HCS/Q2903: Inlay Artisan - Metalware

Brief Job Description

A metalware Inlay Artisan creates unique handcrafted pieces by combining intricate inlay techniques with various metals. Their work showcases a blend of traditional craftsmanship and modern design, resulting in elegant and distinctive items.

Personal Attributes

A metalware Inlay Artisan is detail-oriented and creative, demonstrating exceptional craftsmanship and patience in their intricate designs. They are passionate about their craft, adaptable to client needs, and dedicated to producing high-quality, unique pieces.

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [HCS/N2904: Set silver/gold wire in the metal craft](#)
2. [HCS/N2911: Carry out the process of making Bidri craft](#)
3. [HCS/N2912: Entrepreneurship Skills for Metalware Inlay artisan](#)
4. [HCS/N9929: Working in a team](#)
5. [HCS/N9931: Maintain health and safety at workplace](#)

Qualification Pack

HCS/N2904: Set silver/gold wire in the metal craft

Description

This OS unit is about preparing the pre engraving requirements to engrave design on a metal surface

Scope

The scope covers the following :

- understand work requirement
- assemble the required raw materials
- prepare the metal surface for inlaying
- inlay the metal strips / wire into the craft
- achieve quality and design standards

Elements and Performance Criteria

Understanding work requirement

To be competent, the user/individual on the job must be able to:

- PC1.** make note of the inlay requirement on aspects such as shape, style, materials, etc.
- PC2.** interpret the design requirements
- PC3.** make note of the areas to be engraved and inlayed
- PC4.** plan the target on number of pieces to be completed for the day

Assembling the required raw materials

To be competent, the user/individual on the job must be able to:

- PC5.** select appropriate tool such as hammer, chisel, knife, etc. to set the metal
- PC6.** collect appropriate inlaying material such as gold /silver (usually softer metals)
- PC7.** sharpen tools periodically
- PC8.** collect and arrange materials required to begin the process
- PC9.** check metals and ensure they are appropriate for the design requirement (edge of chisel, hammer size, width of inlay metal string)
- PC10.** report on any shortage or defect of raw materials to the concerned person
- PC11.** ensure to stock required materials in advance

Preparing the metal surface for inlaying

To be competent, the user/individual on the job must be able to:

- PC12.** receive the metal product from engraver to be inlayed (usually the product is made of harder metal)
- PC13.** inspect the metal craft and ensure grooves are as per standards to hold the metal string / wire / strip for inlay process
- PC14.** work on the grooves to ensure appropriate setting width / depth by chiseling in them (if required)
- PC15.** clean the surface of the metal before starting the inlaying process

Inlaying the metal strips / wire into the craft

Qualification Pack

To be competent, the user/individual on the job must be able to:

- PC16.** select the metal to be inlaid in the form of wire / strip / sheet
- PC17.** ensure uniformity of the width of the metal and make sure that it sets into the grooves
- PC18.** ensure the metal strip / sheet meets the design requirement (including colour)
- PC19.** apply glue or bonding agent in the grooves (if applicable)
- PC20.** place the metal wire / strip over the metal craft and hammer them in a way that it sets into grooves
- PC21.** hammer them using appropriate pressure so that it sets into the groove and it does not damage the craft / wire
- PC22.** ensure it sets into the groove firmly
- PC23.** use different type of metal strips as per design requirements at appropriate places
- PC24.** hammer the grooves at edges to close the setting (if applicable)
- PC25.** check the setting once it is complete and its conformity with design specification

Achieving quality and design standards

To be competent, the user/individual on the job must be able to:

- PC26.** achieve the finish as per design parameters and specification
- PC27.** set the metal strips / wire and ensure it does not come out of the craft
- PC28.** complete the craft within the agreed time and quality and meet the targets

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** company's policies on: incentives, safety and hazards, personnel management and quality standards
- KU2.** workflow involved in metal making process of the company
- KU3.** importance of the individuals role in the work process
- KU4.** reporting structure
- KU5.** documentation policy
- KU6.** customer profile
- KU7.** metal craft details
- KU8.** metal making process and types of products
- KU9.** interpreting design requirement
- KU10.** various kinds of raw materials involved in the process
- KU11.** different kinds of engraving methods to be used based on the requirement
- KU12.** inlaying and setting process in the metal craft
- KU13.** preparation of the metal surface
- KU14.** creating designs and tracing the outline
- KU15.** tools, consumables and equipment for engraving and inlaying
- KU16.** shaping the required tools and equipments as per requirement
- KU17.** using hammer, chisel and other tools used in engraving and inlaying process

Qualification Pack

- KU18.** maintaining the tools and take periodical maintenance activity
- KU19.** softer and harder metals
- KU20.** hammering process of wire / strip / sheet
- KU21.** analysing the groove, metal wire for inlaying requirement
- KU22.** safety standards and precautions to be taken
- KU23.** quality standards to be maintained
- KU24.** standard operating procedure
- KU25.** market trend and customer preferences

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** how to take notes or read about metal making techniques
- GS2.** how to read and write the notes from design
- GS3.** interact with team members to work efficiently
- GS4.** communicate effectively with supervisor
- GS5.** share work load with the colleagues in the process
- GS6.** multi task and deliver the final finished piece on time adhering to quality standards
- GS7.** plan for daily production
- GS8.** plan for budget and material requirement
- GS9.** customer preference, taste, etc and accordingly make crafts
- GS10.** solve issues relating to material, cost and labour and ensure smooth production
- GS11.** analyse the material requirement, corrective action required during craft making
- GS12.** spot process disruptions and delays
- GS13.** how to use hammer, chisel and other tools used in engraving and inlaying process
- GS14.** how to maintain the tools and take periodical maintenance activity such as sharpening them
- GS15.** how to alter the existing tools as per design requirement

Qualification Pack

HCS/N2911: Carry out the process of making Bidri craft

Description

This OS unit is about performing the Bidri crafts on a metal surface.

Scope

The scope covers the following :

- The scope covers the following :
- understand work requirement
- assemble the required raw materials
- prepare the metal surface for inlaying
- inlay the metal strips / wire into the craft
- achieve quality and design standards

Elements and Performance Criteria

Preparing the Base Metal

To be competent, the user/individual on the job must be able to:

- PC1.** Ensure proper composition of zinc and copper metals in the alloy.
- PC2.** Melt the alloy at the appropriate temperature and pour into molds.
- PC3.** Ensure the casting is free of defects such as air bubbles or incomplete forms.
- PC4.** Smooth and refine the base metal surface using filing and sanding techniques.

Design transfer on Base Metal

To be competent, the user/individual on the job must be able to:

- PC5.** Accurately transfer the design onto the metal using traditional tools or stencils.
- PC6.** Follow design outlines meticulously, ensuring symmetry and precision.
- PC7.** Use chisels to etch or engrave the design without causing cracks or unwanted marks on the metal surface.
- PC8.** Ensure consistent depth of the etching for better inlaying later.

Inlay process on Base Metal

To be competent, the user/individual on the job must be able to:

- PC9.** Cut metal (silver, gold, brass and copper) sheets or wires to match the intricate design patterns.
- PC10.** Embed metal into the etched grooves with precision, ensuring tight fitting without gaps.
- PC11.** Smooth the Metal inlay so it is flush with the surface of the base metal.
- PC12.** Ensure there is no over-spilling or misalignment of the inlay.

Smoothing and Polishing the object

To be competent, the user/individual on the job must be able to:

- PC13.** Smoothen the inlaid object with files, sandpaper, or buffing tools without damaging the silver or base metal.

Qualification Pack

- PC14.** Achieve a smooth, shiny finish on the object, ensuring no scratches or rough patches are visible.
- PC15.** Apply the traditional blackening solution (usually a mix of copper sulfate and soil from the Bidar Fort) evenly over the entire object.
- PC16.** Ensure that the blackening agent adheres uniformly without affecting the inlay.
- PC17.** Wipe the surface to reveal the contrast between the darkened base metal and the bright inlay.
- PC18.** Perform any necessary touch-ups to enhance the design, including re-polishing and correcting minor defects.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Historical and cultural significance of Bidri ware, including its origins in Bidar, Karnataka.
- KU2.** Traditional techniques used in Bidri ware, including the use of zinc and copper alloys, inlaying, and blackening processes.
- KU3.** Understanding of different types of metals and alloys used in Bidri craft (e.g., zinc, copper, lead), their properties, and the purpose they serve in the casting process.
- KU4.** Detailed knowledge of design elements commonly used in Bidri ware, including geometric, floral, and traditional motifs.
- KU5.** Techniques for transferring designs onto metal surfaces, including tracing, engraving, and etching methods.
- KU6.** Methods for polishing and smoothing the final product, ensuring a high-quality finish.
- KU7.** The traditional blackening process, including the use of copper sulfate and soil from Bidar Fort for creating contrast in the final product.
- KU8.** Knowledge of various tools used in Bidri ware (e.g., chisels, hammers, engraving tools, polishing tools) and their specific purposes.
- KU9.** Understanding how to maintain and handle tools to ensure precision and safety.
- KU10.** Knowledge of materials required for casting, inlaying, and blackening, including the correct composition of zinc alloy, silver, and blackening solutions.
- KU11.** Safety procedures for handling molten metals and sharp tools during the crafting process.
- KU12.** Techniques for achieving symmetry and precision in design transfer, engraving, and inlay work.
- KU13.** Knowledge of common defects in Bidri ware (e.g., cracks, uneven inlay, incorrect blackening) and how to avoid them.
- KU14.** Understanding of quality standards for Bidri products, ensuring durability, aesthetic appeal, and functional use.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** how to take notes or read about metal making techniques
- GS2.** how to read and write the notes from design

Qualification Pack

- GS3.** interact with team members to work efficiently
- GS4.** communicate effectively with supervisor

HCS/N2912: Entrepreneurship Skills for Metalware Inlay artisan

Description

This unit aims to equip participants with essential entrepreneurship skills specifically tailored for Inlay (Metalware) Sector focusing on the traditional craft of embedding precious metals into a base metal. Participants will learn about market dynamics, product development, financial management, marketing strategies, and sustainable practices, while gaining hands-on experience in creating metalware inlay products.

Scope

The scope covers the following :

- Introduction to the Inlay (Metalware) Sector
- Market awareness and customer insights
- Creativity and Design skills
- Business Planning
- Financial Management
- Marketing and sales strategies
- Legal and Regulatory framework

Elements and Performance Criteria

Introduction to the Inlay (Metalware) Sector

To be competent, the user/individual on the job must be able to:

- PC1.** Overview of the traditional metalware inlay craft, its cultural significance, and its evolution over time.
- PC2.** Discuss different inlay techniques (such as Bidri or Tarkashi), materials used, and key applications in decorative arts, jewelry, and functional products.

Market Awareness and Customer Insights

To be competent, the user/individual on the job must be able to:

- PC3.** Equip artisans with knowledge about current market trends in metalware inlay, both domestically and internationally.
- PC4.** Identify target customers, their preferences for design and quality, and niche markets such as high-end decor, cultural souvenirs, and custom commissions.

Creativity and Design Skills

To be competent, the user/individual on the job must be able to:

- PC5.** Foster creativity in design, teaching participants to create intricate and innovative metal inlay patterns that appeal to modern tastes while maintaining traditional aesthetics.
- PC6.** Encourage the exploration of new materials, textures, and forms in metal inlay to enhance the craft's appeal.

Business Planning

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC7.** Develop a business plan that outlines their goals, target audience, product range, and growth strategies.
- PC8.** Managing production cycles, supply chains, and inventory for their metalware inlay business.

Financial Management

To be competent, the user/individual on the job must be able to:

- PC9.** Teach financial literacy, focusing on budgeting, pricing strategies, cost management, and profitability.
- PC10.** Provide tools for managing cash flow, securing financing, and making informed investment decisions for scaling the metalware inlay business.

Marketing and Sales Strategies

To be competent, the user/individual on the job must be able to:

- PC11.** Develop marketing strategies tailored to the metalware inlay industry, including online and offline sales channels.
- PC12.** Teach how to build a brand, price products competitively, and promote their work through social media, exhibitions, and collaborations with galleries or retailers.

Legal and Regulatory Framework

To be competent, the user/individual on the job must be able to:

- PC13.** Overview the legal requirements for running a metalware inlay business, including copyrights, trademarks, and patents for designs.
- PC14.** Provide insights into local and international trade laws, certification for handicrafts, and compliance with environmental and labor regulations.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Understand the history and cultural significance of metalware inlay.
- KU2.** Know the different types of metals and inlay materials (silver, copper, brass, etc.) commonly used in the craft.
- KU3.** Familiar with key techniques like engraving, hammering, and polishing for metal inlay.
- KU4.** Understand market trends for metalware inlay products, including demand for traditional versus contemporary designs.
- KU5.** Knowledge of different customer segments (local, national, international) and their specific preferences.
- KU6.** Identify niche markets (high-end crafts, custom commissions, heritage collections) and analyze competitors.
- KU7.** Understand the importance of customer feedback in refining designs and improving quality.
- KU8.** Know the principles of design, including form, balance, proportion, and aesthetics, in metalware inlay.
- KU9.** Understand how to create innovative designs that appeal to modern consumers while preserving traditional techniques.
- KU10.** Understand the components of a business plan, including market analysis, product range, pricing, and operational planning.

Qualification Pack

- KU11.** Knowledge of production planning, resource allocation, and how to manage supply chains for raw materials (metals and inlay materials).
- KU12.** Understand basic financial concepts such as budgeting, cost analysis, and pricing strategies.
- KU13.** Knowledge of how to calculate material costs, labor costs, and overheads to determine product pricing.
- KU14.** Understand how to develop a marketing plan, including branding, product positioning, and target markets.
- KU15.** Knowledge of sales channels like craft fairs, galleries, exhibitions, and online stores.
- KU16.** Knowledge of intellectual property rights (copyrights, trademarks, and patents) and how to protect unique designs.
- KU17.** Understand local and international trade regulations, including export requirements and certifications for handcrafted goods.
- KU18.** Understand the importance of compliance with tax laws, business registration, and other legal formalities.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Ability to inspire, guide, and manage a team of artisans, suppliers, and administrative staff to work towards the business goals.
- GS2.** Willingness to adapt to changing market trends, technologies, and consumer preferences, while keeping the business innovative.
- GS3.** Building and maintaining strong relationships with suppliers, distributors, clients, and other industry stakeholders to expand the business.
- GS4.** Efficiently managing time across different roles, from overseeing production to handling business operations.
- GS5.** Understanding of budgeting, cost control, and cash flow management to ensure the financial health of the business.
- GS6.** Quick decision-making and creative problem-solving when facing business challenges.
- GS7.** Clear and persuasive communication with clients, investors, and team members.
- GS8.** Ensuring that the vision, product specifications, and business goals are understood and executed properly.
- GS9.** Building strong, long-lasting relationships with customers through excellent service, quality products, and reliable follow-up.
- GS10.** Ability to conduct market research to understand consumer demand, identify opportunities for new product development, and stay ahead of competition.
- GS11.** Creating a strong brand identity for the business, with an understanding of marketing strategies, including social media, online platforms, exhibitions, and events to attract and retain customers.
- GS12.** Managing the procurement of materials, tracking inventory levels, and ensuring timely delivery of finished goods while minimizing waste.
- GS13.** Ensuring compliance with local and international laws related to labor, taxes, and intellectual property rights.

Qualification Pack

GS14. Implementing quality control processes to ensure that all products meet the highest standards, leading to customer satisfaction and brand reputation.

Qualification Pack

HCS/N9929: Working in a team

Description

This NOS describes the communication and coordination skills and knowledge to work with colleagues and supervisor to achieve a smooth and hazard-free workflow.

Scope

The scope covers the following :

- interact with supervisor or superior
- work as a team by coordinating with colleagues within and outside the department and include
- inputs on PwD & Gender Sensitisation
- report and Document

Elements and Performance Criteria

Interact with supervisor or superior

To be competent, the user/individual on the job must be able to:

- PC1.** comply with health, safety gender, and PwD (People with disability) related instructions applicable to the workplace
- PC2.** actively participate in mock drills/ evacuation procedures; group discussions, training sensitization programs for gender, and PwD awareness organized at the workplace.
- PC3.** receive job orders and instructions from reporting supervisor and receive feedback on work standards.
- PC4.** understand the work output requirements, targets, performance indicators and incentives.
- PC5.** deliver quality work on time and report any anticipated reasons for delays and handover completed work to supervisor
- PC6.** report on any grievances, production defects and any potential hazards.

Work as a team by coordinating with colleagues within and outside the department and include inputs on PwD & Gender Sensitisation

To be competent, the user/individual on the job must be able to:

- PC7.** communicate maintenance and repair schedule proactively to the supervisor
- PC8.** interact and clarify doubts on design, usage of materials & tools, quality & standards compliance, etc.

Report and Document

To be competent, the user/individual on the job must be able to:

- PC9.** report in time for shortage or need of raw materials
- PC10.** communicate with colleagues from within and other departments, clearly and effectively on all aspects to carry out the work among the team
- PC11.** maintain the etiquette, use polite language, demonstrate responsible and disciplined behavior towards colleagues.
- PC12.** put team over individual goals and multi-task or share work where necessary supporting the colleagues.

Qualification Pack

PC13. document all the details accurately relating to ones role as required.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** knowledge about the importance of gender equality being followed in the organization and policies for reporting any harassment or inappropriate behavior
- KU2.** knowledge about how to accommodate employees with disabilities etiquette to adhere to and proper language and terminology
- KU3.** knowledge about how to communicate, offer help, respecting space, parking etc. for people with disabilities or special needs
- KU4.** knowledge about promoting a safe, accessible and healthy workplace for disabled employees
- KU5.** company's policies on preferred language of communication, incentives, quality standards, personnel management, reporting and escalation matrix policy.
- KU6.** company's standard operating procedure (sop) and the risk and impact of not following them.
- KU7.** procedures for working with colleagues, his/her role and responsibilities in relation to this
- KU8.** organizational hierarchy and the line of reporting structure and work target and review mechanism
- KU9.** procedures to report employment related issues and to deal with conflicts
- KU10.** importance of the individuals role in the organizational workflow and details of the individual responsibilities
- KU11.** tools and equipment handling procedure and common potential hazards in the work place and the procedures to deal with them
- KU12.** effective communication with various categories of people and the different departments in the organization
- KU13.** to document the job activity as required like the check sheets, history sheets, etc
- KU14.** expressing and addressing grievances appropriately, deal with difficult work relationships and manage the internal conflicts effectively

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** create a positive and inclusive workplace atmosphere without any kind of bias/discrimination towards any employee
- GS2.** actively take part in any discussion/workshop organized for gender sensitization training
- GS3.** read and comprehend written instructions related to gender equality issues in the organization
- GS4.** identify and report any harassment or inappropriate behavior towards any employee
- GS5.** create a positive and inclusive workplace atmosphere without any kind of bias/discrimination towards any employee with disability or special needs
- GS6.** actively take part in any discussion/workshop organized for disability sensitization training.

Qualification Pack

- GS7.** read and comprehend written instructions related to equality issues in the organization related to disabled persons
- GS8.** read job sheets, design sheet and information displayed at the workplace
- GS9.** read and understand manuals, health and safety instructions, memos etc
- GS10.** fill up documentation to ones role
- GS11.** communicate effectively with supervisor
- GS12.** contribute to quality of team work and achieve smooth workflow
- GS13.** improve work processes by interacting with others and adopting best practices

HCS/N9931: Maintain health and safety at workplace

Description

This unit provides Performance Criteria, Knowledge & Understanding, and Skills & Abilities required to comply with health, safety, and security requirements at the workplace and covers procedures to prevent, control, and minimize risk to self and others.

Scope

The scope covers the following :

- Comply with health, safety, and security requirements at work

Elements and Performance Criteria

Comply with health, safety, and security requirements at work

To be competent, the user/individual on the job must be able to:

- PC1.** comply with health and safety related instructions applicable to the workplace.
- PC2.** use and maintain personal protective equipment as per protocol.
- PC3.** carry out own activities in line with approved guidelines and procedures
- PC4.** maintain a healthy lifestyle and guard against dependency on intoxicants.
- PC5.** follow environment management system related procedures
- PC6.** store materials and tools in line with manufacturers and organisational requirements
- PC7.** safely handle and move waste and debris.
- PC8.** minimize health and safety risks to self and others due to own actions
- PC9.** seek clarifications, from supervisors or other authorized personnel in case of perceived risks
- PC10.** monitor the workplace and work processes for potential risks and threats.
- PC11.** carry out periodic walk-through to keep work area free from hazards and obstructions, if assigned
- PC12.** report hazards and potential risks/ threats to supervisors or other authorized personnel
- PC13.** participate in mock drills/ evacuation procedures organized at the workplace
- PC14.** undertake first aid, fire-fighting and emergency response training, if asked to do so
- PC15.** take action based on instructions in the event of fire, emergencies or accidents
- PC16.** follow organisation procedures for evacuation when required

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** health and safety related practices applicable at the workplace
- KU2.** potential hazards, risks and threats based on nature of operations
- KU3.** organizational procedures for safe handling of tools

Qualification Pack

- KU4.** potential risks due to own actions and methods to minimize these
- KU5.** environmental management system related procedures at the workplace.
- KU6.** layout of the plant and details of emergency exits, escape routes, emergency equipment and assembly points
- KU7.** potential accidents and emergencies and response to these scenarios
- KU8.** reporting protocol and documentation required
- KU9.** details of personnel trained in first aid, fire-fighting and emergency response
- KU10.** actions to take in the event of a mock drills/ evacuation procedures or actual accident, emergency or fire.
- KU11.** occupational health and safety risks and methods
- KU12.** personal protective equipment and method of use
- KU13.** identification, handling and storage of hazardous substances
- KU14.** proper disposal system for waste and by-products
- KU15.** signage related to health and safety and their meaning
- KU16.** importance of sound health, hygiene and good habits
- KU17.** ill-effects of alcohol, tobacco and drugs

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** write in local language.
- GS2.** read measurement instructions
- GS3.** communicate orally with colleagues
- GS4.** follow organization rule-based decision making process
- GS5.** take decision with systematic course of actions and/or response
- GS6.** plan and organize your work to achieve targets and deadlines
- GS7.** manage relationships with customers
- GS8.** build customer relationships and use customer centric approach.
- GS9.** think through the problem, evaluate the possible solution(s) and suggest an optimum /best possible solutions
- GS10.** identify immediate or temporary solutions to resolve delays
- GS11.** analyze data and activities.
- GS12.** pass on relevant information to others
- GS13.** apply, analyze, and evaluate the information gathered from observation, experience, reasoning, or communication, as a guide to thought and action

HCS/N9940: Managing people and Resources in Business

Description

This OS unit focuses on business planning, internal strategy, timelines.

Scope

The scope covers the following :

- people management
- product planning
- procurement of raw materials
- market interfacing
- financial management
- record keeping

Elements and Performance Criteria

People management

To be competent, the user/individual on the job must be able to:

- PC1.** arrange Interactive meetings of managers of sales and production teams and categorize the issues and feedbacks of both the teams
- PC2.** train the employees of his/her unit with the appropriate skills required to make market relevant and quality products
- PC3.** motivate the employees

Product planning

To be competent, the user/individual on the job must be able to:

- PC4.** compile a report based on old production reports
- PC5.** address the issues faced in previous productions and try to resolve them
- PC6.** gather and analyze the cues from the market
- PC7.** ascertain the customer preference
- PC8.** develop product range lines based on current market preference
- PC9.** develop product range lines that are unique and able to price high
- PC10.** price the products according to market trends
- PC11.** identify the competent marketing strategy for the product range

Procurement of raw materials

To be competent, the user/individual on the job must be able to:

- PC12.** list of the raw material s and prepare a B.O.M according to the product lines
- PC13.** ascertain the quantity and right price to procure the materials
- PC14.** identify the right locations/agents from where the raw materials can be procured
- PC15.** negotiate to get the best price
- PC16.** ensure quality materials are procured

Qualification Pack

PC17. ensure the procured materials are stored in appropriate conditions

PC18. compile a record of price quotations, POs, and bills of procurement for future reference

Market interfacing

To be competent, the user/individual on the job must be able to:

PC19. maintain a healthy and professional relationship with vendor

PC20. the competitive market falls in order with the company policies of best price, quality, and delivery parameters

PC21. analyze the prevalent price for product lines

PC22. decide on the most effective means to access the market

PC23. plan for cost-effective transportation to the market

PC24. position the product according to market requirements

PC25. identify and address the expectations of customer

Financial management

To be competent, the user/individual on the job must be able to:

PC26. analyze and ascertain the cost of production

PC27. maintain the book of accounts related to the business

PC28. maintain export documents like a letter of credit, custom clearance

PC29. identify cost-effective means of running the business

Record keeping

To be competent, the user/individual on the job must be able to:

PC30. identify various aspects of business that require recording

PC31. design formats for recording

PC32. compile various records of all aspects of the business

PC33. maintain these records with periodic updations

PC34. maintain necessary documents as per local government and regulatory requirements

PC35. reframe the procurement strategy according to local scenarios like weather conditions, transport strikes, affected prices, etc.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. interpersonal skills and communication with a cross-section of stakeholders

KU2. understanding of basics accounting so that he/she can monitor the transactions between company and vendor

KU3. knowledge of banking basics to keep the export process flawless

KU4. understanding of costing principles to calculate the cost of production with all the overheads and the actual price

KU5. product and craft knowledge including material and tools requirements

KU6. gathering market intelligence.

KU7. various transportation means and implications on costing

KU8. various product lines that can be created depending on the sector of operation

Qualification Pack

- KU9.** basic record-keeping techniques
- KU10.** basic laws, rules, regulations, etc. regarding business
- KU11.** vendor management and development
- KU12.** pricing techniques
- KU13.** business profitability assessment

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** analyse product range and keep abreast of market trends
- GS2.** document various aspects of the business
- GS3.** compile descriptions and details about investment, expenditures, and sales
- GS4.** interact with teams to work efficiently
- GS5.** communicate and manage vendors for cost-effective outsourcing and procurements
- GS6.** interface with fellow entrepreneurs to exchange ideas on the business
- GS7.** communicate with the customers for their feedback about the product
- GS8.** comprehend information shared by various stakeholders
- GS9.** plan and organize the product lines
- GS10.** fix the appropriate price.
- GS11.** hire employees with the appropriate skill set and experience
- GS12.** predict the profit margin to be achieved by the business
- GS13.** decide target segment of the market
- GS14.** schedule production cycles for better efficiency of resources
- GS15.** planning of production efficiency based on manpower and equipment available
- GS16.** schedule market visits for surveys and feedback
- GS17.** gather information on preference and taste of the customer
- GS18.** interact with various types of customers and understand the trends
- GS19.** analyze and solve conflicts and problems of the business.
- GS20.** ensure that the problems do not arise repeatedly.
- GS21.** anticipate various problems/challenges that can crop up
- GS22.** analyze the market for increasing sales
- GS23.** spot errors and any other disruptions and communicate with solutions

DGT/VSQ/N0101: Employability Skills (30 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

PC1. understand the significance of employability skills in meeting the job requirements

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

PC2. identify constitutional values, civic rights, duties, personal values and ethics and environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

PC3. explain 21st Century Skills such as Self-Awareness, Behavior Skills, Positive attitude, self-motivation, problem-solving, creative thinking, time management, social and cultural awareness, emotional awareness, continuous learning mindset etc.

Basic English Skills

To be competent, the user/individual on the job must be able to:

PC4. speak with others using some basic English phrases or sentences

Communication Skills

To be competent, the user/individual on the job must be able to:

PC5. follow good manners while communicating with others

PC6. work with others in a team

Qualification Pack

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

PC7. communicate and behave appropriately with all genders and PwD

PC8. report any issues related to sexual harassment

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

PC9. use various financial products and services safely and securely

PC10. calculate income, expenses, savings etc.

PC11. approach the concerned authorities for any exploitation as per legal rights and laws

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

PC12. operate digital devices and use its features and applications securely and safely

PC13. use internet and social media platforms securely and safely

Entrepreneurship

To be competent, the user/individual on the job must be able to:

PC14. identify and assess opportunities for potential business

PC15. identify sources for arranging money and associated financial and legal challenges

Customer Service

To be competent, the user/individual on the job must be able to:

PC16. identify different types of customers

PC17. identify customer needs and address them appropriately

PC18. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC19. create a basic biodata

PC20. search for suitable jobs and apply

PC21. identify and register apprenticeship opportunities as per requirement

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use basic spoken English language

KU6. Do and dont of effective communication

KU7. inclusivity and its importance

KU8. different types of disabilities and appropriate communication and behaviour towards PwD

KU9. different types of financial products and services

Qualification Pack

- KU10.** how to compute income and expenses
- KU11.** importance of maintaining safety and security in financial transactions
- KU12.** different legal rights and laws
- KU13.** how to operate digital devices and applications safely and securely
- KU14.** ways to identify business opportunities
- KU15.** types of customers and their needs
- KU16.** how to apply for a job and prepare for an interview
- KU17.** apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate effectively using appropriate language
- GS2.** behave politely and appropriately with all
- GS3.** perform basic calculations
- GS4.** solve problems effectively
- GS5.** be careful and attentive at work
- GS6.** use time effectively
- GS7.** maintain hygiene and sanitisation to avoid infection

Qualification Pack

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score the Recommended Pass % aggregate for the QP.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Minimum Passing % at NOS Level: 50

(Please note: A Trainee must score the minimum percentage for each NOS separately as well as on the QP as a whole.)

Qualification Pack

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
