HCS/Q5703: Kota Doria Artisan

Brief Job Description

A Kota Doria artisan specialises in crafting lightweight, translucent fabrics woven with cotton and silk yarns, known for their distinctive square-check pattern and delicate texture. These skilled artisans often work on traditional pit looms, preserving a centuries-old weaving heritage.

Personal Attributes

Kota Doria artisans are known for their patience, precision, and deep-rooted dedication to traditional craftsmanship. They possess a keen eye for detail, strong hand-weaving skills, and a commitment to preserving cultural heritage through their meticulous work.

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [HCS/N5720: Understand the heritage and characteristics of Kota Doria Weaving](#)
2. [HCS/N5721: Identify and handle tools, equipment and raw materials](#)
3. [HCS/N5722: Prepare and set up the Loom for Kota Doria Weaving](#)
4. [HCS/N5723: Carry out Handloom weaving operations for Kota Doria Fabric](#)
5. [HCS/N5724: Perform Quality Checks, Fabric Finishing, and Packaging for Kota Doria Products](#)
6. [HCS/N5725: Sustainability and Waste Management for Kota Doria Weaving Artisan](#)
7. [HCS/N8531: Entrepreneurship skill for Kota Doria Artisan](#)
8. [HCS/N9929: Working in a team](#)
9. [DGT/VSQ/N0101: Employability Skills \(30 Hours\)](#)

Qualification Pack

HCS/N5720: Understand the heritage and characteristics of Kota Doria Weaving

Description

This unit covers the heritage, evolution, and geographical roots of Kota Doria weaving, highlighting its signature checkered design, traditional craftsmanship, and cultural significance in Rajasthan. It also explores artisan techniques, fabric characteristics, and the adaptation of this lightweight textile in contemporary fashion and sustainable practices.

Scope

The scope covers the following :

- Historical and Geographical Context of Kota Doria
- Identify the Key Characteristics of Kota Doria Fabric
- Recognise the Role of Artisans in Kota Doria Weaving
- Understand the Significance of Kota Doria in Modern Fashion and Culture
- Design Conceptualisation and Translation

Elements and Performance Criteria

Historical and Geographical Context of Kota Doria

To be competent, the user/individual on the job must be able to:

- PC1.** Describe the historical origins by identifying roots in Kota, Rajasthan, and outlining the evolution of the weaving tradition over time.
- PC2.** Explain the cultural importance by highlighting its royal associations and its continued role in traditional regional attire.
- PC3.** Identify the Hadoti region Kota, Bundi, and Baran as the primary production area, linking geographical setting to craft development.
- PC4.** Explain how the migration of weaving communities and support from royal households contributed to the refinement and preservation of the techniques.
- PC5.** Explore how local climate, geography, and customs influenced patterns, texture, and overall weaving style.

Identify the Key Characteristics of Kota Doria Fabric

To be competent, the user/individual on the job must be able to:

- PC6.** Define the term “Doria” and identify the hallmark of the fabric, the small square checks woven into it, commonly known as “Kota khat” or “Kota Doria checks.”
- PC7.** Outline the traditional use of cotton yarns and explain how contemporary variations blend silk and synthetics to enhance strength and sheen.
- PC8.** Describe the integration of Zari (gold or silver thread) into both heritage and modern versions, contributing to the fabric’s decorative elegance.
- PC9.** Explain the fabric’s lightweight and sheer nature, created by the use of fine yarns and an open weave, making it ideal for hot and humid climates.

Qualification Pack

- PC10.** Recognise the adaptability of the fabric in producing sarees, dupattas, and scarves, and describe how design methods like block printing and tie-and-dye complement its texture.

Recognise the Role of Artisans in Kota Doria Weaving

To be competent, the user/individual on the job must be able to:

- PC11.** Describe the integral role of skilled artisans, or karigars, in the creation process, highlighting their expertise in producing the signature weave.
- PC12.** Understand the traditional techniques employed on handlooms, including shuttle weaving, and how such methods are preserved through generational practice.
- PC13.** Recognise hand-weaving as a sustainable, labour-intensive process that reflects the cultural richness of rural Rajasthan.
- PC14.** Appreciate the craftsmanship and precision required to produce intricate design and patterns unique to this heritage fabric.
- PC15.** Acknowledge the collective effort of local weaving communities in safeguarding the identity and continuity of this craft tradition.

Understand the Significance of Kota Doria in Modern Fashion and Culture

To be competent, the user/individual on the job must be able to:

- PC16.** Examine the fabric's continued relevance in modern fashion by identifying its use in garments such as sarees, kurtas, and dupattas, and outline its evolution from traditional to contemporary styles.
- PC17.** Explore the cultural and commercial value of Kota Doria by assessing its market presence in India and abroad, and explain how the GI mark supports authenticity and protects the craft from imitation.
- PC18.** Recognise the craft's contribution to the local economy by outlining how handloom weaving sustains livelihoods and drives income for artisan communities in the Hadoti region.
- PC19.** Discuss the growing demand for variations such as embroidered, printed, and embellished designs, and explain how these innovations help promote traditional skills in evolving markets.
- PC20.** Appreciate the integration of handwoven fabric into both high fashion and everyday clothing, and describe its role in sustainability and preserving craft heritage through conscious consumer trends.

Design Conceptualisation and Translation

To be competent, the user/individual on the job must be able to:

- PC21.** Translate customer designs onto graph paper, ensuring accuracy for weaving.
- PC22.** Prepare the loom according to design specifications, including warp yarn selection.
- PC23.** Select appropriate colours, considering traditional and contemporary preferences.
- PC24.** Incorporate Zari threads into the weave to enhance the fabric's richness.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Basic awareness of the historical roots of Kota Doria in Kota, Rajasthan.
- KU2.** Understanding that weaving traditions evolved over time due to royal patronage and community migration.

Qualification Pack

- KU3.** Knowledge of Hadoti region, including Kota, Bundi, and Baran, is the core production hub.
- KU4.** Knowing that climate and geography influence weaving patterns and textures
- KU5.** Understanding that "Doria" refers to a lightweight fabric marked by square checks called "Kota khat."
- KU6.** Awareness of the integration of Zari (gold/silver thread) to enhance visual richness.
- KU7.** Knowing that cotton was traditionally used, while silk and synthetic blends are now added for sheen.
- KU8.** Understanding that Kota Doria fabric is ideal for warm and humid weather because its lightweight and loosely woven structure allows air to pass through easily, keeping the wearer cool and comfortable.
- KU9.** Understanding that traditional handloom techniques such as shuttle weaving are passed down generations.
- KU10.** Knowing that block printing and tie-and-dye are often applied to Kota Doria for additional design.
- KU11.** Awareness of the artisan's craftsmanship and their essential role in the weaving process.
- KU12.** Understanding that hand-weaving is sustainable and contributes to local livelihood.
- KU13.** Knowledge of good design begins with accurately mapping it on graph paper before weaving.
- KU14.** Knowing that warp yarns and loom setup are essential for translating designs onto fabric.
- KU15.** Understanding that careful colour selection affects the final appearance of the fabric.
- KU16.** Understanding that the GI mark protects traditional Kota Doria and maintains authenticity.
- KU17.** Awareness of the market demand for modern adaptations such as embroidery and prints.
- KU18.** Understanding that Kota Doria is now featured in both traditional and contemporary garments.
- KU19.** Knowing that artisan communities contribute collectively to preserving this cultural heritage.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Read and understand local language materials explaining health, safety, and traditional processes in weaving.
- GS2.** Read safety instructions related to handling fine yarns, weaving tools, and Zari threads with support where needed.
- GS3.** Interpret labels and charts for yarn types, dye chemicals, and permissible exposure levels.
- GS4.** Write simple messages in the local language regarding storage instructions for delicate weaving materials.
- GS5.** Write and record names and quantities of raw materials like yarns, threads, dyes, and adhesives.
- GS6.** Communicate safety-related instructions clearly to co-workers in the local language during loom setup.
- GS7.** Use polite and appropriate titles when speaking to senior weavers or supervisors.
- GS8.** Listen actively when artisans or instructors explain weaving methods or safety practices.

Qualification Pack

- GS9.** Guide others on safe handling and storage of gold/silver threads, adhesives, and synthetic dyes.
- GS10.** Report delays or material shortages timely to maintain schedule and uphold quality.
- GS11.** Plan tasks like warping, dyeing, and weaving in correct sequence within given timeframes.
- GS12.** Participate in team discussions to resolve issues related to fabric quality or design faults.
- GS13.** Seek clarification when unclear about new design instructions or modern adaptations.
- GS14.** Collaborate with team members to ensure accurate execution of complex patterns.

HCS/N5721: Identify and handle tools, equipment and raw materials

Description

This unit equips learners with the knowledge and skills to identify, handle, and maintain traditional and modern handloom weaving tools and raw materials. It covers safe handling practices, pre-loom operations, material assessment, equipment upkeep, and workplace safety to ensure smooth and efficient weaving processes.

Scope

The scope covers the following :

- Identify and Maintain Weaving Tools and Equipment
- Safe Operation and Storage of Handloom Equipment
- Identify and Assess Raw Materials
- Handle and Prepare Raw Material for Weaving
- Ensure Workplace Safety and Preventive Maintenance

Elements and Performance Criteria

Identify and Maintain Weaving Tools and Equipment

To be competent, the user/individual on the job must be able to:

- PC1.** Identify traditional and modern tools used in handloom weaving, including pit looms, reeds, heddles, shuttles, beaters, and measuring implements.
- PC2.** Distinguish between types of looms and their components, recognising their role in achieving specific weave patterns.
- PC3.** Inspect all tools for signs of wear or damage before use, ensuring functionality and safety.
- PC4.** Maintain tools in good working condition through regular cleaning and lubrication of moving parts.
- PC5.** Record and report any faulty tools or malfunctioning equipment to ensure timely repair or replacement.

Safe Operation and Storage of Handloom Equipment

To be competent, the user/individual on the job must be able to:

- PC6.** Demonstrate safe handling of handloom components and sharp tools, such as scissors and cutting blades, during weaving processes.
- PC7.** Follow standard procedures for assembling and dismantling weaving tools, avoiding damage or misalignment.
- PC8.** Use personal protective equipment (PPE) such as gloves or eyewear when handling tools that pose physical risk.
- PC9.** Maintain a clean and hazard-free workspace, including clear pathways and safe storage of equipment.
- PC10.** Store tools in designated areas after use to prevent loss, rusting, or accidental injury.

Identify and Assess Raw Materials

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC11.** Identify cotton, silk, and zari yarns commonly used in Kota Doria weaving, including their variations in count and ply.
- PC12.** Evaluate yarn properties such as strength, twist, and fineness based on fabric requirements and end-use.
- PC13.** Inspect yarns for uniform dye absorption, smoothness, and absence of defects before processing.
- PC14.** Differentiate between warp and weft yarns and describe their respective roles in forming the structure of the fabric.
- PC15.** Check that yarns are stored in dry, pest-free conditions to maintain quality and usability.

Handle and Prepare Raw Material for Weaving

To be competent, the user/individual on the job must be able to:

- PC16.** Perform essential pre-loom operations such as winding, warping, and sizing, using appropriate tools like winding machines and warping drums.
- PC17.** Handle yarns gently to avoid breakage, tangling, or unnecessary wastage during preparation.
- PC18.** Track the usage of yarns through inventory records to maintain supply levels and avoid material shortage.
- PC19.** Dispose of damaged or leftover yarns responsibly, following environmentally safe methods.
- PC20.** Follow safety guidelines while operating pre-loom equipment to prevent mechanical injury or yarn entanglement.

Ensure Workplace Safety and Preventive Maintenance

To be competent, the user/individual on the job must be able to:

- PC21.** Maintain an organised and clutter-free working area, ensuring safety and efficiency during weaving tasks.
- PC22.** Identify hazards such as trailing wires, poor lighting, or uneven surfaces, and take corrective measures promptly.
- PC23.** Understand and follow basic emergency procedures, including fire safety and first aid protocols.
- PC24.** Clean handlooms regularly to remove dust, lint, and yarn waste, and ensure moving parts are lubricated to prevent wear.
- PC25.** Keep maintenance logs for looms and tools, documenting cleaning schedules and repairs to ensure consistent performance.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Knowledge of traditional and modern weaving tools such as pit looms, reeds, heddles, shuttles, and beaters.
- KU2.** Understanding the role of each loom component in achieving different weave patterns.
- KU3.** Awareness of the need to inspect tools and equipment for wear or damage before use.
- KU4.** Understanding the importance of regular maintenance, cleaning, and lubrication of weaving tools.
- KU5.** Knowledge of how to report faulty or malfunctioning tools for timely repair or replacement.

Qualification Pack

- KU6.** Awareness of safe handling procedures for sharp tools and loom accessories during operation.
- KU7.** Understanding the correct techniques for assembling and dismantling weaving tools without causing damage.
- KU8.** Awareness of the importance of using personal protective equipment (PPE) when required.
- KU9.** Understanding the need for a clean, clutter-free, and hazard-free working environment.
- KU10.** Awareness of proper storage practices for tools to prevent rusting, loss, or accidental injury.
- KU11.** Knowledge of raw materials used in Kota Doria weaving, including cotton, silk, and zari yarns.
- KU12.** Understanding how to assess yarn quality in terms of twist, strength, fineness, and fabric suitability.
- KU13.** Awareness of the need to inspect yarns for defects such as uneven dyeing or breakage.
- KU14.** Understanding the difference between warp and weft yarns and their respective roles in fabric structure.
- KU15.** Knowledge of ideal storage conditions to maintain yarn quality, such as dry and pest-free areas.
- KU16.** Understanding pre-loom processes like winding, warping, and sizing, and the tools used in each.
- KU17.** Awareness of the importance of handling yarn gently to prevent tangling, breakage, or waste.
- KU18.** Knowledge of how to maintain yarn inventory through tracking and record-keeping.
- KU19.** Awareness of eco-friendly disposal methods for waste or damaged yarns.
- KU20.** Understanding the need for routine cleaning and preventive maintenance of looms for efficient performance.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Identify and name the primary tools and equipment used in handloom weaving.
- GS2.** Follow safety guidelines while working with cutting blades, scissors, and sharp tools.
- GS3.** Perform basic tool maintenance tasks such as cleaning and oiling.
- GS4.** Report equipment faults or issues clearly to supervisors or maintenance personnel.
- GS5.** Keep the workspace neat and tools well-organised to enhance productivity.
- GS6.** Use personal protective equipment (PPE) correctly when handling potentially hazardous tools.
- GS7.** Maintain a clean, hazard-free environment while working.
- GS8.** Differentiate types of yarn based on texture, thickness, and appearance.
- GS9.** Inspect yarns for defects or inconsistencies before beginning the weaving process.
- GS10.** Handle yarn carefully to minimise breakage or loss during preparation.
- GS11.** Label tools, yarns, and other materials clearly for ease of identification.
- GS12.** Assist with setting up and dismantling weaving equipment properly.
- GS13.** Maintain basic inventory records to monitor yarn usage and prevent shortages.

Qualification Pack

- GS14.** Apply proper weaving posture and hand movements to maintain comfort and accuracy.
- GS15.** Use simple measuring tools to check yarn length or fabric width.
- GS16.** Communicate effectively with team members to coordinate shared tool use or workstations.
- GS17.** Dispose of yarn waste responsibly in line with safety and environmental guidelines.
- GS18.** Stay alert to potential safety hazards such as trailing cords or sharp tools.
- GS19.** Follow emergency procedures such as fire drills or basic first aid when needed.
- GS20.** Carry out regular loom cleaning and maintenance activities as part of daily routines.

HCS/N5722: Prepare and set up the Loom for Kota Doria Weaving

Description

This unit covers the comprehensive process of preparing and setting up the loom for Kota Doria weaving. It includes inspecting and maintaining loom components, preparing warp and weft mechanisms, interpreting design layouts, ensuring ergonomic and safety conditions, and conducting trial weaving to achieve high-quality fabric production while enabling creative design adaptations.

Scope

The scope covers the following :

- Inspect and Maintain Loom Components
- Prepare the Warp and Beam the Loom
- Set Up the Weft Insertion and Shuttle Mechanism
- Configure Loom Settings and Conduct Trial Weaving
- Interpret Design Instructions and Weaving Layout
- Ensure Safety and Ergonomic Conditions
- Calibrate and Adjust Tension and Settings
- Adaptation and Innovation in Kota Doria Design

Elements and Performance Criteria

Inspect and Maintain Loom Components

To be competent, the user/individual on the job must be able to:

- PC1.** Examine the loom thoroughly for signs of wear, misalignment, or damage prior to use, ensuring safe and efficient operation.
- PC2.** Clean key components -reed, heddles, shafts, beams and removing accumulated dust, lint, and old yarn residues.
- PC3.** Use soft brushes or cloth to eliminate debris that may hinder weaving quality or machine movement.
- PC4.** Apply appropriate lubrication to moving parts as per maintenance protocol to ensure smooth mechanical function.
- PC5.** Report any issues beyond routine upkeep, such as broken gears or loosened joints to the supervisor for prompt action.

Prepare the Warp and Beam the Loom

To be competent, the user/individual on the job must be able to:

- PC6.** Mount the warp beam securely onto the loom frame, ensuring it is properly aligned for balanced rotation.
- PC7.** Draw warp threads accurately through lease rods, heddles, and the reed according to the threading plan.
- PC8.** Maintain even spacing and uniform tension across the warp to avoid weaving defects.
- PC9.** Securely tie warp ends to the cloth beam using standard knotting techniques suitable for Kota Doria weaving.

Qualification Pack

PC10. Adjust the brake and tensioning devices to maintain consistent warp tension during production.

Set Up the Weft Insertion and Shuttle Mechanism

To be competent, the user/individual on the job must be able to:

PC11. Select shuttles appropriate to the type and thickness of the weft yarn in use.

PC12. Wind weft yarn onto bobbins or pirns using manual or mechanical winding tools with care to prevent tangling.

PC13. Insert the bobbin into the shuttle and test its smooth movement through the shed.

PC14. Confirm that the shuttle race and picker mechanism function without obstruction or misfire.

PC15. Make necessary adjustments to shuttle boxes or picker arms to ensure uniform weft placement and alignment.

Configure Loom Settings and Conduct Trial Weaving

To be competent, the user/individual on the job must be able to:

PC16. Set pick density and beat frequency as per the design sheet or technical specifications.

PC17. Verify shedding sequence is accurate to produce the intended Kota khat (check pattern) or other design.

PC18. Perform a trial weave, checking fabric alignment, tension balance, and motif clarity.

PC19. Detect and correct issues such as skipped picks, broken yarns, or uneven selvages.

PC20. Record initial settings, tension adjustments, and layout for continuity during full-scale weaving.

Interpret Design Instructions and Weaving Layout

To be competent, the user/individual on the job must be able to:

PC21. Read and interpret pattern sheets or graph paper instructions to understand the required layout.

PC22. Identify the yarn types, colours, and weave structures to be used as per the motif specifications.

PC23. Prepare and punch dobby or jacquard cards, if applicable, ensuring accuracy in design translation.

PC24. Plan shaft lifting order for plain, bordered, or patterned Kota Doria weaving.

PC25. Verify the warp and weft thread count and colour arrangement as per design references.

Ensure Safety and Ergonomic Conditions

To be competent, the user/individual on the job must be able to:

PC26. Arrange seating and pedal height to support an ergonomic posture during prolonged operation.

PC27. Ensure the work area is well-lit and adequately ventilated for comfort and visibility.

PC28. Keep all tools, yarns, and accessories properly arranged to prevent entanglements or tripping risks.

PC29. Use protective guards on moving parts of the loom, such as gears or pulleys, where applicable.

PC30. Follow standard health and safety practices while assembling, operating, or servicing the loom.

Calibrate and Adjust Tension and Settings

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC31.** Monitor warp tension throughout setup and adjust gradually to achieve uniform tautness across the width.
- PC32.** Align heddles and reeds precisely to avoid thread abrasion or incorrect shedding.
- PC33.** Set the cloth beam take-up mechanism to maintain regular fabric advancement during weaving.
- PC34.** Position temple pins or stretchers accurately to avoid width distortion or fabric puckering.
- PC35.** Inspect the shed formation to ensure it opens evenly and without obstruction across the entire warp.

Adaptation and Innovation in Kota Doria Design

To be competent, the user/individual on the job must be able to:

- PC36.** Adapt traditional Kota Doria designs creatively to suit a variety of products, including sarees, suits, stoles, and home décor items, ensuring versatility in application.
- PC37.** Utilise design software effectively to produce accurate and detailed digital representations of weaving patterns and motifs.
- PC38.** Experiment with innovative colour palettes and combinations, as well as blending materials, to enhance product appeal without compromising the authentic character of Kota Doria.
- PC39.** Maintain comprehensive and organised records of all design iterations, ensuring easy retrieval for future production and reference.
- PC40.** Present design proposals clearly to clients or stakeholders, actively incorporating their feedback to refine and finalise designs.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Awareness of the structure and components of traditional handlooms used in Kota Doria weaving.
- KU2.** Understanding that cleaning loom parts like reeds, heddles, and beams improves fabric quality
- KU3.** Knowledge of using appropriate brushes or cloths to clean loom components safely.
- KU4.** Understanding the importance of lubricating moving parts to ensure smooth functioning of the loom.
- KU5.** Understanding how to mount and align the warp beam correctly on the loom.
- KU6.** Awareness of threading techniques used in Kota Doria weaving through lease rods, heddles, and reed.
- KU7.** Understanding that even warp tension is essential for defect-free weaving.
- KU8.** Knowledge of tying warp threads to the cloth beam using standard knotting methods.
- KU9.** Awareness of adjusting brakes and tension devices to regulate tension during production.
- KU10.** Understanding how to choose and prepare shuttles and bobbins suitable for the weft yarn.
- KU11.** Awareness that the shuttle mechanism must function smoothly for consistent weft insertion.
- KU12.** Understanding the importance of pick density and beat frequency in defining fabric texture.
- KU13.** Knowledge of how to identify and correct weaving issues such as broken yarns or skipped picks.
- KU14.** Awareness of how to read and interpret pattern layouts and design instructions.

Qualification Pack

- KU15.** Understanding that jacquard or dobby cards may be required for intricate designs.
- KU16.** Knowledge of safety measures including use of guards on moving loom parts.
- KU17.** Awareness that correct ergonomic seating and posture support long weaving sessions.
- KU18.** Understanding how to align heddles, reeds, and temple pins to avoid fabric distortion.
- KU19.** Awareness of how to creatively adapt traditional Kota Doria motifs for different products using modern tools.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Identify and name loom parts and their specific functions.
- GS2.** Follow a threading plan accurately while setting up the warp.
- GS3.** Use soft brushes or cloths to maintain loom cleanliness.
- GS4.** Apply oil or grease to moving parts following maintenance instructions.
- GS5.** Record and communicate problems with tools or loom components to supervisors.
- GS6.** Use bobbin winders or winding tools without tangling yarn.
- GS7.** Position and secure warp and weft yarns using safe handling techniques.
- GS8.** Adjust brake tension and beat frequency based on fabric requirement.
- GS9.** Observe and detect weaving issues such as skipped threads or uneven edges.
- GS10.** Interpret and follow design charts or graph paper instructions precisely.
- GS11.** Label yarn types, colours, and design references for future use.
- GS12.** Work systematically while threading or assembling the loom to prevent errors.
- GS13.** Keep all tools and yarns organised to reduce clutter and avoid tripping hazards.
- GS14.** Maintain a calm and ergonomic posture during prolonged weaving tasks.
- GS15.** Follow safety guidelines while operating or adjusting the loom.
- GS16.** Adjust heddles and temple pins for consistent fabric width.
- GS17.** Record trial settings and tension adjustments for continuity in production.
- GS18.** Prepare and present weaving design proposals using visual aids or digital formats.
- GS19.** Apply customer feedback to improve weaving design or structure.
- GS20.** Experiment with innovative colour combinations and blends in weaving while maintaining Kota Doria's traditional identity.

Qualification Pack

Assessment Criteria

Assessment Criteria for Outcomes	Theory Marks	Practical Marks	Project Marks	Viva Marks
<i>Inspect and Maintain Loom Components</i>	5	5	-	-
PC1. Examine the loom thoroughly for signs of wear, misalignment, or damage prior to use, ensuring safe and efficient operation.	1	1	-	-
PC2. Clean key components -reed, heddles, shafts, beams and removing accumulated dust, lint, and old yarn residues.	1	1	-	-
PC3. Use soft brushes or cloth to eliminate debris that may hinder weaving quality or machine movement.	1	1	-	-
PC4. Apply appropriate lubrication to moving parts as per maintenance protocol to ensure smooth mechanical function.	1	1	-	-
PC5. Report any issues beyond routine upkeep, such as broken gears or loosened joints to the supervisor for prompt action.	1	1	-	-
<i>Prepare the Warp and Beam the Loom</i>	5	5	-	-
PC6. Mount the warp beam securely onto the loom frame, ensuring it is properly aligned for balanced rotation.	1	1	-	-
PC7. Draw warp threads accurately through lease rods, heddles, and the reed according to the threading plan.	1	1	-	-
PC8. Maintain even spacing and uniform tension across the warp to avoid weaving defects.	1	1	-	-
PC9. Securely tie warp ends to the cloth beam using standard knotting techniques suitable for Kota Doria weaving.	1	1	-	-
PC10. Adjust the brake and tensioning devices to maintain consistent warp tension during production.	1	1	-	-
<i>Set Up the Weft Insertion and Shuttle Mechanism</i>	5	5	-	-

Qualification Pack

Assessment Criteria for Outcomes	Theory Marks	Practical Marks	Project Marks	Viva Marks
PC11. Select shuttles appropriate to the type and thickness of the weft yarn in use.	1	1	-	-
PC12. Wind weft yarn onto bobbins or pirns using manual or mechanical winding tools with care to prevent tangling.	1	1	-	-
PC13. Insert the bobbin into the shuttle and test its smooth movement through the shed.	1	1	-	-
PC14. Confirm that the shuttle race and picker mechanism function without obstruction or misfire.	1	1	-	-
PC15. Make necessary adjustments to shuttle boxes or picker arms to ensure uniform weft placement and alignment.	1	1	-	-
<i>Configure Loom Settings and Conduct Trial Weaving</i>	5	10	-	-
PC16. Set pick density and beat frequency as per the design sheet or technical specifications.	1	2	-	-
PC17. Verify shedding sequence is accurate to produce the intended Kota khat (check pattern) or other design.	1	2	-	-
PC18. Perform a trial weave, checking fabric alignment, tension balance, and motif clarity.	1	2	-	-
PC19. Detect and correct issues such as skipped picks, broken yarns, or uneven selvages.	1	2	-	-
PC20. Record initial settings, tension adjustments, and layout for continuity during full-scale weaving.	1	2	-	-
<i>Interpret Design Instructions and Weaving Layout</i>	5	10	-	-
PC21. Read and interpret pattern sheets or graph paper instructions to understand the required layout.	1	2	-	-
PC22. Identify the yarn types, colours, and weave structures to be used as per the motif specifications.	1	2	-	-
PC23. Prepare and punch dobby or jacquard cards, if applicable, ensuring accuracy in design translation.	1	2	-	-

Qualification Pack

Assessment Criteria for Outcomes	Theory Marks	Practical Marks	Project Marks	Viva Marks
PC24. Plan shaft lifting order for plain, bordered, or patterned Kota Doria weaving.	1	2	-	-
PC25. Verify the warp and weft thread count and colour arrangement as per design references.	1	2	-	-
<i>Ensure Safety and Ergonomic Conditions</i>	5	10	-	-
PC26. Arrange seating and pedal height to support an ergonomic posture during prolonged operation.	1	2	-	-
PC27. Ensure the work area is well-lit and adequately ventilated for comfort and visibility.	1	2	-	-

HCS/N5723: Carry out Handloom weaving operations for Kota Doria Fabric

Description

This unit involves setting up and operating the handloom to produce Kota Doria fabric as per design specifications. It includes preparing the loom, executing weaving operations, incorporating design elements, monitoring fabric quality, and completing post-weaving tasks. The role requires precision, consistency, and adherence to safety and quality standards.

Scope

The scope covers the following :

- Prepare Loom and Materials for Weaving
- Execute Core Weaving Operations
- Integrate Design and Adapt Techniques
- Monitor Weaving Quality and Rectify Errors
- Complete and Record Post-Weaving Activities

Elements and Performance Criteria

Prepare Loom and Materials for Weaving

To be competent, the user/individual on the job must be able to:

- PC1.** Set up the loom by aligning warp threads, heddles, and reed in accordance with the design chart or layout sheet.
- PC2.** Adjust warp tension and fabric width to ensure even distribution and accurate design reproduction.
- PC3.** Load weft yarns and Zari threads as per pattern requirements, using correct bobbins or pirns.
- PC4.** Confirm the availability of accessories such as temples, lease rods, beaters, and hooks.
- PC5.** Inspect the loom area for cleanliness and safety, ensuring a well-organised and hazard-free work zone.

Execute Core Weaving Operations

To be competent, the user/individual on the job must be able to:

- PC6.** Operate the handloom pit or frame using coordinated hand and foot movements to create the fabric base.
- PC7.** Maintain consistent shed formation and insert weft yarn smoothly using the shuttle.
- PC8.** Beat the weft evenly to maintain clarity of the check pattern, ensuring density and alignment.
- PC9.** Incorporate Zari threads or extra wefts in designated areas to match design details.
- PC10.** Maintain steady rhythm and weaving speed to support fabric uniformity and structural strength.

Integrate Design and Adapt Techniques

To be competent, the user/individual on the job must be able to:

- PC11.** Follow graph paper or pattern sheet accurately to weave checks, borders, and pallus.

Qualification Pack

- PC12.** Adjust weaving technique as required by design complexity or yarn type, ensuring design integrity.
- PC13.** Integrate supplementary wefts and ornamentation in accordance with customer specifications.
- PC14.** Ensure smooth transition between different design sections without disrupting fabric tension.

Monitor Weaving Quality and Rectify Errors

To be competent, the user/individual on the job must be able to:

- PC15.** Inspect woven fabric continuously for issues such as floats, broken ends, and irregular selvages.
- PC16.** Address minor faults promptly during weaving to avoid wastage and maintain quality.
- PC17.** Ensure correct alignment, colour consistency, and design clarity throughout the length of fabric.
- PC18.** Monitor warp and weft tension regularly to prevent distortions or pattern misplacement.
- PC19.** Notify the supervisor in case of repeated errors, major faults, or structural inconsistencies.

Complete and Record Post-Weaving Activities

To be competent, the user/individual on the job must be able to:

- PC20.** Detach the woven fabric carefully from the loom to avoid tearing or tension marks.
- PC21.** Measure the finished fabric's dimensions and compare with design specifications.
- PC22.** Perform basic post-weaving tasks such as trimming loose threads, folding, or brushing.
- PC23.** Record details of batch production including time taken, yarns used, and output length.
- PC24.** Store completed fabric safely in a clean, dry area to prevent contamination or creasing.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Knowledge of the layout and functional parts of a handloom used in Kota Doria weaving.
- KU2.** Understanding how to align warp threads, heddles, and the reed according to design charts.
- KU3.** Awareness of the importance of maintaining correct warp tension for uniform fabric width.
- KU4.** Knowledge of different weft yarns and Zari threads used in Kota Doria patterns.
- KU5.** Awareness of tools and accessories required for weaving such as temples, lease rods, and beaters.
- KU6.** Understanding the importance of maintaining a clean and safe loom workspace.
- KU7.** Knowledge of operating pit and frame looms using coordinated hand and foot action.
- KU8.** Understanding of shed formation and how it influences fabric structure.
- KU9.** Awareness of how to beat the weft evenly to retain design clarity, especially in checks.
- KU10.** Knowledge of incorporating Zari or supplementary wefts as per design specifics.
- KU11.** Understanding the need for rhythm and control in weaving to ensure fabric strength.
- KU12.** Knowledge of how to read and interpret pattern sheets for accurate design creation.
- KU13.** Awareness of how different yarns or complexity in designs may require technique adjustments.
- KU14.** Understanding of lifting sequences and weft colour changes for intricate design detailing.

Qualification Pack

- KU15.** Awareness of the significance of consistent tension between design sections.
- KU16.** Knowledge of common fabric faults like floats, broken ends, or uneven selvages.
- KU17.** Understanding corrective measures for minor faults during the weaving process.
- KU18.** Awareness of how colour and design consistency must be maintained along the fabric length.
- KU19.** Knowledge of safe detachment techniques to avoid damaging finished fabric.
- KU20.** Understanding how to document post-weaving details like output, materials used, and time taken.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Accurately follow design charts or pattern sheets while threading or weaving.
- GS2.** Use hand and foot coordination effectively while operating pit or frame looms.
- GS3.** Inspect the loom and materials prior to use and take corrective steps where necessary.
- GS4.** Set and adjust tension on warp and weft to prevent weaving errors.
- GS5.** Load bobbins or pirns with care, avoiding tangles or wastage.
- GS6.** Maintain a clean and hazard-free work environment.
- GS7.** Observe woven fabric closely to identify irregularities or defects early.
- GS8.** Handle supplementary wefts or Zari with precision to match design intent.
- GS9.** Keep a steady rhythm and pace during weaving for consistent output.
- GS10.** Adapt weaving technique when dealing with complex design or yarns.
- GS11.** Apply problem-solving skills to correct minor errors during weaving.
- GS12.** Record batch details in an organised manner for tracking and quality control.
- GS13.** Measure finished fabric and ensure it aligns with design requirements.
- GS14.** Trim and prepare woven fabric neatly for storage or dispatch.
- GS15.** Work collaboratively when needed and communicate any faults or concerns to the supervisor.
- GS16.** Manage time efficiently while completing weaving and post-weaving activities.
- GS17.** Prioritise safety and ergonomics while working for long durations on the loom.
- GS18.** Store materials and tools in an orderly fashion to prevent loss or mix-ups.
- GS19.** Take responsibility for the care of the loom and accessories used.
- GS20.** Maintain patience and concentration throughout the weaving process for quality assurance.

Qualification Pack

HCS/N5724: Perform Quality Checks, Fabric Finishing, and Packaging for Kota Doria Products

Description

This unit covers inspecting woven Kota Doria fabric for defects, evaluating its quality and finish, performing necessary finishing processes, and packaging it properly. It ensures that the final product meets quality, design, and customer standards.

Scope

The scope covers the following :

- Inspect Woven Fabric for Defects and Compliance
- Assess Fabric Texture, Strength and Finish
- Carry Out Fabric Finishing Procedures
- Conduct Final Quality Inspection and Approvals
- Package and Label Finished Kota Doria Products

Elements and Performance Criteria

Inspect Woven Fabric for Defects and Compliance

To be competent, the user/individual on the job must be able to:

- PC1.** Conduct a detailed visual examination to detect faults such as missed picks, broken threads, or uneven weave tension.
- PC2.** Check colour consistency across the fabric surface, identifying signs of fading, bleeding, or patchiness.
- PC3.** Inspect selvedge edges to ensure uniformity and confirm the absence of fraying or curling.
- PC4.** Measure length and width of fabric to verify compliance with order or design specifications.
- PC5.** Record identified defects and classify them by type and severity for correction or rework.

Assess Fabric Texture, Strength and Finish

To be competent, the user/individual on the job must be able to:

- PC6.** Evaluate the texture of the fabric (hand feel) to ensure softness, smoothness, and aesthetic finish meet required standards.
- PC7.** Perform manual strength checks by gently stretching samples to identify weak spots or loose threads.
- PC8.** Ensure that the fabric surface remains even and free of rough areas or fibre build-up.
- PC9.** Identify sections of the fabric that lack structural strength and note them for necessary rework.
- PC10.** Document assessment findings and communicate them to the production or finishing team for follow-up.

Carry Out Fabric Finishing Procedures

To be competent, the user/individual on the job must be able to:

- PC11.** Apply suitable finishing methods such as pressing, calendaring, or steaming to improve texture and appearance.

Qualification Pack

- PC12.** Remove loose fibres, lint, or surface dust using gentle brushing or vacuuming techniques.
- PC13.** Soften or size fabric as per customer specifications or product requirement.
- PC14.** Inspect the fabric after finishing to ensure desired results in sheen, touch, and uniformity are achieved.
- PC15.** Record finishing process details including technique, materials used, and observations.

Conduct Final Quality Inspection and Approvals

To be competent, the user/individual on the job must be able to:

- PC16.** Carry out a final inspection to confirm that dimensions, design, texture, and quality meet order specifications.
- PC17.** Verify that all earlier defects have been corrected and no new faults have emerged post-finishing.
- PC18.** Confirm that the fabric's strength and integrity match quality benchmarks for intended use.
- PC19.** Approve the fabric for packaging or dispatch only after full compliance with standards.
- PC20.** Maintain proper documentation of the final quality check, including batch codes, findings, and approval signature.

Package and Label Finished Kota Doria Products

To be competent, the user/individual on the job must be able to:

- PC21.** Select appropriate packaging materials such as paper, plastic wrap, or cartons based on type and volume of fabric.
- PC22.** Fold or roll the fabric with care to avoid creases, pressure marks, or design distortion.
- PC23.** Affix accurate labels with information including product name, batch number, length, and inspection status.
- PC24.** Store packaged items in a clean, dry environment free from pests, dust, or moisture.
- PC25.** Record all packaging data in the logbook or digital format, including product count, storage location, and date.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Awareness of common fabric defects such as missed picks, broken threads, and uneven weave tension.
- KU2.** Understanding the importance of colour consistency and how to check for fading or bleeding.
- KU3.** Knowledge of how to inspect selvedge edges for fraying, curling, or irregularities.
- KU4.** Awareness of the need to verify fabric dimensions as per design or customer requirements.
- KU5.** Understanding how to classify defects based on severity and type for rework or correction.
- KU6.** Awareness of how fabric texture (hand feel) contributes to overall quality and appeal.
- KU7.** Understanding the need for manual strength testing to check structural durability.
- KU8.** Knowledge that fabric surfaces must be even and free from roughness or fibre build-up.
- KU9.** Awareness of identifying and marking weak or defective fabric sections for reprocessing.
- KU10.** Understanding the role of documentation in communicating assessment results.
- KU11.** Knowledge of different finishing methods like pressing, calendaring, and steaming.
- KU12.** Awareness of techniques for removing lint or dust from fabric using brushes or vacuums.

Qualification Pack

- KU13.** Understanding customer-specific finishing requirements such as softening or sizing.
- KU14.** Awareness of how to evaluate fabric after finishing for sheen, smoothness, and uniformity.
- KU15.** Knowledge of maintaining records on finishing processes and materials used.
- KU16.** Understanding how to conduct a final quality inspection before product approval.
- KU17.** Awareness of verifying the resolution of earlier defects and checking for new ones post-finishing.
- KU18.** Knowledge that fabric strength must meet intended use and quality benchmarks.
- KU19.** Understanding that only defect-free, standard-compliant fabric should be packaged or dispatched.
- KU20.** Awareness of proper documentation practices including batch coding and approval signatures.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Perform visual checks to identify fabric flaws quickly and accurately.
- GS2.** Measure fabric using basic tools to confirm length and width specifications.
- GS3.** Record defects and finishing observations clearly in logbooks or digital formats.
- GS4.** Maintain focus during repetitive inspection tasks to ensure consistency.
- GS5.** Use basic tools like brushes or steamers for effective finishing.
- GS6.** Communicate findings and rework needs to the production or finishing team.
- GS7.** Follow guidelines for fabric handling to avoid creases and damage.
- GS8.** Sort, fold, or roll fabric neatly for uniform packaging.
- GS9.** Label packaged items accurately with batch details and inspection status.
- GS10.** Organise packaging materials based on type, size, and product requirements.
- GS11.** Maintain cleanliness in packaging and storage areas to protect fabric quality.
- GS12.** Store finished products in a dry, pest-free environment.
- GS13.** Check final output against customer specifications and report discrepancies.
- GS14.** Show attention to detail while inspecting texture, colour, and weaving.
- GS15.** Collaborate with team members during finishing or rework activities.
- GS16.** Use time efficiently while completing post-production and inspection tasks.
- GS17.** Follow safety instructions while handling heated finishing equipment.
- GS18.** Keep batch records and packaging logs updated regularly and accurately.
- GS19.** Demonstrate care when using finishing tools to avoid fabric damage.
- GS20.** Show responsibility in approving only quality-assured fabric for dispatch.

HCS/N5725: Sustainability and Waste Management for Kota Doria Weaving Artisan

Description

This unit involves applying eco-friendly practices in Kota Doria weaving by conserving resources, reducing waste, and safely managing by-products. It promotes responsible use of materials and maintaining a clean, sustainable workspace.

Scope

The scope covers the following :

- Understand Sustainability Principles in Handloom Weaving
- Promote Sustainable Material Selection and Usage
- Implement Sustainable Weaving Techniques and Processes
- Segregation and safe disposal of weaving Waste
- Foster Social and Economic Sustainability
- Monitor, Evaluate, and Improve Sustainability Practices

Elements and Performance Criteria

Understand Sustainability Principles in Handloom Weaving

To be competent, the user/individual on the job must be able to:

- PC1.** Describe the concept of sustainability and its importance in preserving traditional weaving crafts.
- PC2.** Explain environmental, economic, and social aspects of sustainability specific to Kota Doria weaving.
- PC3.** Identify the impact of weaving practices on natural resources and local communities.

Promote Sustainable Material Selection and Usage

To be competent, the user/individual on the job must be able to:

- PC4.** Select eco-friendly raw materials such as organic cotton and natural dyes suitable for Kota Doria weaving.
- PC5.** Assess suppliers for sustainable sourcing practices and ethical labour conditions.
- PC6.** Minimise material waste during yarn preparation and weaving by careful planning and resource management.

Implement Sustainable Weaving Techniques and Processes

To be competent, the user/individual on the job must be able to:

- PC7.** Use energy-efficient handloom techniques that reduce reliance on electricity or harmful machinery.
- PC8.** Apply water-efficient methods for dyeing and finishing to reduce environmental impact.
- PC9.** Encourage reuse and recycling of leftover yarns and fabric scraps within the production cycle.

Segregation and safe disposal of weaving Waste

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC10.** Identify and categorise all types of weaving waste such as yarn ends, thread cuttings, fabric rejects, and packaging material.
- PC11.** Follow standard procedures for segregating waste into recyclable, non-recyclable, and hazardous categories.
- PC12.** Ensure proper labelling and storage of segregated waste in designated containers or bins.
- PC13.** Adhere to environmentally safe methods for disposing of non-recyclable waste in line with regulations.
- PC14.** Avoid mixing different types of waste to prevent contamination and facilitate easy recycling.

Foster Social and Economic Sustainability

To be competent, the user/individual on the job must be able to:

- PC15.** Support fair wages, safe working conditions, and skill development for weaving artisans.
- PC16.** Engage local communities in decision-making processes to preserve cultural heritage.
- PC17.** Promote market strategies that highlight the sustainable and ethical values of Kota Doria products.

Monitor, Evaluate, and Improve Sustainability Practices

To be competent, the user/individual on the job must be able to:

- PC18.** Establish procedures to regularly monitor environmental and social impacts of weaving operations.
- PC19.** Document and analyse sustainability performance data to identify areas for improvement.
- PC20.** Implement corrective actions and innovative practices to enhance sustainability outcomes continuously.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Awareness of the concept of sustainability and its role in protecting traditional weaving practices.
- KU2.** Understanding the environmental, economic, and social pillars of sustainability.
- KU3.** Knowledge of how weaving activities can affect natural resources like water, soil, and local biodiversity.
- KU4.** Awareness that sustainable material choices include organic cotton and natural dyes.
- KU5.** Knowledge of how to manage waste.
- KU6.** Understanding the importance of sourcing raw materials from ethical and environmentally conscious suppliers.
- KU7.** Awareness of ways to reduce raw material waste during yarn preparation and weaving.
- KU8.** Understanding that traditional handloom methods consume less energy and are more eco-friendly.
- KU9.** Knowledge of water-efficient dyeing and finishing processes.
- KU10.** Awareness of how leftover yarns and fabric scraps can be reused or repurposed.
- KU11.** Understanding that fair wages and safe working conditions support social sustainability.
- KU12.** Awareness of the value of artisan skill development and continuous learning.
- KU13.** Understanding that involving local communities helps preserve cultural identity.

Qualification Pack

- KU14.** Knowledge of sustainable marketing strategies that promote ethical and eco-friendly values.
- KU15.** Awareness of procedures to monitor environmental and social impact in weaving operations.
- KU16.** Understanding how sustainability data can be analysed to improve future practices.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Explain the importance of sustainability in day-to-day weaving practices.
- GS2.** Identify sustainable and non-sustainable materials by observing their source and impact.
- GS3.** Select raw materials that are both eco-friendly and suitable for Kota Doria weaving.
- GS4.** Practise resource planning to minimise waste in weaving processes.
- GS5.** Use handlooms efficiently to reduce energy consumption.
- GS6.** Adopt water-saving methods when washing, dyeing, or finishing fabrics.
- GS7.** Reuse extra yarns or cloth pieces in creative and useful ways.
- GS8.** Work cooperatively with fellow artisans to ensure a fair and safe work environment.
- GS9.** Share sustainable ideas or techniques with peers to encourage best practices.
- GS10.** Keep simple records of material usage and waste reduction.
- GS11.** Participate in discussions about community involvement and cultural preservation.
- GS12.** Support fair trade and ethical practices in marketing woven products.
- GS13.** Observe and report areas where weaving practices could be made more sustainable.
- GS14.** Take initiative to improve one's knowledge of eco-friendly tools and techniques.
- GS15.** Maintain a positive attitude towards learning and applying sustainable innovations.

HCS/N8531: Entrepreneurship skill for Kota Doria Artisan

Description

This unit equips Kota Doria artisan with entrepreneurship skill such as market research, product innovation, financial planning, branding, legal compliance, and sustainable business growth to enhance profitability and market reach.

Scope

The scope covers the following :

- Conduct Market Research and Foster Product Innovation
- Assess Opportunities and Identify Target Markets
- Design and Implement Marketing Strategies
- Manage Financials and Ensure Legal Compliance

Elements and Performance Criteria

Conduct Market Research and Foster Product Innovation

To be competent, the user/individual on the job must be able to:

- PC1.** Analyse current market trends and customer preferences to identify opportunities for innovative designs and product diversification.
- PC2.** Experiment with new materials, weaving techniques, and colour combinations to develop unique and contemporary Kota Doria products.
- PC3.** Incorporate sustainable practices and eco-friendly materials to attract environmentally aware consumers.
- PC4.** Monitor evolving fashion trends and consumer demands to maintain the relevance and appeal of products.
- PC5.** Gather and interpret customer feedback to inform ongoing product development and improvement.

Assess Opportunities and Identify Target Markets

To be competent, the user/individual on the job must be able to:

- PC6.** Formulate a comprehensive business plan including objectives, target markets, marketing strategies, and financial forecasts.
- PC7.** Schedule production timelines and manage inventory to ensure timely order fulfilment and efficient resource use.
- PC8.** Establish pricing strategies based on production costs, market demand, and desired profit margins.
- PC9.** Coordinate marketing and promotional activities, including establishing an online presence and participating in events.
- PC10.** Monitor business performance regularly and adjust plans to improve efficiency and profitability.

Design and Implement Marketing Strategies

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC11.** Use a blend of online and offline marketing channels, including social media, e-commerce, local fairs, and craft exhibitions.
- PC12.** Develop branding and messaging that highlight the heritage, quality, and distinctiveness of Kota Doria products.
- PC13.** Engage customers through feedback collection, personalised communication, and loyalty-building activities.
- PC14.** Adapt marketing approaches to suit diverse customer groups, cultural contexts, and regional preferences.
- PC15.** Analyse marketing campaign effectiveness and refine strategies to maximise reach and sales.

Manage Financials and Ensure Legal Compliance

To be competent, the user/individual on the job must be able to:

- PC16.** Maintain detailed and accurate records of income, expenditure, sales, and stock to support financial management.
- PC17.** Implement cost-efficient procurement and production practices to maximise profitability.
- PC18.** Prepare financial reports for internal review, funding applications, and tax compliance.
- PC19.** Obtain and maintain necessary business registrations, including GST and trade licences, to operate legally.
- PC20.** Understand and comply with intellectual property rights, taxation laws, product safety standards, and export regulations to uphold business integrity and expand markets responsibly.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Awareness of the importance of market research in identifying consumer trends and preferences.
- KU2.** Understanding that product innovation helps stay competitive and meet market demand.
- KU3.** Knowledge of experimenting with materials, techniques, and colours for unique designs.
- KU4.** Awareness that sustainable practices can attract eco-conscious customers.
- KU5.** Understanding how customer feedback supports product improvement.
- KU6.** Knowledge of planning production schedules for timely deliveries.
- KU7.** Understanding the role of inventory management in efficient resource use.
- KU8.** Awareness of pricing strategies based on cost, demand, and profit goals.
- KU9.** Understanding the significance of business plans with clear objectives and financial forecasts.
- KU10.** Awareness that branding helps communicate product quality and heritage.
- KU11.** Understanding the use of marketing channels like social media and exhibitions.
- KU12.** Knowledge of adapting marketing strategies for different customer segments.
- KU13.** Awareness that online presence can boost product visibility and sales.
- KU14.** Understanding how performance tracking helps improve business operations.
- KU15.** Knowledge of financial record-keeping for managing income and expenses.

Qualification Pack

- KU16.** Understanding cost-effective methods in procurement and production.
- KU17.** Awareness that financial reports aid in internal reviews and external funding.
- KU18.** Knowing the importance of legal registrations like GST and trade licences.
- KU19.** Understanding intellectual property rights to protect original designs.
- KU20.** Awareness of legal and export regulations for operating responsibly.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Analyse market trends and identify new business opportunities.
- GS2.** Gather and apply customer feedback to product development.
- GS3.** Experiment with new design ideas to create innovative Kota Doria products.
- GS4.** Present unique product features to attract customers.
- GS5.** Create basic business plans with goals, strategies, and financial targets.
- GS6.** Manage time effectively to meet production deadlines.
- GS7.** Maintain records of raw materials, stock, and finished goods.
- GS8.** Calculate fair prices that reflect cost and value.
- GS9.** Promote products using both online and offline platforms.
- GS10.** Develop engaging content for social media and e-commerce platforms.
- GS11.** Communicate clearly with customers and respond to queries.
- GS12.** Build customer loyalty through regular updates and personalised messages.
- GS13.** Monitor sales performance and adjust strategies as needed.
- GS14.** Keep track of daily income, expenses, and cash flow.
- GS15.** Prepare simple financial statements for reporting purposes.
- GS16.** Register the business and ensure all legal documents are in order.
- GS17.** Comply with tax and safety laws while operating the business.
- GS18.** Attend craft fairs and exhibitions to showcase products.
- GS19.** Collaborate with others to improve marketing reach and operations.
- GS20.** Learn continuously about business trends and legal updates.

HCS/N9929: Working in a team

Description

This NOS describes the communication and coordination skills and knowledge to work with colleagues and supervisor to achieve a smooth and hazard-free workflow.

Scope

The scope covers the following :

- interact with supervisor or superior
- work as a team by coordinating with colleagues within and outside the department and include
- inputs on PwD & Gender Sensitisation
- report and Document

Elements and Performance Criteria

Interact with supervisor or superior

To be competent, the user/individual on the job must be able to:

- PC1.** comply with health, safety gender, and PwD (People with disability) related instructions applicable to the workplace
- PC2.** actively participate in mock drills/ evacuation procedures; group discussions, training sensitization programs for gender, and PwD awareness organized at the workplace.
- PC3.** receive job orders and instructions from reporting supervisor and receive feedback on work standards.
- PC4.** understand the work output requirements, targets, performance indicators and incentives.
- PC5.** deliver quality work on time and report any anticipated reasons for delays and handover completed work to supervisor
- PC6.** report on any grievances, production defects and any potential hazards.

Work as a team by coordinating with colleagues within and outside the department and include inputs on PwD & Gender Sensitisation

To be competent, the user/individual on the job must be able to:

- PC7.** communicate maintenance and repair schedule proactively to the supervisor
- PC8.** interact and clarify doubts on design, usage of materials & tools, quality & standards compliance, etc.

Report and Document

To be competent, the user/individual on the job must be able to:

- PC9.** report in time for shortage or need of raw materials
- PC10.** communicate with colleagues from within and other departments, clearly and effectively on all aspects to carry out the work among the team
- PC11.** maintain the etiquette, use polite language, demonstrate responsible and disciplined behavior towards colleagues.
- PC12.** put team over individual goals and multi-task or share work where necessary supporting the colleagues.

Qualification Pack

PC13. document all the details accurately relating to ones role as required.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** knowledge about the importance of gender equality being followed in the organization and policies for reporting any harassment or inappropriate behavior
- KU2.** knowledge about how to accommodate employees with disabilities etiquette to adhere to and proper language and terminology
- KU3.** knowledge about how to communicate, offer help, respecting space, parking etc. for people with disabilities or special needs
- KU4.** knowledge about promoting a safe, accessible and healthy workplace for disabled employees
- KU5.** company's policies on preferred language of communication, incentives, quality standards, personnel management, reporting and escalation matrix policy.
- KU6.** company's standard operating procedure (sop) and the risk and impact of not following them.
- KU7.** procedures for working with colleagues, his/her role and responsibilities in relation to this
- KU8.** organizational hierarchy and the line of reporting structure and work target and review mechanism
- KU9.** procedures to report employment related issues and to deal with conflicts
- KU10.** importance of the individuals role in the organizational workflow and details of the individual responsibilities
- KU11.** tools and equipment handling procedure and common potential hazards in the work place and the procedures to deal with them
- KU12.** effective communication with various categories of people and the different departments in the organization
- KU13.** to document the job activity as required like the check sheets, history sheets, etc
- KU14.** expressing and addressing grievances appropriately, deal with difficult work relationships and manage the internal conflicts effectively

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** create a positive and inclusive workplace atmosphere without any kind of bias/discrimination towards any employee
- GS2.** actively take part in any discussion/workshop organized for gender sensitization training
- GS3.** read and comprehend written instructions related to gender equality issues in the organization
- GS4.** identify and report any harassment or inappropriate behavior towards any employee
- GS5.** create a positive and inclusive workplace atmosphere without any kind of bias/discrimination towards any employee with disability or special needs
- GS6.** actively take part in any discussion/workshop organized for disability sensitization training.

Qualification Pack

- GS7.** read and comprehend written instructions related to equality issues in the organization related to disabled persons
- GS8.** read job sheets, design sheet and information displayed at the workplace
- GS9.** read and understand manuals, health and safety instructions, memos etc
- GS10.** fill up documentation to ones role
- GS11.** communicate effectively with supervisor
- GS12.** contribute to quality of team work and achieve smooth workflow
- GS13.** improve work processes by interacting with others and adopting best practices

DGT/VSQ/N0101: Employability Skills (30 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

PC1. understand the significance of employability skills in meeting the job requirements

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

PC2. identify constitutional values, civic rights, duties, personal values and ethics and environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

PC3. explain 21st Century Skills such as Self-Awareness, Behavior Skills, Positive attitude, self-motivation, problem-solving, creative thinking, time management, social and cultural awareness, emotional awareness, continuous learning mindset etc.

Basic English Skills

To be competent, the user/individual on the job must be able to:

PC4. speak with others using some basic English phrases or sentences

Communication Skills

To be competent, the user/individual on the job must be able to:

PC5. follow good manners while communicating with others

PC6. work with others in a team

Qualification Pack

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

PC7. communicate and behave appropriately with all genders and PwD

PC8. report any issues related to sexual harassment

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

PC9. use various financial products and services safely and securely

PC10. calculate income, expenses, savings etc.

PC11. approach the concerned authorities for any exploitation as per legal rights and laws

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

PC12. operate digital devices and use its features and applications securely and safely

PC13. use internet and social media platforms securely and safely

Entrepreneurship

To be competent, the user/individual on the job must be able to:

PC14. identify and assess opportunities for potential business

PC15. identify sources for arranging money and associated financial and legal challenges

Customer Service

To be competent, the user/individual on the job must be able to:

PC16. identify different types of customers

PC17. identify customer needs and address them appropriately

PC18. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC19. create a basic biodata

PC20. search for suitable jobs and apply

PC21. identify and register apprenticeship opportunities as per requirement

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use basic spoken English language

KU6. Do and dont of effective communication

KU7. inclusivity and its importance

KU8. different types of disabilities and appropriate communication and behaviour towards PwD

KU9. different types of financial products and services

Qualification Pack

- KU10.** how to compute income and expenses
- KU11.** importance of maintaining safety and security in financial transactions
- KU12.** different legal rights and laws
- KU13.** how to operate digital devices and applications safely and securely
- KU14.** ways to identify business opportunities
- KU15.** types of customers and their needs
- KU16.** how to apply for a job and prepare for an interview
- KU17.** apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate effectively using appropriate language
- GS2.** behave politely and appropriately with all
- GS3.** perform basic calculations
- GS4.** solve problems effectively
- GS5.** be careful and attentive at work
- GS6.** use time effectively
- GS7.** maintain hygiene and sanitisation to avoid infection

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score the Recommended Pass % aggregate for the QP.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Minimum Passing % at NOS Level: 50

(Please note: A Trainee must score the minimum percentage for each NOS separately as well as on the QP as a whole.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Qualifications Pack (QP)	QP comprises the set of NOSs, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
National Occupational Standard	NOS are occupational standards which apply uniquely in the Indian context.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
