HCS/N3104: Perform pre Painting requirements

Description

This OS unit is about preparing the pre painting requirements to color paint on the jewel surface

Scope

The scope covers the following :

- understand work requirement
- assemble the required raw materials
- prepare the paint
- prepare the metal surface

Elements and Performance Criteria

understand work requirement

To be competent, the user/individual on the job must be able to:

- PC1.** receive instructions on work requirement from senior for design, colour combinations, type of surface, areas to paint, etc.
- PC2.** plan the target on number of pieces to be completed

assemble the required raw materials

To be competent, the user/individual on the job must be able to:

- PC3.** ensure all the raw materials required such as brush, acids, handling materials and other consumables are bought and arranged
- PC4.** report on any shortage or defect of raw materials to the concerned person
- PC5.** collect the metal product to be painted

prepare the paint

To be competent, the user/individual on the job must be able to:

- PC6.** mix the necessary components such as pigments, binder and solvents
- PC7.** blend the components to form the paint for primer coats, intermediate coats and finish coats

prepare the metal surface

To be competent, the user/individual on the job must be able to:

- PC8.** inspect the metal surface completely to identify the areas of rust, damage, stains, etc.
- PC9.** ensure these areas are taken special care during the painting process
- PC10.** ensure the surface of the metal is clean and dry, before applying the paint
- PC11.** ensure to wear safety goggles and mask while preparing the surface
- PC12.** remove any traces of oil, dust and grease on the surface so that it does not interrupt the paint to stay on the surface
- PC13.** degrease using solvents or acid solution
- PC14.** ensure to de-rust using appropriate acid or solvents at appropriate room temperature
- PC15.** perform phosphate coating at room temperature

Qualification Pack

PC16. prepare the surface of the metal even and correct any imperfections

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** company's policies on: incentives, safety and hazards, personnel management and quality standards
- KU2.** workflow involved in metal making process of the company
- KU3.** importance of the individual's role in the work process
- KU4.** reporting structure
- KU5.** documentation policy
- KU6.** customer profile
- KU7.** metalcraft details
- KU8.** metal making process and types of products
- KU9.** various kinds of raw materials involved in the process
- KU10.** preparation of the enamel and the metal surface
- KU11.** creating designs and tracing the outline
- KU12.** appropriate temperature to heat
- KU13.** effects of rough and uneven surface of the metal before painting
- KU14.** painting and creativity of designs to paint
- KU15.** tools, consumables and equipments for painting, holding, heating etc.
- KU16.** bringing the required tools and equipments to desired shape
- KU17.** handling the tools and equipments for painting
- KU18.** maintaining the tools and equipments for painting
- KU19.** creating tools and equipments for painting
- KU20.** use of hazardous acids and chemicals
- KU21.** safety standards and precautions to be taken
- KU22.** quality standards to be maintained
- KU23.** standard operating procedure
- KU24.** market trend and customer preferences

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** take notes or read about metal making techniques
- GS2.** read and write the notes from design
- GS3.** read company policy documents
- GS4.** interact with team members to work efficiently
- GS5.** communicate effectively with supervisor
- GS6.** share work load with the colleagues in the process

Qualification Pack

- GS7.** multi task and deliver the final finished piece on time adhering to quality standards
- GS8.** plan for daily production
- GS9.** plan for budget and material requirement
- GS10.** understand the customer preference, taste, etc and accordingly make crafts
- GS11.** solve issues relating to material, cost and labour and ensure smooth production
- GS12.** analyse the material requirement, corrective action required during craft making
- GS13.** spot process disruptions and delays
- GS14.** use the various painting tools such as brush, acids, handling materials and other consumables

HCS/N3105: Apply Paint on the metal surface

Description

This OS unit is about painting the metal, setting various colors and patterns on the finished jewel. This is part of finishing stage in the jewel making process. These paints harden and give a long working life to the color on the jewel, preventing rusting and wear out of metal with time.

Scope

The scope covers the following :

- paint the metal surface
- achieve quality standards

Elements and Performance Criteria

paint the metal surface

To be competent, the user/individual on the job must be able to:

- PC1.** decide on the appropriate application process and the suitable type of paint to be used
- PC2.** ensure to select the suitable primer paint based on the type of metal being painted
- PC3.** cover the work area with some cloth or paper to avoid spilling of paint
- PC4.** apply the color to the prepared surface using brush, roller, spray or other similar equipment based on the requirement and surface of the metal
- PC5.** perform the primer coat, intermediate coat, stripe coats and finish coats as per requirements with the specified prepared paint
- PC6.** ensure to perform painting in a well ventilated and well lightened place
- PC7.** ensure to avoid humid conditions while painting as it can affect the drying of paint
- PC8.** ensure the appropriate room temperature is maintained in the room where painting is carried out
- PC9.** ensure to wear appropriate attire and take necessary eye precautions while painting
- PC10.** shake the paint can if using a sprayer can to paint the metal
- PC11.** apply the paint by dipping or spraying onto the surface
- PC12.** use jigs to hold the metal while painting and ensure not to drop the metal product
- PC13.** ensure the paint doesn't spill over
- PC14.** ensure to use the colors one by one and separate brushes for every color
- PC15.** ensure not to thick coat the paint as it becomes difficult to dry
- PC16.** ensure the various compositions of paints used are compatible with one another
- PC17.** use thinner if specified in the job sheet as per requirement
- PC18.** dry the paint before beginning the second coat
- PC19.** ensure the paint is spread evenly across the metal surface
- PC20.** perform sanding if smoother finish is required
- PC21.** dry the painted surface for the appropriate required time

Qualification Pack

achieve quality standards

To be competent, the user/individual on the job must be able to:

- PC22.** ensure the metal completely isolate air and water contact to the metal surface
- PC23.** ensure the coating thickness, durability, color, clarity, etc. are according to the design prescribed and to the customer or client requirement
- PC24.** ensure a hard or smooth and glossy finish as per requirement
- PC25.** ensure the target number of pieces are painted
- PC26.** ensure the color and pattern are according to the
- PC27.** ensure the output delivered is defect free and hazard free

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** companys policies on: incentives, safety and hazards, personnel management and quality standards
- KU2.** workflow involved in metal making making process of the company
- KU3.** importance of the individual's role in the work process

HCS/N3106: Lacquer the Metal surface

Description

This OS unit is about lacquering the metal surface giving a smooth and glossy finish on the surface.

Scope

The scope covers the following :

- lacquer the metal surface
- achieve quality standards

Elements and Performance Criteria

lacquer the metal surface

To be competent, the user/individual on the job must be able to:

- PC1.** take necessary safety precautions ensuring hazard free working environment
- PC2.** provide adequate ventilation into the room
- PC3.** wear appropriate attire
- PC4.** ensure the work place to be clean and organized and metal is dust free.
- PC5.** ensure appropriate temperature is maintained
- PC6.** remove any residue that is left on the surface of the metal
- PC7.** ensure to use appropriate solvents to clean the surface
- PC8.** brush the lacquer to the metal surface
- PC9.** maintain the appropriate distance between the lacquer spray can and the metal surface if using a spray can
- PC10.** not to overlap and create uneven surface
- PC11.** dry the metal surface

achieve quality standards

To be competent, the user/individual on the job must be able to:

- PC12.** ensure a smooth and glossy finish as per requirement
- PC13.** ensure the target number of pieces are painted
- PC14.** ensure the color and pattern are according to the requirements

HCS/N8524: Entrepreneurship skills for Metalware painter

Description

This unit covers essential entrepreneurship skills required for a Metalware Painter to establish, manage, and grow a successful business.

Scope

The scope covers the following :

- Understanding market trends and customer preferences
- Business planning and strategy development
- Financial management and Budgeting
- Marketing and Branding strategies
- Quality control and customer satisfaction
- Scaling Up and business growth
- Legal compliance and ethical practices

Elements and Performance Criteria

Understanding market trends and Customer preferences

To be competent, the user/individual on the job must be able to:

- PC1.** Identify current market demand for different styles, colors, and finishes in metalware painting.
- PC2.** Conduct research on customer preferences through surveys, competitor analysis, and trend studies.
- PC3.** Stay updated on emerging trends in metalware painting, including sustainable and innovative techniques.
- PC4.** Identify niche markets, such as customized, antique, or premium painted metalware.

Business planning and Strategy development

To be competent, the user/individual on the job must be able to:

- PC5.** Develop a structured business plan, including vision, mission, and unique selling proposition (USP).
- PC6.** Set realistic short-term and long-term business goals based on market analysis.
- PC7.** Identify potential business challenges and create risk mitigation strategies.
- PC8.** Establish a pricing strategy considering cost, competition, and perceived value.

Financial management and Budgeting

To be competent, the user/individual on the job must be able to:

- PC9.** Estimate costs for raw materials, tools, labor, and overhead expenses.
- PC10.** Maintain financial records, track expenses, and manage cash flow efficiently.
- PC11.** Determine appropriate pricing for painted metalware products to ensure profitability.
- PC12.** Explore funding options such as bank loans, government schemes, and crowdfunding.
- PC13.** Develop financial forecasts and budget planning to ensure business sustainability.

Qualification Pack

Marketing and Branding strategies

To be competent, the user/individual on the job must be able to:

- PC14.** Create a strong brand identity with a unique name, logo, and packaging design.
- PC15.** Develop an online and offline marketing strategy to reach target customers.
- PC16.** Utilize digital marketing techniques such as social media, websites, and e-commerce platforms. Participate in exhibitions, craft fairs, and trade shows to showcase products.

Quality control and Customer satisfaction

To be competent, the user/individual on the job must be able to:

- PC17.** Maintain high-quality standards in painting techniques, durability, and finishing.
- PC18.** Implement customer feedback mechanisms to improve product offerings.
- PC19.** Use high-quality, long-lasting paints and protective coatings to enhance product value.

Scaling Up and Business growth

To be competent, the user/individual on the job must be able to:

- PC20.** Identify opportunities for expanding the business through collaborations with designers, retailers, and exporters.
- PC21.** Develop a strategy for increasing production capacity while maintaining quality and uniqueness.
- PC22.** Identify funding sources, such as government schemes, grants, or loans, to support business expansion.

Legal compliance and ethical practices

To be competent, the user/individual on the job must be able to:

- PC23.** Ensure compliance with local and national regulations related to handicrafts, small-scale industries, and taxation.
- PC24.** Maintain fair labor practices, including ethical wages, safe working conditions, and non-exploitative employment.
- PC25.** Protect intellectual property rights by registering unique designs or trademarks if applicable.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Awareness of different types of metal surfaces (brass, copper, silver, etc.) and their suitability for painting.
- KU2.** Knowledge of traditional and modern painting techniques used in metalware decoration.
- KU3.** Familiarity with industry trends, customer preferences, and emerging design styles.
- KU4.** Understanding the basics of creating a business plan, including market analysis, pricing strategies, and financial planning.
- KU5.** Awareness of sourcing raw materials, including paints, brushes, and protective coatings.
- KU6.** Understanding branding techniques for a metalware painting business.
- KU7.** Knowledge of different marketing strategies, including digital marketing, social media, and exhibitions.
- KU8.** Identifying potential sales channels such as online marketplaces, local craft fairs, and export markets.

Qualification Pack

- KU9.** Understanding B2B and B2C business models for selling painted metalware.
- KU10.** Knowledge of pricing strategies based on competition, production cost, and customer demand.
- KU11.** Understanding taxation, invoicing, and GST compliance for small businesses.
- KU12.** Knowledge of quality standards and finishing techniques to ensure durability of painted metalware.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Ability to interact effectively with customers, suppliers, and business partners.
- GS2.** Clear and professional communication for marketing and sales.
- GS3.** Active listening skills to understand customer preferences and feedback.
- GS4.** Ability to create unique and appealing metalware designs.
- GS5.** Problem-solving skills to overcome challenges in design and production.
- GS6.** Effective scheduling to balance painting, marketing, and business management.
- GS7.** Basic knowledge of using digital tools for marketing (social media, website management, e-commerce).
- GS8.** Familiarity with digital payment systems and financial tracking apps.
- GS9.** Ability to use design software for creating digital mock-ups of painted metalware.
- GS10.** Proficiency in various painting techniques like engraving, enamel work, and antique finishing.

HCS/N9929: Working in a team

Description

This NOS describes the communication and coordination skills and knowledge to work with colleagues and supervisor to achieve a smooth and hazard-free workflow.

Scope

The scope covers the following :

- interact with supervisor or superior
- work as a team by coordinating with colleagues within and outside the department and include
- inputs on PwD & Gender Sensitisation
- report and Document

Elements and Performance Criteria

Interact with supervisor or superior

To be competent, the user/individual on the job must be able to:

- PC1.** comply with health, safety gender, and PwD (People with disability) related instructions applicable to the workplace
- PC2.** actively participate in mock drills/ evacuation procedures; group discussions, training sensitization programs for gender, and PwD awareness organized at the workplace.
- PC3.** receive job orders and instructions from reporting supervisor and receive feedback on work standards.
- PC4.** understand the work output requirements, targets, performance indicators and incentives.
- PC5.** deliver quality work on time and report any anticipated reasons for delays and handover completed work to supervisor
- PC6.** report on any grievances, production defects and any potential hazards.

Work as a team by coordinating with colleagues within and outside the department and include inputs on PwD & Gender Sensitisation

To be competent, the user/individual on the job must be able to:

- PC7.** communicate maintenance and repair schedule proactively to the supervisor
- PC8.** interact and clarify doubts on design, usage of materials & tools, quality & standards compliance, etc.

Report and Document

To be competent, the user/individual on the job must be able to:

- PC9.** report in time for shortage or need of raw materials
- PC10.** communicate with colleagues from within and other departments, clearly and effectively on all aspects to carry out the work among the team
- PC11.** maintain the etiquette, use polite language, demonstrate responsible and disciplined behavior towards colleagues.
- PC12.** put team over individual goals and multi-task or share work where necessary supporting the colleagues.

Qualification Pack

PC13. document all the details accurately relating to ones role as required.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** knowledge about the importance of gender equality being followed in the organization and policies for reporting any harassment or inappropriate behavior
- KU2.** knowledge about how to accommodate employees with disabilities etiquette to adhere to and proper language and terminology
- KU3.** knowledge about how to communicate, offer help, respecting space, parking etc. for people with disabilities or special needs
- KU4.** knowledge about promoting a safe, accessible and healthy workplace for disabled employees
- KU5.** company's policies on preferred language of communication, incentives, quality standards, personnel management, reporting and escalation matrix policy.
- KU6.** company's standard operating procedure (sop) and the risk and impact of not following them.
- KU7.** procedures for working with colleagues, his/her role and responsibilities in relation to this
- KU8.** organizational hierarchy and the line of reporting structure and work target and review mechanism
- KU9.** procedures to report employment related issues and to deal with conflicts
- KU10.** importance of the individuals role in the organizational workflow and details of the individual responsibilities
- KU11.** tools and equipment handling procedure and common potential hazards in the work place and the procedures to deal with them
- KU12.** effective communication with various categories of people and the different departments in the organization
- KU13.** to document the job activity as required like the check sheets, history sheets, etc
- KU14.** expressing and addressing grievances appropriately, deal with difficult work relationships and manage the internal conflicts effectively

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** create a positive and inclusive workplace atmosphere without any kind of bias/discrimination towards any employee
- GS2.** actively take part in any discussion/workshop organized for gender sensitization training
- GS3.** read and comprehend written instructions related to gender equality issues in the organization
- GS4.** identify and report any harassment or inappropriate behavior towards any employee
- GS5.** create a positive and inclusive workplace atmosphere without any kind of bias/discrimination towards any employee with disability or special needs
- GS6.** actively take part in any discussion/workshop organized for disability sensitization training.

Qualification Pack

- GS7.** read and comprehend written instructions related to equality issues in the organization related to disabled persons
- GS8.** read job sheets, design sheet and information displayed at the workplace
- GS9.** read and understand manuals, health and safety instructions, memos etc
- GS10.** fill up documentation to ones role
- GS11.** communicate effectively with supervisor
- GS12.** contribute to quality of team work and achieve smooth workflow
- GS13.** improve work processes by interacting with others and adopting best practices

HCS/N9931: Maintain health and safety at workplace

Description

This unit provides Performance Criteria, Knowledge & Understanding, and Skills & Abilities required to comply with health, safety, and security requirements at the workplace and covers procedures to prevent, control, and minimize risk to self and others.

Scope

The scope covers the following :

- Comply with health, safety, and security requirements at work

Elements and Performance Criteria

Comply with health, safety, and security requirements at work

To be competent, the user/individual on the job must be able to:

- PC1.** comply with health and safety related instructions applicable to the workplace.
- PC2.** use and maintain personal protective equipment as per protocol.
- PC3.** carry out own activities in line with approved guidelines and procedures
- PC4.** maintain a healthy lifestyle and guard against dependency on intoxicants.
- PC5.** follow environment management system related procedures
- PC6.** store materials and tools in line with manufacturers and organisational requirements
- PC7.** safely handle and move waste and debris.
- PC8.** minimize health and safety risks to self and others due to own actions
- PC9.** seek clarifications, from supervisors or other authorized personnel in case of perceived risks
- PC10.** monitor the workplace and work processes for potential risks and threats.
- PC11.** carry out periodic walk-through to keep work area free from hazards and obstructions, if assigned
- PC12.** report hazards and potential risks/ threats to supervisors or other authorized personnel
- PC13.** participate in mock drills/ evacuation procedures organized at the workplace
- PC14.** undertake first aid, fire-fighting and emergency response training, if asked to do so
- PC15.** take action based on instructions in the event of fire, emergencies or accidents
- PC16.** follow organisation procedures for evacuation when required

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** health and safety related practices applicable at the workplace
- KU2.** potential hazards, risks and threats based on nature of operations
- KU3.** organizational procedures for safe handling of tools

Qualification Pack

- KU4.** potential risks due to own actions and methods to minimize these
- KU5.** environmental management system related procedures at the workplace.
- KU6.** layout of the plant and details of emergency exits, escape routes, emergency equipment and assembly points
- KU7.** potential accidents and emergencies and response to these scenarios
- KU8.** reporting protocol and documentation required
- KU9.** details of personnel trained in first aid, fire-fighting and emergency response
- KU10.** actions to take in the event of a mock drills/ evacuation procedures or actual accident, emergency or fire.
- KU11.** occupational health and safety risks and methods
- KU12.** personal protective equipment and method of use
- KU13.** identification, handling and storage of hazardous substances
- KU14.** proper disposal system for waste and by-products
- KU15.** signage related to health and safety and their meaning
- KU16.** importance of sound health, hygiene and good habits
- KU17.** ill-effects of alcohol, tobacco and drugs

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** write in local language.
- GS2.** read measurement instructions
- GS3.** communicate orally with colleagues
- GS4.** follow organization rule-based decision making process
- GS5.** take decision with systematic course of actions and/or response
- GS6.** plan and organize your work to achieve targets and deadlines

HCS/N9940: Managing people and Resources in Business

Description

This OS unit focuses on business planning, internal strategy, timelines.

Scope

The scope covers the following :

- people management
- product planning
- procurement of raw materials
- market interfacing
- financial management
- record keeping

Elements and Performance Criteria

People management

To be competent, the user/individual on the job must be able to:

- PC1.** arrange Interactive meetings of managers of sales and production teams and categorize the issues and feedbacks of both the teams
- PC2.** train the employees of his/her unit with the appropriate skills required to make market relevant and quality products
- PC3.** motivate the employees

Product planning

To be competent, the user/individual on the job must be able to:

- PC4.** compile a report based on old production reports
- PC5.** address the issues faced in previous productions and try to resolve them
- PC6.** gather and analyze the cues from the market
- PC7.** ascertain the customer preference
- PC8.** develop product range lines based on current market preference
- PC9.** develop product range lines that are unique and able to price high
- PC10.** price the products according to market trends
- PC11.** identify the competent marketing strategy for the product range

Procurement of raw materials

To be competent, the user/individual on the job must be able to:

- PC12.** list of the raw material s and prepare a B.O.M according to the product lines
- PC13.** ascertain the quantity and right price to procure the materials
- PC14.** identify the right locations/agents from where the raw materials can be procured
- PC15.** negotiate to get the best price
- PC16.** ensure quality materials are procured

Qualification Pack

PC17. ensure the procured materials are stored in appropriate conditions

PC18. compile a record of price quotations, POs, and bills of procurement for future reference

Market interfacing

To be competent, the user/individual on the job must be able to:

PC19. maintain a healthy and professional relationship with vendor

PC20. the competitive market falls in order with the company policies of best price, quality, and delivery parameters

PC21. analyze the prevalent price for product lines

PC22. decide on the most effective means to access the market

PC23. plan for cost-effective transportation to the market

PC24. position the product according to market requirements

PC25. identify and address the expectations of customer

Financial management

To be competent, the user/individual on the job must be able to:

PC26. analyze and ascertain the cost of production

PC27. maintain the book of accounts related to the business

PC28. maintain export documents like a letter of credit, custom clearance

PC29. identify cost-effective means of running the business

Record keeping

To be competent, the user/individual on the job must be able to:

PC30. identify various aspects of business that require recording

PC31. design formats for recording

PC32. compile various records of all aspects of the business

PC33. maintain these records with periodic updations

PC34. maintain necessary documents as per local government and regulatory requirements

PC35. reframe the procurement strategy according to local scenarios like weather conditions, transport strikes, affected prices, etc.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. interpersonal skills and communication with a cross-section of stakeholders

KU2. understanding of basics accounting so that he/she can monitor the transactions between company and vendor

KU3. knowledge of banking basics to keep the export process flawless

KU4. understanding of costing principles to calculate the cost of production with all the overheads and the actual price

KU5. product and craft knowledge including material and tools requirements

KU6. gathering market intelligence.

KU7. various transportation means and implications on costing

KU8. various product lines that can be created depending on the sector of operation

Qualification Pack

- KU9.** basic record-keeping techniques
- KU10.** basic laws, rules, regulations, etc. regarding business
- KU11.** vendor management and development
- KU12.** pricing techniques
- KU13.** business profitability assessment

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** analyse product range and keep abreast of market trends
- GS2.** document various aspects of the business
- GS3.** compile descriptions and details about investment, expenditures, and sales
- GS4.** interact with teams to work efficiently
- GS5.** communicate and manage vendors for cost-effective outsourcing and procurements
- GS6.** interface with fellow entrepreneurs to exchange ideas on the business
- GS7.** communicate with the customers for their feedback about the product
- GS8.** comprehend information shared by various stakeholders
- GS9.** plan and organize the product lines
- GS10.** fix the appropriate price.
- GS11.** hire employees with the appropriate skill set and experience
- GS12.** predict the profit margin to be achieved by the business
- GS13.** decide target segment of the market
- GS14.** schedule production cycles for better efficiency of resources
- GS15.** planning of production efficiency based on manpower and equipment available
- GS16.** schedule market visits for surveys and feedback
- GS17.** gather information on preference and taste of the customer
- GS18.** interact with various types of customers and understand the trends
- GS19.** analyze and solve conflicts and problems of the business.
- GS20.** ensure that the problems do not arise repeatedly.
- GS21.** anticipate various problems/challenges that can crop up
- GS22.** analyze the market for increasing sales
- GS23.** spot errors and any other disruptions and communicate with solutions

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score the Recommended Pass % aggregate for the QP.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Minimum Passing % at NOS Level: 50

(Please note: A Trainee must score the minimum percentage for each NOS separately as well as on the QP as a whole.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
