HSS/N6003: Support geriatrics in maintaining daily living activities

Description

This OS is about working with geriatric for assisting during activities of daily living

Scope

The scope covers the following :

- Assist during bathing
- Assist for grooming and dressing up
- Support to eat & drink
- Assist for movements in & out
- Assist to maintain normal elimination

Elements and Performance Criteria

Assist during bathing

To be competent, the user/individual on the job must be able to:

- PC1.** ensure to maintain the privacy and encourage geriatric do independently as much as possible
- PC2.** identify the type of bath that is best suited as per the condition, comfort and medical needs
- PC3.** explain the procedure to geriatric before initiating
- PC4.** check water temperature before geriatric checks in
- PC5.** follow standards precautions when performing perennial care or when bathing a geriatric with skin lesion and rashes or bed sore
- PC6.** dry the skin by patting with a towel
- PC7.** never leave geriatric unattended in bath room
- PC8.** wash from cleanest to dirtiest
- PC9.** observe skin changes and report unusual findings to medical team
- PC10.** offer back rub after bathing and at bed time to stimulate circulation and relieve stress
- PC11.** apply lotion to dry skin
- PC12.** clean tub shower chair before and after each use

Assist for grooming and dressing up

To be competent, the user/individual on the job must be able to:

- PC13.** show how they look after dressing is finished
- PC14.** use standard precautions and protocols for shaving and cutting nails
- PC15.** perform duties gently to avoid injuries especially during shaving, brushing and hair styling
- PC16.** rinse toothpaste thoroughly from the mouth after brushing
- PC17.** store dentures in cool water
- PC18.** fasten the clothing with elastic fasteners and ensure that the footwear fits correctly
- PC19.** ensure that clothing is comfortable considering health and weather conditions

Qualification Pack

PC20. provide right size of shoes and slippers with non-slip surface to avoid falls

Support to eat & drink

To be competent, the user/individual on the job must be able to:

PC21. make geriatric comfortable and encourage eating as recommended

PC22. follow standard precautions while assisting for feeding & assess that provided food is according to the dietary prescription

PC23. wash hands and mouth of geriatrics after feeding

PC24. assist in elimination and oral care prior to feeding

PC25. feed through spoon

PC26. measure input and record them

PC27. ensure that geriatric is comfortable when being fed

PC28. monitor and assess if food is comfortable to be taken up by geriatric

PC29. monitor for distress like coughing and regurgitation while feeding

Assist for movements in & out

To be competent, the user/individual on the job must be able to:

PC30. use transferring equipment correctly to avoid falls or injuries

PC31. assess geriatric condition and estimate if additional help is required

PC32. transport geriatric without causing trauma or injury

PC33. use proper body mechanics during movements in & out

PC34. focus on safety first and ensure that the geriatric is comfortable

Assist to maintain normal elimination

To be competent, the user/individual on the job must be able to:

PC35. immediate respond to geriatric elimination needs

PC36. assist a mobile geriatric in moving to the toilet and provide support like giving toilet paper if required or stabilize the commode

PC37. wipe and wash hands to prevent infection

PC38. use equipment correctly to prevent discomfort or injury

PC39. record changes in colour or texture of the elimination and report usual findings immediately

PC40. provide bed pan to geriatric in case needed

PC41. change the diaper as required

PC42. carry out the procedures for catheter changing, suppository & enema procedure, diaper change under the guidance of medical team/physician

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. legislation which relates to working with geriatric including health and safety, confidentiality, provision of services, capacity and consent, relevant mental health legislation

KU2. how to interpret and apply legislation to the work being undertaken

KU3. professional standards and codes of practice for the area of work within older people's services and how to interpret and apply these

Qualification Pack

- KU4.** social gerontology, schemes & programmes for older persons
- KU5.** about ageing & ageing process
- KU6.** to apply appropriate intervention as per case with special focus and attention for care of geriatrics with Alzheimers disease, immobile/semi or un-conscious geriatrics, geriatrics suffering with dementia its different manifestations etc
- KU7.** how to perform bath based on condition as per protocols
- KU8.** the importance of grooming and various functions included undergrooming
- KU9.** how to perform and modify grooming tasks based on geriatric condition e.g. dementia, diabetes and paralysis etc.
- KU10.** to know the importance of dressing using right techniques as per the protocols avoiding cross infection
- KU11.** whom to inform in case of observing problems to geriatrics while feeding and elimination process
- KU12.** ensure that the geriatric is being moved out/ transferred from/within the home or outside considering general and medical condition
- KU13.** how to collect and record feedback about the services
- KU14.** how to drape and undrape
- KU15.** how to perform back rub
- KU16.** how to give complete bed bath, partial bed bath or sitz bath
- KU17.** during bathing observe and report any of the followinga. colour changes of the lipb. rashes, dry skin, bruises, broken skin, reddened areas, abnormal skin temperaturec. drainage, bleeding, complaints of pain and itching
- KU18.** how to clean dentures and store them
- KU19.** how to perform brushing and oral care in unconscious, semi-conscious and bed ridden geriatrics
- KU20.** how to prepare for hair styling, cutting the nails, providing oral care
- KU21.** how to undress & dress a geriatric with minimum discomfort
- KU22.** dressing procedure to prevent spread of infection
- KU23.** appropriate clothing depending upon the geriatric condition and the general environment
- KU24.** how to manage additional equipment like catheter or IV lines while performing the dressing task
- KU25.** the importance of balanced and healthy diet as prescribed by the physician & knowledge about common disease diet plans (Diabetes, Arthritis, Hypertension, GI problems etc.)
- KU26.** how to take care of geriatrics with visual and auditory impairment, ill geriatrics, geriatrics in coma, geriatrics with HIV/AIDS/undergone latest surgery etc.
- KU27.** how to wipe mouth and keep the cloths clean and prevent spilling to maintain dignity and hygiene
- KU28.** how to wash hands and maintain hygiene to prevent spread of infections
- KU29.** how to feed using spoon or through ryle's tube
- KU30.** ability to identify symptoms like choking or uneasiness while feeding and communicate them in correct language medical authority
- KU31.** how to measure intake and record it
- KU32.** how to administer a bed pan in case needed

Qualification Pack

- KU33.** how to assist a geriatric to use the commode
- KU34.** how to check for kinks and obstruction in a indwelling catheter
- KU35.** the process of cleaning and wiping after elimination to prevent infections
- KU36.** how to identify change in colour, odour or texture of the elimination and report it promptly
- KU37.** how to use equipment and techniques correctly to avoid injury or inconvenience
- KU38.** how to maneuver smaller equipment like catheters while transferring the geriatric
- KU39.** how to use body mechanics while transferring to prevent injury or fall
- KU40.** how and when to use the brakes on the transferring equipment
- KU41.** how to take care for geriatrics with assisted/ implantable devices such as external/inetrnal pacemaker, hearing aids, medication patch, spectacles, dentures etc.
- KU42.** actions to be taken up during emergency conditions by acting as a first responder in the event of medical and facility emergencies
- KU43.** how to inform in case of observing something which is clinically important e.g. bed sores
- KU44.** basic structure and function of the body system and associated component

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** write during the communication process in local or understandable manner
- GS2.** record the non-verbal cues during communication
- GS3.** prepare status and progress reports
- GS4.** read about new products and services with reference to geriatric care from various forums such as websites, consultation, medical records etc
- GS5.** keep abreast with the latest knowledge by reading brochures, pamphlets specific to geriatric care
- GS6.** question appropriately in order to understand the nature of the problem and make a use of appropriate intervention
- GS7.** give clear instructions to geriatrics
- GS8.** keep authorities informed about progress
- GS9.** avoid using jargon, slang or acronyms when communicating, unless it is required
- GS10.** interact with the geriatric and their careers
- GS11.** use the types of communication aides that are used in older people's services

HSS/N6001: Implement Interventions to prioritize safety of geriatric

Description

This OS is about working in collaboration with geriatric and with their careers, to implement interventions in the context of their safety. It covers confirming the nature, purpose and goals of the interventions, implementing the interventions and monitoring the outcomes

Scope

The scope covers the following :

- Inform about procedures & services to be provided
- Keep the environment conducive and safe
- Escalations of unresolved problems as per protocol

Elements and Performance Criteria

Inform about procedures & services to be provided

To be competent, the user/individual on the job must be able to:

- PC1.** assess the requirements & apply appropriate intervention accordingly
- PC2.** ensure effective utilization of available resources in home settings
- PC3.** work in collaboration with healthcare team and concerned authority
- PC4.** be well acquainted with home environment
- PC5.** provide personal assistance, medical attention, emotional support to geriatric
- PC6.** monitor and review information through observation to assess problems which could be managed or to be reported immediately

Keep the environment conducive and safe

To be competent, the user/individual on the job must be able to:

- PC7.** take away objects that could obstruct movement or cause injuries
- PC8.** keep the floor dry at all times to avoid tripping and falling to the ground
- PC9.** ensure all safety aides are in working conditions
- PC10.** use pest management techniques to keep the environment free of germs
- PC11.** minimize any discomfort to the geriatric within the restraints due to applied interventions
- PC12.** never leave geriatric unattended
- PC13.** ensure safety and prevent from risk of fall

Escalations of unresolved problems as per protocol

To be competent, the user/individual on the job must be able to:

- PC14.** escalate the problem to a concerned authority if it cannot be resolved
- PC15.** obtain help or advice from concerned authority if the problem is outside his/her area of competence
- PC16.** comply with relevant legislation, standards, policies and procedure

Qualification Pack

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** legislation which relates to working with geriatric including health and safety, confidentiality, provision of services, capacity and consent, relevant mental health legislation
- KU2.** how to interpret and apply legislation to the work being undertaken
- KU3.** professional standards and codes of practice for the area of work within older people's services and how to interpret and apply these
- KU4.** how to balance responsibilities as a professional with organizational and contractual requirements
- KU5.** the nature, aims, objectives, values, policies and systems of the organization
- KU6.** relevant legislation, standards, policies, procedure, human rights perspective for geriatrics
- KU7.** how to engage with both medical team or concerned authority for support in case of requirement
- KU8.** about social gerontology, schemes & programmes for older persons
- KU9.** about ageing & ageing process
- KU10.** to identify & apply appropriate interventions required as per the medical condition to ensure safety considering immobile/semi or un-conscious geriatrics, Alzheimers disease, dementia and its different manifestations etc.
- KU11.** interventions to be taken for prevention of fall
- KU12.** actions in event of a fall incident
- KU13.** actions to be taken up during emergency conditions by acting as a first responder
- KU14.** to support for activities related to tidying up elderly's room to prevent fall
- KU15.** to know about various interventions which could be applied for geriatric safety such as side rails, brakes in wheel chair, locking wheelchair on the slope & ramp
- KU16.** how to take care for geriatrics with assisted devices such as implantable device like external pacemaker, hearing aids, medication patch, spectacles, dentures etc.
- KU17.** how to use Personal Protective Equipment (PPE)
- KU18.** know about safety precautions before applying any intervention for geriatric safety
- KU19.** the methods of obtaining valid consent and how to confirm that sufficient information has been provided on which to base the judgement
- KU20.** the actions to take if geriatric withdraws his/her consent
- KU21.** how to recognise when individuals are not able to exercise their rights to make informed choices
- KU22.** the legal framework for taking decisions for, or acting on behalf of geriatric without capacity
- KU23.** the situations when consent may not be required (e.g. under relevant mental health legislation)
- KU24.** how to deal with issues of confidentiality
- KU25.** basic structure and function of the body system and associated component

HSS/N6004: Assist to cope up with the ill health conditions and promote rehabilitation

Description

This OS is about helping geriatric to cope with changes to their health and well-being. These changes can be anything from coping with a change in individual attending to them, or the loss of a partner, or the loss of their independence or ill health conditions. It is important that the health and well-being is monitored, and that any actions that are required can be identified as soon as possible

Scope

The scope covers the following :

- Promote rehabilitation of geriatric
- Administration of medication as per prescribed dose, route and frequency
- Observing and reporting changes in geriatric condition

Elements and Performance Criteria

Promote rehabilitation of geriatric

To be competent, the user/individual on the job must be able to:

- PC1.** establish a supportive relationship with elderly
- PC2.** encourage rehabilitative activities in lines with medical consultation and health condition of geriatric
- PC3.** encourage geriatric to seek clarification of any procedures
- PC4.** obtain an informed consent of elderly for the actions undertaken on their behalf, and agree on the information which may be passed to others
- PC5.** obtain information from geriatric and their carers on the way in which their needs are being met
- PC6.** identify any areas where support for the geriatric can be improved
- PC7.** identify and prioritize actions required if the needs are not being appropriately addressed
- PC8.** present any concerns that cannot be resolved in an appropriate way to concerned authority
- PC9.** keep the geriatric and their carers informed about the progress in resolving any concerns, and anticipated timescales for any outcomes
- PC10.** produce records and reports that are clear, comprehensive and accurate, and maintain the security and confidentiality of information
- PC11.** explore with geriatric the nature of the changes to their health and well-being, and discuss with them and their carers about how they feel about
- PC12.** perform on-going monitoring and reassessment of geriatric health status
- PC13.** support & promote geriatrics for community participation & social Inclusion as per their health condition
- PC14.** recognizing the signs of health issues, managing chronic conditions, and understanding when to refer elderly individuals to doctors or healthcare centers for physiotherapy, mental health counselling, or chronic disease management

Qualification Pack

Administration of medication as per prescribed dose, route and frequency

To be competent, the user/individual on the job must be able to:

- PC15.** appropriately utilize personal protective equipment (PPE)
- PC16.** review the prescription for generic name, trade name, dose, route, frequency, expiry date before administering
- PC17.** make geriatric comfortable before administering the drug
- PC18.** perform hand washing
- PC19.** prepare & administer medicine following 5Rs as per guidance by the physician/consultation paper
- PC20.** record the administered medicine as per protocol
- PC21.** assess for any discomfort and report to concerned authority immediately
- PC22.** never leave geriatric unattended
- PC23.** do not leave left over medicine near to geriatric or accessible
- PC24.** discard unused/ expired medicines as per bio medical waste management protocols
- PC25.** provide adequate support to the geriatrics depending upon route during drug administration
- PC26.** report any adverse reaction or discomfort to geriatric
- PC27.** encourage geriatric to take medicines on time

Observing and reporting changes in geriatric condition

To be competent, the user/individual on the job must be able to:

- PC28.** observe colour changes/odour changes/consistency changes of skin, body fluids & stools
- PC29.** communicate the observations in an appropriate language and construct
- PC30.** differentiate between immediate and routine reporting requirements
- PC31.** maintain, store and retain the records of medicines taken & all that reflect the clinical care
- PC32.** take approval prior to destroying any old medical record from concerned authority
- PC33.** providing care related to end of life

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** about working with geriatric people including health and safety, confidentiality, the provision of services, the rights of older people, relevant mental health legislation
- KU2.** the professional standards and codes of practice for the area of work within older people's services, and how to interpret and apply these standards
- KU3.** the nature, aims, objectives, values, policies and systems of the organisation
- KU4.** the nature, extent and boundaries of the work role and its relationship to others in the organization
- KU5.** relevant legislation, standards, policies, procedure, human rights perspective for geriatrics
- KU6.** social gerontology, schemes & programmes for older persons
- KU7.** about ageing & ageing process

Qualification Pack

- KU8.** to apply appropriate intervention as per case with special focus and attention for care of geriatrics with Alzheimers disease, immobile/semi or un-conscious geriatrics, geriatrics suffering with dementia its different manifestations etc
- KU9.** how to take care for geriatrics with assisted devices such as implantable devices such as external pacemaker, hearing aids, medication patch, spectacles, dentures etc
- KU10.** the knowledge, scope and limitation of geriatric aide in terms of assisting geriatrics for administration of medication
- KU11.** actions to be taken if the geriatric withdraws his/her consent
- KU12.** various elderly friendly home alternations as per available resources and assist elderly/carers to adopt them
- KU13.** the situations when consent may not be required e.g. under relevant mental health condition & legislation
- KU14.** the routes of drug administration like oral/nasal/topical or Insulin administration as per the standard protocol
- KU15.** standard precautions while drug administration
- KU16.** 5 Rs of drug administration
- KU17.** the side effects of common drugs
- KU18.** bio medical waste management for unused drugs
- KU19.** the actions/measures to be taken if the geriatric withdraws his/her consent for drug administration
- KU20.** actions to be taken up during emergency conditions by acting as a first responder in the event of medical and facility emergencies
- KU21.** the changes that geriatric might go through during the process of ageing
- KU22.** The particular needs at different stages of their life
- KU23.** the information and guidance that is available for geriatrics and their carers, and how to access this information
- KU24.** methods of providing support to help geriatrics for enhancing the quality of life & promote rehabilitation
- KU25.** evidence-based practice, and its role in improving services
- KU26.** main trends & changes relating to the health and well-being of older people
- KU27.** the impact of social relationships and environment on the health and well- being of geriatric
- KU28.** manifestation of discrimination through cultural, social and economic perspective
- KU29.** how to identify and enhance functional capabilities of geriatrics who have a disabling impairment of body part
- KU30.** the impact of the ageing process on older people's communication needs (e.g. sensory impairment, cognition and confused states)
- KU31.** the physical/mental/social changes that older people might go through during ageing process
- KU32.** the particular needs of different older people at different stages of their life
- KU33.** the importance of encouraging geriatric to express their feelings about changes to their situation
- KU34.** other professionals, networks and agencies that are available to support the change process and how to access the same

Qualification Pack

- KU35.** basic structure and function of the body system and associated component
- KU36.** process, condition & resources required by the body to support healthy body
- KU37.** the signs of health issues, managing chronic conditions, and understanding when to refer elderly individuals to doctors or healthcare centers for physiotherapy, mental health counselling, or chronic disease management
- KU38.** the care related to end of life

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** write during the communication process in local or understandable manner
- GS2.** record the non-verbal cues during communication
- GS3.** prepare status and progress reports
- GS4.** read about new products and services with reference to geriatric care from various forums such as websites, consultation, medical records etc
- GS5.** read brochures, pamphlets to update the knowledge specific to geriatric care
- GS6.** question appropriately in order to understand the nature of the problem and make a use of appropriate intervention
- GS7.** give clear instructions to geriatrics
- GS8.** keep authorities informed about progress
- GS9.** avoid using jargon, slang or acronyms when communicating, unless it is required
- GS10.** interact with the geriatric and their carers
- GS11.** use the types of communication aides that are used in older people's services
- GS12.** communicate with healthcare team for any insignificant changes
- GS13.** work with geriatrics to develop appropriate touch & sign communication methods
- GS14.** make decisions pertaining to the concerned area of work
- GS15.** effectively communicate with older people and their carers
- GS16.** possess the ability to make independent decisions when circumstances warrant such action
- GS17.** plan and organize service feedback files/documents
- GS18.** manage relationships with customers who may be stressed, frustrated, confused, or angry
- GS19.** build customer relationships and use customer centric approach
- GS20.** respect an individual's feelings, beliefs and values can affect the communication process
- GS21.** deal with cultural differences keeping effective care
- GS22.** maintain good relationship with geriatrics to identify best ways to make them comfortable and happy
- GS23.** possess the ability and willingness to work harmoniously & patiently with others
- GS24.** think through the problem, evaluate the possible solution(s) and suggest an optimum /best possible solution(s)
- GS25.** make assumptions that are made about older people and their carers arising from communication differences

Qualification Pack

- GS26.** analyse type of assistance the geriatric and their carers require to cope with the changes to their health and well-being
- GS27.** apply, analyse, and evaluate the information gathered from observation, experience, reasoning, or communication, as a guide to belief and action

HSS/N9624: Maintain a safe and secure working environment

Description

This OS unit is about the ensuring a safe and secure working environment

Scope

The scope covers the following :

- Workplace safety and security

Elements and Performance Criteria

Workplace safety and security

To be competent, the user/individual on the job must be able to:

- PC1.** identify potential hazards of safe work practices
- PC2.** use various hospital codes for emergency situations
- PC3.** comply with safety, and security procedures within the defined scope of competence and authority
- PC4.** provide Basic Life Support (BLS) and first aid whenever applicable under defined scope of work
- PC5.** follow organizations' procedures related to any emergency efficiently
- PC6.** report any identified breaches in health, safety, and security procedures to the designated person
- PC7.** complete any health and safety records accurately

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** the importance of health, safety, and security in the workplace
- KU2.** how to identify safety and security hazards
- KU3.** the importance of identifying individual responsibilities in relation to maintaining workplace safety and security requirements
- KU4.** the relevant up-to-date information on safety, and security that applies to the workplace
- KU5.** how to report any emergency
- KU6.** various hospital codes for emergency situations
- KU7.** how to create safety records and maintain them
- KU8.** concept of first aid and BLS
- KU9.** the importance of raising alarm about hazards for safety of others

Generic Skills (GS)

User/individual on the job needs to know how to:

Qualification Pack

- GS1.** read and understand organization policies and procedures
- GS2.** prepare status and progress reports
- GS3.**
 - communicate information (for example, facts, ideas, or messages) in a brief, clear, and
 - organized manner
- GS4.** make decisions pertaining to the area of work
- GS5.** plan for safety of the work environment
- GS6.** identify hazards, evaluate possible solutions and suggest effective solutions
- GS7.** analyze the seriousness of hazards

HSS/N9620: Comply with infection control and biomedical waste disposal policies

Description

This OS unit is about the safe handling and management of health care waste and following infection control policies

Scope

The scope covers the following :

- Management of Healthcare Waste (Biomedical and General waste)
- Infection control practices

Elements and Performance Criteria

Management of Healthcare Waste (Biomedical and General waste)

To be competent, the user/individual on the job must be able to:

- PC1.** segregate healthcare waste as per the updated organizational/ state policies
- PC2.** handle, package, label, store, transport and dispose off waste appropriately as per scope of work

Infection control practices

To be competent, the user/individual on the job must be able to:

- PC3.** follow Universal Precautions to avoid contact with patients' bodily fluids, by wearing Personal Protective Equipment (PPE) and maintaining hand hygiene as and when required
- PC4.** identify infection risks and plan for response appropriately as per organizational policies under scope of work
- PC5.** follow incident reporting protocols as per SOPs in incidents such as needle stick injuries etc.
- PC6.** follow spill management protocols

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** significance of appropriate waste disposal methods as per organizational policies and procedures
- KU2.** person(s) responsible for health, safety, and security in the organization
- KU3.** ways to handle waste appropriately to reduce the risk of contamination
- KU4.** good personal hygiene practices including hand hygiene
- KU5.** types of bio medical waste
- KU6.** different types of color codes designated for types of wastes
- KU7.** concept of segregation, disposal and treatment of bio medical waste
- KU8.** the hazards and risks associated with the waste disposal

Qualification Pack

- KU9.** the required actions and reporting procedures for any accidents and spillages
- KU10.** the requirements of the relevant external agencies involved in the transportation and receiving of waste
- KU11.** the impact of waste on environmental changes
- KU12.** the policies and guidance that clarify scope of practice, accountabilities and the working relationship between oneself and others
- KU13.** management of infection risks at workplace
- KU14.** the path of disease transmission including direct contact and penetrating injuries, risk of acquisition
- KU15.** difference between clean, sterile, and unsterile area
- KU16.** concept of Universal precautions
- KU17.** types of PPE used in healthcare domain such as gloves, gown, goggles etc
- KU18.** correct method of Donning and Doffing of PPE
- KU19.** steps of hand washing according to the updated guidelines
- KU20.** difference between hand rub and hand washing and indications of both
- KU21.** various types of cleaning agents and disinfectants
- KU22.** types of hazardous spills
- KU23.** concept of injection safety
- KU24.** concept of respiratory hygiene

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** • read and understand latest guidelines on managing biomedical waste and
• infection control and prevention
- GS2.** communicate effectively with others
- GS3.** report hazards and incidents clearly with the appropriate level of urgency
- GS4.** plan for safety of the work environment
- GS5.** identify risk, evaluate possible solutions and suggest effective solutions
- GS6.** analyse the seriousness of hazards pertaining to hospital waste and related infections
- GS7.** make decisions pertaining to the area of work
- GS8.** • apply, analyze, and evaluate the information gathered from observation, experience,
• reasoning, or communication, as a guide to act

DGT/VSQ/N0102: Employability Skills (60 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Career Development & Goal Setting
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

- PC1.** identify employability skills required for jobs in various industries
- PC2.** identify and explore learning and employability portals

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

- PC3.** recognize the significance of constitutional values, including civic rights and duties, citizenship, responsibility towards society etc. and personal values and ethics such as honesty, integrity, caring and respecting others, etc.
- PC4.** follow environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

- PC5.** recognize the significance of 21st Century Skills for employment
- PC6.** practice the 21st Century Skills such as Self-Awareness, Behaviour Skills, time management, critical and adaptive thinking, problem-solving, creative thinking, social and cultural awareness, emotional awareness, learning to learn for continuous learning etc. in personal and professional life

Basic English Skills

To be competent, the user/individual on the job must be able to:

Qualification Pack

- PC7.** use basic English for everyday conversation in different contexts, in person and over the telephone
- PC8.** read and understand routine information, notes, instructions, mails, letters etc. written in English
- PC9.** write short messages, notes, letters, e-mails etc. in English

Career Development & Goal Setting

To be competent, the user/individual on the job must be able to:

- PC10.** understand the difference between job and career
- PC11.** prepare a career development plan with short- and long-term goals, based on aptitude

Communication Skills

To be competent, the user/individual on the job must be able to:

- PC12.** follow verbal and non-verbal communication etiquette and active listening techniques in various settings
- PC13.** work collaboratively with others in a team

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

- PC14.** communicate and behave appropriately with all genders and PwD
- PC15.** escalate any issues related to sexual harassment at workplace according to POSH Act

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

- PC16.** select financial institutions, products and services as per requirement
- PC17.** carry out offline and online financial transactions, safely and securely
- PC18.** identify common components of salary and compute income, expenses, taxes, investments etc
- PC19.** identify relevant rights and laws and use legal aids to fight against legal exploitation

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

- PC20.** operate digital devices and carry out basic internet operations securely and safely
- PC21.** use e- mail and social media platforms and virtual collaboration tools to work effectively
- PC22.** use basic features of word processor, spreadsheets, and presentations

Entrepreneurship

To be competent, the user/individual on the job must be able to:

- PC23.** identify different types of Entrepreneurship and Enterprises and assess opportunities for potential business through research
- PC24.** develop a business plan and a work model, considering the 4Ps of Marketing Product, Price, Place and Promotion
- PC25.** identify sources of funding, anticipate, and mitigate any financial/ legal hurdles for the potential business opportunity

Customer Service

To be competent, the user/individual on the job must be able to:

- PC26.** identify different types of customers
- PC27.** identify and respond to customer requests and needs in a professional manner.

Qualification Pack

PC28. follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

PC29. create a professional Curriculum vitae (Résumé)

PC30. search for suitable jobs using reliable offline and online sources such as Employment exchange, recruitment agencies, newspapers etc. and job portals, respectively

PC31. apply to identified job openings using offline /online methods as per requirement

PC32. answer questions politely, with clarity and confidence, during recruitment and selection

PC33. identify apprenticeship opportunities and register for it as per guidelines and requirements

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. need for employability skills and different learning and employability related portals

KU2. various constitutional and personal values

KU3. different environmentally sustainable practices and their importance

KU4. Twenty first (21st) century skills and their importance

KU5. how to use English language for effective verbal (face to face and telephonic) and written communication in formal and informal set up

KU6. importance of career development and setting long- and short-term goals

KU7. about effective communication

KU8. POSH Act

KU9. Gender sensitivity and inclusivity

KU10. different types of financial institutes, products, and services

KU11. how to compute income and expenditure

KU12. importance of maintaining safety and security in offline and online financial transactions

KU13. different legal rights and laws

KU14. different types of digital devices and the procedure to operate them safely and securely

KU15. how to create and operate an e- mail account and use applications such as word processors, spreadsheets etc.

KU16. how to identify business opportunities

KU17. types and needs of customers

KU18. how to apply for a job and prepare for an interview

KU19. apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

GS1. read and write different types of documents/instructions/correspondence

GS2. communicate effectively using appropriate language in formal and informal settings

Qualification Pack

- GS3.** behave politely and appropriately with all
- GS4.** how to work in a virtual mode
- GS5.** perform calculations efficiently
- GS6.** solve problems effectively
- GS7.** pay attention to details
- GS8.** manage time efficiently
- GS9.** maintain hygiene and sanitization to avoid infection

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Either each element/Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory, viva and Skills Practical for each element/PC.
2. The assessment for the theory part will be based on knowledge bank of questions approved by the SSC.
3. Individual assessment agencies will create unique question papers for theory part for each candidate/batch at each examination/training center (as per assessment criteria below).
4. Individual assessment agencies will create unique evaluations for skill practical & viva for every student at each examination/ training center based on these criteria.
5. In case of successfully passing as per passing percentage of the job role, the trainee is certified for the Qualification Pack.
6. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack.

Minimum Aggregate Passing % at QP Level : 70

Qualification Pack

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Assessment Weightage

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
