HCS/Q4501: Craft Specialist- Paper Mache

Brief Job Description

The span of job for a paper mache craft specialist involves market study, perceiving trends underline, predict and forecast trends setting in for the product, identify theme and based on theme and forecast, develop designs for broad range of paper mache products in relation to the theme.

Personal Attributes

He/she should have flair for art and drawings, have basic knowledge of various geometrical figures, should possess communication skills. He should have good understanding of colours in relation to national and international buyer communities. He should be highly imaginative, creative, analytic and man of voracious readings and keen listener too.

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [HCS/N4501: Preparation of Designs for objects of Paper Mache](#)
2. [HCS/N4502: Development of prototype for products class](#)
3. [HCS/N4503: Evaluation of Design Development Process](#)
4. [HCS/N9906: Maintaining work area, tools and machines](#)
5. [HCS/N9908: Working in a Team](#)
6. [HCS/N9913: Maintain health, safety and security at workplace](#)
7. [DGT/VSQ/N0102: Employability Skills \(60 Hours\)](#)

HCS/N4501: Preparation of Designs for objects of Paper Mache

Description

This unit is about quantification and measurement of skills and competencies enabling one to work satisfactorily in adding/creating thematic look to paper mache products, either by self-imagination and creativity or inspired out of motifs supplied by the customer.

Scope

The scope covers the following :

- study and adapt to design trends relevant to product class
- analyze trend and consolidate

Elements and Performance Criteria

Study and adapt to design trends relevant to product class

To be competent, the user/individual on the job must be able to:

- PC1.** market study for paper mache trends from various sources of information magazines, trade fairs, cultural events, directional shopping trips, historical sources, internet etc.
- PC2.** identify basic trends and forecasts based on past review of design exploration.
- PC3.** determine differences between forecast and actual behaviour with possible reasons for such behavioural difference
- PC4.** review designs of products from other business players working in paper mache
- PC5.** identify emerging trend and people preference
- PC6.** translate inputs as per company procedure for adoption and adaptability
- PC7.** apply statutory and regulatory standards applicable to design
- PC8.** quality elements applicable to designs

Analyse trend and consolidate

To be competent, the user/individual on the job must be able to:

- PC9.** identify theme and style requirements for designs
- PC10.** budgeting to define and include elements of cost and time frame
- PC11.** identify requirements of various materials along with its suppliers
- PC12.** identify manufacturing techniques and processes with steps involved in creating designs
- PC13.** design to include elements of client satisfaction for paper mache and its acceptability
- PC14.** design to include any statutory and/or regulatory requirements to products

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** organization policies, procedures, guidelines
- KU2.** product type, class and materials

Qualification Pack

- KU3.** statutory and regulatory standards applicable to product and/or processes involved
- KU4.** buyers defined and intended requirements for paper mache and acceptability
- KU5.** recognize need and respond positively to cultural differences with change of behaviours
- KU6.** production capacity and process capability of organization
- KU7.** the importance of keen observation for areas of improvements
- KU8.** the need to inform superiors for any serious abnormality observed with tools and working equipment before using them
- KU9.** the need to work methodically with attention to details without damaging product, process and equipment
- KU10.** manufacturing processes of paper mache
- KU11.** the significance of aptitude and flair for art and designs
- KU12.** cost elements involved in manufacturing processes
- KU13.** measurement tools, equipment and techniques
- KU14.** costing of designs in consideration to its potential to marketability
- KU15.** knowledge of paper mache types and its salient characteristics
- KU16.** advantages and applicability of various measuring and colouring tools and equipment
- KU17.** limitation of various tools and equipment

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** document records related to customer enquiries, product designs
- GS2.** write letters, memos, etc. clearly and legibly
- GS3.** read and comprehend written instructions describing new design details from clients and also from external forums such as websites and blogs
- GS4.** keep abreast with latest trend by reading brochures, pamphlets, magazines and product information sheets
- GS5.** seek information from customers and other sources in order to understand trend and customer requirements
- GS6.** communicate with all relevant information in logical sequence
- GS7.** follow organisation's rule-based decision making process
- GS8.** take decision with systematic course of actions and/or response
- GS9.** plan and organise work to meet deadlines
- GS10.** the design should address customers defined and implied needs and expectation.
- GS11.** build customer relationships and use customer centric approach
- GS12.** seek and comprehend design related inputs for clarification
- GS13.** assess/evaluate design processes.
- GS14.** find ways of changing difficult/unique design to make it production friendly
- GS15.** apply domain information about the design or the product intended to create processes parameters
- GS16.** critically evaluate design inputs in relation to the product intended

Qualification Pack

- GS17.** develop holistic and comprehensive profile of products based on segregated discrete information available

Qualification Pack

HCS/N4502: Development of prototype for products class

Description

This unit is about quantification and measurement of skills and competencies enabling one to work satisfactorily in developing design for range of product class belonging to paper mache.

Scope

The scope covers the following :

- reviewing Design Details
- specifying Designing Processes
- implementation of Design Processes

Elements and Performance Criteria

Reviewing Design Details

To be competent, the user/individual on the job must be able to:

- PC1.** prepare all details illustrating process steps and materials used in production of sample
- PC2.** review details as per comments from respective personnel and/or process authoritative owners
- PC3.** consolidate details with sketches, drawings, materials used, samples and/or any relevant information related to design
- PC4.** specify the range of product class and collections to which the details is applicable

Specifying Designing Processes

To be competent, the user/individual on the job must be able to:

- PC5.** identify and summarise consolidation of degree and nature of involvements sought from merchandiser, painter, rubbing operator etc.
- PC6.** identify process stages defining check points and monitoring procedure with applicable tolerance
- PC7.** development of prototype
- PC8.** handing over the prototype to concerned department

Implementation of Design Processes

To be competent, the user/individual on the job must be able to:

- PC9.** monitor sample development processes for time and cost defined under budget.
- PC10.** problems or inconsistencies are identified and addressed suitably
- PC11.** evaluate the prototype sample received

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** personal hygiene and duty of care

Qualification Pack

- KU2.** safe working practices and organizational procedures
- KU3.** limits of your own responsibility
- KU4.** ways and methodologies of resolving problems within the work area
- KU5.** the value chain of manufacturing process steps affecting and affected by specific work activities related to designing
- KU6.** approved channel of effective communication within organization
- KU7.** the lines of communication, authority and reporting procedures
- KU8.** the organizations rules, codes and guidelines (including timekeeping)
- KU9.** equipments, tools and templates used in developing design and their respective handling knowledge
- KU10.** types of sakhta with construction material and shapes etc.
- KU11.** brushing and painting processes
- KU12.** principles and methodologies of designing processes
- KU13.** the importance of identifying nature and degree of involvement needed from merchandiser, painter etc.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** document records for all process steps and specification related to product designs
- GS2.** write letters, memos, etc. clearly and legibly
- GS3.** read and comprehend written instructions describing design development process details
- GS4.** keep abreast with latest trend by reading brochures, pamphlets, magazines and product information sheets
- GS5.** seek information from customers and other sources in order to understand trend and customer requirements
- GS6.** communicate with all relevant information in logical sequence
- GS7.** follow organization's rule-based decision making process
- GS8.** take decision with systematic course of actions and/or response
- GS9.** plan and organize work to meet deadlines
- GS10.** manage relationships with customers with intent on satisfying its requirements for product quality and product delivery
- GS11.** build customer relationships and use customer centric approach
- GS12.** identify innovative solution to develop design which facilitates manufacturing
- GS13.** assess/evaluate design processes
- GS14.** communicate effectively with aids of soft skill tools and techniques
- GS15.** apply domain information about product, processes and technical specifications to identify critical aspect related to design
- GS16.** critically evaluate design inputs in relation to product intended
- GS17.** develop holistic and comprehensive profile of products based on segregated discrete information available

HCS/N4503: Evaluation of Design Development Process

Description

This unit is about quantification and measurement of skills and competencies enabling one to review work satisfactorily for the development of prototype.

Scope

The scope covers the following :

- evaluation of design development processes
- complete documentation of design development processes

Elements and Performance Criteria

Evaluation of Design Development Processes

To be competent, the user/individual on the job must be able to:

- PC1.** review the prototype sample with design development team and/or concerned personnel
- PC2.** check sample in relation to design details for motifs etc.
- PC3.** check sample for aesthetics and attributes
- PC4.** amend/modify sample as per review inputs
- PC5.** assess feasibility of manufacturing in line with availability of raw materials, process capability etc. a propos the sample under review
- PC6.** get approval of final design/sample from client and/or concerned person

Complete Documentation of Design Development Processes

To be competent, the user/individual on the job must be able to:

- PC7.** complete documentation including development process, design details, review input comments & outcomes.
- PC8.** records to be identified with system adopted for traceability, located for easy retrievability and preserved for safety

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** safe working practices and organizational procedures
- KU2.** limits of your own responsibility
- KU3.** ways and methodologies of resolving problems within the work area
- KU4.** the value chain of manufacturing process steps affecting and affected by specific work activities related to pattern and pattern making
- KU5.** approved channel of effective communication within organization
- KU6.** the lines of communication, authority and reporting procedures
- KU7.** the organizations rules, codes and guidelines (including timekeeping)

Qualification Pack

- KU8.** equipment, tools and templates etc. used in developing design and their respective handling for efficiency
- KU9.** organization approved process for managing information of confidential nature like motifs, sketch, colours, arts etc.
- KU10.** development process steps
- KU11.** monitoring progress of team

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** document records related to design development
- GS2.** write letters, memos, etc. clearly and legibly
- GS3.** read and comprehend written instructions describing design details and manufacturing processes related to the process
- GS4.** keep abreast with latest approach in evaluation by reading magazines, journals etc.
- GS5.** discuss task details, process schedules, etc. with concerned team
- GS6.** communicate with all relevant information in logical sequence
- GS7.** follow organization's rule-based decision making process
- GS8.** take decision with systematic course of actions and/or response
- GS9.** planning and organization of work to meet deadlines
- GS10.** build customer relationships and use customer centric approach
- GS11.** identify innovative solutions to expedite evaluation process of design development
- GS12.** assess/evaluate design processes
- GS13.** apply domain information about product, processes and technical specifications to identify problems with precision
- GS14.** critically evaluate design inputs in relation to product intended
- GS15.** develop holistic and comprehensive profile of products based on segregated discrete information available

HCS/N9906: Maintaining work area, tools and machines

Description

This unit provides performance criteria, knowledge, understanding, skills and abilities required to organize/maintain work areas and activities to ensure the maintenance of tools and machines as per norms.

Elements and Performance Criteria

Maintain the work area, tools and machines

To be competent, the user/individual on the job must be able to:

- PC1.** handle materials, tools and equipment with care and use them in correct way
- PC2.** Use correct and handling procedures
- PC3.** Maintain clean and hazard free working area
- PC4.** Carry out running maintenance within agreed schedules
- PC5.** Carry out maintenance and/or cleaning within ones responsibility
- PC6.** Report unsafe equipment and other dangerous occurrences
- PC7.** Use clean equipment and methods appropriate for the work to be carried out
- PC8.** Dispose of waste safely in the designated location
- PC9.** Store equipment safely after use

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Personal hygiene and duty of care
- KU2.** Safe working practices and organizational procedures
- KU3.** Ways of resolving conflicts/problems within the work area
- KU4.** The design process and the specific work activities that relate to the process
- KU5.** Organizations rules, codes and guidelines
- KU6.** The companys quality standards
- KU7.** Importance of complying with written instructions
- KU8.** Work instructions and ability to interpret them accurately
- KU9.** Relation between work role and the overall manufacturing process
- KU10.** Hazards likely to be encountered when carrying out the maintenance process
- KU11.** Maintenance procedures
- KU12.** Importance of running maintenance and regular cleaning
- KU13.** Safe working practices for maintenance
- KU14.** The importance of taking action when problems are identified
- KU15.** Effects of contamination on products
- KU16.** Common faults with equipment and the method to rectify

Qualification Pack

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Prepare status and progress reports
- GS2.** Write memos and e-mail to co-workers, and vendors to provide them with work updates and to request appropriate information without English language errors in grammar or sentence construct
- GS3.** Keep abreast with the latest knowledge by reading brochures, pamphlets, and product information sheets
- GS4.** Discuss task lists, schedules, and work-loads with co-workers
- GS5.** Keep coworker and supervisor informed about progress
- GS6.** Make decisions pertaining to the concerned area of work
- GS7.** Plan and manage work routine based on company procedure
- GS8.** Plan and organize service feedback files/documents
- GS9.** Manage relationships with customers
- GS10.** Build customer relationships and use customer centric approach
- GS11.** Think through a problem, evaluate the possible solution(s) and suggest an optimum /best possible solution(s)
- GS12.** Identify immediate or temporary solutions to resolve delays
- GS13.** Use the existing data to arrive at specific data points
- GS14.** Apply, analyze, and evaluate the information gathered from observation, experience, reasoning, or communication, as a guide to thought and action

HCS/N9908: Working in a Team

Description

This unit is about working as part of a team in the process.

Elements and Performance Criteria

Commitment and trust

To be competent, the user/individual on the job must be able to:

- PC1.** Be accountable to one's own role in whole process.
- PC2.** Perform all roles with full responsibility.

Communication

To be competent, the user/individual on the job must be able to:

- PC3.** Report problems faced during the process.
- PC4.** Talk politely with other team members and colleagues.
- PC5.** Submit daily report of own performance.

Adaptability

To be competent, the user/individual on the job must be able to:

- PC6.** Adjust in different work situations.
- PC7.** Give due importance to others' point of view.
- PC8.** Avoid conflicting situations.

Creative freedom

To be competent, the user/individual on the job must be able to:

- PC9.** Develop new ideas for work procedures
- PC10.** Improve upon the existing techniques to increase process efficiency

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** General rules and regulations in the sector.
- KU2.** Procedure followed to get the final output.
- KU3.** Safe working practices to be adopted.
- KU4.** Reporting to the supervisor or higher authority about any grievances faced.
- KU5.** Understanding the importance of the previous and next step of the process.
- KU6.** Process flow in the handicraft section.
- KU7.** Material sequence of flow.
- KU8.** Functions of different parts of product development.
- KU9.** Tools and equipments used.
- KU10.** Guidelines for operating the equipment.
- KU11.** Safety procedures to be followed as applicable.

HCS/N9913: Maintain health, safety and security at workplace

Description

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required to comply with health, safety and security requirements at the workplace and covers procedures to prevent, control and minimise risk to self and others.

Elements and Performance Criteria

Comply with health, safety and security requirements at work

To be competent, the user/individual on the job must be able to:

- PC1.** Comply with health and safety related instructions applicable to the workplace.
- PC2.** Use and maintain personal protective equipment as per protocol.
- PC3.** Carry out own activities in line with approved guidelines and procedures.
- PC4.** Maintain a healthy lifestyle and guard against dependency on intoxicants.
- PC5.** Follow environment management system related procedures.
- PC6.** Store materials and tools in line with manufacturers and organisational requirements.
- PC7.** Safely handle and move waste and debris.
- PC8.** Minimize health and safety risks to self and others due to own actions.
- PC9.** Seek clarifications, from supervisors or other authorized personnel in case of perceived risks.
- PC10.** Monitor the workplace and work processes for potential risks and threats.
- PC11.** Carry out periodic walk-through to keep work area free from hazards and obstructions, if assigned.
- PC12.** Report hazards and potential risks/ threats to supervisors or other authorized personnel.
- PC13.** Participate in mock drills/ evacuation procedures organized at the workplace.
- PC14.** Undertake first aid, fire-fighting and emergency response training, if asked to do so.
- PC15.** Take action based on instructions in the event of fire, emergencies or accidents.
- PC16.** Follow organisation procedures for evacuation when required.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Health and safety related practices applicable at the workplace.
- KU2.** Potential hazards, risks and threats based on nature of operations.
- KU3.** Organizational procedures for safe handling of tools.
- KU4.** Potential risks due to own actions and methods to minimize these.
- KU5.** Environmental management system related procedures at the workplace.
- KU6.** Layout of the plant and details of emergency exits, escape routes, emergency equipment and assembly points.
- KU7.** Potential accidents and emergencies and response to these scenarios.

Qualification Pack

- KU8.** Reporting protocol and documentation required.
- KU9.** Details of personnel trained in first aid, fire-fighting and emergency response.
- KU10.** Actions to take in the event of a mock drills/ evacuation procedures or actual accident, emergency or fire.
- KU11.** Occupational health and safety risks and methods.
- KU12.** Personal protective equipment and method of use.
- KU13.** Identification, handling and storage of hazardous substances.
- KU14.** Proper disposal system for waste and by-products.
- KU15.** Signage related to health and safety and their meaning.
- KU16.** Importance of sound health, hygiene and good habits.
- KU17.** Ill-effects of alcohol, tobacco and drugs.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Write in local language.
- GS2.** Read measurement instructions.
- GS3.** Communicate orally with colleagues.
- GS4.** Follow organization rule-based decision making process.
- GS5.** Take decision with systematic course of actions and/or response.
- GS6.** Plan and organize your work to achieve targets and deadlines.
- GS7.** Manage relationships with customers.
- GS8.** Build customer relationships and use customer centric approach.
- GS9.** Think through the problem, evaluate the possible solution(s) and suggest an optimum /best possible solution(s).
- GS10.** Identify immediate or temporary solutions to resolve delays.
- GS11.** Analyze data and activities.
- GS12.** Pass on relevant information to others.
- GS13.** Apply, analyze, and evaluate the information gathered from observation, experience, reasoning, or communication, as a guide to thought and action.

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

- PC5.** recognize the significance of 21st Century Skills for employment
- PC6.** practice the 21st Century Skills such as Self-Awareness, Behaviour Skills, time management, critical and adaptive thinking, problem-solving, creative thinking, social and cultural awareness, emotional awareness, learning to learn for continuous learning etc. in personal and professional life

Basic English Skills

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC7.** use basic English for everyday conversation in different contexts, in person and over the telephone
- PC8.** read and understand routine information, notes, instructions, mails, letters etc. written in English
- PC9.** write short messages, notes, letters, e-mails etc. in English

Career Development & Goal Setting

To be competent, the user/individual on the job must be able to:

- PC10.** understand the difference between job and career
- PC11.** prepare a career development plan with short- and long-term goals, based on aptitude

Communication Skills

To be competent, the user/individual on the job must be able to:

- PC12.** follow verbal and non-verbal communication etiquette and active listening techniques in various settings
- PC13.** work collaboratively with others in a team

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

- PC14.** communicate and behave appropriately with all genders and PwD
- PC15.** escalate any issues related to sexual harassment at workplace according to POSH Act

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

- PC16.** select financial institutions, products and services as per requirement
- PC17.** carry out offline and online financial transactions, safely and securely
- PC18.** identify common components of salary and compute income, expenses, taxes, investments etc
- PC19.** identify relevant rights and laws and use legal aids to fight against legal exploitation

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

- PC20.** operate digital devices and carry out basic internet operations securely and safely
- PC21.** use e- mail and social media platforms and virtual collaboration tools to work effectively
- PC22.** use basic features of word processor, spreadsheets, and presentations

Entrepreneurship

To be competent, the user/individual on the job must be able to:

- PC23.** identify different types of Entrepreneurship and Enterprises and assess opportunities for potential business through research
- PC24.** develop a business plan and a work model, considering the 4Ps of Marketing Product, Price, Place and Promotion
- PC25.** identify sources of funding, anticipate, and mitigate any financial/ legal hurdles for the potential business opportunity

Customer Service

To be competent, the user/individual on the job must be able to:

- PC26.** identify different types of customers
- PC27.** identify and respond to customer requests and needs in a professional manner.

Qualification Pack

PC28. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC29. create a professional Curriculum vitae (Résumé)

PC30. search for suitable jobs using reliable offline and online sources such as Employment exchange, recruitment agencies, newspapers etc. and job portals, respectively

PC31. apply to identified job openings using offline /online methods as per requirement

PC32. answer questions politely, with clarity and confidence, during recruitment and selection

PC33. identify apprenticeship opportunities and register for it as per guidelines and requirements

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills and different learning and employability related portals

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use English language for effective verbal (face to face and telephonic) and written communication in formal and informal set up

KU6. importance of career development and setting long- and short-term goals

KU7. about effective communication

KU8. POSH Act

KU9. Gender sensitivity and inclusivity

KU10. different types of financial institutes, products, and services

KU11. how to compute income and expenditure

KU12. importance of maintaining safety and security in offline and online financial transactions

KU13. different legal rights and laws

KU14. different types of digital devices and the procedure to operate them safely and securely

KU15. how to create and operate an e- mail account and use applications such as word processors, spreadsheets etc.

KU16. how to identify business opportunities

KU17. types and needs of customers

KU18. how to apply for a job and prepare for an interview

KU19. apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. read and write different types of documents/instructions/correspondence

GS2. communicate effectively using appropriate language in formal and informal settings

Qualification Pack

- GS3.** behave politely and appropriately with all
- GS4.** how to work in a virtual mode
- GS5.** perform calculations efficiently
- GS6.** solve problems effectively
- GS7.** pay attention to details
- GS8.** manage time efficiently
- GS9.** maintain hygiene and sanitization to avoid infection

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score the Recommended Pass % aggregate for the QP.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
