HCS/N7356: Carry out the process of making Traditional soft toy

Description

The Traditional Soft Toy Maker is responsible for crafting soft toys using traditional techniques, materials, and designs that reflect cultural heritage.

Scope

The scope covers the following :

- Material Selection and Preparation
- Pattern Cutting and Stitching
- Stuffing and Shaping
- Detailing and Decoration
- Quality Check and Finishing
- Tool Maintenance and Work Area Management

Elements and Performance Criteria

Material Selection and Preparation

To be competent, the user/individual on the job must be able to:

- PC1.** Identify appropriate fabrics, stuffing materials, and decorative elements based on the toy design.
- PC2.** Ensure materials are safe, non-toxic, and suitable for children, adhering to quality standards.
- PC3.** Measure and cut fabric accurately according to design templates or patterns.
- PC4.** Provide tools such as scissors, needles, sewing machines, and stuffing equipment for the process.

Pattern Cutting and Stitching

To be competent, the user/individual on the job must be able to:

- PC5.** Using patterns or stencils, create the design onto the fabric.
- PC6.** Cut fabric pieces neatly, ensuring uniformity and precision.
- PC7.** Stitch fabric pieces together, maintaining consistent seam allowance and secure stitching.
- PC8.** Provide appropriate openings for stuffing and ensure seams are reinforced for durability.

Stuffing and Shaping

To be competent, the user/individual on the job must be able to:

- PC9.** Select suitable stuffing materials such as cotton, wool, or synthetic fibres.
- PC10.** Ensure that the toy is properly shaped and soft, without lumps or empty spaces.
- PC11.** Adjust the quantity of stuffing to maintain the toy's structural integrity and comfort.
- PC12.** Close the stuffing opening neatly, ensuring stitches for a polished finish.

Detailing and Decoration

To be competent, the user/individual on the job must be able to:

- PC13.** Attach decorative elements such as buttons, beads, or embroidery with secure stitching.
- PC14.** Using embroidery or fabric paint, create facial features and other design details.

Qualification Pack

PC15. Ensure decorations are securely attached and child-safe, avoiding sharp or loose parts.

PC16. Inspect the toy's appearance, ensuring even decoration placement and neat finishing.

Quality Check and Finishing

To be competent, the user/individual on the job must be able to:

PC17. Check for loose threads, uneven seams, or improper stuffing and correct as needed.

PC18. Provide structural integrity and ensure all parts are securely attached.

PC19. Conduct a safety inspection, ensuring no sharp edges or choking hazards.

PC20. Clean the toy and prepare it for packaging, ensuring a neat and attractive presentation.

Tool Maintenance and Work Area Management

To be competent, the user/individual on the job must be able to:

PC21. Clean and maintain tools like needles, scissors, and sewing machines after each use.

PC22. Store tools safely and organise the workspace for efficiency.

PC23. Provide proper disposal of waste materials and maintain a healthy working environment.

PC24. Keep records of material usage and maintain inventory for effective production.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. Understanding traditional soft toy designs, motifs, and patterns unique to cultural heritage.

KU2. Familiarity with various types of fabrics, threads, and stuffing materials used in soft toy making.

KU3. Knowledge of sewing techniques, including hand-stitching and machine sewing methods.

KU4. Awareness of quality standards and finishing techniques to ensure durability and consistency.

KU5. Insight into market trends, customer preferences, and opportunities for product innovation.

KU6. Understanding safety protocols for handling sharp tools and maintaining a clean, organised workspace.

KU7. Knowledge of basic inventory management and documentation practices to track materials and designs.

KU8. Knowledge of embellishment techniques such as embroidery, beadwork, fabric painting, etc.

KU9. Insight into packaging and labelling requirements for retail and export markets.

KU10. Awareness of pricing strategies and cost calculation to ensure profitability while maintaining affordability.

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. Ability to design unique and culturally inspired soft toys.

GS2. Ensuring precision in cutting, stitching, and embellishing.

GS3. Prioritising tasks to meet production deadlines efficiently.

GS4. Responding to changing market trends and customer preferences.

Qualification Pack

- GS5.** Addressing design, material, or production challenges effectively.
- GS6.** Working harmoniously with fellow artisans, suppliers, and retailers.
- GS7.** Maintaining focus during intricate tasks and long crafting sessions.
- GS8.** Respecting and preserving traditional motifs and techniques.
- GS9.** Identifying appropriate fabrics, threads, and embellishments.
- GS10.** Ensuring consistency and durability in finished products.
- GS11.** Understanding customer preferences and evolving trends.
- GS12.** Managing inventory, pricing, and production costs effectively.
- GS13.** Engaging with customers, suppliers, and team members clearly and effectively.
- GS14.** Documenting designs, production processes, and material usage accurately.
- GS15.** Exploring new markets, developing unique product lines, and leveraging online platforms for sales.
- GS16.** Integrating eco-friendly materials and methods into production.

HCS/N8525: Entrepreneurship Skills for Traditional Soft Toy Artisan

Description

This unit focuses on entrepreneurship skills for traditional soft toy artisans, balancing cultural heritage with market demands. It covers product innovation, financial management, marketing, and sustainability to support business growth.

Scope

The scope covers the following :

- Understanding Market Trends and Opportunities
- Business Planning and Financial Management
- Product Development and Innovation
- Branding, Marketing, and Sales Strategies
- Production and Quality Control
- Legal and Ethical Considerations
- Scaling and Sustainability

Elements and Performance Criteria

Understanding Market Trends and Opportunities

To be competent, the user/individual on the job must be able to:

- PC1.** Identify developing trends in soft toy design, materials, and consumer preferences.
- PC2.** Analyse market demand, target customers, and pricing strategies.
- PC3.** Identify competition and create a unique selling proposition (USP) for soft toys.

Business Planning and Financial Management

To be competent, the user/individual on the job must be able to:

- PC4.** Develop a basic business plan highlighting vision, goals, and strategies.
- PC5.** Estimate the cost of raw materials, labour, packaging, and distribution.
- PC6.** Identify funding sources, such as self-financing, loans, or government schemes.
- PC7.** Maintain financial records, including sales, expenses, and profits.

Product Development and Innovation

To be competent, the user/individual on the job must be able to:

- PC8.** Select the appropriate materials and techniques for making soft toys.
- PC9.** Develop prototypes and test designs for durability and safety compatibility.
- PC10.** Include innovative elements such as eco-friendly fabrics or interactive features.

Branding, Marketing, and Sales Strategies

To be competent, the user/individual on the job must be able to:

- PC11.** Design attractive packaging and branding items to enhance product appeal.
- PC12.** Promote soft toys through online and offline advertising channels.
- PC13.** Identify and collaborate with retailers, e-commerce platforms, and local markets.
- PC14.** Utilise social media and digital platforms for customer engagement and sales.

Qualification Pack

Production and Quality Control

To be competent, the user/individual on the job must be able to:

- PC15.** Ensure consistency in stitching, packing, and finishing of soft toys.
- PC16.** Implement quality inspections to meet safety and industry standards.
- PC17.** Improve production efficiency while maintaining product quality.

Legal and Ethical Considerations

To be competent, the user/individual on the job must be able to:

- PC18.** Register the business and comply with legal regulations.
- PC19.** Follow ethical sourcing methods for materials and fair labour policies.
- PC20.** Ensure compliance with child safety and eco-friendly manufacturing standards.

Scaling and Sustainability

To be competent, the user/individual on the job must be able to:

- PC21.** Explore opportunities to expand product lines, such as custom toys or themed collections.
- PC22.** Implement sustainable methods, including waste reduction and recycling.
- PC23.** Develop partnerships with NGOs, schools, and corporate customers for bulk orders.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Understanding market trends, customer preferences, and identifying target audiences.
- KU2.** Knowledge of blending traditional designs with modern trends to create unique products.
- KU3.** Understanding the steps involved in developing a business plan, setting goals, and defining strategies.
- KU4.** Awareness of budgeting, pricing, cost control, and profit calculation to ensure financial sustainability.
- KU5.** Understanding branding techniques, promotional strategies, and leveraging digital platforms for product visibility.
- KU6.** Knowledge of sales channels, both offline and online, to expand market reach and increase sales.
- KU7.** Understanding the importance of building and maintaining strong customer relationships to ensure repeat business.
- KU8.** Awareness of effective time management techniques and efficient use of resources to optimise production.
- KU9.** Understanding eco-friendly methods, sustainable material sourcing, and waste reduction techniques.
- KU10.** Awareness of potential business risks and strategies to mitigate them.
- KU11.** Knowledge of creating partnerships, participating in artisan communities, and accessing support systems.
- KU12.** Understanding basic legal requirements, intellectual property rights, and compliance with safety standards.

Generic Skills (GS)

Qualification Pack

User/individual on the job needs to know how to:

- GS1.** Ability to design unique soft toys that blend tradition with modern trends.
- GS2.** Flexibility to respond to changing market demands and customer preferences.
- GS3.** Effectively managing time to meet production targets and delivery deadlines.
- GS4.** Ensuring precision in stitching, embellishing, and overall toy finishing.
- GS5.** Addressing production challenges and finding effective solutions.
- GS6.** Working effectively with peers, suppliers, and customers.
- GS7.** Staying focused and persistent through intricate tasks and business challenges.
- GS8.** Identifying trends, customer needs, and competitor products to refine offerings.
- GS9.** Budgeting, pricing, and cost control to ensure profitability.
- GS10.** Maintaining high standards in material selection, stitching, and finishing.
- GS11.** Promoting products through appropriate sales channels and digital platforms.
- GS12.** Building and nurturing customer relationships for long-term success.
- GS13.** Documenting designs, material usage, and production processes for future reference.
- GS14.** Ensuring safe handling of tools and maintaining a clean, organised workspace.
- GS15.** Integrating eco-friendly methods and materials into the production process.

HCS/N9908: Working in a Team

Description

This unit is about working as part of a team in the process.

Elements and Performance Criteria

Commitment and trust

To be competent, the user/individual on the job must be able to:

- PC1.** Be accountable to ones own role in whole process.
- PC2.** Perform all roles with full responsibility.

Communication

To be competent, the user/individual on the job must be able to:

- PC3.** Report problems faced during the process.
- PC4.** Talk politely with other team members and colleagues.
- PC5.** Submit daily report of own performance.

Adaptability

To be competent, the user/individual on the job must be able to:

- PC6.** Adjust in different work situations.
- PC7.** Give due importance to others point of view.
- PC8.** Avoid conflicting situations.

Creative freedom

To be competent, the user/individual on the job must be able to:

- PC9.** Develop new ideas for work procedures
- PC10.** Improve upon the existing techniques to increase process efficiency

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** General rules and regulations in the sector.
- KU2.** Procedure followed to get the final output.
- KU3.** Safe working practices to be adopted.
- KU4.** Reporting to the supervisor or higher authority about any grievances faced.
- KU5.** Understanding the importance of the previous and next step of the process.
- KU6.** Process flow in the handicraft section.
- KU7.** Material sequence of flow.
- KU8.** Functions of different parts of product development.
- KU9.** Tools and equipments used.
- KU10.** Guidelines for operating the equipment.
- KU11.** Safety procedures to be followed as applicable.

Qualification Pack

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Prepare status and progress reports.
- GS2.** Write memos and e-mail to co-workers, and vendors to provide them with work updates and to request appropriate information without English language errors regarding grammar or sentence construct.
- GS3.** Keep abreast with the latest knowledge by reading brochures, pamphlets, and product information sheets.
- GS4.** Discuss task lists, schedules, and work-loads with co-workers.
- GS5.** Keep co-workers and supervisors informed about progress.
- GS6.** Make decisions pertaining to the concerned area of work.
- GS7.** Plan and organize service feedback files/documents.
- GS8.** Manage relationships with customers.
- GS9.** Build customer relationships and use customer centric approach.
- GS10.** Think through the problem, evaluate the possible solution(s) and suggest an optimum /best possible solution(s).
- GS11.** Identify immediate or temporary solutions to resolve delays.
- GS12.** Use the existing data to arrive at specific data points.
- GS13.** Apply, analyze, and evaluate the information gathered from observation, experience, reasoning, or communication, as a guide to thought and action.

HCS/N9945: Maintaining workplace health and safety

Description

This unit provides Performance Criteria, Knowledge & Understanding, and Skills & Abilities required to comply with health, safety, and security requirements at the workplace and covers procedures to prevent, control, and minimize risk to self and others.

Scope

The scope covers the following :

- Comply with health, safety, and security requirements at work

Elements and Performance Criteria

Comply with health, safety, and security requirements at work

To be competent, the user/individual on the job must be able to:

- PC1.** comply with health and safety related instructions applicable to the workplace.
- PC2.** use and maintain personal protective equipment as per protocol.
- PC3.** carry out own activities in line with approved guidelines and procedures
- PC4.** maintain a healthy lifestyle and guard against dependency on intoxicants.
- PC5.** follow environment management system related procedures.
- PC6.** store materials and tools in line with manufacturers and organisational requirements
- PC7.** safely handle and move waste and debris.
- PC8.** minimize health and safety risks to self and others due to own actions
- PC9.** seek clarifications, from supervisors or other authorized personnel in case of perceived risks
- PC10.** monitor the workplace and work processes for potential risks and threats.
- PC11.** carry out periodic walk-through to keep work area free from hazards and obstructions, if assigned
- PC12.** report hazards and potential risks/ threats to supervisors or other authorized personnel
- PC13.** participate in mock drills/ evacuation procedures organized at the workplace
- PC14.** undertake first aid, fire-fighting and emergency response training, if asked to do so
- PC15.** take action based on instructions in the event of fire, emergencies or accidents
- PC16.** follow organisation procedures for evacuation when required

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** health and safety related practices applicable at the workplace
- KU2.** potential hazards, risks and threats based on nature of operations
- KU3.** organizational procedures for safe handling of tools

Qualification Pack

- KU4.** potential risks due to own actions and methods to minimize these
- KU5.** environmental management system related procedures at the workplace.
- KU6.** layout of the plant and details of emergency exits, escape routes, emergency equipment and assembly points
- KU7.** potential accidents and emergencies and response to these scenarios
- KU8.** reporting protocol and documentation required
- KU9.** details of personnel trained in first aid, fire-fighting and emergency response
- KU10.** actions to take in the event of a mock drills/ evacuation procedures or actual accident, emergency or fire.
- KU11.** occupational health and safety risks and methods
- KU12.** personal protective equipment and method of use
- KU13.** identification, handling and storage of hazardous substances
- KU14.** proper disposal system for waste and by-products
- KU15.** signage related to health and safety and their meaning
- KU16.** importance of sound health, hygiene and good habits
- KU17.** ill-effects of alcohol, tobacco and drugs

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** write in local language.
- GS2.** read measurement instructions
- GS3.** communicate orally with colleagues
- GS4.** follow organization rule-based decision making process
- GS5.** take decision with systematic course of actions and/or response
- GS6.** plan and organize your work to achieve targets and deadlines
- GS7.** manage relationships with customers
- GS8.** build customer relationships and use customer centric approach
- GS9.** think through the problem, evaluate the possible solution(s) and suggest an optimum /best possible solution(s)
- GS10.** identify immediate or temporary solutions to resolve delays
- GS11.** analyze data and activities.
- GS12.** pass on relevant information to others
- GS13.** apply, analyze, and evaluate the information gathered from observation, experience, reasoning, or communication, as a guide to thought and action

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score the Recommended Pass % aggregate for the QP.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Minimum Passing % at NOS Level: 50

(Please note: A Trainee must score the minimum percentage for each NOS separately as well as on the QP as a whole.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
