Qualification Pack

HCS/Q7404: Jute Screen Printer

Brief Job Description

A jute Screen Printer is responsible for preparation of Screen and Printing Paste and applying that Printing Paste through Screens of specific design. He is also responsible for printing Jute fabric as per specific design without damaging either fabric or screen. He/She should know how to print without any print defect or design distortion.

Personal Attributes

A Jute Screen Printer should have good capability of drawing, eyesight, matching skills for preparation of Screen and Print Paste and running squeegee on Screen using suitable Print Paste. He/she should also have good interpersonal skills for exchange of design ideas and understand the reasons of defect in printing.

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [HCS/N7404: Take charge of shift and hand over shift to Jute Handloom Weaver](#)
2. [HCS/N7405: Run jute handloom efficiently](#)
3. [HCS/N9906: Maintaining work area, tools and machines](#)
4. [HCS/N9901: Coordinate with colleagues and work as a team](#)
5. [HCS/N9913: Maintain health, safety and security at workplace](#)
6. [HCS/N9909: Comply with industry and organizational requirement](#)
7. [DGT/VSQ/N0102: Employability Skills \(60 Hours\)](#)

Qualification Pack

HCS/N7404: Take charge of shift and hand over shift to Jute Handloom Weaver

Description

This unit is about taking charge of shift from previous shift Jute handloom weaver and relieving the responsibilities to the next Jute handloom weaver.

Scope

The scope covers the following :

- take charge of shift from Jute handloom weaver
- hand over shift to Jute handloom weaver

Elements and Performance Criteria

Take charge of shift from Jute handloom weaver

To be competent, the user/individual on the job must be able to:

- PC1.** reach atleast 10 - 15 minutes early to the work place
- PC2.** bring the necessary operational tools to the department
- PC3.** meet the previous shift operator and collect the information regarding the count, process, issues faced by them with respect to the quality, production, spare, safety or any other specific instructions etc.
- PC4.** identify the type of fabric produced, specifications of fabrics followed in the handloom for his allocated number of looms or machines
- PC5.** ensure the technical details are mentioned in the display board
- PC6.** check for the availability of the weft package & the condition of the same
- PC7.** check the condition of the running beams for cross ends, ends pulling out particularly at the selvages
- PC8.** check the cloth for the running damages like end out, wrong drawing, wrong denting, double end, reed mark, let off mark, take up fault, oil stain, hole, cloth torn,tails.etc.
- PC9.** check for the size of the cloth rolls & to see whether any indication is there in the cloth rolls
- PC10.** check the cleanliness of the machines & other work areas
- PC11.** check whether any spare/raw material/ tool / fabric/ any other material are thrown under the machines or in the other work areas
- PC12.** question the previous shift weaver for any deviation in the above and should bring the same to the knowledge of his/ her shift superior as well that of the previous shift
- PC13.** proper functioning of handloom machine parts and machine
- PC14.** ensure the work spot is clean

Hand over shift to Jute handloom weaver

To be competent, the user/individual on the job must be able to:

- PC15.** hand over the shift to the incoming jute handloom weaver in a proper manner

Qualification Pack

- PC16.** ensure in providing the details regarding fabric produced, colour coding followed in the jute handloom for his allocated number of looms or machines
- PC17.** provide all relevant information regarding the type of fabric production, damaged machine parts if any
- PC18.** get clearance from the incoming counterpart before leaving the work spot
- PC19.** report to his/ her shift superiors as well as that of the incoming shift operator in case his/ her counterpart doesn't report for duty
- PC20.** ensure the shift is properly handed over to the incoming shift operator
- PC21.** report to his/ her shift superior about the quality / production / safety issues/ any other issue faced in his/ her shift and should leave the department only after getting concurrence for the same from his/ her superiors
- PC22.** ensure the work spot is clean

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** standard operating procedures (sop) and regulations in a jute mill
- KU2.** safe working practices to be adopted in jute mill
- KU3.** quality systems and other processes practiced in the jute mill
- KU4.** reporting to the supervisor or higher authority in case of emergency
- KU5.** color coding adopted for different counts/products in the jute mill
- KU6.** the importance of type of fibres, type of yarn, yarn counts, types of fabric, types of fabric defects, types of weaving machines - handloom, conventional jute loom, shuttleless loom (s4)
- KU7.** process flow in a hand loom unit mill
- KU8.** material flow in a hand loom unit
- KU9.** functions of different parts of handloom
- KU10.** importance of colour coding followed for different products
- KU11.** knowledge of waste collection system & equipments used
- KU12.** importance of material handling and types of material handling equipments used
- KU13.** importance of cleanliness at workplace
- KU14.** functions and methodology for operating different material handling equipments
- KU15.** understanding the functions of different signal lamps
- KU16.** guidelines for operating the handloom
- KU17.** guidelines for taking charge of shift from previous shift operator
- KU18.** guidelines for handing over the shift to the next shift operator
- KU19.** safety procedures to be followed in a handloom

Generic Skills (GS)

User/individual on the job needs to know how to:

Qualification Pack

- GS1.** write clear and short sentences
- GS2.** read and comprehend written instructions
- GS3.** communicate with supervisor appropriately
- GS4.** talk to others to convey information effectively
- GS5.** identify the real reason of problem faced
- GS6.** apply problem-solving approaches in different situations
- GS7.** refer anomalies to the supervisor
- GS8.** seek clarification on problems from others
- GS9.** apply good attention to detail
- GS10.** check your work is complete and free from errors
- GS11.** patrol around the handloom and identify warp and weft breakage
- GS12.** procedure for operating different material handling tools and equipments
- GS13.** procedure for patrolling around the loom and identifying worn out or damaged machine parts
- GS14.** maintain cleanliness at work place

HCS/N7405: Run jute handloom efficiently

Description

Take charge of shift from Jute handloom weaver

Scope

The scope covers the following :

- improvement of productivity and quality
- control of wastage in weaving shed
- maintenance of loom and accessories and cleanliness
- other work practices

Elements and Performance Criteria

Improvement of Productivity and Quality

To be competent, the user/individual on the job must be able to:

- PC1.** fully aware of the quality standards, specifications and possible faults of woven fabrics and should know required quality standards of warp yarns and weft yarns for jute fabrics of different specifications
- PC2.** should have the knowledge of fabric faults/defects and their remedial measures
- PC3.** ensure warp yarns should properly pass through lease rods, mail eyes and reed dents in correct sequence
- PC4.** ensure that broken warp ends should be mended by small weavers knot and ensure that it can pass through lease rod, camb and reed
- PC5.** ensure to maintain the proper sequence of warp threads as per specification and quality
- PC6.** ensure to maintain proper tension at the selvages otherwise inadequate shed depth and movement of shuttle will hinder
- PC7.** ensure that tension of the warp yarns is properly adjusted
- PC8.** ensure to replace the missing warp on the reed, lease rod and beam with additional warp from left-over small/half spool
- PC9.** ensure to put each weaver's own mark on the woven cloth at the start of the shift
- PC10.** ensure the perfect arrangement of warp yarn eliminating cross end, taut end, missing end and big knots etc.
- PC11.** ensure to maintain proper warp tension and fabric tension
- PC12.** ensure to check the number of warp yarns (runners) and to control the width of the cloth
- PC13.** ensure to use correct warp count, weft count, correct reed porter and proper camb filing
- PC14.** ensure to avoid quality mix-up by use of proper quality tag for cop and spools
- PC15.** avoid contamination, interference, staining of fabric ensure to clean the machine and surrounding area. no dust, fluffs etc. should be allowed to be deposited on the machine/machine part. the loom should be cleaned and oiled regularly in time
- PC16.** ensure to follow the instruction of supervisor and sardar for quality change

Qualification Pack

Control of Wastage in weaving shed

To be competent, the user/individual on the job must be able to:

- PC17.** ensure that weavers should know the reasons for wastage of warp and weft yarns
- PC18.** ensure that the weavers should have motivation to reduce yarn wastage
- PC19.** ensure that warp beam are fully exhausted, i.e, do not doff beams without its full exhaustion
- PC20.** ensure that for repairing missing ends and broken warps, yarn from small cops must not be used
- PC21.** ensure cops should be fully consumed and yarn must not be pulled from cops
- PC22.** ensure while joining fresh warp beam, yarn must not be pulled unnecessarily causing wastage of beam yarns
- PC23.** ensure to sort out the defective cops separately and to consume the same as far as practicable
- PC24.** ensure to give up the habit of pick-back practice
- PC25.** ensure to use individual wastage bag and keep it at proper
- PC26.** ensure to use correct weft count and warp count during replacement of missing ends
- PC27.** ensure proper use of cop bands and mark for quality for avoiding quality mix-up
- PC28.** ensure that weavers must not store excessive number of cops near the looms as the cops get distorted and become soft due to this reason

Maintenance of loom and accessories and Cleanliness

To be competent, the user/individual on the job must be able to:

- PC29.** ensure that weavers should take proper care towards cleaning and proper maintenance of loom keeping good relation with maintenance mistry
- PC30.** ensure that weavers should do the periodical of loom and loom parts, particularly reeds and cambs. the lower parts of the loom can be cleaned periodically at least before installation of new warp beams
- PC31.** ensure that weaver should do minor lubrication and minor repair job as a regular practice
- PC32.** ensure to identify broken or worn out loom parts and to be replaced
- PC33.** ensure to check all the loom parts in case of frequent loom knock-off and high warp breakages. after identifying the causes, it should be rectified as early as possible
- PC34.** ensure to check various loom parts including shuttle and shuttle box, which is very essential
- PC35.** ensure to eliminate the malpractice of throwing thread waste, empty spool centre, caddies, cop bands etc. on floor
- PC36.** ensure to maintain good housekeeping and surroundings clean
- PC37.** ensure to report the concerned sardar or other superior about any mechanical irregularity in running the loom so that the same can rectified early before breakdown occurs
- PC38.** ensure to check and rectify the settings and looseness/tightness of any loom parts

Other work practices

To be competent, the user/individual on the job must be able to:

- PC39.** correct the fabric defects like wrong drawing, wrong denting, end out, double end etc., immediately and also ensure that the other fabric defects too are corrected at the earliest, before continuing further production
- PC40.** ensure to check the proper alignment of the sley race, reed and box back and adjust accordingly to avoid shuttle flying out

Qualification Pack

- PC41.** ensure that reed screw are properly fixed and there is no broken reed
- PC42.** heald frame height should be properly maintained and take the help of proper template to fix the heald frame with reed
- PC43.** unweave if there are any floats & run the machine without starting mark or crack
- PC44.** ensure that the loose threads are nothanged in higher length (not more than 4 mm) after attending to the warp breaks. accordingly it has to be trimmed
- PC45.** ensure that the looms are stopped for a minimum possible down time due to whatever reason to achieve maximum output
- PC46.** ensure that cloth rolls are doffed whenever/ wherever necessary
- PC47.** give preference to safety. should not enter the area, where he/ she is not allowed. should not do a job in which training has not being given

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** standard operating procedures (sop)and regulations in a jute mill
- KU2.** safe working practices to be adopted in jute mill
- KU3.** quality systems and other processes practiced in the jute mill
- KU4.** reporting to the supervisor or higher authority in case of emergency
- KU5.** color coding adopted for different counts/products in the jute mill
- KU6.** details of the various job roles & responsibilities
- KU7.** documentation and reporting formats
- KU8.** work targets & review with superiors
- KU9.** protocol and format for reporting work related risks/ problems
- KU10.** method of obtaining /giving feed back with respect to performance
- KU11.** importance of team work, harmonious working relationships
- KU12.** process for offering /obtaining work related assistance
- KU13.** responsibilities under health, safety and environmental legislation
- KU14.** guidelines for storage & disposal of waste materials
- KU15.** minimum quality requirements of the product with respect to permissible/nonpermissible defects
- KU16.** fabric quality particulars such as ends & picks per inch, width, weave etc.
- KU17.** handloom, conventional jute loom and shuttleless loom (s4)
- KU18.** plain weave, twill, drill, plain satin, stripe satin, dobby designs, jacquard designs
- KU19.** wrong drawing, wrong denting, end out, double end, broken pick, double pick, missing pick, hand stain , hole, wrong weft, bad selvedge
- KU20.** end out, let off, take up problem, temple mark, temple cut, emery hole /emery cut/ emery mark, broken pick, missing pick, double pick, short pick, snarls, impression mark, oil stain, selvedge cut, loops, weft stitches, warp stitches, bumping mark, weft crack, cloth torn , bad shedding, warp floats, weft floats, reed mark, bad selvedge, starting mark, thin & thick place , hair line crack, under tick in, tails
- KU21.** spinning faults thin place, thick place, contamination

Qualification Pack

- KU22.** colour flies, yarn variation, shade variation
- KU23.** sizing faults shade variation, size patches, sizing oil, bead formation
- KU24.** weaving faults wrong weft, wrong pattern, less width, low epi, low ppi, wrong warp
- KU25.** bis or other standards like iso 9001, iso 14001, sa 8001
- KU26.** the safety mechanisms of the machines & ensure that the same are in order
- KU27.** about the functions of stop motions & ensure that the same are in order
- KU28.** about the functions of various indication lamps & ensure that the same are in order
- KU29.** about the functional operations of the machines, where he/she is working

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** write clear and short sentences
- GS2.** read and comprehend written instructions
- GS3.** communicate with supervisor appropriately
- GS4.** talk to others to convey information effectively
- GS5.** identify the real reason of problem faced
- GS6.** apply problem-solving approaches in different situations
- GS7.** refer anomalies to the supervisor
- GS8.** seek clarification on problems from others
- GS9.** apply good attention to detail
- GS10.** check your work is complete and free from errors
- GS11.** patrol around the handloom and identify warp and weft breakage
- GS12.** procedure for operating different material handling tools and equipments
- GS13.** procedure for patrolling around the loom and identifying worn out or damaged machine parts
- GS14.** maintain cleanliness at work place

HCS/N9906: Maintaining work area, tools and machines

Description

This unit provides performance criteria, knowledge, understanding, skills and abilities required to organize/maintain work areas and activities to ensure the maintenance of tools and machines as per norms.

Elements and Performance Criteria

Maintain the work area, tools and machines

To be competent, the user/individual on the job must be able to:

- PC1.** handle materials, tools and equipment with care and use them in correct way
- PC2.** Use correct and handling procedures
- PC3.** Maintain clean and hazard free working area
- PC4.** Carry out running maintenance within agreed schedules
- PC5.** Carry out maintenance and/or cleaning within ones responsibility
- PC6.** Report unsafe equipment and other dangerous occurrences
- PC7.** Use clean equipment and methods appropriate for the work to be carried out
- PC8.** Dispose of waste safely in the designated location
- PC9.** Store equipment safely after use

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Personal hygiene and duty of care
- KU2.** Safe working practices and organizational procedures
- KU3.** Ways of resolving conflicts/problems within the work area
- KU4.** The design process and the specific work activities that relate to the process
- KU5.** Organizations rules, codes and guidelines
- KU6.** The companys quality standards
- KU7.** Importance of complying with written instructions
- KU8.** Work instructions and ability to interpret them accurately
- KU9.** Relation between work role and the overall manufacturing process
- KU10.** Hazards likely to be encountered when carrying out the maintenance process
- KU11.** Maintenance procedures
- KU12.** Importance of running maintenance and regular cleaning
- KU13.** Safe working practices for maintenance
- KU14.** The importance of taking action when problems are identified
- KU15.** Effects of contamination on products
- KU16.** Common faults with equipment and the method to rectify

Qualification Pack

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Prepare status and progress reports
- GS2.** Write memos and e-mail to co-workers, and vendors to provide them with work updates and to request appropriate information without English language errors in grammar or sentence construct
- GS3.** Keep abreast with the latest knowledge by reading brochures, pamphlets, and product information sheets
- GS4.** Discuss task lists, schedules, and work-loads with co-workers
- GS5.** Keep coworker and supervisor informed about progress
- GS6.** Make decisions pertaining to the concerned area of work
- GS7.** Plan and manage work routine based on company procedure

HCS/N9901: Coordinate with colleagues and work as a team

Description

This NOS describes the communication and coordination skills and knowledge to work with colleagues and supervisor to achieve a smooth and hazard-free workflow.

Scope

The scope covers the following :

- interact with supervisor or superior
- work as a team by coordinating with colleagues within and outside the department and include inputs on PwD & Gender Sensitisation
- report and Document

Elements and Performance Criteria

Interact with supervisor or superior

To be competent, the user/individual on the job must be able to:

- PC1.** comply with health, safety gender, and PwD (People with disability) related instructions applicable to the workplace
- PC2.** actively participate in mock drills/ evacuation procedures; group discussions, training sensitization programs for gender, and PwD awareness organized at the workplace.
- PC3.** receive job orders and instructions from reporting supervisor and receive feedback on work standards.
- PC4.** understand the work output requirements, targets, performance indicators and incentives.
- PC5.** deliver quality work on time and report any anticipated reasons for delays and handover completed work to supervisor
- PC6.** report on any grievances, production defects and any potential hazards.

Work as a team by coordinating with colleagues within and outside the department and include inputs on PwD & Gender Sensitisation

To be competent, the user/individual on the job must be able to:

- PC7.** communicate maintenance and repair schedule proactively to the supervisor
- PC8.** interact and clarify doubts on design, usage of materials & tools, quality & standards compliance, etc.

Report and Document

To be competent, the user/individual on the job must be able to:

- PC9.** report in time for shortage or need of raw materials
- PC10.** communicate with colleagues from within and other departments, clearly and effectively on all aspects to carry out the work among the team
- PC11.** maintain the etiquette, use polite language, demonstrate responsible and disciplined behavior towards colleagues.
- PC12.** put team over individual goals and multi-task or share work where necessary supporting the colleagues.

Qualification Pack

PC13. document all the details accurately relating to ones role as required.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** knowledge about the importance of gender equality being followed in the organization and policies for reporting any harassment or inappropriate behavior
- KU2.** knowledge about how to accommodate employees with disabilities etiquette to adhere to and proper language and terminology
- KU3.** knowledge about how to communicate, offer help, respecting space, parking etc. for people with disabilities or special needs
- KU4.** knowledge about promoting a safe, accessible and healthy workplace for disabled employees
- KU5.** company's policies on preferred language of communication, incentives, quality standards, personnel management, reporting and escalation matrix policy.
- KU6.** company's standard operating procedure (sop) and the risk and impact of not following them.
- KU7.** procedures for working with colleagues, his/her role and responsibilities in relation to this
- KU8.** organizational hierarchy and the line of reporting structure and work target and review mechanism
- KU9.** procedures to report employment related issues and to deal with conflicts
- KU10.** importance of the individuals role in the organizational workflow and details of the individual responsibilities
- KU11.** tools and equipment handling procedure and common potential hazards in the work place and the procedures to deal with them
- KU12.** effective communication with various categories of people and the different departments in the organization
- KU13.** to document the job activity as required like the check sheets, history sheets, etc
- KU14.** expressing and addressing grievances appropriately, deal with difficult work relationships and manage the internal conflicts effectively

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** create a positive and inclusive workplace atmosphere without any kind of bias/discrimination towards any employee
- GS2.** actively take part in any discussion/workshop organized for gender sensitization training
- GS3.** read and comprehend written instructions related to gender equality issues in the organization
- GS4.** identify and report any harassment or inappropriate behavior towards any employee
- GS5.** create a positive and inclusive workplace atmosphere without any kind of bias/discrimination towards any employee with disability or special needs
- GS6.** actively take part in any discussion/workshop organized for disability sensitization training.

Qualification Pack

- GS7.** read and comprehend written instructions related to equality issues in the organization related to disabled persons
- GS8.** read job sheets, design sheet and information displayed at the workplace
- GS9.** read and understand manuals, health and safety instructions, memos etc
- GS10.** fill up documentation to ones role
- GS11.** communicate effectively with supervisor
- GS12.** contribute to quality of team work and achieve smooth workflow
- GS13.** improve work processes by interacting with others and adopting best practices

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

- PC20.** operate digital devices and carry out basic internet operations securely and safely
- PC21.** use e-mail and social media platforms and virtual collaboration tools to work effectively
- PC22.** use basic features of word processor, spreadsheets, and presentations

Entrepreneurship

To be competent, the user/individual on the job must be able to:

- PC23.** identify different types of Entrepreneurship and Enterprises and assess opportunities for potential business through research
- PC24.** develop a business plan and a work model, considering the 4Ps of Marketing Product, Price, Place and Promotion
- PC25.** identify sources of funding, anticipate, and mitigate any financial/ legal hurdles for the potential business opportunity

Customer Service

To be competent, the user/individual on the job must be able to:

- PC26.** identify different types of customers
- PC27.** identify and respond to customer requests and needs in a professional manner.

Qualification Pack

PC28. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC29. create a professional Curriculum vitae (Résumé)

PC30. search for suitable jobs using reliable offline and online sources such as Employment exchange, recruitment agencies, newspapers etc. and job portals, respectively

PC31. apply to identified job openings using offline /online methods as per requirement

PC32. answer questions politely, with clarity and confidence, during recruitment and selection

PC33. identify apprenticeship opportunities and register for it as per guidelines and requirements

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills and different learning and employability related portals

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use English language for effective verbal (face to face and telephonic) and written communication in formal and informal set up

KU6. importance of career development and setting long- and short-term goals

KU7. about effective communication

KU8. POSH Act

KU9. Gender sensitivity and inclusivity

KU10. different types of financial institutes, products, and services

KU11. how to compute income and expenditure

KU12. importance of maintaining safety and security in offline and online financial transactions

KU13. different legal rights and laws

KU14. different types of digital devices and the procedure to operate them safely and securely

KU15. how to create and operate an e- mail account and use applications such as word processors, spreadsheets etc.

KU16. how to identify business opportunities

KU17. types and needs of customers

KU18. how to apply for a job and prepare for an interview

KU19. apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. read and write different types of documents/instructions/correspondence

GS2. communicate effectively using appropriate language in formal and informal settings

Qualification Pack

- GS3.** behave politely and appropriately with all
- GS4.** how to work in a virtual mode
- GS5.** perform calculations efficiently
- GS6.** solve problems effectively
- GS7.** pay attention to details
- GS8.** manage time efficiently
- GS9.** maintain hygiene and sanitization to avoid infection

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score the Recommended Pass % aggregate for the QP.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 50

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Assessment Weightage

Compulsory NOS

National Occupational Standards	Theory Marks	Practical Marks	Project Marks	Viva Marks	Total Marks	Weightage
HCS/N7404.Take charge of shift and hand over shift to Jute Handloom Weaver	30	70	0	0	100	30
HCS/N7405.Run jute handloom efficiently	56	94	0	0	150	30

Qualification Pack

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
