HCS/N3003: Perform pre polishing requirements

Description

This OS unit is about preparing the pre polishing requirements to perform polishing of the metal surface as per requirement.

Scope

The scope covers the following :

- understanding design and work requirement
- gathering and arranging the required raw materials
- preparing the materials to begin polishing
- setting the polishing and buffing machine

Elements and Performance Criteria

Understanding design and work requirement

To be competent, the user/individual on the job must be able to:

- PC1.** receive instructions on work requirement from superior
- PC2.** receive the design from concerned person
- PC3.** understand the design requirements on the raw materials to be used
- PC4.** understand the design requirements for portions to be polished and the finish to be achieved such as matt, shiny, smooth, etc.
- PC5.** plan the target on number of pieces to be completed

Gathering and arranging the required raw materials

To be competent, the user/individual on the job must be able to:

- PC6.** collect and arrange the appropriate materials to begin the process such as polishing wheels, buffing wheels, brush, etc.
- PC7.** report on any shortage or defect of raw materials to the concerned person
- PC8.** ensure to stock the required materials in advance

Preparing the materials to begin polishing

To be competent, the user/individual on the job must be able to:

- PC9.** select the appropriate type of abrasive to be applied depending on the surface of the metal to be polished
- PC10.** clean the surface of the metal before polishing

Setting the polishing and buffing machine

To be competent, the user/individual on the job must be able to:

- PC11.** check for the working condition of the polishing and buffing machine in case if using the machine
- PC12.** understand the operation of the machine for dos and donts
- PC13.** set the machine to begin the process

Qualification Pack

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** company's policies on incentives, safety and hazards, personnel management and quality standards
- KU2.** workflow involved in metal making process of the company
- KU3.** the importance of the individual's role in the work process
- KU4.** reporting structures
- KU5.** documentation policies
- KU6.** customer profiles
- KU7.** metalcraft details
- KU8.** metal making process and types of products
- KU9.** various kinds of raw materials involved in the process
- KU10.** use and maintenance of polishing and buffing machine
- KU11.** the usage of tools, consumables and equipments for various kinds of polishing
- KU12.** the required tools and equipments to get any desired shape
- KU13.** use of appropriate tools and lubricants for polishing
- KU14.** the use of tools and lubricants for the polishing process such as polishing wheels, buffing wheels, brush, etc.
- KU15.** use of hazardous acids and chemicals
- KU16.** safety standards and precautions to be taken
- KU17.** quality standards to be maintained
- KU18.** standard operating procedures
- KU19.** market trend and customer preferences

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** take notes or read about the process requirements
- GS2.** read and write the job requirements
- GS3.** read company policy documents
- GS4.** interact with team members to work efficiently
- GS5.** communicate effectively with supervisor
- GS6.** share work load with the colleagues in the process
- GS7.** multi task and deliver the final finished piece on time adhering to quality standards
- GS8.** plan for daily production
- GS9.** plan for budget and material requirements
- GS10.** implement customer preferences, tastes, etc. and accordingly make crafts
- GS11.** solve issues relating to materials, costs, and labour and ensure smooth production
- GS12.** analyse material requirements and corrective actions required during craft making

Qualification Pack

GS13. spot process disruptions and delays

HCS/N3004: Polish and clean the metal surface

Description

This unit is about polishing the metal surface to attain the final finish as per the requirement in terms of look and luster, preventing contamination, removing oxidation and ensuring defect free surface and cleaning the workplace on completion.

Scope

The scope covers the following :

- operating the polishing machine and polishing the metal surface
- cleaning the workplace
- checking for defects
- undertaking preventive maintenance of the machine

Elements and Performance Criteria

Operating the polishing machine and polishing the metal surface

To be competent, the user/individual on the job must be able to:

- PC1.** clean the metal surface before polishing
- PC2.** start with rough abrasive if the material is unfinished
- PC3.** ensure to choose the right wheel with the appropriate thickness for polishing
- PC4.** use fine smooth abrasive at subsequent stages until the desired level of finish is obtained
- PC5.** ensure not to use pressure in applying the abrasive to the surface
- PC6.** ensure the imperfections such as lines, scratches, etc. within the metal surface are removed with the rough abrasive applied at first stage
- PC7.** use appropriate lubricants and polishing tools as per the finish requirements
- PC8.** ensure to use different abrasive for every metal to be polished
- PC9.** repeat the process with finer polishing abrasive to every step till the visible scratches are removed and desired finish is achieved
- PC10.** apply lacquer to the surface to protect it from future oxidation
- PC11.** ensure to wear safe and protective gear such as goggles, face shield, dust mask, gloves, apron, etc. when polishing
- PC12.** check polished piece visually in order to detect defects such as impurities, grease, marks, uneven finish, rough edges, etc.

Cleaning the workplace

To be competent, the user/individual on the job must be able to:

- PC13.** clean the work place and material with warm soapy water once work is complete
- PC14.** dry the work place with soft cloth
- PC15.** ensure all excess abrasives or dirt are removed
- PC16.** conduct regular and controlled environment cleaning for collection of metal dust

Checking for defects

Qualification Pack

To be competent, the user/individual on the job must be able to:

PC17. check the metal after polishing, if it matches requirement

PC18. make necessary adjustments if any

PC19. rectify and rework if any mistakes are found with respect to the design specifications and requirements

Undertaking preventive maintenance of the machine

To be competent, the user/individual on the job must be able to:

PC20. ensure general maintenance of the machine

PC21. ensure no shut down of machines due to improper maintenance

PC22. perform regular cleaning process as prescribed by manufacturer

Achieving quality standards

To be competent, the user/individual on the job must be able to:

PC23. minimise metal loss below the prescribed limits

PC24. ensure the scratches, dents, spots, rust, etc. are removed and the surface looks clean and shiny

PC25. ensure the target number of pieces are polished

PC26. ensure the finished product is as per the requirements

PC27. ensure the output delivered is defect free and on time

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. companys policies on incentives, safety and hazards, personnel management and quality standards

KU2. workflow involved in metal making process of the company

KU3. importance of the individuals role in the work process

KU4. reporting structures

KU5. documentation policies

KU6. customer profiles

KU7. metalcraft details

KU8. metal craft making processes and types of products

KU9. various kinds of raw materials involved in the process

KU10. preparing raw materials according to the specific metal requirements

KU11. uses of different types of buffers for different purposes and end results

KU12. potential work hazards while using chemicals, high speed rotating motors, lapping and ultrasonic machines

KU13. use of appropriate tools and lubricants for polishing

KU14. tools, consumables and equipments for various kinds of polishing

KU15. the use of required tools and equipments to get the desired shape

KU16. use of appropriate tools and lubricants for polishing

Qualification Pack

- KU17.** use of tools and lubricants for the polishing process such as polishing wheels, buffing wheels, brush, etc.
- KU18.** maintaining of tools and equipments for polishing
- KU19.** ways of creating tools and equipments for polishing
- KU20.** use of hazardous acids and chemicals
- KU21.** safety standards and precautions to be taken
- KU22.** quality standards to be maintained
- KU23.** standard operating procedures
- KU24.** market trend and customer preferences

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** take notes or read about the process requirements
- GS2.** read and write the job requirements
- GS3.** read company policy documents
- GS4.** interact with team members to work efficiently

HCS/N9901: Coordinate with colleagues and work as a team

Description

This NOS describes the communication and coordination skills and knowledge to work with colleagues and supervisor to achieve a smooth and hazard-free workflow.

Scope

The scope covers the following :

- interact with supervisor or superior
- work as a team by coordinating with colleagues within and outside the department and include inputs on PwD & Gender Sensitisation
- report and Document

Elements and Performance Criteria

Interact with supervisor or superior

To be competent, the user/individual on the job must be able to:

- PC1.** comply with health, safety gender, and PwD (People with disability) related instructions applicable to the workplace
- PC2.** actively participate in mock drills/ evacuation procedures; group discussions, training sensitization programs for gender, and PwD awareness organized at the workplace.
- PC3.** receive job orders and instructions from reporting supervisor and receive feedback on work standards.
- PC4.** understand the work output requirements, targets, performance indicators and incentives.
- PC5.** deliver quality work on time and report any anticipated reasons for delays and handover completed work to supervisor
- PC6.** report on any grievances, production defects and any potential hazards.

Work as a team by coordinating with colleagues within and outside the department and include inputs on PwD & Gender Sensitisation

To be competent, the user/individual on the job must be able to:

- PC7.** communicate maintenance and repair schedule proactively to the supervisor
- PC8.** interact and clarify doubts on design, usage of materials & tools, quality & standards compliance, etc.

Report and Document

To be competent, the user/individual on the job must be able to:

- PC9.** report in time for shortage or need of raw materials
- PC10.** communicate with colleagues from within and other departments, clearly and effectively on all aspects to carry out the work among the team
- PC11.** maintain the etiquette, use polite language, demonstrate responsible and disciplined behavior towards colleagues.
- PC12.** put team over individual goals and multi-task or share work where necessary supporting the colleagues.

Qualification Pack

PC13. document all the details accurately relating to ones role as required.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** knowledge about the importance of gender equality being followed in the organization and policies for reporting any harassment or inappropriate behavior
- KU2.** knowledge about how to accommodate employees with disabilities etiquette to adhere to and proper language and terminology
- KU3.** knowledge about how to communicate, offer help, respecting space, parking etc. for people with disabilities or special needs
- KU4.** knowledge about promoting a safe, accessible and healthy workplace for disabled employees
- KU5.** company's policies on preferred language of communication, incentives, quality standards, personnel management, reporting and escalation matrix policy.
- KU6.** company's standard operating procedure (sop) and the risk and impact of not following them.
- KU7.** procedures for working with colleagues, his/her role and responsibilities in relation to this
- KU8.** organizational hierarchy and the line of reporting structure and work target and review mechanism
- KU9.** procedures to report employment related issues and to deal with conflicts
- KU10.** importance of the individuals role in the organizational workflow and details of the individual responsibilities
- KU11.** tools and equipment handling procedure and common potential hazards in the work place and the procedures to deal with them
- KU12.** effective communication with various categories of people and the different departments in the organization
- KU13.** to document the job activity as required like the check sheets, history sheets, etc
- KU14.** expressing and addressing grievances appropriately, deal with difficult work relationships and manage the internal conflicts effectively

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** create a positive and inclusive workplace atmosphere without any kind of bias/discrimination towards any employee
- GS2.** actively take part in any discussion/workshop organized for gender sensitization training
- GS3.** read and comprehend written instructions related to gender equality issues in the organization
- GS4.** identify and report any harassment or inappropriate behavior towards any employee
- GS5.** create a positive and inclusive workplace atmosphere without any kind of bias/discrimination towards any employee with disability or special needs
- GS6.** actively take part in any discussion/workshop organized for disability sensitization training.

Qualification Pack

- GS7.** read and comprehend written instructions related to equality issues in the organization related to disabled persons
- GS8.** read job sheets, design sheet and information displayed at the workplace
- GS9.** read and understand manuals, health and safety instructions, memos etc
- GS10.** fill up documentation to ones role
- GS11.** communicate effectively with supervisor
- GS12.** contribute to quality of team work and achieve smooth workflow
- GS13.** improve work processes by interacting with others and adopting best practices

HCS/N9902: Maintain Safe and Healthy Work Environment

Description

This NOS is about following adequate safety procedures to make the work environment safe and Healthy.

Scope

The scope covers the following :

- follow safety procedures and practices.
- achieve safety standards

Elements and Performance Criteria

Follow safety procedures and practices

To be competent, the user/individual on the job must be able to:

- PC1.** carry out work functions in accordance with organizational standards, greening solutions, procedures, policies, legislation and regulations
- PC2.** apply and follow these policies and procedures within your work practices and inculcate sustainable consumption practices
- PC3.** actively get involved in improving the performance of the organization in line with their own role and responsibilities and support adaptation to more environmentally friendly processes
- PC4.** comply with safety procedures while on work to prevent accidents
- PC5.** take adequate safety measures while handling materials, chemicals and tools
- PC6.** wear appropriate personal protective gears such as gloves, protective goggles, masks etc. while working
- PC7.** wear appropriate and recommended clothing as per the work environment
- PC8.** follow recommended material handling procedure to control material and personal damage.
- PC9.** perform all procedures as per company's work instructions for controlling operational risk

Achieve safety standards

To be competent, the user/individual on the job must be able to:

- PC10.** perform the duties in a manner which minimizes environmental damage
- PC11.** dispose off waste safely and correctly in a designated area as per company's SOP
- PC12.** report any accidents, incidents or problems without delay to the supervisor and take necessary immediate action to reduce further danger
- PC13.** ensure zero accident at workplace
- PC14.** adhere to safety standards and ensure no material damage

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** making conscious and sustainable decisions for achieving effective and green workplace.

Qualification Pack

- KU2.** company's policies on work safety and occupational hazard management
- KU3.** knowledge about company's HR policies and reporting structure
- KU4.** company emergency evacuation procedure
- KU5.** accidental risks to the worker
- KU6.** how to maintain the work area safe and secure
- KU7.** how to perform the duties in a way to minimize accidental risks
- KU8.** how to handle chemicals in a safe manner
- KU9.** purpose and usage of protective gears such as gloves, protective goggles, masks, etc. while working
- KU10.** safe and correct material handling procedure
- KU11.** standard operating procedure (sop) of processes
- KU12.** precautionary activities to be followed in the processes
- KU13.** how to operate tools and electrical equipment
- KU14.** emergency procedures to be followed in case of a mishap such as fire accidents etc.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** make conscious and sustainable decisions that help reduce, rescue, and recycle the company resources
- GS2.** identify and replace processes that create unnecessary waste.
- GS3.** read safety instructions, safety signage and safety manuals
- GS4.** read the usage of various safety tools and equipment
- GS5.** take notes on descriptions and details of various safety precautions and procedures as instructed
- GS6.** communicate supervisor about the work safety issues.
- GS7.** receive instructions from supervisor on minimizing the accidental risks
- GS8.** communicate co-workers about the precautions to be taken for accident-free work.
- GS9.** how to select appropriate safety tools and equipment
- GS10.** improve work processes by adopting best safety practices
- GS11.** coordinate with different departments on briefing the safety aspects
- GS12.** guide the team members on use of various safety tools and equipment
- GS13.** spot errors and any other disruptions and communicate with solutions
- GS14.** how to use safety equipment such as fire extinguisher during fire accidents.
- GS15.** how to store chemicals and tools in a safe way.

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score the Recommended Pass % aggregate for the QP.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 50

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
