Qualification Pack

HCS/N0106: Preparing areca leaf craft

Description

This OS unit is about preparing areca leaf craft by using raw material and performing various steps.

Scope

The scope covers the following :

- prepare raw material for Areca leaf craft
- prepare Areca leaf for craft making
- preparing areca leaf plates/craft
- check quality of prepared Areca leaf craft/product

Elements and Performance Criteria

prepare raw material for Areca leaf craft

To be competent, the user/individual on the job must be able to:

- PC1.** collect raw material like areca nut sheaths, cleaning brush/ scrub, sandpaper etc.
- PC2.** collect tools like Scissors, moulding machine and for measuring like marker pen and scale

prepare Areca leaf for craft making

To be competent, the user/individual on the job must be able to:

- PC3.** collect the fallen sheaths from the areca tress
- PC4.** soak the areca nut sheaths in freshwater tank for 2 days approx. to soften the material.
- PC5.** scrub the leaf to stretch little to broaden and to remove the sand particles and dust.
- PC6.** keep the sheaths in the open sun for drying at least for 2 days to remove the moisture from the sheaths.

preparing areca leaf plates/craft

To be competent, the user/individual on the job must be able to:

- PC7.** place an Areca leaf moulding machine at the designated place to make desired craft
- PC8.** control the heat of two pressing heads of the moulding machine by thermostat
- PC9.** place the areca leaf in the moulding machine
- PC10.** set the temperature of moulding machine between 170-180 degree centigrade as to bake the leaf
- PC11.** place the sheath between the hot-pressing heads and press them tightly to give appropriate shape
- PC12.** press against each side to get the desire shape
- PC13.** cut the sheath into a proper shape by the help of cutting blades.
- PC14.** grade the edges of areca leaf plate or bowl, etc. with the help of sandpaper to smoothen the edges
- PC15.** cure the plate or bowl, etc. using UV lights to give a beautiful finish and a clean surface

Check quality of prepared Areca leaf craft/product

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC16.** inspect the process based on the quality standard parameters to ensure appropriate quality of sheaths nut craft is achieved.
- PC17.** ensure moulding of areca leaf is done properly
- PC18.** check if soaking and scrubbing process is done appropriately
- PC19.** ensure a proper finish as per requirement
- PC20.** ensure the output delivered is defect free and toxic free.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** personnel management and quality standards
- KU2.** the workflow involved in areca leaf craft making and process of the company
- KU3.** organizational structure
- KU4.** various kinds of raw materials involved in the areca leaf craft making process
- KU5.** appropriate plates or bowl, etc. preparing techniques
- KU6.** size and shape of the products to be prepared
- KU7.** standard operating procedure
- KU8.** the hierarchy for reporting identified problems.
- KU9.** safety standards and precautions to be taken
- KU10.** the recommended storage of the final product.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** take notes or read about areca leaf craft making techniques
- GS2.** read about various decoration related information.
- GS3.** read company policy documents
- GS4.** interact with team members to work efficiently
- GS5.** communicate effectively with supervisor
- GS6.** share workload with the colleagues in the process
- GS7.** multitask and deliver the final finished product on time adhering to quality standards
- GS8.** plan for daily production
- GS9.** plan for budget and material requirement
- GS10.** ascertain to meet customer preferences, taste, etc. and accordingly make crafts
- GS11.** solve issues relating to material, cost, and labor and ensure smooth production
- GS12.** analyze the material requirements and corrective actions required during craft making
- GS13.** spot process disruptions and delays

HCS/N0105: Preparing palm leaf craft

Description

This OS unit is about preparing raw material and Palm leaf craft to an end product.

Scope

The scope covers the following :

- Collect required raw materials and tools for making palm leaf craft
- prepare Palm leaf for craft making
- preparing Palm leaf basket/craft
- check quality standards of palm leaf craft

Elements and Performance Criteria

Collect required raw materials and tools for making palm leaf craft

To be competent, the user/individual on the job must be able to:

- PC1.** collect raw material like palm leaf in a length of 12 inches, basin, color powder for dying.
- PC2.** collect tools like cutter/knife, measuring tape, wooden slab etc.

prepare palm leaf for craft making

To be competent, the user/individual on the job must be able to:

- PC3.** collect the fallen dry palm leaf in a length of 12 inches
- PC4.** remove the midrib from the dry leaf and split the palm leaf into two halves
- PC5.** cut the dry palm leaf into more thin strips by the help of cutter/scissors
- PC6.** palm strips are added to the vat of boiled color water and left for the dye to settle on the strips to give respective color.
- PC7.** strips are remove after few minutes and keep for cooling
- PC8.** take dye strips and further weaving process is begin.

preparing palm leaf basket/craft

To be competent, the user/individual on the job must be able to:

- PC9.** arrange the palm strips vertically and horizontally interlocking each other according to the size of basket
- PC10.** place wooden slabs while arranging the strips with hands and feet for support
- PC11.** weave two pairs of palm leaf of an inch's width and place adjacent to each other with half-centimeter's gap
- PC12.** keep the two pairs of an adjacent palm leaf in the same position
- PC13.** thin strip is brought over front till the half-centimeter's gap and insert it is run across horizontally
- PC14.** interlace the sidewalls of the basket and weave till the required length
- PC15.** pass the strips through the small space it is brought on top locking the two pair of palm leafs together, kind of knotting the strips

Qualification Pack

PC16. attach the handles for the basket by measuring from the sides, marking equal spots from both sides

PC17. cut the extra palm leaves with the help of small handy knife

check quality standards of palm leaf craft

To be competent, the user/individual on the job must be able to:

PC18. demonstrate the inspection process based on the quality standard parameters to ensure appropriate palm basket is being achieved

PC19. ensure weaving process is done properly

PC20. check if dyeing is done appropriately

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. personnel management, relevant legislation, standards, policies, and procedures followed in the company

KU2. the workflow involved in palm leaf basket and making process of the company

KU3. the importance of the individual role in the work process

KU4. palm leaf craft details

KU5. documentation policy

KU6. various kinds of raw materials involved in the palm leaf craft making process

KU7. appropriate dyeing leaves preparing techniques.

KU8. size and shape of the products to be prepared

KU9. safety standards and precautions to be taken

KU10. standard operating procedure

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. take notes or read about the Palm leaf basket making techniques

GS2. read company policy documents

GS3. interact with team members to work efficiently

GS4. multitask and deliver the final finished product on time adhering to quality standards

GS5. make decision pertaining to the concerned area of workplace

GS6. ascertain to meet customer preferences, taste, etc. and accordingly make crafts

GS7. solve issues relating to material, cost, and labour and ensure smooth production

GS8. take the right raw materials according to the end product

GS9. communicate the gaps in process, if any to supervisor

GS10. interpret the customer preference, demands, etc. and accordingly make job sheet

GS11. follow instructions and work on areas of improvement identified

GS12. detect problems in day-to-day tasks.

HCS/N0104: Preparing coconut leaf craft

Description

This OS unit is about preparing Coconut leaf craft by using raw material and performing various steps.

Scope

The scope covers the following :

- prepare required raw material to make coconut leaf craft
- prepare coconut leaf for craft making
- preparing coconut leaf basket
- check quality and productivity standards of coconut leaf craft

Elements and Performance Criteria

prepare required raw material to make coconut leaf craft

To be competent, the user/individual on the job must be able to:

- PC1.** collect raw material like coconut leaf, tape etc.
- PC2.** collect tools like cutter, thread or knife
- PC3.** arrange raw materials carefully for further usage in making appropriate coconut basket

prepare coconut leaf for craft making

To be competent, the user/individual on the job must be able to:

- PC4.** take a long coconut leaf and cut it in a half into two parts
- PC5.** shave the spine thin so it helps to bend or roll it later
- PC6.** cut the small triangle notches on both ends for tying together the rim/ the outer edge
- PC7.** bend the leaf in a circle to help in making the basket

preparing coconut leaf basket

To be competent, the user/individual on the job must be able to:

- PC8.** weave the strips of coconut leaves next to each other so that the lines on each strips are face up and from one continuous line to make base of the basket.
- PC9.** take the one strip of the coconut leaf and skip next 3 and weave 4 as over under
- PC10.** pull all the weaving strips out to the outer side/ other side.
- PC11.** make the section of up and down like there is 20 strips and leaving 10 up and 10 down
- PC12.** take the first one down and weave through the last one up and repeat moving down
- PC13.** make sure to do it in an order and tighten them all.
- PC14.** push all the strips to the other side as same as first and weave all the gaps
- PC15.** cut the tips to make the last weave easier
- PC16.** cut off all the extra strips and polish the basket.

check quality and productivity standards of coconut leaf craft

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC17.** inspect the process based on the quality standard parameters to ensure appropriate quality of coconut leaf basket is achieved.
- PC18.** ensure weaving of the coconut leaf is done properly
- PC19.** ensure a proper finishing as per requirement
- PC20.** identify different types of parameters required to ensure appropriate amount of inventory is being stored at the time of production

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** personnel management, relevant legislation, standards, policies, and procedures followed in the company
- KU2.** the key product lines of the company
- KU3.** ensuring that there is no accidents due to improper handling of the raw materials
- KU4.** size and shape of the structure or decorative to be prepared
- KU5.** appropriate weaving techniques
- KU6.** standard operating procedure
- KU7.** organizational structure
- KU8.** reporting structure
- KU9.** the recommended storage of the final product
- KU10.** implications of delays in the process

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** write preparing, weaving and assembling techniques
- GS2.** read and understand manuals, health and safety instructions, memos, reports and job cards
- GS3.** communicate effectively with supervisor
- GS4.** share workload with the colleagues in the process
- GS5.** make decisions pertaining to the concerned area of workplace
- GS6.** ascertain to meet customer preferences, taste, etc. and accordingly make crafts
- GS7.** solve issues relating to material, cost, and labour and ensure smooth production
- GS8.** analyse the material requirements and corrective actions required during craft making
- GS9.** follow instructions and work on areas of improvement identified
- GS10.** plan for budget and material requirement

HCS/N0103: Preparing Sal leaf craft

Description

This OS unit is about preparing Sal leaf craft by using raw material and performing various steps.

Scope

The scope covers the following :

- gather and arrange the required raw material for Sal leaf craft
- prepare Sal leaf for craft making
- preparing Sal leaf plates or bowls
- check quality and productivity standards of Sal leaf craft

Elements and Performance Criteria

gather and arrange the required raw material for Sal leaf craft

To be competent, the user/individual on the job must be able to:

- PC1.** collect raw material like sal leaves, grass stem sticks, corrugate sheets etc.
- PC2.** collect tools like scissors, moulding machine, sewing machine and for stitching like needle and thread

prepare Sal leaf for craft making

To be competent, the user/individual on the job must be able to:

- PC3.** sink all the sal leaf into the water tub to clean and remove the dust.
- PC4.** attach 6or 7leafs with grass stem sticks and make round plates
- PC5.** two such plates are sewn together from sewing machine
- PC6.** put the round stitch leaf plates partly dry in the sun
- PC7.** place the corrugate sheet at the bottom of the same size thread stitch leaf

preparing Sal leaf plates or bowls

To be competent, the user/individual on the job must be able to:

- PC8.** take dry plates and put into a moulding machine
- PC9.** stitch sal leaf gets equal heat and moulding
- PC10.** plates with elevated edges are curve out of stitch sal leaves
- PC11.** press at 120-degree centigrade heat die for 15 seconds to obtain the desire shape
- PC12.** trim thread and loose the ends by the help of scissors
- PC13.** check the moulding plates for the finish

check quality and productivity standards of Sal leaf craft

To be competent, the user/individual on the job must be able to:

- PC14.** inspect the process based on the quality standard parameters to ensure appropriate quality of sal leaf plates or bowls is achieved.
- PC15.** ensure stitching/sewing of sal leaf is done properly.
- PC16.** check moulding of sal leaf is done appropriately

Qualification Pack

PC17. ensure a proper finishing as per requirement

PC18. ensure the output deliver is defect free and chemical free.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** personnel management, relevant legislation, standards, policies, and procedures followed in the company
- KU2.** the importance of the individual role in the work process
- KU3.** various kinds of raw materials involved in the sal leaf craft making process
- KU4.** appropriate sal leaf craft preparing techniques

HCS/N9901: Coordinate with colleagues and work as a team

Description

This NOS describes the communication and coordination skills and knowledge to work with colleagues and supervisor to achieve a smooth and hazard-free workflow.

Scope

The scope covers the following :

- interact with supervisor or superior
- work as a team by coordinating with colleagues within and outside the department and include inputs on PwD & Gender Sensitisation
- report and Document

Elements and Performance Criteria

Interact with supervisor or superior

To be competent, the user/individual on the job must be able to:

- PC1.** comply with health, safety gender, and PwD (People with disability) related instructions applicable to the workplace
- PC2.** actively participate in mock drills/ evacuation procedures; group discussions, training sensitization programs for gender, and PwD awareness organized at the workplace.
- PC3.** receive job orders and instructions from reporting supervisor and receive feedback on work standards.
- PC4.** understand the work output requirements, targets, performance indicators and incentives.
- PC5.** deliver quality work on time and report any anticipated reasons for delays and handover completed work to supervisor
- PC6.** report on any grievances, production defects and any potential hazards.

Work as a team by coordinating with colleagues within and outside the department and include inputs on PwD & Gender Sensitisation

To be competent, the user/individual on the job must be able to:

- PC7.** communicate maintenance and repair schedule proactively to the supervisor
- PC8.** interact and clarify doubts on design, usage of materials & tools, quality & standards compliance, etc.

Report and Document

To be competent, the user/individual on the job must be able to:

- PC9.** report in time for shortage or need of raw materials
- PC10.** communicate with colleagues from within and other departments, clearly and effectively on all aspects to carry out the work among the team
- PC11.** maintain the etiquette, use polite language, demonstrate responsible and disciplined behavior towards colleagues.
- PC12.** put team over individual goals and multi-task or share work where necessary supporting the colleagues.

Qualification Pack

PC13. document all the details accurately relating to ones role as required.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** knowledge about the importance of gender equality being followed in the organization and policies for reporting any harassment or inappropriate behavior
- KU2.** knowledge about how to accommodate employees with disabilities etiquette to adhere to and proper language and terminology
- KU3.** knowledge about how to communicate, offer help, respecting space, parking etc. for people with disabilities or special needs
- KU4.** knowledge about promoting a safe, accessible and healthy workplace for disabled employees
- KU5.** company's policies on preferred language of communication, incentives, quality standards, personnel management, reporting and escalation matrix policy.
- KU6.** company's standard operating procedure (sop) and the risk and impact of not following them.
- KU7.** procedures for working with colleagues, his/her role and responsibilities in relation to this
- KU8.** organizational hierarchy and the line of reporting structure and work target and review mechanism
- KU9.** procedures to report employment related issues and to deal with conflicts
- KU10.** importance of the individuals role in the organizational workflow and details of the individual responsibilities
- KU11.** tools and equipment handling procedure and common potential hazards in the work place and the procedures to deal with them
- KU12.** effective communication with various categories of people and the different departments in the organization
- KU13.** to document the job activity as required like the check sheets, history sheets, etc
- KU14.** expressing and addressing grievances appropriately, deal with difficult work relationships and manage the internal conflicts effectively

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** create a positive and inclusive workplace atmosphere without any kind of bias/discrimination towards any employee
- GS2.** actively take part in any discussion/workshop organized for gender sensitization training
- GS3.** read and comprehend written instructions related to gender equality issues in the organization
- GS4.** identify and report any harassment or inappropriate behavior towards any employee
- GS5.** create a positive and inclusive workplace atmosphere without any kind of bias/discrimination towards any employee with disability or special needs
- GS6.** actively take part in any discussion/workshop organized for disability sensitization training.

Qualification Pack

- GS7.** read and comprehend written instructions related to equality issues in the organization related to disabled persons
- GS8.** read job sheets, design sheet and information displayed at the workplace
- GS9.** read and understand manuals, health and safety instructions, memos etc
- GS10.** fill up documentation to ones role
- GS11.** communicate effectively with supervisor
- GS12.** contribute to quality of team work and achieve smooth workflow
- GS13.** improve work processes by interacting with others and adopting best practices

HCS/N9902: Maintain Safe and Healthy Work Environment

Description

This NOS is about following adequate safety procedures to make the work environment safe and Healthy.

Scope

The scope covers the following :

- follow safety procedures and practices.
- achieve safety standards

Elements and Performance Criteria

Follow safety procedures and practices

To be competent, the user/individual on the job must be able to:

- PC1.** carry out work functions in accordance with organizational standards, greening solutions, procedures, policies, legislation and regulations
- PC2.** apply and follow these policies and procedures within your work practices and inculcate sustainable consumption practices
- PC3.** actively get involved in improving the performance of the organization in line with their own role and responsibilities and support adaptation to more environmentally friendly processes
- PC4.** comply with safety procedures while on work to prevent accidents
- PC5.** take adequate safety measures while handling materials, chemicals and tools
- PC6.** wear appropriate personal protective gears such as gloves, protective goggles, masks etc. while working
- PC7.** wear appropriate and recommended clothing as per the work environment
- PC8.** follow recommended material handling procedure to control material and personal damage.
- PC9.** perform all procedures as per company's work instructions for controlling operational risk

Achieve safety standards

To be competent, the user/individual on the job must be able to:

- PC10.** perform the duties in a manner which minimizes environmental damage
- PC11.** dispose off waste safely and correctly in a designated area as per company's SOP
- PC12.** report any accidents, incidents or problems without delay to the supervisor and take necessary immediate action to reduce further danger
- PC13.** ensure zero accident at workplace
- PC14.** adhere to safety standards and ensure no material damage

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** making conscious and sustainable decisions for achieving effective and green workplace.

Qualification Pack

- KU2.** company's policies on work safety and occupational hazard management
- KU3.** knowledge about company's HR policies and reporting structure
- KU4.** company emergency evacuation procedure
- KU5.** accidental risks to the worker
- KU6.** how to maintain the work area safe and secure
- KU7.** how to perform the duties in a way to minimize accidental risks
- KU8.** how to handle chemicals in a safe manner
- KU9.** purpose and usage of protective gears such as gloves, protective goggles, masks, etc. while working
- KU10.** safe and correct material handling procedure
- KU11.** standard operating procedure (sop) of processes
- KU12.** precautionary activities to be followed in the processes
- KU13.** how to operate tools and electrical equipment
- KU14.** emergency procedures to be followed in case of a mishap such as fire accidents etc.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** make conscious and sustainable decisions that help reduce, rescue, and recycle the company resources
- GS2.** identify and replace processes that create unnecessary waste.
- GS3.** read safety instructions, safety signage and safety manuals
- GS4.** read the usage of various safety tools and equipment
- GS5.** take notes on descriptions and details of various safety precautions and procedures as instructed
- GS6.** communicate supervisor about the work safety issues.
- GS7.** receive instructions from supervisor on minimizing the accidental risks
- GS8.** communicate co-workers about the precautions to be taken for accident-free work.
- GS9.** how to select appropriate safety tools and equipment
- GS10.** improve work processes by adopting best safety practices
- GS11.** coordinate with different departments on briefing the safety aspects
- GS12.** guide the team members on use of various safety tools and equipment
- GS13.** spot errors and any other disruptions and communicate with solutions
- GS14.** how to use safety equipment such as fire extinguisher during fire accidents.
- GS15.** how to store chemicals and tools in a safe way.

HCS/N9903: Maintain Personal Hygiene

Description

This NOS provides the abilities required for taking responsibility for their own health at the workplace and is about using the correct procedures to prevent, control and minimize risk to them and others at the workplace.

Scope

The scope covers the following :

- adopt healthy work practices
- achieve work productivity while maintaining health

Elements and Performance Criteria

Adopt healthy work practices

To be competent, the user/individual on the job must be able to:

- PC1.** always cover the mouth and nose with a dust mask while working and keep on changing when it gets blocked with dust
- PC2.** wear safety shoes while visiting the production unit to avoid any damage
- PC3.** wear personal protective equipment while visiting the different departments during production. orexample mask in the washing section, glasses and mask in an assembly line, and gloves in the printing section, etc.
- PC4.** always wash sanitize your hands after a factory unit before touching any document, laptop, cell phone, etc.
- PC5.** undergo preventive health checkups at regular intervals.
- PC6.** take prompt treatment from the doctor in case of illness.

Achieve work productivity while maintaining health

To be competent, the user/individual on the job must be able to:

- PC7.** follow SOPs for dealing with blisters; scratches; accidental fires or any other type of emergencies at work
- PC8.** ensure no productivity loss or absenteeism from work due to illness
- PC9.** ensure no long-term ill effect on personal health.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** company's policies on personal health and occupational hazard management
- KU2.** company's HR policies.
- KU3.** company's reporting structure
- KU4.** company's emergency evacuation procedure
- KU5.** health risks to the worker at the workplace

Qualification Pack

- KU6.** healthy work practices
- KU7.** how to perform the duties in a way to minimize pollution at the workplace.
- KU8.** what personal protective equipment should be worn and how it is cared for
- KU9.** safe disposal methods for waste
- KU10.** how to provide first-aid treatment at the workplace
- KU11.** emergency procedures to be followed in case of an mishap such as fire accidents etc.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read personal health instructions and manual
- GS2.** read the usage of various hand tools and personal protection equipment
- GS3.** take notes on descriptions and details of various personal health maintenance procedures
- GS4.** communicate supervisor about the physical symptoms
- GS5.** receive instructions from doctor and supervisor on medical care
- GS6.** how to select appropriate hand tools and personal protection equipment
- GS7.** when to change personal protection equipment during work
- GS8.** how to identify first aid needs in case and of an injury
- GS9.** how to select appropriate hand tools and personal protection equipment
- GS10.** when to change personal protection equipment during work
- GS11.** how to use materials that does not affect customer health / make injury
- GS12.** improve work processes by adopting best safety practices
- GS13.** analyze the usage of appropriate tools and consumables
- GS14.** spot errors and any other disruptions and communicate with solutions

Qualification Pack

DGT/VSQ/N0101: Employability Skills (30 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

PC1. understand the significance of employability skills in meeting the job requirements

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

PC2. identify constitutional values, civic rights, duties, personal values and ethics and environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

PC3. explain 21st Century Skills such as Self-Awareness, Behavior Skills, Positive attitude, self-motivation, problem-solving, creative thinking, time management, social and cultural awareness, emotional awareness, continuous learning mindset etc.

Basic English Skills

To be competent, the user/individual on the job must be able to:

PC4. speak with others using some basic English phrases or sentences

Communication Skills

To be competent, the user/individual on the job must be able to:

PC5. follow good manners while communicating with others

PC6. work with others in a team

Qualification Pack

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

PC7. communicate and behave appropriately with all genders and PwD

PC8. report any issues related to sexual harassment

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

PC9. use various financial products and services safely and securely

PC10. calculate income, expenses, savings etc.

PC11. approach the concerned authorities for any exploitation as per legal rights and laws

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

PC12. operate digital devices and use its features and applications securely and safely

PC13. use internet and social media platforms securely and safely

Entrepreneurship

To be competent, the user/individual on the job must be able to:

PC14. identify and assess opportunities for potential business

PC15. identify sources for arranging money and associated financial and legal challenges

Customer Service

To be competent, the user/individual on the job must be able to:

PC16. identify different types of customers

PC17. identify customer needs and address them appropriately

PC18. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC19. create a basic biodata

PC20. search for suitable jobs and apply

PC21. identify and register apprenticeship opportunities as per requirement

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use basic spoken English language

KU6. Do and dont of effective communication

KU7. inclusivity and its importance

KU8. different types of disabilities and appropriate communication and behaviour towards PwD

KU9. different types of financial products and services

Qualification Pack

- KU10.** how to compute income and expenses
- KU11.** importance of maintaining safety and security in financial transactions
- KU12.** different legal rights and laws
- KU13.** how to operate digital devices and applications safely and securely
- KU14.** ways to identify business opportunities
- KU15.** types of customers and their needs
- KU16.** how to apply for a job and prepare for an interview
- KU17.** apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate effectively using appropriate language
- GS2.** behave politely and appropriately with all
- GS3.** perform basic calculations
- GS4.** solve problems effectively
- GS5.** be careful and attentive at work
- GS6.** use time effectively
- GS7.** maintain hygiene and sanitisation to avoid infection

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score the Recommended Pass % aggregate for the QP.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 50

(**Please note:** Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
