HCS/Q7704: Crochet Lace - Supervisor

Brief Job Description

The Crochet Lace Supervisor oversees the production and quality of intricate lace designs, ensuring adherence to craftsmanship standards while managing a team of skilled artisans. This role combines technical expertise with leadership to maintain the artistic integrity and efficiency of lace manufacturing.

Personal Attributes

A good Crochet Lace Supervisor has a sharp eye for detail and a creative flair, along with strong leadership and communication skills to guide their team and ensure top-quality work. They are also good at solving problems and staying organised to keep everything running smoothly.

Applicable National Occupational Standards (NOS)

HCS/N7721: Role of Supervisor in Crochet lace production

Description

This unit is about oversees the entire process of creating crochet lace products, ensuring efficiency, quality control, and effective team management.

Scope

The scope covers the following :

- Planning and Organizing Work
- Supervision of Production

Elements and Performance Criteria

Planning and Organizing work

To be competent, the user/individual on the job must be able to:

- PC1.** Analyse production orders and customer requirements to develop a comprehensive production plan for crochet lace items.
- PC2.** Estimate and procure raw materials (yarns, threads, hooks, accessories) needed for production, based on the design complexity and volume, ensuring optimal inventory levels.
- PC3.** Schedule tasks and assign specific production stages to individual artisans or groups, considering their skill level and expertise in crochet techniques.
- PC4.** Ensure that artisans are provided with clear work instructions and pattern specifications, minimizing errors and maximizing productivity.
- PC5.** Develop plans for potential production challenges, such as material shortages, artisan absenteeism, or equipment malfunction, to avoid disruption.
- PC6.** Monitor production progress on a daily basis, ensuring products are being manufactured correctly and making adjustments if necessary.
- PC7.** Coordinate with the design team to ensure that the lace patterns and motifs are feasible within the production capabilities and timeframe.

Supervision of Production

To be competent, the user/individual on the job must be able to:

- PC8.** Monitor the entire crochet lace production process to ensure that work is being performed according to the planned schedule and quality standards.
- PC9.** Conduct regular inspections at various stages of production to ensure that patterns, motifs, and designs are being followed accurately by the artisans.
- PC10.** Identify and resolve any production issues, such as design inconsistencies, equipment malfunctions, or delays in workflow, to prevent disruption in the production process.
- PC11.** Provide technical guidance and support to artisans on complex crochet techniques and designs, ensuring consistent skill development and production quality.
- PC12.** Ensure that production tools (crochet hooks, frames, blocking tools) and workstations are properly maintained and set up for efficient operations.

Qualification Pack

- PC13.** Track production outputs daily to ensure that target volumes and quality parameters are met, and take corrective action when there are discrepancies.
- PC14.** Ensure that quality checks are performed at each critical stage of production, identifying and rectifying defects in design, stitching, or finishing before final product approval.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** knowledge of crochet lace production processes, including various crochet techniques, motifs, and patterns, to guide artisans effectively.
- KU2.** Understanding of quality standards and inspection techniques specific to crochet lace products to ensure high-quality output at every stage of production.
- KU3.** Knowledge of the common issues encountered during crochet lace production (e.g., pattern errors, inconsistent stitches) and how to troubleshoot and resolve them.
- KU4.** Familiarity with the tools and equipment used in crochet lace production, ensuring their proper maintenance and efficient use.
- KU5.** Awareness of health and safety standards in the production environment, ensuring a safe workspace for all artisans.
- KU6.** Understanding of effective communication and leadership techniques to manage and motivate a team of artisans, providing guidance and feedback.
- KU7.** Knowledge of workflow optimization techniques, including how to identify and resolve obstacles to improve production efficiency.
- KU8.** Awareness of industry best practices for minimizing waste and improving sustainability in crochet lace production.
- KU9.** Understanding of production tracking and reporting tools to monitor progress, identify difference from plan, and take corrective action.
- KU10.** Familiarity with collaboration and coordination processes with other departments to ensure seamless production operations.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Ability to manage and prioritize multiple tasks and deadlines efficiently, ensuring smooth production flow and timely delivery.
- GS2.** Ability to identify challenges in production planning and implementing solutions to minimize delays or disruptions.
- GS3.** Ability to analyse customer orders, production capacity, and resource availability to create effective production schedules.
- GS4.** Proficient in organizing resources (artisans, materials, tools) effectively to maximize efficiency and productivity.
- GS5.** Ability to plan every aspect of production, from materials purchase to artisan task allocation, to avoid errors or miscalculations.

Qualification Pack

- GS6.** Proficient in clearly conveying production plans, work schedules, and task expectations to artisans and other team members.
- GS7.** Skilled in managing materials and workforce allocation to ensure optimal use of resources, avoiding wastage or shortages.
- GS8.** Ability to adjust plans based on changes in customer demand, unexpected production issues, or material availability.
- GS9.** Ability to work with other departments (purchase, design, and quality control) to ensure all aspects of production are in sync with overall company objectives.
- GS10.** Ability to maintain accurate records of production plans, material usage, and worker performance for future reference and analysis.

HCS/N7722: Inventory and Resource Management

Description

This unit is about the effective planning, tracking, and utilization of materials, tools, and human resources to ensure seamless production. The supervisor is responsible for maintaining optimal inventory levels, allocating resources based on production needs, and ensuring the efficient use of materials to minimize waste while ensuring quality.

Scope

The scope covers the following :

- Inventory Management
- Resource Allocation and Management
- Cost and Budget Management

Elements and Performance Criteria

Inventory Management

To be competent, the user/individual on the job must be able to:

- PC1.** Accurately forecast the material requirements based on production schedules and expected demand.
- PC2.** Maintain optimal inventory levels of raw materials (e.g., yarns, threads, hooks) and tools to avoid overstocking or stockouts.
- PC3.** Monitor and record material usage on a daily basis to ensure efficient utilization and prevent wastage.
- PC4.** Conduct regular inventory audits to ensure accuracy in stock levels and identify discrepancies.
- PC5.** Implement stock control measures to ensure materials are stored properly to avoid damage or spoilage.

Resource Allocation and Management

To be competent, the user/individual on the job must be able to:

- PC6.** Assign tasks to artisans based on their skill level, experience, and the complexity of the production requirements.
- PC7.** Ensure that all artisans are equipped with the necessary tools and materials to carry out their tasks efficiently.
- PC8.** Monitor the usage of tools and equipment, ensuring proper handling and preventing damage or loss.
- PC9.** Track the performance and productivity of artisans, making necessary adjustments in task allocation to optimize output.
- PC10.** Communicate clearly with artisans about production goals, deadlines, and any changes in resource allocation.
- PC11.** Identify any gaps or shortfalls in resource availability (tools, materials, or workforce) and take prompt corrective action.

Qualification Pack

PC12. Collaborate with other departments, such as quality control and design, to ensure that resource management aligns with production requirements.

Cost and Budget Management

To be competent, the user/individual on the job must be able to:

PC13. Track material costs and ensure purchase remains within the budget allocated for production.

PC14. Ensure that all resources are used efficiently to reduce overhead costs while maintaining product quality.

PC15. Develop a budget plan for material purchase and resource allocation, balancing cost control with production efficiency.

PC16. Regularly review and adjust the budget based on actual material usage and production performance.

PC17. Coordinate with finance or purchase teams to ensure that purchases are cost-effective without sacrificing quality.

PC18. Ensure that records of all material costs and resource expenditures are kept for financial reporting and planning.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. Know how to check and keep track of materials and tools in stock to avoid running out or having too much.

KU2. Understand how to do regular stock checks to ensure the numbers are correct and nothing is missing.

KU3. Understand how to store materials properly so they do not get damaged or ruined.

KU4. Understand how to assign work to artisans based on their skills and the complexity of the tasks.

KU5. Know how to make sure artisans have the right tools and materials to do their jobs efficiently.

KU6. Know how to monitor artisan performance and make adjustments to their tasks if necessary to improve productivity.

KU7. Understand how to work with other departments, like quality control and design, to ensure the resources match the production needs.

KU8. Understand how to keep track of material costs and make sure the expenses stay within the budget.

KU9. Know how to review and adjust the budget based on actual usage and performance to avoid overspending.

KU10. Know how to review financial reports regularly to check if resource management is cost-effective and make improvements if needed.

Generic Skills (GS)

User/individual on the job needs to know how to:

Qualification Pack

- GS1.** Ability to clearly communicate with team members, suppliers, and management to ensure smooth coordination of materials, resources, and work tasks.
- GS2.** Ability to identify and address issues, such as shortages in materials or misallocation of resources, and find quick, effective solutions to maintain workflow.
- GS3.** Ability to work collaboratively with artisans, other departments (such as design, quality control), and purchase teams to ensure resources are managed properly.
- GS4.** Ability to adjust work plans or resource allocation in response to changes in production needs or unexpected shortages of materials.
- GS5.** Ability to efficiently distributing tools, materials, and workforce based on production needs to optimize resource use and minimize wastage.
- GS6.** Ability to manage and monitor the cost of materials and resources, ensuring spending stays within the allocated budget while meeting production targets.
- GS7.** Ability to maintain accurate and detailed records of inventory, resource usage, and costs to ensure compliance with audits and future planning.
- GS8.** Strong leadership skills to supervise a team of artisans, monitor their performance, and ensure that tasks are completed on time and to the required standards.

HCS/N7723: Quality Control and Assurance

Description

This unit is about the Quality Control and Assurance in crochet lace production involves systematic processes aimed at ensuring that the final products meet established quality standards.

Scope

The scope covers the following :

- Establishing Quality Control Standards
- Conducting Quality Inspections
- Implementing Corrective Actions and Continuous Improvement

Elements and Performance Criteria

Establishing Quality Control Standards

To be competent, the user/individual on the job must be able to:

- PC1.** Set quality control standards for materials, production processes, and finished crochet lace products, ensuring alignment with customer specifications and industry level.
- PC2.** Explain quality control standards effectively to all team members, ensuring their understanding and adherence during the production process.
- PC3.** Regularly review and update quality standards based on feedback, production outcomes, and market trends to ensure continuous improvement.
- PC4.** Collaborate with designers and artisans to ensure that quality standards are feasible and practical within the production context.

Conducting Quality Inspections

To be competent, the user/individual on the job must be able to:

- PC5.** Implement a systematic schedule for conducting quality inspections at various stages of the crochet lace production process, including raw material evaluation and final product assessment.
- PC6.** Perform inspections to identify defects, inconsistencies, and differences from established quality standards in both in-process and finished items.
- PC7.** Maintain accurate records of inspection results, documenting any defects found and actions taken to address quality issues.
- PC8.** Provide immediate feedback to artisans during inspections to promote real-time learning and quality awareness.

Implementing Corrective Actions and Continuous Improvement

To be competent, the user/individual on the job must be able to:

- PC9.** Identify and analyse the causes of defects or quality issues, and develop appropriate corrective action plans to address them effectively.
- PC10.** Communicate with team members about identified deficiencies and necessary improvements to foster a collaborative approach to quality enhancement.

Qualification Pack

- PC11.** Monitor the effectiveness of implemented corrective actions and make adjustments as needed to ensure ongoing compliance with quality standards.
- PC12.** Conduct regular team meetings to discuss quality issues, share insights, and brainstorm solutions for continuous improvement.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Understand the principles of quality control and the importance of establishing clear and measurable quality standards for materials and products.
- KU2.** Familiarity with relevant industry regulations and standards that impact quality in crochet lace production, including safety and compliance requirements.
- KU3.** Knowledge of effective communication techniques to convey quality standards clearly to all team members, ensuring their comprehension and application in the production process.
- KU4.** Knowledge of the processes for reviewing and updating quality standards based on market trends, feedback, and production outcomes.
- KU5.** Knowledge of various inspection methods and tools used in assessing the quality of raw materials, in-process items, and finished products in crochet lace production.
- KU6.** Know how to identify different types of defects and differences from quality standards, as well as the potential causes of these issues.
- KU7.** Familiarity with effective documentation practices for maintaining accurate records of inspection results and quality control processes.
- KU8.** Know the importance of providing constructive feedback to team members during inspections to promote learning and improvement.
- KU9.** Knowledge of methods and tools for analysing the causes of quality issues and defects to inform effective corrective action planning.
- KU10.** Know the significance of teamwork and communication in addressing quality issues and implementing improvements collaboratively.
- KU11.** Familiarity with techniques for monitoring the effectiveness of corrective actions and making necessary adjustments to quality control processes.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Ability to observe and identify small defects and inconsistencies in materials and products, ensuring high-quality standards are met.
- GS2.** Skill in analyzing inspection data, identifying trends in quality issues, and making informed decisions based on that analysis.
- GS3.** Proficiency in conveying information clearly and effectively to team members, including instructions related to quality standards and inspection results.
- GS4.** Ability to prioritize tasks effectively, ensuring that quality inspections and corrective actions are completed within the production schedule.

Qualification Pack

- GS5.** Understanding of industry-specific quality control standards and regulations applicable to crochet lace production, ensuring compliance.
- GS6.** Proficiency in using various inspection methods and tools to assess the quality of materials and finished products accurately.
- GS7.** Skill in documenting inspection results and quality metrics accurately and maintaining organized records for audit purposes.
- GS8.** Ability to lead quality control initiatives, encourage collaboration among team members, and motivate them to maintain high-quality standards in their work.

HCS/N9901: Coordinate with colleagues and work as a team

Description

This NOS describes the communication and coordination skills and knowledge to work with colleagues and supervisor to achieve a smooth and hazard-free workflow.

Scope

The scope covers the following :

- interact with supervisor or superior
- work as a team by coordinating with colleagues within and outside the department and include inputs on PwD & Gender Sensitisation
- report and Document

Elements and Performance Criteria

Interact with supervisor or superior

To be competent, the user/individual on the job must be able to:

- PC1.** comply with health, safety gender, and PwD (People with disability) related instructions applicable to the workplace
- PC2.** actively participate in mock drills/ evacuation procedures; group discussions, training sensitization programs for gender, and PwD awareness organized at the workplace.
- PC3.** receive job orders and instructions from reporting supervisor and receive feedback on work standards.
- PC4.** understand the work output requirements, targets, performance indicators and incentives.
- PC5.** deliver quality work on time and report any anticipated reasons for delays and handover completed work to supervisor
- PC6.** report on any grievances, production defects and any potential hazards.

Work as a team by coordinating with colleagues within and outside the department and include inputs on PwD & Gender Sensitisation

To be competent, the user/individual on the job must be able to:

- PC7.** communicate maintenance and repair schedule proactively to the supervisor
- PC8.** interact and clarify doubts on design, usage of materials & tools, quality & standards compliance, etc.

Report and Document

To be competent, the user/individual on the job must be able to:

- PC9.** report in time for shortage or need of raw materials
- PC10.** communicate with colleagues from within and other departments, clearly and effectively on all aspects to carry out the work among the team
- PC11.** maintain the etiquette, use polite language, demonstrate responsible and disciplined behavior towards colleagues.
- PC12.** put team over individual goals and multi-task or share work where necessary supporting the colleagues.

Qualification Pack

PC13. document all the details accurately relating to ones role as required.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** knowledge about the importance of gender equality being followed in the organization and policies for reporting any harassment or inappropriate behavior
- KU2.** knowledge about how to accommodate employees with disabilities etiquette to adhere to and proper language and terminology
- KU3.** knowledge about how to communicate, offer help, respecting space, parking etc. for people with disabilities or special needs
- KU4.** knowledge about promoting a safe, accessible and healthy workplace for disabled employees
- KU5.** company's policies on preferred language of communication, incentives, quality standards, personnel management, reporting and escalation matrix policy.
- KU6.** company's standard operating procedure (sop) and the risk and impact of not following them.
- KU7.** procedures for working with colleagues, his/her role and responsibilities in relation to this
- KU8.** organizational hierarchy and the line of reporting structure and work target and review mechanism
- KU9.** procedures to report employment related issues and to deal with conflicts
- KU10.** importance of the individuals role in the organizational workflow and details of the individual responsibilities
- KU11.** tools and equipment handling procedure and common potential hazards in the work place and the procedures to deal with them
- KU12.** effective communication with various categories of people and the different departments in the organization
- KU13.** to document the job activity as required like the check sheets, history sheets, etc
- KU14.** expressing and addressing grievances appropriately, deal with difficult work relationships and manage the internal conflicts effectively

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** create a positive and inclusive workplace atmosphere without any kind of bias/discrimination towards any employee
- GS2.** actively take part in any discussion/workshop organized for gender sensitization training
- GS3.** read and comprehend written instructions related to gender equality issues in the organization
- GS4.** identify and report any harassment or inappropriate behavior towards any employee
- GS5.** create a positive and inclusive workplace atmosphere without any kind of bias/discrimination towards any employee with disability or special needs
- GS6.** actively take part in any discussion/workshop organized for disability sensitization training.

Qualification Pack

- GS7.** read and comprehend written instructions related to equality issues in the organization related to disabled persons
- GS8.** read job sheets, design sheet and information displayed at the workplace
- GS9.** read and understand manuals, health and safety instructions, memos etc
- GS10.** fill up documentation to ones role
- GS11.** communicate effectively with supervisor
- GS12.** contribute to quality of team work and achieve smooth workflow
- GS13.** improve work processes by interacting with others and adopting best practices

To be competent, the user/individual on the job must be able to:

- PC5.** recognize the significance of 21st Century Skills for employment
- PC6.** practice the 21st Century Skills such as Self-Awareness, Behaviour Skills, time management, critical and adaptive thinking, problem-solving, creative thinking, social and cultural awareness, emotional awareness, learning to learn for continuous learning etc. in personal and professional life

Basic English Skills

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC7.** use basic English for everyday conversation in different contexts, in person and over the telephone
- PC8.** read and understand routine information, notes, instructions, mails, letters etc. written in English
- PC9.** write short messages, notes, letters, e-mails etc. in English

Career Development & Goal Setting

To be competent, the user/individual on the job must be able to:

- PC10.** understand the difference between job and career
- PC11.** prepare a career development plan with short- and long-term goals, based on aptitude

Communication Skills

To be competent, the user/individual on the job must be able to:

- PC12.** follow verbal and non-verbal communication etiquette and active listening techniques in various settings
- PC13.** work collaboratively with others in a team

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

- PC14.** communicate and behave appropriately with all genders and PwD
- PC15.** escalate any issues related to sexual harassment at workplace according to POSH Act

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

- PC16.** select financial institutions, products and services as per requirement
- PC17.** carry out offline and online financial transactions, safely and securely
- PC18.** identify common components of salary and compute income, expenses, taxes, investments etc
- PC19.** identify relevant rights and laws and use legal aids to fight against legal exploitation

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

- PC20.** operate digital devices and carry out basic internet operations securely and safely
- PC21.** use e- mail and social media platforms and virtual collaboration tools to work effectively
- PC22.** use basic features of word processor, spreadsheets, and presentations

Entrepreneurship

To be competent, the user/individual on the job must be able to:

- PC23.** identify different types of Entrepreneurship and Enterprises and assess opportunities for potential business through research
- PC24.** develop a business plan and a work model, considering the 4Ps of Marketing Product, Price, Place and Promotion
- PC25.** identify sources of funding, anticipate, and mitigate any financial/ legal hurdles for the potential business opportunity

Customer Service

To be competent, the user/individual on the job must be able to:

- PC26.** identify different types of customers
- PC27.** identify and respond to customer requests and needs in a professional manner.

Qualification Pack

PC28. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC29. create a professional Curriculum vitae (Résumé)

PC30. search for suitable jobs using reliable offline and online sources such as Employment exchange, recruitment agencies, newspapers etc. and job portals, respectively

PC31. apply to identified job openings using offline /online methods as per requirement

PC32. answer questions politely, with clarity and confidence, during recruitment and selection

PC33. identify apprenticeship opportunities and register for it as per guidelines and requirements

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills and different learning and employability related portals

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use English language for effective verbal (face to face and telephonic) and written communication in formal and informal set up

KU6. importance of career development and setting long- and short-term goals

KU7. about effective communication

KU8. POSH Act

KU9. Gender sensitivity and inclusivity

KU10. different types of financial institutes, products, and services

KU11. how to compute income and expenditure

KU12. importance of maintaining safety and security in offline and online financial transactions

KU13. different legal rights and laws

KU14. different types of digital devices and the procedure to operate them safely and securely

KU15. how to create and operate an e- mail account and use applications such as word processors, spreadsheets etc.

KU16. how to identify business opportunities

KU17. types and needs of customers

KU18. how to apply for a job and prepare for an interview

KU19. apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. read and write different types of documents/instructions/correspondence

GS2. communicate effectively using appropriate language in formal and informal settings

Qualification Pack

- GS3.** behave politely and appropriately with all
- GS4.** how to work in a virtual mode
- GS5.** perform calculations efficiently
- GS6.** solve problems effectively
- GS7.** pay attention to details
- GS8.** manage time efficiently
- GS9.** maintain hygiene and sanitization to avoid infection

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score the Recommended Pass % aggregate for the QP.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
