HCS/Q4405: Natural Fibre Product Maker

Brief Job Description

A Natural Fibre Maker is responsible for making different products such as grass coasters, mirror frames, bangles, toys, containers, bowls, bags, baskets, mats and other utility items, by using different grasses like palm leaves, sheetal patti, reed, sikki grass, kasi grass, cona, jute kenaf, flax, hemp, sisal and palmyra etc. The Grass Craft Maker shall be able to make different products of different specifications by using different types of grasses. This job requires the individual to have understanding and knowledge of raw materials to be used for making specific products and techniques used for the same.

Personal Attributes

A Grass Craft Maker should have good eyesight, hand-eye coordination, motor skills and vision. The person should have basic mathematical skills, particularly making calculations and measurements. He/she should be patient and tenacious for long hours of work. He/she should be imaginative, creative and analytic.

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [HCS/N8302: Prepare the Raw materials for making grass craft products](#)
2. [HCS/N8303: Identify Requirements of product and design specifications](#)
3. [HCS/N8304: Carry out product making Operations and finishing of the product](#)
4. [HCS/N9908: Working in a Team](#)
5. [HCS/N9945: Maintaining workplace health and safety](#)
6. [HCS/N9935: Maintain Personal Cleanliness](#)
7. [DGT/VSQ/N0101: Employability Skills \(30 Hours\)](#)

HCS/N8302: Prepare the Raw materials for making grass craft products

Description

The unit discuss in details about the preparation of raw materials before beginning the production processes. It informs about performance criteria, knowledge and understanding, and skills required to become a grass craft artisan.

Scope

The scope covers the following :

- Procurement of raw materials and Arrange tools and Equipment
- Processing the raw materials

Elements and Performance Criteria

Procurement of raw materials and Arrange tools and Equipment

To be competent, the user/individual on the job must be able to:

- PC1.** identify the raw materials required as per product specifications
- PC2.** ensure raw material are as per product requirement both in terms of quality and quantity
- PC3.** identify the appropriate amount of munj and khar (another form of grass) based on the job specifications
- PC4.** arrange the suitable dyes and colors as per the product requirement required for coloring the objects
- PC5.** place appropriate quantity of water in a drum based on the job specification
- PC6.** arrange needle of appropriate size and dimensions required for shaping the iron object with a rounded head for grip
- PC7.** place Knife of standard size required for slitting the grass to extract excess amount of pieces
- PC8.** arrange twine, takua and blade of appropriate sizes required for pierce the needle for stitching the craft

Processing the raw materials

To be competent, the user/individual on the job must be able to:

- PC9.** place the sliver by slicing the grass in the right manner
- PC10.** shave the slivers for smoothness and the desired size
- PC11.** measure and maintain the uniformity of the sliver to be achieved
- PC12.** maintain the sharpness of the equipment used in slicing and shaping of grass objects
- PC13.** identify the required tools and equipment for slicing and processing the raw materials as per product specification
- PC14.** perform the standard process required for soaking the slivers in water for a period of time to make them more pliable
- PC15.** place khar and munj provide the basic shape and additional strength to the grass objects
- PC16.** identify the colors and shade from shade card based on the job specification

Qualification Pack

- PC17.** place the object of grass in the water along with dye or chemical colors and make them boiled till the appropriate temperature and time required for coloring the grass object

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** organization's choice of market and the reason behind the same
- KU2.** policies pertaining to procurement of raw materials
- KU3.** different processes related to processing of raw materials for making grass craft products
- KU4.** safety protocols followed within the organization
- KU5.** Organisational hierarchical system and their respective roles
- KU6.** product line of the organisation
- KU7.** different properties of the raw materials to be used
- KU8.** procedures to follow, specific to different raw materials
- KU9.** use of the different tools and equipment for processing raw materials
- KU10.** different methods used for processing raw materials for creating different products

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** write product specifications as per customer's demand or market demand
- GS2.** write design specifications in detailed organisational formats
- GS3.** write requirements of raw materials and tools in detail with respect to specific products
- GS4.** read product specifications correctly to gather all the required information for product creation
- GS5.** communicate properly while speaking, enabling him to grasp all required information for product creation
- GS6.** pass desired information effectively to others while speaking about it
- GS7.** choose the appropriate process for processing the raw materials as per product specification
- GS8.** identify and eliminate the variables that may impact the processing of the raw materials
- GS9.** carry out the different processes involved in the creation of grass craft products
- GS10.** capture and utilise customer's specifications during the production of the product
- GS11.** identify faults in the processing of raw materials
- GS12.** resolve defects that may arise during the processing of raw materials
- GS13.** anticipate customer needs and priorities with respect to the product
- GS14.** evaluate market trends to innovate prospective products for the future in accordance with customer demands
- GS15.** anticipate limitations to raw material processing, if there may be any

HCS/N8303: Identify Requirements of product and design specifications

Description

The unit discuss in details about the identifying the requirements of raw materials, tools, making process, etc. with respect to the product or design specifications. It informs about performance criteria, knowledge and understanding, and skills required by a grass craft maker to carry out the activity.

Scope

The scope covers the following :

- Understand design specifications and prepare for the production process
- Coloring of slivers as per the product and design requirements
- Drying and Sorting

Elements and Performance Criteria

Understand design specifications and prepare for the production process

To be competent, the user/individual on the job must be able to:

- PC1.** identify the tools to be used for the preparation of the product in accordance to the specifications provided
- PC2.** identify the suitable process to be used for the production of any specific product
- PC3.** define the amount of prepared raw materials required with respect to the design specifications
- PC4.** arrange the required tools, equipment and raw materials in the work area

Colouring of slivers as per the product and design requirements

To be competent, the user/individual on the job must be able to:

- PC5.** select the correct dyeing vessel and chemicals/colors for dyeing the required grass slivers as per specifications
- PC6.** perform the process of mixing the different chemicals/ingredients required for making the dye bath
- PC7.** apply the standard operating procedures in order to maintain proportions while measuring and mixing chemicals
- PC8.** demonstrate the standard operating procedures for heating the dye bath to desired degrees
- PC9.** place and dip and grass objects in order to ensure complete immersion of the slivers in the dye bath correctly
- PC10.** estimate the duration dip for the desired results
- PC11.** apply standard safety procedures in order to take necessary precautions to avoid uneven dyeing of materials
- PC12.** maintain the concentration of the dye bath
- PC13.** apply standard operation procedures for washing and neutralizing the dyed slivers or sticks appropriately
- PC14.** minimise and dispose the leftover chemicals in the approved manner

Drying and Sorting

Qualification Pack

To be competent, the user/individual on the job must be able to:

- PC15.** perform the standard operating procedures in order to dry the dyed slivers/ sticks avoiding direct sunlight & dust
- PC16.** apply the standard operating procedures for sorting & separating out the dried dyed slivers/ sticks based on color
- PC17.** prepare unit bunches/ bundles of slivers/ sticks as per convenience for next level of processing
- PC18.** store the dyed grass slivers in a dry & dust free area

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** policies pertaining to the use of tools and equipment within the organisation
- KU2.** organizational procedures for preparing to use processes raw materials
- KU3.** different procedural steps involved prior to following any specific process for the production of the desired product
- KU4.** organizational processes for preparing the production area prior to beginning production activities
- KU5.** usage of raw materials as per the product and design
- KU6.** need for dyeing of grass slivers, sticks etc. of craft material
- KU7.** different dyes and colors used for preparing dye bath
- KU8.** usage and role of the dyeing bleaching agents and chemicals in the process
- KU9.** step by step process of dyeing
- KU10.** importance of the duration of dip for the required concentration of colors
- KU11.** safety measure and proper handling of the chemicals
- KU12.** drying and sorting of dyed grass slivers

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** write required steps to be followed while preparing for the production process
- GS2.** write about processes related to maintaining tools and equipment
- GS3.** write about maintaining the processed raw materials before starting the production process
- GS4.** read instructions related to preparing work area for production process
- GS5.** read instructions on the usage and safety precautions related to tools
- GS6.** read instructions related to respective production process
- GS7.** communicate with responsible personnel to convey desired message most efficiently
- GS8.** approach meeting pre-production preparation requirements
- GS9.** meet raw material requirement for production
- GS10.** facilitate production process requirements
- GS11.** ensure the use of tools and equipments to their optimum efficiency

Qualification Pack

- GS12.** extract procedural requirements with respect to customer specifications
- GS13.** resolve any faults that may arise during this pre-production process
- GS14.** develop innovative techniques to meet product requirements faster with desired quality

HCS/N8304: Carry out product making Operations and finishing of the product

Description

This unit discusses in detail the different processes involved in making any grass craft product including shaping of main frame of product with hard grass, coiling of grass slivers on the hard grass frame and then finishing of the final product.

Scope

The scope covers the following :

- Carry out making of hard grass frame as per design and product
- Coiling and twining of grass slivers on frame
- Carry out finishing, varnishing, drying & storage of final grass craft product

Elements and Performance Criteria

Carry out making of hard grass frame as per design and product

To be competent, the user/individual on the job must be able to:

- PC1.** select hard grass such as 'munj' and 'Khar' on the basis of flexibility
- PC2.** perform standard procedures for cutting the hard grass in different sizes as per the design and product requirement
- PC3.** apply the standard procedures required for smoothing the surface of grass with shaver to avoid any cuts on hands
- PC4.** demonstrate the process of allowing the object to get the required basic shape of hard grass to provide additional strength to the grass products
- PC5.** take specific type (based on width & length) of Hard Grass slivers suitable for preparing the two-dimensional base structure
- PC6.** plan out the base & fix it to obtain a rigid structure
- PC7.** ensure that the base structure is fixed in a proper manner before coiling the grass slivers on to the base structure
- PC8.** make the two dimensional hard grass base according to required design & pattern

Coiling and twining of grass slivers on frame

To be competent, the user/individual on the job must be able to:

- PC9.** take appropriate grass slivers (based on width & length) for coiling and twining on base structure frame formed by hard grass according to shape, size, colour & design pattern required in making specific product
- PC10.** perform basic coiling of grass slivers on the given structure/frame
- PC11.** analyze and maintain uniform gap between the slivers as per the given specification
- PC12.** analyze and maintain compactness of the sliver to ensure rigidity of the structure
- PC13.** demonstrate the use different colored slivers for different patterns
- PC14.** avoid overlapping in coils to obtain uniformity and quality

Qualification Pack

PC15. analyze and maintain quality in giving shapes

PC16. ensure proper handling in making the product to avoid any breakage

Carry out finishing, varnishing, drying & storage of final grass craft product

To be competent, the user/individual on the job must be able to:

PC17. demonstrate the cutting operation in order to cut the extra edges neatly to give the fine finished look by using clipping tools

PC18. analyze and apply glue to fix the edges

PC19. maintaining sharpness of clipping tool and take safety precaution while clipping

PC20. prepare the solution of varnish by adding an appropriate amount of thinner

PC21. apply solution on the product uniformly and handle the product properly while doing varnishing

PC22. ensure uniform and complete drying in sunlight to avoid stickiness

PC23. check & ensure the quality of the final product based on requirement

PC24. take precautions while stacking the lot of products avoiding any breakage

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. procedures pertaining to the production processes followed by the organization

KU2. production processes carried out in the organization

KU3. measures taken by the organization in carrying out the production process

KU4. limitations that may be experienced in carrying out any production process

KU5. procedures of making the final product

KU6. precautionary steps involved during the production process

KU7. ways to rectify faults arising during the production process

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. write process requirements

GS2. write procedures involved in the production process in organisational format

GS3. read process instructions

GS4. communicate efficiently to meet process requirement

GS5. decide which production process to be used to produce any particular product

GS6. approach any particular obstacle arisen during the production process

GS7. carry out the production process to meet organizational expectation with respect to quality and delivery time

GS8. ensure availability of all requisites for efficiently carrying out production process

GS9. carry out production process to meet customer expectations

GS10. resolve any issue faced during the production process

Qualification Pack

- GS11.** rectify faults that may come into being during the processes involved
- GS12.** ensure the efficiency of the production process
- GS13.** dodge any forthcoming disturbances
- GS14.** attend to the possible variables of the production process

Qualification Pack

HCS/N9908: Working in a Team

Description

This unit is about working as part of a team in the process.

Elements and Performance Criteria

Commitment and trust

To be competent, the user/individual on the job must be able to:

- PC1.** Be accountable to ones own role in whole process.
- PC2.** Perform all roles with full responsibility.

Communication

To be competent, the user/individual on the job must be able to:

- PC3.** Report problems faced during the process.
- PC4.** Talk politely with other team members and colleagues.
- PC5.** Submit daily report of own performance.

Adaptability

To be competent, the user/individual on the job must be able to:

- PC6.** Adjust in different work situations.
- PC7.** Give due importance to others point of view.
- PC8.** Avoid conflicting situations.

Creative freedom

To be competent, the user/individual on the job must be able to:

- PC9.** Develop new ideas for work procedures
- PC10.** Improve upon the existing techniques to increase process efficiency

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** General rules and regulations in the sector.
- KU2.** Procedure followed to get the final output.
- KU3.** Safe working practices to be adopted.
- KU4.** Reporting to the supervisor or higher authority about any grievances faced.
- KU5.** Understanding the importance of the previous and next step of the process.
- KU6.** Process flow in the handicraft section.
- KU7.** Material sequence of flow.
- KU8.** Functions of different parts of product development.
- KU9.** Tools and equipments used.
- KU10.** Guidelines for operating the equipment.
- KU11.** Safety procedures to be followed as applicable.

Qualification Pack

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Prepare status and progress reports.
- GS2.** Write memos and e-mail to co-workers, and vendors to provide them with work updates and to request appropriate information without English language errors regarding grammar or sentence construct.
- GS3.** Keep abreast with the latest knowledge by reading brochures, pamphlets, and product information sheets.
- GS4.** Discuss task lists, schedules, and work-loads with co-workers.
- GS5.** Keep co-workers and supervisors informed about progress.
- GS6.** Make decisions pertaining to the concerned area of work.
- GS7.** Plan and organize service feedback files/documents.
- GS8.** Manage relationships with customers.
- GS9.** Build customer relationships and use customer centric approach.
- GS10.** Think through the problem, evaluate the possible solution(s) and suggest an optimum /best possible solution(s).
- GS11.** Identify immediate or temporary solutions to resolve delays.
- GS12.** Use the existing data to arrive at specific data points.
- GS13.** Apply, analyze, and evaluate the information gathered from observation, experience, reasoning, or communication, as a guide to thought and action.

HCS/N9945: Maintaining workplace health and safety

Description

This unit provides Performance Criteria, Knowledge & Understanding, and Skills & Abilities required to comply with health, safety, and security requirements at the workplace and covers procedures to prevent, control, and minimize risk to self and others.

Scope

The scope covers the following :

- Comply with health, safety, and security requirements at work

Elements and Performance Criteria

Comply with health, safety, and security requirements at work

To be competent, the user/individual on the job must be able to:

- PC1.** comply with health and safety related instructions applicable to the workplace.
- PC2.** use and maintain personal protective equipment as per protocol.
- PC3.** carry out own activities in line with approved guidelines and procedures
- PC4.** maintain a healthy lifestyle and guard against dependency on intoxicants.
- PC5.** follow environment management system related procedures.
- PC6.** store materials and tools in line with manufacturers and organisational requirements
- PC7.** safely handle and move waste and debris.
- PC8.** minimize health and safety risks to self and others due to own actions
- PC9.** seek clarifications, from supervisors or other authorized personnel in case of perceived risks
- PC10.** monitor the workplace and work processes for potential risks and threats.
- PC11.** carry out periodic walk-through to keep work area free from hazards and obstructions, if assigned
- PC12.** report hazards and potential risks/ threats to supervisors or other authorized personnel
- PC13.** participate in mock drills/ evacuation procedures organized at the workplace
- PC14.** undertake first aid, fire-fighting and emergency response training, if asked to do so
- PC15.** take action based on instructions in the event of fire, emergencies or accidents
- PC16.** follow organisation procedures for evacuation when required

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** health and safety related practices applicable at the workplace
- KU2.** potential hazards, risks and threats based on nature of operations
- KU3.** organizational procedures for safe handling of tools

Qualification Pack

- KU4.** potential risks due to own actions and methods to minimize these
- KU5.** environmental management system related procedures at the workplace.
- KU6.** layout of the plant and details of emergency exits, escape routes, emergency equipment and assembly points
- KU7.** potential accidents and emergencies and response to these scenarios
- KU8.** reporting protocol and documentation required
- KU9.** details of personnel trained in first aid, fire-fighting and emergency response
- KU10.** actions to take in the event of a mock drills/ evacuation procedures or actual accident, emergency or fire.
- KU11.** occupational health and safety risks and methods
- KU12.** personal protective equipment and method of use
- KU13.** identification, handling and storage of hazardous substances
- KU14.** proper disposal system for waste and by-products
- KU15.** signage related to health and safety and their meaning
- KU16.** importance of sound health, hygiene and good habits
- KU17.** ill-effects of alcohol, tobacco and drugs

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** write in local language.
- GS2.** read measurement instructions
- GS3.** communicate orally with colleagues
- GS4.** follow organization rule-based decision making process
- GS5.** take decision with systematic course of actions and/or response
- GS6.** plan and organize your work to achieve targets and deadlines
- GS7.** manage relationships with customers
- GS8.** build customer relationships and use customer centric approach
- GS9.** think through the problem, evaluate the possible solution(s) and suggest an optimum /best possible solution(s)
- GS10.** identify immediate or temporary solutions to resolve delays
- GS11.** analyze data and activities.
- GS12.** pass on relevant information to others
- GS13.** apply, analyze, and evaluate the information gathered from observation, experience, reasoning, or communication, as a guide to thought and action

Qualification Pack

HCS/N9935: Maintain Personal Cleanliness

Description

This NOS provides the abilities required for taking responsibility for their own health at the workplace and is about using the correct procedures to prevent, control and minimize risk to them and others at the workplace.

Scope

The scope covers the following :

- adopt healthy work practices
- achieve work productivity while maintaining health

Elements and Performance Criteria

Adopt healthy work practices

To be competent, the user/individual on the job must be able to:

- PC1.** always cover the mouth and nose with a dust mask while working and keep on changing when it gets blocked with dust
- PC2.** follow work instructions strictly to reduce the amount of pollution at the work place e.g. wet the rock / craft material before working on it
- PC3.** wear protective goggles over eyes and replace them when scratches on it obscure the vision
- PC4.** wear gloves as per the materials used for making handicraft to avoid blisters; scratches and cuts
- PC5.** undergo preventive health checkups at regular intervals
- PC6.** take prompt treatment from the doctor in case of illness

Achieve work productivity while maintaining health

To be competent, the user/individual on the job must be able to:

- PC7.** follow SOPs for dealing with blisters; scratches; accidental fires or any other type of emergencies at work
- PC8.** ensure the absence of no productivity loss or absenteeism from work due to illness
- PC9.** ensure no long term ill effect on the personal health

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** companys policies on personal health and occupational hazard management
- KU2.** companys hr policies
- KU3.** companys reporting structure
- KU4.** companys emergency evacuation procedure
- KU5.** health risks to the worker at the work place

Qualification Pack

- KU6.** healthy work practices
- KU7.** how to perform the duties in a way to minimize pollution at the work place
- KU8.** what personal protective equipments should be worn and how it is cared for
- KU9.** safe disposal methods for waste
- KU10.** how to provide the first aid treatment at workplace
- KU11.** emergency procedures to be followed in case of an mishap such as fire accidents etc.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read personal health instructions and manual
- GS2.** read the usage of various hand tools and personal protection equipments
- GS3.** take notes on descriptions and details of various personal health maintenance procedures
- GS4.** communicate with supervisor about the physical symptoms
- GS5.** receive instructions from doctor and supervisor on medical care
- GS6.** how to select appropriate hand tools and personal protection equipment
- GS7.** when to change personal protection equipment during work
- GS8.** how to identify first aid needs in case and of an injury
- GS9.** how to select appropriate hand tools and personal protection equipment
- GS10.** when to change personal protection equipment during work
- GS11.** how to use materials that does not affect customer health / make injury
- GS12.** improve work processes by adopting best safety practices
- GS13.** analyze the usage of appropriate tools and consumables
- GS14.** spot errors and any other disruptions and communicate with solutions

Qualification Pack

DGT/VSQ/N0101: Employability Skills (30 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

PC1. understand the significance of employability skills in meeting the job requirements

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

PC2. identify constitutional values, civic rights, duties, personal values and ethics and environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

PC3. explain 21st Century Skills such as Self-Awareness, Behavior Skills, Positive attitude, self-motivation, problem-solving, creative thinking, time management, social and cultural awareness, emotional awareness, continuous learning mindset etc.

Basic English Skills

To be competent, the user/individual on the job must be able to:

PC4. speak with others using some basic English phrases or sentences

Communication Skills

To be competent, the user/individual on the job must be able to:

PC5. follow good manners while communicating with others

PC6. work with others in a team

Qualification Pack

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

PC7. communicate and behave appropriately with all genders and PwD

PC8. report any issues related to sexual harassment

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

PC9. use various financial products and services safely and securely

PC10. calculate income, expenses, savings etc.

PC11. approach the concerned authorities for any exploitation as per legal rights and laws

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

PC12. operate digital devices and use its features and applications securely and safely

PC13. use internet and social media platforms securely and safely

Entrepreneurship

To be competent, the user/individual on the job must be able to:

PC14. identify and assess opportunities for potential business

PC15. identify sources for arranging money and associated financial and legal challenges

Customer Service

To be competent, the user/individual on the job must be able to:

PC16. identify different types of customers

PC17. identify customer needs and address them appropriately

PC18. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC19. create a basic biodata

PC20. search for suitable jobs and apply

PC21. identify and register apprenticeship opportunities as per requirement

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use basic spoken English language

KU6. Do and dont of effective communication

KU7. inclusivity and its importance

KU8. different types of disabilities and appropriate communication and behaviour towards PwD

KU9. different types of financial products and services

Qualification Pack

- KU10.** how to compute income and expenses
- KU11.** importance of maintaining safety and security in financial transactions
- KU12.** different legal rights and laws
- KU13.** how to operate digital devices and applications safely and securely
- KU14.** ways to identify business opportunities
- KU15.** types of customers and their needs
- KU16.** how to apply for a job and prepare for an interview
- KU17.** apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate effectively using appropriate language
- GS2.** behave politely and appropriately with all
- GS3.** perform basic calculations
- GS4.** solve problems effectively
- GS5.** be careful and attentive at work
- GS6.** use time effectively
- GS7.** maintain hygiene and sanitisation to avoid infection

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score the Recommended Pass % aggregate for the QP.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Minimum Passing % at NOS Level: 50

(Please note: A Trainee must score the minimum percentage for each NOS separately as well as on the QP as a whole.)

Assessment Weightage

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
