HCS/Q1501: Design Marker - Stonecraft

Brief Job Description

A Stonecraft Design Marker is a skilled artisan who specialises in creating intricate and customised designs on stone surfaces, utilising advanced techniques and tools to enhance the aesthetic appeal of stonework.

Personal Attributes

A Stonecraft Design Marker is attentive to detail, creative, and technically skilled, demonstrating the patience and precision required to achieve exceptional craftsmanship in stone design.

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [HCS/N1508: Supervise day-to-day Production work](#)
2. [HCS/N1509: Draw Product design on the stone](#)
3. [HCS/N8508: Entrepreneurship skills for Stonecraft Design marker](#)

HCS/N1508: Supervise day-to-day Production work

Description

This unit is about overseeing day-to-day work of stoneware production, providing necessary information to subordinates, managing overall productivity and quality of output through team work.

Scope

The scope covers the following :

- receiving raw material
- receiving production related information
- inspecting stone and distributing the work
- training the subordinates
- achieve productivity and quality standards

Elements and Performance Criteria

Receiving raw material

To be competent, the user/individual on the job must be able to:

- PC1.** identify different raw materials required to produce stoneware product and receive the same from traders as per prescribed order
- PC2.** match the delivered raw materials with the list in the order placed by the company for design, quantity, and quality specifications
- PC3.** follow standard operating procedure for handling the raw stones
- PC4.** place stone in a way so that there is no damage to the material
- PC5.** document the quantity of variety of raw stones received from trader(s)

Receiving production related information

To be competent, the user/individual on the job must be able to:

- PC6.** receive and understand production targets product wise from the production manager
- PC7.** receive product specifications like colour, size etc.
- PC8.** receive product design(s) from the designer

Inspecting stone and distributing the work

To be competent, the user/individual on the job must be able to:

- PC9.** inspect the stone for structural flaws.
- PC10.** distribute the work among various subordinates (chiselers, stone cutters, etc.) as per the product design, specifications, and their production quantity requirements
- PC11.** give the size dimensions to chiselers and stone cutters as the product requirements
- PC12.** arrange and provide them all the tools; equipments and accessories to complete the job in time
- PC13.** set their daily targets and final output required from them to achieve the overall production targets in time

Training the subordinates

Qualification Pack

To be competent, the user/individual on the job must be able to:

- PC14.** train the subordinates in the work assigned to them and ensure that they understand what is required of them
- PC15.** share the stone and product specific information to get the quality output from them
- PC16.** explain the occupational hazards involved and the precautions to be taken to avoid the accidents at work
- PC17.** educate them about the personal protective equipments to be used during the work
- PC18.** instruct them about minimizing the waste and damage to the stone.

Achieving productivity and quality standards

To be competent, the user/individual on the job must be able to:

- PC19.** achieve daily / weekly / monthly production targets given by the proprietor / supervisor
- PC20.** achieve the set target with minimum wastage of and damage to the material
- PC21.** keep the team motivated to get the quality output

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** companys policies on human resource management, salary, daily wages, benefits, incentive system, appraisal system, delivery standards, work safety and hazards.
- KU2.** companys products with different stones and quality assurance.
- KU3.** organisation culture and typical customer profile.
- KU4.** companys reporting structure.
- KU5.** companys documentation policy.
- KU6.** variety of stones and their basic quality, their suitability for end uses
- KU7.** handling of different types of stones
- KU8.** different types of tools such as variety of chisels and hammers used in stoneware product making and their upkeep
- KU9.** workflow and processes involved in the making of stoneware
- KU10.** basic calculation and measurement of dimensions on different scales
- KU11.** usage of measuring tools
- KU12.** management of workers, ways to keep them motivated for getting the maximum productivity
- KU13.** potential occupational hazards associated with the stoneware production
- KU14.** potential environmental hazards associated with the stoneware production
- KU15.** ways to reduce both occupational and environmental hazards
- KU16.** disposing off the production waste in an environmentally friendly manner
- KU17.** companys SOPs, work instructions and quality standards

Generic Skills (GS)

User/individual on the job needs to know how to:

Qualification Pack

- GS1.** read company's SOPs, work instructions and quality standards.
- GS2.** interpret the product design correctly
- GS3.** put the product design accurately on the stone.
- GS4.** document production related information at various stages as per company's requirements.
- GS5.** listen to proprietor/ supervisor and product designer to get the necessary information
- GS6.** listen attentively to team members problems and try to resolve them to the best of his/her ability
- GS7.** convey work relevant information, both technical and non-technical, to seniors and subordinates effectively
- GS8.** decide on the target number of markings.
- GS9.** prioritize and organise tasks and work to achieve the daily/ weekly / monthly production targets
- GS10.** do the regular maintenance of electrical equipments
- GS11.** keep the inventory of key accessories / equipment parts in the company to avoid work disruptions.
- GS12.** plan manpower requirement to achieve production targets.
- GS13.** communicate with customers / clients when needed and understand their preferences
- GS14.** to solve work related problems like equipment failure without disrupting the work process.
- GS15.** to repair the equipments / tools in the company.
- GS16.** to manage conflicts among team members.
- GS17.** analyse and communicate with team members, supervisors or clients as per the requirement
- GS18.** spot process disruptions and delays and take necessary steps to mitigate the same
- GS19.** report on any concerns to superiors without delay.

HCS/N1509: Draw Product design on the stone

Description

This unit is about inspecting the stone to determine the direction of the grain and then drawing the product design on the stone for further processing

Scope

The scope covers the following :

- Prepare product design framework
- Inspect the stone and mark the product design on it
- Achieve productivity and quality standards
- Applying stenciling method on stone surface

Elements and Performance Criteria

Prepare product design framework

To be competent, the user/individual on the job must be able to:

- PC1.** Trace the product design on the piece of cardboard/fiber sheet.
- PC2.** Cut the cardboard/fiber sheet as per the design to create the product design framework and crosscheck it against the approved design.

Inspect the stone and mark the product design on it

To be competent, the user/individual on the job must be able to:

- PC3.** Inspect the stone to determine the direction of the grain.
- PC4.** Place the cardboard / fiber sheet cut as per the product design on the stone in such a way that the grain is in line with the length of the design.
- PC5.** Fix the pattern of cardboard/fiber and then draw the design on the stone using the crayon.
- PC6.** Mark the design on all sides of the stone by taking care to maintain the height and width of the template on each side.
- PC7.** Remove the cardboard/fiber sheet from the stone.
- PC8.** Check that the design marks on the stone are clearly visible.

Achieve productivity and quality standards

To be competent, the user/individual on the job must be able to:

- PC9.** Ensure that the product design framework is accurate.
- PC10.** Ensure that product design is drawn on the stone in a way that enhances structural integrity.

Applying stenciling method on stone surface

To be competent, the user/individual on the job must be able to:

- PC11.** Smooth and clean the stone for the stencil to sit properly.
- PC12.** Made stencil from paper, plastic, or metal.
- PC13.** Cut out the design from the material, leaving spaces where the pattern will be applied.
- PC14.** Place the stencil on the stone surface where the design to appear.
- PC15.** Use tape or weights to hold the stencil in place so it doesn't move while doing work.

Qualification Pack

PC16. Use colour pencil or regular pencil to mark the design of the stencil.

PC17. Lift the stencil to reveal the pattern on the stone surface.

PC18. Use a tool to etch or carve the design into the stone.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** company's policies on human resource management, salary, daily wages, benefits, incentive system, appraisal system, delivery standards, work safety and hazards
- KU2.** company's products using different stones and respective quality requirements
- KU3.** organization's culture and typical customer profile
- KU4.** company's reporting structure
- KU5.** company's documentation policy
- KU6.** variety of stones and their basic quality
- KU7.** how to trace the design on cardboard / fiber sheet to create the product design framework
- KU8.** how to ascertain the grain in a stone
- KU9.** workflow and processes involved in the making of stoneware
- KU10.** basic calculation and measurement of dimensions on different scales
- KU11.** usage of measuring tools, variety of chisels and hammers
- KU12.** management of workers, ways to keep them motivated for getting the maximum productivity
- KU13.** potential occupational hazards associated with the stoneware production
- KU14.** potential environmental hazards associated with the stoneware production
- KU15.** ways to reduce both occupational and environmental hazards

HCS/N8508: Entrepreneurship skills for Stonecraft Design marker

Description

This unit focuses on essential entrepreneurship skills for design makers in the stonecraft industry, emphasizing market research, product development, branding, and marketing strategies. Artisans will learn to create unique designs, understand customer needs, and effectively manage their business operations to succeed in the competitive handicraft sector.

Scope

The scope covers the following :

- design innovation and creativity
- understanding of materials and techniques
- market awareness and trend analysis
- brand building and storytelling
- sourcing and resource management

Elements and Performance Criteria

Design Innovation and Creativity

To be competent, the user/individual on the job must be able to:

- PC1.** ability to create unique and aesthetically pleasing designs that appeal to customers
- PC2.** identify the techniques, including carving, engraving, and finishing, to produce high-quality stonecraft products

Understanding of Materials and Techniques

To be competent, the user/individual on the job must be able to:

- PC3.** identify the stone types, carving techniques, and finishing process
- PC4.** use the properties of different stones (like marble, sandstone, granite)
- PC5.** recognize the various tools and machinery used in stonecraft, including chisels, grinders, and polishing machines

Market Awareness and Trend Analysis

To be competent, the user/individual on the job must be able to:

- PC6.** identify customer preferences and emerging trends in the stonecraft industry
- PC7.** regular feedback from customers and market research can help in adapting designs
- PC8.** aware of both local and global trends to tap into broader markets
- PC9.** conduct surveys, analyze customer feedback, and track purchase behavior to tailor designs that resonate with the target audience
- PC10.** identify the gaps in the market, discovering innovative ideas, or recognizing areas where the artisans can differentiate the products

Brand Building and Storytelling

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC11.** craft a compelling narrative around their products to attract niche markets that value handcrafted, artisanal goods
- PC12.** build a brand that highlights the history, craftsmanship, and cultural significance of the stonecraft
- PC13.** ability to convey the story behind each piece, highlighting its craftsmanship, cultural heritage, and value to attract customers

Sourcing and Resource Management

To be competent, the user/individual on the job must be able to:

- PC14.** analyse the availability and quality of raw materials like marble, sandstone, or granite
- PC15.** Build a reliable network of raw material suppliers, optimizing material use to minimize waste, and integrating sustainable practices like eco-friendly sourcing are key aspects

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** recognize trends and consumer preferences in stonecraft, especially in design markers on different types of stone products
- KU2.** different stones like marble, granite, sandstone, etc., and understand their unique properties for crafting and longevity
- KU3.** stay informed about eco-friendly and sustainable stone sourcing, a growing concern in the design sector
- KU4.** familiarity with modern cutting, carving, and engraving techniques
- KU5.** blend traditional stonecraft with modern design elements
- KU6.** recognize the importance of optimizing processes, from stone selection to final product design
- KU7.** develop narratives around the designs, such as cultural heritage, craftsmanship, or sustainability, to attract more customers
- KU8.** build long-term relationships with customers
- KU9.** identify and manage multiple sales channels are direct-to-consumer, online, or partnerships with retail stores
- KU10.** develop strategies to maximize profit margins through efficient production and careful material selection

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** interpret the product design correctly
- GS2.** helps in maintaining competitive advantage by offering differentiated products
- GS3.** analyzing demand for specific types of stonecraft and adjusting designs or marketing strategies accordingly
- GS4.** building and maintaining positive relationships with customers
- GS5.** provide excellent service, customizing designs based on client preferences

Qualification Pack

- GS6.** using recycled or locally sourced materials and minimizing waste during production
- GS7.** leading a team of artisans, designers, or workers, fostering collaboration and ensuring smooth production

HCS/N9908: Working in a Team

Description

This unit is about working as part of a team in the process.

Elements and Performance Criteria

Commitment and trust

To be competent, the user/individual on the job must be able to:

- PC1.** Be accountable to ones own role in whole process.
- PC2.** Perform all roles with full responsibility.

Communication

To be competent, the user/individual on the job must be able to:

- PC3.** Report problems faced during the process.
- PC4.** Talk politely with other team members and colleagues.
- PC5.** Submit daily report of own performance.

Adaptability

To be competent, the user/individual on the job must be able to:

- PC6.** Adjust in different work situations.
- PC7.** Give due importance to others point of view.
- PC8.** Avoid conflicting situations.

Creative freedom

To be competent, the user/individual on the job must be able to:

- PC9.** Develop new ideas for work procedures
- PC10.** Improve upon the existing techniques to increase process efficiency

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** General rules and regulations in the sector.
- KU2.** Procedure followed to get the final output.
- KU3.** Safe working practices to be adopted.
- KU4.** Reporting to the supervisor or higher authority about any grievances faced.
- KU5.** Understanding the importance of the previous and next step of the process.
- KU6.** Process flow in the handicraft section.
- KU7.** Material sequence of flow.
- KU8.** Functions of different parts of product development.
- KU9.** Tools and equipments used.
- KU10.** Guidelines for operating the equipment.
- KU11.** Safety procedures to be followed as applicable.

Qualification Pack

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Prepare status and progress reports.
- GS2.** Write memos and e-mail to co-workers, and vendors to provide them with work updates and to request appropriate information without English language errors regarding grammar or sentence construct.
- GS3.** Keep abreast with the latest knowledge by reading brochures, pamphlets, and product information sheets.
- GS4.** Discuss task lists, schedules, and work-loads with co-workers.
- GS5.** Keep co-workers and supervisors informed about progress.
- GS6.** Make decisions pertaining to the concerned area of work.
- GS7.** Plan and organize service feedback files/documents.
- GS8.** Manage relationships with customers.
- GS9.** Build customer relationships and use customer centric approach.
- GS10.** Think through the problem, evaluate the possible solution(s) and suggest an optimum /best possible solution(s).
- GS11.** Identify immediate or temporary solutions to resolve delays.
- GS12.** Use the existing data to arrive at specific data points.
- GS13.** Apply, analyze, and evaluate the information gathered from observation, experience, reasoning, or communication, as a guide to thought and action.

HCS/N9904: Basic Business Management

Description

This OS unit focuses on business planning, internal strategy, timelines.

Scope

The scope covers the following :

- people management
- product planning
- procurement of raw materials
- market interfacing
- financial management
- record keeping

Elements and Performance Criteria

People management

To be competent, the user/individual on the job must be able to:

- PC1.** arrange Interactive meetings of managers of sales and production teams and categorize the issues and feedbacks of both the teams
- PC2.** train the employees of his/her unit with the appropriate skills required to make market relevant and quality products
- PC3.** motivate the employees

Product planning

To be competent, the user/individual on the job must be able to:

- PC4.** compile a report based on old production reports
- PC5.** address the issues faced in previous productions and try to resolve them
- PC6.** gather and analyze the cues from the market
- PC7.** ascertain the customer preference
- PC8.** develop product range lines based on current market preference
- PC9.** develop product range lines that are unique and able to price high
- PC10.** price the products according to market trends
- PC11.** identify the competent marketing strategy for the product range

Procurement of raw materials

To be competent, the user/individual on the job must be able to:

- PC12.** list of the raw material s and prepare a B.O.M according to the product lines
- PC13.** ascertain the quantity and right price to procure the materials
- PC14.** identify the right locations/agents from where the raw materials can be procured
- PC15.** negotiate to get the best price
- PC16.** ensure quality materials are procured

Qualification Pack

PC17. ensure the procured materials are stored in appropriate conditions

PC18. compile a record of price quotations, POs, and bills of procurement for future reference

Market interfacing

To be competent, the user/individual on the job must be able to:

PC19. maintain a healthy and professional relationship with vendor

PC20. the competitive market falls in order with the company policies of best price, quality, and delivery parameters

PC21. analyze the prevalent price for product lines

PC22. decide on the most effective means to access the market

PC23. plan for cost-effective transportation to the market

PC24. position the product according to market requirements

PC25. identify and address the expectations of customer

Financial management

To be competent, the user/individual on the job must be able to:

PC26. analyze and ascertain the cost of production

PC27. maintain the book of accounts related to the business

PC28. maintain export documents like a letter of credit, custom clearance

PC29. identify cost-effective means of running the business

Record keeping

To be competent, the user/individual on the job must be able to:

PC30. identify various aspects of business that require recording

PC31. design formats for recording

PC32. compile various records of all aspects of the business

PC33. maintain these records with periodic updations

PC34. maintain necessary documents as per local government and regulatory requirements

PC35. reframe the procurement strategy according to local scenarios like weather conditions, transport strikes, affected prices, etc.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. interpersonal skills and communication with a cross-section of stakeholders

KU2. understanding of basics accounting so that he/she can monitor the transactions between company and vendor

KU3. knowledge of banking basics to keep the export process flawless

KU4. understanding of costing principles to calculate the cost of production with all the overheads and the actual price

KU5. product and craft knowledge including material and tools requirements

KU6. gathering market intelligence.

KU7. various transportation means and implications on costing

KU8. various product lines that can be created depending on the sector of operation

Qualification Pack

- KU9.** basic record-keeping techniques
- KU10.** basic laws, rules, regulations, etc. regarding business
- KU11.** vendor management and development
- KU12.** pricing techniques
- KU13.** business profitability assessment

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** analyse product range and keep abreast of market trends
- GS2.** document various aspects of the business
- GS3.** compile descriptions and details about investment, expenditures, and sales
- GS4.** interact with teams to work efficiently
- GS5.** communicate and manage vendors for cost-effective outsourcing and procurements
- GS6.** interface with fellow entrepreneurs to exchange ideas on the business
- GS7.** communicate with the customers for their feedback about the product
- GS8.** comprehend information shared by various stakeholders
- GS9.** plan and organize the product lines
- GS10.** fix the appropriate price.
- GS11.** hire employees with the appropriate skill set and experience
- GS12.** predict the profit margin to be achieved by the business
- GS13.** decide target segment of the market
- GS14.** schedule production cycles for better efficiency of resources
- GS15.** planning of production efficiency based on manpower and equipment available
- GS16.** schedule market visits for surveys and feedback
- GS17.** gather information on preference and taste of the customer
- GS18.** interact with various types of customers and understand the trends
- GS19.** analyze and solve conflicts and problems of the business.
- GS20.** ensure that the problems do not arise repeatedly.
- GS21.** anticipate various problems/challenges that can crop up
- GS22.** analyze the market for increasing sales
- GS23.** spot errors and any other disruptions and communicate with solutions

Qualification Pack

DGT/VSQ/N0101: Employability Skills (30 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

PC1. understand the significance of employability skills in meeting the job requirements

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

PC2. identify constitutional values, civic rights, duties, personal values and ethics and environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

PC3. explain 21st Century Skills such as Self-Awareness, Behavior Skills, Positive attitude, self-motivation, problem-solving, creative thinking, time management, social and cultural awareness, emotional awareness, continuous learning mindset etc.

Basic English Skills

To be competent, the user/individual on the job must be able to:

PC4. speak with others using some basic English phrases or sentences

Communication Skills

To be competent, the user/individual on the job must be able to:

PC5. follow good manners while communicating with others

PC6. work with others in a team

Qualification Pack

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

PC7. communicate and behave appropriately with all genders and PwD

PC8. report any issues related to sexual harassment

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

PC9. use various financial products and services safely and securely

PC10. calculate income, expenses, savings etc.

PC11. approach the concerned authorities for any exploitation as per legal rights and laws

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

PC12. operate digital devices and use its features and applications securely and safely

PC13. use internet and social media platforms securely and safely

Entrepreneurship

To be competent, the user/individual on the job must be able to:

PC14. identify and assess opportunities for potential business

PC15. identify sources for arranging money and associated financial and legal challenges

Customer Service

To be competent, the user/individual on the job must be able to:

PC16. identify different types of customers

PC17. identify customer needs and address them appropriately

PC18. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC19. create a basic biodata

PC20. search for suitable jobs and apply

PC21. identify and register apprenticeship opportunities as per requirement

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use basic spoken English language

KU6. Do and dont of effective communication

KU7. inclusivity and its importance

KU8. different types of disabilities and appropriate communication and behaviour towards PwD

KU9. different types of financial products and services

Qualification Pack

- KU10.** how to compute income and expenses
- KU11.** importance of maintaining safety and security in financial transactions
- KU12.** different legal rights and laws
- KU13.** how to operate digital devices and applications safely and securely
- KU14.** ways to identify business opportunities
- KU15.** types of customers and their needs
- KU16.** how to apply for a job and prepare for an interview
- KU17.** apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate effectively using appropriate language
- GS2.** behave politely and appropriately with all
- GS3.** perform basic calculations
- GS4.** solve problems effectively
- GS5.** be careful and attentive at work
- GS6.** use time effectively
- GS7.** maintain hygiene and sanitisation to avoid infection

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score the Recommended Pass % aggregate for the QP.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

TVET	Technical and Vocational Education and Training

Qualification Pack

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
