HCS/Q5205: Assistant Designer & Shade Writer (Carpets)

Brief Job Description

The designer shade writer is a job role in weaving department. The responsibility of shade writer is to write comprehensive information on to the design map which is indispensable for interpreting design and communicating with the weaver. It includes information regarding colour, count, material and other relevant information about threads to be used for knotting and tufting of carpet body as well as border. It also communicates about tuft density and knots/inch² etc. The designer & sketcher is a job role in designing department. The responsibility of designer is to create or reproduce design on suitable graph papers as per repeat and carpet size and quality.

Personal Attributes

The designer & shade writer should be keen, vigilant, good eyesight, patient and investigative. He should be free from defects of colour vision. Agile, cooperative, available and responsive to needs of people seeking technical/professional assistance.

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [HCS/N5201: Creation of design](#)
2. [HCS/N5204: Instructions for Manufacturing of carpets as per Design and Shade](#)
3. [HCS/N9906: Maintain Work Area, Tools and Machines](#)
4. [HCS/N9901: Coordinate with colleagues and work as a team](#)
5. [HCS/N9913: Maintain health, safety and security at workplace](#)
6. [HCS/N9909: Comply with industry and organizational requirement](#)
7. [DGT/VSQ/N0102: Employability Skills \(60 Hours\)](#)

HCS/N5201: Creation of design

Description

This unit is about inventory of supervisory skills, knowledge, tools and techniques needed for creating design.

Scope

The scope covers the following :

- Carry out research on designs trends relevant to product class .
- Analysis of trend .
- Analysis of customer motifs .
- Creating new and similar design based on inputs and motifs .
- Design creation with use of Auto CAD is beyond the scope of this QP

Elements and Performance Criteria

Creating design from inputs and imagination

To be competent, the user/individual on the job must be able to:

- PC1.** market research for design trends from various sources of information.
- PC2.** identify basic trends based on past review and analysis.
- PC3.** analysis of design motifs received from buyer.
- PC4.** creation of design inspired out of motifs.
- PC5.** identify design repeat for knotted carpet.
- PC6.** transfer motif to design spread over carpet of defined size.
- PC7.** identify suitable graph for design making.
- PC8.** transfer design from graph to tracing paper with clarity and precision.
- PC9.** translate inputs as per company procedure for adoption and adaptability.
- PC10.** quality elements applicable to designs.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** organization policies, procedures, guidelines.
- KU2.** product type, class and materials.
- KU3.** statutory and regulatory standards applicable to product and/or processes involved.
- KU4.** buyers defined and intended requirements.
- KU5.** recognize need and responding positively to cultural differences with change of behaviours.
- KU6.** work methodically with attention to details without damaging product.
- KU7.** adhere to organization policy of managing sensitive information related to design.

Qualification Pack

- KU8.** understanding the importance of: a. types of fibres. b. types of threads. c. carpet design. d. knot types. e. types of design defects. f. number of knots per square inch (tapka/inch²). g. tuft density. h. design repeat. i. carpet dimension. j. general aesthetic parameters appearance, cleanliness, feel, etc.
- KU9.** process flow in handmade carpet manufacturing sector.
- KU10.** aptitude and flair for art and designs.
- KU11.** measurement tools, equipment and techniques.
- KU12.** knowledge of carpet types and its salient characteristics.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** prepare status and progress reports.
- GS2.** write memos and e-mail to customers, co-workers, and vendors to provide them with work updates and to request appropriate information without english language errors regarding grammar or sentence construct.
- GS3.** keep abreast with the latest knowledge by reading brochures, pamphlets, and product information sheets.
- GS4.** discuss task lists, schedules, and work-loads with co-workers.
- GS5.** keep co-workers and supervisors informed about progress.
- GS6.** follow organization rule-based decision making process.
- GS7.** take decision with systematic coarse of actions and/or response.
- GS8.** plan and organize service feedback files/documents.
- GS9.** manage relationships with customers.
- GS10.** build customer relationships and use customer centric approach.
- GS11.** seek and comprehend design related inputs for clarification.
- GS12.** assess/evaluate design processes.
- GS13.** communicate effectively with aids of soft skill tools and techniques.
- GS14.** use the existing data to arrive at specific data points.
- GS15.** apply domain information about product, processes and technical specifications.
- GS16.** apply, analyze, and evaluate the information gathered from observation, experience, reasoning, or communication, as a guide to thought and action.
- GS17.** critically evaluate design inputs in relation to product intended.
- GS18.** develop holistic and comprehensive profile of products based on segregated discrete information available.

HCS/N5204: Instructions for Manufacturing of carpets as per Design and Shade

Description

This unit is about inventory of supervisory skills, knowledge, tools and techniques needed for effective communication through instructions for execution of the task of achieving production of carpets matching for design as per colours indicated on design map.

Scope

The scope covers the following :

- supervising shade design
- reporting and recording of production results

Elements and Performance Criteria

Supervising shade design

To be competent, the user/individual on the job must be able to:

- PC1.** understand buyers defined and implied requirements for design quality and product colour conformity.
- PC2.** collect all information needed for identification of threads for knotting and tufting e.g. material types, count, ply, shade number, design reference number etc.
- PC3.** read and interpret design map.
- PC4.** identify coded information on to design map that need illustration through instructions.
- PC5.** define colour by assigning suitable code/identification along with colour and instruction on to design map.
- PC6.** ensure threads available is matching with the lot and shade indicated on design map.
- PC7.** supervise by patrolling and random checking to ensure correct threads as per design are used for knotting and tufting.
- PC8.** check knots/inch² and tuft density as per design indicated.
- PC9.** process flow of weaving department with stages and significance of monitoring needs for productivity and design conformity to quality.

Reporting and Recording of Production Results

To be competent, the user/individual on the job must be able to:

- PC10.** record information related to planning, production and quality as per design.
- PC11.** record information related to performance report recorded as per organizational recording system and/or suitably presentable layout.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** general rules and regulations in a carpet industry.

Qualification Pack

- KU2.** correct working practices for inspection and checking adopted.
- KU3.** color coding, marking, labeling etc are followed to ensure product matches buyers specified requirements for quality.
- KU4.** identify quality and production targets and the effect of not meeting these on self and/or your team.
- KU5.** understanding the importance of: a. types of fibres. b. types of threads. c. carpet design. d. knot types. e. types of design defects. f. number of knots per square inch (tapka/inch²). g. tuft density. h. design repeat. i. carpet dimension. j. general aesthetic parameters appearance, cleanliness, feel, etc.
- KU6.** process flow in handmade carpet manufacturing sector.
- KU7.** importance of marking/coding/labelling/numbering etc followed at various process stages of knotting and tufting for identification and traceability.
- KU8.** importance of cleanliness at workplace.
- KU9.** explain difference between correctable and non-correctable design faults.
- KU10.** acceptable solutions for specific faults identified/detected.
- KU11.** method to make use of the information detailed in specifications and work instructions.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** write instruction clearly and legibly.
- GS2.** read and comprehend written instructions.
- GS3.** communicate with supervisor appropriately.
- GS4.** talk to others to convey information effectively.
- GS5.** make decisions pertaining to the concerned area of work.
- GS6.** plan and organize service feedback files/documents.
- GS7.** manage relationships with customers.
- GS8.** build customer relationships and use customer centric approach.
- GS9.** think through the problem, evaluate the possible solution(s) and suggest an optimum /best possible solution(s).
- GS10.** identify immediate or temporary solutions to resolve delays.
- GS11.** apply problem-solving approaches in different situations.
- GS12.** seek clarification on problems from others.
- GS13.** use the existing data to arrive at specific data points.
- GS14.** apply good attention to detail.
- GS15.** check work is complete and free from errors.
- GS16.** apply, analyze, and evaluate the information gathered from observation, experience, reasoning, or communication, as a guide to thought and action.

HCS/N9906: Maintain Work Area, Tools and Machines

Description

This unit provides performance criteria, knowledge & understanding and skills & abilities required to organize/maintain work areas and activities to ensure tools and machines are maintained as per norms

Scope

The scope covers the following :

- proper maintaining of work area and activities
- maintenance of work related hand tools and equipment
- regular maintenance of tools and equipment.
- maintaining the work area clean and hazard free.
- material conservation practices

Elements and Performance Criteria

Maintain the work area, tools and machines

To be competent, the user/individual on the job must be able to:

- PC1.** handle materials, tools and equipment with care and use them in correct way
- PC2.** use correct and handling procedures
- PC3.** maintain clean and hazard free working area
- PC4.** carry out running maintenance within agreed schedules
- PC5.** carry out maintenance and/or cleaning within ones responsibility
- PC6.** report unsafe equipment and other dangerous occurrences
- PC7.** use clean equipment and methods appropriate for the work to be carried out
- PC8.** dispose of waste safely in the designated location
- PC9.** store equipment safely after use

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** personal hygiene and duty of care
- KU2.** safe working practices and organizational procedures
- KU3.** ways of resolving conflicts/problems within the work area
- KU4.** the design process and the specific work activities that relate to the process
- KU5.** organizations rules, codes and guidelines
- KU6.** the company's quality standards
- KU7.** importance of complying with written instructions
- KU8.** work instructions and ability to interpret them accurately
- KU9.** relation between work role and the overall manufacturing process

Qualification Pack

- KU10.** hazards likely to be encountered when carrying out the maintenance process
- KU11.** maintenance procedures
- KU12.** importance of running maintenance and regular cleaning
- KU13.** safe working practices for maintenance
- KU14.** the importance of taking action when problems are identified
- KU15.** effects of contamination on products
- KU16.** common faults with equipment and the method to rectify

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** prepare status and progress reports
- GS2.**
 - write memos and e-mail to co-workers, and vendors to provide them with work updates and
 - to request appropriate information without English language errors in grammar or sentence
 - construct

HCS/N9901: Coordinate with colleagues and work as a team

Description

This NOS describes the communication and coordination skills and knowledge to work with colleagues and supervisor to achieve a smooth and hazard-free workflow.

Scope

The scope covers the following :

- interact with supervisor or superior
- work as a team by coordinating with colleagues within and outside the department and include inputs on PwD & Gender Sensitisation
- report and Document

Elements and Performance Criteria

Interact with supervisor or superior

To be competent, the user/individual on the job must be able to:

- PC1.** comply with health, safety gender, and PwD (People with disability) related instructions applicable to the workplace
- PC2.** actively participate in mock drills/ evacuation procedures; group discussions, training sensitization programs for gender, and PwD awareness organized at the workplace.
- PC3.** receive job orders and instructions from reporting supervisor and receive feedback on work standards.
- PC4.** understand the work output requirements, targets, performance indicators and incentives.
- PC5.** deliver quality work on time and report any anticipated reasons for delays and handover completed work to supervisor
- PC6.** report on any grievances, production defects and any potential hazards.

Work as a team by coordinating with colleagues within and outside the department and include inputs on PwD & Gender Sensitisation

To be competent, the user/individual on the job must be able to:

- PC7.** communicate maintenance and repair schedule proactively to the supervisor
- PC8.** interact and clarify doubts on design, usage of materials & tools, quality & standards compliance, etc.

Report and Document

To be competent, the user/individual on the job must be able to:

- PC9.** report in time for shortage or need of raw materials
- PC10.** communicate with colleagues from within and other departments, clearly and effectively on all aspects to carry out the work among the team
- PC11.** maintain the etiquette, use polite language, demonstrate responsible and disciplined behavior towards colleagues.
- PC12.** put team over individual goals and multi-task or share work where necessary supporting the colleagues.

Qualification Pack

PC13. document all the details accurately relating to ones role as required.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** knowledge about the importance of gender equality being followed in the organization and policies for reporting any harassment or inappropriate behavior
- KU2.** knowledge about how to accommodate employees with disabilities etiquette to adhere to and proper language and terminology
- KU3.** knowledge about how to communicate, offer help, respecting space, parking etc. for people with disabilities or special needs
- KU4.** knowledge about promoting a safe, accessible and healthy workplace for disabled employees
- KU5.** company's policies on preferred language of communication, incentives, quality standards, personnel management, reporting and escalation matrix policy.
- KU6.** company's standard operating procedure (sop) and the risk and impact of not following them.
- KU7.** procedures for working with colleagues, his/her role and responsibilities in relation to this
- KU8.** organizational hierarchy and the line of reporting structure and work target and review mechanism
- KU9.** procedures to report employment related issues and to deal with conflicts
- KU10.** importance of the individuals role in the organizational workflow and details of the individual responsibilities
- KU11.** tools and equipment handling procedure and common potential hazards in the work place and the procedures to deal with them
- KU12.** effective communication with various categories of people and the different departments in the organization
- KU13.** to document the job activity as required like the check sheets, history sheets, etc
- KU14.** expressing and addressing grievances appropriately, deal with difficult work relationships and manage the internal conflicts effectively

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** create a positive and inclusive workplace atmosphere without any kind of bias/discrimination towards any employee
- GS2.** actively take part in any discussion/workshop organized for gender sensitization training
- GS3.** read and comprehend written instructions related to gender equality issues in the organization
- GS4.** identify and report any harassment or inappropriate behavior towards any employee
- GS5.** create a positive and inclusive workplace atmosphere without any kind of bias/discrimination towards any employee with disability or special needs
- GS6.** actively take part in any discussion/workshop organized for disability sensitization training.

Qualification Pack

- GS7.** read and comprehend written instructions related to equality issues in the organization related to disabled persons
- GS8.** read job sheets, design sheet and information displayed at the workplace
- GS9.** read and understand manuals, health and safety instructions, memos etc
- GS10.** fill up documentation to ones role
- GS11.** communicate effectively with supervisor
- GS12.** contribute to quality of team work and achieve smooth workflow
- GS13.** improve work processes by interacting with others and adopting best practices

HCS/N9913: Maintain health, safety and security at workplace

Description

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required to comply with health, safety and security requirements at the workplace and covers procedures to prevent, control and minimise risk to self and others.

Elements and Performance Criteria

Comply with health, safety and security requirements at work

To be competent, the user/individual on the job must be able to:

- PC1.** Comply with health and safety related instructions applicable to the workplace.
- PC2.** Use and maintain personal protective equipment as per protocol.
- PC3.** Carry out own activities in line with approved guidelines and procedures.
- PC4.** Maintain a healthy lifestyle and guard against dependency on intoxicants.
- PC5.** Follow environment management system related procedures.
- PC6.** Store materials and tools in line with manufacturers and organisational requirements.
- PC7.** Safely handle and move waste and debris.
- PC8.** Minimize health and safety risks to self and others due to own actions.
- PC9.** Seek clarifications, from supervisors or other authorized personnel in case of perceived risks.
- PC10.** Monitor the workplace and work processes for potential risks and threats.
- PC11.** Carry out periodic walk-through to keep work area free from hazards and obstructions, if assigned.
- PC12.** Report hazards and potential risks/ threats to supervisors or other authorized personnel.
- PC13.** Participate in mock drills/ evacuation procedures organized at the workplace.
- PC14.** Undertake first aid, fire-fighting and emergency response training, if asked to do so.
- PC15.** Take action based on instructions in the event of fire, emergencies or accidents.
- PC16.** Follow organisation procedures for evacuation when required.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Health and safety related practices applicable at the workplace.
- KU2.** Potential hazards, risks and threats based on nature of operations.
- KU3.** Organizational procedures for safe handling of tools.
- KU4.** Potential risks due to own actions and methods to minimize these.
- KU5.** Environmental management system related procedures at the workplace.
- KU6.** Layout of the plant and details of emergency exits, escape routes, emergency equipment and assembly points.
- KU7.** Potential accidents and emergencies and response to these scenarios.

Qualification Pack

- KU8.** Reporting protocol and documentation required.
- KU9.** Details of personnel trained in first aid, fire-fighting and emergency response.
- KU10.** Actions to take in the event of a mock drills/ evacuation procedures or actual accident, emergency or fire.
- KU11.** Occupational health and safety risks and methods.
- KU12.** Personal protective equipment and method of use.
- KU13.** Identification, handling and storage of hazardous substances.
- KU14.** Proper disposal system for waste and by-products.
- KU15.** Signage related to health and safety and their meaning.
- KU16.** Importance of sound health, hygiene and good habits.
- KU17.** Ill-effects of alcohol, tobacco and drugs.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Write in local language.
- GS2.** Read measurement instructions.
- GS3.** Communicate orally with colleagues.
- GS4.** Follow organization rule-based decision making process.
- GS5.** Take decision with systematic course of actions and/or response.
- GS6.** Plan and organize your work to achieve targets and deadlines.
- GS7.** Manage relationships with customers.
- GS8.** Build customer relationships and use customer centric approach.
- GS9.** Think through the problem, evaluate the possible solution(s) and suggest an optimum /best possible solution(s).
- GS10.** Identify immediate or temporary solutions to resolve delays.
- GS11.** Analyze data and activities.
- GS12.** Pass on relevant information to others.
- GS13.** Apply, analyze, and evaluate the information gathered from observation, experience, reasoning, or communication, as a guide to thought and action.

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each PC
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC
3. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below)
4. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/training center based on this criteria
5. To pass the Qualification Pack , every trainee should score a minimum of 70% in every NOS
6. In case of successfully passing only certain number of NOS's, the trainee is eligible to take subsequent assessment on the balance NOS's to pass the Qualification Pack

Minimum Aggregate Passing % at QP Level : 70

Qualification Pack

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
