HCS/Q9202: Leheriya Printing Artisan

Brief Job Description

The Leheriya Printing artisan is a skilled craftsperson who creates beautiful fabrics with wavy patterns. Using special folding and dyeing techniques, they bring vibrant colours to life, showcasing the rich traditions of Rajasthan. Each piece they make is unique, adding a special touch to clothing and accessories.

Personal Attributes

A Leheriya tie-dye artisan is creative and has a keen eye for detail, enabling them to create beautiful, colourful patterns. Their passion for this craft, along with patience and skilled hands, allows them to preserve traditional techniques while also exploring new styles.

Applicable National Occupational Standards (NOS)

Compulsory NOS:

1. [HCS/N9239: Introduction to Leheriya Tie-Dye Printing](#)

Qualification Pack

HCS/N9239: Introduction to Leheriya Tie-Dye Printing

Description

This unit introduces Leheriya, a traditional tie-dye technique renowned for its vibrant diagonal stripe patterns, created by skillfully tying and dyeing the fabric.

Scope

The scope covers the following :

- Understand the History and Cultural Significance of Leheriya
- Identify the Geographical Distribution of Leheriya
- Recognise Traditional and Contemporary Usage of Leheriya

Elements and Performance Criteria

Understand the History and Cultural significance of Leheriya

To be competent, the user/individual on the job must be able to:

- PC1.** Explain the origin and historical development of Leheriya in Rajasthan.
- PC2.** Describe the role of Leheriya in Rajasthani festivals, rituals, and ceremonies, such as weddings and cultural events.
- PC3.** Recognise the traditional caste and artisan communities that have historically practised Leheriya, including their specific roles and contributions to the craft.
- PC4.** Compare Leheriya with other resist-dyeing traditions such as Bandhani, highlighting similarities and differences in techniques and cultural contexts.
- PC5.** Explain how Leheriya symbolises elements of nature, such as the monsoon and fertility, and its connection to the agricultural cycle.

Identify the geographical distribution of Leheriya

To be competent, the user/individual on the job must be able to:

- PC6.** Locate key centres for Leheriya production, including Jaipur, Jodhpur, Udaipur, and other prominent regions in Rajasthan.
- PC7.** Describe how the arid climate of Rajasthan plays a role in the dyeing and drying process, allowing for natural, sun-based drying techniques.
- PC8.** Identify the local resources available for Leheriya production, such as water sources, dye plants (e.g., indigo, turmeric), and fabric materials.
- PC9.** Discuss how the desert culture influences Leheriya's colour choices, including vibrant hues like yellow, red, and green, which reflect the desert environment and cultural symbolism.

Recognise traditional and contemporary usage of Leheriya

To be competent, the user/individual on the job must be able to:

- PC10.** Identify garments and accessories where Leheriya is traditionally used, such as sarees, turbans, dupattas, and odhanis.
- PC11.** Differentiate between the diagonal (waves) and chevron (V-shaped) patterns commonly found in Leheriya, explaining the significance of each pattern.

Qualification Pack

- PC12.** Describe modern applications of Leheriya, such as its use in scarves, stoles, home décor items (e.g., cushion covers, curtains), and contemporary fashion items.
- PC13.** Highlight how patterns and colour usage in Leheriya have evolved over time, reflecting changes in fashion, markets, and consumer preferences.
- PC14.** Understand Leheriya's role in global fashion trends, including its presence in fashion shows, international markets, and high-end apparel brands.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Understand the historical origins of Leheriya in Rajasthani culture.
- KU2.** Know the cultural importance of Leheriya in festivals and traditional attire.
- KU3.** Identify different types of fabrics suitable for Leheriya printing.
- KU4.** Understand the role of resist dyeing in creating Leheriya patterns.
- KU5.** Know the various tying techniques used in the Leheriya process.
- KU6.** Understand the purpose and process of pre-washing and preparing fabric.
- KU7.** Know how natural and synthetic dyes affect the final outcome.
- KU8.** Understand the science behind colour absorption and fabric compatibility.
- KU9.** Learn the sequence of tying, dyeing, drying, and untwisting.
- KU10.** Understand the traditional and contemporary applications of Leheriya.
- KU11.** Know how climate and drying conditions influence dye results.
- KU12.** Understand common challenges in Leheriya printing and how to avoid them.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Listen actively to explanations about the history and cultural context of Leheriya.
- GS2.** Engage in discussions about the significance of Leheriya in fashion and heritage.
- GS3.** Ask relevant questions to clarify concepts related to Leheriya printing.
- GS4.** Identify basic tools and materials introduced during the session.
- GS5.** Observe the process of Leheriya through visual aids or demonstrations.
- GS6.** Communicate initial impressions and ideas clearly in group settings.
- GS7.** Respect different perspectives on traditional art forms and practices.
- GS8.** Record key information in notes or worksheets for future reference.
- GS9.** Show willingness to learn about new cultural and artistic techniques.
- GS10.** Participate attentively in introductory activities or group exercises.
- GS11.** Reflect on how traditional crafts like Leheriya can be relevant today.
- GS12.** Exhibit an open and positive attitude towards hands-on learning.
- GS13.** Follow basic instructions related to the handling of materials during demonstrations.
- GS14.** Recognise the value of preserving traditional crafts through learning and practice.

HCS/N9240: Material Selection and Fabric Preparation

Description

This unit covers selecting appropriate materials, including suitable fabrics and dyes, and preparing the fabric through processes like washing and stretching to achieve high-quality results in Leheriya tie-dye printing.

Scope

The scope covers the following :

- Identify tools, raw materials and dyes
- Choose suitable fabric types and assess the quality of fabric
- Pre-wash and soften fabric
- Prepare fabric for folding and tying
- Ensure Workplace Safety and Maintain Tools in Leheriya Printing

Elements and Performance Criteria

Identify tools, raw materials and dyes

To be competent, the user/individual on the job must be able to:

- PC1.** List fabrics suitable for Leheriya like cotton, silk, and voile.
- PC2.** Identify natural and synthetic dye types.
- PC3.** Identify tools like tying thread, plastic drums, dye vats, etc.
- PC4.** Understand the role of mordants and fixatives in the dyeing process.

Choose suitable fabric types and assess the quality of fabric

To be competent, the user/individual on the job must be able to:

- PC5.** Identify breathable and dye-absorbent textiles.
- PC6.** Ensure shrinkage and colourfast properties are known.
- PC7.** Check for even weave and fine texture.
- PC8.** Ensure no defects like holes, grease or stains.
- PC9.** Measure fabric width and straight grain alignment.

Pre-wash and soften fabric

To be competent, the user/individual on the job must be able to:

- PC10.** Use cold water to remove starch.
- PC11.** Avoid harsh detergents that weaken fibres.
- PC12.** Dry fabric in shade after pre-wash.
- PC13.** Iron lightly to smooth creases and improve foldability.

Prepare fabric for folding and tying

To be competent, the user/individual on the job must be able to:

- PC14.** Align fabric edges to ensure uniform folds.
- PC15.** Stretch or lightly iron the cloth for accurate folding.

Qualification Pack

PC16. Lay fabric flat on clean surface for further processing.

PC17. Avoid contamination with oil or dirt during handling.

Ensure workplace safety and maintain tools in Leheriya Printing

To be competent, the user/individual on the job must be able to:

PC18. Use protective gear such as gloves, aprons, and masks while handling dyes and chemicals.

PC19. Ensure proper ventilation in the workspace to avoid inhalation of harmful fumes during dyeing and drying.

PC20. Store dyes, chemicals, and flammable materials safely in labelled containers, away from heat sources.

PC21. Clean and dry tools such as dye containers, tying equipment, and drying racks to prevent contamination or rust.

PC22. Regularly inspect and repair tools and equipment to ensure they are in good working condition.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. Know how to identify suitable fabrics for Leheriya tie-dye printing.

KU2. Understand the properties of natural and synthetic fibres used in dyeing.

KU3. Recognise the importance of fabric quality in achieving desired dye results.

KU4. Know the types of materials commonly used for Leheriya, such as cotton, silk, and chiffon.

KU5. Understand the role of fabric texture and weave in the dye absorption process.

KU6. Know how to conduct a basic fabric test for colourfastness and dye compatibility.

KU7. Understand the process of pre-washing fabric to remove sizing, dirt, and finishes.

KU8. Know the purpose of scouring and how it improves dye penetration.

KU9. Recognise the environmental considerations in selecting sustainable materials.

KU10. Understand the safety measures to be followed while handling fabrics and cleaning agents.

KU11. Know the correct storage methods for fabrics before and after preparation.

KU12. Understand the effect of water hardness and temperature on fabric preparation.

KU13. Identify the tools and equipment used in fabric preparation.

KU14. Understand the importance of handling fabric carefully to prevent damage.

KU15. Know how different fabrics respond to various tying techniques in Leheriya.

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. Select appropriate fabric based on fibre type, texture, and intended design.

GS2. Follow instructions to correctly pre-wash and prepare fabric for dyeing.

GS3. Handle fabrics with care to maintain their quality during preparation.

GS4. Use preparation tools and cleaning agents safely and responsibly.

Qualification Pack

- GS5.** Identify and separate suitable and unsuitable materials for Leheriya.
- GS6.** Demonstrate attention to detail while inspecting fabrics for flaws or inconsistencies.
- GS7.** Work efficiently to complete fabric preparation within set timelines.
- GS8.** Maintain cleanliness and organisation in the work area.
- GS9.** Communicate clearly with supervisors or team members when selecting materials.
- GS10.** Document fabric types and preparation processes for consistency and reference.
- GS11.** Apply sustainable practices while choosing and preparing materials.
- GS12.** Demonstrate understanding of health and safety guidelines during material handling.
- GS13.** Collaborate with others in group settings to compare and evaluate material choices.
- GS14.** Reflect on preparation outcomes to improve material selection for future projects.

HCS/N9241: Preparing the Design with Folds and Ties

Description

This unit introduces the techniques of folding and tying fabric to create resist patterns in Leheriya printing, forming the foundation for the distinctive striped designs.

Scope

The scope covers the following :

- Select appropriate folding techniques
- Mark tying points accurately
- Apply ties effectively
- Understand resist-dye principles
- Prepare folded fabric for dyeing

Elements and Performance Criteria

Select appropriate folding techniques

To be competent, the user/individual on the job must be able to:

- PC1.** Use diagonal, zigzag or fan folds as per design.
- PC2.** Maintain equal spacing between folds.
- PC3.** Keep folds firm but not too tight to avoid tearing.
- PC4.** Align folds based on grain direction.

Mark tying points accurately

To be competent, the user/individual on the job must be able to:

- PC5.** Measure and mark sections for symmetrical tying.
- PC6.** Use templates for consistency in batch production.
- PC7.** Adapt tie positions to achieve desired patterns.
- PC8.** Check alignment after folding.

Apply ties effectively

To be competent, the user/individual on the job must be able to:

- PC9.** Use cotton string or rubber bands as resist material.
- PC10.** Tie knots tightly to prevent dye penetration.
- PC11.** Avoid over-tightening that may damage fabric.
- PC12.** Ensure each tie section is secure before dyeing.

Understand resist-dye principles

To be competent, the user/individual on the job must be able to:

- PC13.** Know areas where dye should be resisted.
- PC14.** Double-wrap sections for strong white bands.
- PC15.** Use contrasting dyes to enhance pattern visibility.

Prepare folded fabric for dyeing

Qualification Pack

To be competent, the user/individual on the job must be able to:

- PC16.** Inspect for loose or missed ties.
- PC17.** Group similar folds for batch processing.
- PC18.** Note expected colour layout and design.
- PC19.** Keep folded fabric dry and clean prior to dyeing.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Understand the purpose of folding and tying in Leheriya to create resist patterns.
- KU2.** Know various traditional folding methods used in Leheriya (e.g. diagonal, accordion).
- KU3.** Identify the correct way to fold fabric to produce symmetrical and even patterns.
- KU4.** Understand the role of tightness and placement of ties in achieving sharp designs.
- KU5.** Know the types of threads, strings, or tools used for tying.
- KU6.** Understand how the size and position of folds affect the final design.
- KU7.** Know how different tying techniques produce varied effects in Leheriya.
- KU8.** Understand the concept of resist areas and how they interact with dye.
- KU9.** Recognise common errors in folding and tying and their impact on the design.
- KU10.** Know how to secure the fabric to prevent loosening during the dyeing process.
- KU11.** Understand the importance of consistency in folds for professional-quality patterns.
- KU12.** Know how to prepare the fabric layout before folding to optimise design placement.
- KU13.** Recognise the cultural variations in folding styles used in different regions.
- KU14.** Understand the difference between single and multi-step tying techniques.
- KU15.** Know how to prepare complex designs using multiple folding and tying stages.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS2.** Demonstrate accurate and consistent fabric folding techniques.
- GS2.** Apply appropriate tying methods to ensure tight, secure binding.
- GS3.** Handle fabric with care to avoid damage or distortion.
- GS4.** Follow design instructions or references to plan fold and tie patterns.
- GS5.** Use tools such as measuring scales, sticks, or clips effectively.
- GS6.** Show attention to detail when aligning folds and ties.
- GS7.** Maintain focus and patience during repetitive folding tasks.
- GS8.** Organise workspace and materials efficiently before starting the process.
- GS9.** Collaborate with peers or instructors when planning complex designs.
- GS10.** Communicate clearly about design intent and tie placement.
- GS11.** Follow safety guidelines when using sharp tools or equipment.
- GS12.** Keep track of each fold and tie for consistency across multiple pieces.

Qualification Pack

- GS13.** Troubleshoot issues such as loose ties or uneven folds.
- GS14.** Demonstrate creativity while experimenting with new tying patterns.
- GS15.** Reflect on results and modify folding/tying techniques for improvement.

HCS/N9242: Dyeing the Tied Fabric

Description

This unit explains the process of dyeing the tied fabric in Leheriya printing, focusing on dye preparation, application techniques, and ensuring vibrant, even colour development.

Scope

The scope covers the following :

- Prepare dye solutions
- Conduct safe dyeing operations
- Submerge fabric accurately
- Control temperature and duration
- Rinse and Neutralise

Elements and Performance Criteria

Prepare dye solutions

To be competent, the user/individual on the job must be able to:

- PC1.** Measure dye powder/liquid as per recipe.
- PC2.** Mix with appropriate mordants or salt.
- PC3.** Stir until no lumps remain.
- PC4.** Test solution for correct pH and shade.

Conduct safe dyeing operations

To be competent, the user/individual on the job must be able to:

- PC5.** Wear gloves and aprons for protection.
- PC6.** Work in a well-ventilated or open space.
- PC7.** Avoid spillage and cross-contamination of dyes.
- PC8.** Dispose of excess dye responsibly.

Submerge fabric accurately

To be competent, the user/individual on the job must be able to:

- PC9.** Dip evenly without disturbing ties.
- PC10.** Allow sufficient time for dye uptake.
- PC11.** Remove fabric gently to avoid splash.
- PC12.** Maintain batch timing for colour consistency.

Control temperature and duration

To be competent, the user/individual on the job must be able to:

- PC13.** Heat dye bath as per fabric requirement.
- PC14.** Avoid overheating that can damage fibres.
- PC15.** Monitor dyeing time using a timer.
- PC16.** Stir bath gently to ensure even colouring.

Qualification Pack

Rinse and Neutralise

To be competent, the user/individual on the job must be able to:

- PC17.** Rinse dyed fabric with clean water.
- PC18.** Add vinegar or fixer in final rinse if required.
- PC19.** Squeeze out excess water carefully.
- PC20.** Place fabric on clean rack for drying.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Understand the purpose of dyeing in the Leheriya tie-dye process.
- KU2.** Know the types of dyes used (natural and synthetic) and their properties.
- KU3.** Understand how dye colour, concentration, and temperature affect the final result.
- KU4.** Know the steps involved in preparing dye solutions.
- KU5.** Understand the importance of wearing protective gear during dyeing.
- KU6.** Recognise how different fabrics absorb dye differently.
- KU7.** Know how to submerge and handle tied fabric during the dyeing process.
- KU8.** Understand the required soaking time for consistent colouring.
- KU9.** Know how to carry out multiple dye applications for layered effects.
- KU10.** Understand the impact of tie placement on dye resistance and pattern clarity.
- KU11.** Know the procedures for rinsing dyed fabric to remove excess dye.
- KU12.** Understand colourfastness and how to ensure long-lasting designs.
- KU13.** Recognise the signs of under- or over-dyeing.
- KU14.** Understand the environmental implications of dye use and disposal.
- KU15.** Know how to safely clean and store dyeing equipment.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Prepare dye baths according to instructions with accuracy.
- GS2.** Handle dyes and chemicals safely and responsibly.
- GS3.** Immerse tied fabric carefully to preserve the tying pattern.
- GS4.** Monitor dyeing time to achieve the desired shade.
- GS5.** Adjust dye concentration when needed for stronger or lighter colours.
- GS6.** Wear appropriate safety gear such as gloves and aprons.
- GS7.** Maintain cleanliness in the dyeing area.
- GS8.** Use eco-friendly practices when disposing of leftover dyes.
- GS9.** Communicate effectively with others when working in shared dyeing spaces.
- GS10.** Observe and record dyeing results for future reference or improvement.
- GS11.** Follow hygiene and safety protocols during and after dyeing.

Qualification Pack

- GS12.** Troubleshoot dyeing errors like patchiness or uneven colouring.
- GS13.** Demonstrate patience and care during the dyeing and drying phases.
- GS14.** Organise materials and workflow efficiently to avoid spillage or contamination.
- GS15.** Reflect on dyeing outcomes and refine techniques for improved results.

HCS/N9243: Drying and Untying the Fabric

Description

This unit covers the correct methods for drying dyed fabrics and safely untying them to reveal the Leheriya patterns, ensuring colour retention and preserving the quality of the design.

Scope

The scope covers the following :

- Dry the fabric correctly
- Remove ties carefully
- Check design quality
- Post-dye fixing

Elements and Performance Criteria

Dry the fabric correctly

To be competent, the user/individual on the job must be able to:

- PC1.** Hang fabric in shade on clean rope or hanger.
- PC2.** Keep folds intact during drying.
- PC3.** Avoid overlapping layers to prevent smudging.
- PC4.** Turn fabric if necessary for even drying.

Remove ties carefully

To be competent, the user/individual on the job must be able to:

- PC5.** Use scissors or blade to cut ties.
- PC6.** Handle damp fabric gently.
- PC7.** Discard ties responsibly.
- PC8.** Flatten the fabric to reveal the pattern.

Check design quality

To be competent, the user/individual on the job must be able to:

- PC9.** Inspect for sharpness of lines.
- PC10.** Identify any dye bleed or smudge.
- PC11.** Check pattern alignment and wave formation.
- PC12.** Record batch defects, if any.

Post-dye fixing

To be competent, the user/individual on the job must be able to:

- PC13.** Re-rinse fabric in salt water if necessary.
- PC14.** Dry again post-fixing.
- PC15.** Iron lightly to remove creases.
- PC16.** Ensure fabric is odour-free and ready for finishing.

Qualification Pack

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Understand the importance of proper drying in the tie-dye process.
- KU2.** Know suitable drying methods for different types of fabrics (e.g. air drying, shade drying).
- KU3.** Recognise the ideal drying conditions to preserve colour and fabric quality.
- KU4.** Know how direct sunlight can affect the brightness and fastness of dye colours.
- KU5.** Understand the precautions to prevent colour bleeding while drying.
- KU6.** Know when the fabric is completely dry and ready for untying.
- KU7.** Understand the correct technique for untying fabric without damaging it.
- KU8.** Know how to safely remove ties, knots, and bindings.
- KU9.** Understand how to identify patterns and assess the outcome of the design.
- KU10.** Recognise signs of successful dye penetration and resist areas.
- KU11.** Understand how to handle the fabric after untying to avoid creasing or distortion.
- KU12.** Know how to rinse and set the fabric again if needed after untying.
- KU13.** Understand the importance of documenting the results for quality consistency.
- KU14.** Recognise how drying and untying influence the final look and sharpness of the design.
- KU15.** Know how to safely store the finished fabric after untying.

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Follow appropriate drying techniques based on fabric and dye type.
- GS2.** Handle dyed fabric gently to avoid smudging or distortion.
- GS3.** Choose suitable drying spaces (clean, shaded, well-ventilated areas).
- GS4.** Monitor drying time to ensure complete drying before untying.
- GS5.** Remove ties with care using appropriate tools if necessary.
- GS6.** Observe the emerging patterns carefully during the untying process.
- GS7.** Work patiently and precisely to avoid tearing or stretching fabric.
- GS8.** Maintain cleanliness and organisation during drying and untying stages.
- GS9.** Communicate observations or issues with the outcome to team members.
- GS10.** Demonstrate responsibility in caring for and preserving the final product.
- GS11.** Identify and document any faults or irregularities post-untying.
- GS12.** Ensure proper disposal of used ties and waste materials.
- GS13.** Follow hygiene and safety practices when handling wet or dyed fabric.
- GS14.** Reflect on the success of the folding and dyeing technique after untying.
- GS15.** Prepare the unbound fabric for the next stage (e.g. finishing, pressing, display).

HCS/N9244: Quality Check, Finishing and Packaging

Description

This unit covers the essential steps involved in inspecting the dyed fabric for quality, carrying out finishing tasks such as pressing and trimming, and packaging the final product attractively and safely for sale or delivery.

Scope

The scope covers the following :

- Perform final inspection
- Carry out finishing operations
- Label and document product
- Package for storage or shipment
- Maintain records and stock

Elements and Performance Criteria

Perform final inspection

To be competent, the user/individual on the job must be able to:

- PC1.** Ensure fabric is colourfast and evenly dyed.
- PC2.** Confirm pattern matches design specification.
- PC3.** Reject units with tears, stains or dye defects.
- PC4.** Grade products as per size and quality.

Carry out finishing operations

To be competent, the user/individual on the job must be able to:

- PC5.** Iron products to remove wrinkles.
- PC6.** Trim loose threads or particles.
- PC7.** Fold neatly along pattern lines.
- PC8.** Spray with finishing starch if required.

Label and document product

To be competent, the user/individual on the job must be able to:

- PC9.** Attach craft tag or artisan name card.
- PC10.** Record batch ID and date.
- PC11.** Mark price, weight and size.
- PC12.** Note material composition and wash care instructions.

Package for storage or shipment

To be competent, the user/individual on the job must be able to:

- PC13.** Use soft paper or cloth for wrapping.
- PC14.** Pack in moisture-resistant covers.
- PC15.** Avoid heavy folding that disturbs patterns.

Qualification Pack

PC16. Group similar products by size or colour.

Maintain records and stock

To be competent, the user/individual on the job must be able to:

PC17. Update inventory logs.

PC18. Segregate finished stock by quality grade.

PC19. Store in clean, dry environment.

PC20. Arrange for shipment or display as needed.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. Understand the importance of quality control in tie-dye fabric production.

KU2. Know the standard criteria for assessing design sharpness, colour uniformity, and resist clarity.

KU3. Understand how to identify common defects like patchy dyeing, colour bleeding, or loose patterns.

KU4. Know the finishing processes such as rinsing, drying, ironing, and trimming threads.

KU5. Understand the importance of colourfastness and how to test it.

KU6. Recognise the tools and materials used in finishing (e.g. ironing board, press, scissors).

KU7. Know appropriate methods of handling and pressing different fabrics.

KU8. Understand how to fold and store fabric to maintain its quality.

KU9. Know how to select suitable packaging materials based on product type and destination.

KU10. Understand the role of labelling (e.g. size, material, care instructions) in packaging.

KU11. Know basic branding elements that can be added to packaging (e.g. logo, tags).

KU12. Recognise eco-friendly packaging options.

KU13. Understand how proper packaging helps preserve the product during transportation and display.

KU14. Know how to follow workplace or buyer-specific quality and packaging standards.

KU15. Understand the importance of final inspection before dispatch.

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. Examine finished fabric carefully for defects or inconsistencies.

GS2. Compare final product against design specifications and quality standards.

GS3. Use tools like scissors, irons, or presses appropriately and safely.

GS4. Perform basic finishing tasks such as trimming, pressing, and folding with accuracy.

GS5. Maintain neatness and presentation while preparing the fabric for packaging.

GS6. Label products correctly with clear and legible information.

GS7. Select and use appropriate packaging materials that protect the product.

Qualification Pack

- GS8.** Maintain hygiene and cleanliness during final finishing and packing.
- GS9.** Organise finished products for storage or delivery efficiently.
- GS10.** Communicate any quality issues to supervisors or team members.
- GS11.** Keep records of quality checks for future reference.
- GS12.** Follow environmental best practices when disposing of packaging waste.
- GS13.** Handle products with care to avoid damaging them post-finishing.
- GS14.** Demonstrate responsibility and attention to detail in the final inspection process.
- GS15.** Reflect on the overall quality of the product and suggest improvements where needed.

HCS/N9245: Sustainability and Waste Management in Leheriya Tie-Dye Printing

Description

This unit introduces sustainable practices in Leheriya tie-dye printing, focusing on efficient resource use, reducing environmental impact, and managing waste responsibly throughout the production process.

Scope

The scope covers the following :

- Ensure Resource Efficiency
- Manage Waste Effectively
- Promote Eco-Friendly Practices

Elements and Performance Criteria

Ensure Resource Efficiency

To be competent, the user/individual on the job must be able to:

- PC1.** Select appropriate quantities of dye, fabric, and water required for each batch to avoid overconsumption and reduce waste.
- PC2.** Monitor and control water usage during washing, dyeing, and rinsing stages to ensure minimum wastage.
- PC3.** Implement dyeing methods that maximise dye uptake by the fabric, reducing residual dye waste.
- PC4.** Reuse dye baths or rinse water, where applicable, to reduce overall consumption.
- PC5.** Maintain all tools, containers, and dyeing vats in good working condition to prevent leakages or losses during production.
- PC6.** Use calibrated measuring instruments to ensure precision in the preparation of dye mixtures.
- PC7.** Train workers in efficient resource handling to encourage conservation practices.
- PC8.** Keep records of material usage to identify patterns of wastage and improve planning.

Manage Waste Effectively

To be competent, the user/individual on the job must be able to:

- PC9.** Identify various types of waste generated during the dyeing process, including fabric scraps, dye sludge, wastewater, and packaging material.
- PC10.** Segregate waste at source into biodegradable and non-biodegradable categories.
- PC11.** Collect and dispose of chemical waste in accordance with local environmental laws and guidelines.
- PC12.** Avoid releasing untreated dye water into natural drains or public water sources.
- PC13.** Store waste in clearly labelled bins or containers, ensuring lids are secured to avoid spills or exposure.
- PC14.** Recycle fabric offcuts into accessories or other utility products to minimise waste.

Qualification Pack

PC15. Maintain a record of waste generation and disposal methods for auditing and improvement purposes.

Promote Eco-Friendly Practices

To be competent, the user/individual on the job must be able to:

- PC16.** Encourage the use of natural dyes derived from plant sources such as turmeric, pomegranate, or indigo.
- PC17.** Opt for organic cotton or sustainably produced fabrics that have a lower environmental impact.
- PC18.** Incorporate traditional low water dyeing methods such as concentrated dye application or dry tie-dyeing.
- PC19.** Train artisans on the environmental impact of chemicals and promote safer, non-toxic alternatives.
- PC20.** Display commitment to eco-friendly practices through visible certifications, labels, or awareness posters.
- PC21.** Minimise the use of plastic in packaging by opting for recyclable or biodegradable materials.
- PC22.** Review and update production processes to reduce carbon footprint.
- PC23.** Engage with community or industry initiatives focused on sustainability.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Understand the principles of sustainability in textile production.
- KU2.** Know the environmental impact of dyes and chemicals used in tie-dye printing.
- KU3.** Recognise the importance of using eco-friendly and non-toxic dyes.
- KU4.** Understand methods to minimise water and energy consumption during production.
- KU5.** Know proper waste segregation and disposal practices for dye residues and fabric scraps.
- KU6.** Understand the benefits of recycling and reusing materials in the printing process.
- KU7.** Recognise how sustainable practices can improve business reputation and customer loyalty.
- KU8.** Understand legal and regulatory requirements related to environmental protection.
- KU9.** Know techniques for safe handling and storage of chemicals to prevent contamination.
- KU10.** Understand the impact of pollution on local communities and ecosystems.
- KU11.** Recognise the importance of continuous monitoring and improvement of sustainability practices.
- KU12.** Know about alternative sustainable materials and dyes suitable for Leheriya printing.
- KU13.** Understand how to conduct a basic environmental audit of the printing process.
- KU14.** Recognise the role of artisan communities in promoting sustainable production.
- KU15.** Understand the economic benefits of waste reduction and efficient resource use.

Generic Skills (GS)

User/individual on the job needs to know how to:

Qualification Pack

- GS1.** Implement eco-friendly practices in material selection and dyeing processes.
- GS2.** Minimise water and energy use during tie-dye printing operations.
- GS3.** Segregate and dispose of waste materials according to environmental guidelines.
- GS4.** Safely handle and store dyes and chemicals to prevent spills and contamination.
- GS5.** Reuse or recycle fabric scraps and other materials where possible.
- GS6.** Monitor production processes to identify and reduce waste.
- GS7.** Educate colleagues and customers on the importance of sustainability.
- GS8.** Maintain clean and organised workspaces to support sustainable practices.
- GS9.** Record data on resource consumption and waste generation for improvement.
- GS10.** Comply with environmental regulations and standards relevant to textile production.
- GS11.** Use sustainable packaging materials for finished products.
- GS12.** Participate in community or industry initiatives promoting sustainable artisan practices.
- GS13.** Adapt processes to incorporate new sustainable technologies or materials.
- GS14.** Communicate sustainability efforts effectively to stakeholders and customers.
- GS15.** Reflect on personal and business practices to enhance environmental responsibility.

HCS/N9246: Entrepreneurship Skills for Leheriya Printing Artisan

Description

This unit introduces the fundamental entrepreneurship skills required for a Leheriya Printing Artisan to successfully plan, manage, and grow a sustainable textile business, with a focus on marketing, pricing, customer service, and innovation.

Scope

The scope covers the following :

- Identifying Opportunities through Research and Innovation
- Develop a structured and goal-oriented business plan
- Manage budgeting, funding, and financial records
- Promote Leheriya products through effective branding and marketing channels
- Ensure compliance with legal and environmental regulations
- Build and maintain positive relationships with customers

Elements and Performance Criteria

Identifying Opportunities through Research and Innovation

To be competent, the user/individual on the job must be able to:

- PC1.** Identify emerging fashion trends and market preferences for Leheriya products.
- PC2.** Gather information on competitor offerings and customer expectations.
- PC3.** Experiment with new patterns, motifs, and colour combinations.
- PC4.** Incorporate sustainable materials and eco-friendly dyes in product innovation.
- PC5.** Record customer feedback and use it to refine designs or product ranges.

Develop a structured and goal-oriented business plan

To be competent, the user/individual on the job must be able to:

- PC6.** Define the business vision, mission, and objectives for the Leheriya enterprise.
- PC7.** Identify target customers and determine the product range.
- PC8.** Develop pricing, distribution, and promotional strategies.
- PC9.** Estimate the resources, infrastructure, and workforce required.
- PC10.** Prepare a written business plan with clear goals and timelines.

Manage budgeting, funding, and financial records

To be competent, the user/individual on the job must be able to:

- PC11.** Estimate capital requirements for starting or expanding the enterprise.
- PC12.** Prepare a basic budget covering raw materials, labour, marketing, and operations.
- PC13.** Identify potential sources of funding such as loans, grants, or personal savings.
- PC14.** Maintain accurate records of income, expenditure, and stock.
- PC15.** Use financial tools (manual or digital) to track cash flow and profitability.

Promote Leheriya products through effective branding and marketing channels

Qualification Pack

To be competent, the user/individual on the job must be able to:

- PC16.** Create a unique brand identity for the Leheriya products.
- PC17.** Use packaging, labelling, and presentation to convey brand value.
- PC18.** Select appropriate marketing channels (offline and online).
- PC19.** Participate in fairs, exhibitions, or craft markets to showcase products.
- PC20.** Use digital platforms such as social media and e-commerce to reach wider audiences.

Ensure compliance with legal and environmental regulations

To be competent, the user/individual on the job must be able to:

- PC21.** Register the enterprise and obtain the necessary licences or certifications.
- PC22.** Adhere to taxation regulations (e.g., GST registration and filing).
- PC23.** Comply with labour laws if employing assistants or workers.
- PC24.** Ensure the safe and environmentally responsible disposal of dyes and waste materials.
- PC25.** Maintain proper documentation related to business transactions and statutory requirements.

Build and maintain positive relationships with customers

To be competent, the user/individual on the job must be able to:

- PC26.** Interact politely and professionally with customers.
- PC27.** Understand and respond to customer preferences and requirements.
- PC28.** Handle complaints, queries, or returns promptly and respectfully.
- PC29.** Encourage customer loyalty through consistent quality and service.
- PC30.** Maintain a feedback mechanism to continuously improve customer satisfaction.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** Understand the basics of entrepreneurship and its importance for artisans.
- KU2.** Know the market demand for Leheriya tie-dye products locally and globally.
- KU3.** Recognise the key components of a business plan relevant to textile artisans.
- KU4.** Understand pricing strategies based on costs, competition, and customer preferences.
- KU5.** Know various sales channels including direct sales, local markets, and online platforms.
- KU6.** Understand basic financial management concepts such as budgeting and record-keeping.
- KU7.** Recognise the importance of customer service and maintaining customer relationships.
- KU8.** Understand branding and marketing techniques suitable for handmade textiles.
- KU9.** Know the legal and regulatory requirements related to textile production and sales.
- KU10.** Understand the role of quality control in building a reputable business.
- KU11.** Recognise the importance of innovation and product diversification for business growth.
- KU12.** Understand basic digital literacy skills useful for business promotion and management.
- KU13.** Know about available support systems like artisan cooperatives, government schemes, and microfinance.
- KU14.** Understand the significance of sustainable and ethical practices in business.
- KU15.** Know how to identify risks and develop strategies to manage them effectively.

Qualification Pack

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** Develop a simple business plan for Leheriya printing enterprise.
- GS2.** Calculate costs and price products competitively and profitably.
- GS3.** Maintain accurate records of sales, expenses, and inventory.
- GS4.** Communicate effectively with customers, suppliers, and partners.
- GS5.** Use basic digital tools (e.g. smartphone, social media) to promote products.
- GS6.** Demonstrate good customer service skills including handling feedback and complaints.
- GS7.** Plan and organise work schedules to meet production and delivery deadlines.
- GS8.** Network with other artisans and business professionals to explore opportunities.
- GS9.** Apply branding elements consistently to enhance product recognition.
- GS10.** Comply with relevant legal, health, and safety regulations.
- GS11.** Identify new market trends and adapt products accordingly.
- GS12.** Manage resources efficiently to minimise waste and costs.
- GS13.** Respond proactively to business challenges and setbacks.
- GS14.** Collaborate with support organisations or schemes for business development.
- GS15.** Reflect on business performance and seek continuous improvement.

HCS/N9929: Working in a team

Description

This NOS describes the communication and coordination skills and knowledge to work with colleagues and supervisor to achieve a smooth and hazard-free workflow.

Scope

The scope covers the following :

- interact with supervisor or superior
- work as a team by coordinating with colleagues within and outside the department and include
- inputs on PwD & Gender Sensitisation
- report and Document

Elements and Performance Criteria

Interact with supervisor or superior

To be competent, the user/individual on the job must be able to:

- PC1.** comply with health, safety gender, and PwD (People with disability) related instructions applicable to the workplace
- PC2.** actively participate in mock drills/ evacuation procedures; group discussions, training sensitization programs for gender, and PwD awareness organized at the workplace.
- PC3.** receive job orders and instructions from reporting supervisor and receive feedback on work standards.
- PC4.** understand the work output requirements, targets, performance indicators and incentives.
- PC5.** deliver quality work on time and report any anticipated reasons for delays and handover completed work to supervisor
- PC6.** report on any grievances, production defects and any potential hazards.

Work as a team by coordinating with colleagues within and outside the department and include inputs on PwD & Gender Sensitisation

To be competent, the user/individual on the job must be able to:

- PC7.** communicate maintenance and repair schedule proactively to the supervisor
- PC8.** interact and clarify doubts on design, usage of materials & tools, quality & standards compliance, etc.

Report and Document

To be competent, the user/individual on the job must be able to:

- PC9.** report in time for shortage or need of raw materials
- PC10.** communicate with colleagues from within and other departments, clearly and effectively on all aspects to carry out the work among the team
- PC11.** maintain the etiquette, use polite language, demonstrate responsible and disciplined behavior towards colleagues.
- PC12.** put team over individual goals and multi-task or share work where necessary supporting the colleagues.

Qualification Pack

PC13. document all the details accurately relating to ones role as required.

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** knowledge about the importance of gender equality being followed in the organization and policies for reporting any harassment or inappropriate behavior
- KU2.** knowledge about how to accommodate employees with disabilities etiquette to adhere to and proper language and terminology
- KU3.** knowledge about how to communicate, offer help, respecting space, parking etc. for people with disabilities or special needs
- KU4.** knowledge about promoting a safe, accessible and healthy workplace for disabled employees
- KU5.** company's policies on preferred language of communication, incentives, quality standards, personnel management, reporting and escalation matrix policy.
- KU6.** company's standard operating procedure (sop) and the risk and impact of not following them.
- KU7.** procedures for working with colleagues, his/her role and responsibilities in relation to this
- KU8.** organizational hierarchy and the line of reporting structure and work target and review mechanism
- KU9.** procedures to report employment related issues and to deal with conflicts
- KU10.** importance of the individuals role in the organizational workflow and details of the individual responsibilities
- KU11.** tools and equipment handling procedure and common potential hazards in the work place and the procedures to deal with them
- KU12.** effective communication with various categories of people and the different departments in the organization
- KU13.** to document the job activity as required like the check sheets, history sheets, etc
- KU14.** expressing and addressing grievances appropriately, deal with difficult work relationships and manage the internal conflicts effectively

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** create a positive and inclusive workplace atmosphere without any kind of bias/discrimination towards any employee
- GS2.** actively take part in any discussion/workshop organized for gender sensitization training
- GS3.** read and comprehend written instructions related to gender equality issues in the organization
- GS4.** identify and report any harassment or inappropriate behavior towards any employee
- GS5.** create a positive and inclusive workplace atmosphere without any kind of bias/discrimination towards any employee with disability or special needs
- GS6.** actively take part in any discussion/workshop organized for disability sensitization training.

Qualification Pack

- GS7.** read and comprehend written instructions related to equality issues in the organization related to disabled persons
- GS8.** read job sheets, design sheet and information displayed at the workplace
- GS9.** read and understand manuals, health and safety instructions, memos etc
- GS10.** fill up documentation to ones role
- GS11.** communicate effectively with supervisor
- GS12.** contribute to quality of team work and achieve smooth workflow
- GS13.** improve work processes by interacting with others and adopting best practices

Qualification Pack

DGT/VSQ/N0101: Employability Skills (30 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

PC1. understand the significance of employability skills in meeting the job requirements

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

PC2. identify constitutional values, civic rights, duties, personal values and ethics and environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

PC3. explain 21st Century Skills such as Self-Awareness, Behavior Skills, Positive attitude, self-motivation, problem-solving, creative thinking, time management, social and cultural awareness, emotional awareness, continuous learning mindset etc.

Basic English Skills

To be competent, the user/individual on the job must be able to:

PC4. speak with others using some basic English phrases or sentences

Communication Skills

To be competent, the user/individual on the job must be able to:

PC5. follow good manners while communicating with others

PC6. work with others in a team

Qualification Pack

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

PC7. communicate and behave appropriately with all genders and PwD

PC8. report any issues related to sexual harassment

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

PC9. use various financial products and services safely and securely

PC10. calculate income, expenses, savings etc.

PC11. approach the concerned authorities for any exploitation as per legal rights and laws

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

PC12. operate digital devices and use its features and applications securely and safely

PC13. use internet and social media platforms securely and safely

Entrepreneurship

To be competent, the user/individual on the job must be able to:

PC14. identify and assess opportunities for potential business

PC15. identify sources for arranging money and associated financial and legal challenges

Customer Service

To be competent, the user/individual on the job must be able to:

PC16. identify different types of customers

PC17. identify customer needs and address them appropriately

PC18. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC19. create a basic biodata

PC20. search for suitable jobs and apply

PC21. identify and register apprenticeship opportunities as per requirement

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use basic spoken English language

KU6. Do and dont of effective communication

KU7. inclusivity and its importance

KU8. different types of disabilities and appropriate communication and behaviour towards PwD

KU9. different types of financial products and services

Qualification Pack

- KU10.** how to compute income and expenses
- KU11.** importance of maintaining safety and security in financial transactions
- KU12.** different legal rights and laws
- KU13.** how to operate digital devices and applications safely and securely
- KU14.** ways to identify business opportunities
- KU15.** types of customers and their needs
- KU16.** how to apply for a job and prepare for an interview
- KU17.** apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** communicate effectively using appropriate language
- GS2.** behave politely and appropriately with all
- GS3.** perform basic calculations
- GS4.** solve problems effectively
- GS5.** be careful and attentive at work
- GS6.** use time effectively
- GS7.** maintain hygiene and sanitisation to avoid infection

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Element/ Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each Element/ PC.
2. The assessment for the theory part will be based on knowledge bank of questions created by the SSC.
3. Assessment will be conducted for all compulsory NOS, and where applicable, on the selected elective/option NOS/set of NOS.
4. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below).
5. Individual assessment agencies will create unique evaluations for skill practical for every student at each examination/ training center based on these criteria.
6. To pass the Qualification Pack assessment, every trainee should score the Recommended Pass % aggregate for the QP.
7. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Qualification Pack

Minimum Aggregate Passing % at QP Level : 70

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Qualifications Pack (QP)	QP comprises the set of NOSs, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
National Occupational Standard	NOS are occupational standards which apply uniquely in the Indian context.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.

Qualification Pack

Description	Description gives a short summary of the content. This would be helpful to anyone searching on a database to verify that this is the appropriate NOS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.
Knowledge and understanding	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs to perform to the required standard.
Core Skills/ Generic Skills	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These include communication related skills that are applicable to most job roles.
Declarative Knowledge	Declarative knowledge refers to facts, concepts and principles that need to be known and/or understood to accomplish a task or to solve a problem.
Key Learning Outcome	Key learning outcome is the statement of what a learner needs to know, understand and be able to do to achieve the terminal outcomes. A set of key learning outcomes will make up the training outcomes. Training outcome is specified in terms of knowledge, understanding (theory) and skills (practical application).
OJT(M)	On-the-job training (Mandatory) trainees are mandated to complete specified hours of training on site
OJT(R)	On-the-job training (Recommended) trainees are recommended the specified hours of training onsite
Training Outcome	Training outcome is a statement of what a learner will know, understand and be able to do upon the completion of the training.
Terminal Outcome	Terminal outcome is a statement of what a learner will know, understand and be able to do upon the completion of a module. A set of terminal outcomes help to achieve the training outcome.
