HSS/N6124: Perform gap analysis of healthcare quality procedures and implement improvement strategy

Description

This unit is about performing gap analysis in healthcare organization as per agreed quality accreditation/certification standards. This also entails implementation of improvement strategy of the quality procedures with healthcare personnel for its compliance.

Scope

The scope covers the following :

- Constitute committees depending upon the size of the healthcare organization
- Perform gap analysis in healthcare organization
- Apply the agreed quality standards to bridge the identified gaps

Elements and Performance Criteria

Constitute committees depending upon the size of the healthcare organization

To be competent, the user/individual on the job must be able to:

- PC1.** reinforce the constitution of the steering and departmental committees
- PC2.** define the aim, objectives and measurable outcomes of the committees
- PC3.** set up the terms of reference of the committees along with timelines, target and resources to meet the desired outcome
- PC4.** ensure the periodicity and nature of meetings of the committees are agreed with committee members

Perform gap analysis in healthcare organization

To be competent, the user/individual on the job must be able to:

- PC5.** orient committees regarding agreed adoption of quality accreditation/ certification standards by the healthcare organization and its objective elements/different sections
- PC6.** discuss the work plan set for achievement of the agreed standards and the documents developed for the various processes, procedures, protocols and standard operating manuals adhering to standards with the respective committees
- PC7.** compare current standards in healthcare organization with the agreed quality standards
- PC8.** compare the vision, mission and business plan of healthcare organization with the agreed quality standards
- PC9.** identify the gaps and strengths based on comparative analysis
- PC10.** identify zero tolerance gaps to be bridged based on agreed quality standards
- PC11.** brainstorm all possible or potential contributing causes and their interrelationships with the identified gaps
- PC12.** summarize the agreed points and present it to the management
- PC13.** derive on final action plan based on discussions and recommendations of management/steering committee on identified gap analysis

Qualification Pack

Apply the agreed quality standards to bridge the identified gaps

To be competent, the user/individual on the job must be able to:

- PC14.** map the identified gaps with objective elements/ different sections of agreed quality standards
- PC15.** devise mechanism to monitor the improvement strategy adopted to bridge the gaps for each department based on action plan with measurable outcomes
- PC16.** implement the improvement strategy in each department and assess the progress periodically
- PC17.** establish a way to communicate progress to management and highlight the issues faced while implementation and its possible solutions or interventions
- PC18.** bridge all identified and agreed gaps, eliminate all root causes and complete the improvement strategy in defined timelines, resources and targets
- PC19.** organize departmental and steering committee meetings periodically to review the status of implementation of improvement strategy till closure
- PC20.** submit the final report of improvement strategy adopted with its achieved outcomes

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** basic structure and function of the healthcare system in the country
- KU2.** basic structure and function of healthcare facilities available at various levels, hospice care, clinics
- KU3.** relevant legislation, standards, policies, and procedures followed in the healthcare organization
- KU4.** the HR protocols, professional and dress code, grievance redressal mechanism as per the guidelines of the organization
- KU5.** medico-legal aspects of Health Information Portability and Accountability
- KU6.** the scope and objectives of the organisation in order to perform the duties to meet the vision and mission of the organisation
- KU7.** in-depth functioning of the organisation in order to choose the appropriate approaches and methods for his/her role defined in the organisation
- KU8.** documentation methods for interdisciplinary communication (wherever applicable) for the specific organisation.
- KU9.** protocols of organization for optimizing health, well-being and illness prevention
- KU10.** background of the organizational structure and staff of the healthcare organization
- KU11.** basics of critical functioning of the healthcare organization
- KU12.** the various departments in the healthcare organization and its interdependency
- KU13.** the critical outcomes expected from each department of the organization
- KU14.** basics of quality concepts, terminology, control, assurance, management, audits, tools and root cause analysis
- KU15.** dimensions of quality management- safety, respect and care, timeliness, efficacy, efficiency, continuity, availability, appropriateness and equity.
- KU16.** regulatory and statutory rules as applicable for workplace and healthcare organization

Qualification Pack

- KU17.** quality frameworks including workplace specific frameworks and the relevant standards laid down by national &/or international accrediting bodies
- KU18.** standards related to occupational safety and hazards & medical device data systems, maintenance management systems as per organization and national agencies
- KU19.** importance of constitution of steering and departmental committees
- KU20.** composition of the steering committee consisting of key stakeholders and experts well-represented across all departments, management, governance and decision makers
- KU21.** composition of the departmental committees depending on various kinds of departments in the healthcare organization consisting of departmental head and key experts of each of the various roles and responsibilities of department
- KU22.** how to define members of the committees well represented by all key stakeholders as appropriate having a measurable interest and influence in both the project and committee itself
- KU23.** how to set the terms of reference of the committees and divide responsibilities among committee members
- KU24.** how to organize committee meetings and the agenda for discussions and decisions periodically
- KU25.** concept and methodology of performing gaps and root cause analysis
- KU26.** methods to devise and implement improvement strategy
- KU27.** importance of periodic review and discussion on current and prospective issues
- KU28.** how to close the assigned project in calm, patient, time-bound, strategic, professional manner within allocated resources
- KU29.** how to overcome various constraints while achieving desired targets
- KU30.** how to exhibit team work and interpersonal relationships at all times
- KU31.** how to moderate and encourage committee members for desired outcomes
- KU32.** how to measure the outcomes of the project

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** draft memos, requests and e-mail to stakeholders, co-workers, and vendors to provide them with work updates and to request appropriate information without appropriate language errors
- GS2.** prepare checklist and document findings and observations
- GS3.** prepare status and progress reports

- GS9.** keep stakeholders informed about the progress

Qualification Pack

- GS10.** avoid using jargon, slang or acronyms when communicating with a stakeholder, unless it is required
- GS11.** make decisions pertaining to the concerned area of work
- GS12.** prepare action plan and roadmap for fulfilling the identified gaps in the healthcare organization in terms of quality standards
- GS13.** manage relationships with colleagues and stakeholders who may be stressed, frustrated, confused, or angry
- GS14.** build relationships with stakeholders and use patient-centric approach
- GS15.** think through the problem, evaluate the possible solution(s) and suggest an optimum /best possible solution(s)
- GS16.** deal with clients lacking the technical background to solve the problem on their own
- GS17.** identify immediate or temporary solutions to resolve delays
- GS18.** identify resources or behavioral change required to accomplish the roadmap and action plan
- GS19.** prioritize the tasks within the roadmap and action plan

Qualification Pack

Assessment Criteria

Assessment Criteria for Outcomes	Theory Marks	Practical Marks	Project Marks	Viva Marks
<i>Constitute committees depending upon the size of the healthcare organization</i>	12	10	20	10
PC1. reinforce the constitution of the steering and departmental committees	-	-	-	-
PC2. define the aim, objectives and measurable outcomes of the committees	-	-	-	-
PC3. set up the terms of reference of the committees along with timelines, target and resources to meet the desired outcome	-	-	-	-
PC4. ensure the periodicity and nature of meetings of the committees are agreed with committee members	-	-	-	-
<i>Perform gap analysis in healthcare organization</i>	13	10	20	10
PC5. orient committees regarding agreed adoption of quality accreditation/ certification standards by the healthcare organization and its objective elements/different sections	-	-	-	-
PC6. discuss the work plan set for achievement of the agreed standards and the documents developed for the various processes, procedures, protocols and standard operating manuals adhering to standards with the respective committees	-	-	-	-
PC7. compare current standards in healthcare organization with the agreed quality standards	-	-	-	-
PC8. compare the vision, mission and business plan of healthcare organization with the agreed quality standards	-	-	-	-
PC9. identify the gaps and strengths based on comparative analysis	-	-	-	-
PC10. identify zero tolerance gaps to be bridged based on agreed quality standards	-	-	-	-
PC11. brainstorm all possible or potential contributing causes and their interrelationships with the identified gaps	-	-	-	-

Qualification Pack

Assessment Criteria for Outcomes	Theory Marks	Practical Marks	Project Marks	Viva Marks
PC12. summarize the agreed points and present it to the management	-	-	-	-
PC13. derive on final action plan based on discussions and recommendations of management/steering committee on identified gap analysis	-	-	-	-
<i>Apply the agreed quality standards to bridge the identified gaps</i>	10	10	10	10
PC14. map the identified gaps with objective elements/ different sections of agreed quality standards	-	-	-	-
PC15. devise mechanism to monitor the improvement strategy adopted to bridge the gaps for each department based on action plan with measurable outcomes	-	-	-	-
PC16. implement the improvement strategy in each department and assess the progress periodically	-	-	-	-
PC17. establish a way to communicate progress to management and highlight the issues faced while implementation and its possible solutions or interventions	-	-	-	-
PC18. bridge all identified and agreed gaps, eliminate all root causes and complete the improvement strategy in defined timelines, resources and targets	-	-	-	-
PC19. organize departmental and steering committee meetings periodically to review the status of implementation of improvement strategy till closure	-	-	-	-
PC20. submit the final report of improvement strategy adopted with its achieved outcomes	-	-	-	-

HSS/N6125: Identify training needs and organize training interventions to meet healthcare quality standards

Description

This unit deals with imparting knowledge to identify training needs and organize training interventions for employees of healthcare organization to meet healthcare quality standards

Scope

The scope covers the following :

- Identify training objectives for employees
- Design, create and monitor the program
- Assess the outcome of the training program

Elements and Performance Criteria

Identify training objectives for employees

To be competent, the user/individual on the job must be able to:

- PC1.** organize meeting with the healthcare management, department and personnel to identify the training need based on agreed quality accreditation/ certification standards
- PC2.** map the identified training needs with objective elements and different sections of agreed quality accreditation/certification standards
- PC3.** divide the training objectives into common and specific for whole organization and its departments, respectively
- PC4.** encourage participants to undertake training interventions for better professional outcomes as well as patient care

Design, create and monitor the program

To be competent, the user/individual on the job must be able to:

- PC5.** set the training objectives and outcomes for all employees/ different categories of the employees working in the healthcare organization
- PC6.** create the training program planner as per the appropriate time for content delivery
- PC7.** design the training program involving relevant information and/or instructions related to quality aspects of healthcare organization
- PC8.** create training modules based on identified learning outcome
- PC9.** ensure use of the appropriate training delivery methods as per the target audience
- PC10.** keep periodicity of training programs based on the identified gaps in quality and improvement strategy to be adopted to bridge the same
- PC11.** ensure training aids are developed and various facilitation techniques are used for demonstrating incorporation of quality aspects in healthcare organization
- PC12.** facilitate organization of regular campaign for reinforcing behavioural change in employees of healthcare organization especially for infection control practices
- PC13.** document all training related communication in the healthcare providers record, including the date, time, and signature of the person delivering the training

Qualification Pack

- PC14.** ensure participant sign-in sheet is verified by departmental head
- PC15.** involve the department heads in the training programs to ensure that they train their respective departments at frequent intervals

Assess the outcome of the training program

To be competent, the user/individual on the job must be able to:

- PC16.** document all participants feedback received during training sessions
- PC17.** conduct pre-training, formative and post-training assessment of the participants & document the findings
- PC18.** implement the documented improvement plan, review and adjust as required
- PC19.** conduct KAP (Knowledge, Attitude and Practices) study periodically

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** basic structure and function of the healthcare system in the country
- KU2.** basic structure and function of healthcare facilities available at various levels, hospice care, clinics
- KU3.** relevant legislation, standards, policies, and procedures followed in the healthcare organization
- KU4.** the HR protocols, professional and dress code, grievance redressal mechanism as per the guidelines of the organization
- KU5.** medico-legal aspects of Health Information Portability and Accountability
- KU6.** the scope and objectives of the organisation in order to perform the duties to meet the vision and mission of the organisation
- KU7.** in-depth functioning of the organisation in order to choose the appropriate approaches and methods for his/her role defined in the organisation
- KU8.** documentation methods for interdisciplinary communication (wherever applicable) for the specific organisation.
- KU9.** protocols of organization for optimizing health, well-being and illness prevention
- KU10.** background of the organizational structure and staff of the healthcare organization
- KU11.** basics of critical functioning of the healthcare organization
- KU12.** the various departments in the healthcare organization and its interdependency
- KU13.** the critical outcomes expected from each department of the organization
- KU14.** basics of quality concepts, terminology, control, assurance, management, audits, tools and root cause analysis
- KU15.** dimensions of quality management- safety, respect and care, timeliness, efficacy, efficiency, continuity, availability, appropriateness and equity.
- KU16.** regulatory and statutory rules as applicable for workplace and healthcare organization
- KU17.** quality frameworks including workplace specific frameworks and the relevant standards laid down by national &/or international accrediting bodies
- KU18.** standards related to occupational safety and hazards & medical device data systems, maintenance management systems as per organization and national agencies

Qualification Pack

- KU19.** significance of training programs and interventions for healthcare personnel for effective implementation of quality standards
- KU20.** how to design the training program involving relevant information and/or instructions about infection control; biomedical equipment routine use, trouble shooting, cleaning and maintenance; patient centric clinical protocols; feedback and grievance mechanism; professional and interpersonal behaviour etc.
- KU21.** how to prepare pre, formative and post assessment for participants
- KU22.** how to identify the training needs of the participants and set training objectives
- KU23.** how to encourage healthcare personnel to undergo training on quality standards
- KU24.** how to develop interactive training modules and sessions considering diverse needs and level of comprehensiveness of participants
- KU25.** how to implement training, keeping group dynamics and group cohesiveness
- KU26.** how to exhibit team work and interpersonal relationships at all times
- KU27.** the concept of high quality learning, teaching and assessment
- KU28.** how to assess outcomes of the training and improvise for next training sessions

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** draft memos, requests and e-mail to stakeholders, co-workers, and vendors to provide them with work updates and to request appropriate information without appropriate language errors
- GS2.** prepare checklist and document findings and observations
- GS3.** prepare status and progress reports
- GS4.** read about new products and services with reference to the organization and also from external forums such as websites and blogs
- GS5.** keep abreast with the latest knowledge by reading relevant materials
- GS6.** communicate in polite, calm, empathetic and congenial manner
- GS7.** discuss task lists, schedules, and work-plan with management, colleagues and subordinates
- GS8.** question stakeholders appropriately in order to understand the nature of the problem and make a diagnosis
- GS9.** keep stakeholders informed about the progress
- GS10.** avoid using jargon, slang or acronyms when communicating with a stakeholder, unless it is required
- GS11.** make decisions pertaining to the concerned area of work
- GS12.** prepare action plan and roadmap for fulfilling the identified gaps in the healthcare organization in terms of quality standards
- GS13.** manage relationships with colleagues and stakeholders who may be stressed, frustrated, confused, or angry
- GS14.** build relationships with stakeholders and use patient-centric approach
- GS15.** think through the problem, evaluate the possible solution(s) and suggest an optimum /best possible solution(s)
- GS16.** deal with clients lacking the technical background to solve the problem on their own

Qualification Pack

HSS/N6126: Carry out internal audits and review the audit findings with management at all stages of healthcare organization

Description

This unit is about creating mechanism of carrying out internal audits and reviewing the audit findings with management for quality, regulatory and statutory compliances at all stages of healthcare organization for devising mechanism of improvement.

Scope

The scope covers the following :

- Create a mechanism for carrying out internal audit
- Review the finding of internal audit with relevant stakeholders
- Devise the mechanism to improve the healthcare systems for compliance to agreed quality standards
- Devise the mechanism to improve the healthcare systems for regulatory and statutory compliance

Elements and Performance Criteria

Create a mechanism for carrying out internal audit

To be competent, the user/individual on the job must be able to:

- PC1.** identify the processes, procedures and documents to be audited and define its periodicity as per priority and focus
- PC2.** create an internal audit schedule and share with respective departments and relevant healthcare personnel
- PC3.** develop the process of internal audit in consultation with departmental committees
- PC4.** prepare the checklist for objectivizing the internal audit mapping to external audit process adopted by agreed quality accreditation/certification body
- PC5.** devise mechanism to include internal audit as an accepted policy for the department
- PC6.** encourage adoption of audit checklist by each stakeholder for carrying out their own periodic audits
- PC7.** conduct the internal audit based on the checklist or processes laid down for the respective department
- PC8.** record the audit findings in the prescribed checklist for discussion with the stakeholders and analyse the trend over period of time
- PC9.** create culture of carrying out both intra-departmental and inter-departmental audits in a friendly manner

Review the finding of internal audit with relevant stakeholders

To be competent, the user/individual on the job must be able to:

- PC10.** prepare summary of audit findings gathered from both intra and inter departmental audits periodically
- PC11.** provide recommendations on improvements to be undertaken for bridging the gaps
- PC12.** present the audit summary to departmental committees as per defined periodicity

Qualification Pack

- PC13.** present the audit summary to management and discuss the identified gaps, its causative factors, recommendations for improvement and readiness of the healthcare organization for applying to agreed quality accreditation/ certification
- PC14.** build follow up & corrective action plan based on management review in consultation with departmental committees

Devise the mechanism to improve the healthcare systems for compliance to agreed quality standards

To be competent, the user/individual on the job must be able to:

- PC15.** apply the objective elements/different sections of agreed quality standards to bridge the identified gaps
- PC16.** collaborate with healthcare staff to ensure that quality improvement interventions taken are specific, measurable, achievable, relevant and timely.
- PC17.** conduct random / surprise effective checking of works and ensure execution of good quality practices by healthcare personnel for overall improvement in efficiency of the organization
- PC18.** review the status of corrective/preventive actions taken within the Quality Assurance cell periodically
- PC19.** ensure protection of patients and family rights during care
- PC20.** structure quality assurance and continuous monitoring programme within the organization
- PC21.** identify key indicators to monitor the clinical & managerial structures, processes and outcomes
- PC22.** establish system for continuous monitoring of patient care services

Devise the mechanism to improve the healthcare systems for regulatory and statutory compliance

To be competent, the user/individual on the job must be able to:

- PC23.** emphasize on pending regulatory and statutory compliance of the healthcare organization during internal audit & define its periodic review
- PC24.** prepare a calendar of actionable points to meet the requirements of statutory compliances
- PC25.** implement suitable redressal mechanism for deviations in the policy, objectives, rules, regulations, applicable legal requirements
- PC26.** record each document required for regulatory and statutory compliances accurately

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** basic structure and function of the healthcare system in the country
- KU2.** basic structure and function of healthcare facilities available at various levels, hospice care, clinics
- KU3.** relevant legislation, standards, policies, and procedures followed in the healthcare organization
- KU4.** the HR protocols, professional and dress code, grievance redressal mechanism as per the guidelines of the organization
- KU5.** medico-legal aspects of Health Information Portability and Accountability
- KU6.** the scope and objectives of the organisation in order to perform the duties to meet the vision and mission of the organisation

Qualification Pack

- KU7.** in-depth functioning of the organisation in order to choose the appropriate approaches and methods for his/her role defined in the organisation

HSS/N6127: Prepare and support healthcare organization before, during and after external audits for achieving quality accreditation/ certification

Description

This unit is about preparing healthcare organization for applying to agreed accreditation/certification body and then support before, during and after external audit process for achieving the accreditation/certification

Scope

The scope covers the following :

- Complete application process of agreed quality accreditation/ certification body
- Support healthcare organization before external audit
- Support healthcare organization during external audit
- Support healthcare organization after external audit

Elements and Performance Criteria

Complete application process of agreed quality accreditation/ certification body

To be competent, the user/individual on the job must be able to:

- PC1.** prepare the list of documents necessary to apply for the accreditation/certification process
- PC2.** gather all documents and related evidences from respective departments required for accreditation and review for any missing or irrelevant document/s
- PC3.** resolve all the queries pertaining to documents and reports from relevant personnel
- PC4.** fill in the required details in given application process
- PC5.** channelize financial and manpower resources for due completion of application for accreditation/certification
- PC6.** ensure review of the application file from management/steering committees before applying to the body
- PC7.** ensure receipt of final application file by the agreed quality accreditation/ certification body

Support healthcare organization before external audit

To be competent, the user/individual on the job must be able to:

- PC8.** decipher the external audit process adopted by accreditation/ certification body
- PC9.** map the measures taken by accredited/certified healthcare organizations for readiness for external audits
- PC10.** train healthcare personnel for external audits
- PC11.** organize a mock survey/audit to assess the readiness of the organization
- PC12.** implement final modifications, if any
- PC13.** liaise with accreditation/certification body for any corrective measures to be taken
- PC14.** organise pre-audit trainings and sessions by accreditation body personnel for preparing organization for external audit

Qualification Pack

PC15. check for schedule of the external audit and communicate to all relevant personnel in the healthcare organization

Support healthcare organization during external audit

To be competent, the user/individual on the job must be able to:

PC16. provide the necessary documents during the external audit

PC17. support and maintain the patency of documents being asked by the external auditor

PC18. accompany the external auditor during the audit rounds

PC19. answer queries or concerns being raised by the external auditors

PC20. review the report given by external auditor before getting it cross-signed by authorized personnel of the healthcare organization

PC21. gather feedback of external auditors regarding the quality processes of healthcare organization

Support healthcare organization after external audit

To be competent, the user/individual on the job must be able to:

PC22. study the corrective action and summary report given by the accreditation/ certification body after external audit

PC23. identify gaps raised in the report and prepare an improvement plan to eliminate the discrepancies found in the report and non-compliance of rules and regulations, if any

PC24. organize meetings with the steering and departmental committees to discuss the identified gaps and improvement plan post-external audit

PC25. evaluate and refine processes, procedures, protocols and relevant documents based on the post-audit report and subsequent improvement plan

PC26. liaise with accreditation/certification body for final checks, once the corrective action has undertaken

PC27. ensure compliance to each concern raised by the body till the grant of provisional/final accreditation/certification

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

KU1. basic structure and function of the healthcare system in the country

KU2. basic structure and function of healthcare facilities available at various levels, hospice care, clinics

KU3. relevant legislation, standards, policies, and procedures followed in the healthcare organization

KU4. the HR protocols, professional and dress code, grievance redressal mechanism as per the guidelines of healthcare regulations such as HIPAA, OSHA, ISO, Joint Commission standards, and other national or international accreditation requirements of the organization

KU5. medico-legal aspects of Health Information Portability and Accountability

KU6. the scope and objectives of the organisation in order to perform the duties to meet the vision and mission of the organisation

KU7. in-depth functioning of the organisation in order to choose the appropriate approaches and methods for his/her role defined in the organisation

Qualification Pack

- KU8.** documentation methods for interdisciplinary communication (wherever applicable) for the specific organisation.
- KU9.** protocols of organization for optimizing health, well-being and illness prevention
- KU10.** background of the organizational structure and staff of the healthcare organization
- KU11.** basics of critical functioning of the healthcare organization
- KU12.** the various departments in the healthcare organization and its interdependency
- KU13.** the critical outcomes expected from each department of the organization
- KU14.** basics of quality concepts, terminology, control, assurance, management, audits, tools and root cause analysis
- KU15.** dimensions of quality management- safety, respect and care, timeliness, efficacy, efficiency, continuity, availability, appropriateness and equity.
- KU16.** regulatory and statutory rules as applicable for workplace and healthcare organization
- KU17.** quality frameworks including workplace specific frameworks and the relevant standards laid down by national &/or international accrediting bodies
- KU18.** standards related to occupational safety and hazards & medical device data systems, maintenance management systems as per organization and national agencies
- KU19.** the external audit process of the agreed quality accreditation or certification body
- KU20.** the required documents and evidences for applying to accreditation/ certification body
- KU21.** the importance of liaison with the representatives of accreditation/ certification body for seamless external audit process
- KU22.** importance of supporting the healthcare organization before, during and after external audit process
- KU23.** how to support in the whole accreditation process in a calm, patient, time-bound, strategic, professional manner within allocated resources
- KU24.** how to overcome various constraints while achieving desired accreditation/certification
- KU25.** how to exhibit team work and interpersonal relationships at all times
- KU26.** how to accompany external auditors for achieving desired outcomes
- KU27.** how to measure the outcomes of the project

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** draft memos, requests and e-mail to stakeholders, co-workers, and vendors to provide them with work updates and to request appropriate information without appropriate language errors
- GS2.** prepare checklist and document findings and observations

HSS/N6128: Promote Institutionalizing continuous quality improvement in healthcare organization

Description

This unit is about institutionalizing continuous quality improvement within healthcare organization and supporting healthcare organization during surveillance and monitoring of quality post-accreditation/certification

Scope

The scope covers the following :

- Institutionalize the quality processes
- Maintain sustainability of healthcare quality systems for achieved accreditation/certification

Elements and Performance Criteria

Institutionalize the quality processes

To be competent, the user/individual on the job must be able to:

- PC1.** introduce new quality standards, concepts and tools into the organization
- PC2.** encourage stakeholders to introduce quality improvement based changes in the organization
- PC3.** implement small-scale QA activities or experiments regularly
- PC4.** develop mechanisms for diffusion of QA results and learnings across healthcare organization
- PC5.** develop strategy for QA expansion like defining priorities, setting goals, planning implementation, etc.
- PC6.** build capacity and develop leadership for QA expansion
- PC7.** share innovation and best national/international practices regarding quality concepts among healthcare personnel
- PC8.** identify missing essential elements or lagging QA activities and take corrective actions regularly
- PC9.** enhance coordination of QA strategy and activities
- PC10.** support establishment of a learning environment towards quality control, monitoring and assurance
- PC11.** motivate the management and healthcare staff towards habituation of adopting quality standards based processes, procedures, protocols and standard operating manual in each and every step
- PC12.** institutionalize the culture of inherent assessments of each step or activity undertaken against measurable quality outcomes as a convention/norm for lasting impact
- PC13.** organize short-term and long-term training sessions for healthcare personnel
- PC14.** create positive competitive environment and introduce recognitions to personnel following quality, regulatory and statutory standards
- PC15.** explore new areas beyond the quality standards and take them as project

Maintain sustainability of healthcare quality systems for achieved accreditation/certification

Qualification Pack

To be competent, the user/individual on the job must be able to:

- PC16.** assess the periodic status of compliance with latest version of regulatory, statutory and quality standards
- PC17.** create mechanism of periodic internal audits as a norm
- PC18.** inform the management of changes in the latest version of standards that may affect the scope of accreditation of the healthcare organization
- PC19.** maintain the technical competence of healthcare personnel regarding quality control and assurance by organizing recognized training courses
- PC20.** retain all quality related and technical records throughout the period between periodic assessments
- PC21.** support healthcare organization during surveillance and monitoring of the sustainability of accreditation/certification
- PC22.** liaise with accreditation/certification body for better interpersonal relationships after accreditation as well
- PC23.** organize periodic departmental and steering committee meetings for reviewing the current status and improvement plan as regular practice

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** basic structure and function of the healthcare system in the country
- KU2.** basic structure and function of healthcare facilities available at various levels, hospice care, clinics
- KU3.** relevant legislation, standards, policies, and procedures followed in the healthcare organization
- KU4.** the HR protocols, professional and dress code, grievance redressal mechanism as per the guidelines of the organization
- KU5.** medico-legal aspects of Health Information Portability and Accountability
- KU6.** the scope and objectives of the organisation in order to perform the duties to meet the vision and mission of the organisation
- KU7.** in-depth functioning of the organisation in order to choose the appropriate approaches and methods for his/her role defined in the organisation
- KU8.** documentation methods for interdisciplinary communication (wherever applicable) for the specific organisation.
- KU9.** protocols of organization for optimizing health, well-being and illness prevention
- KU10.** background of the organizational structure and staff of the healthcare organization
- KU11.** basics of critical functioning of the healthcare organization
- KU12.** the various departments in the healthcare organization and its interdependency
- KU13.** the critical outcomes expected from each department of the organization
- KU14.** basics of quality concepts, terminology, control, assurance, management, audits, tools and root cause analysis
- KU15.** dimensions of quality management- safety, respect and care, timeliness, efficacy, efficiency, continuity, availability, appropriateness and equity.

Qualification Pack

- KU16.** regulatory and statutory rules as applicable for workplace and healthcare organization
- KU17.** quality frameworks including workplace specific frameworks and the relevant standards laid down by national &/or international accrediting bodies
- KU18.** standards related to occupational safety and hazards & medical device data systems, maintenance management systems as per organization and national agencies
- KU19.** tools of process management system- team building and group- integration tools, specific process/ technical tools, process flow chart, check sheets and histograms, pareto analysis, fishbone analysis, process control chart, Quality Function Deployment (QFD)
- KU20.** TQM (Total Quality Management) principles- customer focused organization, leadership, involvement of people, process approach, system approach to management, continual improvement, factual approach to decision making, mutually beneficial supplies relationship.
- KU21.** how to procure up-to-date quality standards
- KU22.** how to support post-accreditation in calm, patient, time-bound, strategic, professional manner within allocated resources
- KU23.** how to overcome various constraints while sustaining achieved accreditation/certification
- KU24.** how to exhibit team work and interpersonal relationships at all times
- KU25.** how to organise internal audits and liaison for external audits for sustaining achieved accreditation/certification
- KU26.** how to measure the outcomes of the project
- KU27.** how to inculcate the culture and habit of following only quality and stringent processes at all times within the healthcare organization

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** draft memos, requests and e-mail to stakeholders, co-workers, and vendors to provide them with work updates and to request appropriate information without appropriate language errors
- GS2.** prepare checklist and document findings and observations
- GS3.** prepare status and progress reports
- GS4.** read about new products and services with reference to the organization and also from external forums such as websites and blogs
- GS5.** keep abreast with the latest knowledge by reading relevant materials
- GS6.** communicate in polite, calm, empathetic and congenial manner
- GS7.** discuss task lists, schedules, and work-plan with management, colleagues and subordinates
- GS8.** question stakeholders appropriately in order to understand the nature of the problem and make a diagnosis
- GS9.** keep stakeholders informed about the progress
- GS10.** avoid using jargon, slang or acronyms when communicating with a stakeholder, unless it is required
- GS11.** make decisions pertaining to the concerned area of work
- GS12.** prepare action plan and roadmap for fulfilling the identified gaps in the healthcare organization in terms of quality standards

Qualification Pack

- GS13.** manage relationships with colleagues and stakeholders who may be stressed, frustrated, confused, or angry
- GS14.** build relationships with stakeholders and use patient-centric approach
- GS15.** think through the problem, evaluate the possible solution(s) and suggest an optimum /best possible solution(s)
- GS16.** deal with clients lacking the technical background to solve the problem on their own
- GS17.** identify immediate or temporary solutions to resolve delays
- GS18.** identify resources or behavioral change required to accomplish the roadmap and action plan
- GS19.** prioritize the tasks within the roadmap and action plan

DGT/VSQ/N0103: Employability Skills (90 Hours)

Description

This unit is about employability skills, Constitutional values, becoming a professional in the 21st Century, digital, financial, and legal literacy, diversity and Inclusion, English and communication skills, customer service, entrepreneurship, and apprenticeship, getting ready for jobs and career development.

Scope

The scope covers the following :

- Introduction to Employability Skills
- Constitutional values - Citizenship
- Becoming a Professional in the 21st Century
- Basic English Skills
- Career Development & Goal Setting
- Communication Skills
- Diversity & Inclusion
- Financial and Legal Literacy
- Essential Digital Skills
- Entrepreneurship
- Customer Service
- Getting ready for Apprenticeship & Jobs

Elements and Performance Criteria

Introduction to Employability Skills

To be competent, the user/individual on the job must be able to:

- PC1.** understand the significance of employability skills in meeting the current job market requirement and future of work
- PC2.** identify and explore learning and employability relevant portals
- PC3.** research about the different industries, job market trends, latest skills required and the available opportunities

Constitutional values – Citizenship

To be competent, the user/individual on the job must be able to:

- PC4.** recognize the significance of constitutional values, including civic rights and duties, citizenship, responsibility towards society etc. and personal values and ethics such as honesty, integrity, caring and respecting others, etc.
- PC5.** follow environmentally sustainable practices

Becoming a Professional in the 21st Century

To be competent, the user/individual on the job must be able to:

- PC6.** recognize the significance of 21st Century Skills for employment

Qualification Pack

- PC7.** practice the 21st Century Skills such as Self-Awareness, Behaviour Skills, time management, critical and adaptive thinking, problem-solving, creative thinking, social and cultural awareness, emotional awareness, learning to learn for continuous learning etc. in personal and professional life
- PC8.** adopt a continuous learning mindset for personal and professional development

Basic English Skills

To be competent, the user/individual on the job must be able to:

- PC9.** use basic English for everyday conversation in different contexts, in person and over the telephone
- PC10.** read and understand routine information, notes, instructions, mails, letters etc. written in English
- PC11.** write short messages, notes, letters, e-mails etc. in English

Career Development & Goal Setting

To be competent, the user/individual on the job must be able to:

- PC12.** identify career goals based on the skills, interests, knowledge, and personal attributes
- PC13.** prepare a career development plan with short- and long-term goals

Communication Skills

To be competent, the user/individual on the job must be able to:

- PC14.** follow verbal and non-verbal communication etiquette while communicating in professional and public settings
- PC15.** use active listening techniques for effective communication
- PC16.** communicate in writing using appropriate style and format based on formal or informal requirements
- PC17.** work collaboratively with others in a team

Diversity & Inclusion

To be competent, the user/individual on the job must be able to:

- PC18.** communicate and behave appropriately with all genders and PwD
- PC19.** escalate any issues related to sexual harassment at workplace according to POSH Act

Financial and Legal Literacy

To be competent, the user/individual on the job must be able to:

- PC20.** identify and select reliable institutions for various financial products and services such as bank account, debit and credit cards, loans, insurance etc.
- PC21.** carry out offline and online financial transactions, safely and securely, using various methods and check the entries in the passbook
- PC22.** identify common components of salary and compute income, expenses, taxes, investments etc
- PC23.** identify relevant rights and laws and use legal aids to fight against legal exploitation

Essential Digital Skills

To be competent, the user/individual on the job must be able to:

- PC24.** operate digital devices and use their features and applications securely and safely
- PC25.** carry out basic internet operations by connecting to the internet safely and securely, using the mobile data or other available networks through Bluetooth, Wi-Fi, etc.
- PC26.** display responsible online behaviour while using various social media platforms

Qualification Pack

- PC27.** create a personal email account, send and process received messages as per requirement
- PC28.** carry out basic procedures in documents, spreadsheets and presentations using respective and appropriate applications
- PC29.** utilize virtual collaboration tools to work effectively

Entrepreneurship

To be competent, the user/individual on the job must be able to:

- PC30.** identify different types of Entrepreneurship and Enterprises and assess opportunities for potential business through research
- PC31.** develop a business plan and a work model, considering the 4Ps of Marketing Product, Price, Place and Promotion
- PC32.** identify sources of funding, anticipate, and mitigate any financial/ legal hurdles for the potential business opportunity

Customer Service

To be competent, the user/individual on the job must be able to:

- PC33.** identify different types of customers and ways to communicate with them
- PC34.** identify and respond to customer requests and needs in a professional manner
- PC35.** use appropriate tools to collect customer feedback
- PC36.** follow appropriate hygiene and grooming standards

Getting ready for apprenticeship & Jobs

To be competent, the user/individual on the job must be able to:

- PC37.** create a professional Curriculum vitae (Résumé)
- PC38.** search for suitable jobs using reliable offline and online sources such as Employment exchange, recruitment agencies, newspapers etc. and job portals, respectively
- PC39.** apply to identified job openings using offline /online methods as per requirement
- PC40.** answer questions politely, with clarity and confidence, during recruitment and selection
- PC41.** identify apprenticeship opportunities and register for it as per guidelines and requirements

Knowledge and Understanding (KU)

The individual on the job needs to know and understand:

- KU1.** need for employability skills and different learning and employability related portals
- KU2.** various constitutional and personal values
- KU3.** different environmentally sustainable practices and their importance
- KU4.** Twenty first (21st) century skills and their importance
- KU5.** how to use English language for effective verbal (face to face and telephonic) and written communication in formal and informal set up
- KU6.** importance of career development and setting long- and short-term goals
- KU7.** about effective communication
- KU8.** POSH Act
- KU9.** Gender sensitivity and inclusivity
- KU10.** different types of financial institutes, products, and services

Qualification Pack

- KU11.** components of salary and how to compute income and expenditure
- KU12.** importance of maintaining safety and security in offline and online financial transactions
- KU13.** different legal rights and laws
- KU14.** different types of digital devices and the procedure to operate them safely and securely
- KU15.** how to create and operate an e- mail account
- KU16.** use applications such as word processors, spreadsheets etc.
- KU17.** how to identify business opportunities
- KU18.** types and needs of customers
- KU19.** how to apply for a job and prepare for an interview
- KU20.** apprenticeship scheme and the process of registering on apprenticeship portal

Generic Skills (GS)

User/individual on the job needs to know how to:

- GS1.** read and write different types of documents/instructions/correspondence in English and other languages
- GS2.** communicate effectively using appropriate language in formal and informal settings
- GS3.** behave politely and appropriately with all to maintain effective work relationship
- GS4.** how to work in a virtual mode, using various technological platforms
- GS5.** perform calculations efficiently
- GS6.** solve problems effectively
- GS7.** pay attention to details
- GS8.** manage time efficiently
- GS9.** maintain hygiene and sanitization to avoid infection

Assessment Guidelines and Assessment Weightage

Assessment Guidelines

1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Either each element/Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory, viva and Skills Practical for each element/PC.
2. The assessment for the theory part will be based on knowledge bank of questions approved by the SSC.
3. Individual assessment agencies will create unique question papers for theory part for each candidate/batch at each examination/training center (as per assessment criteria below).
4. Individual assessment agencies will create unique evaluations for skill practical & viva for every student at each examination/ training center based on these criteria.
5. In case of successfully passing as per passing percentage of the job role, the trainee is certified for the Qualification
6. In case of unsuccessful completion, the trainee may seek reassessment on the Qualification Pack

Minimum Aggregate Passing % at QP Level : 70

Qualification Pack

(Please note: Every Trainee should score a minimum aggregate passing percentage as specified above, to successfully clear the Qualification Pack assessment.)

Assessment Weightage

Compulsory NOS

National Occupational Standards	Theory Marks	Practical Marks	Project Marks	Viva Marks	Total Marks	Weightage
HSS/N6134.Interpret Healthcare Accreditation and Quality Standards	42	10	-	25	77	20

Glossary

Sector	Sector is a conglomeration of different business operations having similar business and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.
Occupation	Occupation is a set of job roles, which perform similar/ related set of functions in an industry.
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organisation.
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the Knowledge and Understanding (KU) they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.
Performance Criteria (PC)	Performance Criteria (PC) are statements that together specify the standard of performance required when carrying out a task.
National Occupational Standards (NOS)	NOS are occupational standards which apply uniquely in the Indian context.
Qualifications Pack (QP)	QP comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A QP is assigned a unique qualifications pack code.
Unit Code	Unit code is a unique identifier for an Occupational Standard, which is denoted by an 'N'
Unit Title	Unit title gives a clear overall statement about what the incumbent should be able to do.
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.
Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on quality of performance required.

Qualification Pack

Knowledge and Understanding (KU)	Knowledge and Understanding (KU) are statements which together specify the technical, generic, professional and organisational specific knowledge that an individual needs in order to perform to the required standard.
Organisational Context	Organisational context includes the way the organisation is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.
Technical Knowledge	Technical knowledge is the specific knowledge needed to accomplish specific designated responsibilities.
Core Skills/ Generic Skills (GS)	Core skills or Generic Skills (GS) are a group of skills that are the key to learning and working in today's world. These skills are typically needed in any work environment in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.
Electives	Electives are NOS/set of NOS that are identified by the sector as contributive to specialization in a job role. There may be multiple electives within a QP for each specialized job role. Trainees must select at least one elective for the successful completion of a QP with Electives.
Options	Options are NOS/set of NOS that are identified by the sector as additional skills. There may be multiple options within a QP. It is not mandatory to select any of the options to complete a QP with Options.
