#### Elements and Performance Criteria

##### *Create / assimilate designs*

To be competent, the user/individual on the job must be able to:

- PC1.** create unique, intricate and appealing designs, in the absence of model
- PC2.** create and design market relevant designs
- PC3.** create appropriate designs depending on the product shape, in the absence of model
- PC4.** structure the dimension of the designs according to the product shape, in case of absence of model
- PC5.** select the design depending on the end usage of the product, in case of absence of model
- PC6.** pay close attention to the various aspects of the design
- PC7.** integrate design based on model
- PC8.** decide colour, type of brush and color consumables to be used based on the model
- PC9.** use recommended tools and colours for sketching

##### *Sketch on the ceramic products*

To be competent, the user/individual on the job must be able to:

- PC10.** recognize the appropriate and relevant colours for sketching
- PC11.** carefully sketch the design from the model according to the product dimension using various tools
- PC12.** sketch using the right stroke of brush in the right thickness and angle
- PC13.** check visually if the patterns match to the model
- PC14.** set aside the sketched product
- PC15.** set aside the colours and tools in appropriate locations

##### *Ensure quality and productivity standards*

To be competent, the user/individual on the job must be able to:

- PC16.** visually examine the designs/models for conformance with the product
- PC17.** ensure that there is no wastage of the materials
- PC18.** create unique designs which is difficult to replicate

## Qualification Pack

**PC19.** visually examine if the final sketched product looks neat and in line with model

**PC20.** able to complete sketching on time and achieve periodical target

**PC21.** clean the area after the sketching

## Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** companys policies on: personnel management, relevant legislation, standards, policies, and procedures followed in the company
- KU2.** organisations history and culture
- KU3.** organisation structure
- KU4.** companys policies related to dress code and etiquette
- KU5.** the locations where the materials are typically stored
- KU6.** the key product lines of the company
- KU7.** basic designing knowledge
- KU8.** different sketching techniques
- KU9.** the fitment between designs, thickness, product dimensions and end product usage
- KU10.** managing his/her time to sketch the products
- KU11.** importance of appropriately scheduling sketching so that when the time for colouring comes the products are ready
- KU12.** handling the raw materials appropriately
- KU13.** importance ensuring that there is no mal handling/accidents due to improper handling of the raw materials
- KU14.** storing the raw materials appropriately
- KU15.** handling the tools like brushes of different hair density
- KU16.** importance of ensuring that there is no mal handling/accidents due to improper handling of the tools
- KU17.** basic geometry
- KU18.** usage of the right shades for sketching
- KU19.** consumables used for sketching
- KU20.** colour combinations and mixing
- KU21.** tools used in sketching (brushes) and usage

## Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** write basic process notes
- GS2.** note information on tools
- GS3.** read about various sketching related information
- GS4.** interact with employees to work efficiently

## Qualification Pack

- GS5.** interact with the supervisor
- GS6.** communicate the gaps in process, if any, to relevant colleagues
- GS7.** choose the brush, shade and speed of sketching
- GS8.** decide on the dimension of designs
- GS9.** prioritize and organise to achieve the daily targets
- GS10.** capture the customer preference, taste, etc and accordingly make crafts
- GS11.** solve work related problems
- GS12.** analyse the material requirement
- GS13.** spot process disruptions and delays
- GS14.** report on any concerns to superiors without delay

## Qualification Pack

### Assessment Criteria

| Assessment Criteria for Outcomes                                                                               | Theory Marks | Practical Marks | Project Marks | Viva Marks |

### HCS/N0821: Perform Coloring/painting

#### Description

This OS unit is about colouring/painting the sketched ceramic products using different brushes and tools with mixed colours

#### Scope

The scope covers the following :

- select colour and other materials for painting
- colour/paint the ceramic products
- ensure quality and production standards

#### Elements and Performance Criteria

##### *Select colour and other materials for painting*

To be competent, the user/individual on the job must be able to:

- PC1.** identify the colours that have to be used based on the end product usage
- PC2.** identify the right colours based on the final colours that are required to be present on the product after the firing
- PC3.** take the colour oxides in right quantities for colouring from the colour mix storage
- PC4.** adhere to the model on for the colour scheme
- PC5.** decide on attractive colour schemes in the absence of model
- PC6.** select the right brushes to colour the sketch

##### *Colour / Paint the ceramics products*

To be competent, the user/individual on the job must be able to:

- PC7.** carefully colour the interior of the sketch on the product
- PC8.** use multiple colours as per the design requirement
- PC9.** use brushes of different thickness based on the area of painting in the ceramic craft
- PC10.** clean the brushes before dipping into another colour to ensure neat colouring
- PC11.** ensure the colouring in smudge free and not runny
- PC12.** place the product appropriately after colouring

##### *Ensure quality and productivity standards*

To be competent, the user/individual on the job must be able to:

- PC13.** visually examine the colours for conformity with the product
- PC14.** ensure that there is no wastage of the materials
- PC15.** visually examine the if the final coloured product looks neat and in line with model
- PC16.** complete painting on time and achieve periodical target
- PC17.** clean the area after the colouring

#### Knowledge and Understanding (KU)

## Qualification Pack

The individual on the job needs to know and understand:

- KU1.** company's policies on: personnel management, relevant legislation, standards, policies, and procedures followed in the company
- KU2.** organisation's history and culture
- KU3.** organisation structure
- KU4.** company's policies related to dress code and etiquette
- KU5.** the locations where the materials are typically stored
- KU6.** the key product lines of the company
- KU7.** basic colouring knowledge
- KU8.** the colouring techniques
- KU9.** the fitment between designs, thickness, product dimensions and end product usage
- KU10.** importance of managing time while colour the products
- KU11.** appropriate scheduling of colouring so that when the time for glazing comes the products are ready
- KU12.** handling the raw materials appropriately
- KU13.** importance of ensuring that there is no mal handling/accidents due to improper handling of the raw materials
- KU14.** storing the raw materials appropriately
- KU15.** handling the tools like brushes of different hair density
- KU16.** ensuring that there is no mal handling/accidents due to improper handling of the equipment
- KU17.** basic geometry
- KU18.** usage of the right shades for colouring
- KU19.** consumables used for painting
- KU20.** colour combinations and mixing
- KU21.** tools used in colouring (brushes) and usage

## Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** write basic process notes
- GS2.** read about various colouring related information
- GS3.** interact with employees to work efficiently
- GS4.** communicate the gaps in process, if any to relevant colleagues
- GS5.** take the right colour oxide mix according to the end product
- GS6.** choose the brush, shade and time required of colouring
- GS7.** prioritize and organise to achieve the daily targets
- GS8.** capture the customer preference, taste, etc and accordingly make crafts
- GS9.** solve work related problems
- GS10.** analyse the material requirement
- GS11.** spot process disruptions and delays

## Qualification Pack

**GS12.** report on any concerns to superiors without delay

## Qualification Pack

### Assessment Criteria

| Assessment Criteria for Outcomes                                                                                                  | Theory Marks | Practical Marks | Project Marks | Viva Marks |
|-----------------------------------------------------------------------------------------------------------------------------------|--------------|-----------------|---------------|------------|

### HCS/N0205: Perform Glazing

#### Description

This unit focuses on the glazing process, which is a critical step in ceramic production. It includes the knowledge and skills required to select, prepare, and apply glazes to enhance the durability, appearance, and functionality of ceramic pieces.

#### Scope

The scope covers the following :

- preparing the surface
- glaze preparation
- application techniques
- layering and detailing
- firing the glazed piece
- final touches
- maintaining tools and work area

#### Elements and Performance Criteria

##### *Preparing the Surface*

To be competent, the user/individual on the job must be able to:

- PC1.** clean and smooth bisque-fired ceramics to remove dust or imperfections
- PC2.** dry completely the painted design before glazing
- PC3.** choose glazes that complement the painted designs, such as transparent, opaque, or matte finishes

##### *Glaze Preparation*

To be competent, the user/individual on the job must be able to:

- PC4.** mix powdered glaze with water to achieve the desired consistency
- PC5.** sieve the glaze to remove lumps for smooth application
- PC6.** test glaze consistency (thickness, viscosity) for proper application

##### *Application Techniques*

To be competent, the user/individual on the job must be able to:

- PC7.** use wax resist or masking tape to protect intricate hand-painted areas if a transparent glaze is not being used
- PC8.** use soft brushes to apply glaze in layers, suitable for detailed painted designs
- PC9.** dip large items to achieve consistent coverage without drips
- PC10.** pour glaze over large or irregular surfaces
- PC11.** spray by using an airbrush for a fine and even coat, suitable for intricate designs

##### *Layering and Detailing*

To be competent, the user/individual on the job must be able to:

- PC12.** apply multiple glaze layers to achieve depth or special effects

## Qualification Pack

**PC13.** allow the glaze to dry completely before moving to the next step

### *Firing the Glazed Piece*

To be competent, the user/individual on the job must be able to:

**PC14.** load the kiln carefully to prevent damage to the glazed surfaces

**PC15.** set the kiln to the appropriate temperature for the specific glaze used

**PC16.** monitor the cooling process to prevent cracks or warping

### *Final Touches*

To be competent, the user/individual on the job must be able to:

**PC17.** inspect the glazed piece for quality and smoothness

**PC18.** polish or clean off any sharp edges post-firing

### *Maintaining Tools and Work Area*

To be competent, the user/individual on the job must be able to:

**PC19.** keep sketching and painting tools (pencils, brushes, sponges, etc.) in designated areas

**PC20.** clean brushes, pens, and pencils after use to prevent buildup and preserve their quality

**PC21.** keep the work area clean and free of dust or debris

**PC22.** store materials like paints and solvents in safe places, away from heat or open flames

**PC23.** use protective gloves or aprons when handling paints or chemicals

**PC24.** inspect tools regularly for wear and tear. Replace any damaged or broken tools to maintain quality work

## Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

**KU1.** understand the purpose and benefits of glazing in ceramic artistry

**KU2.** understand the types of ceramic glazes and their purposes (e.g., transparent, opaque, glossy, matte)

**KU3.** identify and prepare the appropriate types of glazes based on the design and functional requirements

**KU4.** learn glaze preparation techniques, including mixing and adjusting consistency

**KU5.** master various glaze application techniques, including dipping, brushing, and spraying

**KU6.** understand firing processes and temperature requirements for different glazes

**KU7.** learn to fire glazed ceramics to achieve the desired finish

**KU8.** maintain safety standards and quality control during the glazing process

**KU9.** conduct quality checks to ensure the integrity and aesthetic of the final product

**KU10.** troubleshoot common glazing issues, like pinholes, blistering, or uneven coverage

## Generic Skills (GS)

User/individual on the job needs to know how to:

**GS1.** glazing requires precision to ensure an even coat, avoid drips, and achieve the desired aesthetic and functional properties

## Qualification Pack

- GS2.** accurate application of glaze, especially on intricate designs or small ceramic items
- GS3.** properties of glazes and the tools used ensures high-quality results
- GS4.** enhancing the visual appeal of ceramic products with artistic glaze application
- GS5.** glazing involves multiple stages that must align with drying and firing schedules
- GS6.** collaborating with team members to align the glazing process with overall design objectives
- GS7.** keeping up with new glazing techniques, materials, and industry trends

## Qualification Pack

### Assessment Criteria

| Assessment Criteria for Outcomes                                                                                            | Theory Marks | Practical Marks | Project Marks | Viva Marks |

## Qualification Pack

# HCS/N8519: Entrepreneurship Skills for Sketching and Painting Artisan (ceramics)

## Description

This module provides artisans with the tools and knowledge to manage and grow a ceramics-based business, particularly for those specializing in sketching and painting ceramic items. It covers key aspects such as product design and development, market research, branding, and financial management all aimed at helping artisans navigate the competitive market while preserving their unique artistic vision.

## Scope

The scope covers the following :

- understanding business fundamentals
- product design and development
- branding and promotion
- sales and negotiation
- marketing execution
- customer relationship management
- financial management
- sustainability practices

## Elements and Performance Criteria

### *Understanding Business Fundamentals*

To be competent, the user/individual on the job must be able to:

- PC1.** learn the basics of starting and running a business, including legal formalities, registration, and licenses
- PC2.** understand market dynamics specific to ceramic art, such as demand for custom-painted ceramics and seasonal trends

### *Product Design and Development*

To be competent, the user/individual on the job must be able to:

- PC3.** sketch unique designs for ceramic products that cater to specific markets
- PC4.** develop prototypes based on market demand

### *Branding and Promotion*

To be competent, the user/individual on the job must be able to:

- PC5.** develop a unique brand identity that highlights the artisan's style and quality
- PC6.** use storytelling to promote the heritage and uniqueness of hand-painted ceramics
- PC7.** leverage digital tools, such as social media, e-commerce websites, and art exhibitions, to increase visibility

### *Sales and Negotiation*

To be competent, the user/individual on the job must be able to:

- PC8.** interact with customers or clients effectively to close deals
- PC9.** handle bulk orders while maintaining quality and deadlines

## Qualification Pack

### *Marketing Execution*

To be competent, the user/individual on the job must be able to:

**PC10.** create attractive portfolios showcasing designs and projects

**PC11.** use photography and video to present products visually appealing online

### *Customer Relationship Management*

To be competent, the user/individual on the job must be able to:

**PC12.** maintain customer feedback records to improve products

**PC13.** offer customization to build long-term client relationships

### *Financial Management*

To be competent, the user/individual on the job must be able to:

**PC14.** create budgets, manage expenses, and track profits

**PC15.** understand basic accounting and tax requirements for ceramic art businesses

**PC16.** explore funding opportunities, such as government schemes, loans, or crowdfunding platforms

### *Sustainability Practices*

To be competent, the user/individual on the job must be able to:

**PC17.** adopt eco-friendly materials and techniques to meet customer preferences for sustainable products

**PC18.** reduce wastage during sketching and painting processes

## Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

**KU1.** overview of ceramic art trends, including contemporary and traditional styles

**KU2.** understanding customer preferences for hand-painted ceramics

**KU3.** current trends, such as minimalism, traditional designs, or abstract art

**KU4.** components of a business plan: vision, mission, target market, and financial goal

**KU5.** importance of a step-by-step growth strategy for small businesses

**KU6.** leveraging online marketplaces like Etsy, Amazon Handmade, and Instagram Shops

**KU7.** strategize pricing by analyzing production costs, time investment, and competitor pricing

**KU8.** transform creative works into marketable products

**KU9.** quality control measures to ensure durability and visual appeal of ceramic art

**KU10.** attend networking events to connect with fellow artisans and buyers

**KU11.** using non-toxic, eco-friendly paints and materials to align with modern consumer preferences

**KU12.** understanding GST, invoicing, and intellectual property rights (e.g., protecting original designs)

## Generic Skills (GS)

User/individual on the job needs to know how to:

## Qualification Pack

- GS1.** developing a clear business plan outlining goals, target audience, and growth strategies
- GS2.** designing a professional website or portfolio
- GS3.** structuring a business strategy that includes production planning, resource allocation, and financial management
- GS4.** maintain a balance between creativity and business requirements
- GS5.** inventory management of raw materials (paints, ceramic objects, brushes) and finished products
- GS6.** learning new painting techniques or trends in ceramics to stay relevant
- GS7.** stand out in competitive markets through unique branding and high-quality products
- GS8.** identifying and rectifying painting errors or material defects quickly

## Qualification Pack

### Assessment Criteria

### HCS/N9929: Working in a team

#### Description

This NOS describes the communication and coordination skills and knowledge to work with colleagues and supervisor to achieve a smooth and hazard-free workflow.

#### Scope

The scope covers the following :

- interact with supervisor or superior
- work as a team by coordinating with colleagues within and outside the department and include
- inputs on PwD & Gender Sensitisation
- report and Document

#### Elements and Performance Criteria

##### *Interact with supervisor or superior*

To be competent, the user/individual on the job must be able to:

- PC1.** comply with health, safety gender, and PwD (People with disability) related instructions applicable to the workplace
- PC2.** actively participate in mock drills/ evacuation procedures; group discussions, training sensitization programs for gender, and PwD awareness organized at the workplace.
- PC3.** receive job orders and instructions from reporting supervisor and receive feedback on work standards.
- PC4.** understand the work output requirements, targets, performance indicators and incentives.
- PC5.** deliver quality work on time and report any anticipated reasons for delays and handover completed work to supervisor
- PC6.** report on any grievances, production defects and any potential hazards.

##### *Work as a team by coordinating with colleagues within and outside the department and include inputs on PwD & Gender Sensitisation*

To be competent, the user/individual on the job must be able to:

- PC7.** communicate maintenance and repair schedule proactively to the supervisor
- PC8.** interact and clarify doubts on design, usage of materials & tools, quality & standards compliance, etc.

##### *Report and Document*

To be competent, the user/individual on the job must be able to:

- PC9.** report in time for shortage or need of raw materials
- PC10.** communicate with colleagues from within and other departments, clearly and effectively on all aspects to carry out the work among the team
- PC11.** maintain the etiquette, use polite language, demonstrate responsible and disciplined behavior towards colleagues.
- PC12.** put team over individual goals and multi-task or share work where necessary supporting the colleagues.

## Qualification Pack

**PC13.** document all the details accurately relating to ones role as required.

### Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** knowledge about the importance of gender equality being followed in the organization and policies for reporting any harassment or inappropriate behavior
- KU2.** knowledge about how to accommodate employees with disabilities etiquette to adhere to and proper language and terminology
- KU3.** knowledge about how to communicate, offer help, respecting space, parking etc. for people with disabilities or special needs
- KU4.** knowledge about promoting a safe, accessible and healthy workplace for disabled employees
- KU5.** company's policies on preferred language of communication, incentives, quality standards, personnel management, reporting and escalation matrix policy.
- KU6.** company's standard operating procedure (sop) and the risk and impact of not following them.
- KU7.** procedures for working with colleagues, his/her role and responsibilities in relation to this
- KU8.** organizational hierarchy and the line of reporting structure and work target and review mechanism
- KU9.** procedures to report employment related issues and to deal with conflicts
- KU10.** importance of the individuals role in the organizational workflow and details of the individual responsibilities
- KU11.** tools and equipment handling procedure and common potential hazards in the work place and the procedures to deal with them
- KU12.** effective communication with various categories of people and the different departments in the organization
- KU13.** to document the job activity as required like the check sheets, history sheets, etc
- KU14.** expressing and addressing grievances appropriately, deal with difficult work relationships and manage the internal conflicts effectively

### Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** create a positive and inclusive workplace atmosphere without any kind of bias/discrimination towards any employee
- GS2.** actively take part in any discussion/workshop organized for gender sensitization training
- GS3.** read and comprehend written instructions related to gender equality issues in the organization
- GS4.** identify and report any harassment or inappropriate behavior towards any employee
- GS5.** create a positive and inclusive workplace atmosphere without any kind of bias/discrimination towards any employee with disability or special needs
- GS6.** actively take part in any discussion/workshop organized for disability sensitization training.

## Qualification Pack

- GS7.** read and comprehend written instructions related to equality issues in the organization related to disabled persons
- GS8.** read job sheets, design sheet and information displayed at the workplace
- GS9.** read and understand manuals, health and safety instructions, memos etc
- GS10.** fill up documentation to ones role
- GS11.** communicate effectively with supervisor
- GS12.** contribute to quality of team work and achieve smooth workflow
- GS13.** improve work processes by interacting with others and adopting best practices

## Qualification Pack

### HCS/N9940: Managing people and Resources in Business

#### Description

This OS unit focuses on business planning, internal strategy, timelines.

#### Scope

The scope covers the following :

- people management
- product planning
- procurement of raw materials
- market interfacing
- financial management
- record keeping

#### Elements and Performance Criteria

##### *People management*

To be competent, the user/individual on the job must be able to:

- PC1.** arrange Interactive meetings of managers of sales and production teams and categorize the issues and feedbacks of both the teams
- PC2.** train the employees of his/her unit with the appropriate skills required to make market relevant and quality products
- PC3.** motivate the employees

##### *Product planning*

To be competent, the user/individual on the job must be able to:

- PC4.** compile a report based on old production reports
- PC5.** address the issues faced in previous productions and try to resolve them
- PC6.** gather and analyze the cues from the market
- PC7.** ascertain the customer preference
- PC8.** develop product range lines based on current market preference
- PC9.** develop product range lines that are unique and able to price high
- PC10.** price the products according to market trends
- PC11.** identify the competent marketing strategy for the product range

##### *Procurement of raw materials*

To be competent, the user/individual on the job must be able to:

- PC12.** list of the raw material s and prepare a B.O.M according to the product lines
- PC13.** ascertain the quantity and right price to procure the materials
- PC14.** identify the right locations/agents from where the raw materials can be procured
- PC15.** negotiate to get the best price
- PC16.** ensure quality materials are procured

## Qualification Pack

**PC17.** ensure the procured materials are stored in appropriate conditions

**PC18.** compile a record of price quotations, POs, and bills of procurement for future reference

### *Market interfacing*

To be competent, the user/individual on the job must be able to:

**PC19.** maintain a healthy and professional relationship with vendor

**PC20.** the competitive market falls in order with the company policies of best price, quality, and delivery parameters

**PC21.** analyze the prevalent price for product lines

**PC22.** decide on the most effective means to access the market

**PC23.** plan for cost-effective transportation to the market

**PC24.** position the product according to market requirements

**PC25.** identify and address the expectations of customer

### *Financial management*

To be competent, the user/individual on the job must be able to:

**PC26.** analyze and ascertain the cost of production

**PC27.** maintain the book of accounts related to the business

**PC28.** maintain export documents like a letter of credit, custom clearance

**PC29.** identify cost-effective means of running the business

### *Record keeping*

To be competent, the user/individual on the job must be able to:

**PC30.** identify various aspects of business that require recording

**PC31.** design formats for recording

**PC32.** compile various records of all aspects of the business

**PC33.** maintain these records with periodic updations

**PC34.** maintain necessary documents as per local government and regulatory requirements

**PC35.** reframe the procurement strategy according to local scenarios like weather conditions, transport strikes, affected prices, etc.

## Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

**KU1.** interpersonal skills and communication with a cross-section of stakeholders

**KU2.** understanding of basics accounting so that he/she can monitor the transactions between company and vendor

**KU3.** knowledge of banking basics to keep the export process flawless

**KU4.** understanding of costing principles to calculate the cost of production with all the overheads and the actual price

**KU5.** product and craft knowledge including material and tools requirements

**KU6.** gathering market intelligence.

**KU7.** various transportation means and implications on costing

**KU8.** various product lines that can be created depending on the sector of operation

## Qualification Pack

- KU9.** basic record-keeping techniques
- KU10.** basic laws, rules, regulations, etc. regarding business
- KU11.** vendor management and development
- KU12.** pricing techniques
- KU13.** business profitability assessment

## Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** analyse product range and keep abreast of market trends
- GS2.** document various aspects of the business
- GS3.** compile descriptions and details about investment, expenditures, and sales
- GS4.** interact with teams to work efficiently
- GS5.** communicate and manage vendors for cost-effective outsourcing and procurements
- GS6.** interface with fellow entrepreneurs to exchange ideas on the business
- GS7.** communicate with the customers for their feedback about the product
- GS8.** comprehend information shared by various stakeholders
- GS9.** plan and organize the product lines
- GS10.** fix the appropriate price.
- GS11.** hire employees with the appropriate skill set and experience
- GS12.** predict the profit margin to be achieved by the business
- GS13.** decide target segment of the market
- GS14.** schedule production cycles for better efficiency of resources
- GS15.** planning of production efficiency based on manpower and equipment available
- GS16.** schedule market visits for surveys and feedback
- GS17.** gather information on preference and taste of the customer
- GS18.** interact with various types of customers and understand the trends
- GS19.** analyze and solve conflicts and problems of the business.
- GS20.** ensure that the problems do not arise repeatedly.
- GS21.** anticipate various problems/challenges that can crop up
- GS22.** analyze the market for increasing sales
- GS23.** spot errors and any other disruptions and communicate with solutions

## Assessment Guidelines and Assessment Weightage

### Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score the Recommended Pass % aggregate for the QP.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

## Qualification Pack

**Minimum Aggregate Passing % at QP Level : 70**

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

|----------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Sector</b>                                | Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.                                                                      |
| <b>Sub-sector</b>                            | Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.                                                                                                                                                                                     |
| <b>Occupation</b>                            | Occupation is a set of job roles, which perform similar/ related set of functions in an industry.                                                                                                                                                                                                |
| <b>Job role</b>                              | Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.                                                                                                                                                                                |
| <b>Occupational Standards (OS)</b>           | OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts. |
| <b>Performance Criteria (PC)</b>             | Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.                                                                                                                                                                    |
| <b>National Occupational Standards (NOS)</b> | NOS are occupational standards which apply uniquely in the Indian context.                                                                                                                                                                                                                       |
| <b>Qualifications Pack (QP)</b>              | QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.                                                                                                                       |
| <b>Unit Code</b>                             | Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'                                                                                                                                                                                                        |
| <b>Unit Title</b>                            | Unit title gives a clear overall statement about what the incumbent should be able to do.                                                                                                                                                                                                        |
| <b>Description</b>                           | Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.                                                                                                                   |
| <b>Scope</b>                                 | Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.                                                                                            |

## Qualification Pack

|                                         |                                                                                                                                                                                                                                                                                                                                                                        |
|-----------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Knowledge and Understanding (KU)</b> | Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.                                                                                                                                               |
| <b>Organisational Context</b>           | Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.                                                                                                                                                                       |
| <b>Technical Knowledge</b>              | Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.                                                                                                                                                                                                                                                               |
| <b>Core Skills/ Generic Skills (GS)</b> | Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles. |
| <b>Electives</b>                        | Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.                                                                            |
| <b>Options</b>                          | Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.                                                                                                                                                          |
