HCS/Q9201: Handcrafted Candle Maker

Brief Job Description

Candle Makers are responsible for using a combination of wax and wicks in a flame to create a product by using manual dipping methods. They use their artistic and design skills to create custom candle designs and work to ensure all products conform to manufacturing standards

Personal Attributes

A chandler should have a good eye for color and design to work with molten wax, large machinery and ability to stand for long periods. And have in-depth knowledge of candle waxes and their properties including beeswax, paraffin wax and soy wax.

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [HCS/N9201: Preparing Wax for making Candle](#)
2. [HCS/N9202: Preparing candle container and wick](#)
3. [HCS/N9203: Preparing design and different layers of colors on candle](#)
4. [HCS/N9901: Coordinate with colleagues and work as a team](#)
5. [HCS/N9902: Maintain Safe and Healthy Work Environment](#)
6. [HCS/N9903: Maintain Personal Hygiene](#)
7. [DGT/VSQ/N0102: Employability Skills \(60 Hours\)](#)

Qualification Pack

HCS/N9201: Preparing Wax for making Candle

Description

This unit is about preparing wax by using raw material and performing various steps.

Scope

The scope covers the following :

- prepare raw material for preparing wax
- prepare three different waxes for making candle
- melting solid form of wax by using double boiler technique
- prepare fragrance oil and color
- check quality standards of melting wax

Elements and Performance Criteria

prepare raw material for preparing wax

To be competent, the user/individual on the job must be able to:

- PC1.** collect raw material like beeswax, soy wax, paraffin wax, double boiler, pouring pot, color and essential oils
- PC2.** collect tools like silicone spatula and thermometer

prepare three different waxes for making candle

To be competent, the user/individual on the job must be able to:

- PC3.** use soy wax, beeswax along with paraffin wax for the better quality.
- PC4.** make sure melting Paraffin wax at around 100 degrees
- PC5.** melt soy wax at approximately 124 degrees
- PC6.** melt bee wax at around 145 degrees

melting solid form of wax by using double boiler technique

To be competent, the user/individual on the job must be able to:

- PC7.** pour the flakes into a pouring pot and measure the same amount again, because the flakes melt down so much.
- PC8.** melt solid form of wax is in a unique technique called double boiler method and slowly warm the wax, using spatula
- PC9.** follow this method of double boiler to melting the wax as it prevents the wax from catching flame and also controls the temperature.
- PC10.** use double boiler for melting the wax, 0.5/4th of water is poured into the boiler and the blocks of wax are allowed to melt at 50-55 degree Celsius approximately.
- PC11.** make sure the vertically lengthy candles, wax is melted at 59 degrees Celsius as to improve the long-lasting potency of the candles a hardening agent is added to wax.

prepare fragrance oil and color

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC12.** add fragrance oil of about 15 to 30 ml to maximum 45kgs of wax to prepare beautifully aromatic candles.
- PC13.** use different types of fragrances are chocolate, bayberry, sandalwood, jasmine, ocean mist and few others.
- PC14.** adding color dyes in molten wax to make the candles colorful
check quality standards of melting wax
- To be competent, the user/individual on the job must be able to:
- PC15.** demonstrate the inspection process based on the quality standard parameters to ensure appropriate melting wax is being achieved
- PC16.** ensure melting and pouring process is done properly
- PC17.** check if double boiler method is done appropriately

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** safe working practices and organisational procedures.
- KU2.** quality systems and double boiler practiced in the organization.
- KU3.** equipment operating procedures / manufacturers instruction
- KU4.** details of melting three different waxes to achieve better quality
- KU5.** appropriate using essential oils and color dyes preparing techniques
- KU6.** types of problems with quality and how to report them to appropriate people.
- KU7.** methods to present any ideas for improvement to supervisor.
- KU8.** limits of personal responsibility.
- KU9.** reporting procedure in case of faults in own/ other processes.
- KU10.** different types of faults that are likely to be found
- KU11.** consequences of using incorrect tools.
- KU12.** the importance of segregating rejects.
- KU13.** appropriate inspection methods that can be used.
- KU14.** different quality parameters in the industry.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** write in the local language.
- GS2.** read measurement instructions.
- GS3.** listen effectively and orally communicate information accurately.
- GS4.** ask for clarification and advice from others.
- GS5.** follow organization rule-based decision-making process.
- GS6.** take decision with systematic course of actions and/or response.
- GS7.** plan and organize your work to achieve targets and deadlines.

Qualification Pack

- GS8.** manage relationships with customers.
- GS9.** build customer relationships and use customer centric approach.
- GS10.** think through the problem, evaluate the possible solution(s) and suggest an optimum /best possible solution(s).
- GS11.** identify immediate or temporary solutions to resolve delays.
- GS12.** identify immediate or temporary solutions to resolve delays.
- GS13.** pass on relevant information to others.

Qualification Pack

HCS/N9202: Preparing candle container and wick

Description

This unit provides Performance Criteria, Knowledge & Understanding and Skills & Abilities required to carry out pouring molten wax and taper candle

Scope

The scope covers the following :

- carry out processing of raw material
- prepare beeswax taper candle
- pouring molten wax to the silicone baking mold
- prepare cotton thread as the wick to light the candle.
- check quality of prepared candle

Elements and Performance Criteria

Carry out processing of raw material

To be competent, the user/individual on the job must be able to:

- PC1.** collect raw material like Container or silicone baking mold, beeswax, soy wax, paraffin wax hot glue, hex nut, candle wick, metal holder or wick holder and cleaning cloth
- PC2.** collect tools like wick trimmer, butter knives and for measuring like digital scale and thermometer

Prepare beeswax taper candle

To be competent, the user/individual on the job must be able to:

- PC3.** cut 2 to 4 wick to 25 approx. in length
- PC4.** tie each end of the wick with a hex nut
- PC5.** fill a tall jar with cold water and set it aside
- PC6.** fold the wick in half and knot the nuts at both ends in the center
- PC7.** dip the ends slowly into the wax
- PC8.** dip the wicks into a jar of cold water
- PC9.** return to hot wax and then to the cool water. Repeat for a total of 10 times
- PC10.** cut the weight as near to the nut as possible at the bottom
- PC11.** dipping the tapered candle back and forth between the wax and the water until the desired candle diameter is achieved

Pouring molten wax to the silicone baking mold

To be competent, the user/individual on the job must be able to:

- PC12.** ensure glass container and metal molds (made from aluminium material) needs hot soapy water to clean.
- PC13.** use silicone baking mold to shape the remaining molten beeswax and add soy wax, paraffin wax to making the candles hard
- PC14.** check the container surface is clean of any dust, dirt or residue.

Qualification Pack

- PC15.** add the glue dot or hot glue to the bottom of the wick tab
- PC16.** attach the wick in the candle container by the help of a metal wick holder and also use chopsticks, pencils or even butter knives
- PC17.** carefully pour the wax, filling the candle container to just below the top of the rim.
- PC18.** pour slowly to minimize air bubbles and allowed it to cool

Prepare cotton thread as the wick to light the candle

To be competent, the user/individual on the job must be able to:

- PC19.** mark requires length of cotton thread is cut according to the candle size.
- PC20.** make sure dip the metal part or wick tab into the melted wax and place it in the center of the bottom of the jar or container
- PC21.** use the wick centering device if the wick becomes unstuck from the bottom
- PC22.** remove the wax candle from the mold
- PC23.** trim the wick to about $\frac{1}{4}$ approx. of an inch

Check Quality of prepared candle

To be competent, the user/individual on the job must be able to:

- PC24.** inspect the process based on the quality standard parameters to ensure appropriate quality of container and candle wick is achieved.
- PC25.** ensure placing of metal wick holder is done properly
- PC26.** ensure pouring wax slowly to minimize air bubbles is done properly
- PC27.** check the cutting length of wick is done appropriately
- PC28.** ensure a proper finish as per requirement
- PC29.** ensure the output delivered is defect free and toxic free

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** personnel management, relevant legislation, standards, policies, and procedures followed in the company
- KU2.** the workflow involved in preparing candle wick making process of the company
- KU3.** organizational structure
- KU4.** various kinds of raw materials involved in the melting flakes process
- KU5.** appropriate candle container preparing techniques
- KU6.** size and shape of the products to be prepared
- KU7.** standard operating procedure
- KU8.** the hierarchy for reporting identified problems.
- KU9.** safety standards and precautions to be taken
- KU10.** the recommended storage of the final product.

Generic Skills (GS)

User/individual on the job needs to know how to:

Qualification Pack

- GS1.** take notes or read about the cotton thread making techniques
- GS2.** read about various decoration related information.
- GS3.** read company policy documents
- GS4.** interact with team members to work efficiently
- GS5.** communicate effectively with supervisor
- GS6.** communicate effectively with supervisor
- GS7.** plan for daily production
- GS8.** plan for budget and material requirement
- GS9.** ascertain to meet customer preferences, taste, etc. and accordingly make candles
- GS10.** solve issues relating to material, cost, and labor and ensure smooth production
- GS11.** analyze the material requirements and corrective actions required during candle making
- GS12.** spot process disruptions and delays

HCS/N9203: Preparing design and different layers of colors on candle

Description

This unit is about producing handmade candle products by strategically cutting and shaping the hot candle as per the desired product design.

Scope

The scope covers the following :

- prepare raw material and tools
- prepare design before the candle cool

Elements and Performance Criteria

Prepare raw material and tools

To be competent, the user/individual on the job must be able to:

PC1. Collect raw materials like colors, molten wax, paint color, paint brush, etc.

PC2. Collect tools like blade and cutter

Prepare design before the candle cool

To be competent, the user/individual on the job must be able to:

PC3. dip a basic shape of a candle in molten wax of different colors

PC4. process is continued until the required layers are formed on the candle

PC5. cuts the layer and form the design on hot molten wax/candle

PC6. use oil-based color to paint candles

PC7. once the candles are ready, they have dipped in acrylic solution to polish the product

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** personnel management, relevant legislation, standards, policies, and procedures followed in the company
- KU2.** the key product lines of the company
- KU3.** ensuring that there is no accidents due to improper handling of the raw materials
- KU4.** size and shape of the structure or decorative to be prepared
- KU5.** appropriate designing techniques
- KU6.** standard operating procedure
- KU7.** organizational structure
- KU8.** reporting structure
- KU9.** the recommended storage of the final product
- KU10.** implications of delays in the process

Qualification Pack

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** write preparing, designing and assembling techniques
- GS2.** read and understand manuals, health and safety instructions, memos, reports and job cards
- GS3.** communicate effectively with supervisor
- GS4.** share workload with the colleagues in the process
- GS5.** make decisions pertaining to the concerned area of workplace
- GS6.** ascertain to meet customer preferences, taste, etc. and accordingly coloring and designing candle
- GS7.** solve issues relating to material, cost, and labour and ensure smooth production
- GS8.** analyse the material requirements and corrective actions required during candle making
- GS9.** follow instructions and work on areas of improvement identified
- GS10.** plan for budget and material requirement

HCS/N9901: Coordinate with colleagues and work as a team

Description

This NOS describes the communication and coordination skills and knowledge to work with colleagues and supervisor to achieve a smooth and hazard-free workflow.

Scope

The scope covers the following :

- interact with supervisor or superior
- work as a team by coordinating with colleagues within and outside the department and include inputs on PwD & Gender Sensitisation
- report and Document

Elements and Performance Criteria

Interact with supervisor or superior

To be competent, the user/individual on the job must be able to:

- PC1.** comply with health, safety gender, and PwD (People with disability) related instructions applicable to the workplace
- PC2.** actively participate in mock drills/ evacuation procedures; group discussions, training sensitization programs for gender, and PwD awareness organized at the workplace.
- PC3.** receive job orders and instructions from reporting supervisor and receive feedback on work standards.
- PC4.** understand the work output requirements, targets, performance indicators and incentives.
- PC5.** deliver quality work on time and report any anticipated reasons for delays and handover completed work to supervisor
- PC6.** report on any grievances, production defects and any potential hazards.

Work as a team by coordinating with colleagues within and outside the department and include inputs on PwD & Gender Sensitisation

To be competent, the user/individual on the job must be able to:

- PC7.** communicate maintenance and repair schedule proactively to the supervisor
- PC8.** interact and clarify doubts on design, usage of materials & tools, quality & standards compliance, etc.

Report and Document

To be competent, the user/individual on the job must be able to:

- PC9.** report in time for shortage or need of raw materials
- PC10.** communicate with colleagues from within and other departments, clearly and effectively on all aspects to carry out the work among the team
- PC11.** maintain the etiquette, use polite language, demonstrate responsible and disciplined behavior towards colleagues.
- PC12.** put team over individual goals and multi-task or share work where necessary supporting the colleagues.

Qualification Pack

PC13. document all the details accurately relating to ones role as required.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** knowledge about the importance of gender equality being followed in the organization and policies for reporting any harassment or inappropriate behavior
- KU2.** knowledge about how to accommodate employees with disabilities etiquette to adhere to and proper language and terminology
- KU3.** knowledge about how to communicate, offer help, respecting space, parking etc. for people with disabilities or special needs
- KU4.** knowledge about promoting a safe, accessible and healthy workplace for disabled employees
- KU5.** company's policies on preferred language of communication, incentives, quality standards, personnel management, reporting and escalation matrix policy.
- KU6.** company's standard operating procedure (sop) and the risk and impact of not following them.
- KU7.** procedures for working with colleagues, his/her role and responsibilities in relation to this
- KU8.** organizational hierarchy and the line of reporting structure and work target and review mechanism
- KU9.** procedures to report employment related issues and to deal with conflicts
- KU10.** importance of the individuals role in the organizational workflow and details of the individual responsibilities
- KU11.** tools and equipment handling procedure and common potential hazards in the work place and the procedures to deal with them
- KU12.** effective communication with various categories of people and the different departments in the organization
- KU13.** to document the job activity as required like the check sheets, history sheets, etc
- KU14.** expressing and addressing grievances appropriately, deal with difficult work relationships and manage the internal conflicts effectively

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** create a positive and inclusive workplace atmosphere without any kind of bias/discrimination towards any employee
- GS2.** actively take part in any discussion/workshop organized for gender sensitization training
- GS3.** read and comprehend written instructions related to gender equality issues in the organization
- GS4.** identify and report any harassment or inappropriate behavior towards any employee
- GS5.** create a positive and inclusive workplace atmosphere without any kind of bias/discrimination towards any employee with disability or special needs
- GS6.** actively take part in any discussion/workshop organized for disability sensitization training.

Qualification Pack

- GS7.** read and comprehend written instructions related to equality issues in the organization related to disabled persons
- GS8.** read job sheets, design sheet and information displayed at the workplace
- GS9.** read and understand manuals, health and safety instructions, memos etc
- GS10.** fill up documentation to ones role
- GS11.** communicate effectively with supervisor
- GS12.** contribute to quality of team work and achieve smooth workflow
- GS13.** improve work processes by interacting with others and adopting best practices

HCS/N9902: Maintain Safe and Healthy Work Environment

Description

This NOS is about following adequate safety procedures to make the work environment safe and Healthy.

Scope

The scope covers the following :

- follow safety procedures and practices.
- achieve safety standards

Elements and Performance Criteria

Follow safety procedures and practices

To be competent, the user/individual on the job must be able to:

- PC1.** carry out work functions in accordance with organizational standards, greening solutions, procedures, policies, legislation and regulations
- PC2.** apply and follow these policies and procedures within your work practices and inculcate sustainable consumption practices
- PC3.** actively get involved in improving the performance of the organization in line with their own role and responsibilities and support adaptation to more environmentally friendly processes
- PC4.** comply with safety procedures while on work to prevent accidents
- PC5.** take adequate safety measures while handling materials, chemicals and tools
- PC6.** wear appropriate personal protective gears such as gloves, protective goggles, masks etc. while working
- PC7.** wear appropriate and recommended clothing as per the work environment
- PC8.** follow recommended material handling procedure to control material and personal damage.
- PC9.** perform all procedures as per company's work instructions for controlling operational risk

Achieve safety standards

To be competent, the user/individual on the job must be able to:

- PC10.** perform the duties in a manner which minimizes environmental damage
- PC11.** dispose off waste safely and correctly in a designated area as per company's SOP
- PC12.** report any accidents, incidents or problems without delay to the supervisor and take necessary immediate action to reduce further danger
- PC13.** ensure zero accident at workplace
- PC14.** adhere to safety standards and ensure no material damage

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** making conscious and sustainable decisions for achieving effective and green workplace.

Qualification Pack

- KU2.** company's policies on work safety and occupational hazard management
- KU3.** knowledge about company's HR policies and reporting structure
- KU4.** company emergency evacuation procedure
- KU5.** accidental risks to the worker
- KU6.** how to maintain the work area safe and secure
- KU7.** how to perform the duties in a way to minimize accidental risks
- KU8.** how to handle chemicals in a safe manner
- KU9.** purpose and usage of protective gears such as gloves, protective goggles, masks, etc. while working
- KU10.** safe and correct material handling procedure
- KU11.** standard operating procedure (sop) of processes
- KU12.** precautionary activities to be followed in the processes
- KU13.** how to operate tools and electrical equipment
- KU14.** emergency procedures to be followed in case of a mishap such as fire accidents etc.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** make conscious and sustainable decisions that help reduce, rescue, and recycle the company resources
- GS2.** identify and replace processes that create unnecessary waste.
- GS3.** read safety instructions, safety signage and safety manuals
- GS4.** read the usage of various safety tools and equipment
- GS5.** take notes on descriptions and details of various safety precautions and procedures as instructed
- GS6.** communicate supervisor about the work safety issues.
- GS7.** receive instructions from supervisor on minimizing the accidental risks
- GS8.** communicate co-workers about the precautions to be taken for accident-free work.
- GS9.** how to select appropriate safety tools and equipment
- GS10.** improve work processes by adopting best safety practices
- GS11.** coordinate with different departments on briefing the safety aspects
- GS12.** guide the team members on use of various safety tools and equipment
- GS13.** spot errors and any other disruptions and communicate with solutions
- GS14.** how to use safety equipment such as fire extinguisher during fire accidents.
- GS15.** how to store chemicals and tools in a safe way.

Qualification Pack

HCS/N9903: Maintain Personal Hygiene

Description

This NOS provides the abilities required for taking responsibility for their own health at the workplace and is about using the correct procedures to prevent, control and minimize risk to them and others at the workplace.

Scope

The scope covers the following :

- adopt healthy work practices
- achieve work productivity while maintaining health

Elements and Performance Criteria

Adopt healthy work practices

To be competent, the user/individual on the job must be able to:

- PC1.** always cover the mouth and nose with a dust mask while working and keep on changing when it gets blocked with dust
- PC2.** wear safety shoes while visiting the production unit to avoid any damage
- PC3.** wear personal protective equipment while visiting the different departments during production. orexample mask in the washing section, glasses and mask in an assembly line, and gloves in the printing section, etc.
- PC4.** always wash sanitize your hands after a factory unit before touching any document, laptop, cell phone, etc.
- PC5.** undergo preventive health checkups at regular intervals.
- PC6.** take prompt treatment from the doctor in case of illness.

Achieve work productivity while maintaining health

To be competent, the user/individual on the job must be able to:

- PC7.** follow SOPs for dealing with blisters; scratches; accidental fires or any other type of emergencies at work
- PC8.** ensure no productivity loss or absenteeism from work due to illness
- PC9.** ensure no long-term ill effect on personal health.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** company's policies on personal health and occupational hazard management
- KU2.** company's HR policies.
- KU3.** company's reporting structure
- KU4.** company's emergency evacuation procedure
- KU5.** health risks to the worker at the workplace

Qualification Pack

- KU6.** healthy work practices
- KU7.** how to perform the duties in a way to minimize pollution at the workplace.
- KU8.** what personal protective equipment should be worn and how it is cared for
- KU9.** safe disposal methods for waste
- KU10.** how to provide first-aid treatment at the workplace
- KU11.** emergency procedures to be followed in case of an mishap such as fire accidents etc.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read personal health instructions and manual
- GS2.** read the usage of various hand tools and personal protection equipment
- GS3.** take notes on descriptions and details of various personal health maintenance procedures
- GS4.** communicate supervisor about the physical symptoms
- GS5.** receive instructions from doctor and supervisor on medical care
- GS6.** how to select appropriate hand tools and personal protection equipment
- GS7.** when to change personal protection equipment during work
- GS8.** how to identify first aid needs in case and of an injury
- GS9.** how to select appropriate hand tools and personal protection equipment
- GS10.** when to change personal protection equipment during work
- GS11.** how to use materials that does not affect customer health / make injury
- GS12.** improve work processes by adopting best safety practices
- GS13.** analyze the usage of appropriate tools and consumables
- GS14.** spot errors and any other disruptions and communicate with solutions

Qualification Pack

DGT/VSQ/N0102: Employability Skills (60 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Career Development & Goal Setting
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

- PC1.** identify employability skills required for jobs in various industries
- PC2.** identify and explore learning and employability portals

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

- PC3.** recognize the significance of constitutional values, including civic rights and duties, citizenship, responsibility towards society etc. and personal values and ethics such as honesty, integrity, caring and respecting others, etc.
- PC4.** follow environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

- PC5.** recognize the significance of 21st Century Skills for employment
- PC6.** practice the 21st Century Skills such as Self-Awareness, Behaviour Skills, time management, critical and adaptive thinking, problem-solving, creative thinking, social and cultural awareness, emotional awareness, learning to learn for continuous learning etc. in personal and professional life

Basic English Skills

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC7.** use basic English for everyday conversation in different contexts, in person and over the telephone
- PC8.** read and understand routine information, notes, instructions, mails, letters etc. written in English
- PC9.** write short messages, notes, letters, e-mails etc. in English

Career Development & Goal Setting

To be competent, the user/individual on the job must be able to:

- PC10.** understand the difference between job and career
- PC11.** prepare a career development plan with short- and long-term goals, based on aptitude

Communication Skills

To be competent, the user/individual on the job must be able to:

- PC12.** follow verbal and non-verbal communication etiquette and active listening techniques in various settings
- PC13.** work collaboratively with others in a team

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

- PC14.** communicate and behave appropriately with all genders and PwD
- PC15.** escalate any issues related to sexual harassment at workplace according to POSH Act

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

- PC16.** select financial institutions, products and services as per requirement
- PC17.** carry out offline and online financial transactions, safely and securely
- PC18.** identify common components of salary and compute income, expenses, taxes, investments etc
- PC19.** identify relevant rights and laws and use legal aids to fight against legal exploitation

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

- PC20.** operate digital devices and carry out basic internet operations securely and safely
- PC21.** use e-mail and social media platforms and virtual collaboration tools to work effectively
- PC22.** use basic features of word processor, spreadsheets, and presentations

Entrepreneurship

To be competent, the user/individual on the job must be able to:

- PC23.** identify different types of Entrepreneurship and Enterprises and assess opportunities for potential business through research
- PC24.** develop a business plan and a work model, considering the 4Ps of Marketing Product, Price, Place and Promotion
- PC25.** identify sources of funding, anticipate, and mitigate any financial/ legal hurdles for the potential business opportunity

Customer Service

To be competent, the user/individual on the job must be able to:

- PC26.** identify different types of customers
- PC27.** identify and respond to customer requests and needs in a professional manner.

Qualification Pack

PC28. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC29. create a professional Curriculum vitae (Résumé)

PC30. search for suitable jobs using reliable offline and online sources such as Employment exchange, recruitment agencies, newspapers etc. and job portals, respectively

PC31. apply to identified job openings using offline /online methods as per requirement

PC32. answer questions politely, with clarity and confidence, during recruitment and selection

PC33. identify apprenticeship opportunities and register for it as per guidelines and requirements

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills and different learning and employability related portals

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use English language for effective verbal (face to face and telephonic) and written communication in formal and informal set up

KU6. importance of career development and setting long- and short-term goals

KU7. about effective communication

KU8. POSH Act

KU9. Gender sensitivity and inclusivity

KU10. different types of financial institutes, products, and services

KU11. how to compute income and expenditure

KU12. importance of maintaining safety and security in offline and online financial transactions

KU13. different legal rights and laws

KU14. different types of digital devices and the procedure to operate them safely and securely

KU15. how to create and operate an e- mail account and use applications such as word processors, spreadsheets etc.

KU16. how to identify business opportunities

KU17. types and needs of customers

KU18. how to apply for a job and prepare for an interview

KU19. apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. read and write different types of documents/instructions/correspondence

GS2. communicate effectively using appropriate language in formal and informal settings

Qualification Pack

- GS3.** behave politely and appropriately with all
- GS4.** how to work in a virtual mode
- GS5.** perform calculations efficiently
- GS6.** solve problems effectively
- GS7.** pay attention to details
- GS8.** manage time efficiently
- GS9.** maintain hygiene and sanitization to avoid infection

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score the Recommended Pass % aggregate for the QP.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 50

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
