HCS/N9015: Carry out the process of upcycling scraps and e-waste

Description

This OS unit is about preparing raw materials, and upcycling scraps and e-waste to an end product.

Scope

The scope covers the following :

- collect required raw materials and tools for making final product
- follow safety measures while handling waste
- perform the process of upcycling scraps and e-waste
- check quality and productivity standards of upcycled scraps and e-waste

Elements and Performance Criteria

Collect required raw materials and tools for making final product

To be competent, the user/individual on the job must be able to:

- PC1.** Identify and plan the structure, artifacts, and decorative to be made.
- PC2.** Collect raw materials like wood, metal, glass, rubber, e-waste, plastic, and cloth waste.
- PC3.** Check and sort scraps and e-waste as per requirements.
- PC4.** Place raw materials at designated locations safely.
- PC5.** Collect tools (marker, ruler, cutters, welding machine, etc.) required for upcycling.
- PC6.** Place tools at designated locations safely.
- PC7.** Deliver remaining raw materials to storage locations.

Follow safety measures while handling waste

To be competent, the user/individual on the job must be able to:

- PC8.** Handle all waste materials safely and securely.
- PC9.** Use PPE for tasks (e.g., goggles, gloves, face mask).
- PC10.** Maintain proper posture while lifting or working.

Perform the process of upcycling scraps and e-waste

To be competent, the user/individual on the job must be able to:

- PC11.** Prepare and upcycle wood scraps by marking, cutting, sanding, and engraving the pieces, then assembling them into the required structure or decorative item, while checking the quality for modifications if necessary.
- PC12.** Prepare and upcycle metal scraps by marking, cutting, assembling, and welding the pieces into the required structure or decorative item, then checking the quality for modifications if necessary.
- PC13.** Prepare and upcycle glass scraps by marking, cutting, assembling pieces into the required structure or decorative item, and checking the quality for modifications if necessary.
- PC14.** Prepare and upcycle rubber scraps by marking, cutting, assembling, and joining pieces with industrial glue, and checking the quality of the final product.

Qualification Pack

- PC15.** Prepare and upcycle e-waste by marking, cutting, assembling pieces into structures, artifacts, or decorative, and checking the quality of the final product.
- PC16.** Prepare and upcycle plastic scraps by gathering, cleaning, shredding, and assembling pieces into structures, artifacts, or decorative using industrial glue.
- PC17.** Prepare and upcycle cloth scraps by collecting, cleaning, cutting, patching, sewing, adding embellishments, and checking the quality of the final product.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** personnel management, relevant legislation, standards, policies, and procedures followed in the company
- KU2.** organisational structure
- KU3.** the key product lines of the company
- KU4.** basic chemical properties of various raw materials used
- KU5.** appropriate wood, glass, metal, rubber, e-waste preparing techniques
- KU6.** appropriate cutting techniques
- KU7.** process of assembling prepared wood, rubber, metal glass and e-waste as per requirement
- KU8.** size and shape of the structure, artifact or decorative to be prepared
- KU9.** handle the use of sharp tool and harmful material
- KU10.** ensuring that there is no mal handling/accidents due to improper handling of the raw materials
- KU11.** the recommended storage of the final product
- KU12.** risk and impact of not following defined procedures/work instructions
- KU13.** the hierarchy for reporting identified problems
- KU14.** implications of delays in the process

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** write preparing, cutting, assembling techniques
- GS2.** read and interpret symbols and readings
- GS3.** read about various decoration related information
- GS4.** read and understand manuals, health and safety instructions, memos, reports and job cards
- GS5.** interact with employees to work efficiently
- GS6.** make decisions pertaining to the concerned area of workplace
- GS7.** communicate the gaps in process, if any to supervisor
- GS8.** take the right raw materials according to the end product
- GS9.** detect problems in day to day tasks
- GS10.** maintain the working schedule appropriately in order to achieve the daily targets
- GS11.** interpret the customer preference, demand, etc. and accordingly make job sheet

Qualification Pack

GS12. follow instructions and work on areas of improvement identified

HCS/N8506: Entrepreneurship Skills in Upcycling Scraps and E-waste Sector

Description

This unit focuses on entrepreneurship in the upcycling scraps and e-waste sector involves transforming discarded materials into valuable products, driving sustainability while addressing waste management challenges. This requires skills in innovation, product design, and resourcefulness to create marketable goods from waste.

Scope

The scope covers the following :

- understanding waste materials
- creative thinking
- sustainability awareness
- understanding waste processing technology
- awareness of regulations

Elements and Performance Criteria

Understanding Waste Materials

To be competent, the user/individual on the job must be able to:

- PC1.** identify the different types of waste materials, such as metals, plastics, and electronic components, and know how they can be safely and effectively reused
- PC2.** identify which parts of the waste have value and how to turn them into usable products

Creative Thinking

To be competent, the user/individual on the job must be able to:

- PC3.** need to think creatively about how to transform old, discarded items into something new and useful
- PC4.** use innovative design helps in creating appealing products from waste, which can attract more customers

Sustainability Awareness

To be competent, the user/individual on the job must be able to:

- PC5.** knowing the positive impact of upcycling on reducing pollution, conserving resources, and promoting eco-friendly living
- PC6.** use processes that are environmentally safe and energy-efficient, which is key to appealing to eco-conscious consumers

Understanding Waste Processing Technology

To be competent, the user/individual on the job must be able to:

- PC7.** learn how to operate machines used in processing scrap, like shredders, compactors, or smelters
- PC8.** know about safe methods to handle chemicals used in extracting metals from e-waste (like gold from circuit boards)

Qualification Pack

Awareness of Regulations

To be competent, the user/individual on the job must be able to:

- PC9.** know the regulations around e-waste handling, disposal, and upcycling, including any certifications or permits they need
- PC10.** aware of the recycling and waste management standards that apply to their business
- PC11.** know local laws and regulations regarding the disposal and recycling of e-waste to stay compliant

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** need a deep understanding of circular economy principles, which focus on reducing waste, reusing resources, and minimizing environmental harm
- KU2.** techniques that minimize waste and promote recycling and upcycling, such as resource optimization and material innovation
- KU3.** knowledge of local and international environmental laws and regulations governing the handling, disposal, and recycling of e-waste and scrap materials
- KU4.** different categories of scrap (metal, plastic, fabric, etc.) and e-waste (computers, phones, electronics) is essential for identifying valuable materials for upcycling
- KU5.** organizing and optimizing the collection, transportation, and storage of waste materials, ensuring cost-efficiency and sustainability
- KU6.** know where and how to source scrap and e-waste materials reliably
- KU7.** know how to properly sort and categorize waste materials to maximize their potential for upcycling
- KU8.** recognize market trends to identify which upcycled products are in demand, such as fashion accessories, home decor, or tech gadgets made from e-waste
- KU9.** story behind upcycled products often adds value, highlighting their sustainable impact
- KU10.** legal framework surrounding e-waste management, including health and safety standards for handling toxic substances and ensuring proper disposal of non-recyclable waste

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** thinking of new ways to turn waste and scraps into useful or artistic products
- GS2.** creating designs that are attractive, functional, and made from recycled materials
- GS3.** knowing the types of scrap and e-waste materials, like metals, plastics, and electronics, and how to work with them
- GS4.** environmental benefits of upcycling and scraps
- GS5.** methods that reduce waste and promote recycling
- GS6.** being flexible and able to adjust to new trends, materials, or market demands
- GS7.** listening to what customers want and creating products that meet their desires

HCS/N9901: Coordinate with colleagues and work as a team

Description

This NOS describes the communication and coordination skills and knowledge to work with colleagues and supervisor to achieve a smooth and hazard-free workflow.

Scope

The scope covers the following :

- interact with supervisor or superior
- work as a team by coordinating with colleagues within and outside the department and include inputs on PwD & Gender Sensitisation
- report and Document

Elements and Performance Criteria

Interact with supervisor or superior

To be competent, the user/individual on the job must be able to:

- PC1.** comply with health, safety gender, and PwD (People with disability) related instructions applicable to the workplace
- PC2.** actively participate in mock drills/ evacuation procedures; group discussions, training sensitization programs for gender, and PwD awareness organized at the workplace.
- PC3.** receive job orders and instructions from reporting supervisor and receive feedback on work standards.
- PC4.** understand the work output requirements, targets, performance indicators and incentives.
- PC5.** deliver quality work on time and report any anticipated reasons for delays and handover completed work to supervisor
- PC6.** report on any grievances, production defects and any potential hazards.

Work as a team by coordinating with colleagues within and outside the department and include inputs on PwD & Gender Sensitisation

To be competent, the user/individual on the job must be able to:

- PC7.** communicate maintenance and repair schedule proactively to the supervisor
- PC8.** interact and clarify doubts on design, usage of materials & tools, quality & standards compliance, etc.

Report and Document

To be competent, the user/individual on the job must be able to:

- PC9.** report in time for shortage or need of raw materials
- PC10.** communicate with colleagues from within and other departments, clearly and effectively on all aspects to carry out the work among the team
- PC11.** maintain the etiquette, use polite language, demonstrate responsible and disciplined behavior towards colleagues.
- PC12.** put team over individual goals and multi-task or share work where necessary supporting the colleagues.

Qualification Pack

PC13. document all the details accurately relating to ones role as required.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** knowledge about the importance of gender equality being followed in the organization and policies for reporting any harassment or inappropriate behavior
- KU2.** knowledge about how to accommodate employees with disabilities etiquette to adhere to and proper language and terminology
- KU3.** knowledge about how to communicate, offer help, respecting space, parking etc. for people with disabilities or special needs
- KU4.** knowledge about promoting a safe, accessible and healthy workplace for disabled employees
- KU5.** company's policies on preferred language of communication, incentives, quality standards, personnel management, reporting and escalation matrix policy.
- KU6.** company's standard operating procedure (sop) and the risk and impact of not following them.
- KU7.** procedures for working with colleagues, his/her role and responsibilities in relation to this
- KU8.** organizational hierarchy and the line of reporting structure and work target and review mechanism
- KU9.** procedures to report employment related issues and to deal with conflicts
- KU10.** importance of the individuals role in the organizational workflow and details of the individual responsibilities
- KU11.** tools and equipment handling procedure and common potential hazards in the work place and the procedures to deal with them
- KU12.** effective communication with various categories of people and the different departments in the organization
- KU13.** to document the job activity as required like the check sheets, history sheets, etc
- KU14.** expressing and addressing grievances appropriately, deal with difficult work relationships and manage the internal conflicts effectively

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** create a positive and inclusive workplace atmosphere without any kind of bias/discrimination towards any employee
- GS2.** actively take part in any discussion/workshop organized for gender sensitization training
- GS3.** read and comprehend written instructions related to gender equality issues in the organization
- GS4.** identify and report any harassment or inappropriate behavior towards any employee
- GS5.** create a positive and inclusive workplace atmosphere without any kind of bias/discrimination towards any employee with disability or special needs
- GS6.** actively take part in any discussion/workshop organized for disability sensitization training.

Qualification Pack

- GS7.** read and comprehend written instructions related to equality issues in the organization related to disabled persons
- GS8.** read job sheets, design sheet and information displayed at the workplace
- GS9.** read and understand manuals, health and safety instructions, memos etc
- GS10.** fill up documentation to ones role
- GS11.** communicate effectively with supervisor
- GS12.** contribute to quality of team work and achieve smooth workflow
- GS13.** improve work processes by interacting with others and adopting best practices

HCS/N9913: Maintain health, safety and security at workplace

Description

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required to comply with health, safety and security requirements at the workplace and covers procedures to prevent, control and minimise risk to self and others.

Elements and Performance Criteria

Comply with health, safety and security requirements at work

To be competent, the user/individual on the job must be able to:

- PC1.** Comply with health and safety related instructions applicable to the workplace.
- PC2.** Use and maintain personal protective equipment as per protocol.
- PC3.** Carry out own activities in line with approved guidelines and procedures.
- PC4.** Maintain a healthy lifestyle and guard against dependency on intoxicants.
- PC5.** Follow environment management system related procedures.
- PC6.** Store materials and tools in line with manufacturers and organisational requirements.
- PC7.** Safely handle and move waste and debris.
- PC8.** Minimize health and safety risks to self and others due to own actions.
- PC9.** Seek clarifications, from supervisors or other authorized personnel in case of perceived risks.
- PC10.** Monitor the workplace and work processes for potential risks and threats.
- PC11.** Carry out periodic walk-through to keep work area free from hazards and obstructions, if assigned.
- PC12.** Report hazards and potential risks/ threats to supervisors or other authorized personnel.
- PC13.** Participate in mock drills/ evacuation procedures organized at the workplace.
- PC14.** Undertake first aid, fire-fighting and emergency response training, if asked to do so.
- PC15.** Take action based on instructions in the event of fire, emergencies or accidents.
- PC16.** Follow organisation procedures for evacuation when required.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Health and safety related practices applicable at the workplace.
- KU2.** Potential hazards, risks and threats based on nature of operations.
- KU3.** Organizational procedures for safe handling of tools.
- KU4.** Potential risks due to own actions and methods to minimize these.
- KU5.** Environmental management system related procedures at the workplace.
- KU6.** Layout of the plant and details of emergency exits, escape routes, emergency equipment and assembly points.
- KU7.** Potential accidents and emergencies and response to these scenarios.

Qualification Pack

- KU8.** Reporting protocol and documentation required.
- KU9.** Details of personnel trained in first aid, fire-fighting and emergency response.
- KU10.** Actions to take in the event of a mock drills/ evacuation procedures or actual accident, emergency or fire.
- KU11.** Occupational health and safety risks and methods.
- KU12.** Personal protective equipment and method of use.
- KU13.** Identification, handling and storage of hazardous substances.
- KU14.** Proper disposal system for waste and by-products.
- KU15.** Signage related to health and safety and their meaning.
- KU16.** Importance of sound health, hygiene and good habits.
- KU17.** Ill-effects of alcohol, tobacco and drugs.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Write in local language.
- GS2.** Read measurement instructions.
- GS3.** Communicate orally with colleagues.
- GS4.** Follow organization rule-based decision making process.
- GS5.** Take decision with systematic course of actions and/or response.
- GS6.** Plan and organize your work to achieve targets and deadlines.
- GS7.** Manage relationships with customers.
- GS8.** Build customer relationships and use customer centric approach.
- GS9.** Think through the problem, evaluate the possible solution(s) and suggest an optimum /best possible solution(s).
- GS10.** Identify immediate or temporary solutions to resolve delays.
- GS11.** Analyze data and activities.
- GS12.** Pass on relevant information to others.
- GS13.** Apply, analyze, and evaluate the information gathered from observation, experience, reasoning, or communication, as a guide to thought and action.

HCS/N9903: Maintain Personal Hygiene

Description

This NOS provides the abilities required for taking responsibility for their own health at the workplace and is about using the correct procedures to prevent, control and minimize risk to them and others at the workplace.

Scope

The scope covers the following :

- adopt healthy work practices
- achieve work productivity while maintaining health

Elements and Performance Criteria

Adopt healthy work practices

To be competent, the user/individual on the job must be able to:

- PC1.** always cover the mouth and nose with a dust mask while working and keep on changing when it gets blocked with dust
- PC2.** wear safety shoes while visiting the production unit to avoid any damage
- PC3.** wear personal protective equipment while visiting the different departments during production. orexample mask in the washing section, glasses and mask in an assembly line, and gloves in the printing section, etc.
- PC4.** always wash sanitize your hands after a factory unit before touching any document, laptop, cell phone, etc.
- PC5.** undergo preventive health checkups at regular intervals.
- PC6.** take prompt treatment from the doctor in case of illness.

Achieve work productivity while maintaining health

To be competent, the user/individual on the job must be able to:

- PC7.** follow SOPs for dealing with blisters; scratches; accidental fires or any other type of emergencies at work
- PC8.** ensure no productivity loss or absenteeism from work due to illness
- PC9.** ensure no long-term ill effect on personal health.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** company's policies on personal health and occupational hazard management
- KU2.** company's HR policies.
- KU3.** company's reporting structure
- KU4.** company's emergency evacuation procedure
- KU5.** health risks to the worker at the workplace

Qualification Pack

- KU6.** healthy work practices
- KU7.** how to perform the duties in a way to minimize pollution at the workplace.
- KU8.** what personal protective equipment should be worn and how it is cared for
- KU9.** safe disposal methods for waste
- KU10.** how to provide first-aid treatment at the workplace
- KU11.** emergency procedures to be followed in case of an mishap such as fire accidents etc.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read personal health instructions and manual
- GS2.** read the usage of various hand tools and personal protection equipment
- GS3.** take notes on descriptions and details of various personal health maintenance procedures
- GS4.** communicate supervisor about the physical symptoms
- GS5.** receive instructions from doctor and supervisor on medical care
- GS6.** how to select appropriate hand tools and personal protection equipment
- GS7.** when to change personal protection equipment during work
- GS8.** how to identify first aid needs in case and of an injury
- GS9.** how to select appropriate hand tools and personal protection equipment
- GS10.** when to change personal protection equipment during work
- GS11.** how to use materials that does not affect customer health / make injury
- GS12.** improve work processes by adopting best safety practices
- GS13.** analyze the usage of appropriate tools and consumables
- GS14.** spot errors and any other disruptions and communicate with solutions

HCS/N9904: Basic Business Management

Description

This OS unit focuses on business planning, internal strategy, timelines.

Scope

The scope covers the following :

- People management
- Product planning
- Procurement of raw materials
- Market interfacing
- Financial management
- Record keeping

Elements and Performance Criteria

People management

To be competent, the user/individual on the job must be able to:

- PC1.** arrange Interactive meetings of managers of sales and production teams and categorize the issues and feedbacks of both the teams
- PC2.** train the employees of his/her unit with the appropriate skills required to make marketrelevant and quality products
- PC3.** motivate the employees

Product planning

To be competent, the user/individual on the job must be able to:

- PC4.** compile a report based on old production reports
- PC5.** address the issues faced in previous productions and try to resolve them
- PC6.** gather and analyze the cues from the market
- PC7.** ascertain the customer preference
- PC8.** develop product range lines based on current market preference
- PC9.** develop product range lines that are unique and able to price high
- PC10.** price the products according to market trends
- PC11.** identify the competent marketing strategy for the product range

Procurement of raw materials

To be competent, the user/individual on the job must be able to:

- PC12.** list of the raw material s and prepare a B.O.M according to the product lines
- PC13.** ascertain the quantity and right price to procure the materials
- PC14.** identify the right locations/agents from where the raw materials can be procured
- PC15.** negotiate to get the best price
- PC16.** ensure quality materials are procured

Qualification Pack

- PC17.** ensure the procured materials are stored in appropriate conditions
- PC18.** compile a record of price quotations, POs, and bills of procurement for future reference

Market interfacing

To be competent, the user/individual on the job must be able to:

- PC19.** maintain a healthy and professional relationship with vendor
- PC20.** the competitive market falls in order with the company policies of best price, quality, and delivery parameters
- PC21.** analyze the prevalent price for product lines
- PC22.** decide on the most effective means to access the market
- PC23.** plan for cost-effective transportation to the market
- PC24.** position the product according to market requirements
- PC25.** identify and address the expectations of customer

Financial management

To be competent, the user/individual on the job must be able to:

- PC26.** analyze and ascertain the cost of production
- PC27.** maintain the book of accounts related to the business
- PC28.** maintain export documents like a letter of credit, custom clearance
- PC29.** identify cost-effective means of running the business

Record keeping

To be competent, the user/individual on the job must be able to:

- PC30.** identify various aspects of business that require recording
- PC31.** design formats for recording
- PC32.** compile various records of all aspects of the business
- PC33.** maintain these records with periodic updations
- PC34.** maintain necessary documents as per local government and regulatory requirements
- PC35.** reframe the procurement strategy according to local scenarios like weather conditions, transport strikes, affected prices, etc.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** interpersonal skills and communication with a cross-section of stakeholders
- KU2.** understanding of basics accounting so that he/she can monitor the transactions between company and vendor
- KU3.** knowledge of banking basics to keep the export process flawless
- KU4.** understanding of costing principles to calculate the cost of production with all the overheads and the actual price
- KU5.** product and craft knowledge including material and tools requirements
- KU6.** gathering market intelligence.
- KU7.** various transportation means and implications on costing
- KU8.** various product lines that can be created depending on the sector of operation

Qualification Pack

- KU9.** basic record-keeping techniques
- KU10.** basic laws, rules, regulations, etc. regarding business
- KU11.** vendor management and development
- KU12.** pricing techniques
- KU13.** business profitability assessment

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** analyse product range and keep abreast of market trends
- GS2.** document various aspects of the business
- GS3.** compile descriptions and details about investment, expenditures, and sales
- GS4.** interact with teams to work efficiently
- GS5.** communicate and manage vendors for cost-effective outsourcing and procurements
- GS6.** interface with fellow entrepreneurs to exchange ideas on the business
- GS7.** communicate with the customers for their feedback about the product
- GS8.** comprehend information shared by various stakeholders
- GS9.** plan and organize the product lines
- GS10.** fix the appropriate price.
- GS11.** hire employees with the appropriate skill set and experience
- GS12.** predict the profit margin to be achieved by the business
- GS13.** decide target segment of the market
- GS14.** schedule production cycles for better efficiency of resources
- GS15.** planning of production efficiency based on manpower and equipment available
- GS16.** schedule market visits for surveys and feedback
- GS17.** gather information on preference and taste of the customer
- GS18.** interact with various types of customers and understand the trends
- GS19.** analyze and solve conflicts and problems of the business.
- GS20.** ensure that the problems do not arise repeatedly.
- GS21.** anticipate various problems/challenges that can crop up
- GS22.** analyze the market for increasing sales
- GS23.** spot errors and any other disruptions and communicate with solutions

Qualification Pack

DGT/VSQ/N0102: Employability Skills (60 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Career Development & Goal Setting
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

- PC1.** identify employability skills required for jobs in various industries
- PC2.** identify and explore learning and employability portals

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

- PC3.** recognize the significance of constitutional values, including civic rights and duties, citizenship, responsibility towards society etc. and personal values and ethics such as honesty, integrity, caring and respecting others, etc.
- PC4.** follow environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

- PC5.** recognize the significance of 21st Century Skills for employment
- PC6.** practice the 21st Century Skills such as Self-Awareness, Behaviour Skills, time management, critical and adaptive thinking, problem-solving, creative thinking, social and cultural awareness, emotional awareness, learning to learn for continuous learning etc. in personal and professional life

Basic English Skills

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC7.** use basic English for everyday conversation in different contexts, in person and over the telephone
- PC8.** read and understand routine information, notes, instructions, mails, letters etc. written in English
- PC9.** write short messages, notes, letters, e-mails etc. in English

Career Development & Goal Setting

To be competent, the user/individual on the job must be able to:

- PC10.** understand the difference between job and career
- PC11.** prepare a career development plan with short- and long-term goals, based on aptitude

Communication Skills

To be competent, the user/individual on the job must be able to:

- PC12.** follow verbal and non-verbal communication etiquette and active listening techniques in various settings
- PC13.** work collaboratively with others in a team

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

- PC14.** communicate and behave appropriately with all genders and PwD
- PC15.** escalate any issues related to sexual harassment at workplace according to POSH Act

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

- PC16.** select financial institutions, products and services as per requirement
- PC17.** carry out offline and online financial transactions, safely and securely
- PC18.** identify common components of salary and compute income, expenses, taxes, investments etc
- PC19.** identify relevant rights and laws and use legal aids to fight against legal exploitation

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

- PC20.** operate digital devices and carry out basic internet operations securely and safely
- PC21.** use e-mail and social media platforms and virtual collaboration tools to work effectively
- PC22.** use basic features of word processor, spreadsheets, and presentations

Entrepreneurship

To be competent, the user/individual on the job must be able to:

- PC23.** identify different types of Entrepreneurship and Enterprises and assess opportunities for potential business through research
- PC24.** develop a business plan and a work model, considering the 4Ps of Marketing Product, Price, Place and Promotion
- PC25.** identify sources of funding, anticipate, and mitigate any financial/ legal hurdles for the potential business opportunity

Customer Service

To be competent, the user/individual on the job must be able to:

- PC26.** identify different types of customers
- PC27.** identify and respond to customer requests and needs in a professional manner.

Qualification Pack

PC28. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC29. create a professional Curriculum vitae (Résumé)

PC30. search for suitable jobs using reliable offline and online sources such as Employment exchange, recruitment agencies, newspapers etc. and job portals, respectively

PC31. apply to identified job openings using offline /online methods as per requirement

PC32. answer questions politely, with clarity and confidence, during recruitment and selection

PC33. identify apprenticeship opportunities and register for it as per guidelines and requirements

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills and different learning and employability related portals

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use English language for effective verbal (face to face and telephonic) and written communication in formal and informal set up

KU6. importance of career development and setting long- and short-term goals

KU7. about effective communication

KU8. POSH Act

KU9. Gender sensitivity and inclusivity

KU10. different types of financial institutes, products, and services

KU11. how to compute income and expenditure

KU12. importance of maintaining safety and security in offline and online financial transactions

KU13. different legal rights and laws

KU14. different types of digital devices and the procedure to operate them safely and securely

KU15. how to create and operate an e- mail account and use applications such as word processors, spreadsheets etc.

KU16. how to identify business opportunities

KU17. types and needs of customers

KU18. how to apply for a job and prepare for an interview

KU19. apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. read and write different types of documents/instructions/correspondence

GS2. communicate effectively using appropriate language in formal and informal settings

Qualification Pack

- GS3.** behave politely and appropriately with all
- GS4.** how to work in a virtual mode
- GS5.** perform calculations efficiently
- GS6.** solve problems effectively
- GS7.** pay attention to details
- GS8.** manage time efficiently
- GS9.** maintain hygiene and sanitization to avoid infection

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for each PC.
2. Each NOS will assessed both for theoretical knowledge and practical
3. The assessment will be based on knowledge bank of questions created by the SSC.
4. Individual assessment agencies will create unique question papers for theory and skill practical part for each candidate at each examination/training center
5. To pass the Qualification Pack, every trainee should score a minimum of 70% in every NOS
6. In case of successfully passing only certain number of NOS's, the trainee is eligible to take subsequent assessment on the balance NOS's to pass the Qualification Pack

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to

Qualification Pack

successfully clear the Qualification Pack assessment.)

Minimum Passing % at NOS Level: 50

(Please note: A Trainee must score the minimum percentage for each NOS separately as well as on the QP as a whole.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
