HCS/Q2909: Etching Artisan - Metalware

Brief Job Description

An etching artisan uses appropriate tools and techniques to manually etch traditional designs on brass ware/metal ware from a given range of existing traditional designs or based on clients specifications. To meet given production target the individual must comply with service level agreement.

Personal Attributes

Needs to be precise and possess an eye for details. Must be alert and possess a physically active body. Should also have good eye-sight. Should have commendable dexterity and a strong hand-arm coordination. The candidate is also expected to be capable of working for long hours in sitting position. Must be creative, team player and open to learning.

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [HCS/N2909: Etch Intricate Traditional designs on decorative metal wares](#)
2. [HCS/N9905: Use basic health and safety practices while working with metalware crafts](#)
3. [HCS/N9901: Coordinate with colleagues and work as a team](#)
4. [DGT/VSQ/N0101: Employability Skills \(30 Hours\)](#)

HCS/N2909: Etch Intricate Traditional designs on decorative metal wares

Description

An etching artisan is responsible for independently producing intricate traditional designs on different kinds of brass wares within agreed timelines. The individual is expected to be competent of working with a range of designs, tools and techniques.

Scope

The scope covers the following :

- work safely
- prepare work place for manual etching
- carry out etching
- undertake post etching activities

Elements and Performance Criteria

Work safely

To be competent, the user/individual on the job must be able to:

- PC1.** work safely at all times, complying with health and safety legislation, regulations and other relevant guidelines
- PC2.** maintain correct body posture while seating in a confined work area for long hours
- PC3.** select and use appropriate personal protective equipment compatible to work and compliant to relevant occupational health and safety guidelines Personal protective equipment: apron, masks, safety glasses, head protection, ear muffs, knee pads, gloves, warning signs and tapes, first aid kit, etc.
- PC4.** lift, carry or move heavy objects from one place to another safely, using approved working practices
- PC5.** ensure that the work area is free of clutters and the environment favorable to carry out etching work Favorable environment: Proper ventilation, lighting, spacious, clear of wastes, etc

Prepare work place for manual etching

To be competent, the user/individual on the job must be able to:

- PC6.** obtain job specification document from responsible personnel Job specifications: Design, quantity, delivery timeline, type of materials, metalware weight, etc.
- PC7.** establish a service level agreement with responsible personnel stating the terms and cost of work in line with standard determining factors Factors: Type of design, volume of work, existing service market value, delivery timelines, relevant regulations, etc.
- PC8.** confirm that the information given in the job specification are complete and correct
- PC9.** interpret job requirements accurately in order to plan out the work sequence in accordance with the type of design specified Type of etching designs: e.g. japani, double steel paint, chikan jharwa, bidri, chuniya jali, yellow chuniya jali, darmiyani, national, mirach, etc.

Qualification Pack

- PC10.** obtain appropriate tools, materials and accessories needed to carry out the assigned metalware etching work Tools & accessories: Different types of pens, tipai, thapi, etc. Materials: Brass metalware
- PC11.** confirm that the selected tools and accessories are in safe working condition and ready for use
- PC12.** ensure that the metalwares are handed-over undamaged and they conform to the given job specification
- PC13.** use approved procedures to inspect metalware for defects against set quality parameters prior to work Defects: Thickness, impurities, diecasting holes, surface polish, colour, texture, etc.
- PC14.** verify material quality using defined preliminary checks Checks: Visual, sensory, weighing, tapping using stick, etc.
- PC15.** confirm that the metalware has undergone surface finish polishing prior to etching

Carry out etching

To be competent, the user/individual on the job must be able to:

- PC16.** use appropriate techniques, tools and equipment to engrave required sut on the metal surface Tools & equipment: Charak and kalam
- PC17.** apply approved methods to mark layout of the given design on the polished metal ware surface using correct etching pens
- PC18.** ensure that the correct etching layout of a specified design are followed as per required quality standard Etching patterns: e.g. darmiyani design: sut, peacock or animals, birds, flowers, firki, bharai; mirach design: sut, kolte, mirach, firki, leafs (soya & mina); chikan jharra design: sut, kolte, mirach, firki, leafs (chikan); bidari design: sut, flower, firki, bharai; japani design: sut, flower, leaf, mina, etc. Quality standard: Dimensional accuracy, surface to design size ratio, symmetry of design, consistency, etching depth, etc.
- PC19.** carry out manual etching using approved tools & techniques
- PC20.** report to appropriate personnel/ client on detection of any defects and seek advice on the appropriate action to rectify them
- PC21.** use approved procedures to rectify any etching defects that are within one's competency level, and ensure that the finished work meets the required standard
- PC22.** ensure appropriate cleaning agent is used to polish the finished work Cleaning agent: e.g. dara polishing agent

Undertake post etching activities

To be competent, the user/individual on the job must be able to:

- PC23.** safely collect and store metal remnants or shavings in designated storage location in accordance with organizations procedures & policies
- PC24.** return used tools and materials safely to appropriate storage area as per given instructions
- PC25.** segregate and dispose wastes toxic and non-toxic materials in line with environmental health & safety
- PC26.** document the work fully and accurately in appropriate service log book/record book detailing the required information Information: Number of pieces, number of defects, final weight, metal remnants weight, etc.
- PC27.** ensure that organizations procedures & guidelines are adhered while handing over the completed work to appropriate personnel

Qualification Pack

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** relevant legislations, standards, policies, and procedures followed in the company
- KU2.** relevant health and safety requirements applicable in the work place
- KU3.** own job role and responsibilities and sources for information pertaining to employment terms, entitlements, job role and responsibilities
- KU4.** reporting structures, inter-dependent functions, lines and procedures in the work area
- KU5.** who to approach for support in order to obtain work related instructions, clarifications and support
- KU6.** the importance of following health, hygiene, safety and quality standards, and the impact of not following the standards on consumers and the business
- KU7.** relevant people and their responsibilities within the work area
- KU8.** documentation and related procedures applicable in the context of employment and work
- KU9.** the importance of using appropriate personal protective equipment while performing manual etching on brass wares
- KU10.** hazards and risks associated with manual etching on metal ware and relevant health and safety control measures
- KU11.** the importance of maintaining healthy work environment
- KU12.** different types of tools and accessories, and their uses
- KU13.** the ways to make, harden, temper and sharpen tools
- KU14.** marking design layout and ornamental patterns
- KU15.** the ways to creating impressions using approved tools & techniques on metal surface
- KU16.** application of lines, shapes and shades on brassware
- KU17.** interpreting and importing basic drawing concept to work
- KU18.** the ways and need to increase and reduce designs according to surface area
- KU19.** basic knowledge of metallurgy
- KU20.** terminologies, pictorial representations, symbols, etc. used in manual etching work
- KU21.** the range of materials used in etching workRange of materials: Brass, copper, aluminium, steel, etc.
- KU22.** the range of brass surface finishings on which manual etching work are carried outRange of surface finishing: Golden firki, steel work and powder coating
- KU23.** approved etching techniques and grooving methods
- KU24.** methods of holding and centering work
- KU25.** types of traditional etching designs
- KU26.** use of wood, bone, mother pearl and silver in metal wares
- KU27.** types of surface on which manual etching work are doneTypes of metal surfaces: Flat, concave, convex
- KU28.** parts of an etching design and processes involvedParts of designs: Animals, birds, flowers, leaves, jaali, bharai, mina, etc.
- KU29.** methods used to identify defects
- KU30.** approved techniques used to rectify defects

Qualification Pack

- KU31.** polishing of finished work using appropriate cleaning agents
- KU32.** meeting organizational quality standards
- KU33.** significance of weighing metalware before and after work
- KU34.** importance of storing metal remnants or shavings in secure location after work
- KU35.** safe disposal of wastes materials
- KU36.** importance of documenting completed work in relevant service logbooks, data book, registers, etc.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** fill logs, forms and register in local language for recording quantity and quality of work figures, defects identified or rectified, weight of metal pre and post work, and other related information whenever needed.
- GS2.** take notes/instructions related to work in local language from supervisor/client
- GS3.** document ratio of surface area to design pattern and any relevant measurement whenever required
- GS4.** interpret pictorial representations and written signs or instructions in work specification documents
- GS5.** read and interpret written numbers written in Hindi or local language
- GS6.** understand safety symbols and basic warning signs wherever needed
- GS7.** read the job specification provided in local language
- GS8.** read instructions from supervisor provided in local language
- GS9.** inform supervisor or co-workers of work related problems in any locally understood language
- GS10.** take instructions completely so that no instruction is missed or misunderstood
- GS11.** seek clarification on any unclear instructions in locally understood language
- GS12.** use the quality parameters to take decisions to reject or accept metalware provided for etching work
- GS13.** seek clarification from the supervisor and understand the parameters used by the supervisor to arrive at the decision when facing with difficult situations
- GS14.** plan and organize own work in a way that all activities are completed in time and as per specifications
- GS15.** carry out the basic concepts of working effectively including waste reduction, recycle use of metal remnants or shavings, efficient material usage, and optimization of time
- GS16.** ensure customer satisfaction by clarifying quality requirements and other etching specifications correctly
- GS17.** provide client with all relevant etching work information including delivery timelines, feasibility of designs and available support
- GS18.** adhere to commitments related to work and maintain long term business relationship with clients
- GS19.** determine timely correction of errors to minimize rejection of pieces
- GS20.** identify potential problems and escalate matter timely to concern personnel

Qualification Pack

- GS21.** apply logical reasoning to solve problems or any potential problems related to work by analyzing previous experiences
- GS22.** determine the impact of inappropriate selection of work procedures and inputs to overall work outcome

Qualification Pack

HCS/N9905: Use basic health and safety practices while working with metalware crafts

Description

This OS unit is about knowledge and practices relating to health, safety and security that candidates need to use in the workplace. It covers responsibilities towards self, others, assets and the environment. It includes understanding of risks and hazards in the workplace, along with common techniques to minimize risk, deal with accidents, emergencies, etc.

Scope

The scope covers the following :

- health and safety
- fire safety
- emergencies, rescue and first-aid procedures

Elements and Performance Criteria

Health and safety

To be competent, the user/individual on the job must be able to:

- PC1.** Use protective clothing/equipment for specific tasks and work conditions. Protective clothing: e.g. aprons; eye and facial protection; cover head; appropriate footwear; masks; etc.
- PC2.** State the name and location of people responsible for health and safety in the workplace.
- PC3.** Identify job-site hazardous work and state possible causes of risk or accident in the workplace. Hazards: Sharp edged tools; hazardous surfaces (sharp, slippery, uneven, chipped, broken, etc.); physical hazards (manual handling, sharp equipment, sharp and piercing objects, excessive noise, confined spaces, improper lightings, fumes release during metal dipping, metal dust, metal scraps, extremely hot molten materials, poor ventilation, over stacked shelves and packages, etc.) electrical hazards (power supply and points, loose and naked cables and wires, equipment malfunctions, etc.). Possible causes of risk and accident: physical actions; not listening to given instructions; inattention; improper disposal of toxic and non toxic wastes; sickness and incapacity (such as drunkenness); health hazards (such as untreated injuries and contagious illness).
- PC4.** Carry out safe working practices while dealing with hazards to ensure the safety of self and others. Safe working practices: Putting up and reading safety signs; handle tools in the correct manner and store and maintain them properly; keep work area clear of clutter, spillage and unsafe object lying casually; while working with electricity take all electrical precautions like insulated clothing, adequate equipment insulation, use of control equipment, dry work area, switch off the power supply when not required, etc.; safe lifting and carrying practices; use equipment that is working properly and is well maintained; etc.
- PC5.** State methods of accident prevention in the work environment of the job role. Methods of accident prevention: Training in health and safety procedures; using health and safety procedures; use of equipment and working practices (such as safe carrying procedures); safety notices, advice; instruction from colleagues and supervisors.

Qualification Pack

- PC6.** State location of general health and safety equipment in the workplace. General health and safety equipment: Fire extinguishers; first aid equipment; safety instruments and clothing; safety installations (e.g. fire exits, exhaust fans).
- PC7.** Apply good housekeeping practices at all times. Good housekeeping practices: Clean/tidy work areas, removal/disposal of waste products, protect surfaces.
- PC8.** Identify common hazard signs displayed in various areas. Various areas: Chemical containers; equipment; packages; inside buildings; in open areas and public spaces, etc.
- PC9.** Adhere to relevant occupational safety policies while handling sharp handicrafts tools.
- PC10.** Comply with restrictions imposed on harmful chemicals inside work area during working hours.
- PC11.** Lift, carry or move objects from one place to another using appropriate safe working practices.
- PC12.** Maintain correct body posture while sitting for long hours in the work area.

Fire safety

To be competent, the user/individual on the job must be able to:

- PC13.** Use the various appropriate fire extinguishers on different types of fires correctly.
- PC14.** Demonstrate rescue techniques applied during fire hazard.
- PC15.** Demonstrate good housekeeping in order to prevent fire hazards.
- PC16.** Demonstrate the correct use of a fire extinguisher.

Emergencies, rescue and first-aid procedures

To be competent, the user/individual on the job must be able to:

- PC17.** Demonstrate how to free a person from electrocution.
- PC18.** Administer appropriate first aid to victims where required e.g. in case of bleeding, burns, choking, electric shock, poisoning, etc.
- PC19.** Demonstrate basic techniques of bandaging.
- PC20.** Respond promptly and appropriately to an accident situation or medical emergency in real or simulated environments.
- PC21.** Perform and organize loss minimization or rescue activity during an accident in real or simulated environments.
- PC22.** Administer first aid to victims in case of a heart attack or cardiac arrest due to electric shock, before the arrival of emergency services in real or simulated cases.
- PC23.** Demonstrate the artificial respiration and the CPR Process.
- PC24.** Participate in emergency procedures. Emergency procedures: raising alarm, safe/efficient, evacuation, correct means of escape, correct assembly point, roll call, correct return to work.
- PC25.** Complete a written accident/incident report or dictate a report to another person, and send report to person responsible. Incident Report includes details of: name, date/time of incident, date/time of report, location, environment conditions, persons involved, sequence of events, injuries sustained, damage sustained, actions taken, witnesses, supervisor/manager notified.
- PC26.** Demonstrate correct method to move injured people and others during an emergency.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

Qualification Pack

- KU1.** Names (and job titles if applicable), and where to find, all the people responsible for health and safety in a workplace.
- KU2.** Names and location of documents that refer to health and safety in the workplace.
- KU3.** Meaning of hazards and risks.
- KU4.** Health and safety hazards commonly present in the work environment and related precautions.
- KU5.** Possible causes of risk, hazard or accident in the workplace and why risk and/or accidents are possible.
- KU6.** Possible causes of risk and accident.
- KU7.** Methods of accident prevention. Methods of accident prevention: Training in health and safety procedures; using health and safety procedures; use of equipment and working practices (such as safe carrying procedures); safety notices, advice; instruction from colleagues and supervisors.
- KU8.** Safe working practices when working with tools and equipment.
- KU9.** Safe working practices while working at various hazardous sites.
- KU10.** Where to find all the general health and safety equipment in the workplace.
- KU11.** Various dangers associated with the use of electrical equipment.
- KU12.** Preventative and remedial actions to be taken in the case of exposure to toxic materials. Exposure: Ingested, contact with skin, inhaled. Preventative action: Ventilation, masks, protective clothing/equipment. Remedial action: Immediate first aid, report to supervisor. Toxic materials: Solvents, flux, lead.
- KU13.** Importance of using protective clothing/equipment while working.
- KU14.** Adherence to environmental management policies.
- KU15.** Safe disposal of metal scraps in appropriate locations.
- KU16.** Precautionary activities to prevent the fire accident.
- KU17.** Various causes of fire. Causes of fires: Heating of metal; spontaneous ignition; sparking; electrical heating; loose fires (smoking, welding, etc.); chemical fires; etc.
- KU18.** Techniques of using the different fire extinguishers.
- KU19.** Different methods of extinguishing fire.
- KU20.** Different materials used for extinguishing fire. Materials: Sand, water, foam, CO2, dry powder.
- KU21.** Rescue techniques applied during a fire hazard.
- KU22.** Various types of safety signs and what they mean.
- KU23.** Appropriate basic first aid treatment relevant to the condition eg. shock, electrical shock, bleeding, breaks to bones, minor burns, resuscitation, poisoning, eye injuries, etc.
- KU24.** Content of written accident report.
- KU25.** Potential injuries and ill health associated with incorrect manual handling.
- KU26.** Safe lifting and carrying practices.
- KU27.** Personal safety, health and dignity issues relating to the movement of a person by others.
- KU28.** Potential impact to a person who is moved incorrectly.

Generic Skills (GS)

Qualification Pack

User/individual on the job needs to know how to:

- GS1.** Read and write basic accident/incident report in local language or Hindi.
- GS2.** Read and comprehend basic content to read labels, charts, signages, warning instructions, etc. displayed in work environment.
- GS3.** Question coworkers appropriately in order to clarify instructions and other issues.
- GS4.** Give clear instructions to coworkers, subordinates and others.
- GS5.** Make appropriate decisions pertaining to the concerned area of work with respect to intended work objective, span of authority, responsibility, laid down procedure and guidelines.
- GS6.** Plan and organize their own work schedule, work area, tools, equipment and materials to maintain decorum and for improved productivity.
- GS7.** Think through the problem, evaluate the possible solution(s) and suggest an optimum /best possible solution(s).
- GS8.** Identify immediate or temporary solutions to resolve delays.
- GS9.** Identify sources of support that can be availed of for problem solving for various kind of problems.
- GS10.** Seek appropriate assistance from other sources to resolve problems.
- GS11.** Report problems that you cannot resolve to appropriate authority.
- GS12.** Identify cause and effect relations in their area of work.
- GS13.** Use cause and effect relations to anticipate potential problems and their solution.

HCS/N9901: Coordinate with colleagues and work as a team

Description

This NOS describes the communication and coordination skills and knowledge to work with colleagues and supervisor to achieve a smooth and hazard-free workflow.

Scope

The scope covers the following :

- interact with supervisor or superior
- work as a team by coordinating with colleagues within and outside the department and include inputs on PwD & Gender Sensitisation
- report and Document

Elements and Performance Criteria

Interact with supervisor or superior

To be competent, the user/individual on the job must be able to:

- PC1.** comply with health, safety gender, and PwD (People with disability) related instructions applicable to the workplace
- PC2.** actively participate in mock drills/ evacuation procedures; group discussions, training sensitization programs for gender, and PwD awareness organized at the workplace.
- PC3.** receive job orders and instructions from reporting supervisor and receive feedback on work standards.
- PC4.** understand the work output requirements, targets, performance indicators and incentives.
- PC5.** deliver quality work on time and report any anticipated reasons for delays and handover completed work to supervisor
- PC6.** report on any grievances, production defects and any potential hazards.

Work as a team by coordinating with colleagues within and outside the department and include inputs on PwD & Gender Sensitisation

To be competent, the user/individual on the job must be able to:

- PC7.** communicate maintenance and repair schedule proactively to the supervisor
- PC8.** interact and clarify doubts on design, usage of materials & tools, quality & standards compliance, etc.

Report and Document

To be competent, the user/individual on the job must be able to:

- PC9.** report in time for shortage or need of raw materials
- PC10.** communicate with colleagues from within and other departments, clearly and effectively on all aspects to carry out the work among the team
- PC11.** maintain the etiquette, use polite language, demonstrate responsible and disciplined behavior towards colleagues.
- PC12.** put team over individual goals and multi-task or share work where necessary supporting the colleagues.

Qualification Pack

PC13. document all the details accurately relating to ones role as required.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** knowledge about the importance of gender equality being followed in the organization and policies for reporting any harassment or inappropriate behavior
- KU2.** knowledge about how to accommodate employees with disabilities etiquette to adhere to and proper language and terminology
- KU3.** knowledge about how to communicate, offer help, respecting space, parking etc. for people with disabilities or special needs
- KU4.** knowledge about promoting a safe, accessible and healthy workplace for disabled employees
- KU5.** company's policies on preferred language of communication, incentives, quality standards, personnel management, reporting and escalation matrix policy.
- KU6.** company's standard operating procedure (sop) and the risk and impact of not following them.
- KU7.** procedures for working with colleagues, his/her role and responsibilities in relation to this
- KU8.** organizational hierarchy and the line of reporting structure and work target and review mechanism
- KU9.** procedures to report employment related issues and to deal with conflicts
- KU10.** importance of the individuals role in the organizational workflow and details of the individual responsibilities
- KU11.** tools and equipment handling procedure and common potential hazards in the work place and the procedures to deal with them
- KU12.** effective communication with various categories of people and the different departments in the organization
- KU13.** to document the job activity as required like the check sheets, history sheets, etc
- KU14.** expressing and addressing grievances appropriately, deal with difficult work relationships and manage the internal conflicts effectively

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** create a positive and inclusive workplace atmosphere without any kind of bias/discrimination towards any employee
- GS2.** actively take part in any discussion/workshop organized for gender sensitization training
- GS3.** read and comprehend written instructions related to gender equality issues in the organization
- GS4.** identify and report any harassment or inappropriate behavior towards any employee
- GS5.** create a positive and inclusive workplace atmosphere without any kind of bias/discrimination towards any employee with disability or special needs
- GS6.** actively take part in any discussion/workshop organized for disability sensitization training.

Qualification Pack

- GS7.** read and comprehend written instructions related to equality issues in the organization related to disabled persons
- GS8.** read job sheets, design sheet and information displayed at the workplace
- GS9.** read and understand manuals, health and safety instructions, memos etc
- GS10.** fill up documentation to ones role
- GS11.** communicate effectively with supervisor
- GS12.** contribute to quality of team work and achieve smooth workflow
- GS13.** improve work processes by interacting with others and adopting best practices

Qualification Pack

DGT/VSQ/N0101: Employability Skills (30 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

PC1. understand the significance of employability skills in meeting the job requirements

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

PC2. identify constitutional values, civic rights, duties, personal values and ethics and environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

PC3. explain 21st Century Skills such as Self-Awareness, Behavior Skills, Positive attitude, self-motivation, problem-solving, creative thinking, time management, social and cultural awareness, emotional awareness, continuous learning mindset etc.

Basic English Skills

To be competent, the user/individual on the job must be able to:

PC4. speak with others using some basic English phrases or sentences

Communication Skills

To be competent, the user/individual on the job must be able to:

PC5. follow good manners while communicating with others

PC6. work with others in a team

Qualification Pack

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

PC7. communicate and behave appropriately with all genders and PwD

PC8. report any issues related to sexual harassment

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

PC9. use various financial products and services safely and securely

PC10. calculate income, expenses, savings etc.

PC11. approach the concerned authorities for any exploitation as per legal rights and laws

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

PC12. operate digital devices and use its features and applications securely and safely

PC13. use internet and social media platforms securely and safely

Entrepreneurship

To be competent, the user/individual on the job must be able to:

PC14. identify and assess opportunities for potential business

PC15. identify sources for arranging money and associated financial and legal challenges

Customer Service

To be competent, the user/individual on the job must be able to:

PC16. identify different types of customers

PC17. identify customer needs and address them appropriately

PC18. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC19. create a basic biodata

PC20. search for suitable jobs and apply

PC21. identify and register apprenticeship opportunities as per requirement

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use basic spoken English language

KU6. Do and dont of effective communication

KU7. inclusivity and its importance

KU8. different types of disabilities and appropriate communication and behaviour towards PwD

KU9. different types of financial products and services

Qualification Pack

- KU10.** how to compute income and expenses
- KU11.** importance of maintaining safety and security in financial transactions
- KU12.** different legal rights and laws
- KU13.** how to operate digital devices and applications safely and securely
- KU14.** ways to identify business opportunities
- KU15.** types of customers and their needs
- KU16.** how to apply for a job and prepare for an interview
- KU17.** apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate effectively using appropriate language
- GS2.** behave politely and appropriately with all
- GS3.** perform basic calculations
- GS4.** solve problems effectively
- GS5.** be careful and attentive at work
- GS6.** use time effectively
- GS7.** maintain hygiene and sanitisation to avoid infection

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score the Recommended Pass % aggregate for the QP.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 50

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
