HCS/N0818: Prepare the Raw materials for making the leather toy products

Description

The unit discuss in details about the preparation of raw materials before beginning the production processes. It informs about performance criteria, knowledge and understanding, and skills required to become a Leather Toy Maker Master Craftsman.

Scope

The scope covers the following :

- assemble required raw materials
- processing the raw materials
- check quality and productivity standards

Elements and Performance Criteria

assemble required raw materials

To be competent, the user/individual on the job must be able to:

- PC1.** identify the raw materials for making the pattern and mold
- PC2.** arrange the different tools and equipment at the workplace
- PC3.** ensure raw material are as per product requirement both in terms of quality and quantity
- PC4.** identify the appropriate amount of cardboard pulp and glue (form of leather) based on the job specifications
- PC5.** arrange the suitable synthetic water colors and polish as per the product requirement required for coloring the objects
- PC6.** arrange galvanized iron wires of appropriate size and dimensions required for making the skeleton of toy based on the approved job specification
- PC7.** place appropriate quantity of water in a drum based on the job specification
- PC8.** place eyes, teeth and soles of an appropriate size and numbers required for making leather toy
- PC9.** deliver the remaining raw material to the appropriate storage locations

Processing the raw materials

To be competent, the user/individual on the job must be able to:

- PC10.** explain the importance of wrapping galvanized wires of mild steel or iron of 1mm to 4mm thick depending upon the size of the toy skeleton
- PC11.** list the parameters required for covering the skeleton with grass and wood wool strands to give mass to the body of the toy
- PC12.** identify the type of thread is using on to the skeleton of toy to give the structure an additional support
- PC13.** place the appropriate quantity of copper sulphate paste (layee) for joining the joints and edges of the skeleton and place in the sunlight for drying the same

Qualification Pack

- PC14.** apply standard operating procedures while using the solution of cardboard pulp in the appropriate ratio of 1:20 of the cardboard powder
- PC15.** arrange the suitable type of leather with an appropriate thickness of 0.6mm to 0.8 mm in skins and 1mm to 1.25mm in hides depending upon the job specification
- PC16.** select synthetic water color based on the standard finishing sheet and mix with water in an appropriate proportion depending upon the job sheet
- PC17.** perform the appropriate cleaning procedures to clean the tools and equipment after their use to prevent color spots, stains and rust

Check quality and productivity standards

To be competent, the user/individual on the job must be able to:

- PC18.** demonstrate the inspection process based on the quality standard parameters to ensure the appropriate thickness and surface finishing is being achieved
- PC19.** demonstrate the steps to be followed while maintaining records of inspection results/tests. ensure that there is no wastage of the materials
- PC20.** prepare a sample format /template to collect information during inspection based on color, polish, cardboard pulp and quality of leather
- PC21.** achieve periodical targets set by the supervisor
- PC22.** identify the different types of parameters required to ensure the appropriate amount of inventory is being stored at the time production

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** personnel management, relevant legislation, standards, policies, and procedures followed in the company
- KU2.** organisation structure
- KU3.** company's policies related to dress code and etiquette
- KU4.** the locations where the materials are typically stored
- KU5.** the key product lines of the company
- KU6.** basic leather properties of various raw materials used
- KU7.** discuss about appropriate joining and trimming techniques
- KU8.** basic calculation methods required for calculating raw materials
- KU9.** the appropriate safety measures while handling the raw materials
- KU10.** ensure the proper usage of oxides colors and wax
- KU11.** handle the use of sharp tools and equipment
- KU12.** ensuring that there is no mal handling/accidents due to improper handling of the raw materials
- KU13.** storing the raw materials appropriately
- KU14.** handling the equipment like knife, fork, spoke shaver and hammer appropriately
- KU15.** the recommended storage of the prepared colour proportions and properties of wax
- KU16.** controls and basic up keeping of hand cutter techniques
- KU17.** labelling and storing the color and wax mixes

Qualification Pack

KU18. follow greening solutions, policies and practices

KU19. importance of gender-sensitization at workplace

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** write basic process notes
- GS2.** write about manual mixing techniques
- GS3.** read about various leather properties related information
- GS4.** read about operating the sharp tools and hand cutters
- GS5.** interact with employees to work efficiently
- GS6.** interact with the supervisor
- GS7.** communicate the gaps in process, if any to supervisor
- GS8.** take the right raw materials according to the end product
- GS9.** decide on the proportion of ratio of color and sulphate solution
- GS10.** maintain the working schedule appropriately in order to achieve the daily targets
- GS11.** interpret the customer preference, demand, etc. and accordingly make job sheet
- GS12.** to solve work related problems
- GS13.** to analyze the material requirement
- GS14.** spot process disruptions and delays
- GS15.** report on any concerns to superiors without delay
- GS16.** respect persons with disabilities

HCS/N0819: Carry out the processes for making the Leather toy products

Description

This unit discusses in detail the different processes involved in making any leather craft product including shaping of main frame of product with hard leather, wet leather, grain leather and bonded leather frame and then finishing of the final product.

Scope

The scope covers the following :

- carry out the process of making wire frame
- carry out the process of smoothening and finishing

Elements and Performance Criteria

carry out the process of making wire frame

To be competent, the user/individual on the job must be able to:

- PC1.** identify the tools and equipment to be used for the preparation of the product in accordance to the specifications provided
- PC2.** apply the standard operating procedures to make the wire frame structure based on thickness and materials used for making the final product
- PC3.** perform the process of wrapping the grass and strands in the form of bunches with appropriate thickness of threads to build the mass on the skeleton
- PC4.** demonstrate the standard operating procedures to make the cardboard crushed and moistened for further processing
- PC5.** perform the standard mixing procedures for mixing the moistened and crushed cardboard pulp with tamarina flour
- PC6.** perform the process the tanning process on leather material for preserving through putrefaction to avoid any loss to the properties of leather
- PC7.** apply standard operating procedures for wrapping the leather material on the skeleton based on thickness and skin type based on the job specification
- PC8.** arrange the materials eyes, teeth, soles and nails along with appropriate colors and sizes from 1/4th of an inch to 2 inch depending upon the size of the toy

carry out the process of smoothening and finishing

To be competent, the user/individual on the job must be able to:

- PC9.** perform the standard operating procedures to place the finishing objects on the final prepared product ensuring the correct dimensions and sizes are there
- PC10.** select the suitable color combinations and the appropriate quantity of wax polish based on the job specification
- PC11.** apply standard organizational safety procedures while using sulphate oxides, synthetic colors, wax polish and sharp tools and equipment
- PC12.** select the appropriate quantity of glue for sticking leather over the model body by boiling tamarind powder

Qualification Pack

- PC13.** perform the standard organizational procedures for making the surface smooth and finished by using a rubbing stone over the wet leather
- PC14.** demonstrate the visual inspection on the product made to check the joints, edges, surface finishing and smoothness
- PC15.** place the product in the sunlight for drying the wet leather for minimum 10 to 15 days
- PC16.** perform the process of weighing the final product and make the record of consumption of raw materials used for making the final product

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** policies pertaining to the use of tools and equipment within the organization
- KU2.** organizational procedures for preparing to use processes raw materials
- KU3.** different procedural steps involved prior to following any specific process for the production of the desired product
- KU4.** organizational processes for preparing the production area prior to beginning production activities
- KU5.** usage of raw materials as per the product and design
- KU6.** need for of leather type, glue, wire, colors etc. craft material
- KU7.** different leather type, colors and wax used for preparing final product
- KU8.** usage and role of the wax polish agents and sulphate oxides in the process
- KU9.** step by step process of drying the wet leather
- KU10.** importance of the duration of dip for the required concentration of colors
- KU11.** safety measure and proper handling of the sharp tools and equipment
- KU12.** smooth and finishing processes on the leather surface

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** write required steps to be followed while preparing for the production process
- GS2.** write about processes related to maintaining tools and equipment
- GS3.** write about maintaining the processed raw materials before starting the production process
- GS4.** read instructions related to preparing work area for production process
- GS5.** read instructions on the usage and safety precautions related to tools
- GS6.** read instructions related to respective production process
- GS7.** communicate with responsible personnel to convey desired message most efficiently
- GS8.** approach meeting pre-production preparation requirements
- GS9.** meet raw material requirement for production
- GS10.** facilitate production process requirements
- GS11.** ensure the use of tools and equipments to their optimum efficiency
- GS12.** extract procedural requirements with respect to customer specifications

Qualification Pack

- GS13.** resolve any faults that may arise during this pre-production process
- GS14.** develop innovative techniques to meet product requirements faster with desired quality
- GS15.** avoid any drawback in this pre-production process

Qualification Pack

HCS/N9805: Entrepreneurship Skills for making leather toys

Description

This unit focuses on developing essential entrepreneurship skills specifically tailored for artisans involved in making leather toys. It aims to equip learners with the knowledge and abilities necessary to successfully establish and manage a leather toy business while fostering creativity and craftsmanship.

Scope

The scope covers the following :

- creativity and design skills
- technical proficiency
- business management skills
- marketing and sales skills
- networking and collaboration

Elements and Performance Criteria

Creativity and Design Skills

To be competent, the user/individual on the job must be able to:

- PC1.** ability to develop unique and innovative toy designs that attract customers
- PC2.** understanding of market trends to incorporate popular themes and aesthetics

Technical Proficiency

To be competent, the user/individual on the job must be able to:

- PC3.** mastery of leatherworking techniques, including cutting, stitching, and finishing
- PC4.** knowledge of various types of leather and their properties for optimal material selection
- PC5.** ability to operate specialized tools and machinery for toy production

Business Management Skills

To be competent, the user/individual on the job must be able to:

- PC6.** understanding of financial principles, including budgeting and cost management
- PC7.** capability to create and implement effective business plans and marketing strategies
- PC8.** skills in inventory management to ensure a steady supply of materials and products

Marketing and Sales Skills

To be competent, the user/individual on the job must be able to:

- PC9.** proficiency in digital marketing strategies, including social media and online sales platforms
- PC10.** ability to build strong customer relationships and provide excellent service
- PC11.** understanding of branding principles to effectively position products in the market

Networking and Collaboration

To be competent, the user/individual on the job must be able to:

- PC12.** ability to connect with other artisans, suppliers, and industry professionals for collaboration
- PC13.** skills in attending trade shows and fairs to showcase products and expand reach

Qualification Pack

PC14. understanding of community engagement to promote local craftsmanship and sustainable practices

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** personnel management, relevant legislation, standards, policies, and procedures followed in the company
- KU2.** company's policies related to dress code and etiquette
- KU3.** ability to develop unique and innovative toy designs that attract customers
- KU4.** understanding of market trends to incorporate popular themes and aesthetics
- KU5.** familiarity with industry standards and regulations regarding toy safety and materials
- KU6.** awareness of sustainable practices in leather sourcing and production processes.
- KU7.** the appropriate safety measures while handling the raw materials
- KU8.** Understanding customer needs and preferences to create products that resonate with the target market

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** ability to clearly convey ideas and instructions to team members and customers
- GS2.** strong listening skills to understand customer feedback and adapt accordingly
- GS3.** capability to identify issues in the production process and find effective solutions
- GS4.** ability to prioritize tasks effectively to meet production deadlines
- GS5.** skills in scheduling and planning to balance multiple projects simultaneously
- GS6.** use of tools and techniques to enhance productivity and efficiency
- GS7.** openness to learning new techniques and embracing technological advancements
- GS8.** flexibility to pivot business strategies in response to market changes
- GS9.** willingness to experiment with different materials and design concepts

HCS/N9908: Working in a Team

Description

This unit is about working as part of a team in the process.

Elements and Performance Criteria

Commitment and trust

To be competent, the user/individual on the job must be able to:

- PC1.** Be accountable to ones own role in whole process.
- PC2.** Perform all roles with full responsibility.

Communication

To be competent, the user/individual on the job must be able to:

- PC3.** Report problems faced during the process.
- PC4.** Talk politely with other team members and colleagues.
- PC5.** Submit daily report of own performance.

Adaptability

To be competent, the user/individual on the job must be able to:

- PC6.** Adjust in different work situations.
- PC7.** Give due importance to others point of view.
- PC8.** Avoid conflicting situations.

Creative freedom

To be competent, the user/individual on the job must be able to:

- PC9.** Develop new ideas for work procedures
- PC10.** Improve upon the existing techniques to increase process efficiency

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** General rules and regulations in the sector.
- KU2.** Procedure followed to get the final output.
- KU3.** Safe working practices to be adopted.
- KU4.** Reporting to the supervisor or higher authority about any grievances faced.
- KU5.** Understanding the importance of the previous and next step of the process.
- KU6.** Process flow in the handicraft section.
- KU7.** Material sequence of flow.
- KU8.** Functions of different parts of product development.
- KU9.** Tools and equipments used.
- KU10.** Guidelines for operating the equipment.
- KU11.** Safety procedures to be followed as applicable.

Qualification Pack

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Prepare status and progress reports.
- GS2.** Write memos and e-mail to co-workers, and vendors to provide them with work updates and to request appropriate information without English language errors regarding grammar or sentence construct.
- GS3.** Keep abreast with the latest knowledge by reading brochures, pamphlets, and product information sheets.
- GS4.** Discuss task lists, schedules, and work-loads with co-workers.
- GS5.** Keep co-workers and supervisors informed about progress.
- GS6.** Make decisions pertaining to the concerned area of work.
- GS7.** Plan and organize service feedback files/documents.
- GS8.** Manage relationships with customers.
- GS9.** Build customer relationships and use customer centric approach.
- GS10.** Think through the problem, evaluate the possible solution(s) and suggest an optimum /best possible solution(s).
- GS11.** Identify immediate or temporary solutions to resolve delays.
- GS12.** Use the existing data to arrive at specific data points.
- GS13.** Apply, analyze, and evaluate the information gathered from observation, experience, reasoning, or communication, as a guide to thought and action.

HCS/N9945: Maintaining workplace health and safety

Description

This unit provides Performance Criteria, Knowledge & Understanding, and Skills & Abilities required to comply with health, safety, and security requirements at the workplace and covers procedures to prevent, control, and minimize risk to self and others.

Scope

The scope covers the following :

- Comply with health, safety, and security requirements at work

Elements and Performance Criteria

Comply with health, safety, and security requirements at work

To be competent, the user/individual on the job must be able to:

- PC1.** comply with health and safety related instructions applicable to the workplace.
- PC2.** use and maintain personal protective equipment as per protocol.
- PC3.** carry out own activities in line with approved guidelines and procedures
- PC4.** maintain a healthy lifestyle and guard against dependency on intoxicants.
- PC5.** follow environment management system related procedures.
- PC6.** store materials and tools in line with manufacturers and organisational requirements
- PC7.** safely handle and move waste and debris.
- PC8.** minimize health and safety risks to self and others due to own actions
- PC9.** seek clarifications, from supervisors or other authorized personnel in case of perceived risks
- PC10.** monitor the workplace and work processes for potential risks and threats.
- PC11.** carry out periodic walk-through to keep work area free from hazards and obstructions, if assigned
- PC12.** report hazards and potential risks/ threats to supervisors or other authorized personnel
- PC13.** participate in mock drills/ evacuation procedures organized at the workplace
- PC14.** undertake first aid, fire-fighting and emergency response training, if asked to do so
- PC15.** take action based on instructions in the event of fire, emergencies or accidents
- PC16.** follow organisation procedures for evacuation when required

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** health and safety related practices applicable at the workplace
- KU2.** potential hazards, risks and threats based on nature of operations
- KU3.** organizational procedures for safe handling of tools

Qualification Pack

- KU4.** potential risks due to own actions and methods to minimize these
- KU5.** environmental management system related procedures at the workplace.
- KU6.** layout of the plant and details of emergency exits, escape routes, emergency equipment and assembly points
- KU7.** potential accidents and emergencies and response to these scenarios
- KU8.** reporting protocol and documentation required
- KU9.** details of personnel trained in first aid, fire-fighting and emergency response
- KU10.** actions to take in the event of a mock drills/ evacuation procedures or actual accident, emergency or fire.
- KU11.** occupational health and safety risks and methods
- KU12.** personal protective equipment and method of use
- KU13.** identification, handling and storage of hazardous substances
- KU14.** proper disposal system for waste and by-products
- KU15.** signage related to health and safety and their meaning
- KU16.** importance of sound health, hygiene and good habits
- KU17.** ill-effects of alcohol, tobacco and drugs

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** write in local language.
- GS2.** read measurement instructions
- GS3.** communicate orally with colleagues
- GS4.** follow organization rule-based decision making process
- GS5.** take decision with systematic course of actions and/or response
- GS6.** plan and organize your work to achieve targets and deadlines
- GS7.** manage relationships with customers
- GS8.** build customer relationships and use customer centric approach
- GS9.** think through the problem, evaluate the possible solution(s) and suggest an optimum /best possible solution(s)
- GS10.** identify immediate or temporary solutions to resolve delays
- GS11.** analyze data and activities.
- GS12.** pass on relevant information to others
- GS13.** apply, analyze, and evaluate the information gathered from observation, experience, reasoning, or communication, as a guide to thought and action

HCS/N9904: Basic Business Management

Description

This OS unit focuses on business planning, internal strategy, timelines.

Scope

The scope covers the following :

- people management
- product planning
- procurement of raw materials
- market interfacing
- financial management
- record keeping

Elements and Performance Criteria

People management

To be competent, the user/individual on the job must be able to:

- PC1.** arrange Interactive meetings of managers of sales and production teams and categorize the issues and feedbacks of both the teams
- PC2.** train the employees of his/her unit with the appropriate skills required to make market relevant and quality products
- PC3.** motivate the employees

Product planning

To be competent, the user/individual on the job must be able to:

- PC4.** compile a report based on old production reports
- PC5.** address the issues faced in previous productions and try to resolve them
- PC6.** gather and analyze the cues from the market
- PC7.** ascertain the customer preference
- PC8.** develop product range lines based on current market preference
- PC9.** develop product range lines that are unique and able to price high
- PC10.** price the products according to market trends
- PC11.** identify the competent marketing strategy for the product range

Procurement of raw materials

To be competent, the user/individual on the job must be able to:

- PC12.** list of the raw material s and prepare a B.O.M according to the product lines
- PC13.** ascertain the quantity and right price to procure the materials
- PC14.** identify the right locations/agents from where the raw materials can be procured
- PC15.** negotiate to get the best price
- PC16.** ensure quality materials are procured

Qualification Pack

PC17. ensure the procured materials are stored in appropriate conditions

PC18. compile a record of price quotations, POs, and bills of procurement for future reference

Market interfacing

To be competent, the user/individual on the job must be able to:

PC19. maintain a healthy and professional relationship with vendor

PC20. the competitive market falls in order with the company policies of best price, quality, and delivery parameters

PC21. analyze the prevalent price for product lines

PC22. decide on the most effective means to access the market

PC23. plan for cost-effective transportation to the market

PC24. position the product according to market requirements

PC25. identify and address the expectations of customer

Financial management

To be competent, the user/individual on the job must be able to:

PC26. analyze and ascertain the cost of production

PC27. maintain the book of accounts related to the business

PC28. maintain export documents like a letter of credit, custom clearance

PC29. identify cost-effective means of running the business

Record keeping

To be competent, the user/individual on the job must be able to:

PC30. identify various aspects of business that require recording

PC31. design formats for recording

PC32. compile various records of all aspects of the business

PC33. maintain these records with periodic updations

PC34. maintain necessary documents as per local government and regulatory requirements

PC35. reframe the procurement strategy according to local scenarios like weather conditions, transport strikes, affected prices, etc.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. interpersonal skills and communication with a cross-section of stakeholders

KU2. understanding of basics accounting so that he/she can monitor the transactions between company and vendor

KU3. knowledge of banking basics to keep the export process flawless

KU4. understanding of costing principles to calculate the cost of production with all the overheads and the actual price

KU5. product and craft knowledge including material and tools requirements

KU6. gathering market intelligence.

KU7. various transportation means and implications on costing

KU8. various product lines that can be created depending on the sector of operation

Qualification Pack

- KU9.** basic record-keeping techniques
- KU10.** basic laws, rules, regulations, etc. regarding business
- KU11.** vendor management and development
- KU12.** pricing techniques
- KU13.** business profitability assessment

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** analyse product range and keep abreast of market trends
- GS2.** document various aspects of the business
- GS3.** compile descriptions and details about investment, expenditures, and sales
- GS4.** interact with teams to work efficiently
- GS5.** communicate and manage vendors for cost-effective outsourcing and procurements
- GS6.** interface with fellow entrepreneurs to exchange ideas on the business
- GS7.** communicate with the customers for their feedback about the product
- GS8.** comprehend information shared by various stakeholders
- GS9.** plan and organize the product lines
- GS10.** fix the appropriate price.
- GS11.** hire employees with the appropriate skill set and experience
- GS12.** predict the profit margin to be achieved by the business
- GS13.** decide target segment of the market
- GS14.** schedule production cycles for better efficiency of resources
- GS15.** planning of production efficiency based on manpower and equipment available
- GS16.** schedule market visits for surveys and feedback
- GS17.** gather information on preference and taste of the customer
- GS18.** interact with various types of customers and understand the trends
- GS19.** analyze and solve conflicts and problems of the business.
- GS20.** ensure that the problems do not arise repeatedly.
- GS21.** anticipate various problems/challenges that can crop up
- GS22.** analyze the market for increasing sales
- GS23.** spot errors and any other disruptions and communicate with solutions

DGT/VSQ/N0102: Employability Skills (60 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Career Development & Goal Setting
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

- PC1.** identify employability skills required for jobs in various industries
- PC2.** identify and explore learning and employability portals

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

- PC3.** recognize the significance of constitutional values, including civic rights and duties, citizenship, responsibility towards society etc. and personal values and ethics such as honesty, integrity, caring and respecting others, etc.
- PC4.** follow environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

- PC5.** recognize the significance of 21st Century Skills for employment
- PC6.** practice the 21st Century Skills such as Self-Awareness, Behaviour Skills, time management, critical and adaptive thinking, problem-solving, creative thinking, social and cultural awareness, emotional awareness, learning to learn for continuous learning etc. in personal and professional life

Basic English Skills

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC7.** use basic English for everyday conversation in different contexts, in person and over the telephone
- PC8.** read and understand routine information, notes, instructions, mails, letters etc. written in English
- PC9.** write short messages, notes, letters, e-mails etc. in English

Career Development & Goal Setting

To be competent, the user/individual on the job must be able to:

- PC10.** understand the difference between job and career
- PC11.** prepare a career development plan with short- and long-term goals, based on aptitude

Communication Skills

To be competent, the user/individual on the job must be able to:

- PC12.** follow verbal and non-verbal communication etiquette and active listening techniques in various settings
- PC13.** work collaboratively with others in a team

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

- PC14.** communicate and behave appropriately with all genders and PwD
- PC15.** escalate any issues related to sexual harassment at workplace according to POSH Act

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

- PC16.** select financial institutions, products and services as per requirement
- PC17.** carry out offline and online financial transactions, safely and securely
- PC18.** identify common components of salary and compute income, expenses, taxes, investments etc
- PC19.** identify relevant rights and laws and use legal aids to fight against legal exploitation

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

- PC20.** operate digital devices and carry out basic internet operations securely and safely
- PC21.** use e-mail and social media platforms and virtual collaboration tools to work effectively
- PC22.** use basic features of word processor, spreadsheets, and presentations

Entrepreneurship

To be competent, the user/individual on the job must be able to:

- PC23.** identify different types of Entrepreneurship and Enterprises and assess opportunities for potential business through research
- PC24.** develop a business plan and a work model, considering the 4Ps of Marketing Product, Price, Place and Promotion
- PC25.** identify sources of funding, anticipate, and mitigate any financial/ legal hurdles for the potential business opportunity

Customer Service

To be competent, the user/individual on the job must be able to:

- PC26.** identify different types of customers
- PC27.** identify and respond to customer requests and needs in a professional manner.

Qualification Pack

PC28. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC29. create a professional Curriculum vitae (Résumé)

PC30. search for suitable jobs using reliable offline and online sources such as Employment exchange, recruitment agencies, newspapers etc. and job portals, respectively

PC31. apply to identified job openings using offline /online methods as per requirement

PC32. answer questions politely, with clarity and confidence, during recruitment and selection

PC33. identify apprenticeship opportunities and register for it as per guidelines and requirements

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills and different learning and employability related portals

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use English language for effective verbal (face to face and telephonic) and written communication in formal and informal set up

KU6. importance of career development and setting long- and short-term goals

KU7. about effective communication

KU8. POSH Act

KU9. Gender sensitivity and inclusivity

KU10. different types of financial institutes, products, and services

KU11. how to compute income and expenditure

KU12. importance of maintaining safety and security in offline and online financial transactions

KU13. different legal rights and laws

KU14. different types of digital devices and the procedure to operate them safely and securely

KU15. how to create and operate an e- mail account and use applications such as word processors, spreadsheets etc.

KU16. how to identify business opportunities

KU17. types and needs of customers

KU18. how to apply for a job and prepare for an interview

KU19. apprenticeship scheme and the process of registering on apprenticeship portal

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score the Recommended Pass % aggregate for the QP.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Minimum Passing % at NOS Level: 50

(Please note: A Trainee must score the minimum percentage for each NOS separately as well as on the QP as a whole.)

Assessment Weightage

Compulsory NOS

National Occupational Standards	Theory Marks	Practical Marks	Project Marks	Viva Marks	Total Marks	Weightage
HCS/N0818.Prepare the Raw materials for making the leather toy products	22	78	0	0	100	20

Qualification Pack

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
