HCS/Q2205: Glass Blowing Operator (Glassware)

Brief Job Description

The individual at work is responsible for blowing the glass gob through a hollow pipe to give shape to the product. The individual understands the shapes produced through blowing, blow moulding and quality of gob required to produce different kinds of products. The individual is also responsible for cooling of the ball of gob and ensures that the orifice of the ball is not closed

Personal Attributes

The job requires the individual to have: ability to work in high temperature environment near furnace, work in high decibel noise environment, work in standing position for long time, physically fit and ability to continuously blow through a hollow pipe

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [HCS/N2206: Blow the gob to make glass artifacts](#)
2. [HCS/N2204: Handle the gob from furnace and form a hollow ball of liquid glass](#)
3. [HCS/N9901: Coordinate with colleagues and work as a team](#)
4. [HCS/N9902: Maintain Safe and Healthy Work Environment](#)
5. [HCS/N9903: Maintain Personal Hygiene](#)
6. [HCS/N9904: Basic Business Management](#)
7. [DGT/VSQ/N0102: Employability Skills \(60 Hours\)](#)

HCS/N2206: Blow the gob to make glass artifacts

Description

This unit is about moulding of glass artefacts through controlled blowing of air through the hollow pipe. It also involves moulding of the ball of glass inside a metal mould.

Scope

The scope covers the following :

- deduce the product design and properties requirement
- blow the glass gob through a hollow pipe
- give shape to the glass gob
- understand the furnace conditions and requirement
- achieve quality and productivity

Elements and Performance Criteria

Deduce the product design and properties requirement

To be competent, the user/individual on the job must be able to:

- PC1.** Confirm the shapes and designs that can be produced through blow moulding.
- PC2.** Infer the weight, dimension and colour specifications for the product to be produced.
- PC3.** Understand the temperature sensitivity of product during blowing.
- PC4.** Estimate the time required to form different kinds of products/designs for optimum efficiency.
- PC5.** Understand the optimum temperature of the gob for blow moulding.

Blow the glass gob through a hollow pipe

To be competent, the user/individual on the job must be able to:

- PC6.** Coordinate with the ball maker and moulding helper in the blowing process.
- PC7.** Perform the process of blowing through the hollow pipe as per the standards procedure.
- PC8.** Blow the pipe with appropriate air and control breath as per the shape requirement.
- PC9.** Ensure that the orifice of the ball does not get closed during the process.
- PC10.** Follow recommended safety standards while handling the glass gob and blowing.

Give shape to the glass gob

To be competent, the user/individual on the job must be able to:

- PC11.** Coordinate with ball maker to form adequate size of ball.
- PC12.** Estimate the air pressure required to form different kinds of shapes through blowing.
- PC13.** Evaluate the expected weight of the product for different shapes of glass gob.
- PC14.** Deduce the possibility of formation of a particular design through blowing.
- PC15.** Carry out different kinds of blows like round blow and straight blow for different kinds of products.
- PC16.** Evaluate the shape of the product visually while blowing and stop blowing when it attains the required shape.

Qualification Pack

PC17. Ensure the product is blown to achieve the design specification.

Understand the furnace conditions and requirement

To be competent, the user/individual on the job must be able to:

PC18. Understand the optimum flame and furnace temperature for blow moulding.

PC19. Estimate the level of glass in the furnace for blow moulding.

PC20. Understand furnace insulation for making balls of adequate sizes.

PC21. Give feedback to furnace operator regarding maintenance of optimum temperature for blow moulding.

Achieve quality and productivity

To be competent, the user/individual on the job must be able to:

PC22. Achieve the production target which are set periodically.

PC23. Minimize material loss during the process of blow moulding.

PC24. Ensure zero accident while performing blowing/handling glass gob by following standard procedure.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. Company's policies on: Maintaining safe working environment.

KU2. Company's code of conduct.

KU3. Organisation culture and typical product profile.

KU4. Company's reporting structure.

KU5. Importance of individual's role in the workflow.

KU6. Company's daily/monthly targets for different product items.

KU7. Company's safety regulations.

KU8. Optimum flame and furnace temperature.

KU9. Different kinds of blowing like straight and round blowing.

KU10. Different combinations of raw materials for different products.

KU11. Glass properties like flexibility, stress, heat sensitivity.

KU12. Heat efficiency and calorific value of fuel (gas).

KU13. Blowing process requirement.

KU14. Handling tools and equipment (hollow pipe) without damaging any material.

KU15. Material movement procedure and precautionary activities to be taken.

KU16. Maintenance of tools and equipments.

KU17. Breath control as per product requirement.

KU18. Mould specification.

KU19. The properties of gob through visual inspection.

KU20. Material handling procedure (in specific glass gob handling).

KU21. Safety measure and standards to be followed.

KU22. Different kinds of furnaces and fuels for production of glass artefacts.

Qualification Pack

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** How to note problems on job sheet and details of work done and share the feedback with supervisor.
- GS2.** How to read product specifications and interpret details such as size, weight, colour, volume, etc.
- GS3.** How to seek inputs at assessing the problems.
- GS4.** How to educate and inform ball makers, ball coolers and mould handlers about the different types of blow moulding for different kinds of products.
- GS5.** How to give feedback to supervisor regarding the quality of product formed.
- GS6.** How to give feedback to the furnace operators.
- GS7.** How to decide on material requirement for blowing activity.
- GS8.** How to plan for material and time requirement for blowing activity.
- GS9.** The customer preference on craft products.
- GS10.** How to resolve issues in the craft during blowing.
- GS11.** How to analyse the shape of the product and accordingly blow the gob.
- GS12.** How to spot process disruptions and delays.

HCS/N2204: Handle the gob from furnace and form a hollow ball of liquid glass

Description

This unit is about handling the gob from furnace and making a hollow ball of liquid glass and the controlling of the quantity of glass through a hollow pipe.

Scope

The scope covers the following :

- handle the glass gob from furnace
- make ball of liquid glass
- control Quantity
- achieve Quality
- ensure safety measure during gob handling

Elements and Performance Criteria

Handle the glass gob from furnace

To be competent, the user/individual on the job must be able to:

- PC1.** Coordinate with production supervisor for making balls of requisite size.
- PC2.** Take the glass gob from the furnace using a hollow pipe.
- PC3.** Control the glass temperature on the hollow pipe, outside the furnace.
- PC4.** Ensure appropriate quantity of glass gob is taken for ball making.

Make ball of liquid glass

To be competent, the user/individual on the job must be able to:

- PC5.** Coordinate with production supervisor and blower for making balls of required sizes.
- PC6.** Work on different types of furnaces used for glass melting.
- PC7.** Identify optimum furnace temperature for ball making.
- PC8.** Identify optimum glass temperature within furnace for ball making.
- PC9.** Identify hot spots and flow of glass within the furnace during melting.
- PC10.** Make ball of gob in accordance with product specifications and dimensions.
- PC11.** Ensure minimum damage during the process of ball making.
- PC12.** Ensure that the daily targets for different products are achieved.
- PC13.** Get specific work related instructions from supervisor, if required.

Control Quantity

To be competent, the user/individual on the job must be able to:

- PC14.** Get specific instructions from production supervisor regarding product characteristics and dimensions.
- PC15.** Work on furnace used for glass melting.
- PC16.** Identify optimum furnace temperature to make ball of required size.

Qualification Pack

- PC17.** Identify optimum glass temperature within furnace to make ball of required size.
- PC18.** Coordinate with production supervisor and blower for making balls of required sizes.
- PC19.** Achieve supervisor satisfaction on the work done.
- PC20.** Ensure zero material defect or loss during handling gob.

Achieve Quality

To be competent, the user/individual on the job must be able to:

- PC21.** Identify optimum furnace temperature for making ball of required quality.
- PC22.** Identify optimum glass temperature within furnace for making ball of required quality.
- PC23.** Identify hot spots inside the furnace for making glass ball.
- PC24.** Control temperature during gob handling.

Ensure safety measure during gob handling

To be competent, the user/individual on the job must be able to:

- PC25.** Identify and handle gob in accordance with types of insulations used for furnace.
- PC26.** Identify optimum distance from the furnace for gob handling.
- PC27.** Identify appropriate distance between gob and body parts for gob handling.
- PC28.** Ensure use of suitable personal protective equipments.
- PC29.** Identify hazards and risks arising from the gob handling and ensuring the precautions to be observed are met.
- PC30.** Wear proper clothing while gob handling.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Companies daily/monthly targets for different product items.
- KU2.** Companys products with different stones and quality assurance.
- KU3.** Organisation culture and typical product profile.
- KU4.** Companys policies on: safety, products benefits and code of conduct.
- KU5.** Companys reporting structure.
- KU6.** Companys documentation policy.
- KU7.** Existing facilities within company regarding safety measures.
- KU8.** Understanding of different types of furnaces used in blow moulding.
- KU9.** Understanding of optimum flame and furnace temperature.
- KU10.** Understanding of glass sensitivity to temperature changes.
- KU11.** Glass properties like flexibility and stress.
- KU12.** Operate, control and maintain the furnace.
- KU13.** Understanding of different kinds of moulding like hand press and blow moulding.

Generic Skills (GS)

User/individual on the job needs to know how to:

Qualification Pack

- GS1.** How to keep log book and details of work done.
- GS2.** How to keep note of problems on job sheet and share the feedback with supervisor.
- GS3.** How to read the product specifications and interpret details such as size, weight, colour, volume, etc.
- GS4.** How to seek inputs at assessing the problems.
- GS5.** How to communicate in local language.
- GS6.** How to give feedback on precautions to be taken during production to ensure safe working surroundings.
- GS7.** How to give feedback to production supervisor regarding the quality and quality of ball making.
- GS8.** How to decide on material requirement for ball making activity.
- GS9.** How to plan for material and time requirement for ball making activity.
- GS10.** The customer preference on craft products.
- GS11.** How to resolve issues in the craft during ball making.
- GS12.** How to analyse the shape of the product and accordingly blow the gob.
- GS13.** How to spot process disruptions and delays.

HCS/N9901: Coordinate with colleagues and work as a team

Description

This NOS describes the communication and coordination skills and knowledge to work with colleagues and supervisor to achieve a smooth and hazard-free workflow.

Scope

The scope covers the following :

- interact with supervisor or superior
- work as a team by coordinating with colleagues within and outside the department and include inputs on PwD & Gender Sensitisation
- report and Document

Elements and Performance Criteria

Interact with supervisor or superior

To be competent, the user/individual on the job must be able to:

- PC1.** comply with health, safety gender, and PwD (People with disability) related instructions applicable to the workplace
- PC2.** actively participate in mock drills/ evacuation procedures; group discussions, training sensitization programs for gender, and PwD awareness organized at the workplace.
- PC3.** receive job orders and instructions from reporting supervisor and receive feedback on work standards.
- PC4.** understand the work output requirements, targets, performance indicators and incentives.
- PC5.** deliver quality work on time and report any anticipated reasons for delays and handover completed work to supervisor
- PC6.** report on any grievances, production defects and any potential hazards.

Work as a team by coordinating with colleagues within and outside the department and include inputs on PwD & Gender Sensitisation

To be competent, the user/individual on the job must be able to:

- PC7.** communicate maintenance and repair schedule proactively to the supervisor
- PC8.** interact and clarify doubts on design, usage of materials & tools, quality & standards compliance, etc.

Report and Document

To be competent, the user/individual on the job must be able to:

- PC9.** report in time for shortage or need of raw materials
- PC10.** communicate with colleagues from within and other departments, clearly and effectively on all aspects to carry out the work among the team
- PC11.** maintain the etiquette, use polite language, demonstrate responsible and disciplined behavior towards colleagues.
- PC12.** put team over individual goals and multi-task or share work where necessary supporting the colleagues.

Qualification Pack

PC13. document all the details accurately relating to ones role as required.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** knowledge about the importance of gender equality being followed in the organization and policies for reporting any harassment or inappropriate behavior
- KU2.** knowledge about how to accommodate employees with disabilities etiquette to adhere to and proper language and terminology
- KU3.** knowledge about how to communicate, offer help, respecting space, parking etc. for people with disabilities or special needs
- KU4.** knowledge about promoting a safe, accessible and healthy workplace for disabled employees
- KU5.** company's policies on preferred language of communication, incentives, quality standards, personnel management, reporting and escalation matrix policy.
- KU6.** company's standard operating procedure (sop) and the risk and impact of not following them.
- KU7.** procedures for working with colleagues, his/her role and responsibilities in relation to this
- KU8.** organizational hierarchy and the line of reporting structure and work target and review mechanism
- KU9.** procedures to report employment related issues and to deal with conflicts
- KU10.** importance of the individuals role in the organizational workflow and details of the individual responsibilities
- KU11.** tools and equipment handling procedure and common potential hazards in the work place and the procedures to deal with them
- KU12.** effective communication with various categories of people and the different departments in the organization
- KU13.** to document the job activity as required like the check sheets, history sheets, etc
- KU14.** expressing and addressing grievances appropriately, deal with difficult work relationships and manage the internal conflicts effectively

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** create a positive and inclusive workplace atmosphere without any kind of bias/discrimination towards any employee
- GS2.** actively take part in any discussion/workshop organized for gender sensitization training
- GS3.** read and comprehend written instructions related to gender equality issues in the organization
- GS4.** identify and report any harassment or inappropriate behavior towards any employee
- GS5.** create a positive and inclusive workplace atmosphere without any kind of bias/discrimination towards any employee with disability or special needs
- GS6.** actively take part in any discussion/workshop organized for disability sensitization training.

Qualification Pack

- GS7.** read and comprehend written instructions related to equality issues in the organization related to disabled persons
- GS8.** read job sheets, design sheet and information displayed at the workplace
- GS9.** read and understand manuals, health and safety instructions, memos etc
- GS10.** fill up documentation to ones role
- GS11.** communicate effectively with supervisor
- GS12.** contribute to quality of team work and achieve smooth workflow
- GS13.** improve work processes by interacting with others and adopting best practices

HCS/N9902: Maintain Safe and Healthy Work Environment

Description

This NOS is about following adequate safety procedures to make the work environment safe and Healthy.

Scope

The scope covers the following :

- follow safety procedures and practices.
- achieve safety standards

Elements and Performance Criteria

Follow safety procedures and practices

To be competent, the user/individual on the job must be able to:

- PC1.** carry out work functions in accordance with organizational standards, greening solutions, procedures, policies, legislation and regulations
- PC2.** apply and follow these policies and procedures within your work practices and inculcate sustainable consumption practices
- PC3.** actively get involved in improving the performance of the organization in line with their own role and responsibilities and support adaptation to more environmentally friendly processes
- PC4.** comply with safety procedures while on work to prevent accidents
- PC5.** take adequate safety measures while handling materials, chemicals and tools
- PC6.** wear appropriate personal protective gears such as gloves, protective goggles, masks etc. while working
- PC7.** wear appropriate and recommended clothing as per the work environment
- PC8.** follow recommended material handling procedure to control material and personal damage.
- PC9.** perform all procedures as per company's work instructions for controlling operational risk

Achieve safety standards

To be competent, the user/individual on the job must be able to:

- PC10.** perform the duties in a manner which minimizes environmental damage
- PC11.** dispose off waste safely and correctly in a designated area as per company's SOP
- PC12.** report any accidents, incidents or problems without delay to the supervisor and take necessary immediate action to reduce further danger
- PC13.** ensure zero accident at workplace
- PC14.** adhere to safety standards and ensure no material damage

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** making conscious and sustainable decisions for achieving effective and green workplace.

Qualification Pack

- KU2.** company's policies on work safety and occupational hazard management
- KU3.** knowledge about company's HR policies and reporting structure
- KU4.** company emergency evacuation procedure
- KU5.** accidental risks to the worker
- KU6.** how to maintain the work area safe and secure
- KU7.** how to perform the duties in a way to minimize accidental risks
- KU8.** how to handle chemicals in a safe manner
- KU9.** purpose and usage of protective gears such as gloves, protective goggles, masks, etc. while working
- KU10.** safe and correct material handling procedure
- KU11.** standard operating procedure (sop) of processes
- KU12.** precautionary activities to be followed in the processes
- KU13.** how to operate tools and electrical equipment
- KU14.** emergency procedures to be followed in case of a mishap such as fire accidents etc.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** make conscious and sustainable decisions that help reduce, rescue, and recycle the company resources
- GS2.** identify and replace processes that create unnecessary waste.
- GS3.** read safety instructions, safety signage and safety manuals
- GS4.** read the usage of various safety tools and equipment
- GS5.** take notes on descriptions and details of various safety precautions and procedures as instructed
- GS6.** communicate supervisor about the work safety issues.
- GS7.** receive instructions from supervisor on minimizing the accidental risks
- GS8.** communicate co-workers about the precautions to be taken for accident-free work.
- GS9.** how to select appropriate safety tools and equipment
- GS10.** improve work processes by adopting best safety practices
- GS11.** coordinate with different departments on briefing the safety aspects
- GS12.** guide the team members on use of various safety tools and equipment
- GS13.** spot errors and any other disruptions and communicate with solutions
- GS14.** how to use safety equipment such as fire extinguisher during fire accidents.
- GS15.** how to store chemicals and tools in a safe way.

HCS/N9903: Maintain Personal Hygiene

Description

This NOS provides the abilities required for taking responsibility for their own health at the workplace and is about using the correct procedures to prevent, control and minimize risk to them and others at the workplace.

Scope

The scope covers the following :

- adopt healthy work practices
- achieve work productivity while maintaining health

Elements and Performance Criteria

Adopt healthy work practices

To be competent, the user/individual on the job must be able to:

- PC1.** always cover the mouth and nose with a dust mask while working and keep on changing when it gets blocked with dust
- PC2.** wear safety shoes while visiting the production unit to avoid any damage
- PC3.** wear personal protective equipment while visiting the different departments during production. orexample mask in the washing section, glasses and mask in an assembly line, and gloves in the printing section, etc.
- PC4.** always wash sanitize your hands after a factory unit before touching any document, laptop, cell phone, etc.
- PC5.** undergo preventive health checkups at regular intervals.
- PC6.** take prompt treatment from the doctor in case of illness.

Achieve work productivity while maintaining health

To be competent, the user/individual on the job must be able to:

- PC7.** follow SOPs for dealing with blisters; scratches; accidental fires or any other type of emergencies at work
- PC8.** ensure no productivity loss or absenteeism from work due to illness
- PC9.** ensure no long-term ill effect on personal health.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** company's policies on personal health and occupational hazard management
- KU2.** company's HR policies.
- KU3.** company's reporting structure
- KU4.** company's emergency evacuation procedure
- KU5.** health risks to the worker at the workplace

Qualification Pack

- KU6.** healthy work practices
- KU7.** how to perform the duties in a way to minimize pollution at the workplace.
- KU8.** what personal protective equipment should be worn and how it is cared for
- KU9.** safe disposal methods for waste
- KU10.** how to provide first-aid treatment at the workplace
- KU11.** emergency procedures to be followed in case of an mishap such as fire accidents etc.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read personal health instructions and manual
- GS2.** read the usage of various hand tools and personal protection equipment
- GS3.** take notes on descriptions and details of various personal health maintenance procedures
- GS4.** communicate supervisor about the physical symptoms
- GS5.** receive instructions from doctor and supervisor on medical care
- GS6.** how to select appropriate hand tools and personal protection equipment
- GS7.** when to change personal protection equipment during work
- GS8.** how to identify first aid needs in case and of an injury
- GS9.** how to select appropriate hand tools and personal protection equipment
- GS10.** when to change personal protection equipment during work
- GS11.** how to use materials that does not affect customer health / make injury
- GS12.** improve work processes by adopting best safety practices
- GS13.** analyze the usage of appropriate tools and consumables
- GS14.** spot errors and any other disruptions and communicate with solutions

Qualification Pack

HCS/N9904: Basic Business Management

Description

This OS unit focuses on business planning, internal strategy, timelines.

Scope

The scope covers the following :

- People management
- Product planning
- Procurement of raw materials
- Market interfacing
- Financial management
- Record keeping

Elements and Performance Criteria

People management

To be competent, the user/individual on the job must be able to:

- PC1.** arrange Interactive meetings of managers of sales and production teams and categorize the issues and feedbacks of both the teams
- PC2.** train the employees of his/her unit with the appropriate skills required to make marketrelevant and quality products
- PC3.** motivate the employees

Product planning

To be competent, the user/individual on the job must be able to:

- PC4.** compile a report based on old production reports
- PC5.** address the issues faced in previous productions and try to resolve them
- PC6.** gather and analyze the cues from the market
- PC7.** ascertain the customer preference
- PC8.** develop product range lines based on current market preference
- PC9.** develop product range lines that are unique and able to price high
- PC10.** price the products according to market trends
- PC11.** identify the competent marketing strategy for the product range

Procurement of raw materials

To be competent, the user/individual on the job must be able to:

- PC12.** list of the raw material s and prepare a B.O.M according to the product lines
- PC13.** ascertain the quantity and right price to procure the materials
- PC14.** identify the right locations/agents from where the raw materials can be procured
- PC15.** negotiate to get the best price
- PC16.** ensure quality materials are procured

Qualification Pack

PC17. ensure the procured materials are stored in appropriate conditions

PC18. compile a record of price quotations, POs, and bills of procurement for future reference

Market interfacing

To be competent, the user/individual on the job must be able to:

PC19. maintain a healthy and professional relationship with vendor

PC20. the competitive market falls in order with the company policies of best price, quality, and delivery parameters

PC21. analyze the prevalent price for product lines

PC22. decide on the most effective means to access the market

PC23. plan for cost-effective transportation to the market

PC24. position the product according to market requirements

PC25. identify and address the expectations of customer

Financial management

To be competent, the user/individual on the job must be able to:

PC26. analyze and ascertain the cost of production

PC27. maintain the book of accounts related to the business

PC28. maintain export documents like a letter of credit, custom clearance

PC29. identify cost-effective means of running the business

Record keeping

To be competent, the user/individual on the job must be able to:

PC30. identify various aspects of business that require recording

PC31. design formats for recording

PC32. compile various records of all aspects of the business

PC33. maintain these records with periodic updations

PC34. maintain necessary documents as per local government and regulatory requirements

PC35. reframe the procurement strategy according to local scenarios like weather conditions, transport strikes, affected prices, etc.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. interpersonal skills and communication with a cross-section of stakeholders

KU2. understanding of basics accounting so that he/she can monitor the transactions between company and vendor

KU3. knowledge of banking basics to keep the export process flawless

KU4. understanding of costing principles to calculate the cost of production with all the overheads and the actual price

KU5. product and craft knowledge including material and tools requirements

KU6. gathering market intelligence.

KU7. various transportation means and implications on costing

KU8. various product lines that can be created depending on the sector of operation

Qualification Pack

- KU9.** basic record-keeping techniques
- KU10.** basic laws, rules, regulations, etc. regarding business
- KU11.** vendor management and development
- KU12.** pricing techniques
- KU13.** business profitability assessment

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** analyse product range and keep abreast of market trends
- GS2.** document various aspects of the business
- GS3.** compile descriptions and details about investment, expenditures, and sales
- GS4.** interact with teams to work efficiently
- GS5.** communicate and manage vendors for cost-effective outsourcing and procurements
- GS6.** interface with fellow entrepreneurs to exchange ideas on the business
- GS7.** communicate with the customers for their feedback about the product
- GS8.** comprehend information shared by various stakeholders
- GS9.** plan and organize the product lines
- GS10.** fix the appropriate price.
- GS11.** hire employees with the appropriate skill set and experience
- GS12.** predict the profit margin to be achieved by the business
- GS13.** decide target segment of the market
- GS14.** schedule production cycles for better efficiency of resources
- GS15.** planning of production efficiency based on manpower and equipment available
- GS16.** schedule market visits for surveys and feedback
- GS17.** gather information on preference and taste of the customer
- GS18.** interact with various types of customers and understand the trends
- GS19.** analyze and solve conflicts and problems of the business.
- GS20.** ensure that the problems do not arise repeatedly.
- GS21.** anticipate various problems/challenges that can crop up
- GS22.** analyze the market for increasing sales
- GS23.** spot errors and any other disruptions and communicate with solutions

Qualification Pack

DGT/VSQ/N0102: Employability Skills (60 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Career Development & Goal Setting
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

- PC1.** identify employability skills required for jobs in various industries
- PC2.** identify and explore learning and employability portals

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

- PC3.** recognize the significance of constitutional values, including civic rights and duties, citizenship, responsibility towards society etc. and personal values and ethics such as honesty, integrity, caring and respecting others, etc.
- PC4.** follow environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

- PC5.** recognize the significance of 21st Century Skills for employment
- PC6.** practice the 21st Century Skills such as Self-Awareness, Behaviour Skills, time management, critical and adaptive thinking, problem-solving, creative thinking, social and cultural awareness, emotional awareness, learning to learn for continuous learning etc. in personal and professional life

Basic English Skills

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC7.** use basic English for everyday conversation in different contexts, in person and over the telephone
- PC8.** read and understand routine information, notes, instructions, mails, letters etc. written in English
- PC9.** write short messages, notes, letters, e-mails etc. in English

Career Development & Goal Setting

To be competent, the user/individual on the job must be able to:

- PC10.** understand the difference between job and career
- PC11.** prepare a career development plan with short- and long-term goals, based on aptitude

Communication Skills

To be competent, the user/individual on the job must be able to:

- PC12.** follow verbal and non-verbal communication etiquette and active listening techniques in various settings
- PC13.** work collaboratively with others in a team

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

- PC14.** communicate and behave appropriately with all genders and PwD
- PC15.** escalate any issues related to sexual harassment at workplace according to POSH Act

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

- PC16.** select financial institutions, products and services as per requirement
- PC17.** carry out offline and online financial transactions, safely and securely
- PC18.** identify common components of salary and compute income, expenses, taxes, investments etc
- PC19.** identify relevant rights and laws and use legal aids to fight against legal exploitation

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

- PC20.** operate digital devices and carry out basic internet operations securely and safely
- PC21.** use e- mail and social media platforms and virtual collaboration tools to work effectively
- PC22.** use basic features of word processor, spreadsheets, and presentations

Entrepreneurship

To be competent, the user/individual on the job must be able to:

- PC23.** identify different types of Entrepreneurship and Enterprises and assess opportunities for potential business through research
- PC24.** develop a business plan and a work model, considering the 4Ps of Marketing Product, Price, Place and Promotion
- PC25.** identify sources of funding, anticipate, and mitigate any financial/ legal hurdles for the potential business opportunity

Customer Service

To be competent, the user/individual on the job must be able to:

- PC26.** identify different types of customers
- PC27.** identify and respond to customer requests and needs in a professional manner.

Qualification Pack

PC28. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC29. create a professional Curriculum vitae (Résumé)

PC30. search for suitable jobs using reliable offline and online sources such as Employment exchange, recruitment agencies, newspapers etc. and job portals, respectively

PC31. apply to identified job openings using offline /online methods as per requirement

PC32. answer questions politely, with clarity and confidence, during recruitment and selection

PC33. identify apprenticeship opportunities and register for it as per guidelines and requirements

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills and different learning and employability related portals

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use English language for effective verbal (face to face and telephonic) and written communication in formal and informal set up

KU6. importance of career development and setting long- and short-term goals

KU7. about effective communication

KU8. POSH Act

KU9. Gender sensitivity and inclusivity

KU10. different types of financial institutes, products, and services

KU11. how to compute income and expenditure

KU12. importance of maintaining safety and security in offline and online financial transactions

KU13. different legal rights and laws

KU14. different types of digital devices and the procedure to operate them safely and securely

KU15. how to create and operate an e- mail account and use applications such as word processors, spreadsheets etc.

KU16. how to identify business opportunities

KU17. types and needs of customers

KU18. how to apply for a job and prepare for an interview

KU19. apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. read and write different types of documents/instructions/correspondence

GS2. communicate effectively using appropriate language in formal and informal settings

Qualification Pack

- GS3.** behave politely and appropriately with all
- GS4.** how to work in a virtual mode
- GS5.** perform calculations efficiently
- GS6.** solve problems effectively
- GS7.** pay attention to details
- GS8.** manage time efficiently
- GS9.** maintain hygiene and sanitization to avoid infection

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

- 1.Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for each PC.
- 2.Each NOS will be assessed both for theoretical knowledge and practical
- 3.The assessment will be based on knowledge bank of questions created by the SSC.
- 4.Individual assessment agencies will create unique question papers for theory and skill practical part for each candidate at each examination/training center
- 5.To pass the Qualification Pack, every trainee should score a minimum of 70% in every NOS
- 6.In case of successfully passing only certain number of NOS's, the trainee is eligible to take subsequent assessment on the balance NOS's to pass the Qualification Pack

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to

Qualification Pack

successfully clear the Qualification Pack assessment.)

Qualification Pack

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
