HCS/N2503: Prepare to make decorative designs on glass articles

Description

This OS unit is about making a decorative design on glass articles using a different types of glass colors as per design specifications. To perform the work competently the person is required to work with precision in delivering outcomes mentioned in this unit.

Scope

The scope covers the following :

- Review and Understand Work Instructions
- Gather Tools, Materials, and Raw Materials
- Inspect Materials and Plan the Work Sequence
- Prepare the Work Area and Ensure Safety

Elements and Performance Criteria

Review and Understand Work Instructions

To be competent, the user/individual on the job must be able to:

- PC1.** Review the job instructions and design specifications received from responsible personnel, ensuring clarity on design, color palette, and areas to be painted.
- PC2.** Confirm that the instructions and design details are complete and accurate.
- PC3.** Clarify any uncertainties or missing information with the supervisor or manager before proceeding.

Gather Tools, Materials, and Raw Materials

To be competent, the user/individual on the job must be able to:

- PC4.** Collect all required tools and equipment, ensuring they align with the job requirements and approved procedures.
- PC5.** Ensure all raw materials, including glass articles and paints, are available and in suitable condition for the task.
- PC6.** Check that all tools and materials are clean, undamaged, and fit for use in the design process.

Inspect Materials and Plan the Work Sequence

To be competent, the user/individual on the job must be able to:

- PC7.** Visually inspect the glass articles for defects such as chips, cracks, or rough edges and ensure they meet the design requirements.
- PC8.** Plan the sequence of tasks for efficient execution, ensuring that drying times, material curing, and other requirements are factored in.
- PC9.** Ensure that the work plan aligns with safety protocols and follows the design specifications.

Prepare the Work Area and Ensure Safety

To be competent, the user/individual on the job must be able to:

- PC10.** Organize the work area to ensure it is clean, spacious, and well-ventilated for safe work conditions.

Qualification Pack

- PC11.** Set up appropriate lighting for detailed design work and ensure all tools and materials are within easy reach.
- PC12.** Verify that necessary personal protective equipment (PPE) is available, such as gloves, aprons, goggles, or masks, and ensure they are in good condition.
- PC13.** Inspect all equipment, including glass-cutting tools and ovens, to ensure they are safe and functional for use.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** relevant legislation, standards, policies, and procedures followed in the company
- KU2.** relevant health and safety requirements applicable in the work place
- KU3.** own job role and responsibilities, and sources for information pertaining to employment terms, entitlements, job role and responsibilities
- KU4.** approaches towards support in order to obtain work related instructions, clarifications and support
- KU5.** importance of following health, hygiene, safety and quality standards and the impact of not following the standards on consumers and the business
- KU6.** relevant people and their responsibilities within the work area
- KU7.** documentation and related procedures applicable in the context of employment and work
- KU8.** importance of using personal protective equipment appropriate to the glass painting work
- KU9.** hazards and risks associated with glass painting and how to minimize accidents and injury to self and others
- KU10.** different types of tools, machine and raw material and their uses
Tools: Colour plates, scraper, brushes, glass colours, markers
Machine: Glass marking machine, Firing oven
Raw materials: Glass articles
- KU11.** machine preparation process and tasks including testing machines for work readiness
- KU12.** different defects in machinery that can increase risk or damage production
- KU13.** safe disposal of glass waste materials
- KU14.** importance of documenting completed work in relevant service logbooks, data book, register, etc.
- KU15.** different types of colors used for glass painting based on requirement
- KU16.** appropriate temperature of the firing oven to heat
- KU17.** effects of rough and uneven surface of the glass before painting
- KU18.** importance of timely and accurate reporting of defects, shortcomings and errors to appropriate authority

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** take notes of instructions received from supervisor
- GS2.** keep log book and details of work done

Qualification Pack

- GS3.** interpret pictorial representations and written signs or instructions mentioned in work specification document
- GS4.** read and interpret numbers written in Hindi or local language
- GS5.** understand safety symbols and basic warning signs wherever needed
- GS6.** read instructions from supervisor provided in local language or Hindi
- GS7.** inform supervisor or co-workers of work related problems in any locally understood language
- GS8.** take instructions completely so that no instruction is missed or misunderstood
- GS9.** seek clarification on any unclear instructions in locally understood language
- GS10.** decide on material requirement for painting operation
- GS11.** make decisions pertaining to the concerned area of work
- GS12.** plan and organize own work in a way that all activities are completed in time and as per specifications
- GS13.** ascertain basic concepts of working effectively including waste reduction, recycle use of metal scraps, efficient material usage, and optimization of time
- GS14.** determine timely correction of errors to minimize rejection of pieces
- GS15.** resolve problems/conflicts through proper communication

HCS/N2504: Making decorative design on glass article

Description

Decorative glass painter makes required decorative design on glass articles with the help of glass colors. To perform the work competently the person is required to work with precision in delivering outcomes with the help of appropriate painting techniques.

Scope

The scope covers the following :

- assess work requirements
- make decorative design on glass article
- work safely

Elements and Performance Criteria

Assess work requirements

To be competent, the user/individual on the job must be able to:

- PC1.** Arrange the appropriate tools, materials, and accessories required for the task, including color plates, scrapers, brushes, and markers, as well as raw materials such as glass articles and glass colors.
- PC2.** Receive detailed job instructions and design guidelines from the personnel responsible, including specifications on the design, color combinations to be used, the area to be painted, and any specific techniques to be applied.
- PC3.** Read and confirm that the instructions given and design are complete and correct.
- PC4.** Inspect glass articles visually for any possible defects as per required standard parameters.
- PC5.** Identify the surfaces and dimensions of the article to be painted.
- PC6.** Draw the design on the glass article with the help of the marker.

Make decorative design on glass article

To be competent, the user/individual on the job must be able to:

- PC7.** Identify a suitable type of colour to be used as per design instructions.
- PC8.** Prepare the design on the surface of the glass article with base color.
- PC9.** Perform step by step the colouring process on the glass article.
- PC10.** Apply the final finishing coat on the glass article right after coat dries up and before keeping in firing oven.
- PC11.** Maintain required production output and product quality.
- PC12.** Perform painting in a well-ventilated and lit place.
- PC13.** Use proper painting techniques while painting the glass articles.
- PC14.** Ensure the paint is spread evenly across the design as per requirement.
- PC15.** Set the firing oven at the appropriate temperature for baking.
- PC16.** Put and take out the glass articles in/from the firing oven after final coat at correct temperature.

Qualification Pack

Work safely

To be competent, the user/individual on the job must be able to:

- PC17.** Always comply with health and safety requirements and procedures for decorative glass painting.
- PC18.** Always work safely, complying with health and safety legislation, regulations and other relevant guidelines.
- PC19.** Maintain correct body postures while seating for long hours in the allocated workspace.
- PC20.** Ensure that the work area is free of clutter and the environment favorable to carry out glass painting work Favorable environment: Proper ventilation, lighting, spacious, clear of wastes, etc.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** relevant legislation, standards, policies, and procedures followed in the company
- KU2.** relevant health and safety requirements applicable in the work place
- KU3.** own job role and responsibilities, and sources for information pertaining to employment terms, entitlements, job role and responsibilities
- KU4.** approaches towards support in order to obtain work related instructions, clarifications and support
- KU5.** importance of following health, hygiene, safety and quality standards and the impact of not following the standards on consumers and the business
- KU6.** relevant people and their responsibilities within the work area
- KU7.** documentation and related procedures applicable in the context of employment and work
- KU8.** importance of using personal protective equipments appropriate to the glass painting work
- KU9.** basic drawing concepts such as line and other geometrical shapes
- KU10.** approved techniques used to mark out desired shapes on glass articles by hand or marking machine
- KU11.** methods of holding and centering work piece
- KU12.** hazards and risks associated with glass painting and how to minimize accidents and injury to self and others
- KU13.** importance of maintaining healthy work environment
- KU14.** safe disposal of glass wastes materials
- KU15.** importance of documenting completed work in relevant service logbooks, data book, register, etc.
- KU16.** different types of tools, machine and raw material and their uses
Tools: colour plates, scraper, brushes, glass colours, markers
Machine: Glass marking machine, Firing oven
Raw materials: Glass articles
- KU17.** different types of colors used for glass painting based on requirement
- KU18.** appropriate temperature of the firing oven to heat
- KU19.** effects of rough and uneven surface of the glass before painting
- KU20.** ways to trace the design on glass article using marker or marking machine

Qualification Pack

Generic Skills (GS)

HCS/N9916: Follow basic health and safety practices for glassware crafts

Description

This unit covers health, safety and security at the workplace. This includes procedures and practices that candidates need to follow to help maintain a healthy, safe and secure work environment.

Scope

The scope covers the following :

- General Safety Practices
- Workplace Hazard Identification
- Safe Work Practices
- Fire Safety
- First Aid and Emergency Response
- Good Housekeeping Practices
- Awareness and Compliance

Elements and Performance Criteria

General Safety Practices

To be competent, the user/individual on the job must be able to:

- PC1.** Handle glass, tools, materials, and chemicals with care to prevent injuries or damage.
- PC2.** Wear appropriate personal protective equipment (PPE), such as gloves, goggles, and masks, while working.
- PC3.** Inspect tools, machines, and equipment for safety before use.
- PC4.** Adhere to safe material handling practices to avoid breakage or injury.
- PC5.** Dispose of broken glass, chemical waste, and other waste materials as per workplace guidelines.
- PC6.** Report accidents, near misses, or unsafe conditions immediately to the supervisor.

Workplace Hazard Identification

To be competent, the user/individual on the job must be able to:

- PC7.** Identify potential hazards in the work area, such as sharp edges, hot surfaces, fumes, or improper lighting.
- PC8.** Take precautions while working with hazardous materials, including molten glass and chemicals.
- PC9.** Ensure proper ventilation in areas where glass cutting, heating, or chemical processes are conducted.

Safe Work Practices

To be competent, the user/individual on the job must be able to:

- PC10.** Follow safe handling and storage practices for glass and glassware tools.
- PC11.** Maintain a clutter-free and well-organized workspace.
- PC12.** Use machines and equipment only as per instructions and ensure proper maintenance.

Qualification Pack

PC13. Follow electrical safety practices, such as avoiding overloading circuits or using damaged wires.

PC14. Lift and carry glass objects carefully using appropriate techniques to avoid strain or injury.

Fire Safety

To be competent, the user/individual on the job must be able to:

PC15. Identify different types of fires and the appropriate extinguishers for each.

PC16. Use fire extinguishers correctly in case of emergencies involving glass crafting materials.

PC17. Keep flammable materials away from heat sources and ensure safe storage of chemicals.

First Aid and Emergency Response

To be competent, the user/individual on the job must be able to:

PC18. Administer basic first aid for minor injuries, such as cuts, burns, or exposure to chemicals.

PC19. Demonstrate methods to handle emergencies, such as freeing someone from electrocution or treating chemical burns.

PC20. Respond promptly to emergencies by raising alarms, evacuating safely, and assisting others.

Good Housekeeping Practices

To be competent, the user/individual on the job must be able to:

PC21. Clean and organize the workspace regularly to minimize risks.

PC22. Ensure safe storage and labeling of hazardous materials and tools.

PC23. Keep walkways and exits clear of clutter to facilitate easy movement during emergencies.

Awareness and Compliance

To be competent, the user/individual on the job must be able to:

PC24. Follow organizational health and safety policies while working with glassware crafts.

PC25. Recognize and comply with hazard signs, safety instructions, and warning labels.

PC26. Participate in safety drills and training sessions conducted at the workplace.

PC27. Familiarize yourself with the location and use of safety equipment, such as first aid kits and fire extinguishers.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. Names (and job titles if applicable), and where to find, all the people responsible for health and safety in a workplace.

KU2. Names and location of documents that refer to health and safety in the workplace.

KU3. Meaning of hazards and risks.

KU4. Health and safety hazards commonly present in the work environment and related precautions.

KU5. Possible causes of risk, hazard or accident in the workplace and why risk and/or accidents are possible.

KU6. Possible causes of risk and accident. Possible causes of risk and accident: Physical actions; not listening to given instructions; inattention; improper disposal of carcass wastes & fluids; sickness and incapacity (such as drunkenness); health hazards (such as untreated injuries and contagious illness).

Qualification Pack

- KU7.** Methods of accident prevention. Methods of accident prevention: Training in health and safety procedures; using health and safety procedures; use of equipment and working practices (such as safe carrying procedures); safety notices, advice; instruction from colleagues and supervisors.
- KU8.** Safe working practices while working at various hazardous sites.
- KU9.** Where to find all the general health and safety equipment in the workplace.
- KU10.** Various dangers associated with the use of electrical equipment.
- KU11.** Preventative and remedial actions to be taken in the case of exposure to toxic materials. Exposure: Ingested, contact with skin, inhaled. Preventative action: Ventilation, masks, protective clothing/ equipment). Remedial action: Immediate first aid, report to supervisor. Toxic materials: Solvents, flux, lead.
- KU12.** Importance of using protective clothing/equipment while working.
- KU13.** Adherence to environmental management policies.
- KU14.** Safe disposal of metal scraps in appropriate locations.
- KU15.** Precautionary activities to prevent the fire accident.
- KU16.** Various causes of fire. Causes of fires: Heating of metal; spontaneous ignition; sparking; electrical heating; loose fires (smoking, welding, etc.); chemical fires; etc.
- KU17.** Techniques of using the different fire extinguishers.
- KU18.** Different methods of extinguishing fire.
- KU19.** Different materials used for extinguishing fire. Materials: Sand, water, foam, CO2, dry powder, rescue techniques applied during a fire hazard.
- KU20.** Various types of safety signs and what they mean.
- KU21.** Appropriate basic first aid treatment relevant to the condition eg. shock, electrical shock, bleeding, breaks to bones, minor burns, resuscitation, poisoning, eye injuries, etc.
- KU22.** Potential injuries and ill health associated with incorrect manual handling.
- KU23.** Safe lifting and carrying practices.
- KU24.** Personal safety, health and dignity issues relating to the movement of a person by others.
- KU25.** Potential impact to a person who is moved incorrectly.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Take notes in local language or Hindi of instructions received from supervisor.
- GS2.** Keep log book and details of work done.
- GS3.** Interpret pictorial representations and written signs or instructions mentioned in work specification document.
- GS4.** Read and interpret numbers written in Hindi or local language.
- GS5.** Understand safety symbols and basic warning signs wherever needed.
- GS6.** Read the job specification provided in local language or Hindi.
- GS7.** Read instructions from supervisor provided in local language or Hindi.
- GS8.** Inform supervisor or co-workers of work related problems in any locally understood language.

Qualification Pack

- GS9.** Take instructions completely so that no instruction is missed or misunderstood.
- GS10.** Seek clarification on any unclear instructions in locally understood language.
- GS11.** Decide on material requirement for painting operation.
- GS12.** Make decisions pertaining to the concerned area of work.
- GS13.** Plan and organize own work in a way that all activities are completed in time and as per specifications.
- GS14.** Basic concepts of working effectively including waste reduction, recycle use of metal scraps, efficient material usage, and optimization of time.
- GS15.** Determine timely correction of errors to minimize rejection of pieces.
- GS16.** Resolve problems / conflicts through proper communication.

HCS/N2410: Entrepreneurship skills for Decorative glassware painter

Description

This unit specializes in designing and painting intricate patterns and motifs on glassware products. Entrepreneurship skills are essential for those wishing to establish their own glassware business.

Scope

The scope covers the following :

- Opportunity Identification and Market Research
- Business Planning and Strategy Development
- Financial Management and Profitability
- Legal and Regulatory Compliance

Elements and Performance Criteria

Opportunity Identification and Market Research

To be competent, the user/individual on the job must be able to:

- PC1.** Ability to analyze the market for decorative glassware, identify potential customer segments, and understand consumer preferences.
- PC2.** Conduct research on emerging trends in glassware design, such as color palettes, popular motifs, and fusion styles.

Business Planning and Strategy Development

To be competent, the user/individual on the job must be able to:

- PC3.** Develop a comprehensive business plan covering production processes, pricing strategies, marketing efforts, and financial projections.
- PC4.** Set clear business goals, including timelines for product launches, sales targets, and growth milestones.
- PC5.** Explore opportunities for product diversification, such as custom orders, limited-edition collections, and collaboration with interior designers or event planners.
- PC6.** Build a brand identity that reflects the style, quality, and uniqueness of your glassware products.

Financial Management and Profitability

To be competent, the user/individual on the job must be able to:

- PC7.** Track production costs, operational expenses, and profits through efficient bookkeeping and accounting systems.
- PC8.** Develop strategies to maintain profitability by managing material costs, optimizing labor, and maintaining competitive pricing.
- PC9.** Ensure proper cash flow management and access to financial resources such as loans or grants.
- PC10.** Gather customer feedback to improve product offerings and ensure high levels of satisfaction.

Legal and Regulatory Compliance

Qualification Pack

To be competent, the user/individual on the job must be able to:

- PC11.** Understand the legal requirements for starting and operating a decorative glassware painting business, including registration, taxation, and health and safety regulations.
- PC12.** Stay updated with industry standards and ensure compliance with environmental sustainability practices, particularly related to safe disposal of paints and materials.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** The ability to think creatively and find new ways to design and market glassware products.
- KU2.** Knowledge of how to take calculated risks in launching new products or expanding market reach.
- KU3.** Understanding the current trends in the decorative glassware industry, including popular designs, customer preferences, and emerging global styles.
- KU4.** Knowledge of different target customer groups (e.g., households, interior designers, corporate clients) and their specific preferences in decorative glassware.
- KU5.** Familiarity with historical and contemporary design elements, color theory, and the psychology of aesthetics.
- KU6.** Knowledge of the different types of glass materials (e.g., frosted, clear, colored) and suitable paints, pigments, and varnishes to ensure durability and quality.
- KU7.** Knowledge of how to develop a detailed business plan, covering all aspects such as production, pricing, marketing, and sales strategies.
- KU8.** Understanding of the cost components in the decorative glassware business, including raw materials, labor, marketing, and distribution costs.
- KU9.** Knowledge of brand development, including creating a brand identity, logo, and narrative that reflects the vision of the glassware business.
- KU10.** Awareness of national and international quality standards for decorative glassware products.
- KU11.** Knowledge of the procedures for registering a business, acquiring necessary licenses, and legal compliance, including taxation.
- KU12.** Understanding how to source high-quality glass and paints from reliable suppliers while maintaining cost efficiency.
- KU13.** Knowledge of how to anticipate and mitigate risks related to business operations, financial constraints, or competition.
- KU14.** Strategies for building long-term relationships with clients through personalized experiences and loyalty-building efforts.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Ability to analyze market trends and consumer behavior to make informed business decisions.
- GS2.** Capacity to evaluate different design concepts and resolve challenges in product development.

Qualification Pack

- GS3.** Ability to innovate by experimenting with new painting techniques, color palettes, and design patterns that reflect market demand.
- GS4.** Active listening to understand client needs, customer preferences, and feedback to refine products and services.
- GS5.** Strong organizational skills to manage multiple projects and ensure timely completion of orders.
- GS6.** Ability to prioritize tasks such as production schedules, marketing efforts, and client meetings to achieve business goals efficiently.
- GS7.** Skills in building relationships with industry professionals, including suppliers, distributors, and artisans, to expand business opportunities.
- GS8.** Adaptability to respond to changes in market demands, consumer preferences, or business environments.
- GS9.** Ability to stay self-motivated and driven, especially as an independent entrepreneur or small business owner.
- GS10.** Professional negotiation skills for securing favorable terms with suppliers, distributors, and clients.

HCS/N9908: Working in a Team

Description

This unit is about working as part of a team in the process.

Elements and Performance Criteria

Commitment and trust

To be competent, the user/individual on the job must be able to:

- PC1.** Be accountable to one's own role in whole process.
- PC2.** Perform all roles with full responsibility.

Communication

To be competent, the user/individual on the job must be able to:

- PC3.** Report problems faced during the process.
- PC4.** Talk politely with other team members and colleagues.
- PC5.** Submit daily report of own performance.

Adaptability

To be competent, the user/individual on the job must be able to:

- PC6.** Adjust in different work situations.
- PC7.** Give due importance to others point of view.
- PC8.** Avoid conflicting situations.

Creative freedom

To be competent, the user/individual on the job must be able to:

- PC9.** Develop new ideas for work procedures
- PC10.** Improve upon the existing techniques to increase process efficiency

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** General rules and regulations in the sector.
- KU2.** Procedure followed to get the final output.
- KU3.** Safe working practices to be adopted.
- KU4.** Reporting to the supervisor or higher authority about any grievances faced.
- KU5.** Understanding the importance of the previous and next step of the process.
- KU6.** Process flow in the handicraft section.
- KU7.** Material sequence of flow.
- KU8.** Functions of different parts of product development.
- KU9.** Tools and equipments used.
- KU10.** Guidelines for operating the equipment.
- KU11.** Safety procedures to be followed as applicable.

Qualification Pack

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Prepare status and progress reports.
- GS2.** Write memos and e-mail to co-workers, and vendors to provide them with work updates and to request appropriate information without English language errors regarding grammar or sentence construct.
- GS3.** Keep abreast with the latest knowledge by reading brochures, pamphlets, and product information sheets.
- GS4.** Discuss task lists, schedules, and work-loads with co-workers.
- GS5.** Keep co-workers and supervisors informed about progress.
- GS6.** Make decisions pertaining to the concerned area of work.
- GS7.** Plan and organize service feedback files/documents.
- GS8.** Manage relationships with customers.
- GS9.** Build customer relationships and use customer centric approach.
- GS10.** Think through the problem, evaluate the possible solution(s) and suggest an optimum /best possible solution(s).
- GS11.** Identify immediate or temporary solutions to resolve delays.
- GS12.** Use the existing data to arrive at specific data points.
- GS13.** Apply, analyze, and evaluate the information gathered from observation, experience, reasoning, or communication, as a guide to thought and action.

HCS/N9935: Maintain Personal Cleanliness

Description

This NOS provides the abilities required for taking responsibility for their own health at the workplace and is about using the correct procedures to prevent, control and minimize risk to them and others at the workplace.

Scope

The scope covers the following :

- adopt healthy work practices
- achieve work productivity while maintaining health

Elements and Performance Criteria

Adopt healthy work practices

To be competent, the user/individual on the job must be able to:

- PC1.** always cover the mouth and nose with a dust mask while working and keep on changing when it gets blocked with dust
- PC2.** follow work instructions strictly to reduce the amount of pollution at the work place e.g. wet the rock / craft material before working on it
- PC3.** wear protective goggles over eyes and replace them when scratches on it obscure the vision
- PC4.** wear gloves as per the materials used for making handicraft to avoid blisters; scratches and cuts
- PC5.** undergo preventive health checkups at regular intervals
- PC6.** take prompt treatment from the doctor in case of illness

Achieve work productivity while maintaining health

To be competent, the user/individual on the job must be able to:

- PC7.** follow SOPs for dealing with blisters; scratches; accidental fires or any other type of emergencies at work
- PC8.** ensure the absence of no productivity loss or absenteeism from work due to illness
- PC9.** ensure no long term ill effect on the personal health

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** companys policies on personal health and occupational hazard management
- KU2.** companys hr policies
- KU3.** companys reporting structure
- KU4.** companys emergency evacuation procedure
- KU5.** health risks to the worker at the work place

Qualification Pack

- KU6.** healthy work practices
- KU7.** how to perform the duties in a way to minimize pollution at the work place
- KU8.** what personal protective equipments should be worn and how it is cared for
- KU9.** safe disposal methods for waste
- KU10.** how to provide the first aid treatment at workplace
- KU11.** emergency procedures to be followed in case of an mishap such as fire accidents etc.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read personal health instructions and manual
- GS2.** read the usage of various hand tools and personal protection equipments
- GS3.** take notes on descriptions and details of various personal health maintenance procedures
- GS4.** communicate with supervisor about the physical symptoms
- GS5.** receive instructions from doctor and supervisor on medical care
- GS6.** how to select appropriate hand tools and personal protection equipment
- GS7.** when to change personal protection equipment during work
- GS8.** how to identify first aid needs in case and of an injury
- GS9.** how to select appropriate hand tools and personal protection equipment
- GS10.** when to change personal protection equipment during work
- GS11.** how to use materials that does not affect customer health / make injury
- GS12.** improve work processes by adopting best safety practices
- GS13.** analyze the usage of appropriate tools and consumables
- GS14.** spot errors and any other disruptions and communicate with solutions

Qualification Pack

DGT/VSQ/N0101: Employability Skills (30 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

PC1. understand the significance of employability skills in meeting the job requirements

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

PC2. identify constitutional values, civic rights, duties, personal values and ethics and environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

PC3. explain 21st Century Skills such as Self-Awareness, Behavior Skills, Positive attitude, self-motivation, problem-solving, creative thinking, time management, social and cultural awareness, emotional awareness, continuous learning mindset etc.

Basic English Skills

To be competent, the user/individual on the job must be able to:

PC4. speak with others using some basic English phrases or sentences

Communication Skills

To be competent, the user/individual on the job must be able to:

PC5. follow good manners while communicating with others

PC6. work with others in a team

Qualification Pack

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

PC7. communicate and behave appropriately with all genders and PwD

PC8. report any issues related to sexual harassment

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

PC9. use various financial products and services safely and securely

PC10. calculate income, expenses, savings etc.

PC11. approach the concerned authorities for any exploitation as per legal rights and laws

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

PC12. operate digital devices and use its features and applications securely and safely

PC13. use internet and social media platforms securely and safely

Entrepreneurship

To be competent, the user/individual on the job must be able to:

PC14. identify and assess opportunities for potential business

PC15. identify sources for arranging money and associated financial and legal challenges

Customer Service

To be competent, the user/individual on the job must be able to:

PC16. identify different types of customers

PC17. identify customer needs and address them appropriately

PC18. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC19. create a basic biodata

PC20. search for suitable jobs and apply

PC21. identify and register apprenticeship opportunities as per requirement

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use basic spoken English language

KU6. Do and dont of effective communication

KU7. inclusivity and its importance

KU8. different types of disabilities and appropriate communication and behaviour towards PwD

KU9. different types of financial products and services

Qualification Pack

- KU10.** how to compute income and expenses
- KU11.** importance of maintaining safety and security in financial transactions
- KU12.** different legal rights and laws
- KU13.** how to operate digital devices and applications safely and securely
- KU14.** ways to identify business opportunities
- KU15.** types of customers and their needs
- KU16.** how to apply for a job and prepare for an interview
- KU17.** apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate effectively using appropriate language
- GS2.** behave politely and appropriately with all
- GS3.** perform basic calculations
- GS4.** solve problems effectively
- GS5.** be careful and attentive at work
- GS6.** use time effectively
- GS7.** maintain hygiene and sanitisation to avoid infection

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score the Recommended Pass % aggregate for the QP.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Minimum Passing % at NOS Level: 50

(Please note: A Trainee must score the minimum percentage for each NOS separately as well as on the QP as a whole.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
