HCS/N4601: Analyzing the product

Description

This unit describes inputs that make one understand organization business plan for product designed to fulfill needs of specified clientele base along with target market segment.

Scope

The scope covers the following :

- marketing trend analysis
- defining key elements of design
- order pre-booking activities

Elements and Performance Criteria

Marketing Trend Analysis

To be competent, the user/individual on the job must be able to:

- PC1.** Research on market trends.
- PC2.** Review and analysis of past designs and samples developed by the organization.
- PC3.** Assess correlation and relevance of current design/samples with the past.

Defining key elements of design

To be competent, the user/individual on the job must be able to:

- PC4.** Identify organization objectives to align with client requirements.
- PC5.** Carry out research on target market for products.
- PC6.** Carry out research to identify new, novel and promising materials.
- PC7.** Identify applicable quality standards relevant to designs.
- PC8.** Identify elements of cost, budget and timeline applicable to design.
- PC9.** Check the design features/motif received from client and review it with inhouse team of designers and artisans.
- PC10.** Check design features provided is complete with all relevant specifications, if not get it clarified, amended and consolidated in consultation with client and/or in-house design team and artisans.

Order pre-booking activities

To be competent, the user/individual on the job must be able to:

- PC11.** Collect designs as approved from buyer.
- PC12.** Check consumption of various materials like paper, paints, colour etc.
- PC13.** Prepare price quotation and send to and/or discuss and seek approval from buyer.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

Qualification Pack

- KU1.** Organization policies, procedure, guidelines for dealing with buyers/clients.
- KU2.** General rules and regulations in paper mache.
- KU3.** Recognizing, appreciating and adopting to cultural differences in the workplace.
- KU4.** Procedure handling sensitive information related to organization design specifications, exclusive strength, research & development etc.
- KU5.** Completing work systematically with attention to detail without damage to goods and equipment.
- KU6.** Knowledge/awareness about intellectual property rights applicable to design.
- KU7.** Product manufacturing techniques and allied processes.
- KU8.** Detailed knowledge of a range of materials used in production.
- KU9.** Elements of costs involved in manufacturing of products.
- KU10.** Vendors for paper, dyes, varnish and accessories.
- KU11.** Compliance standards applicable to product and processes.
- KU12.** Computer operations (ms office, data management and basic internet).
- KU13.** ERP data management platform where available.
- KU14.** Basic troubleshooting of computer system.
- KU15.** Access, interpret and use data from a range of sources.
- KU16.** Present information in appropriate formats and layout structures.
- KU17.** Market trend assessment:a. Global and domestic market.b. Buying pattern.c. Target market.
- KU18.** Sequence of process and material flow in paper mache manufacturing.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Document records related to customer enquiries, product designs.
- GS2.** Write letters, memos, etc in clearly comprehensible and unequivocal english free from grammatical errors.
- GS3.** Read and comprehend written instructions describing new design details from clients and also from external forums such as websites and blogs.
- GS4.** Keep abreast with latest trend by reading brochures, pamphlets, magazines and product information sheets.
- GS5.** Follow guidelines/procedures/rules and service level agreements.
- GS6.** Listen effectively.
- GS7.** Communicate with all relevant information in logical sequence and accurately.
- GS8.** Seek information from customers and other sources in order to understand trend and customer requirements.
- GS9.** Communicate with all relevant information in logical sequence.
- GS10.** Able to speak in foreign and local languages.
- GS11.** Follow rule-based decision making process.
- GS12.** Make decision in suitable course of actions.
- GS13.** Plan and organize tasks to achieve targets and meet deadlines.

Qualification Pack

- GS14.** Plan processes and encourage exchange of ideas/inputs.
- GS15.** Manage relations with customers with products that satisfy defined and implied needs and expectations.
- GS16.** Build customer understanding of trust and cooperativeness.
- GS17.** Clarification on the design to be developed with the team members.
- GS18.** Assess /evaluate design processes.
- GS19.** Find ways of changing difficult/unique design to make it production friendly.
- GS20.** Effective communication skills with people including the buyers and colleagues.
- GS21.** Analyze the market trends and forecast and set targets.
- GS22.** Define in advance production and shipment plan.
- GS23.** Provide opinions on work in a detailed and constructive way.
- GS24.** Clarify and check task related information.
- GS25.** Critically evaluate design inputs in relation to the product intended.
- GS26.** Develop holistic and comprehensive profile of products based on segregated discrete information available.

HCS/N4602: Establishing Merchandising Objectives

Description

This unit provides Performance Criteria, Knowledge & Understanding, Skills & Abilities required to set objectives for monitoring progress for the development of product as per design intended.

Scope

The scope covers the following :

- vendor/supplier identification and order booking
- preparation of bill of materials
- evaluation of manufacturing processes

Elements and Performance Criteria

Vendor/Supplier Identification and Order Booking

To be competent, the user/individual on the job must be able to:

- PC1.** Identify the vendors/suppliers for raw materials, dyes, chemicals and accessories.
- PC2.** Evaluate capability and commitment of vendors for supply of raw materials.
- PC3.** Update the vendor database.
- PC4.** Negotiate for price against bulk requirements of raw materials.
- PC5.** Generate BOM.
- PC6.** Book order as per BOM.

Preparation of Bill of Materials

To be competent, the user/individual on the job must be able to:

- PC7.** Prepare a well structured and all-comprehensive bom (bill of material) for each of the designs containing raw materials, various components along with quantities of each needed to manufacture the end product.
- PC8.** Cost of product developed for sampling.

Evaluation of Manufacturing Processes

To be competent, the user/individual on the job must be able to:

- PC9.** Appropriate personnel identified for use of various material components (from raw materials to accessories) throughout the manufacturing process.
- PC10.** Identify nature and degree of involvement required by designer and artisan.
- PC11.** Define monitoring procedures and check points all along the processes.
- PC12.** Develop TNA (time and action) calendar and gantt chart to define and monitor progress of the project after receiving confirmation of the sample.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

Qualification Pack

- KU1.** The organizations policies and procedures.
- KU2.** Protocol to obtain more information on work related tasks.
- KU3.** Organization policy related to sensitive information regarding product design, development activities etc.
- KU4.** Limits of ones own role and responsibilities.
- KU5.** Line of approved channel of communication.
- KU6.** Organizations knowledge base and how to use and update this.
- KU7.** Organization functional and organizational chart.
- KU8.** Knowledge/awareness about intellectual property rights.
- KU9.** Organizations equipment, templates and processes for preparing the design.
- KU10.** Knowledge about paper mache products.
- KU11.** Knowledge of design making techniques.
- KU12.** Knowledge of product life cycle.
- KU13.** Pricing system and knowledge about price fixing and price variation in national and international markets for products and components.
- KU14.** Product quality specifications and workplace practices.
- KU15.** Preparation of the BOM.
- KU16.** Evaluation of key parameters of:a. Process capability.b. Product/process costing.c. Product deliverability.
- KU17.** Use of computer (ms office, data management and basic internet).
- KU18.** MS Office (proficient using ms word, ms excel and ms powerpoint).
- KU19.** Basic troubleshooting of the computer system.
- KU20.** Access, interpret and use data from a range of sources.
- KU21.** Present information in appropriate formats and structured layout form.
- KU22.** Sequence of process and material flow in paper mache manufacturing.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Document records related to vendors.
- GS2.** Write letters, memos, mails in clearly comprehensible and unequivocal english free from grammatical errors.
- GS3.** Read and comprehend written instructions describing product features, specifications, logistics and all relevant design details related to procurement.
- GS4.** Keep abreast with latest trend in market for design and availability of sakhta, colours etc.
- GS5.** Discuss task details, process schedules, etc with concerned team.
- GS6.** Communicate with all relevant information in logical sequence.
- GS7.** Take decision with business acumen to optimize cost, quality and availability in procurement of materials.
- GS8.** Follow rule-based decision making process.
- GS9.** Make decision in suitable course of actions.

Qualification Pack

- GS10.** Plan and organize tasks to achieve targets and meet deadline.
- GS11.** Plan processes and encourage exchange of ideas/inputs.
- GS12.** Manage relations with customers who may be confused, undecided, angry or frustrated.
- GS13.** Build customer understanding of trust and loyalty.
- GS14.** Clarification on product features for design to be developed with the team members.
- GS15.** Assess /evaluate design and manufacturing processes.
- GS16.** Communicate effectively with team.
- GS17.** Analyze the market trends and forecast and set targets.
- GS18.** Define in advance production and shipment plan.
- GS19.** Provide opinions on work in a detailed and constructive way.
- GS20.** Clarify and check task related information.

HCS/N4603: Developing and Presenting Merchandising Plan

Description

This unit provides Performance Criteria, Knowledge & Understanding, Skills & Abilities required to develop merchandising plan beginning with development of sample, order confirmation to identifying processes steps with sequence for bulk production.

Scope

The scope covers the following :

- overseeing of sample development
- finalization of merchandising plan

Elements and Performance Criteria

Overseeing of sample development

To be competent, the user/individual on the job must be able to:

- PC1.** Check the specification details prepared is comprehensive for all information contents.
- PC2.** Check to confirm with concerned personnel for design details as required for sample development.
- PC3.** Ensure sample developed is checked according to specification sheet.
- PC4.** Check that prototype (sample developed) is sent for testing as per company norms and/or as per buyers defined needs, where applicable.

Finalization of Merchandising Plan

To be competent, the user/individual on the job must be able to:

- PC5.** Ensure prototype is checked with design team is sent to or shown in person to buyer for approval.
- PC6.** Ensure changes/amendments, if any, received from buyer is communicated to and confirmed with production.
- PC7.** Ensure p.o (purchase order) is raised from buyer against order confirmation.
- PC8.** Receive p.i (performa invoice).
- PC9.** Approve and update worksheets like accessories, consumption sheet (paper, base raw materials, dyes & chemicals) etc.
- PC10.** Update tna and/or gannt chart and ensure they are sent for approval.
- PC11.** Ensure ordering of all the items required for the end product.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Procedure followed to get the final output in paper mache manufacturing unit.
- KU2.** General rules and regulations in paper mache manufacturing unit.
- KU3.** Protocol to obtain more information on work related tasks.

Qualification Pack

- KU4.** Organization approved processes for preparing the design details.
- KU5.** Organization approved system of reporting.
- KU6.** Limits of your own responsibility and authority.
- KU7.** Ways and methodology of resolving problems within the work area.
- KU8.** Approved channel of effective communication within organization.
- KU9.** Knowledge of intellectual property rights.
- KU10.** Knowledge of paper mache products and processes.
- KU11.** Knowledge on manufacturing techniques.
- KU12.** Pricing and costing procedures.
- KU13.** Knowledge of product quality and workplace practices.
- KU14.** Use of computer (MS office, data management and basic internet).
- KU15.** MS office (proficient using ms word, ms excel and ms powerpoint).
- KU16.** Basic troubleshooting of the computer system.
- KU17.** Access, interpret and use data from a range of sources.
- KU18.** Present information in appropriate formats and structured layout form.
- KU19.** Costing of raw material, accessories etc.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Document records for all process steps and specification related to product development to finalization of sample.
- GS2.** Write letters, memos, etc in clearly comprehensible and unequivocal english free from grammatical errors.
- GS3.** Read and comprehend written instructions related to development of sample.
- GS4.** Keep abreast with latest tools and techniques of project management by reading journals, magazines etc.
- GS5.** Seek information from in-house team members to understand progress and take updates in proper way.
- GS6.** Communicate with all relevant information in logical sequence.
- GS7.** Follow rule-based decision making process.
- GS8.** Make decision in suitable course of actions.
- GS9.** Plan and organize tasks to achieve targets and meet deadline.
- GS10.** Plan processes and encourage exchange of ideas/inputs.
- GS11.** Manage relations with customers who desperately need relevant information yet unwilling unaware of its needs.
- GS12.** Build customer understanding of trust and cooperativeness.
- GS13.** Clarification on the design to be developed with the team members.
- GS14.** Assess /evaluate design processes.
- GS15.** Effective communication within the workplace.
- GS16.** Analyze the market trends and set targets.

Qualification Pack

- GS17.** Define in advance production and shipment plan with the help of TNA.
- GS18.** Provide opinions on work in a detailed and constructive way.
- GS19.** Clarify and check task related information.

HCS/N4604: Organizing and Conducting Pre-production Meeting

Description

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required to organize and conduct pre-production meeting with all concerned people.

Scope

The scope covers the following :

- preparation of preproduction meeting
- conducting meeting
- output of meeting

Elements and Performance Criteria

Preparation of Preproduction Meeting

To be competent, the user/individual on the job must be able to:

- PC1.** Ensure tna prepared is updated.
- PC2.** Check procurement state and status of raw materials, accessories etc. for order placement, availability target time and so on from warehouse/store with awareness to all concerned departments.
- PC3.** Ensure production file is complete for all information like approved sample, design details, buyers comments etc.
- PC4.** Ensure participant members represent sampling, production, procurement, store and quality.

Conducting Meeting

To be competent, the user/individual on the job must be able to:

- PC5.** Buyers comment on sample.
- PC6.** Share queries asked by buyer regarding production and quality of product.
- PC7.** Quality standards expected for the product at various stages of production.
- PC8.** Discuss difficulties encountered and ways of overcoming the same while developing product at sample stage.
- PC9.** Critical stages at production and care/precaution needed to overcome.
- PC10.** Discuss details of processes, skills, handtools, machines and equipments required for manufacturing.
- PC11.** Discuss dos and donts observed at all stages of manufacturing.
- PC12.** Discuss and update tna for materials and accessories availability.
- PC13.** Discuss tna with all stages and time for inspection and testing.

Output of Meeting

To be competent, the user/individual on the job must be able to:

- PC14.** Preparation of minutes of the meeting.
- PC15.** Handing over production file (as relevant in segments or complete) to all concerned along with minutes.

Qualification Pack

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Procedure followed to get the final output in paper mache manufacturing unit.
- KU2.** General rules and regulations in paper mache manufacturing setup.
- KU3.** Protocol to obtain more information on work related tasks.
- KU4.** Organization approved processes for preparing the design details.
- KU5.** Organization approved system of reporting.
- KU6.** Limits of your own responsibility and authority.
- KU7.** Knowledge of paper mache products and processes.
- KU8.** Pricing and costing procedures.
- KU9.** Knowledge of product quality and workplace practices.
- KU10.** Present information in appropriate formats and structured layout form.
- KU11.** Use of computer (MS office, data management and basic internet).
- KU12.** MS office (proficient using ms word, ms excel and ms powerpoint).

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Document records for all process steps of product manufacturing with targets and person responsible.
- GS2.** Write letters, memos, mails clearly and legibly.
- GS3.** Read and comprehend written instructions related to task progress and target achievement as per defined calendar.
- GS4.** Seek information from in-house team members to understand progress and take updates in a proper way.
- GS5.** Communicate with all relevant information in logical sequence.
- GS6.** Follow rule-based decision making process.
- GS7.** Make decision in suitable course of actions.
- GS8.** Plan and organize tasks to achieve targets and meet deadline.
- GS9.** Plan processes and encourage exchange of ideas/inputs.
- GS10.** Manage relationships with customers.
- GS11.** Build customer relationships and use customer centric approach.
- GS12.** Clarification on the design to be developed with the team members.
- GS13.** Assess /evaluate design processes.
- GS14.** Communicate effectively within the workplace.
- GS15.** Analyze the market trends and set targets.
- GS16.** Define in advance production and shipment plan.
- GS17.** Provide opinions on work in a detailed and constructive way.
- GS18.** Clarify and check task related information.

HCS/N4605: Coordinating with in-house Manufacturing and Managing Shipment

Description

This unit provides Performance Criteria, Knowledge & Understanding, Skills & Abilities required to ensure manufacturing processes as well as shipment are executed as per defined steps and calendar markings agreed during pre-production meeting.

Scope

The scope covers the following :

- coordinating with manufacturing and managing shipment

Elements and Performance Criteria

Coordinating with Manufacturing and Managing shipment

To be competent, the user/individual on the job must be able to:

- PC1.** Check order progress whether it is running on time or need any supports.
- PC2.** Coordinate with buyer if any clarification is required, that is if any issue raised during production is not well identified internally.
- PC3.** Ensure inspections of products are carried out in time.
- PC4.** Coordinate and cooperate finishing and packing department to ensure products are treated and packaged as per buyers specified requirements.
- PC5.** Coordinate and cooperate with dispatch to prepare packing reports correctly in time with all details required.
- PC6.** Coordinate and coordinate logistics/dispatch in preparation of shipping documents in time.
- PC7.** Coordinate and cooperate logistics to ensure shipping is done in time with information of packing reports for preparation of shipping documents.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** General rules and regulations in paper mache manufacturing setup.
- KU2.** Protocol to obtain more information on work related tasks.
- KU3.** Organization approved system of reporting.
- KU4.** Limits of your own responsibility and authority.
- KU5.** Ways and methodology of resolving problems within the work area.
- KU6.** Approved channel of effective communication within organization.
- KU7.** Knowledge of intellectual property rights.
- KU8.** Knowledge of product quality and workplace practices.
- KU9.** Process sequence in paper mache manufacturing setup.

Qualification Pack

KU10. Use of computer (MS office, data management and basic internet).

KU11. MS office (proficient using MS word, MS excel and MS powerpoint).

KU12. Preparation of shipping documents.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Document records for communication and progress related to manufacturing processes and despatch.
- GS2.** Write letters, memos, mails clearly and legibly.
- GS3.** Read and comprehend written instructions related to process progress and target achievement as per defined calendar.
- GS4.** Seek information from in-house team members to understand progress and take updates in a proper way.
- GS5.** Communicate with all relevant information in logical sequence.
- GS6.** Follow rule-based decision making process.
- GS7.** Make decision in suitable course of actions.
- GS8.** Take decision where, when and how to intervene into the process not to miss the target.
- GS9.** Plan and organize tasks to achieve targets and meet deadline.
- GS10.** Plan processes and encourage exchange of ideas/inputs.
- GS11.** Manage relationships with customers who may be in need of supports to maintain satisfactory level of performance with priority in sight.
- GS12.** Build with customer a relationship of trust and cooperation in achieving team goal.
- GS13.** Clarification on tna to be developed with the team members.
- GS14.** Assess /evaluate process progress and identify bottlenecks.
- GS15.** Resolve issue with correct and rightful intervention in with win-win solution.
- GS16.** Analyze the market trends and set targets for the season.
- GS17.** Define analytical sheet to record and monitor production and shipment.
- GS18.** Critically review the progress against the plan.
- GS19.** Provide opinions on work in a detailed and constructive way.
- GS20.** Clarify and check task related information.

HCS/N9906: Maintaining work area, tools and machines

Description

This unit provides performance criteria, knowledge, understanding, skills and abilities required to organize/maintain work areas and activities to ensure the maintenance of tools and machines as per norms.

Elements and Performance Criteria

Maintain the work area, tools and machines

To be competent, the user/individual on the job must be able to:

- PC1.** handle materials, tools and equipment with care and use them in correct way
- PC2.** Use correct and handling procedures
- PC3.** Maintain clean and hazard free working area
- PC4.** Carry out running maintenance within agreed schedules
- PC5.** Carry out maintenance and/or cleaning within ones responsibility
- PC6.** Report unsafe equipment and other dangerous occurrences
- PC7.** Use clean equipment and methods appropriate for the work to be carried out
- PC8.** Dispose of waste safely in the designated location
- PC9.** Store equipment safely after use

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Personal hygiene and duty of care
- KU2.** Safe working practices and organizational procedures
- KU3.** Ways of resolving conflicts/problems within the work area
- KU4.** The design process and the specific work activities that relate to the process
- KU5.** Organizations rules, codes and guidelines
- KU6.** The companys quality standards
- KU7.** Importance of complying with written instructions
- KU8.** Work instructions and ability to interpret them accurately
- KU9.** Relation between work role and the overall manufacturing process
- KU10.** Hazards likely to be encountered when carrying out the maintenance process
- KU11.** Maintenance procedures
- KU12.** Importance of running maintenance and regular cleaning
- KU13.** Safe working practices for maintenance
- KU14.** The importance of taking action when problems are identified
- KU15.** Effects of contamination on products
- KU16.** Common faults with equipment and the method to rectify

Qualification Pack

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Prepare status and progress reports
- GS2.** Write memos and e-mail to co-workers, and vendors to provide them with work updates and to request appropriate information without English language errors in grammar or sentence construct
- GS3.** Keep abreast with the latest knowledge by reading brochures, pamphlets, and product information sheets
- GS4.** Discuss task lists, schedules, and work-loads with co-workers
- GS5.** Keep coworker and supervisor informed about progress
- GS6.** Make decisions pertaining to the concerned area of work
- GS7.** Plan and manage work routine based on company procedure
- GS8.** Plan and organize service feedback files/documents
- GS9.** Manage relationships with customers
- GS10.** Build customer relationships and use customer centric approach
- GS11.** Think through a problem, evaluate the possible solution(s) and suggest an optimum /best possible solution(s)
- GS12.** Identify immediate or temporary solutions to resolve delays
- GS13.** Use the existing data to arrive at specific data points

HCS/N9913: Maintain health, safety and security at workplace

Description

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required to comply with health, safety and security requirements at the workplace and covers procedures to prevent, control and minimise risk to self and others.

Elements and Performance Criteria

Comply with health, safety and security requirements at work

To be competent, the user/individual on the job must be able to:

- PC1.** Comply with health and safety related instructions applicable to the workplace.
- PC2.** Use and maintain personal protective equipment as per protocol.
- PC3.** Carry out own activities in line with approved guidelines and procedures.
- PC4.** Maintain a healthy lifestyle and guard against dependency on intoxicants.
- PC5.** Follow environment management system related procedures.
- PC6.** Store materials and tools in line with manufacturers and organisational requirements.
- PC7.** Safely handle and move waste and debris.
- PC8.** Minimize health and safety risks to self and others due to own actions.
- PC9.** Seek clarifications, from supervisors or other authorized personnel in case of perceived risks.
- PC10.** Monitor the workplace and work processes for potential risks and threats.
- PC11.** Carry out periodic walk-through to keep work area free from hazards and obstructions, if assigned.
- PC12.** Report hazards and potential risks/ threats to supervisors or other authorized personnel.
- PC13.** Participate in mock drills/ evacuation procedures organized at the workplace.
- PC14.** Undertake first aid, fire-fighting and emergency response training, if asked to do so.
- PC15.** Take action based on instructions in the event of fire, emergencies or accidents.
- PC16.** Follow organisation procedures for evacuation when required.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Health and safety related practices applicable at the workplace.
- KU2.** Potential hazards, risks and threats based on nature of operations.
- KU3.** Organizational procedures for safe handling of tools.
- KU4.** Potential risks due to own actions and methods to minimize these.
- KU5.** Environmental management system related procedures at the workplace.
- KU6.** Layout of the plant and details of emergency exits, escape routes, emergency equipment and assembly points.
- KU7.** Potential accidents and emergencies and response to these scenarios.

Qualification Pack

- KU8.** Reporting protocol and documentation required.
- KU9.** Details of personnel trained in first aid, fire-fighting and emergency response.
- KU10.** Actions to take in the event of a mock drills/ evacuation procedures or actual accident, emergency or fire.
- KU11.** Occupational health and safety risks and methods.
- KU12.** Personal protective equipment and method of use.
- KU13.** Identification, handling and storage of hazardous substances.
- KU14.** Proper disposal system for waste and by-products.
- KU15.** Signage related to health and safety and their meaning.
- KU16.** Importance of sound health, hygiene and good habits.
- KU17.** Ill-effects of alcohol, tobacco and drugs.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Write in local language.
- GS2.** Read measurement instructions.
- GS3.** Communicate orally with colleagues.
- GS4.** Follow organization rule-based decision making process.
- GS5.** Take decision with systematic course of actions and/or response.
- GS6.** Plan and organize your work to achieve targets and deadlines.
- GS7.** Manage relationships with customers.
- GS8.** Build customer relationships and use customer centric approach.
- GS9.** Think through the problem, evaluate the possible solution(s) and suggest an optimum /best possible solution(s).
- GS10.** Identify immediate or temporary solutions to resolve delays.
- GS11.** Analyze data and activities.
- GS12.** Pass on relevant information to others.
- GS13.** Apply, analyze, and evaluate the information gathered from observation, experience, reasoning, or communication, as a guide to thought and action.

HCS/N9908: Working in a Team

Description

This unit is about working as part of a team in the process.

Elements and Performance Criteria

Commitment and trust

To be competent, the user/individual on the job must be able to:

- PC1.** Be accountable to ones own role in whole process.
- PC2.** Perform all roles with full responsibility.

Communication

To be competent, the user/individual on the job must be able to:

- PC3.** Report problems faced during the process.
- PC4.** Talk politely with other team members and colleagues.
- PC5.** Submit daily report of own performance.

Adaptability

To be competent, the user/individual on the job must be able to:

- PC6.** Adjust in different work situations.
- PC7.** Give due importance to others point of view.
- PC8.** Avoid conflicting situations.

Creative freedom

To be competent, the user/individual on the job must be able to:

- PC9.** Develop new ideas for work procedures
- PC10.** Improve upon the existing techniques to increase process efficiency

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** General rules and regulations in the sector.
- KU2.** Procedure followed to get the final output.
- KU3.** Safe working practices to be adopted.
- KU4.** Reporting to the supervisor or higher authority about any grievances faced.
- KU5.** Understanding the importance of the previous and next step of the process.
- KU6.** Process flow in the handicraft section.
- KU7.** Material sequence of flow.
- KU8.** Functions of different parts of product development.
- KU9.** Tools and equipments used.
- KU10.** Guidelines for operating the equipment.
- KU11.** Safety procedures to be followed as applicable.

DGT/VSQ/N0102: Employability Skills (60 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Career Development & Goal Setting
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

- PC1.** identify employability skills required for jobs in various industries
- PC2.** identify and explore learning and employability portals

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

- PC3.** recognize the significance of constitutional values, including civic rights and duties, citizenship, responsibility towards society etc. and personal values and ethics such as honesty, integrity, caring and respecting others, etc.
- PC4.** follow environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

- PC5.** recognize the significance of 21st Century Skills for employment
- PC6.** practice the 21st Century Skills such as Self-Awareness, Behaviour Skills, time management, critical and adaptive thinking, problem-solving, creative thinking, social and cultural awareness, emotional awareness, learning to learn for continuous learning etc. in personal and professional life

Basic English Skills

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC7.** use basic English for everyday conversation in different contexts, in person and over the telephone
- PC8.** read and understand routine information, notes, instructions, mails, letters etc. written in English
- PC9.** write short messages, notes, letters, e-mails etc. in English

Career Development & Goal Setting

To be competent, the user/individual on the job must be able to:

- PC10.** understand the difference between job and career
- PC11.** prepare a career development plan with short- and long-term goals, based on aptitude

Communication Skills

To be competent, the user/individual on the job must be able to:

- PC12.** follow verbal and non-verbal communication etiquette and active listening techniques in various settings
- PC13.** work collaboratively with others in a team

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

- PC14.** communicate and behave appropriately with all genders and PwD
- PC15.** escalate any issues related to sexual harassment at workplace according to POSH Act

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

- PC16.** select financial institutions, products and services as per requirement
- PC17.** carry out offline and online financial transactions, safely and securely
- PC18.** identify common components of salary and compute income, expenses, taxes, investments etc
- PC19.** identify relevant rights and laws and use legal aids to fight against legal exploitation

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

- PC20.** operate digital devices and carry out basic internet operations securely and safely
- PC21.** use e- mail and social media platforms and virtual collaboration tools to work effectively
- PC22.** use basic features of word processor, spreadsheets, and presentations

Entrepreneurship

To be competent, the user/individual on the job must be able to:

- PC23.** identify different types of Entrepreneurship and Enterprises and assess opportunities for potential business through research
- PC24.** develop a business plan and a work model, considering the 4Ps of Marketing Product, Price, Place and Promotion
- PC25.** identify sources of funding, anticipate, and mitigate any financial/ legal hurdles for the potential business opportunity

Customer Service

To be competent, the user/individual on the job must be able to:

- PC26.** identify different types of customers
- PC27.** identify and respond to customer requests and needs in a professional manner.

Qualification Pack

PC28. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC29. create a professional Curriculum vitae (Résumé)

PC30. search for suitable jobs using reliable offline and online sources such as Employment exchange, recruitment agencies, newspapers etc. and job portals, respectively

PC31. apply to identified job openings using offline /online methods as per requirement

PC32. answer questions politely, with clarity and confidence, during recruitment and selection

PC33. identify apprenticeship opportunities and register for it as per guidelines and requirements

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills and different learning and employability related portals

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use English language for effective verbal (face to face and telephonic) and written communication in formal and informal set up

KU6. importance of career development and setting long- and short-term goals

KU7. about effective communication

KU8. POSH Act

KU9. Gender sensitivity and inclusivity

KU10. different types of financial institutes, products, and services

KU11. how to compute income and expenditure

KU12. importance of maintaining safety and security in offline and online financial transactions

KU13. different legal rights and laws

KU14. different types of digital devices and the procedure to operate them safely and securely

KU15. how to create and operate an e- mail account and use applications such as word processors, spreadsheets etc.

KU16. how to identify business opportunities

KU17. types and needs of customers

KU18. how to apply for a job and prepare for an interview

KU19. apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. read and write different types of documents/instructions/correspondence

GS2. communicate effectively using appropriate language in formal and informal settings

Qualification Pack

- GS3.** behave politely and appropriately with all
- GS4.** how to work in a virtual mode
- GS5.** perform calculations efficiently
- GS6.** solve problems effectively
- GS7.** pay attention to details
- GS8.** manage time efficiently
- GS9.** maintain hygiene and sanitization to avoid infection

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score the Recommended Pass % aggregate for the QP.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Qualification Pack

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
