related procedures.
- PC6.** Store materials and tools in line with manufacturers and organisational requirements.
- PC7.** Safely handle and move waste and debris.
- PC8.** Minimize health and safety risks to self and others due to own actions.
- PC9.** Seek clarifications, from supervisors or other authorized personnel in case of perceived risks.
- PC10.** Monitor the workplace and work processes for potential risks and threats.
- PC11.** Carry out periodic walk-through to keep work area free from hazards and obstructions, if assigned.
- PC12.** Report hazards and potential risks/ threats to supervisors or other authorized personnel.
- PC13.** Participate in mock drills/ evacuation procedures organized at the workplace.
- PC14.** Undertake first aid, fire-fighting and emergency response training, if asked to do so.
- PC15.** Take action based on instructions in the event of fire, emergencies or accidents.
- PC16.** Follow organisation procedures for evacuation when required.

#### Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Health and safety related practices applicable at the workplace.
- KU2.** Potential hazards, risks and threats based on nature of operations.
- KU3.** Organizational procedures for safe handling of tools.
- KU4.** Potential risks due to own actions and methods to minimize these.
- KU5.** Environmental management system related procedures at the workplace.
- KU6.** Layout of the plant and details of emergency exits, escape routes, emergency equipment and assembly points.
- KU7.** Potential accidents and emergencies and response to these scenarios.

## Qualification Pack

- KU8.** Reporting protocol and documentation required.
- KU9.** Details of personnel trained in first aid, fire-fighting and emergency response.
- KU10.** Actions to take in the event of a mock drills/ evacuation procedures or actual accident, emergency or fire.
- KU11.** Occupational health and safety risks and methods.
- KU12.** Personal protective equipment and method of use.
- KU13.** Identification, handling and storage of hazardous substances.
- KU14.** Proper disposal system for waste and by-products.
- KU15.** Signage related to health and safety and their meaning.
- KU16.** Importance of sound health, hygiene and good habits.
- KU17.** Ill-effects of alcohol, tobacco and drugs.

## Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Write in local language.
- GS2.** Read measurement instructions.
- GS3.** Communicate orally with colleagues.
- GS4.** Follow organization rule-based decision making process.
- GS5.** Take decision with systematic course of actions and/or response.
- GS6.** Plan and organize your work to achieve targets and deadlines.
- GS7.** Manage relationships with customers.
- GS8.** Build customer relationships and use customer centric approach.
- GS9.** Think through the problem, evaluate the possible solution(s) and suggest an optimum /best possible solution(s).
- GS10.** Identify immediate or temporary solutions to resolve delays.
- GS11.** Analyze data and activities.
- GS12.** Pass on relevant information to others.
- GS13.** Apply, analyze, and evaluate the information gathered from observation, experience, reasoning, or communication, as a guide to thought and action.

## Assessment Guidelines and Assessment Weightage

### Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for each PC.
2. Each NOS will be assessed both for theoretical knowledge and practical
3. The assessment will be based on knowledge bank of questions created by the SSC.
4. Individual assessment agencies will create unique question papers for theory and skill practical part for each candidate at each examination/training centre
5. To pass the Qualification Pack, every trainee should score a minimum of 70% in every NOS
6. In case of successfully passing only certain number of NOS's, the trainee is eligible to take subsequent assessment on the balance NOS's to pass the Qualification Pack

### Minimum Aggregate Passing % at QP Level : 70

**(Please note:** Every Trainee should score a minimum aggregate passing percentage as specified above, to

## Qualification Pack

successfully clear the Qualification Pack assessment.)

### Minimum Passing % at NOS Level: 50

(Please note: A Trainee must score the minimum percentage for each NOS separately as well as on the QP as a whole.)

### Assessment Weightage

Compulsory NOS

|                                              |                                                                                                                                                                                                                                                                                                  |
|----------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Sector</b>                                | Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.                                                                      |
| <b>Sub-sector</b>                            | Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.                                                                                                                                                                                     |
| <b>Occupation</b>                            | Occupation is a set of job roles, which perform similar/ related set of functions in an industry.                                                                                                                                                                                                |
| <b>Job role</b>                              | Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.                                                                                                                                                                                |
| <b>Occupational Standards (OS)</b>           | OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts. |
| <b>Performance Criteria (PC)</b>             | Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.                                                                                                                                                                    |
| <b>National Occupational Standards (NOS)</b> | NOS are occupational standards which apply uniquely in the Indian context.                                                                                                                                                                                                                       |
| <b>Qualifications Pack (QP)</b>              | QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.                                                                                                                       |
| <b>Unit Code</b>                             | Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'                                                                                                                                                                                                        |
| <b>Unit Title</b>                            | Unit title gives a clear overall statement about what the incumbent should be able to do.                                                                                                                                                                                                        |
| <b>Description</b>                           | Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.                                                                                                                   |
| <b>Scope</b>                                 | Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.                                                                                            |

## Qualification Pack

|                                         |                                                                                                                                                                                                                                                                                                                                                                        |
|-----------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Knowledge and Understanding (KU)</b> | Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.                                                                                                                                               |
| <b>Organisational Context</b>           | Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.                                                                                                                                                                       |
| <b>Technical Knowledge</b>              | Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.                                                                                                                                                                                                                                                               |
| <b>Core Skills/ Generic Skills (GS)</b> | Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles. |
| <b>Electives</b>                        | Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.                                                                            |
| <b>Options</b>                          | Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.                                                                                                                                                          |
