HCS/N1306: Perform final finish to the Jewellery

Description

This OS unit is about assembling the materials, finishing the final jewel to be dispatched, checking the quality and achieving quality standards.

Scope

The scope covers the following :

- Selection and preparation of Raw materials
- Designing and Crafting Jewellery Pieces
- Finishing and Quality Control
- Packaging and Presentation of Jewellery

Elements and Performance Criteria

Selection and Preparation of Raw materials

To be competent, the user/individual on the job must be able to:

- PC1.** Identify and select appropriate raw materials such as Cowrie shells, Resin, Mirror, Beads, Pearls, Colourful threads, Fabric, Terracotta beads, Rhinestones, Eye pins, Head pins, Jump rings, Ear wires, Lobster hooks, etc. based on design specifications.
- PC2.** Inspect materials for quality, ensuring no defects in decorative components before use.
- PC3.** Prepare materials by shaping, and organizing components like jump rings, ear wires, and lobster hooks for efficient assembly.
- PC4.** Maintain proper storage and handling techniques to prevent damage to delicate elements like pearls and resin pieces.

Designing and crafting jewellery pieces

To be competent, the user/individual on the job must be able to:

- PC5.** Create jewellery designs incorporating selected materials such as colourful threads, fabric, and beads to meet aesthetic and functional requirements.
- PC6.** Use appropriate tools (pliers, cutters, tweezers) for wirework, assembling cowrie shells, and securing components like eye pins and head pins.
- PC7.** Ensure proper alignment and balance in jewellery pieces, maintaining uniformity in handcrafted terracotta bead and mirror work designs.
- PC8.** Follow safety protocols while handling sharp tools and adhesives during jewellery assembly.

Finishing and Quality control

To be competent, the user/individual on the job must be able to:

- PC9.** Check jewellery for secure fittings, ensuring jump rings, lobster hooks, and ear wires are correctly attached.
- PC10.** Polish and refine surfaces to remove excess adhesive or rough edges, especially in resin and mirror-based designs.
- PC11.** Test durability and wearability by conducting minor stress tests on beadwork and thread-based components.

Qualification Pack

PC12. Ensure final products meet customer expectations and industry standards before packaging and delivery.

Packaging and presentation of jewellery

To be competent, the user/individual on the job must be able to:

PC13. Select suitable packaging materials such as fabric pouches, eco-friendly boxes, or velvet-lined cases to protect delicate items like pearls, resin pieces, and mirror work jewellery.

PC14. Ensure secure placement of jewellery in packaging to prevent damage, tangling of threads, or scratches on beads and rhinestones.

PC15. Attach branding elements such as tags, labels, and care instructions to enhance customer experience and maintain brand identity.

PC16. Store packaged jewellery properly before shipment or display, ensuring it remains dust-free and in pristine condition.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. Basic principles of jewellery design, including symmetry, balance, and aesthetics.

KU2. Techniques for assembling various materials like terracotta beads, colourful threads, and cowrie shells.

KU3. Wirework techniques, including bending, looping, and wrapping using eye pins, head pins, and jump rings.

KU4. Properties of fashion jewellery materials such as resin, mirror, beads, pearls, and fabric.

KU5. Correct use of tools like pliers, cutters, tweezers, and glue applicators.

KU6. Policies and procedures related to fashion jewellery making, including quality standards and safety regulations.

KU7. Workplace guidelines for handling, storing, and maintaining raw materials like cowrie shells, resin, pearls, beads, and rhinestones.

KU8. Quality control measures to ensure defect-free jewellery pieces.

KU9. Market trends, customer preferences, and branding strategies for fashion jewellery.

KU10. Eco-friendly and sustainable practices in sourcing and using materials.

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. Ability to understand and follow design instructions.

GS2. Understanding of colour combinations and material compatibility.

GS3. Understanding measurements, proportions, and symmetry in jewellery making.

GS4. Identifying defects in jewellery and finding solutions to fix them.

GS5. Troubleshooting common assembly or finishing issues.

GS6. Working efficiently in a team, especially in workshops or production units.

GS7. Coordinating with suppliers, designers, and clients.

GS8. Maintaining proper inventory of materials like beads, pearls, and hooks.

Qualification Pack

- GS9.** Using online platforms for marketing and selling jewellery.
- GS10.** Keeping records of materials and orders digitally.
- GS11.** Labeling and branding for professional product presentation.
- GS12.** Understanding customer preferences and adapting designs accordingly.
- GS13.** Ensuring safe handling of sharp tools and adhesives.
- GS14.** Maintaining a clean and organized workspace.

HCS/N8504: Entrepreneurship skills for Fashion Jewellery maker

Description

This unit focuses on essential entrepreneurship skills needed to create and market fashion jewelry products. It covers design innovation, material sourcing, branding, and effective marketing strategies. Participants will learn to navigate sales channels, manage finances, and build customer relationships to establish and grow a successful jewelry business. The unit emphasizes practical skills alongside creative development to equip aspiring entrepreneurs for success in the fashion jewelry industry.

Scope

The scope covers the following :

- Opportunity identification and Business planning
- Product development and innovation
- Marketing and Branding
- Sales and customer relationship management
- Financial Management and Business sustainability

Elements and Performance Criteria

Opportunity identification and Business planning

To be competent, the user/individual on the job must be able to:

- PC1.** Identify potential market trends in fashion jewellery, such as customer preferences for materials like cowrie shells, resin, pearls, and terracotta beads.
- PC2.** Analyze competition and find unique selling points (USP) for handcrafted jewellery.
- PC3.** Develop a business plan outlining product offerings, pricing, and target customers.
- PC4.** Identify funding sources and investment opportunities for scaling up the jewellery business.

Product development and innovation

To be competent, the user/individual on the job must be able to:

- PC5.** Experiment with different materials, designs, and techniques to create innovative jewellery collections.
- PC6.** Ensure quality craftsmanship by selecting durable materials like resin, eye pins, and lobster hooks.
- PC7.** Adapt designs based on seasonal trends, customer preferences, and cultural influences.
- PC8.** Incorporate eco-friendly and sustainable practices in jewellery making, such as using recycled fabric or natural beads (wooden beads).

Marketing and Branding

To be competent, the user/individual on the job must be able to:

- PC9.** Develop branding strategies, including logo, packaging, and brand story, to establish a unique identity.
- PC10.** Utilize digital marketing tools such as social media, e-commerce platforms, and influencer collaborations to promote jewellery.

Qualification Pack

PC11. Create a strong online presence through product photography, customer engagement, and regular updates.

PC12. Participate in exhibitions, pop-up events, and craft fairs to showcase jewellery collections.

Sales and Customer relationship management

To be competent, the user/individual on the job must be able to:

PC13. Identify suitable sales channels, including online marketplaces, boutique stores, and direct sales.

PC14. Build strong customer relationships by understanding their preferences and offering customization options.

PC15. Handle customer queries, feedback, and complaints professionally to build brand loyalty.

Financial Management and Business sustainability

To be competent, the user/individual on the job must be able to:

PC16. Maintain accurate financial records, including expenses, sales, and profits.

PC17. Develop cost-effective production techniques to maximize profitability and Plan reinvestment strategies for business growth, such as expanding product lines or improving packaging.

PC18. Ensure compliance with local business regulations, taxation, and ethical trade practices.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. Basic principles of jewellery design, including symmetry, balance, and aesthetics.

KU2. Techniques for assembling various materials like terracotta beads, colourful threads, and cowrie shells.

KU3. Wirework techniques, including bending, looping, and wrapping using eye pins, head pins, and jump rings.

HCS/N9929: Working in a team

Description

This NOS describes the communication and coordination skills and knowledge to work with colleagues and supervisor to achieve a smooth and hazard-free workflow.

Scope

The scope covers the following :

- interact with supervisor or superior
- work as a team by coordinating with colleagues within and outside the department and include
- inputs on PwD & Gender Sensitisation
- report and Document

Elements and Performance Criteria

Interact with supervisor or superior

To be competent, the user/individual on the job must be able to:

- PC1.** comply with health, safety gender, and PwD (People with disability) related instructions applicable to the workplace
- PC2.** actively participate in mock drills/ evacuation procedures; group discussions, training sensitization programs for gender, and PwD awareness organized at the workplace.
- PC3.** receive job orders and instructions from reporting supervisor and receive feedback on work standards.
- PC4.** understand the work output requirements, targets, performance indicators and incentives.
- PC5.** deliver quality work on time and report any anticipated reasons for delays and handover completed work to supervisor
- PC6.** report on any grievances, production defects and any potential hazards.

Work as a team by coordinating with colleagues within and outside the department and include inputs on PwD & Gender Sensitisation

To be competent, the user/individual on the job must be able to:

- PC7.** communicate maintenance and repair schedule proactively to the supervisor
- PC8.** interact and clarify doubts on design, usage of materials & tools, quality & standards compliance, etc.

Report and Document

To be competent, the user/individual on the job must be able to:

- PC9.** report in time for shortage or need of raw materials
- PC10.** communicate with colleagues from within and other departments, clearly and effectively on all aspects to carry out the work among the team
- PC11.** maintain the etiquette, use polite language, demonstrate responsible and disciplined behavior towards colleagues.
- PC12.** put team over individual goals and multi-task or share work where necessary supporting the colleagues.

Qualification Pack

PC13. document all the details accurately relating to ones role as required.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** knowledge about the importance of gender equality being followed in the organization and policies for reporting any harassment or inappropriate behavior
- KU2.** knowledge about how to accommodate employees with disabilities etiquette to adhere to and proper language and terminology
- KU3.** knowledge about how to communicate, offer help, respecting space, parking etc. for people with disabilities or special needs
- KU4.** knowledge about promoting a safe, accessible and healthy workplace for disabled employees
- KU5.** company's policies on preferred language of communication, incentives, quality standards, personnel management, reporting and escalation matrix policy.
- KU6.** company's standard operating procedure (sop) and the risk and impact of not following them.
- KU7.** procedures for working with colleagues, his/her role and responsibilities in relation to this
- KU8.** organizational hierarchy and the line of reporting structure and work target and review mechanism
- KU9.** procedures to report employment related issues and to deal with conflicts
- KU10.** importance of the individuals role in the organizational workflow and details of the individual responsibilities
- KU11.** tools and equipment handling procedure and common potential hazards in the work place and the procedures to deal with them
- KU12.** effective communication with various categories of people and the different departments in the organization
- KU13.** to document the job activity as required like the check sheets, history sheets, etc
- KU14.** expressing and addressing grievances appropriately, deal with difficult work relationships and manage the internal conflicts effectively

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** create a positive and inclusive workplace atmosphere without any kind of bias/discrimination towards any employee
- GS2.** actively take part in any discussion/workshop organized for gender sensitization training
- GS3.** read and comprehend written instructions related to gender equality issues in the organization
- GS4.** identify and report any harassment or inappropriate behavior towards any employee
- GS5.** create a positive and inclusive workplace atmosphere without any kind of bias/discrimination towards any employee with disability or special needs
- GS6.** actively take part in any discussion/workshop organized for disability sensitization training.

Qualification Pack

- GS7.** read and comprehend written instructions related to equality issues in the organization related to disabled persons
- GS8.** read job sheets, design sheet and information displayed at the workplace
- GS9.** read and understand manuals, health and safety instructions, memos etc
- GS10.** fill up documentation to ones role
- GS11.** communicate effectively with supervisor
- GS12.** contribute to quality of team work and achieve smooth workflow
- GS13.** improve work processes by interacting with others and adopting best practices

HCS/N9931: Maintain health and safety at workplace

Description

This unit provides Performance Criteria, Knowledge & Understanding, and Skills & Abilities required to comply with health, safety, and security requirements at the workplace and covers procedures to prevent, control, and minimize risk to self and others.

Scope

The scope covers the following :

- Comply with health, safety, and security requirements at work

Elements and Performance Criteria

Comply with health, safety, and security requirements at work

To be competent, the user/individual on the job must be able to:

- PC1.** comply with health and safety related instructions applicable to the workplace.
- PC2.** use and maintain personal protective equipment as per protocol.
- PC3.** carry out own activities in line with approved guidelines and procedures
- PC4.** maintain a healthy lifestyle and guard against dependency on intoxicants.
- PC5.** follow environment management system related procedures
- PC6.** store materials and tools in line with manufacturers and organisational requirements
- PC7.** safely handle and move waste and debris.
- PC8.** minimize health and safety risks to self and others due to own actions
- PC9.** seek clarifications, from supervisors or other authorized personnel in case of perceived risks
- PC10.** monitor the workplace and work processes for potential risks and threats.
- PC11.** carry out periodic walk-through to keep work area free from hazards and obstructions, if assigned
- PC12.** report hazards and potential risks/ threats to supervisors or other authorized personnel
- PC13.** participate in mock drills/ evacuation procedures organized at the workplace
- PC14.** undertake first aid, fire-fighting and emergency response training, if asked to do so
- PC15.** take action based on instructions in the event of fire, emergencies or accidents
- PC16.** follow organisation procedures for evacuation when required

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** health and safety related practices applicable at the workplace
- KU2.** potential hazards, risks and threats based on nature of operations
- KU3.** organizational procedures for safe handling of tools

Qualification Pack

- KU4.** potential risks due to own actions and methods to minimize these
- KU5.** environmental management system related procedures at the workplace.
- KU6.** layout of the plant and details of emergency exits, escape routes, emergency equipment and assembly points
- KU7.** potential accidents and emergencies and response to these scenarios
- KU8.** reporting protocol and documentation required
- KU9.** details of personnel trained in first aid, fire-fighting and emergency response
- KU10.** actions to take in the event of a mock drills/ evacuation procedures or actual accident, emergency or fire.
- KU11.** occupational health and safety risks and methods
- KU12.** personal protective equipment and method of use
- KU13.** identification, handling and storage of hazardous substances
- KU14.** proper disposal system for waste and by-products
- KU15.** signage related to health and safety and their meaning
- KU16.** importance of sound health, hygiene and good habits
- KU17.** ill-effects of alcohol, tobacco and drugs

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** write in local language.
- GS2.** read measurement instructions
- GS3.** communicate orally with colleagues
- GS4.** follow organization rule-based decision making process
- GS5.** take decision with systematic course of actions and/or response
- GS6.** plan and organize your work to achieve targets and deadlines
- GS7.** manage relationships with customers
- GS8.** build customer relationships and use customer centric approach.
- GS9.** think through the problem, evaluate the possible solution(s) and suggest an optimum /best possible solutions
- GS10.** identify immediate or temporary solutions to resolve delays
- GS11.** analyze data and activities.
- GS12.** pass on relevant information to others
- GS13.** apply, analyze, and evaluate the information gathered from observation, experience, reasoning, or communication, as a guide to thought and action

HCS/N9940: Managing people and Resources in Business

Description

This OS unit focuses on business planning, internal strategy, timelines.

Scope

The scope covers the following :

- people management
- product planning
- procurement of raw materials
- market interfacing
- financial management
- record keeping

Elements and Performance Criteria

People management

To be competent, the user/individual on the job must be able to:

- PC1.** arrange Interactive meetings of managers of sales and production teams and categorize the issues and feedbacks of both the teams
- PC2.** train the employees of his/her unit with the appropriate skills required to make market relevant and quality products
- PC3.** motivate the employees

Product planning

To be competent, the user/individual on the job must be able to:

- PC4.** compile a report based on old production reports
- PC5.** address the issues faced in previous productions and try to resolve them
- PC6.** gather and analyze the cues from the market
- PC7.** ascertain the customer preference
- PC8.** develop product range lines based on current market preference
- PC9.** develop product range lines that are unique and able to price high
- PC10.** price the products according to market trends
- PC11.** identify the competent marketing strategy for the product range

Procurement of raw materials

To be competent, the user/individual on the job must be able to:

- PC12.** list of the raw material s and prepare a B.O.M according to the product lines
- PC13.** ascertain the quantity and right price to procure the materials
- PC14.** identify the right locations/agents from where the raw materials can be procured
- PC15.** negotiate to get the best price
- PC16.** ensure quality materials are procured

Qualification Pack

- PC17.** ensure the procured materials are stored in appropriate conditions
- PC18.** compile a record of price quotations, POs, and bills of procurement for future reference

Market interfacing

To be competent, the user/individual on the job must be able to:

- PC19.** maintain a healthy and professional relationship with vendor
- PC20.** the competitive market falls in order with the company policies of best price, quality, and delivery parameters
- PC21.** analyze the prevalent price for product lines
- PC22.** decide on the most effective means to access the market
- PC23.** plan for cost-effective transportation to the market
- PC24.** position the product according to market requirements
- PC25.** identify and address the expectations of customer

Financial management

To be competent, the user/individual on the job must be able to:

- PC26.** analyze and ascertain the cost of production
- PC27.** maintain the book of accounts related to the business
- PC28.** maintain export documents like a letter of credit, custom clearance
- PC29.** identify cost-effective means of running the business

Record keeping

To be competent, the user/individual on the job must be able to:

- PC30.** identify various aspects of business that require recording
- PC31.** design formats for recording
- PC32.** compile various records of all aspects of the business
- PC33.** maintain these records with periodic updations
- PC34.** maintain necessary documents as per local government and regulatory requirements
- PC35.** reframe the procurement strategy according to local scenarios like weather conditions, transport strikes, affected prices, etc.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** interpersonal skills and communication with a cross-section of stakeholders
- KU2.** understanding of basics accounting so that he/she can monitor the transactions between company and vendor
- KU3.** knowledge of banking basics to keep the export process flawless
- KU4.** understanding of costing principles to calculate the cost of production with all the overheads and the actual price
- KU5.** product and craft knowledge including material and tools requirements
- KU6.** gathering market intelligence.
- KU7.** various transportation means and implications on costing
- KU8.** various product lines that can be created depending on the sector of operation

Qualification Pack

- KU9.** basic record-keeping techniques
- KU10.** basic laws, rules, regulations, etc. regarding business
- KU11.** vendor management and development
- KU12.** pricing techniques
- KU13.** business profitability assessment

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** analyse product range and keep abreast of market trends
- GS2.** document various aspects of the business
- GS3.** compile descriptions and details about investment, expenditures, and sales
- GS4.** interact with teams to work efficiently
- GS5.** communicate and manage vendors for cost-effective outsourcing and procurements
- GS6.** interface with fellow entrepreneurs to exchange ideas on the business
- GS7.** communicate with the customers for their feedback about the product
- GS8.** comprehend information shared by various stakeholders
- GS9.** plan and organize the product lines
- GS10.** fix the appropriate price.
- GS11.** hire employees with the appropriate skill set and experience
- GS12.** predict the profit margin to be achieved by the business
- GS13.** decide target segment of the market
- GS14.** schedule production cycles for better efficiency of resources
- GS15.** planning of production efficiency based on manpower and equipment available
- GS16.** schedule market visits for surveys and feedback
- GS17.** gather information on preference and taste of the customer
- GS18.** interact with various types of customers and understand the trends
- GS19.** analyze and solve conflicts and problems of the business.
- GS20.** ensure that the problems do not arise repeatedly.
- GS21.** anticipate various problems/challenges that can crop up
- GS22.** analyze the market for increasing sales
- GS23.** spot errors and any other disruptions and communicate with solutions

- PC8.** read and understand routine information, notes, instructions, mails, letters etc. written in English
- PC9.** write short messages, notes, letters, e-mails etc. in English

Career Development & Goal Setting

To be competent, the user/individual on the job must be able to:

- PC10.** understand the difference between job and career
- PC11.** prepare a career development plan with short- and long-term goals, based on aptitude

Communication Skills

To be competent, the user/individual on the job must be able to:

- PC12.** follow verbal and non-verbal communication etiquette and active listening techniques in various settings
- PC13.** work collaboratively with others in a team

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

- PC14.** communicate and behave appropriately with all genders and PwD
- PC15.** escalate any issues related to sexual harassment at workplace according to POSH Act

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

- PC16.** select financial institutions, products and services as per requirement
- PC17.** carry out offline and online financial transactions, safely and securely
- PC18.** identify common components of salary and compute income, expenses, taxes, investments etc
- PC19.** identify relevant rights and laws and use legal aids to fight against legal exploitation

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

- PC20.** operate digital devices and carry out basic internet operations securely and safely
- PC21.** use e- mail and social media platforms and virtual collaboration tools to work effectively
- PC22.** use basic features of word processor, spreadsheets, and presentations

Entrepreneurship

To be competent, the user/individual on the job must be able to:

- PC23.** identify different types of Entrepreneurship and Enterprises and assess opportunities for potential business through research
- PC24.** develop a business plan and a work model, considering the 4Ps of Marketing Product, Price, Place and Promotion
- PC25.** identify sources of funding, anticipate, and mitigate any financial/ legal hurdles for the potential business opportunity

Customer Service

To be competent, the user/individual on the job must be able to:

- PC26.** identify different types of customers
- PC27.** identify and respond to customer requests and needs in a professional manner.

Qualification Pack

PC28. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC29. create a professional Curriculum vitae (Résumé)

PC30. search for suitable jobs using reliable offline and online sources such as Employment exchange, recruitment agencies, newspapers etc. and job portals, respectively

PC31. apply to identified job openings using offline /online methods as per requirement

PC32. answer questions politely, with clarity and confidence, during recruitment and selection

PC33. identify apprenticeship opportunities and register for it as per guidelines and requirements

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills and different learning and employability related portals

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use English language for effective verbal (face to face and telephonic) and written communication in formal and informal set up

KU6. importance of career development and setting long- and short-term goals

KU7. about effective communication

KU8. POSH Act

KU9. Gender sensitivity and inclusivity

KU10. different types of financial institutes, products, and services

KU11. how to compute income and expenditure

KU12. importance of maintaining safety and security in offline and online financial transactions

KU13. different legal rights and laws

KU14. different types of digital devices and the procedure to operate them safely and securely

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score the Recommended Pass % aggregate for the QP.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Minimum Passing % at NOS Level: 50

(Please note: A Trainee must score the minimum percentage for each NOS separately as well as on the QP as a whole.)

Assessment Weightage

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
